WORLD'S FOOD FAIR.

A Magnificent Exhibition Formally Opened at Boston.

GROCERS HAVE A BIG PARADE.

Escorted Guests to Mechanics' Fair Building.

BOSTON, Oct. 1.—The World's Food fair opened today under most favorable auspices. To describe the bewildering beauties, the striking effects, the skillful drapings and the wonderful groupings to be seen in Mechanics' building would require hours of study. The great halls are embowered in bunting of many colors, draped and entwined, twisted and knotted, until it would seem that the brain that conceived it all must be in the same kaleidoscopic condition, and amid the folds of bright bunting beautiful paintings are embedded, and in the grand hall the portraits of the successive presidents of the Boston Retail Grocers' association repose in patriotic frames.

The exhibits are over 200 in number, and are the most artistic of any ever seen in New England, the educational effects of the World's fair being clearly apparent.

The grocery stores in Boston and in many suburban cities closed at noon today, and the grocers to the number of 1000 escorted the governor and other distinguished guests to the building. The order of formation was as follows:

The Parade.

Mounted police
Naval Brigade band, E. N. Lafricain, leader.
W. H. Oakes, chief marshal, and mounted staff.
Boston Retail Grocers' association,
A. W. Hersey, President.
First Division.
East Boston Cadet band.
Boston Retail Grocers' association.
Second Division.
Lowell Retail Grocers' association,
E. D. Fletcher, president.
Old Colony Retail Grocers' association,
Frederick Humphrey, president.
Carriages.
Governor F. T. Greenhalge, Adjutant General Dalton, George H. Bond.
Hon. Winslow Warren, Andrew J. Lovell, governor's staff.
Hon. Christopher O'Brien, Charles James, governor's staff.
Rev. E. A. Horton, J. A. Litchfield and F. O. White.
Officers of Association and Food fair.
Boston newspaper representatives.

The Speakers.

Arriving at the building the formal exercises took place in the grand hall, the general manager making the opening address. He was followed by Albert W. Hersey, president of the association. Governor Greenhalge was the next speaker. He delivered an eloquent address, eulogizing the grocers and commending their efforts. Speeches were also made by Hon. Winslow Warren, collector of the port of Boston, and Christopher O'Brien, for the city of Boston, extended to all visitors the hospitality of the city of Boston.

At the conclusion of the exercises a reception was tendered the invited guests by Mrs. E. A. Richardson of the home department, assisted by Mrs. George H. Bond, Mrs. A. C. Douse, Mrs. J. H. Wright and Mrs. A. J. Lovell. The honorary board of this department were also present, as follows: Edward Atkinson, LL.D., Ph.D.; Mrs. Ole Bull; Dr. Susanna W. Dodds, dean of hygienic college; Mrs. C. D. Homans, Mrs Julia Ward Howe, Mrs. Arabella Howe, Mrs. M. M. Kehew, Mrs. Mary A. Livermore, Mrs. Eveleen L. Mason, Mrs. J. M. Ordway; Mrs. Alice Freeman Palmer, dean of Chicago university; Mrs. Maria S. Porter, Mrs. William B. Sewall, Dr. Alice B. Stockham, Chicago; Dr. Winslow, Washington; Mrs. Roger L. Wolcott.

The Czar's Ailments.

VIENNA, Oct. 1.—The Tagblatt publishes a letter from St. Petersburg stating that the czar is suffering with two distinct maladies. He has been affected for some time with highly developed neurasthenia, coupled with anæmia. When the attacks are severer than usual his whole household is alarmed. The second disease was long in developing. At first it was taken for diabetes, then bright's disease, and finally for a tuberculous affliction of the kidneys.

The Farmers' Congress.

WHEELING, Oct. 1.—The Farmers' National congress, composed of delegates from every state in the Union, appointed by the governors, will meet in Parkersburg tomorrow, and remain in session until Saturday evening. Six hundred delegates will be in attendance. The National Farmers' congress is non-partisan in its character.

Had a Bullet-Hole In His Temple.

HARTFORD, Oct. 1.—Albert Lauberhan, a lumberman working in a camp in Glastonbury, was found unconscious in the woods near the camp, with a fatal bullet hole in his right temple. His companions declare that Lauberhan said, soon after he was found, that he shot himself. Lauberhan is 40 years old and unmarried.

The President's Sabbath.

BUZZARD'S BAY, Mass., Oct. 1.—Mr. Cleveland remained home all day Sunday. An uncomfortable northeast storm made him keep close to open grate fires. The president has been notified that the White House improvements will be completed in season for his return after Oct. 15.

Dropped Dead.

PROVIDENCE, Oct. 1.—Thomas W. Hedley, leader of the National band and one of the best-known musicians in New England, dropped dead of apoplexy while hunting near Lime Rock yesterday afternoon.

WONDERFUL FLYING JIB.

With a Running Mate He Paced a Mile In 1:59 1-2 on a Kite Track.

CHILLICOTHE, O., Oct. 1.—Flying Jib, the celebrated gelding, at the kite track, hitched to a running mate, paced a mile in the phenomenal time of 1:59½, lowering the record of 2:01¾ made by Westmont in Chicago in 1884, at this style of racing, by 2¼s. The performance does not constitute a record, as this method of pace making is not recognized as legal, and has no bearing on Robert J's valid record of 2:01½.

FLYING JIB.

Flying "Jib" was driven by Andy McDowell. Up the track the fleet-footed animal went without a skip, while the spectators held their breath in amazement. In he came to the home stretch, apparently going faster every step. When the time of 1:59½ was announced, the spectators could scarcely believe it, and still more dumfounded were they when the last half of the mile was announced as being made in 58½.

A BERLIN SENSATION.

Batch of Military Officers Arrested and Bundled Off to a Fortress.

BERLIN, Oct. 1.—The arrests of several non-commissioned officers here yesterday probably had nothing to do with socialism. The commander of the gunnery school is disliked on account of his severity. Having lately noticed the growing spirit of insubordination, he called the non-commissioned officers together and severely reprimanded them. This was on Friday night.

The men subsequently became noisy and troublesome, and the commander visited their rooms and ordered that they be silent. The men became insolent, and openly refused to obey the order. They became threatening, and the commander drew his sword in self-defense. This had the effect of restoring order.

The commander immediately telegraphed to Emperor William, who ordered the arrest of the mutineers. The Fourth regiment of the Guards was summoned and surrounded the school during the night. The non-commisioned officers were aroused and went into the courtyard where the commander addressed them, saying: "You are all prisoners. Everybody who tries to escape must abide the consequences."

All the prisoners were escorted to the railway station at 3 o'clock in the morning and sent to the Magdeburg fortress.

Another version of the affair says that the commander, Baron Stettin, was passing through the courtyard during a drinking bout and that the men upon seeing him shouted insulting words.

Honored by Italians.

ROME, Oct. 1.—A monument to Shelley, the English poet, erected by Italian admirers, was unveiled yesterday at Viareggio, off which town Shelley was drowned July 8, 1822. The monument, which is 15 feet high, faces the sea in Paolina square. The bust represents the poet at the age of 29 years, in a meditative attitude. The pedestal is simple, but elegant. Sig. Ricciotti delivered an address, after which he formally transferred the monument to the keeping of the mayor of Viareggio, amid the cheering of the assemblage.

A Good Idea.

WASHINGTON, Oct. 1.—Second Assistant Postmaster General Nelson has ordered prepared maps of all the large cities, showing the surface car lines, with a view of having mail cars run over them. He expects to give his attention especially to carrying mail on electric cars which run from centers of cities to the suburbs and to adjoining smaller towns.

Attacked by Rowdies.

HANOVER, N. H., Oct. 1.—A crowd of roughs in Lebanon attacked a party of six Dartmouth students and treated them to a dose of eggs and stones. One student was hurt. Finally the students opened fire and shot a man named Marson in the arm. The cause of the assault is unknown. More trouble is likely to follow.

Brewers Are Yielding.

BERLIN, Oct. 1.—Negotiations have been opened between the brewers and the socialists with a view of bringing about a compromise of the long-continued beer boycott. The brewers have accepted a portion of the demands made by the socialists, and it is probable that the negotiations will effect the desired end.

On a Permanent Basis.

NEWPORT, R. I., Oct. 1.—The racing meeting of the Newport Racing association was so successful it has been determined to make the association permanent. A capital of $50,000 has been subscribed and land hired, and work will begin at once to make the finest track in the country.

Work of Wind.

LYNN, Mass., Oct. 1.—Mrs. Dr. M. R. Donovan, while returning from church, was probably fatally injured by a falling tree, which was blown down by the high wind. Others narrowly escaped.

A Convent Scandal.

NAPLES, Oct. 1.—A serious scandal affecting a convent here is giving rise to much comment. The lady superior and several other persons have been arrested.

At Death's Door.

MONTREAL, Oct. 1.—Ex-Premier Mercier is still alive, but death may come at any moment. He is still able to walk about his room.

Destructive Fire In Leeds.

LONDON, Oct. 1.—The Crown Point Color Printing works of Leeds have been destroyed by fire, entailing a loss of £100,000.

TREATY IS RATIFIED.

Chinese Officials' Signature Affixed to Important Documents.

IT WAS PROMPLY ACTED UPON.

Many Groundless Rumors Are Thus Disposed Of.

WASHINGTON, Oct. 1.—Notification has been given to this government in an informal way of the ratification by the Chinese government of the new treaty between the United States and China, which was negotiated by Secretary of State Gresham and the Chinese minister, Yang Yu, and ratified by the senate on the part of the United States. Only the formal exchange of ratifications between the department of state and the minister is to be transacted to make the treaty the law governing the relations of the two powers, and this ceremony will doubtless take place within a month.

Minister Yang Yu called upon Secretary Gresham last week and said to him that he had received word from his government that it had ratified the treaty; that the documents had been forwarded to him; also that he had received instructions to exchange ratifications with the United States as soon as it was delivered to him.

The treaty with China's seal and signature was sent from Pekin about four weeks ago, being forwarded by way of Shangha. In the ordinary course of communication,

Six Weeks Would Be Required

for its transmittal to Washington, so that it is not expected at the legation for two weeks, the minister said.

This is the first authentic information received in this country regarding the action of the Chinese authorities on the treaty. So long a time has elapsed since the treaty was drawn that speculation had begun to float about in semi-official circles, which, disregarding the distance between the two capitals and the time required for communication, questioned whether the Chinese authorities intended to ratify the treaty, whether they were not dissatisfied with it, or were not delaying the exchange of ratifications to serve some diplomatic purposes of their own.

It would seem from the information given to the secretary of state by the Chinese minister that these speculations have been without much ground. As the diplomatic business of the government is from its nature transacted secretly, Minister Yang Yu's communication to the secretary of state was not made known until Secretary Gresham's attention was called to these speculations afloat concerning the course of the Chinese government.

Then Secretary Gresham gave to the press the true status of the matter, and said in effect that the reports that there was any cause for dissatisfaction over the way China was proceeding toward the consummation of the treaty was entirely groundless.

Served In Two Wars.

JACKSONVILLE, Fla., Oct. 1.—General James A. Peeden died here yesterday. He was born in Wilmington, N. C., in 1816. In 1836 he came to Florida and took part in the Seminole war. On the breaking out of the Mexican war he enlisted and served with distinction. After the Mexican war he returned to Florida and devoted himself to the practice of law. Under the administration of President Pierce he was appointed charge d'affaires to Buenos Ayres, and served in that capacity for four years. He served many years in the legislature, and was a brigadier general of state troops. General Peeden was never married.

Doctors Locked Up.

CHICAGO, Oct. 1.—Belle White, 24 years of age, daughter of a wealthy lumberman, died yesterday while under treatment for the removal of face blemishes. Death was caused, it was supposed, by the use of cocaine in connection with an electrical current which was used. The operator was Dr. Sophie Santa. Eliza James, the business partner of Dr. Santa, was assisting in the operation at the time. The young woman died almost instantly. Dr. Santa, with her assistant, was locked up until the exact cause of the young woman's death is known.

Bad Wreck In Ohio.

TOLEDO, Oct. 1.—A train, No. 42, on the Wabash railroad was wrecked at Maumee yesterday. The accident was the result of a well-laid plan to ditch the entire train. The Pullman cars kept on the track. Engineer Smith was killed and Fireman Day was fatally injured. At the time of the accident the train was running at the regular speed, and it is considered a miracle that more lives were not lost. The dead engineer and dying fireman were both new men on the line.

Two Old Soldiers Murdered.

DAYTON, O., Oct. 1.—Friday was pension day at the Soldiers' home, and the veterans were paid $150,000. A few of them visited the dives in the vicinity of the institution and were robbed Saturday. At 1 o'clock yesterday afternoon two old soldiers were found robbed and murdered, and their bodies lying in the public road. Their names were Adolphus Curgan and John Barrett. Fifty suspects are locked up.

Fitz Evidently Means Business.

BRIDGEPORT, Conn., Oct. 1.—Bob Fitzsimmons left this city today with his manager, Captain Glori, for New York, to post with the Herald a $1000 forfeit to fight Corbett. If this is not covered within 30 days, Fitzsimmons will claim the championship of the world. He says Corbett is afraid to fight him. Fitzsimmons signed papers at the Olympic club to fight for a $5,000 purse, the winner to take all.

The ladies in this vicinity will appreciate the introduction of the celebrated Standard Patterns, of which we have put in a full line, and will certainly be a convenience to our numerous patrons.

After a thorough examination by ourselves, and receiving the endorsement of some of the best dry goods houses in the New England states, and particularly from several houses who formerly carried Buttericks—who now carry the Standard—we are convinced that the "Standard Patterns" are far superior to all others—in being more up to date, better modeled, simpler directions for making—insuring perfect satisfaction, a great saving in time, much less fitting to do, and allowing just enough seams, thereby considerable saving in material—there being no waste as in others every pattern is modeled to the human form, and are so nicely proportioned that it is almost impossible to produce anything (if directions are followed, and which are extremely simple) but a beautiful fitting garment.

Try one of the STANDARD PATTERNS on our recommendation and we think you will agree with us that they are better than any other pattern sold in this city.

The Standard Fashion Sheets and the beautiful Handy Catalogue are free to all.

The Ladies' Standard Magazine is issued monthly, costs but 50 cents per year and should be in every household; you will surely subscribe for it when you have examined a sample copy at our store; it is the best and cheapest Ladies' magazine in existence, single copies 5 cents.

Editorial Comment.

We congratulate Hon. William Everett of the seventh congressional district on his safe and timely deliverance from a bad lot.—Herald.

Dr. Everett and the Herald too will probably vote the Republican ticket this year.

THE CITY authorities thought at first that the Canal street bridge was disfigured with printer's ink. Did they suspect our neighbor? Now suspicions are directed toward a Democrat. We did not think a Republican would do the act.

A Grand Wind Up.

There is to be a benefit game of ball at North Weymouth and a great game it will be. The two nines that are to face each other are the North Weymouths of 1893 and the North Weymouths of 1894. This will be the last game of the season and for this event the management have secured for the battery of the '93 team, "Patsy" Dolan of New Bedford and "Buster" Burrell of Minneapolis. Both of these men formerly played in Weymouth and as they will be pitted against Connors and Burrell of this year's team there will be some fancy ball twirling. P. Cray formerly of the New England league will umpire. Game will be called at 3 o'clock.

The Duck's Nest.

There was a large crowd in attendance at the Duck' Nest on Saturday evening. Mr. James Casey captured the silver medal.

The solid gold medal for the championship of Wollaston arrived on Saturday. It is a very clever bit of handiwork and was made by Mr. Edward E. Bullock. It is in shape of a badge and represents a duck swimming, with a maltese cross pendant containing a miniature target surmounted by the word "Nest."

On Friday evening there was a lively game of billiards between Gillespie and Barker. After some exciting work Barker came out the victor.

Free Delivery Extension.

The extension of the free postal delivery to Quincy Point and West Quincy went into effect this morning and everything is working smoothly, and the citizens are apparently very much pleased. On the first delivery the two new carriers took out about four hundred and fifty letters each, and the early morning collection was quite large. To the people of the new districts the delivery of their mail is a novelty and cannot help but prove a forcible reminder that Quincy is now a city, and is therefore entitled to some of the luxuries enjoyed by cities.

At the wedding of Mr. Ezekiel Sargent Sampson of Quincy and Miss Gertrude Frances Dusenbury of Springfield in the Court Square church, Springfield, Sept. 26, by Rev. Edward Norton of Quincy, Mr. Ernest Steer of Waterbury, Conn., was best man and Miss Hinsdale of Springfield, maid of honor. Miss Mary F. Sampson and Miss Hattie E. Sargent of Quincy and Inez Forbes of Springfield were bridemaids. The bride wore a white faille silk with duchess lace trimmings and veil and carried a bouquet of twenty-one bride roses.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Polling places will be designated at the meeting of the City Council this evening.

October 6 is an eventful day in the political calendar. It is the date of the Republican State convention in Boston. It is the last day for registration of voters in every city and town, except Boston, to post in each voting precinct preliminary alphabetical list of voters. It is the last day for designating polling places.

Hon. William S. McNary is not going to have a walkover in the Democratic convention in the 10th congressional district. Hon. John B. Martin is in the fight to stay and he has already been assured of considerable support. It is expected that the convention will be held in Gray's Hall, South Boston, next Friday evening.—Herald.

The joint Representative Republican convention will be held at the Republican headquarters, Quincy, on Tuesday evening.

The DAILY LEDGER was not very slow in giving the details of the Republican Senatorial convention of Saturday afternoon.

A strong influence is being brought to bear on John Q. A. Field of this city, an ex-commissioner, to enter the contest for the Republican nomination for County Commissioner, but he is reluctant to again assume the duties. The pressure comes from different parts of the county, which are willing to make an issue on lower taxes. They argue that an ex-commissioner is needed at this time, one who has a mind of his own. Quincy people know that Mr. Field has, and so do others in the county. Mr. Field has promised to decide in a day or two whether he will enter the field.

Following are those who have recently filed applications with the City Clerk for naturalization papers: Ernest G. Burke, Walter E. Burke, John N. Malcom, Michael J. Canty, Lawrence Curtin, Thomas McNally and John P. Fitzpatrick.

A number of aliens received their first naturalization papers in the District Court this morning.

The funeral services over the remains of Frederick J. Gilbert of Wollaston were held from his late residence on Safford street, on Sunday afternoon. The services were conducted by the Rev. Charles L. Goodell of the Winthrop street church of Boston. The John Hancock lodge, I. O. O. F., of Wollaston, attended the funeral in a body escorting a delegation from the Putnam lodge of Roxbury. The floral tributes were beautiful. The body will be interred at Bridgeport, Conn., this afternoon.

Madame See of New York addressed the people of Quincy Sunday evening in Faxon hall in a very enthusiastic manner, relating many truths that should long be remembered, and practiced. Her audience hope to hear from her again in a like manner to awaken new thoughts and new ideas in the sleeping humanity.

The finishing touches are now being put on St. Chrysostom's Episcopal church of Wollaston. The Hook & Hastings organ came out on Saturday and will be set up this week. The pews and choir seats are in. Mr. Thomas Whalen expects to finish grading the grounds this week. It is probable that the opening service will be held this month.

George W. Mitchell of Quincy is making quite a reputation as a bicycle rider. In the races at the Weymouth fair Saturday, he captured the first prize in the one-half mile race, a $35 silver service, time, one minute, thirteen seconds; and the first prize in the one mile handicap, a $30 double-barrel shot gun, time, two minutes, twenty-five and one-fifth seconds.

BICYCLE RACES.

The Milton Course Was Changed from Quincy to Milton Centre.

Quite a large crowd gathered at East Milton Saturday afternoon to witness the bicycle races. The course was from in front of the Rugby building to near the Town House and back a distance of 4 1-4 miles.

The first race was an open one, and should have been limited to local riders but instead of that the management allowed John Weathergreen of Malden, a fast class A man to enter against the amateurs and he was therefore an easy winner.

There were five entries in the race which was won by Weathergreen, time 12 minutes 28 1-4 seconds, Walter B. Skinner second. The prizes were a pair of imported vases and a box of cigars.

The second was called a novice race and there were three entries. On the home stretch a train at the East Milton depot interfered somewhat with the finish, but the first prize was given to Walter B. Skinner.

There was a dispute about the second prize, both R. A. Robertson and Charles Gallagher claiming it.

The judges were really to blame for leaving the tape and running to the depot, and to settle it Mr. Quimly decided to have Robertson and Gallagher run the race over again. Robertson refused to do so and Gallagher went over the course alone and was given the second prize.

The prizes were a gentleman's dressing case and a box of cigars.

During the races the Milton band gave an open air concert.

William Clark, the news agent at East Milton, will hereafter have the LEDGER on sale daily after 4 P. M. Today it is presented to Milton readers by D. E. Wadsworth & Co.

INDUSTRIAL EDUCATION.

What is Being Accomplished by the Young Men's Christian Association.

Saturday afternoon and evening Mr. George B. Hodge, Secretary of the International Committee of the Young Men's Christian Associations of North America, was present at the rooms of the local association and explained to a large number of young men present, the work of the educational branch. Samples of industrial educational work selected from associations all over the country were shown, and it is only fair to state that the average age of the young men who did the work was 23 years, and that they did not know when their work was executed to what use it was to be put.

The exhibition was an interesting one, showing as it did the courses through which the 20,000 young men in these classes have passed, from the time that their unskilled hands took hold of the work until they had mastered the particular branch in which they were interested, and as the young men in these classes are engaged during the day obtaining a livelihood, it showed what it is possible for any young man with ambition to accomplish.

The exhibition showed specimens of courses in free hand, mechanical and architectural drawing and industrial design, leading toward such technical lines as machine construction, boiler making, carriage draughting, wood and metal working, civil, mechanical, architectural and electrical engineering.

The number of associations that have taken hold of this line of work has increased from 4 in 1860 to 3,000 at present, and the number of young men has increased from 12 to 20,000 in six years.

Of the daily occupations of these 20,000 young men 24 per cent. are in offices; 15 per cent. students; 40 per cent. clerks and salesmen, and 10 per cent. in mechanical and several trades.

The Quincy association proposes to take up this work and will open evening classes in monumental draughting, clay modeling, free hand drawing and designing, Wednesday evening.

LITERARY SOCIETY.

Reorganized for Coming Season with Dr. McLennan as President.

At a preliminary business meeting of the Quincy Literary society held in Doble's hall, on Saturday evening, it was resolved to reorganize the society for the ensuing term. An interesting syllabus of subjects for discussion during the current three months was compiled, and the following office bearers were elected to serve for that period:

President,—Dr. R. McLennan.
Vice President,—William Traynor.
Secretary and Treasurer,—Alex. Souter.
Editor of Magazine,—Alex. M. Craig.
Standing Committee,—William Taylor, Alex. Cowe, A. D. Smith.

Amid the many facilities for mental cultivation that modern life presents, few mediums are better calculated to promote that end than a literary society. It serves alike to stimulate the young and interest the old. To relieve scholastic asperity, and promote broadly tolerant fellowship. To provide at once a field for the patient specialist, and a definite purpose for the desultory student.

The past meetings of the society have been conducive of pleasure and profit to its members. There is every indication that the coming session will compare favorably with previous years. The presence of old familiar members is assured, and new ones are expected. Membership is open to all, irrespective of sex, sect, or color. Whoever has information to impart, or knowledge to gain is cordially welcome.

The meetings will be held on Friday evenings of each week in the above building.

The inaugural address of the president-elect Dr. R. McLennan will be given at next meeting, together with other social and literary features.

THE SUNDAY GALE.

A Large Sloop Drifts Ashore at Wollaston Beach—Very High Tide.

The heavy north-east gale on Sunday kicked up an ugly chop sea in Quincy bay. The tide at noon came well up to the banks and over the marshes. Allie Williams' gunning stand was flooded but did not wash away.

But little damage was done to the yachts. The most serious yet reported was the drifting ashore of J. N. Tewksbury's large sloop yacht Gretchen on the Sailors' Home beach. The Gretchen, with Mr. Tewksbury and four others on board, was riding at anchor off the Wollaston beach when the wind shifted and piped up fresh from the eastward at about five o'clock Sunday morning. The anchor held for a time, but as the gale increased it was seen by her crew that she was dragging. Another anchor was got out but that did not hold her, so a third one was put out, but still she drifted. A bit of her jib was then hoisted to see if it would not be possible to work her off shore, but in the meantime the gale had increased to a hurricane and with a lee shore close under her bow Capt. Tewksbury saw that nothing would save her from going ashore. She struck Allie Williams' duck stand, but did no damage to herself or the stand. She rested easy and probably did not start a seam.

Fred Pierce's jib and mainsail boat Thix also came ashore.

MILTON'S PRIDE.

A Business Block With a Modern Hall, Which Means Much to East Milton.

The completion of the new Ellsworth block at East Milton makes a great addition to the village and gives it a business look it has not heretofore possessed.

The new block is situated near the depot and is a handsome, well appointed, structure. On the street floor are three stores, two of which are already open and the third will be opened this week.

The west corner store is occupied by W. H. Puffer as a druggist, in which will also be located a long distance public telephone station. The next store is occupied by D. E. Wadsworth & Co. as a dry goods store and was opened on Saturday. Mr. Wadsworth, a successful Quincy merchant, has a very pretty store, and as it is well stocked with the leading novelties in that line, his store will fill a long-felt want to this section, which has never had a first-class dry goods store. The third store will be occupied by T. L Pearce as a grocery and provision store. These stores are all lighted by the new system of kerosene lighting, although the building is wired for electricity.

From the west side of the building there is a broad entrance leading to the upper story. It enters a good-sized vestibule in which there is a convenient ticket office. From this vestibule entrance is had to the East Milton reading room, which is a large, well lighted room, well adapted to the purpose for which it is to be used.

There is also another smaller room which T. L. Williams, West Quincy's popular jeweller will open, and also another room. Besides these rooms there is a large gentlemen's room with movable racks and on the opposite side is a ladies room fitted with all modern conveniences. It has an entrance to the stage and can be used as a dressing room.

There is also on this floor a good sized public hall which is a beauty. The hall is fitted with the Andrew, Damerst Co. folding seats and with its two balconies will seat comfortably without crowding, 330.

One of the balconies is divided into loges of four seats each. There is also ample stage room for concerts and lectures with an addition in case it is wanted for for exhibitions.

On the third floor there is a large banquet room with seating capacity for 100 leading from which is a large kitchen with sink and running water.

The basement has a cemented floor and here is located the heating apparatus, and there is also a room partitioned off for the use of the stores.

The building is 55 to 70 feet, and the contractor was J. D. Chute.

[*To be continued.*]

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

Is a positive cure for all those painful

Ailments of Women.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacements, of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the *Change of Life*. Every time it will cure

Backache.

It has cured more cases of Leucorrhœa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That

Bearing-down Feeling

causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes

Irregularity,

Suppressed or Painful Menstruations, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility. Also

Dizziness, Faintness,

Extreme Lassitude, "don't care" and "want to be left alone" feeling, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy, or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the Uterus, or

Womb Troubles.

The whole story, however, is told in an illustrated book entitled "Guide to Health," by Mrs. Pinkham. It contains over 90 pages of most important information, which every woman, married or single, should know about herself. Send 2 two-cent stamps for it. For

Kidney Complaints

and Backache of *either sex* the Vegetable Compound is unequaled.

Days Gone By.

Oh, the days gone by! Oh, the days gone by!
The apple in the orchard, and the pathway through the rye,
The chirrup of the robin, and the whistle of the quail
As he piped across the meadows sweet as any nightingale,
When the bloom was on the clover, and the blue was in the sky,
And my happy heart brimmed over, in the days gone by.

In the days gone by, when my naked feet were tripped
By the honeysuckle's tangles, where the water lilies dipped,
And the ripple of the river lipped the moss along the brink,
Where the placid eyed and lazy footed cattle came to drink,
And the tilting snipe stood fearless of the truant's wayward cry
And the splashing of the swimmer, in the days gone by.

Oh, the days gone by! Oh, the days gone by!
The music of the laughing lip, the luster of the eye,
The childish faith in fairies and Aladdin's magic ring,
The simple, soul reposing, glad belief in everything,
When life was like a story holding neither sob nor sigh,
In the olden, golden glory of the days gone by.
—James Whitcomb Riley.

Czar's Yachts Ordered to Athens.

ST. PETERSBURG, Oct. 1.—The czar personally telegraphed here from Spala ordering that the imperial yachts Polar Star and Tsarevna be dispatched to the Piræus, the port of Athens, as soon as possible. Both vessels will sail on Oct. 13. The motive of the order is unknown.

Prominent Unitarian Dead.

CONCORD, Mass., Oct. 1.—Rev. Grindal Reynolds, aged 71, died here yesterday afternoon. He had been secretary of the American Unitarian association for the past 12 years and was pastor of the First Parish church here from 1858 to 1882.

Victim Badly Injured.

SACO, Me., Oct. 1.—Alphonso Hill, a Dayton farmer, was arrested for assault with intent to kill West Newell. Newell is in a critical condition.

—The Lexow investigation in New York goes to show that the police actually robbed the lawyers. That is an exhibition of talent generally considered extremely rare and wonderful.

Why does the air of the pine woods have such a beneficial effect on consumptives? It is on account of its purity and of the antiseptic substances contained in the exhalations from the trees.

Guaiacol

represents these exhalations in a concentrated form. Although taken in through the stomach, in

Slocum's Ozonized Norwegian Cod Liver Oil With Guaiacol

instead of being breathed in, as in the pine woods, it is taken up by the blood from the stomach and carried to the lungs, producing the most beneficial effects. Pleasant to take and a perfect remedy for consumption.

PLAYED GOOD BALL.

Orioles Worked Hard to Secure the Baseball Pennant.

PLAYERS HAVE GOOD RECORDS.

Boston Wound Up the Season In Third Place.

BOSTON, Oct. 1.—The baseball race is over and the Baltimores are under the wire first, with the New Yorks in second place and the Bostons third.

The pennant winners have played good ball all the season, have expended a lot of money to strengthen the pitchers' position and have always been able to cope with the other clubs. Never during the season was the club weak in the box. And that's more than can be said of other clubs.

The club has received hearty support from the Baltimore papers, the American, Herald, Sun and News. They have proved potent factors in the race and have helped in a large measure in winning the pennant for their city.

Personnel of New Champions.

The following is a brief sketch of the regular players of the champion club:

Captain Wilbert Robinson was born in Hudson, Mass., and is 27 years of age. He first played in Haverhill in '85. He was signed by the Philadelphia club the next year, and played with the Phillies until '90, when Manager Barnie secured him for Baltimore, where he has been ever since. The Oriole captain is regarded as the finest backstop in the country.

CAPTAIN WILBERT ROBINSON.

Joe Kelley, the leftfielder, is 22 years old. His first professional engagement in baseball was with the Lowell team in '91, and his first appearance in the League was with Boston and later with the Pittsburg team. During the latter part of '92 he was secured from the Pittsburg club.

Dan Brouthers, the first baseman, gives his age as 33. He first played ball in 1878 in Stottsville, N. Y. He played in Baltimore in '80, and the following two years in Buffalo. It was in '88 that he came to the front in the League with the champion Detroit team He next played with the Boston teams until '92 and '93, when he was secured by the Brooklyns. Dan became an Oriole this season.

Bonner, the hard-hitting utility player, is 24 years old. In '86 he secured a position on the Providence team and then went to Plainfield, N. J. In '91 and '93 he was with the Wilkesbarre (Pa.) team and made a great record as a hitter. Manager Hanlon signed him early in the year.

Hugh Jennings, who has won himself considerable fame for his phenomenal fielding at shortstop, is 23 years of age. He played with several clubs about Pittsburg, and then went to Louisville. In the latter part of last season Hanlon secured Jennings.

Keeler, the little rightfielder, is now 22 years of age. He started his baseball career in '89 with the Plainfield (N. J.) club, and remained there until '92. Last year he signed with the New York club, and then went to Brooklyn. He was one of the jewels secured for Tredway and Shindle in the trade with the Brooklyn club.

Henry P. Reitz, the crack little second baseman, in '91 played ball in Rochester and in Sacramento, and in '92 he played with the San Francisco team. He signed with the Baltimores for the season of '93.

John McGraw, or "Mugsy," as he is generally known, the third baseman of the team, is one of the hardest workers on the diamond. He is now 21 years of age. In '90 he started out with a team from Olean, N. Y., and played with different minor league clubs until the latter part of '91, when he went to Baltimore as a shortstop.

John J. McMahon, the star pitcher of the club, came to Baltimore with Robinson in '90. In '87 and '88 he started his baseball career with the Westchester (Pa.) club.

Walter Brodie, centerfielder, was born 26 years ago. In '87 he played professional ball with the Altoona (Pa.) club, and afterward played with the Wheeling and Hamilton (Ont.) teams. In '90 and '91 he was engaged by the Bostons and the next year went to St. Louis.

William J. Clarke, change catcher, is 25 years old. He first played in Pueblo, Colo., in '89, and the next year played in Ottumwa, Ia. In '91 he went to San Francisco; in '92 played with the San Jose team. From there he went to Baltimore.

The Temple Cup Series.

The controversy over the Temple cup series ended last night. Captain Hanlon of Baltimore met Captain Ward of the New York club at Chicago, and it was decided to play a series of six or seven ball games in New York and Baltimore, the series to end when either club has won four games. The gate receipts will be equally divided. The money taken in will be given to the players.

The first two games will be played in Baltimore on Thurs'ay and Friday of this week. The clubs will play in New York on the 7th, 9th and 10th. If the contest is not then finished, the clubs will return to Baltimore and play the finishing games there, commencing on the 13th.

Ravaged by a Cyclone.

PARIS, Oct. 1.—A dispatch from San Domingo states that half of that town was destroyed by a cyclone.

THE PATHAN RELEASED.

Great Britain's Protest Received Due Attention From Chinese Officials.

SHANGHAI, Oct. 1.—Owing to the protest of Great Britain, the Tsung Li Yamen has ordered the release of the British steamer Pathan, recently seized by a Chinese warship, on suspicion that she was carrying contraband of war. The owners of the steamer intend to claim damages.

Viceroy Li Hung Chang has received important dispatches by pony express from Pekin. His enemies sedulously encourage the dowager empress in the belief that the defeats of the Chinese forces were due to his incompetence and corruption.

A dispatch to The Times from Frankfort says that the London correspondent of the Frankfort Zeitung telegraphs:

"I have learned from an excellent source that Japan, if she is victorious over China, intends to divide China into three independent kingdoms, which will be placed under the rule of native princes, one of whom will be Li Hung Chang. If necessary Japan will call a conference of the powers to decide the matter."

FROM A LIVING TOMB.

Rescue of Four Miners Who Were Walled In For Fifty-Four Hours.

CARBONDALE, Pa., Oct. 1.—John J. Fanning, William B. Mitchell, George Barney and Andrew Klanesky, the miners who were entombed in the slope of the Northwest Coal company on Thursday, were rescued at a late hour Saturday night. All are alive and well, and do not seem much the worse for their long imprisonment.

As soon as an opening was made, refreshments were passed through to the prisoners and their hunger and thirst had been satisfied before they reached the surface. The men were without light and food for 54 hours. They procured water from a miniature well which they dug in their cell.

In consequence of having been so long in darkness, Fanning, when taken out of the shaft, was unable to see a lamp held two feet away from him. None of the men could remember whether they had slept. There was rejoicing when the men were brought to the surface and escorted to their homes.

DELIBERATE MURDER.

Mystery Surrounding the Scituate Tragedy Is Being Unravelled by Detectives.

PROVIDENCE, Oct. 1.—The mystery surrounding the murder of a woman in Scituate is rapidly being solved. It is now positively known that two pistol shots were fired near Gilbert Spaulding's apple orchard at 10 o'clock Thursday night, and that afterwards a buggy was driven up the road toward the place where the body was found. When the story was told of a woman who had hired a buggy from Franklin Bros.' stable Thursday little was thought of it, but yesterday a detective found two blood stains in the carriage, which had been returned by a Scituate farmer. Both stains were in the position they would have been if the woman had been shot from behind while driving. All evidence points to the fact that the crime was cold-blooded and deliberate murder.

Wreck and Loss of Life.

WOODSTOCK, Ills., Oct. 1.—A freight train bound for Chicago was wrecked about a mile west of this city. A wrecking crew found beneath a car loaded with green planks the dead bodies of three men and two boys, one man badly injured and a boy seriously bruised and shaken up. Joseph Grady of Fall River, Mass., had one wrist chewed by one of the boys in his death struggle, the latter dying with his head pinned by the lumber to Grady's breast.

Big Crowd Expected.

ALBANY, Oct. 1.—In this city this week will begin the state convention of the Christian Endeavor societies. It is expected that there will be gathered here 3000 delegates and their friends. The Christian Endeavor union of this vicinity is busy preparing for the convention. Harmanus Bleecker hall has been secured, and each society in the union is getting together its share of the tax levy on all for the expense of entertainment.

Poison In Their Lunch.

ST. LOUIS, Oct. 1.—Joseph Cunningham, sexton of St. Peter's Episcopal church, is dead, and S. F. Brecket, the organist, is dying, both from the administration of some violent poison in a lunch they partook of in the church. George Thompson, colored, ex-sexton of the church, removed to make place for Cunningham, has been arrested, but the evidence to convict is very slight.

Death of General West.

MEMPHIS, Oct. 1.—General A. M. West, candidate for vice president of the United States in 1884 on the Greenback-Labor ticket with General Benjamin Butler, died at Holly Springs yesterday. General West was the first president of the Chicago, St. Louis and New Orleans railroad, now the Illinois Central, and was the pioneer builder of the south.

Song Rattled the Crowd.

VIENNA, Oct. 1.—The socialists of this city yesterday held a demonstration in front of the house of parliament. A labor song, the chorus of which demanded universal suffrage, was sung. The singing made the crowd restive, and the police dispersed the meeting. Fourteen of the leaders were arrested.

Mataram Has Fallen.

AMSTERDAM, Oct. 1.—Dispatches from Batavia announce that the Dutch, after eight hours' hard fighting, captured Mataram, the stronghold of the Balinese rebels. The Dutch loss was one lieutenant and 12 privates killed and four officers and 45 privates wounded. The Balinese lost heavily.

Unknown Man Killed.

BOSTON, Oct. 1.—An unknown man was found on the tracks of the Boston and Albany road at Brighton station yesterday. The remains were terribly mangled, and as yet no identification has been made.

Bad For Fishing Smacks.

SACO, Me., Oct. 1.—Many fishing smacks went ashore at Biddeford pool during a heavy gale. The sailboat Kate went ashore at Stage island. The boat is a total wreck. The crew escaped.

De Crais Has Resigned.

PARIS, Oct. 1.—M. de Crais, French ambassador to Great Britain, has resigned, and will be succeeded by Baron de Courcel, who was president of the Behring sea tribunal of arbitration.

A Fatal Cave-In.

BERLIN, Oct. 1.—Five men were killed by a cave-in in a slate quarry at Probstzella, in Saxe-Meiningen.

Forecast for New England: Fair, except showers on the coast; northeast gales.

The coast of southern New England felt the partial force of the equinoctial hurricane yesterday, but the storm center is 150 miles south of Fire island light. Storm signals are up from Eastport to Delaware breakwater. The storm has been moving up the coast. A heavy sea is running in the Sound and off the cape and Boston light. Some rain has fallen.

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventious and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter,

The ladies in this vicinity will appreciate the introduction of the celebrated Standard Patterns, of which we have put in a full line, and will certainly be a convenience to our numerous patrons.

After a thorough examination by ourselves, and receiving the endorsement of some of the best dry goods houses in the New England states, and particularly from several houses who formerly carried Buttericks—who now carry the Standard—we are convinced that the Standard Patterns" are far superior to all others—in being more up to date, better fitting, simpler directions for making—insuring perfect satisfaction, a great saving in time, much less fitting to do, and allowing just enough seams, thereby considerable saving of material—there being no waste as in others every pattern is modeled to the human form, and are so nicely proportioned that it is almost impossible to produce anything (if directions are followed, and which are extremely simple) but a beautiful fitting garment.

Try one of the STANDARD PATTERNS on our recommendation and we think you will agree with us that they are better than any other pattern sold in this city.

The Standard Fashion Sheets and the beautiful Handy Catalogue are free to all.

The Ladies' Standard Magazine is issued monthly, costs but 50 cents per year and should be in every household; you will surely subscribe for it when you have examined a single copy at our store; it is the best and cheapest Ladies' magazine in existence, single copies 5 cents.

The Standard Catalogue contains over 1000 illustrations of beautiful styles—up to date, price 20 cents.

A Complete Stock of Standard Patterns Constantly on Hand.

REGARDING STRIKES.

Judge Jenkins' Famous Injunction Partially Reversed.

MEN MAY QUIT WORK AT WILL

Provided There Is No Intention to Cripple Employers.

CHICAGO, Oct. 2. — Judge Jenkins' famous strike injunction was overruled yesterday by the United States circuit court of appeals, and the case was remanded with directions to strike out from the restraining order of the court the clause which aroused the country when the order was issued, and which resulted in the Boatner investigating committee of congress, which criticised Judge Jenkins severely.

The interveners, representing the leading labor organizations of the country, asked that two sections of the injunction be eliminated. The court of appeals decided that no court could restrain a body of men from quitting individually or in a body the service of an employer.

The court said that Judge Jenkins had exceeded his powers when he enjoined the employes of the receivers of the Northern Pacific railroad from quitting the service of said receivers, with or without notice, "so as to cripple the property or prevent or hinder the operation of said railroad."

It, however, held that the section should stand in which the men were prohibited "from combining and conspiring to quit without notice the service of said receivers, with the object and intent of crippling the property in their custody, or embarrassing the operation of said railroad."

Of Vast Importance.

The decision was considered by the lawyers who packed the courtroom as one of the most important opinions delivered in the United States in a decade. It defines the status before the law of labor organizations in their conduct of strikes and affirms the powers of courts of equity to interfere by injunction when there is reason to believe that the law will be violated.

It holds that the men can withdraw in a body from the service of the employer, using, however, neither force, threats, persecution nor intimidation toward employes who do not join them, nor must they use any "device to molest, hinder, alarm or interfere with others who desire to take their places."

Justice Harlan of the supreme court delivered the opinion. Sitting with him were Judges Woods, Bunn, Grosscup and Jenkins. The last named sat with his eyes fixed upon Justice Harlan, as the latter read the opinion, reviewing the circuit judge's action. Judge Jenkins appeared undisturbed by the opinion.

The audience which listened to the reading of the opinion was a most distinguished one. Ex-President Harrison and his partner, Mr. Elam, sat side by side, well up toward the bench.

An Opportunity to Reform.

BUFFALO, Oct. 2.—William Farrow of Olean was a prisoner in the Erie county penitentiary yesterday grinding out a sentence for stealing three bottles of whisky. Word came from Chicago of the death of Elizabeth Walsh of that city, an aunt of the young man, who had left Farrow a bequest of $18,000 in cash and $14,000 in real estate. An attorney set to work to find some flaw in his commitment. He succeeded in making out a case and Farrow was discharged yesterday.

McKinley's Travels.

ST. LOUIS, Oct. 2.—Governor McKinley arrived here yesterday from Chicago. He met a number of prominent party men at the Planters' hotel and visited the Merchants' Exchange, where he made a short address. Last night he opened the Republican campaign of Missouri with a speech at Suburban hall. A special train took Governor McKinley to Kansas City late last night.

Dutch Troops Ambushed.

AMSTERDAM, Oct. 2.—A telegram from Batavia states that a detachment of Dutch troops were led into an ambush set for them by Balinese rebels on the island of Lombok. A captain and lieutenant were killed and 10 men injured. Treachery of the natives who were acting for the Dutch as spies caused the disaster.

Hatters on Strike.

ORANGE, N. J., Oct. 2.—Two hundred finishers in the hat shops of Frederick Berg & Co. went on strike yesterday. The men demand 25 per cent increase a dozen for certain grades of hats. A hundred men employed in the hat shop of Connett, Read & Co., who also struck for 25 per cent increase, are out.

Wants Peaceful Relations Resumed.

LISBON, Sept. 2.—The speech of King Charles at the opening of the courts yesterday referred to the rupture of diplomatic relations between Portugal and Brazil, saying that he trusted that the negotiations in progress would result in a satisfactory agreement being arrived at.

Bank Doors Closed.

SYRACUSE, Oct. 2.—The First National bank of Fayetteville has closed its doors, pending an examination by a bank examiner. It is believed that depositors will lose nothing.

Charles Hayden's Misfortune.

BROOKFIELD, Mass., Oct. 2.—Charles Hayden of this place fell from his wagon and was dragged on his head, the top of which was torn off, and his body badly mangled.

Enthusiasm Lacking.

COLON, Oct. 2.—Work on a limited scale has been resumed on the Panama canal. The resumption of work was marked by no evidence of enthusiasm.

FAIRCHILD FOR GOVERNOR.

Ex-Secretary of the Treasury May Head a Third Ticket In New York.

NEW YORK, Oct. 2.—A conference was held yesterday between Charles S. Fairchild, E. M. Shepard, W. R. Grace, Wheeler H. Peckham and others. Mr. Grace and Mr. Shepard left early. The latter said, after leaving the conference, that other conferences would be held before the question of a third ticket was finally decided.

CHARLES S. FAIRCHILD.

"What, in your opinion, will be the result?" Mr. Shepard was asked.

"I believe there will be a third ticket,' said Mr. Shepard, "but it is impossible to tell what will be done until there is a further conference."

"Will Mr. Fairchild be the candidate for governor if you put out a ticket?"

"The candidate for governor will be Mr. Fairchild or some one who represents what he stands for."

Mr. Fairchild said: "We have not yet decided whether we will run a third ticket or not. That will not be known until the convention meets. This meeting was held simply for the purpose of exchanging views."

Murdered In Bed.

ST. JOHN, N. B., Oct. 2.—At Fairville, a suburb of this city, John Branton, a young Englishman, while asleep in his bed yesterday morning, had his head smashed in with an ax by Guilford Crawford. Branton boarded with Crawford. At the inquiry yesterday afternoon Crawford's son swore that the only explanation he could give of his father's rash act was that he had suspicions that Branton was too intimate with Mrs. Crawford. This the son does not believe. The jury brought in a verdict of "willful murder," and Crawford was committed for trial.

Had a Bad Season.

GLOUCESTER, Mass., Oct. 2. — The Gloucester fisheries this year have been very unprofitable, for scarcely a firm has paid the expense of its outfits. The marked disappearance of halibut, mackerel and codfish has caused a demand for herring, which, 30 years ago, was of little consequence. But this is an industry that has been wholly developed by the people of this city, and today it is one of the most important connected with the fisheries.

Republicans Gained Ground.

HARTFORD, Oct. 2.—Returns from 40 towns in this section of the state show that the Republicans gain 10 towns. There has been a large increase in the Republican vote in every town, and the Democratic vote has fallen off in nearly corresponding degree. The flop-over, from the towns so far heard from, indicates a Republican landslide throughout the state.

Intercepted by Cable.

NEW YORK, Oct. 2.—Julius Rosendahl of Munich was arrested yesterday as soon as he arrived on the steamer Berlin. He is charged with embezzling 40,000 marks in Munich. The arrest was made on the complaint of the German consul general at this port. He admitted that he had 50,000 marks on his person.

Old Guard on Duty.

WASHINGTON, Oct 2.—Captain Howgate is expected here today. It may be a surprise to him when he arrives to find that Charles H. Dewing, one of the guards who let him escape 10 years ago, is again a guard at the jail, having been appointed yesterday.

The Scituate Murder.

PROVIDENCE, Oct. 2.—It has been proved that the victim of the Scituate murder is Mrs. Emily Chambers, a woman of questionable character. She always retained a generally neat appearance. The police think they will soon be on the track of the murderer.

For the Female Sculling Championship.

HARTFORD, Oct. 2.—Miss Tillie Ashley and E. N. Atherton, her trainer, have started for St. Louis. The race between her and Miss Rose Mosentheim of St. Louis for the championship will take place at St. Louis next Sunday on the Mississippi.

Another Reprieve For Cronin.

HARTFORD, Oct. 2.—The board of pardons met yesterday for action on murderer John Cronin's case. The meeting was adjourned to Dec. 3, the time for the next regular meeting. Governor Morris will grant Cronin a further reprieve until that date.

Of Evil Portent.

BERLIN, Oct. 2.—The Krez Zeitung says that when one of the non-commissioned officers was arrested Sunday night he shouted: "Long live anarchism," and called for cheers for "Liberty, equality and fraternity!"

A Kansas Cyclone.

WICHITA, Kan., Oct. 2. — A cyclone struck here yesterday. The damage to the city is $50,000. Two people are known to have been killed. The wires are down throughout the country.

Big Boiler Exploded.

ORWELL, N. Y., Oct. 2.—A large boiler in a chair factory exploded here and badly injured three men. One end of the large factory is a complete wreck.

Still In Old Hands.

CHICAGO, Oct. 2.—The proprietors of the Chicago Tribune deny that The Tribune has been sold to H. H. Kohlsatt or any persons or syndicate.

Work For Sixteen Hundred.

SACO, Me., Oct. 2.—After several weeks' suspension the York cotton mills started up yesterday on full time, employing 1600 operatives.

SHADOWING OF SHIPS.

Great Britain's Policy Is Not Relished by Other Great Nations.

RUSSIANS SHOWED THEIR TEETH

To the Great Discomfort of a British Admiral.

WASHINGTON, Oct. 2.—The report that the Japanese cruisers are hovering off Chee-Foo and that Japanese troops are being landed confirm the prediction of Japanese authorities here, when the second Japanese army embarked, that the invasion of China and the march on Pekin would begin soon.

In diplomatic circles here it is pointed out that the British admiral's course in shadowing the Japanese ships as they approach the Chinese coast is in line with a policy of the British navy which has caused much irritation.

A recent case is cited in which the British ships watched the Russian fleet until the Russian commander determined on a ruse. He had two of his ships leave hastily from the harbor at Yokohama. A British ship was soon in pursuit. The Russians made a circuit outside and returned to the harbor, with the British ship close behind.

An Effective Check.

As the boats came in, the Russian admiral gave orders to his fleet to clear the decks and prepare for action. His signals made it known that he would fire if the pursuing British vessels did not keep away from the Russian boats. The British ship came to a sudden halt, and the threatened broadside was averted.

The British admiral was indignant at the belligerent action of the Russians, and the British government demanded an explanation. The Russian admiral, in reply, said that the movements of his ships had been so continually shadowed that he had construed it to amount to a belligerent move. The incident went no further, although it put a stop to the shadowing of Russian ships.

During the recent revolution in Brazil, when the revolutionary admiral, Da Gama, had a fleet outside, the British vessels were again accused of shadowing Da Gama's movements and allowing their information to get to the Peixoto government.

The present action of Admiral Freemantle, the British commander of the Asiatic squadron, in having the British ships hover in the rear of the Japanese fleet when secret moves are made, is the latest exhibition of the policy, and it is said here to have aroused such feeling that an official protest is regarded as possible.

The Chilian legation here discredits the reports that China has bought the Chilian navy. The reports are regarded as preposterous, as Chili is proud of her modern navy, and with the country's great stretch of coast it is regarded as a most important part of her defense.

Late News From China.

A dispatch from Shanghai states that it is reported that 35,000 Japanese troops have been landed on the Shan-Tung coast between the Yellow river and Tien-Tsin.

A dispatch from Tien-Tsin confirms the dispatch saying that Li Hung Chang is vigorously supported by the dowager empress. The dispatch adds that it was at the suggestion of Li Hung Chang that the emperor's sixth uncle, who had been in disgrace for some time, was recalled to the presidency of Tung-Li-Yamen, with full control of China's foreign affairs.

The dispatch further says that a large deputation of leading merchants, headed by the city magistrate of Tien-Tsin, waited on Colonel von Hannekin, the German officer who was on board the transport Kow-Ching when she was sunk by a Japanese warship, and who afterwards took part with the Chinese in the naval battle off the Yalu river, and thanked him for the service he had rendered China in the battle of the Yalu.

The war council continues to sit at Shanghai, but the disorganization is appalling. The corruption in the commissariat passes belief. There is no clothing for the troops, food is scanty, and weapons and war munitions, bought and paid for, cannot here be found nor traced.

The great Chinese camp between Tien-Tsin and Taku is filled with disorder, although the executions are frequent. The men are without rifles. Foreigners do not venture in the camp unless they are amply guarded. Most of the Europeans have gone to the coast towns for protection. Many Chinese merchants have also migrated to the coast towns, feeling that they will be more secure with the foreigners. Troops have been ordered to proceed from Canton to Formosa.

Scholl to Corbett.

NEW ORLEANS, Oct. 2.—A telegram was sent yesterday to James J. Corbett by President Scholl of the Olympic club defining the attitude of the club regarding Fitzsimmons' right to challenge the champion. The message further states that the Olympic club assumes the right to declare Fitzsimmons champion should he still decline to meet him for the purse of $25,000 offered to the winner.

Important Arrests.

MARSEILLES, Oct. 2.—An Italian police spy discovered a plot hatched by 14 anarchists to blow up the Italian consulate in this city. Consequently, a detachment of police surrounded a certain house, and eight anarchists were arrested. The police found in the house a number of compromising documents.

Many Are Desperadoes.

ASHLAND, Ky., Oct. 2.—United States Marshal Greer and his deputies have left for Louisville with 106 moonshiners from the Upper Big Sandy district. The party is made up of women, boys and men, some of the latter typical desperadoes.

GIVE THEM A REST.

The Only Restorative for Tired Men and Horses.

Is a tired horse, which has worked all day, lashed because his strength is flagging? Sometimes, when a savage or a fool drives him. A wise man lets tired horses rest. Tired organs in the human body are often lashed with so-called "tonics," that are supposed to be strengthening. Nothing gives strength but food.

Paskola is a food, rich in nutritious elements. It is pre-digested, and requires no work of feeble stomachs. So Benjamin Helms of Bridgton, N. J., found out after medicines had failed to relieve him of indigestion. He writes May 4, 1894:

"I felt a beneficial result, from the very first dose, am gaining in strength daily and have a ravenous appetite. In fact, I can eat the most hearty and rich food that has been repulsive to me for a year past. My heart is much stronger, and I am free from sinking spells."

He could eat rich food after a time because Paskola had given his stomach a chance to rest.

Mrs. Charles E. Lathian of 111 West 45th St., New York City, writes:

"For five years I suffered from gastric indigestion, and have tried all the so-called remedies for indigestion, besides courses of treatment from physicians all over the country, from which I received only temporary relief.

"My symptoms were heartburn, flushing heat, dizziness, bloated feeling after eating, depression of spirits, severe and accute attacks of cramps and inflammation and chronic constipation.

"After taking one small bottle of Paskola I felt very much better. I have now taken only seven small bottles, and have never felt better in my life. I have gained ten pounds and now eat anything my appetite craves. My friends say 'How fat and well you look; what have you been doing?' My answer is 'Paskola.'"

You can buy Paskola at any druggists. A descriptive pamphlet, free, if you apply to

Annual meeting tonight of the Quincy Young Men's Congress.

Mrs. Seaman of Newbury avenue has gone to Nova Scotia for two weeks.

Mr. and Mrs. D. Frederick Potter of Buffalo, N. Y., are visiting her parents, Mr. and Mrs. J. Q. A. Field of this city.

All wards show a gain over the preliminary lists of 1893, which in turn show a gain over 1892. The total gain over 1893 is 252, and over 1892 it is 491.

The F. O. U's., held an ice cream party and social dance at Doble's hall, Monday evening, which was largely attended. Misses Mamie Corbett and Mamie Keegan had charge of the affair.

Mrs. E. R. Wade of Atlantic is in charge of the G. H. Hammond Co. exhibit at the Food fair. She is assisted by Miss Dolly Baxter of Quincy and others. They serve beef tea, fritters, sliced beef, etc.

Several new houses are under way at Norfolk Downs. One for H. A. McArthur on Hamden circle, one for G. Frowland on Tyler street, one for Dr. Locke on Freeman street, and one for Mr. Cleaves at Wollaston Park.

Revised voting lists with many changes have been posted by the Board of Registrars in all wards and precincts of the the city. It behooves all men to see whether they are registered; and if so, whether correctly.

The Urbane Pleasure club of Neponset celebrated its fourth anniversary Monday evening at Music hall, Atlantic, by a reception and dance tendered the members by their friends. The floor was in charge of S. J. Craddock assisted by an efficient corps of aids.

Post 88 is going to hold a grand fair from the 12th to the 17th of November. The fair committee is composed of the following comrades: I. M. Holt, chairman; J. D. Williams, secretary; A. W. Gardner, treasurer; W. H. Warner, ticket committee W. B. Monroe, J. M. Cleverly, S. D. DeForest. Rally once again to Hancock hall; it is the "Boys in Blue", that call you.

Lynn to Quincy.

The first electric car over the road from Lynn to Quincy was run Monday afternoon. It was five o'clock when Conductor Sweats gave two bells and Col. Dan Moran turned on the juice and the car started on its trip for Quincy where it arrived about eight o'clock and was immediately taken to Houghs Neck.

The only passenger the car had was Supt. Weeks, and as he was a deadhead the conductor had no opportunity to pull the register strap. The trip was uneventful although the broad smile that illuminated Dan's face attracted considerable attention as the car speed on its way toward the "Granite City." When the end of the West End line at Neponset was reached, the broom stick was pulled off and horses drew the car to the end of the Quincy & Boston line where once more the invisible current was employed. The car will be painted at Houghs Neck before it goes into service.

Brockton Fair.

This popular fair opens its gates tomorrow and continues throughout the week. The Austin sisters, Rose and Aimee, two young women who do astounding feats in mid-air, such as walking head downward from a suspended ceiling, have been secured in addition to the other attractions for the Brockton fair. Mr. Bial, of the firm of Koster & Bial, Manager Gilmore and other New Yorkers are coming to the fair, and one of them writes that he has sent a list of the Brockton stage show artists to European newspapers, as no such aggregation of star performers was ever united in one show before.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

THE CITY COUNCIL.

Another Hearing to be Given on Franklin Street Location.

A REPORT ON CODDINGTON ST.

The Damages for the Widening Foot Up Large Sum.

The Council at its meeting Monday evening revived the hope of widening Coddington street and as anticipated it will be an expensive job. The street railway has not yet obtained its location on Franklin street and another hearing will be given. Norfolk Downs people will be pleased with one of the reports.

The only absent member was Councilman Waterhouse.

Communications.

A communication was received from the School Committee asking for an appropriation of $2,400 to complete the furnishings of the new High school. To Committee on Finance.

A communication was received from the Mayor asking for the transfer of $500 from the appropriations for miscellaneous fire department. Later in the evening Councilman Moxon offered an order for the same which was referred to the Committtee on Finance.

The Board of Managers of Public Burial Places asked for an appropriation of $800. To Committee on Finance.

Petitions.

Petitions were received from Henry L. Kincaide and Frank F. Crane for auctioneer's licenses; from Theodore Parker for common victualler's license and from A. Williams for a bowling alley license. To Committee on Licenses.

A petition for State aid from Ellen Milliken was referred to Committee on State Aid.

The West End club petitioned for a license for a sparing exhibition at St. Mary's hall, Nov. 9. To Committee on Licenses.

Councilman Bigelow presented a petition of residents of Franklin street, against granting permission to lay car tracks between Water street and Independence avenue, and asking for a public hearing. Laid on table.

The New England Telephone & Telegraph Co. petitioned to erect polls on South and Washington streets. To Committee on Streets.

Councilman Lamb presented a petition from the Democratic City Committee asking the city to provide polling places in the several Wards for caucuses on Wednesday evening Oct. 10. Laid on the table and later in the evening an order was passed authorizing the Commissioner to provide suitable places.

Reports of Committees.

The Committee on Streets reported an order for a public hearing Monday evening Oct. 15 at 8 o'clock on the petition to accept as public ways, Billings street, Faxon street, Rawson road, Helena and Moscow streets and Glover avenue. Adopted.

The same committee reported a resolution widening Coddington street and assessing land damages as follows:

Henry H. Faxon	$141 80
Zenas S. Arnold	122 90
Lois K. Wales	139 50
Henry H. Faxon	157 00
" " "	264 80
" " "	429 60
" " "	156 00
" " "	130 80
N. B. Furnald	6,000 00
Quincy Mutual Fire Insurance Co.	1,841 00
Quincy City Hospital	1,001 40
Heirs of W. S. Morton,	834 55
J. W. Hersey	173 40
Henry H. Faxon	149 00
Estate of Charles K. Pratt	26 40
Total,	$11,568 15

This same resolution also called for an appropriation of $14,568.15. To Committee on Finance.

Councilman Robbins presented a majority report of the Committee on Legislative Matters, leave to withdraw, on the petition that the Legislature be petitioned to amend the charter so that all city work shall be done by day labor.

Councilman Sullivan presented a minority report that the Council be instructed to petition the Legislature, and that the amendment shall first be accepted by the citizens by a two-thirds vote.

Upon motion of Councilman Federhen both reports were laid on the table.

Polling Places.

The following polling places for the State election were adopted:

Ward 1,—Ward room, City Hall.

Ward 2,—Graham's building, Sumner street.

Ward 3,—Baxter's block, corner of Franklin and Water streets.

Ward 4, precinct 1,—St. Mary's hall, Willard street.

Ward 4, precinct 2,—New Hose house, Copeland street.

Ward 5,—Brasee's building.

Ward 6,—Duggan's block.

Councilman Moxon offered a resolution to the effect that the electric street lighting was being performed very unsatisfactory, and that the Mayor be requested to inform the Council at its next meeting if any action can be taken to better light the streets. Adopted.

The Council voted that when it adjourns it be until next Monday evening at the usual hour.

Councilman Johnson moved to take the petition of the street railway for a location to the Braintree line from the table. Voted.

The petition of Councilman Bigelow, remonstrating against the granting of the location was also taken from the table.

Councilman Bigelow thought something should be done with the petition, and that another hearing should be given.

Councilman Holden thought there was no need of furthur hearing.

Councilman Johnson thought the two hearings that had already been given, were enough.

The Chair ruled that the order was before the council and must be acted upon first.

Councilman Anderson moved to lay the order on the table. Voted.

Councilman Bigelow moved a public hearing be given the petitioners Monday evening, Oct. 8, at 8.30 o'clock. Voted.

The order laying out the extension of Grove street took its second reading and under suspension of the rules was passed to be ordained. Adjourned at 8 40.

WITH BEST WISHES.

The Pastor of the Swedish Lutheran Church Sails for Europe.

Dr. C. O. Young, pastor of the Swedish Lutheran church, and a member of the Board of Health, left Quincy Monday afternoon for New York, from which port he sails Wednesday on the Majestic for Berlin.

The doctor and his friends left Quincy on the 4 50 train and there gathered at the depot a large number of his parishioneers who came to bid him good bye and wish him God speed. The church is very sorry to lose its pastor, recognizing in Dr. Young one who has done much for it.

The doctor carried in his vest pocket when he left Quincy a handsome gold watch, on the case of which was engraved a picture of the new church. This watch was a gift of his parishioners, who wished in some manner to testify to their appreciation of his worth.

Dr. Young's departure leaves a vacancy in the Board of Health and as the new law requires that one of the board must be a physician, there is a job waiting one of our doctors.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

The Republicans of the Second Norfolk senatorial district have renominated Robert S. Gray of Walpole.

James F. Morton, the young candidate of the Populists of this district for Congress, is soon to address the citizens of Quincy.

The Democratic Congressional convention will be held in Gray's hall, South Boston, Friday evening.

A meeting was held in Columbus band hall, Sunday, by about fifty Italian voters of Quincy who formed an Independent political club and elected the following officers:

President,—J. Grimaldi.

Secretary,—A. Bianchi.

Rallying Committee,—O. Laucisi, John Franzi, A. Capellini, A. Branchi, F. Franzi and Frederick Trenton.

—It was during a recent small-pox scare in a certain town in the midlands. An old lady from the country thought she would like to take a cab, but she was rather anxious, having heard that many of the cabs had been used to carry small-pox patients to the hospitals. She asked the driver whether there was any risk of catching the disease. "Not in the least, mum," answered the cabby. "I've had one of my back wheels vaccinated, mum." Thus reassured, the old lady stepped in and proceeded on her way.—*Tit-Bits.*

HAD A SNAP.

Three Robbers Easily Held Up and Robbed a Southern Pacific Train.

PHŒNIX, A. T., Oct. 2.—At 12:15 a. m. the eastbound Southern Pacific train was held up near Maricopa by three men. One of the robbers rode on the blind baggage out of Maricopa, while the other two flagged the train. As it slacked up the fellow aboard passed quickly into the engine, and at the point of two revolvers forced Engineer Holloway and Fireman Martin to descend, uncouple the engine and proceed ahead of the train for half or three-quarters of a mile.

In the meantime one of the masked robbers had entered the express car while the other stood out. No shots were fired, nor were the passengers alarmed while the robbery was in progress. The engineer and fireman were walked back ahead of the robber No. 1 to the express, where they arrived just as the other two were ready to depart. All three then mounted horses and struck out in a southerly direction toward the Mexican line, about 50 miles distant. The Wells-Fargo messenger reports that $160 was stolen, but it is said that the robbers got away with $20,000 in gold.

Two of the bandits who attacked the train were masked, and the third, who was a mere boy, was not. A posse, led by Sheriff Murphy, overhauled one of the bandits, and a charge of buckshot from the sheriff's gun brought him to the ground. The prisoner's name is Frank Armour. On Armour's person was found one of the watches taken from a street car man who was held up here a week ago. The robbers are believed to be members of a gang from Tonto Basin.

Electricity's Progress.

NEW YORK, Oct. 2.—The General Electric company has just closed a contract with the Sacramento Electric Power and Light company for the transmission by electricity, from a water power at Folsom, 20 miles distant, of several thousand electrical horse power, to the city of Sacramento, to supply light, heat, power, etc., to an extent that will practically supersede all the present steam plants now in operation. This will make the longest transmission by electricity of power in large amounts in the world.

Inciting Mexicans to Battle.

CITY OF MEXICO, Oct. 2.—Considerable excitement prevails here on account of the incursions of the Guatemalans over the frontier, as well as by the arrival here of General Antonio Ezeta (brother of the fugitive ex-president of Salvador), who is urging upon Mexico the subjugation of Guatemala, and declaring that this would be a very easy matter for the Mexicans to accomplish.

Passengers Badly Shaken Up.

SUNBURY, Pa., Oct. 2.—Ten persons were injured in a passenger wreck between Pennsylvania trains here. A Shamokin train was crossing over the main passenger track when a Hazleton train dashed into it. All the occupants were thrown in a heap of wreckage, and received bruises and cuts about the head and body, but none of their injuries will result fatally.

Mrs. Kaufman Wants Her Gems.

BOSTON, Oct. 2.—Mrs. Marie L. Kaufman of New York has brought suit against John Stetson to recover $3000 worth of diamonds now held by him. Mrs. Kaufman declares the diamonds were pawned by Bill Hurt, a gambler, without her knowledge or consent.

Cured at Lourdes.

MONTREAL, Oct. 2.—Mrs. Bourque, wife of the medical superintendent of Longue Pointe asylum, has returned from Lourdes. She went to Lourdes as a pilgrim, having been given up as an incurable victim of peritonitis. She returned cured of her malady.

Against Caprivi.

BERLIN, Oct. 2.—The National Liberal congress at Frankfort has adopted resolutions indicating great discontent with Chancellor von Caprivi. The resolutions demand the enunciation of a clearer policy by the government on the colonial and Polish questions.

No Apoplexy.

ST. PETERSBURG, Oct. 2.—Professors Leyden and Zacharin declare that the czar's sojourn in a milder climate will result in marked improvement. It is stated that there is no truth in the reports that the czar has suffered from apoplectic fits.

Carr Pleads Not Guilty.

WORCESTER, Mass., Oct. 2.—William G. Carr, charged with the murder of his sister, Mrs. William D. Lucier, pleaded not guilty and waived examination. He was held without bail for the grand jury, which meets Oct. 22. He had no counsel.

Tell-Tale Boot Marks.

ROCKLAND, Me., Oct. 2.—The trial of Lawrence J. Flaherty of Boston for killing Walter Powers began here yesterday. Boots belonging to Flaherty fitted marks found upon Powers' skull. The trial will last several days.

American Capital In Mexico.

DURANGO, Mex., Oct. 2.—The railroad running from the port of Altata on the Pacific coast to the town of Culcian has been purchased by a syndicate of New York capitalists, and it will be immediately extended.

Sugar Market Overstocked.

PHILADELPHIA, Oct. 2.—The Sugar Trust yesterday closed the Spreckels' sugar refinery in this city. The trust's Franklin refinery is now running on half time because of the overstocked condition of the market.

Would-Be Murderer Headed Off.

CAIRO, Oct. 2.—An Italian anarchist arrived here, his intention being to assassinate the khedive. The Italian police had notified the Italian consul here, who caused the arrest of the anarchist.

Probably Filled With Regret.

BOSTON, Oct. 2.—The white wife of George Johnson, colored, committed suicide by taking carbolic acid. They have been married only a few months. The dead woman came from Ireland.

Eleanor Is a Swift One.

BATH, Me., Oct. 2.—On her trial trip the Slater yacht Eleanor developed a speed of 14½ miles, considerably higher than her contract calls for. When cleaned and trimmed she will make 16.

On Full Time.

LEWISTON, Me., Oct. 2.—The Bates mills began running yesterday 60 hours a week. They have been working under short time for several months.

Great Britain's Big Reserve.

SIMLA, Oct. 2.—A division of troops, 6000 strong, could be sent from India on short notice to protect the treaty ports in China.

WEYMOUTH.

George C. Torrey has been appointed tax collector of Weymouth. Jacob B. Denbroader who was appointed, failed to furnish the required bonds and resigned.

Charles Bearce of East Weymouth has been distributing large bunches of beautiful dahlias to his friends in Quincy. They are very large and handsome.

TODAY'S COURT.

Michael Crowley, Jr., of Weymouth, was sentenced to the House of Correction for six months for drunkenness. Appealed.

John Lahey and Carl Wedag were arraigned for malicious mischief at Quincy by breaking glass insulators on telegraph poles. Case continued until Thursday.

Two Questions of History.

The last Legislature passed a resolve providing for the erection of a monument to mark the site of the first town meeting held in America and of the first free public school. The resolve reads that "there be allowed and paid out of the treasury of the Commonwealth a sum not exceeding $15,000, to be expended under the direction of the governor and council in procuring a suitable monument or monuments to mark the site of the first town meeting held in America and of the first free public school supported by general taxation."

This legislation having been enacted, the main questions to be answered now are where was the first town meeting held and where stood the first public school? There are any number of people quite sure that they can answer the questions, but, unfortunately their answers differ.

Governor Greenhalge has appointed a committee of the Executive Council to carry out the provisions of the resolve. The committee consists of the Lieutenant Governor and Councillors Leeson and Stevens.

The committee will give a public hearing on Thursday afternoon, Oct. 4, at two o'clock, in the Executive Council Chamber in the State House, to determine the question of location. Dorchester has been the most persistent suitor for the monuments and will doubtless make a strong plea.

GOING TO CARLSBAD

isn't necessary now. Carlsbad is coming to you. At least, the health-giving part of it is. You get every curative quality that has made the place famous for hundreds of years, in the Carlsbad Sprudel Water and Salt. That is, if you get the genuine.

Beware of the many worthless imitations sold as "improved" or "artificial" Carlsbad Salt. These are only a mixture of common Glauber Salt or Seidlitz Powder, sold by unscrupulous dealers for the larger profit they yield. Take the genuine imported natural remedy only, which has the signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

All that's Yellow is not Cottolene

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet—pure and sweet. So composed,

COTTOLENE

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and results of lard, they should get Cottolene, taking care that they are not given cheap counterfeits with imitative names, spuriously compounded to sell in the place of Cottolene.

It's easy to avoid disappointment and insure satisfaction. Insist on having Cottolene.

The Firm of Badger Bros. Lead the List—John Cashman Second.

The first instalment of the heavy taxpayers of Ward Four is given today, and many have jumped over the $50 limit, the dash in 1893 column signifying a smaller tax than $50 in that year. The valuation of Badger Bros. has been considerably increased and they are the heaviest in today's list.

The tax rate is $17.60 this year, an increase of $1 80. Any increase in tax over one eight shows an increase of valuation. The publication will be continued from day to day. The cents, although amounting to nearly a dollar in some cases are omitted:

Football at the Park.

The Quincy High School eleven played against a picked eleven on Saturday afternoon, defeating them by a score of 44 to 0. The High school boys desire the park commissioners to erect goal posts. The make-up of the team was as follows: Parker, centre; Ford, left guard; Marnick, left tackle; Coe, left end; McConnell, right guard; Hall, right tackle; Nelson, right end; Perivanno, left half back; Walsh, right half back; King, full back. The quarter back has not yet been chosen.

"SASSIETY" AND VICE.

The Right and the Wrong Way of Keeping Scandals Out of the Newspapers.

It would be hard indeed if we could not get a laugh out of all these horrid scandals that sear society's face, and it has come at last—broad, hearty and irrepressible.

The good people of Newport—not the old Newporters, but the people who have followed in their train—are so incensed by the reports published about the misdoings of the Four Hundred that they have organized a Society For the Suppression of Newspaper Notoriety.

Dear, comical, old Elbridge T. Gerry is at the head of the new society, and it looks as if he would have time to attend to nothing else.

The purpose of the society is to prevent the publication in New York and Boston (other cities don't count) of matters that are purely personal to the Four Hundred and of no public interest.

If Mrs. Stevens' maid takes advantage of Mr. Tom Cushing's valet, that is legitimate news, and no objection will be made to its publication, but if Mrs. Stevens herself should cast sheep's eyes at Mr. Cushing, or if Mr. A. should compromise Mr. B.'s wife, or Mr. C. sue his wife for divorce, or Mrs. D. go wrong with a dude—these are matters that concern nobody but the culprits themselves and their most intimate friends.

No wonder the laugh is loud and long at these good people's expense.

Did it never occur to dear old Gerry and his younger friends on the social toboggan slide that a "Society For the Suppression of Vice In the Four Hundred" would cut at the very root of the evil of which they complain, whereas the step they are taking now can only trim off some of the topmost boughs?

There is without doubt a certain amount of reckless newspaper writing going on which every one abominates—and every one reads.

This writing keeps pace with the doings of the day. It is often inaccurate, vulgar and malicious; but, on the other hand, there is so much social evil doing that never finds its way into print at all that the score is pretty even up to date.

I could mention the names of hundreds of prominent New York and Boston families who have never had cause to complain of a single line or word printed to their derogation.

And why? Simply because they have never given the opportunity.

While not making a plea for the society reporter or the scandal loving editor I am sufficiently familiar with their methods to know that they would just as lief print good news of prominent people as bad news.

Bad news sells better than good news, of course. In times of war, tempest, famine, fire and flood the demand for newspapers doubles and trebles.

So it does in times of great social disaster.

The collapse of Duncan, Sherman & Co., the failure of Grant & Ward, the elopement of Herbert Pell and Mrs. Kate Kernochan, the divorce of Mr. and Mrs. Fernando Yznaga and the subsequent marriage of both, the Drayton scandal, the Vanderbilt imbroglio, the Gould fiasco—all these stirring incidents in social life, and thousands of others for which I haven't space, constitute the gossip of the day which is on every one's lips, and which can no more be kept out of the newspapers than a duck can be kept out of water or Ward McAllister out of print.

That is why I advise kind old Gerry and his pretty playmates to begin to trim ship before they yell that they are overpowered by water.

I cannot predict any success for the new society with the object of suppressing bad news about fashionable people.

Murder will out—so will adultery, drunkenness, cheating at cards, dishonorable indebtedness and all the other vices to which flesh is heir.

As I said before, a society that condemns publicity has only to ponder for a moment upon all it does that is not printed and be grateful on its marrow bones that such matters are still personal and have not yet become of public interest.—Cholly Knickerbocker in New York Recorder.

AN INTERESTING SLAB.

It Marks the Boundary Between Mexico and the United States.

Under the direction of the boundary survey commission the old marble monument which since 1849 has marked the dividing line between the United States and Mexico at the coast has been brought to the city to be dressed up. For years that monument has been a point of interest and has been visited by thousands of citizens and strangers. Each has apparently felt that no one would believe he or she had been there if some portion of the slab were not carried away to be offered in evidence on all occasions.

The result has been that the marble has been chipped and defaced until its original form is almost lost. It is because of all this that the slab was brought to the city. To work out the effacements the surface would have to be worked down two inches. When redressed, the stone will again be placed in position, but this time it will be protected by a fence of steel pickets. The inclosure will be 12 feet square. The pickets will be 8 feet high, the tops sharply pointed and leaning inward, after the device of some rattraps, so that while it might be possible for an active person to climb in it would require a first class acrobat to climb out over those curving pickets. Besides this a new law makes it a penal offense to mutilate the monuments.

At Tia Juana a similar slab will be erected on the old brick foundation in National avenue, which has long been a landmark there. The Tia Juana monument will be of granite instead of marble, and it will be inclosed with steel pickets, like the one at the coast line.—San Diego Sun.

Whitlock's Facts Convention.

In another column will be found an advertisement of Whitlock's Facts Convention, which is to be held Saturday evening, free, at Faxon Hall. Mr. Whitlock was for many years the editor of "Facts," and later "The Soul," both magazines representing psychic subjects. He claims that the power which produces these phenomena seen in mesmerism, spiritualism, theosophy and spirithealing of all classes are dependent upon the same natural laws. That all these wonderful phenomena are perfectly natural, and that it can be proved as perfectly that a man lives after the death of the physical body as that any other thing exists, which we cannot see but that others have seen. Several of the best mediums and speakers will be present.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

The Honest Kind

ACKOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health

IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines, ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

High Noon.

Time's finger on the dial of my life
Points to high noon. And yet the half spent day
Leaves less than half remaining! For the dark
Bleak shadows of the grave engulf the end.

To those who burn the candle to the stick
The sputtering socket yields but little light.
Long life is sadder than an early death.
We cannot count on raveled threads of age
Whereof to weave a fabric. We must use
The warp and woof the ready present yields
And toil while daylight lasts. When I bethink
How brief the past, the future, still more brief,
Calls on to action—action! Not for me
Is time for retrospection or for dreams;
Not time for self laudation or remorse.
Have I done nobly? Then I must not let
Dead yesterday unborn tomorrow shame.
Have I done wrong? Well, let the bitter taste
Of fruit that turned to ashes on my lip
Be my reminder in temptation's hour
And keep me silent when I would condemn.
Sometimes it takes the acid of a sin
To cleanse the clouded windows of our souls
So pity may shine through them. Looking back,
My faults and errors seem like stepping stones
That led the way to knowledge of the truth
And made me value virtue! Sorrows shine
In rainbow colors o'er the gulf of years
Where lie forgotten pleasures. Looking forth
Out to the western sky, still bright with noon,
I feel well spurred and booted for the strife
That ends not till Nirvana is attained.

Battling with fate, with men and with myself,
Up the steep summit of my life's forenoon,
Three things I learned—three things of precious worth—
To guide and help me down the western slope.
I have learned how to pray and toil and save;
To pray for courage to receive what comes,
Knowing what comes to be divinely sent;
To toil for universal good, since thus,
And only thus, can good come unto me;
To save by giving whate'er I have
To those who have not. This alone is gain.

PASTURES ARE GENERALLY GOOD.

Latter Part of September Favored Late Crops.

BOSTON, Oct. 2.—With this issue the weather crop bulletin of the New England weather service will be discontinued for the season.

We have tried to make the bulletins brief, reliable and complete, and if our efforts have been successful it is only because of the prompt, regular and accurate reports that have been received from the volunteer crop correspondents. About 125 representative men and women, located in different districts in New England, have comprised this corps, and great praise is due them for their efforts to gather reliable information relative to the influence of the weather on the crop conditions and in getting that information as quickly as possible to this office.

The development of the grass and winter grains during the past season shows that if there is a good snow covering, these crops are not injured by any extreme cold. Very cold weather was experienced on Dec. 14, 1893, Jan. 10 and 11, in the north, and on Feb. 24 and 25, yet the ground was generally well covered with snow at those times, and the reports of poor grass or grain this season, because of the winter's cold, are very rare. Nearly three-fourths of the peach buds were killed by the cold wave in February and many trees injured.

Spring Conditions Were Favorable.

Fruit buds started very rapidly in March in the warm weather, and at first it was feared that the cold wave of the 27th and 28th had injured them very much, but the crops do not show it now. The April weather was favorable and the season was nearly two weeks ahead of the average at the end of the month, but the dry weather of the first half of May and the excess of rain and cloudy weather in the last half, with the cold spells and frosts of the 14th and 16th, retarded all work and growth of vegetation. Hot weather prevailed the last of June, with very little rain during the month, and a drought began to be felt in southern sections.

Grass and grain matured too rapidly and hoed crops suffered. There was plenty of rain in the northern part of Vermont, New Hampshire and Maine during July during the past season, but in all southern districts the drought was intensified by general want of rain, and on the 13th, 20th and last few days of the month by the exceedingly hot and drying weather. During the first week in August temporary relief was given over most parts of our district by moderate showers, but still no general rain came during this month or in September until the third week.

Rainfall Decidedly Less Than Normal.

The amount of precipitation from Jan. 1 to Sept. 1 was 18.05 inches less than the normal amount at Eastport, Me., 10.34 inches less at Northfield, Vt., 8.76 inches at Boston, 12.62 inches at Nantucket, Mass., 15.21 inches at New Haven, and 13.97 inches at New London, Conn. At Southington, Conn., there were 6.40 inches less than the normal amount of rain in the three summer months. At Amherst, Mass., the deficiency for the summer months amounts to 8.57 inches.

The last part of September was generally favorable for harvesting and for the growth of late crops and fall sown seeds. Crops have ripened well and corn is curing very nicely. The past week has given very little rain in any section except in the extreme southeast; over 1½ inches have fallen at Nantucket, Mass. The frosts on the 26th and 27th killed vines, etc., in most places, but crops were generally out of the way of much damage. Much more rain will be needed in all sections to make a full water supply for winter, and to put the grass lands in the best of condition.

Favorable Harvesting Weather.

In the greater part of the three northern states the week has given favorable weather for harvesting, and most of the crops are in. Corn is husking out a fine crop. Potatoes continue to turn out better than expected in New Hampshire and Vermont, and are reported up to the average in Maine. Beans are very nice and were secured in good shape. Fields are looking well, though a few new seeded pieces are dead. Apples are variable, but some report them better than expected on picking them.

The weather has been very favorable for ripening fruit. Pastures are generally good, and as there is plenty of water in them now the stock is expected to come to the barns in good condition. On the whole, good crops have been secured in fine condition in these states, and as one correspondent in Vermont puts it, "We see no long faces among farmers and hear no complaint."

Southern New England Wells Dry.

The rain in the southern states has not been sufficient to fill up wells, and some streams that were full are dry again, but it has greatly helped pastures, fields and late forage crops. The milk supply has increased and stock is improving. Corn is mostly cut and is a good sound crop. Potatoes are almost everywhere reported a little better than expected and of fine quality. Apples have increased in size and are generally abundant.

The weather has been very favorable for harvesting and for fall plowing. Much plowing has been done, and in many places a great amount of fall seeding to grass is going on. Many report the crops on the whole nearly up to the average season, and remarkably sound and of better quality than during a wet season. In this connection it is interesting to note that the crops do better with a very small rainfall if it is distributed in frequent light showers, as it has been this season, than with a much greater fall, if it comes in a few hard downpours.

Sugar Trust Indictments.

WASHINGTON, Oct. 2. — Indictments against Havemeyer, Seymour and Searles were brought into court yesterday. Each covers 28 pages of large type-written sheets. The history of the sugar schedule of the tariff bill is rehearsed in the contents.

A Little Riot In Brussels.

BRUSSELS, Oct. 2.—The socialists of this city yesterday attempted to hold an anti-military demonstration. The police were compelled to use force to enforce their order to disperse, with the result that several of the riotous socialists were injured.

LOTTERY SWINDLES

Exposed by the Capture of a Big Outfit at Jersey City.

NEW YORK, Oct. 2.—The Jersey City police yesterday afternoon made a raid which resulted in the arrest of four men and one woman, and the capture of thousands of lottery tickets.

Chief of Police Murphy, accompanied by a squad of detectives, swooped down on the office of the Hamilton Printing and Engraving company and arrested J. W. Hamilton, the proprietor, and the entire force of employes. Several presses were in full blast turning out lottery tickets and circulars.

The tickets were issued for three different companies—the San Domingo, Havana and American State lotteries—all located in Havana. They are very alluring. One of them is headed "The National Banking company of New York, Boston, Chicago and San Francisco," and sets forth that that institution will pay to the bearer the value of the check when filled out on the back properly.

Several thousand circulars which were found in the place are believed to have been printed a week ago yet they give a list of the winning numbers at the next drawing. That drawing was set down to take place Oct. 2. The prisoners were held for a hearing.

THE SEVENTH WEEK

Finds the Labor Troubles at Fall River as Far From Settlement as Ever.

FALL RIVER, Mass., Oct. 2.—The seventh week of enforced idleness shows no change in the condition of affairs, and the chances are that it will be many days before any further steps will be taken by either the manufacturers or help. As far as the spinners are concerned, the manufacturers will have to make the first move. They have refused their propositions, and it remains for them now to make the help some offer of compromise or keep their mills closed.

The mill men are not at all backward about saying they will not treat with the help, and that it is to be a fight to the end and unconditional surrender on the part of the help.

Their position is indeed a most peculiar one; the majority of them have expressed themselves as opposed to trades unions, and yet they have banded themselves together under an iron-bound agreement and formed one of the most formidable unions, solely for the purpose of fighting labor.

Men who have heretofore looked harshly upon the operatives in the time of a strike, now sympathize with them and offer them assistance to help them win the uneven battle.

Steamer Allegheny Sunk.

NEW CASTLE, Del., Oct. 2. — Steamer Allegheny, from Philadelphia for Skallevig, sunk off Ship John in the Delaware bay through collision with the tank steamer Caucase, Belgium, from Calais for Philadelphia. The Caucase has a large hole in her bow, and her stem is nearly all gone. The crew of the Allegheny were taken off by the Pioneer and brought to this city. The sunken wreck is in a dangerous position to shipping.

Trouble With Italians Apprehended.

MONSON, Mass., Oct. 2.—About 130 Italians, employed on the water works, struck because the foreman fined them for cutting the town trees, and because the bread given them was in smaller loaves than usual. Serious trouble is feared.

Body Riddled With Shot.

SACO, Me., Oct. 2.—Willis Fogg of West Buxton, aged 18, was fatally shot yesterday afternoon while gunning. The gun accidentally discharged, and the contents went through his body.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

The ladies in this vicinity will appreciate the introduction of the celebrated Standard Patterns, of which we have put in a full line, and will certainly be a convenience to our numerous patrons.

After a thorough examination by ourselves, and receiving the endorsement of some of the best dry goods houses in the New England states, and particularly from several houses who formerly carried Buttericks—who now carry the Standard—we are convinced that the "Standard Patterns" are far superior to all others—in being more up to date, better modeled, simpler directions for making—insuring perfect satisfaction, a great saving in time, much less fitting to do, and allowing just enough seams, thereby considerable saving in material—there being no waste as in others every pattern is modeled to the human form, and are so nicely proportioned that it is almost impossible to produce anything (if directions are followed, and which are extremely simple) but a beautiful fitting garment.

Try one of the STANDARD PATTERNS on our recommendation and we think you will agree with us that they are better than any other pattern sold in this city.

The Standard Fashion Sheets and the beautiful Handy Catalogue are free to all.

The Ladies' Standard Magazine is issued monthly, costs but 50 cents per year and should be in every household; you will surely subscribe for it when you have examined a sample copy at our store; it is the best and cheapest Ladies' magazine in existence, single copies 5 cents.

The Standard Catalogue contains over 1000 illustrations of beautiful styles—up to date—price 20 cents.

A TERRIBLE CYCLONE

Ruins Many Buildings In the Business Portion of Little Rock.

MANY LIVES PROBABLY SACRIFICED

Rumors of Destruction of a Lunatic Asylum.

LITTLE ROCK. Oct. 3.—A cyclone struck this city at 7:30 o'clock last evening and almost devastated the business portion of the city. Several people are thought to have been killed. The main portion of the business center, bounded on the south by Third street, on the north by river front, on the west by Center street and on the east by Commercial street, is practically ruined. The total property loss will approximate half a million dollars.

The cyclone was accompanied by a terrific rainstorm, and stocks of goods in the business houses, which were unroofed, though not otherwise wrecked, were destroyed by water.

The storm struck the state penitentiary, which stands on a hill in the western part of the city, with fearful force, destroying the dining room, tearing down the stable and shops, unroofing the main cell building and demolishing the warden's office. Several of the convicts were seriously injured, and one of them died an hour afterwards.

Downtown the lightning struck the Martin block, totally wrecking the third floor. Tille's building was unroofed, and a part of the fourth floor of Gleason's hotel was blown away. At Main and Second streets the tops of several adjacent buildings lie

Piled Up In an Indescribable Heap.

The worst damage was done to property on Markham and Commerce streets. Nearly every building in that district was unroofed and many are totally wrecked. The large three-story building at Market and Cumberland streets, occupied by the B. H. McCarthy company, is a total wreck, as is also the two-story building on the opposite corner, occupied by Max Elkans as a saloon. The third story of the old Deming house was blown off and several stores under it were flooded by water and filled with debris.

The streets are filled with wreckage, and it will be several days before the extent of the damage is known accurately. A large cotton warehouse, situated at Second and Scott streets, was wrecked. It fell on the Western Union telegraph office next door and wrecked it, thus

Cutting Off Telegraphic Communication

with outside points. The streets are veritable streams of mud. Rescuing parties are busy searching for the wounded.

All kinds of rumors are afloat, one to the effect that the insane asylum, in which some 600 patients are confined, has been blown down and many patients injured, but the asylum is situated a mile from the city, and the rumor cannot be confirmed. A number of escaped lunatics have been captured near the Union depot, and this fact gives color to the rumor.

Mayor Hall, as soon as possible, called out the entire fire and police departments, and sent 10 hackloads of physicians and citizens to the insane asylum and penitentiary. Intense excitement prevails, and it is utterly impossible to learn the names of the killed and injured. All kinds of exaggerated reports are current. The loss to property alone will amount to at least $1,000,000.

Ten Rounds to a Draw.

BUFFALO, Oct. 3.—Frank Erne and Solly Smith, featherweights, had a lively go here last night. They weighed in at 120 pounds. Smith for five rounds did most of the work. When the sixth round opened Erne started in to give Smith as good as he sent. The last rounds was full of furious fighting, but neither were able to get in a knock-out blow, and at the end of the tenth round the referee declared the fight a draw.

Won In Spite of Opposition.

LONDON, Oct. 3.—The senior alderman, Joseph Renals, representing the Aldgate ward, headed the poll yesterday in the voting for a successor to the present lord mayor of London, George R. Tyler. The poll was made necessary by opposition which developed against the senior alderman, who, according to rotation, should have been elected without opposition to be the next lord mayor.

No Lives Lost.

WICHITA, Kan., Oct. 3.—The tornado which visited this city confined itself to damaging property and left humanity alone. Buildings of all kinds were demolished, twisted out of shape and removed from their foundations, yet their occupants suffered no harm outside of bruises and scratches.

Tennessee Soldiers' Reunion.

COUNCIL BLUFFS, Ia., Oct. 3.—The 28th annual reunion of the army of the Tennessee convened here yesterday. Governor Jackson delivered an address of welcome on behalf of the state and Mayor Cleaver in behalf of the city. General G. M. Dodge made a response for the soldiers.

Murder In Second Degree.

JERSEY CITY, Oct. 3.—The jury in the case of Edward Bull, charged with killing his wife, brought in a verdict of murder in the second degree. At the time of the killing Bull cut his own throat, and his defense was emotional insanity, caused by jealousy.

GOTHAM'S CLUBBERS

Make Startling Acknowledgments Before the Lexow Investigating Committee

NEW YORK, Oct. 3.—Chief Counsel Goff surprised the Lexow committee yesterday. He subpœnaed all the members of the force who has been convicted of clubbing citizens during the past year, but who for some reason have retained positions on the force. Many surprising stories of inhumanity were told by the witnesses. A son of Rev. John Hall claimed that he had been forcibly ejected from a station house because he had gone there and protested against an assault by an officer upon an Italian fruit peddler. Thomas Lucas said that he asked Policeman Bernard Dun if he had caught a thief who stole $4 from him. By way of reply the policeman clubbed him, inflicting wounds on his head and requiring 27 stitches to patch him up. When he reached the police station another policeman pummelled him in the face. Policeman George Lair was accused of clubbing a woman and trying to tear her cheek by inserting his finger between her lips. Policeman William Rohrig acknowledged that he had broken a boy's jaw, but claimed that this particular case of clubbing was accidental. One policeman, who carelessly handled a revolver, was fined 20 days' pay, but was allowed to remain on the force, though it was admitted that the citizen who was injured died from his wounds.

ARSENICAL POISONING.

The Peck Case Shows Signs of Two Murders and a Suicide.

KINGSTON, N. H., Oct. 3.—At the Peck inquest yesterday Dr. Bolton of Merrimac detailed the symptoms in the case of Watson Peck, and gave his opinion that it was a case of arsenical poisoning. Professor Wood's analysis of the liver revealed about 4¾ grains of arsenic present, and as all the symptoms of the three fatal cases are similar, the deaths must be explained in the same way.

A study of the family, with the circumstances of the poisoning, tends to prove there were two cases of murder, an unsuccessful attempt at a third, and finally the suicide of the murderer, George Peck, the eldest son. He is the only one known to have had arsenic, and was considered irresponsible mentally. It is known he was dissipated and had frequent quarrels with his mother, and this, with the desire to obtain the property, it is thought, led him to do the poisoning. Fear of exposure is supposed to have caused his suicide.

Chester Peck, the last son of Watson Peck, died yesterday, supposedly of typhoid fever.

Pawtucket Weavers Strike.

PROVIDENCE, Oct. 3.—Between 100 and 200 weavers in the worsted weaving department of the Lorraine mills at Pawtucket struck yesterday on account of a reduction of wages. In an interview with the president of Textile union, branch No. 60, William J. Welch, it was found that this strike was not ordered by the union, but that the members of the union struck before receiving orders to do so. It is claimed by the weavers that their wages have been cut 20 per cent.

A Startling Story.

LONDON, Oct. 3.—A dispatch from Naples says that a convent scandal has arisen over the forcible detention at the convent of SS. Joseph and Theresa of a wealthy girl named Silvia Palmieri. The young lady, who is 18 years of age, accuses the abbess, it is said, of allowing her to be chloroformed and assaulted by elderly men, who, she says, often visited the convent. According to the dispatch, the abbess, who is 70 years of age, has been placed in jail.

Methodists In Convention.

MANCHESTER, N. H., Oct. 3.—The fifth annual convention of the first general district of the Epworth league, comprising all New England, began in this city today, and will continue two days. About 500 delegates were present. Rev. A. Carmon preached the opening sermon. Addresses were delivered by many prominent exponents of Methodism.

Powder and Torch.

DUBLIN, Oct. 3.—Three houses, built by the Marquis of Clanricarde, at Woodford have been destroyed. The affair is shrouded in mystery. Two of the houses were blown to pieces and the other was burned. Each of the structures stood on the site of a homestead from which a tenant had been evicted.

Looking Over the Books.

PEORIA, Ills., Oct. 3.—The directors of the Distilling and Cattle Feeding company held an all-day session examining the books. Vice President Beggs said that the action taken was unimportant.

Contractors Yielded.

BOSTON, Oct. 3.—The strike of the garment workers is about ended, all the leading contractors having conceded to the demands made. Nearly 500 operatives resumed work this morning.

To Winter at Corfu.

ST. PETERSBURG, Oct. 3.—It is now reported that the imperial family, with the exception of Grand Duke George, will pass the winter at Corfu, one of the Ionian islands of Greece. Grand Duke George will go to Cairo.

Wreck of the Martha C.

GLOUCESTER, Mass., Oct. 3.—Dispatches state that the schooner Martha C of this port is ashore at Bear Head, N. F. The crew were saved. The vessel is a total loss. She was on a trading voyage to Labrador.

Many Passengers Injured.

MASSILLON, O., Oct. 3.—Two passenger trains collided at Paul's Station yesterday, and several passengers were painfully, but not seriously, injured.

Stump Visited Crispi.

ROME, Oct. 3.—Herman Stump, United States superintendent of emigration, was introduced to Premier Crispi yesterday. Regulations to be proposed for the protection of immigrants were discussed.

Manslaughter Charge Not Sustained.

ROCKLAND, Me., Oct. 3.—L. J. Flaherty, indicted for manslaughter, was found guilty of assault and battery on Walter Powers.

Deaths Are Numerous.

CONSTANTINOPLE, Oct. 3.—Cholera has broken out here. Several deaths have occurred.

HAD PLANNED TO ROB A TRAIN

But a Supposed Pal Turned Out to Be a Spy.

ST. JOSEPH, Mo., Oct. 3.—"Scarfaced" Jones and Lee Frizzell were arrested here yesterday, charged with conspiracy to rob the Chicago, Rock Island and Pacific train. The pair have been under surveillance some time, it being known that they with others were planning a train robbery. The conspirators were betrayed by one of their own band, who was a detective in disguise. A week ago it was planned to rob a westbound Rock Island train, and to blow it up if necessary. This was postponed, and on Monday night finally abandoned, they learning the police were after them. The arrests followed, and others are expected.

Since the attempt made about a month ago to rob the Denver express, the officers of the road have been looking for them. Suspicion pointed to "a long-haired crook from the Indian territory" as the prime mover. Special Agent Flynn of the Rock Island went to St. Joseph and was not long in identifying the "long-haired crook" with Jones, who had recently arrived from the Indian territory. Among his associates were Lee Frizzell and a man named Callahan, who a few days after the arrival of the railroad officer was arrested by the local officer on a charge of burglary and was lodged in jail.

It was learned that the trio had instigated the former attempt and that Jones and Frizzell had not abandoned hopes of ultimately

Gaining Possession of the Treasure

in the express and mail cars. Special Agent Flynn returned to Chicago, and on Sept. 9 a meeting was held between Superintendent Dunlap, Special Agent Flynn and Detective C. C. Barshard.

As a result of the meeting, Barshard, the following day, took a train for St. Joe, and in the guise of a Chicago crook went to the Buffalo Head saloon, a resort much frequented by Jones, Frizzell and similar characters. It was fair week and the town was well patronized by gamblers and other adventurers.

Barshard found it an easy matter to gain access to the circle in which Jones was a shining light, and when on Sept. 17, Flynn, in the guise of a Chicago gambler out of luck, arrived at the Buffalo Head, Barshard was in a position to introduce him.

"Barshard was right in it," said Flynn, speaking of the episode. "He was at the head of the table, and Jones was at the foot. Frizzell was there, and half a dozen ex-convicts were also at the board at which Barshard presided.

Jones was a character. He drank freely and talked openly of crime. He was a hideous looking object, six feet tall, broad shouldered and powerful physique. His long, black hair, hanging from beneath a broad-brimmed sombrero, did not conceal any part of the

Most Repulsive Human Face

I ever saw. While in a fit Jones fell into a campfire and his entire face was burned almost out of human semblance.

He was one whose criminal proclivities could not have been concealed. He was 35 years old and possessed of a liberal education. An accomplished artist, he would not work, and openly boasted that he would yet outdo the exploits of Jesse James. Jones had served two terms in the penitentiary for counterfeiting, but had escaped all punishment for a long list of violations of the state laws and seemed to wander at will through the Indian territory, Kansas and Missouri with perfect immunity from arrest.

This was the leader of the gang with whom Barshard was on friendly terms. Jones was always heavily armed and would not hesitate to shoot on the slightest provocation. But he was not really a dangerous man, lacking mental force, and depending for his reputation on brute courage and bluff.

A most dangerous man was Lee Frizzell, also an ex-convict. He was quiet and watchful, and sometimes appeared to suspect that Barshard was not all right. It required much tact to dissipate the fellow's suspicions, but the detective finally succeeded, and was taken fully into the confidence of Frizzell and his friend and associate, Franklinburg. Barshard was told there was a deal on foot, and was finally admitted into all the plans

For the Raid on the Train.

The party was to consist of Jones, Franklinburg, Frizzell, Barshard and two "good people," who were to be on hand on time. Tuesday evening, Sept. 25, was the time set for the attempt. The Denver express, due in St. Joseph at 7:40 o'clock, was to be intercepted at the water tank, seven miles east of town.

As the locomotive stopped at the water tank one of the bandits was to break the couplings behind the mail and express cars, while the other commanded the engineer to go ahead into a deep cut half a mile up the track, leaving the passenger coaches behind. In the cut the work of robbery was to be completed, four men going through the express and mail cars, while one, armed with a rifle, kept watch on the engineer and fireman.

A COMMON QUESTION.

WHERE MAY WOMEN GO FOR HELP?

How Many American Women Have Asked This Question of Themselves.

[SPECIAL TO OUR LADY READERS.]

You may call it dangerous modesty if you will. It is in woman's heart, and is part of woman's nature.

She shrinks from telling her physical troubles to men.

During the past 20 years thousands of women throughout the world have written in womanly confidence to Lydia E. Pinkham at Lynn, Mass., and laid bare the life of misery they endured.

They wrote freely, knowing that their letters went direct to the hands of a woman who not alone understood their sufferings but whose heart was full of sympathy with them. The experience of thousands has proved how carefully their letters were studied, and how true and sure came the answer and helpfulness.

You may be suffering daily when you need not. You can tell the story of your pain to a woman, and get the help that only a woman can give.

A young lady from Boston writes to a friend, saying:—

"They said I was consumptive, sent me away, told me to keep quiet, no excitement, no tennis. Just think of it! One day I found a little book called 'Guide to Health,' by Lydia E. Pinkham. In it I found out what ailed me, so I wrote to her; got a lovely reply. She told me just what to do, and I am in splendid health now."

The same assistance is waiting for you. *Lydia E. Pinkham's* Vegetable Compound has relieved more female suffering than any other medicine in the world.

THE VOTING LISTS.

An Interesting Summary of the Preliminary Lists.

AS POSTED IN CITY THIS WEEK.

Over 200 More Voters Than in 1893, and 500 More than in 1892.

The DAILY LEDGER presents today a carefully prepared summary of the voters of the city. It shows the total number of voters in the city and in each ward now and also on Oct. 1, of 1892 and 1893. The figures are obtained by an actual count and are as follows:

	1894.	1893.	1892.	At last election
Ward One,	640	619	578	697
Ward Two,	542	522	495	570
Ward Three,	676	590	562	724
*Ward Four,	724	682	652	765
Ward Five,	461	460	365	518
Ward Six,	389	307	295	399
Totals,	3432	3180	2947	3673

*In Ward Four, precinct 1 has 360 voters, and precinct 2 has 364.

Naturally all wards have made a loss since the last election but from this out they will gain and it will be an exception if all are not larger at the State election this year than they were at the city election of last year.

Politicians who study these figures will be interested to learn the changes which have been made, and the two years are given in comparison below:

	Dropped		Added		Changes	
	1893	1894	1893	1894	1893	1894
Ward One,	89	100	44	43	133	143
Ward Two,	51	54	27	26	78	80
Ward Three,	117	93	30	45	147	138
Ward Four,	70	69	9	28	79	97
Ward Five,	43	71	22	14	65	85
Ward Six,	46	35	5	25	51	60
	416	422	137	181	553	603

The Registrars of 1894 have made just 50 more changes than the board of 1893. The greatest number are in Wards One and Three, the Centre and South Quincy, as in 1893.

The net loss by wards, however, is as follows: Ward One, 57; Ward Two, 28; Ward Three, 48; Ward Four, 41; Ward Five, 57; Ward Six, 10. The loss is twice as large in the Republican wards as in the Democratic wards: The Republican wards, 1, 3 and 5, make a net loss of 162; the Democratic wards, 2, 4 and 6, lose but 79.

Now for registration.

MISCHIEVOUS BOYS.

Milton Youths, Who Have Caused Considerable Trouble, in Court.

For the past few weeks the law abiding citizens of Milton have been kept in misery by the deviltry evidently committed by boys and it remained for Chief of Police Maurice Pierce to bring the offenders to justice.

Tuesday afternoon he arrested Dennis O'Leary, Timothy Rush, each aged 11 years, and Timothy English, aged 8 years, and confronting them with several of the crimes they broke down and confessed.

The crimes for which the boys are wanted are breaking and entering, larceny and malicious mischief.

During the early part of September they entered the newly finished house of James McVane where they besmeared the walls of the house with colored paint. They also sawed away the door cases and doors, turned on the water in the sink and down cellar and left it running and then removed all the keys from the doors and threw them away.

They then broke into Titeston & Hollingworth's paper mill but did not steal anything.

Last week they broke into the carpenter's shop of Gregory Ohrnberger, where they stole a silver watch and an $8 railroad ticket. They quarreled over the watch which ended in their throwing it down a chimney which ruined it. They were arraigned in the District court at Quincy this morning.

Wollaston Realty.

L. W. Nash, real estate agent of Wollaston, reports the following leases:

George F. Briggs of Newton has leased the store in the Wollaston Hotel building vacated by Wm. C. Pierce, who takes the rooms over Loring's pharmacy. Mr. Briggs will stock his store with teas, coffees and confectionery.

H. A. Rideout of Lynn, agent of the New England Mutual Life Insurance Co., has leased the Henry A. Jones place on Central avenue.

Mrs. Mary W. Briggs of Newton has leased a part of the Claflin place on Elmwood avenue.

A Jubilee Celebration.

Fifty years is a long time—much more than the average lifetime, Men, therefore, naturally note such periods. Just now Messrs. Perry Davis & Son of Providence, R. I., the proprietors of Pain-Killer, are celebrating the jubilee of that good old household remedy, and have doubled the capacity of their bottles, without increasing the price. This will of course make Pain-Killer more popular than ever. For fifty years it has been the family medicine chest in countless homes in every country on the globe. Once given a trial, it stays in any home, where, when anything happens, the bottle is reached for.

WHO IS HE!

A Man Who Is a Terror by Night and by Day.

Periodically portions of the city seem to be haunted by strange creatures, and the present seems to be the turn for people in the vicinity of the old Miller estate and Faxon hall. Heretofore these fellows have generally appeared under cover of darkness, but at midday on several days last week, the specimen who is now the terror has boldly made his appearance. During the day he has attempted no injury but by reckless exposure of person has shocked the ladies. They regard him as demented, but think at the same time that he is a dangerous character. Several persons have called the attention of the police, but they seem unable to locate the man.

It was the first of last week when he first made his appearance on Bigelow street, and he came daily for two or three days. He or another rascal was there Saturday evening, and chased two ladies on the street, who ran into one of the houses, where one fainted.

Saturday night the fellow changed his stamping ground from the Miller estate to the vicinity of Edwards street where he appeared about 9.30 and frightened two ladies. These ladies, who wish their names withheld, were walking down Washington street and when they arrived at the corner of Edwards street they observed a man seated on Hardwick's stone wall. They crossed to the opposite side of the street and the man crossed after them. They then crossed back again and he did the same. It was then that he began mumbling to himself and exposed himself. The ladies then ran away.

The description these ladies give of the man is that he was tall and slim, about 35 or 40 years of age, and he wore a Derby hat. His actions were that of a crazy man.

TODAY'S COURT.

Joshua Hunt of Randolph was fined $5 for drunkenness.

John Buckley of Milton was fined $5 for drunkenness.

Timothy Sullivan of Quincy was arraigned for the larceny of a bicycle valued at $10 from Joseph Goodwin and fined $12.

Dennis O'Leary, Timothy Rush and Timothy English of Milton were arraigned for malicious mischief, larceny and breaking and entering and held in $200 until Thursday morning.

A GENEROUS WELCOME.

Baltimore Citizens Recognize the Prowess of Their Baseball Pets.

BALTIMORE, Oct. 3.—Probably never before in the history of the national game has there been a demonstration like that which occurred yesterday. From early morning the streets wore a holiday aspect. Every business house and dwelling along the route of the procession last night, almost without exception, was covered with the orange and black colors of the Orioles.

All day long the streets were crowded, many carrying "pennant" flags, and all wearing Oriole badges. Some women were abroad in jackets composed of the Baltimore club's colors. The situation can be briefly stated by saying that Baltimore is "baseball wild."

Mingled with the crowd of "rooters" on the streets during the day were scores of fakirs with "rooters' badges," "rooters' canes," "rooters' ties," and, in fact, about everything that could be utilized as an article of wearing apparel or personal adornment gotten up with the proper colors, found ready purchasers, and the small boys and others reaped a harvest from the sales.

The enthusiasm exhibited through the day in Baltimore was but mild to that of last night, when the heroes themselves actually arrived. The scene at Camden station when their train pulled in was one of the maddest ever witnessed in Baltimore. Nothing approaching the enthusiastic greeting given the Baltimore baseball club by the mighty throng assembled at the depot can be imagined by one not on the ground.

Governor Brown was the most conspicuous "rooter" in the first carriage, just in advance of the one containing Baltimore's idols. Others in carriages were nearly all the prominent men in the city. As the carriages containing the Orioles came slowly along Baltimore street, the tooting of horns, ringing of bells, together with the constant noise caused by the firing of rockets, etc., caused a racket that will long live in every Baltimorean's memory. Prominent through the entire parade were displayed transparencies.

After the procession had gone through the principal streets of the city, they headed for the Fifth Regiment armory, where a reception was held in order to give the public an opportunity to still further demonstrate the affection with which the "pets" are held in Baltimore.

After the reception, which lasted about two hours, the players were escorted to the Hotel Rennert, where a banquet wound up the day's festivities.

Dagger In His Heart.

SAN SALVADOR, Oct. 3.—Silveroa Lewis, a prominent literary man, who had written a history of this country, was about to leave for San Francisco to have his history published. Some parts of his story did not speak favorably of the Ezeta government, and on the day the steamer was to sail the historian was found with a dagger in his heart. No trace of the manuscript could be found. Lewis was probably murdered to prevent the publication of the history.

Unraveling a Mystery.

PROVIDENCE, Oct. 3.—Detective Parker has discovered that Mrs. Chambers was murdered between 4 and 7 o'clock on Thursday, and that the crime was committed in a house, probably in the town of Johnson. In this case, the body was taken to Scituate long after death. Parker has followed the Keegan clew to the end. Every person by that name in the state has been seen by the police, and the fact that it was an assumed name is settled.

Much Good Accomplished.

ALBANY, Oct. 3.—The report of the American Society for the Prevention of Cruelty to Animals shows the following figures: Disabled animals temporarily suspended from work, 3779; horses disabled past remedy and shot, 3384; small animals, same condition, shot, 4794; disabled horses removed from street in ambulances, 607; complaints investigated, 7599.

Wrenched His Ankle.

CAMBRIDGE, Mass., Oct. 3.—Captain Robert Emmons of the Harvard football team badly wrenched the ankle which he injured last summer in yesterday afternoon's practice, and will be laid up for several weeks at least. It is a great blow to the eleven, as he may not be able to play till the end of the season.

A Profitable Season's Work.

FALL RIVER, Mass., Oct. 3.—At a meeting of the directors of the local baseball team it was voted to pay a divend of 125 per cent on a share, which is an increase of 25 per cent over that paid last year. The stockholders of the club will hold a meeting to discuss the advisability of entering the Eastern league.

Young Widow Seeks Damages.

LYNN, Mass., Oct. 3.—John W. Hutchinson, aged 70, "the sweet singer of Lynn," has been sued for $5000 damages for alleged breach of promise by Mrs. Mary McDonald, a widow of 30 years. She claims that the contemplated marriage was broken off by the interference of Hutchinson's daughter.

Sunk Off Barnegat.

NEW YORK, Oct. 3.—The steamship Maverick collided with and sunk the schooner Ettie H Lister 10 miles from Barnegat. The captain and crew of the schooner were brought to this port by the Maverick. The Lister was owned in Wilmington, Del.

HEAVY TAXPAYERS.

Those Who Own $2800 Worth and are Assessed Over $50.

THE WEST QUINCY SOLID MEN.

George H Hitchcock, Who Heads the List, Pays Less This Year.

Another instalment of the heavy taxpayers of Ward Four is given today, from G to O inclusive. George H. Hitchcock, who owns one of Quincy's best granite quarries, is the heaviest in the list, but his assessment is less than last year, showing quite a reduction in valuation.

The tax rate is $17.60 this year, an increase of $1 80. Any increase in tax over one-eighth shows an increase of valuation. The publication will be continued from day to day. The cents, although amounting to nearly a dollar in some cases are omitted:

Cottolene

The new vegetable shortening is the most popular food product of the day. Its use means good food, good health and a goodly saving in the end. Since the introduction of Cottolene, lard has no longer place in food or kitchen.

Cottolene

serves every purpose of lard, and serves it without grease, odor or indigestion. Those who have given Cottolene a fair trial never go back to lard. Be sure and get the genuine. Don't let any dealer palm off any of the many worthless imitations on you.

Sold in 3 and 5 pound pails by all grocers.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Delegates of the Quincy and Weymouth Republican Representative conventions met in the Republican headquarters, Quincy, Tuesday evening, and went through the form of ratifying the nominations of the city and town, viz: Charles L. Hammond of Quincy, James H. Flint and George L. Wentworth of Weymouth. All are renominations.

Congressman Morse was renominated by acclamation by the Republicans of the Twelfth Congressional district at Brockton Tuesday.

The Quincy board of registrars will meet Oct. 6, 9, 10, 13, 16 and 17.

The Democrats of this the Second Councillor District will hold their convention in Dedham Oct. 17 at 10 o'clock, A. M.

Hon. James H. Flint of Weymouth has been mentioned as a candidate for County Commissioner.

The election officers recently appointed are calling upon the City Clerk to be sworn in.

The Norfolk county Democrats will meet in Dedham Oct. 17 at 9 A. M., to nominate a county ticket.

The Second Norfolk Democratic Senatorial District Convention will be held in Dedham Oct. 17 at 11 A. M.

Hon. Albert E. Pillsbury will represent this Congressional district on the Committee on Resolutions at the Republican State convention. Hon. George F. Hoar is chairman.

Time is short and the Republicans of Quincy should quickly unite on the Quincy man they will support in the special county convention for the nomination of a county commissioner. Unless a solid delegation is sent the city's claim is liable not to be recognized. A Quincy man might have received the Congressional nomination had one strong candidate been placed in the field early. Shall it be Ewell or Field? The Herald in its resume says:

The two names most prominently before the party leaders at present are those of W. Walter Ewell, formerly commissioner of public works of Quincy, and Hon. John Q. A. Field, a former member of the board. Mr. Ewell, who was commissioner of public works in Quincy during Mayor Fairbanks' term of office, won for himself a high reputation as a public official, and is strongly supported for county commissioner by the leading Republicans of the city. There is a strong feeling on the part of the citizens of Quincy that the vacancy should be filled from that city, and a lively hustle will be made by them to secure the nomination. Mr. Field, in his position as county commissioner, proved a most efficient official and would bring to the position, if nominated, a ripe experience.

A prominent citizen writes: The nomination of Mr. Field would be most gratifying to a large number of our citizens who appreciate his sterling qualifications for the office which he has previously so ably filled. Few, if any men in the county are so familiar with the multifarious and complicated questions upon which the commissioners are called upon to pass, as is Mr. Field. His nomination would be hailed with delight by those conversant with his adaptability to public life and his knowledge of state, county and municipal affairs in which he has always taken so deep an interest.

The Democrats of Quincy also have good timber for county commissioner and are alert for any break to place a strong man in the field. Commissioner Eaton and Mayor Hodges are mentioned.

The Dedham Court.

Two cases of local interest were before the Norfolk superior civil court at Dedham this week. The case of John T. Hunt vs. Alfred Thayer and others, by agreement of counsel, will be sent to an auditor.

In the case of Charles H. Backus vs. Charles H. Chandler, appellant, the defendant was defaulted by order of the court.

These cases were in order this morning:

THE IRON SHIP.

The fabled seasnake, old leviathan,
Or else what grisly beast of scaly chine
That champed the oceanwrack and swashed the brine
Before the new and milder days of man
Had never rib nor bray nor swinging fan
Like this iron swimmer of the Clyde or Tyne,
Late born of golden seed to breed a line
Of offspring swifter and more huge of plan.

Straight is her going, for upon the sun
When once she hath looked, her path and place are plain.
With tireless speed she smiteth one by one
The shuddering seas and foams along the main,
And her eased breath when her wild race is run
Roars through her nostrils like a hurricane.
—Robert Bridges.

THE FOUNDLING.

Barlow was somewhat late, for an annoying error in posting by an under bookkeeper had detained him at the office. He walked rather more rapidly than usual, for he knew that the major, Simpson and Granger were waiting for him to make the fourth hand in the game of whist which always preceded dinner. Collins was not home, for he had gone to Milwaukee and would not return until the next morning, and Barlow knew that the major was impatiently tapping the table with his fingers and watching the door.

For seven years the five men had lived together, and the whist game before dinner was one of the household habits which had fastened itself upon the little community as a vital element of its placid existence. The men were all past middle age, and any digression from the routine jarred the entire domestic machinery for the time. Dinner was always served at 7 o'clock, and Barlow felt more than guilty, for it was not only nearly 6 o'clock, but the afternoon was the Saturday half holiday, and he should have been home several hours earlier.

He increased his pace when he turned into the street which for three blocks was the bottom of an architectural canyon, its sides formed of solid rows of houses each exactly like the other. As he approached the center house of the middle block he felt for his latchkey and drew it from his pocket when he turned to ascend the steps. The key dropped from his hand, and he fell back a pace, for cooing at him from the corner of the little porch a baby stretched its chubby arms toward him and smiled when the key jingled on the stone step.

Barlow's first thought was that he had taken the wrong steps, and he steadily stared at the number painted on the transom. The number was right, and he rapidly checked it off with the familiar window curtains and the doormat. The major's burly form came into view through the window, and then Barlow concentrated his attention on the baby. It cooed gently and made an effort to crawl down the steps.

"Hold on; you'll hurt yourself," cried Barlow as the baby leaned perilously over the edge of the doorstep. The little one looked up and smiled again, and then for the first time in his memory Barlow held a baby in his arms.

For several minutes he stood looking up and down the street, but no one came to help him. He pressed the baby to him as he stooped for his key, and opening the door walked into the sitting room with the baby under his arm as though it were a laundry bundle.

"Hello, you're here at last," said the major, loosening the belt of his dressing gown and reaching for a deck of cards. "What kept— Bless my soul, what have you got there?"

The baby kicked its heels and struck out with its arms as though swimming, for Barlow's hand was under its stomach as he held it against his hip. Simpson dropped the evening paper and stared at the baby with his mouth open. Granger forgot the blazing match which he was holding over his pipe bowl, and it burned to his fingers as he gazed blankly at Barlow and the kicking infant.

The oppressive silence was broken by a sudden cry from the baby, and the major caught it by one leg just in time to save it from striking the floor, for Barlow dropped it when the cry came. For a second the major held the baby by its leg, while a series of muffled explosions came from under the clothing, which had fallen over the baby's head. Then he gently lowered the little one to the floor, and all silently watched the strange creature squirm and struggle its way out of the maze of linen and flannel and finally sit up, a red faced, tearful, screaming baby.

Barlow's explanation was incoherent, for he, like the major, Granger and Simpson, was in a state of mental chaos. The baby's screams brought Bob, the colored cook and all around servant, from the dining room, and his black face increased the vigor of the infantile yells and deepened the scarlet hue of its face to a purplish tinge.

A twisted wire brooch which held the little sack at the neck gave the baby's name as "Joey." The major was seized with an inspiration. Snapping his fingers, he said, "Here, Joey, here, here, here," as he used to speak to the only dog he ever owned.

The other men felt an immense admiration for the major, for Joey suddenly stopped crying. The minute of silence seemed an hour to the anxious old bachelors looking down at the tiny stranger.

Joey was strangely quiet. His mouth was wide open, his eyes bulged, and a rattling sound in his throat alarmed Barlow.

"For heaven's sake, get some water. Thump it on the back. Open all the windows. The baby is choking to death." And he dropped on his knees and began beating the baby's back and chest with his palm. A pitcher and glass of water were brought. The windows and doors were thrown open, and the major, wildly excited, swished a newspaper in the baby's face, fanning it frantically. Simpson dashed a glass of water into Joey's eyes and mouth, and the baby, after several gasps, burst out crying and wailing again.

"Jingle some keys at him!" bellowed the major, bobbing his watch up and down six inches from the baby's face. "Talk to him; talk to him. Don't you know some baby talk? Here, Joey, here, here." And the major stopped his roaring and whistled, snapping his fingers.

His efforts were futile. Joey cried the louder, and the men left him in the middle of the floor and sat down to a solemn consultation.

"We've got to stop that crying first," said Simpson. "Now, I remember I picked up a woman's paper once in a doctor's office. It had a dozen columns on the care of babies. I'll go to the corner and get some papers and magazines." And Simpson hurried to the corner news store. He returned with his arms full of weekly and monthly literature and found Joey crying at the top of his voice. With nervous haste the men pored over the papers until Barlow's triumphant "Here it is" brought the others to him.

"Hints to Young Mothers," read Barlow, peering through his spectacles. "If the baby cries without apparent reason, the cause will probably be one of three things—a pin sticking its tender body, the colic or teething. First, search for the pin, for remember the baby cannot talk and tell you where the annoyance is. Remove the clothing gently and rub the hand over the little body. If it is colic, place the baby, stomach down, on your knee and gently pat and rub the hollow of the back. This will sooth the little one. If it is teething, rub the gums briskly but tenderly with the index finger."

When Barlow had finished, the men felt the relief which comes when the enemy is known and visible. The major walked courageously to the baby, puffing his cigar. Granger lighted his pipe, and Barlow, repeating "First search for the pin," seated himself on the edge of the chair and received the baby from the major. Joey alternately screamed and gasped, for the major and Granger had filled the room with tobacco smoke, but Barlow and Simpson, with grim deliberation, removed the little shoes and stockings and peeled off the other clothing, until Joey, a chubby, rosy cherub, displayed his physical charms to the intensely interested bachelors. From head to foot the wailing, choking Joey was inspected by the quartet, and not a pin mark was observable.

"It's either colic or teething," said Granger, who had dropped on his knees, with "Hints to Young Mothers" before him. "Place the baby, stomach down, on your knee," he read, "and gently pat and rub the hollow of the back." Catching the naked Joey by the nape of his neck and grasping both feet, Barlow flopped him over and rubbed so energetically that Joey's back grew red, and he squirmed and screamed worse than ever. "It's not colic; it's his teeth," said Granger, who had waited a reasonable time to see the effect of the treatment. "Rub the gums briskly but tenderly with the index finger."

Simpson squatted to the floor on the other side, and thrusting his finger into Joey's mouth rubbed Joey's gums, while Barlow still patted and rubbed the small of Joey's back.

Utterly exhausted, Joey's cries sank to subdued sobs, and finally he became quiet. Barlow held him for half an hour, while Granger, who had been energetically studying the advertisements of infants' food, went to the drug store and brought half a dozen boxes and bottles to Bob, who, carefully following directions, made up half a dozen different brews of lactated food, malted milk and cornstarch preparations. Joey's continued silence gave Barlow and the major confidence, and they managed to clothe him after a fashion. Bob's culinary skill stood him in good stead, for Joey eagerly drank a bowl of prepared food and became so smiling and showed his pretty dimples so effectively that the major picked up his dressing gown and danced vigorously around him.

The belated dinner was eaten in silence, with Joey staring through the folding doors from the center of the sitting room. Then came the perplexing problem of providing suitable sleeping quarters for the little guest. It was voted to put Joey in Collins' bed, and again the "Hints to Young Mothers" was consulted. The oracle said:

"For sleep, baby's nightgown should be loose, short and easy. Woolen is preferred."

Granger disappeared when Simpson read this and returned with a light flannel neglige shirt. "We can cut off the sleeves," he said, "and the bottom. It must be short, you know, and loose and woolen and easy."

Joey was too sleepy to protest when Barlow again pulled his clothing from him. The baby was placed in Granger's shirt, and then, escorted by the major, Granger, Simpson and Bob, Barlow carried Joey to Collins' room, and building a nest of pillows laid Joey, now fast asleep, in it.

Joey did not wake all night, but the men took turns watching him until Bob's rising bell awoke the baby. At the same moment Collins entered the house. Then peace fell on the bachelors, for Collins was a widower, and they felt he understood the situation.

"Why didn't you inform the police?" he asked. "Some mother was crazy about this baby last night."

After feeding and dressing Joey, Collins picked him up, went out of the house and slowly walked down the street. He had passed one of the blocks of houses when a woman's scream stopped him, and the next instant Joey was in his mother's arms.

The servant girl was new to the neighborhood. She had placed Joey on the wrong steps and had then chased two small boys who had run away with the baby carriage. When she returned and could not find Joey, she became hysterical, and the family roamed the streets and haunted the police stations all night, with Joey in a bachelor's den a block away.—Chicago Record.

Sleep's Conquest.

Invisible armies come, we know not whence,
And like a still, insinuating tide
Encompass us about on every side.
They overpower each weary outpost sense
Till thought is taken, sleeping in his tents.
Yet now the conqueror, with a lofty pride,
Becomes our guardian, with us doth abide
And plans all night our wondrous recompense.

He takes away the worn and tarnished day
And brings tomorrow, bride without a stain;
Gives us fresh liberty, a chance to mend—
Life, hope and friends enhanced with fresh array.
Then, when we fail, he conquers us again,
Paroling us each day until the end.

Life and Love.

Let us live while the heart is lightest,
Let us love while the heart is strong,
And laugh while the day is brightest,
And quicken the morn with song.
Let us mourn for no joy untasted,
Let us envy no bliss gone by.
The pleasure ungrasped is wasted.
Tomorrow we die, we die!

Northern and eastern beef cattle—The supply was fair and the quality of the offerings was good. Buyers took all the good stock on the market at prices ranging from 4 to 5¼c, live weight.

Milch cows and springers—The demand during the past week has been active, and values were firm.

Veal calves—The supply was fair and the demand active. Buyers were looking for good, choice veal calves, and drovers had no difficulty in disposing of their entire stock shortly after the arrival of the trains. Prices showed no change from last week's quotations.

Sheep and lambs—The demand was fairly active, and a change was effected at prices which show no change from those obtained one week ago.

Swine—The supply was lighter than that of a week ago, and there was no difficulty in disposing of them. Swine are selling at 7¼c, dressed weight, and $5.80 cwt, live weight.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

ADVANCE UPON PEKIN

Would Be Easy If Japs Succeed In Landing at Shan-Hai-Kwan.

SUCCESSOR OF LI HUNG CHANG

Recognized as One of China's Ablest Statesmen.

WASHINGTON, Oct. 3.—The officials here who have been closely watching the progress of affairs in the East are puzzled to account for the landing of 5000 Japanese troops at Posseit bay, as announced officially from Tien-Tsin. This bay lies directly on the eastern boundary between Corea and the Russian maritime provinces.

It is not believed that any Chinese troops are in the neighborhood; the country is too rugged and barren to warrant the plan of marching the troops overland clear across Corea to join the army advancing on Moukden, and it is considered inconceivable that the Japanese are preparing to resist a possible advance by the Russian troops in the north into Corea.

The purpose of the other movement reported from Tien-Tsin of the reconnoitering by the Japanese fleet of the Chinese near Shan-Hai-Kwan is much more reasonable and apparent. Shan-Hai-Kwan lies on the boundary between the Chinese provinces of Manchuria and Chi-Li, at the eastern end of the great wall which traverses China. It is directly on the railroad building from Tien-Tsin to Moukden, and as the line is already in operation between it and Tien-Tsin, the town is a place of great strategic importance.

Difficulties to Surmount.

Should the Japanese succeed in reaching Shan-Hai-Kwan there would be nothing in the way of a rapid advance upon Pekin, the capital, and unless the Chinese resistance is more formidable than it has been so far the march should be made in a week or 10 days.

But it is believed here that a landing at Shan-Hai-Kwan cannot be easily effected by the Japanese, because of the concentration of Chinese troops on the coast, and although the Japanese fleet itself may be able to enter the Gulf of Pechili, it is believed the remainder of the Chinese fleet at Port Arthur and the torpedo boats at Wei-Hai-Wei will certainly make a determined effort to prevent the passing of transports carrying troops. As the Chinese themselves discovered at the Yalu river battle, it is one thing for a fleet to act independently and another to be embarrassed by transports.

About Prince Kung.

Prince Kung, who has been recalled to imperial favor in China and placed at the head of the Tsung-Li-Yamen of privy council, is said by diplomats here, who have known him personally, to be one of the ablest and most adroit statesmen in the Chinese empire.

He has behind him a long record of distinguished services, beginning in 1850 and running till April, 1884, when he fell into disgrace. He was the founder of the Tsung-Li-Yamen; has a broad knowledge of foreign affairs, having himself acted as minister of state for 30 years, and to his courage and energy in remaining in Pekin in 1861, when the British occupied the place and the imperial family fled, was due the very existence of the reigning dynasty.

In 1884 the empress regent dismissed him from office in disgrace in her diocese, asserting that probably on account of broken health he became careless and had neglected his duty. He has since recovered, and while he is now in the sixties he is a vigorous, alert man.

It is believed that he stands committed to a vigorous war policy, and will endeavor to force the fighting with the Japanese instead of following the Fabian policy of Li, who must give place to Kung in the direction of affairs.

Disquieting Rumors.

LONDON, Oct. 3.—The Daily News, commenting on a report that a special cabinet council has been called owing to new developments in the relations with France, says: Rumor is always wrong when applied to cabinet meetings, and wise men pay no attention to its wanderings. The Standard says: It cannot be believed for a moment that any question of difference has arisen between England and France that could not be amicably arranged by a patient and temperate discussion.

Two Centuries and a Half Old.

ATTLEBORO, Mass., Oct. 3.—The 250th anniversary of the settlement of Rehoboth is being celebrated today. There were speeches by representatives from the surrounding towns, and dinner was served in a large tent. Judge Barney of Fall River, Lieutenant Governor Walcott, Judge Mason of Providence, Governor Brown of Rhode Island and others made addresses. The celebration will close with a ball in Goff Memorial hall.

Third Ticket Men.

NEW YORK, Oct. 3.—Messrs. Grace, Fairchild, Scott and Monroe of the New York Democracy held a conference yesterday afternoon with the executive committee of the "Seventies." They declared no result had been arrived at, but that things looked promising.

Won Both Bouts.

RUTLAND, Vt., Oct. 3.—M. J. Castin of this city, champion featherweight wrestler of America, and John T. Guilteman of North Adams, Mass., wrestled for $100 a side here last night. Castin took the first in three minutes and the second in six minutes.

Fatal Runaway Accident.

TROY, N. Y., Oct. 3.—George Miller, his wife and Miss Jessie Gabler were out driving, when the team ran away. Mr. Miller's skull was crushed and he died soon afterwards. Mrs. Miller was probably fatally injured. Miss Gabler only received a few scratches.

Soldiers Killed.

ST. PETERSBURG, Oct. 3.—News has reached here from Erzeroum, Armenia, that the people of Sassun have attacked the Kurdish and Turkish soldiery and killed and wounded some of them.

The End Is Near.

MONTREAL, Oct. 3. — Friends of Mr. Mercier have been summoned to his bedside from Quebec and other points, as the family believe the end is near at hand.

Gives Rise to Comment.

BERLIN, Oct. 3.—The return of Count von Caprivi to the capital causes comment, as he was not expected before the 15th inst.

A BREAK EXPECTED.

Fall River Operatives May Go to Work Rather Than Face Starvation.

FALL RIVER, Mass., Oct. 3.—Although Saturday's conference of the spinners and manufacturers did not bring forth the good results that were expected, Secretary Robert Howard said after yesterday's general meeting of the mule spinners that he was not wholly convinced that some satisfactory settlement of the present condition of affairs would not be made within a few days, so that a portion of the help in the city, at least, could be given work.

His idea is particularly valuable just now, because it is entertained by many prominent manufacturers and mill owners, who have not hesitated to express themselves on quiet corners. A glance over the daily papers has convinced many treasurers that there is great suffering in the city, or else business men have gone daft on the subject of providing the necessaries of life for local poor people. The latter conclusion might, perhaps, be accepted were it not a fact that all the regular channels of the city's charity are overflown by the demands upon them.

There is no doubt, even among members of the executive committee of the Manufacturers' association, that at least 90 per cent, possibly 95 per cent, of idle operatives would flock to work next Monday morning rather than be punished by starvation, as would be the case if the present policy was followed to its legitimate end, regardless of what action the Weavers' association might take after the determination of the manufacturers to open their gates was made known.

Many manufacturers said yesterday afternoon that they would like to do something for the people, but few have already talked over the situation with their directors. What will develop can be told only by waiting a few days longer.

Another Shot From Parkhurst.

NEW YORK, Oct. 3.—Rev. Dr. Parkhurst delivered an anti-Tammany speech last night in the Amity church. Dr. Parkhurst said he was interested in the case of a man who is living at the expense of the state in an institution, who, if he would, could create by far a greater sensation than has yet been brought out by the senate investigating committee. Dr. Parkhurst said he sent a man to him to see if he would come to this city and tell what he knew. He trembled with fear, and said, "What would my life be worth if I should do so?" It has come just to this pass, continued the doctor, that a convict or ex-convict have not yet got to that point where they dare tell the whole truth.

Bars Nobody.

BOSTON, Oct. 3.—James J. Corbett has retreated from the position he took that Fitzsimmons must meet and defeat O'Donnell before he could hope to get on a fight with him for the heavyweight championship, and yesterday threw down the gage of battle, not only to Fitzsimmons, but as well to Jackson, Maher, Smith or any man in the world, white or black. He will put up $10,000 next week and agree to dispose of his rivals one by one next July. He says he cannot and will not do anything before then.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly concerning the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W. Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

QUINCY DAILY LEDGER.

VOL 6. NO. 232. QUINCY MASS., THURSDAY, OCTOBER 4, 1894. PRICE 2 CENTS.

D. E. WADSWORTH & CO.

The ladies in this vicinity will appreciate the introduction of the celebrated Standard Patterns, of which we have put in a full line, and will certainly be a convenience to our numerous patrons.

After a thorough examination by ourselves, and receiving the endorsement of some of the best dry goods houses in the New England states, and particularly from several houses who formerly carried Buttericks—who now carry the Standard—we are convinced that the "Standard Patterns" are far superior to all others—in being more up to date, better modeled, simpler directions for making—insuring perfect satisfaction, a great saving in time, much less fitting to do, and allowing just enough seams, thereby considerable saving in material—there being no waste as in others every pattern is modeled to the human form, and are so nicely proportioned that it is almost impossible to produce anything (if directions are followed, and which are extremely simple) but a beautiful fitting garment.

Try one of the STANDARD PATTERNS on our recommendation and we think you will agree with us that they are better than any other pattern sold in this city.

The Standard Fashion Sheets and the beautiful Handy Catalogue are free to all.

The Ladies' Standard Magazine is issued monthly, costs but 50 cents per year and should be in every household; you will surely subscribe for it when you have examined a sample copy at our store; it is the best and cheapest Ladies' magazine in existence, single copies 5 cents.

The Standard Catalogue contains over 1000 illustrations of beautiful styles—up to date—price 20 cents.

A Complete Stock of Standard Patterns Constantly on Hand.

Yours Respectfully,

A MASS OF WRECKAGE

Tells the Story of the Awful Cyclone at Little Rock.

MONEY LOSS ABOUT $1,000,000.

At Least Six Persons Known to Have Been Killed.

LITTLE ROCK, Oct. 4.—Tuesday evening's cyclone grows in destructiveness as the details are gathered, and the sum total of the damage wrought by the wreck is yet untold. The day had been hot and sultry, and its culmination was the storm which wrecked business houses, filled the streets with debris, killed many and injured others.

The first intimation of the impending catastrophe was when the cyclone struck. All electric lights were extinguished, and the darkened streets were filled with flying roofs, walls and debris of all kinds. It swept up from the southwest, striking the city near the insane asylum, the mad ward of which was demolished. There Dr. Ingate was killed and several inmates seriously injured.

It then passed on to the penitentiary, a portion of which was wrecked. A convict was killed and several guards were injured. The terrible work continued toward the main part of the city, and its path was strewn with debris of wrecked buildings, tangled telegraph and telephone wires and fallen trees that had withstood the tempests of many decades. Many residences were more or less damaged, roofs blown away and walls partly demolished.

Great Damage to Buildings.

The next marked damage was when the storm struck the Martin building, occupied by the Arkansas Methodist church and several lawyers' offices. From that point east the scene that met the view of the vast throngs of people who gathered at the scene yesterday was beyond description. Some of the most substantial brick structures of the district were razed to the ground.

The wind was followed by a drenching downpour of rain, lasting for nearly an hour and keeping nearly everyone within doors, so that the real extent of the damage could not be ascertained at the time. Telephone wires in the business portion were all blown down, and communication by that means was impossible.

As soon as the rain had ceased somewhat, the darkened and debris filled streets were crowded with the excited populace, who picked their way about with a desire to lend assistance where it was needed. It is a matter of common wonder that hundreds were not killed, for no storm in the history of the country surpasses it in destructive powers.

The police were on the scene with an increased force, and everything was done to restrain the disorderly element from creating a disturbance. The saloons that were not destroyed were ordered closed at midnight. The patrol wagon was pressed into service and many of the injured were taken to headquarters, where their wounds were attended to.

Wires Blown Down In All Directions.

The storm did not last more than three minutes. The wires operating the fire alarm system were all blown down, and there was constant fear of fire, but fortunately none occurred. Such a disaster has not visited Little Rock in its history.

The losses will aggregate nearly $1,000,000. The damage at the state insane asylum is $200,000. Beside Dr. Ingate, assistant superintendent, who was killed beneath falling walls, three attendants and two patients are missing. It is believed they were buried under the walls.

The state penitentiary sustained a loss of $10,000. A convict named James was killed and several others injured. Jackson Boyd and a 3-year-old child were crushed to death in their home by a falling wall. When taken from the ruins the child was clasped in its father's arms. Both were dead. Everything is confusion and it is impossible to give losses in detail. Six persons are known to have been killed and others are missing, probably buried in the debris.

Offices Filled by Clergymen.

PORTLAND, Me., Oct. 4.—The Maine Baptist Educational Society elected the following officers: Rev. D. H. S. Burrage, president; Rev. J. H. Burrows, vice president; Rev. C. E. Owen, secretary; Rev. W. H. Spencer, treasurer; Professor E. W. Hall, auditor. The proposition to form a Young People's union was voted down.

Woodbury Had a Big Lead.

RUTLAND, Vt., Oct. 4.—The following is the result of the official canvass of votes for governor presented at the opening of the legislature: Woodbury, Republican, 42,656; Smith, Democrat, 18,142; Whitman, Prohibitionist, 464; McGinnis, Populist, 739. Woodbury's plurality, 29,514; Woodbury's majority, 28,311.

Paid Two Dividends.

MANCHESTER, N. H., Oct. 4.—At the annual meeting of the Stark Manufacturing company the old board of officers was re-elected. The treasurer's report showed the total product for the year to be 11,115,000 pounds. Two dividends of 2 and 4 per cent were paid.

Went to the Bottom.

GLOUCESTER, Mass., Oct. 4.—Schooner Titmouse, with a load of stone, sprang aleak and sunk off Thatcher's Island yesterday afternoon, about two miles off shore, in 30 fathoms. The crew rowed in here.

A "Commonweal" Victim.

YOUNGSTOWN, O., Oct. 4.—Webster Ellison, a farmer, was taken into court yesterday on a writ of lunacy. Ellison had been reading Coxey's effusions until he became insane.

RUSSELL FOR GOVERNOR.

"Shepherd of Leicester" Will Be Nominated by Bay State Democrats.

BOSTON, Oct. 4.—The conference of Democratic leaders was held at the Parker House last night. Chairman Corcoran presided. After the conference was opened, John E. Russell, "the Shepherd of Leicester," announced that he was not in the best of trim, and that he ought not to be urged to run again. He thought that some younger man, one capable of making a more vigorous campaign than he, should be nominated. The situation was then discussed pretty fully, and with the result that Mr. Russell finally gave his consent to allow the use of his name.

JOHN E. RUSSELL.

Henry Hurlburt of Lynn has been practically decided upon for attorney general and Charles C. Spelman of Springfield for secretary of state.

To a large number of newspaper men, who were anxious to hear the result of the conference, Mr. Russell simply stated that, in the event of a call for him in the convention, he had decided to waive his personal feelings and to again accept the nomination if it should be tendered him by the convention.

An Organizer Charged With Fraud.

NEW YORK, Oct. 4.—Judge Lacombe has made an order for the appointment of a temporary receiver for the affairs of the Colorado River Irrigation company. In the bill of complaint, it was charged that John C. Beatty organized the company for his own selfish ends, and to secure the sale of $7,500,000 of a worthless tract of land in Mexico, to which he did not have even a claim.

Will Try Once More.

NEW BEDFORD, Mass., Oct. 4.—Another attempt is to be made to end the great textile strike here. The state board of arbitration will convene, and representatives of both manufacturers and strikers will again face each other in a last effort to settle by harmonious action the great controversy. The basis of settlement will be, if at all, a compromise.

Robbers Killed Nine Persons.

ST. PETERSBURG, Oct. 4.—A rich farmer resided in the town of Gibaniszki with his wife, three children and four servants. The farmer was believed to have kept a considerable sum of money in the house, and a gang of robbers attacked the residence, killed the farmer, his wife, children and servants, completely looted the house and escaped.

Doing Is Out Again.

WASHINGTON, Oct. 4.—Charles Doing, who was a jail guard 18 years ago, and who permitted Captain Howgate to escape, was reappointed to his old position just after Howgate's recapture in New York. The judges of the district court conferred with Jail Warden Leonard yesterday, and as a result Doing was relieved from duty.

A Creditable Performance.

NEW YORK, Oct. 4.—The old American clipper ship Great Admiral arrived yesterday from London, after a remarkably fast run of 23 days. Considering her age, this is a very creditable performance. The Great Admiral is in her 26th year, and was built at Boston, where she is owned. Her registered tonnage is 1497 tons.

A Benevolent Woman's Will.

SPRINGFIELD, Mass., Oct. 4.—The will of Lucinda P. Hough leaves $4000 to churches in East Longmeadow, bequeathes $1000 each to the American Seamen's Friend society, the Woman's American Baptist Foreign Missionary society and the Woman's American Baptist Home Mission society.

Debate Won't Come Off.

OMAHA, Oct. 4.—The state Republican central committee has refused a political debate between Governor McKinley and Congressman Bryan, declaring that the Ohio statesman's presence in the west is for a specific purpose. Bryan challenged McKinley.

In Behalf of Republicans.

NEW MARKET, N. H., Oct. 4.—The opening gun of the campaign was fired here last night by Senator Chandler, who talked upon the political issues of the day. A torchlight parade escorted Senator Chandler to the town hall.

Enjoying Themselves.

WASHINGTON, Oct. 4.—The Ancient and Honorable Artillery of Boston spent yesterday sightseeing. They were taken to Mount Vernon, and last night were banqueted at the Arlington. Covers were laid for 300.

Won't Seek Damages.

WASHINGTON, Oct. 4.—Henry A. Weidman of Hawaii, an ex-member of the queen's cabinet, is in the city. He does not think the queen will try to secure damages.

Divorce Proceedings Defaulted.

NEW YORK, Oct. 4.—The action brought by Marie Wainwright, actress, for an absolute divorce from Louis James, actor, was dismissed yesterday on her default.

CORBETT COMES UP.

He Decides to Meet Fitzsimmons In a Glove Combat.

NELSON OUT OF HIS CLASS.

He Is Beaten by Directum In Three Straight Heats.

BOSTON, Oct. 4.—William A. Brady, Corbett's manager, has telegraphed the New York Herald to transfer the $1000 posted there in behalf of O'Donnell in Corbett's name, to go with $9000 which was posted this morning with David W. Blanchard of Boston, making the $10,000 which Fitzsimmons' backers will be expected to cover. Brady also telegraphed The Herald that Corbett would meet Fitzsimmons in New York city on Oct. 11 to arrange details. Brady said that if any one else covers the $10,000, Corbett would meet them. A dispatch from the Olympic club last night, containing the resolutions passed by the club declaring the championship forfeited to Fitzsimmons, was replied to by Corbett as follows: "Your resolutions received. Cheer up and be merry; there's only one bite to a cherry."

A fight looks probable now. Where and when, is the problem that will be discussed. Corbett does not want to accept the Olympic club's offer right off quick, as another offer may be made. Corbett was playing at Hartford last night.

Fitzsimmons Is Tickled.

DERBY, Conn., Oct. 4.—Bob Fitzsimmons received a telegram from the New York Herald last night, stating that Corbett had covered the money at The Herald office. Fitzsimmons was about as much pleased at the news as a boy with his first pair of pants. He said he would meet Corbett at The Herald office on Oct. 11 to sign an agreement and would do all he could to force Corbett into signing. He says he is willing to make any reasonable sacrifice to bring on the fight. He prefers fighting before the Olympic club, but will fight anywhere, for any sum and under almost any conditions.

THE TEMPLE CUP

Must Be Played For Under Old Agreement or Not at All.

WASHINGTON, Oct. 4.—The Baltimore and New York Baseball clubs will play for the Temple cup according to the rules and regulations prepared by the committee appointed by the league last spring, or they will not play at all.

Such is the decision of Secretary Young of the League, after receiving a letter from C. H. Byrne. Young decided that as the National League had given him and Byrne full authority to provide the regulations governing a contest for the Temple cup, that the regulations made must stand, and that the agreement made by Captains Hanlon and Ward to divide the receipts equally was in conflict with their regulations, and any game played under the agreement would be simply exhibition games and not for the cup. The captains of the two teams will simply be forced to agree to the 65 and 35 percentage arrangement.

Manager Hanlon was asked at Baltimore whether he would play for the Temple cup on the basis of 65 per cent of the receipts to the winners.

"You may say," said Manager Hanlon, "that the Baltimore players positively refuse to play the series except on the divide plan agreed between Mr. Ward and myself."

"Do you really mean, Mr. Hanlon, that if the New Yorks refuse to play except on the share alike plan that the games will not be played?"

"I most emphatically do," he replied.

DIRECTUM AGAIN.

Black Beauty Wins the Three Heats In the Race With Nelson.

PORTLAND, Me., Oct. 4.—Maine's stallion has found his Waterloo. The greatest race ever trotted in Maine drew a small crowd to Rigby track to see the contest between Directum and Nelson. Hickok drove Directum. Hod Nelson drove the Maine horse and drew the pole.

After scoring three times the pair were given a splendid start. Nelson drove wide in the first quarter and carried Directum well out. The Maine horse set the pace and led by a full length to three-quarters. Then the black stallion came to the front and passed beneath the wire under the whip with Nelson a length behind. Time, 2:10.

Directum got the lead in the second heat, but was pushed hard all the way around, Nelson leading on the backstretch. On the homestretch Nelson fell back to Directum's haunches and finished there, both horses going under the wire beneath the whip. Time, 2:13¼.

The third heat was Directum's from the start. Hickok pushed him hard and left the Maine stallion far in the rear. At three-quarters Nelson gave up the race and trotted under the wire far behind.

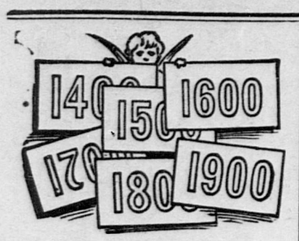

Directum made the quarter in 32¾, half in 1:04¼, three-quarters in 1:36½, mile in 2:08¼, lowering the New England racing track record almost 2 seconds.

Smith Won on a Foul.

DENVER, Oct. 4.—About 250 sporting men saw the mill between Denver Ed Smith and Lawrence Farrell for a purse of $5000 in a ring pitched on the open prairie, in the same spot where Smith defeated Farrell eight years ago. Smith weighed 184 pounds and Farrell 171 pounds. Farrell fouled several times, and in the seventh round Referee Gallagher gave the fight to Smith on a bad foul. This is Smith's first fight since he whipped Goddard.

Fitz's Successor.

NEW ORLEANS, Oct. 4.—John E. Dempsey has written to the sporting editor of The Daily Item: "Judging from the tone of Mr. Fitzsimmons' letter in the morning papers, I take it for granted that he has relinquished the title of middleweight champion. If this be so, I hold myself ready to defend that title. I will meet any man in the world at 154 pounds, and as a token of good faith, I deposit in your hands the enclosed check for $500."

FOR FIVE HUNDRED YEARS

and over, the whole world has been coming to Carlsbad to be cured. Disorders of the stomach, of the liver, of the bowels, of the kidneys and bladder, gout, rheumatism, diabetes, obesity—all have been sent to Carlsbad.

Here is the very same remedy now, right at your own door—the Carlsbad Sprudel Salt (the water solidified and put into powder form at the spring). You need it for constipation, for indigestion, for biliousness, just as much as in other and graver ailments. All druggists keep it. But see that you obtain the genuine imported, with the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

Editorial Comment.

IF THAT cyclone struck nothing but a Little Rock what's the harm?

THE WIDENING of Coddington street will never cost any less than at the present time. Although the amount seems large, it is a necessity which should not be further delayed. The city cannot afford to put it off.

WARD THREE had within forty-one of as many voters as Ward Four at the last election, 765 and 724 respectively. Why was not the South Quincy ward divided into precincts. Ward One will also have over 700 at the next election. No Ward, however, would be accommodated as well by precincts as the Quincy Point, where both ends of the Ward clamor for the polling place.

THE FAXON CASE.

The Hearing Begun Yesterday in Boston and Continued Today.

The personal custody of 11-year-old Mary F. Faxon is the subject of inquiry in a petition for habeas corpus which was taken up for hearing in the supreme court in Boston Wednesday, before Judge Barker, which the Herald reports as follows:

Mr. John L. Faxon, the father of the girl asks the court to order Mary's release from the custody of her grandmother, Mrs. Sarah J. F. Carr of Quincy, with whom she has lived six years. Mary's mother died last October at Mrs. Carr's house, where she has been living with her daughter, apart from her husband, more than five years. Mr. Faxon was appointed guardian of his daughter by the probate court, but of this proceeding Mrs. Carr claims to have had no notice, and she wants to rear the child, partly because of a wish expressed by Mrs Faxon the day before she died.

Hon. R. M. Morse and E. B. Hale appear for Mr. Faxon, and Hon. A. Hemenway and William Schofield for Mrs. Carr.

At the hearing Wednesday a host of witnesses were sworn for both sides, Mrs. Sarah J. F. Carr of Quincy, the grandmother, being in opposition to the granting of the writ.

Mr. Faxon and his late wife lived apart about five years, and she and her daughter resided with Mrs. Carr in Quincy.

Testimony was given by Mrs. Carr, Mr. Frederick Carr of Quincy, son of the previous witness, his wife and several others, after which the hearing was adjourded till Thursday.

Wedded at Cohasset.

Mr. Henry T. P. Bates of Cohasset, a well known newspaper man and at present assistant night editor of the Boston Herald, was united in marriage Wednesday evening to Miss May F. Bridgham, a well known elocutionist, the ceremony being performed by Rev. Charles Ferguson. A reception followed the ceremony, which was private, at the Town hall, Cohasset.

TODAY'S COURT.

Dennis O'Leary, Timothy Rush and Timothy English, the three Milton terrors were arraigned in court this morning. The testimony for the government was practically as published in Wednesday's LEDGER. Upon the recommendation of the State officer the English boy who is but 8 years of age, was discharged. The cases against the other two boys was continued for sentence until January 1, 1895.

The Miller estate terror is said to have made his appearance again Wednesday evening, and chased two elderly women. Many have seen the fellow but the descriptions of him vary, possibly because he changes his mode of dress.

J. O. Mason, the aged contractor for C. T. Hardwick's new house on Chestnut street, donned his overalls Wednesday, but within an hour he lost his balance in the house and fell, breaking a cord in his foot which will lay him up three months.

The new hose house at Quincy Point is about completed and will probably be occupied next week. Hose 4 company are making preparations to celebrate the event and dedicate the building. The programme of the dedication will be published in Monday's LEDGER.

A postponed meeting of the committee to form an Improvement Association, whose object is to create an interest among the residents of Norfolk Downs and Wollaston Park with a view of procuring such needed improvements as will make this locality a still more desirable place of residence, will be held at A. O. U. W. hall, Norfolk Downs, Monday evening, Oct. 8, at 8 o'clock.

THE WEST QUINCY SOLID MEN.

The O. T. Rogers Company Pays Larger Tax Than the Robertson Estate.

The concluding instalment of the heavy taxpayers of Ward Four is given below. The tax of Joseph W. Robertson was once among the largest in the city, but now it is number two among the few given below:

The tax rate is $17.60 this year, an increase of $1 80. Any increase in tax over one-eighth shows an increase of valuation. The publication will be continued from day to day. The cents, although amounting to nearly a dollar in some cases are omitted:

KEEGAN ARRESTED.

Suspected by Police of Being the Murderer of Mrs. Chambers.

PROVIDENCE, Oct. 4. — Lawrence A. Keegan has been placed under arrest, charged with the murder of Mrs. Emily Chambers in Scituate on Thursday last. He was taken into custody at his home, 62 Dexter street, about noon yesterday. He was turned over to High Sheriff White in the afternoon.

Keegan is careworn, and although he has held up well under the strain of evidence that points strongly to him, there is now but the faintest doubt but that he knows more about Mrs. Emily Catherine Chambers, the murdered woman, than he desires to divulge. He denies having seen the woman since early in September, when she asked him to sign pension documents for her.

It is a positive fact that he has seen her since. He has been with the murdered woman no less than three times within two weeks. Two women and one man have seen Keegan in Mrs. Chambers' company since early in September. The evidence is tightening around Keegan in an alarming manner.

Keegan will plead not guilty, and will attempt to prove an alibi. An effort was made last night to persuade Keegan to make a confession, but he persisted in his denial of guilt. He says he never was in Scituate and does not know the roads in that section. He claims to have been drunk on Wednesday and Thursday; that he can prove that he was in local saloons all the afternoon; that he went to supper and retired between 1 and 1:30 o'clock.

Although he has contradicted himself in minor details, he persists in general points and refuses to make any other statement.

Keegan is well known in town as a genteel loafer and has been sober only occasionally in the past 10 years.

The body of Mrs. Chambers was interred at the North burial ground yesterday afternoon.

Police Captured a Prize.

BOSTON, Oct. 4.—Sergeant Brickley ended a long chase last night by landing in the station house C. D. N. Jones and Lawrence G. Skancke, charged with the long and successful operation of a first-class policy shop and lottery place at 179 Washington street. They have carried on the business of the Empire State Lottery company, of the Guarantee Loan and Trust company and the Bankers' Mutual company, all of which are alleged to be fake concerns. A basketful of lottery tickets and all the office paraphernalia were seized.

Jews Celebrated and Lost Their Jobs.

HAVERHILL, Mass., Oct. 4.—Eight Jews employed in Chick Brothers' shoe factory spent Monday and Tuesday celebrating the Jewish New Year. They were told by the firm that work was pressing, and that if they remained out they would be dismissed. Yesterday morning they appeared at the factory and refused to leave. The police were called, when the men concluded to leave peacefully.

Complete Returns From Connecticut.

HARTFORD, Oct. 4.—Complete returns from the 164 towns in the state that elected town officers Monday have been received. The Republicans have gained 22 towns over 1893, and the Democrats have lost 18, four towns of the Republican gain coming from the so-called "divided" towns. Five more towns vote no license this year than last. The women's vote has fallen off 700, from about 3700 to 3000.

AUSPICIOUS BEGINNING.

Granite Cutters Evening School Opens at Y. M. C. A. Rooms.

Wednesday evening witnessed the beginning, we believe, of the first trade school ever inaugurated in Quincy. The classes in monumental drafting, clay modeling and the hand drawing which have been extensively advertised during the past month, resulted in the registration of thirty-eight young men on the opening night. The majority of these are new member, twenty such having made application for membership since Saturday noon. The following countries are represented as follows: United States, 9; Scotland, 6; England, 4; Wales, 5; Sweden, 4; Ireland, 3; Norway, 2; Germany, 1; Finland, 1; unknown, 3. The average age is about twenty-four.

This new departure in association work will be watched with much interest, not only in Quincy, but elsewhere, for the undertaking is something new in Massachusetts, although a number of associations in other parts of the country have trades school. It is doubtful whether there is another school in the country devoted to the granite business.

Another singular feature about the work is that most associations commence their educational work with commercial studies or the languages, instead of putting industrial educational work first.

Mr. Holge, of New York, who was present with the industrial educational exhibit Saturday, expressed himself as much surprised and pleased with the manner in which these classes had been planned and advertised. He also congratulated them on securing teachers of such excellent ability, as shown by their work on exhibition at the rooms. Students will be received until the 15th of the month, but all who desire to join are requested to make application at once.

MY PEARLS.

I have a string of pearls
Untarnished, perfect and fair—
Eight—but the angels came one day
And I placed one in their care.

Seven are left me, priceless gems,
Perfect as any you'll see,
And only our Heavenly Father knows
How precious they are to me.

Three are large ones, fully grown.
Then there's an odd one there.
It shines between with mischievous gleam,
Then three "like steps in a stair."

A DESPERADO.

A company of gentlemen sat in the office of the Hotel Palomares in Pomona the other evening waiting for a late train to Los Angeles. Each one of the party knew every one else, cigars were freely passed around, and all were enjoying a talk about early experiences on the frontier, and especially in southern California, before railroads were built in this region. The best story of the evening was told by Colonel John Williamson, one of the most important orange growers in southern California.

"From 1873 until 1878," he said, "I was engaged by a Chicago lumber company to travel through the country from Denver to St. Louis to look up openings for lumber yards. It was my business to visit new towns and settlements, and when I found men of capital in them to induce them to go into the lumber business and buy of the Chicago concern. At that time Ogalalla, on the Union Pacific railroad, was famous throughout the country as the toughest place in the west. Then Dodge City, Kan., came into prominence for its cowboy episodes and the rough, tough and desperate character of a large portion of its residents. I passed a night in Dodge City in October, 1876, and I assure you that I came quickly to the conclusion that life in any other town would be tame and without excitement in comparison with the pleasures that place could afford.

"On one side of the railroad track stood a big barnlike building called the Americo-Mexican hotel, and on the other a row of 20 or 30 one story frame houses, almost every one of which was a barroom, with a gambling house attached. Over the doors hung such signs as 'Cowboys' Retreat,' 'The Divan' and 'The Frontiersman's Delight.' Behind the town, on top of the hill, was the city graveyard. An immense cross stood at the top of the hill and served as a landmark for travelers for miles and miles across the barren prairies. That graveyard was the pride of every man who lived in Dodge City. The inhabitants watched it grow and pointed with pleasure to the fact that there was hardly a man taking his final rest there who had not come to his death by violence.

"It was toward afternoon when I halted my horse in front of the Americo-Mexican hotel after a 40 mile ride. Heavily armed men stood about in groups. The looks thrown at me were far from reassuring, but I pretended not to see them and hastened into the hotel. Hardly had I taken my seat in the dining room when four men, evidently forming a delegation, approached me. They demanded to know what brought me to Dodge City in a way which left me no alternative but to answer. My answers seemed satisfactory, and one of them informed me the reason of their curiosity. They had some idea that I was a deputy sheriff and frankly told me that if I had been I should have been escorted out of town, as no government officers were wanted about Dodge City that night. They further informed me that there was to be one of the prettiest lynching bees in town that night that had ever taken place.

"Three men had come to Dodge City 10 weeks before and had taken the town by storm. They had made their headquarters at a tavern almost opposite the hotel and had levied a tax on every one who entered. Anybody who objected to paying or standing treat was beaten, and when resistance was shown pistols were used. Ten men had received death wounds from these three men, and the town had determined to set an example to all such characters by hanging the three without ceremony It was not easy, however, to accomplish this, as the men were intrenched in the barroom and refused to come out or allow any one to enter. It had been determined to dislodge them that night in spite of all resistance, and I was invited to take part in the affair. The men were named Hank Martin, Jack Willis and Wat Simmons and were desperate outlaws, with large sums upon their heads.

"Just at dark the citizens of Dodge City prepared for battle. The attacking parties were divided into two forces. One approached the point of attack from the rear, while the larger number marched up to the front. All the citizens wore handkerchiefs over their faces. I was in the main body of attackers, or rather behind it. We were brought to a sudden halt by a rifle shot from one of the windows of the besieged house, and one of our leaders fell. Various means were tried to dislodge the three men, but to no purpose. Every time the slightest advance was made their rifles rang out, and some one on our side dropped. At last a small man slipped up in the shadow of the adjacent building and threw a lighted can of kerosene under the building. Soon it began to burn. At last it was enveloped in flames, and the three men were obliged to rush for their lives. They were half blinded by the heat and smoke of the burning building, so they were quickly captured.

"Then all the citizens of Dodge City, not excepting the women and children, formed in line and marched down to the cattle pens, where an old tree stood that had served several times as a gallows. A rope had been brought along, and it was quickly thrown over a branch, and everything was ready for the hanging. It was at first intended to dispose of all three at the same time, but there was not enough rope, so it was decided to hang one at a time. Jack Willis was the first to be strung up. His end was hastened by a dozen bullets, which were fired into the body while it was still writhing. Wat Simmons was then disposed of.

"Next came the turn of Hank Martin, and all held their breath when the boldest desperado known on the plains in those days was brought out. Just as the big, powerful fellow was led under the tree he made a sign that he wanted to say something. The gag was removed from Martin's mouth, and he said:

"'If you will take this rope from round my neck and slightly loosen these bonds, I will tell you men something that will interest you all.'

"There seemed no danger, with so many on guard, so his request was complied with. When his fetters were loosened, he rose, stretched himself and began his speech:

"'You are a set of villains,' he yelled, 'and you can all go to hell!'

"He knocked down the two men nearest to him and made a dash for the sagebrush on the open prairie. All the horses were left outside the barroom when the desperadoes were captured. A few men dashed into the sage after Martin, which made it impossible for the men under the tree to use their guns, lest they hit some of the pursuers. After an hour's useless chase the hunt was given up for the night.

"At daylight the next morning a ranchman rode into Dodge City and electrified the town by saying he had seen Martin near Fort Leary, 16 miles below He said he had just finished his breakfast when a hatless man, whom he recognized as Martin, came in and demanded shelter. The ranchman suspected something was wrong from the man's manner and at once started for Dodge City and gave the alarm. Thirty men immediately saddled their horses and started in pursuit of the man they had avowed to hang. As they approached the hut a man appeared in the door with a winchester rifle in his hand. Without a word he opened fire on the advancing party. Two men dropped from their saddles, and as the rest of the party put spurs to their horses and dashed toward the hut Martin, who had done the shooting, rushed down the hill and plunged into the Fox river. There had been heavy rains, and the river was a torrent, which made it seem impossible that a man could reach the other side alive. All the horsemen drew up along the bank and waited in readiness to shoot Martin should he by any chance get across. They waited half an hour, and as there was no sight of him they returned to Dodge City. That afternoon the other two desperadoes were buried in what is known as 'Murderers' row,' and beside the graves was placed a board, 'To the memory of Hank Martin, drowned in the Fox river while escaping capture.'

"Two years after leaving Dodge City I chanced to be in a little Texas town that I don't want to mention here. A man passed me on the street one day whose face was strikingly familiar. I turned to my companion and asked who it was.

"'That,' said he, 'is Henry Martin, one of our most respected citizens.'

"Suddenly the scene of the lynching at Dodge City came back to me, and I knew that the last time I had seen that man he was standing under a tree with a rope around his neck. I told my friend the story, and he evidently doubted my sanity, if not my veracity. He told me that Martin came to the town early in 1879, when it was first started. He invested money in town lots and made a fortune. He was a promoter of schools and churches and was talked of for the next mayor. That night I was at my hotel when a tall man, with a slouched hat, walked in. He looked round and then came straight to me.

"'Are you the man,' he said, 'who has been telling a yarn about Hank Martin being lynched?'

"I acknowledged that I was.

"'Well,' he replied, 'Henry told me to tell you that he would shoot you on sight if you were in town tomorrow.'

"Two hours later I was taking a night ride across the prairies."—Kansas City Times.

Extraordinary Longevity In Chile.

The last census of Chile furnishes some interesting statistics relative to longevity of certain representatives of the human race, who live in that far away corner of "Latin" or "Spanish" America. According to the figures in question, in the 23 provinces of Chile the enumerators found 211 men and 273 women who had passed the century milestone. One man, Rafael Munoz of Colchaqua, was returned as being 150 years of age. The oldest woman was 138. Of the other "old timers" they found one man 135 and two women 132, one man 130, one over 127, one woman 125 and three men and four women 123, one man 122 and three women 121; 20 women and eight men gave in their ages as 120, and two women acknowledged to being past 119; five women and three men were at the 118 mark. Of all the others over 100, 240 were women and 195 were men. The most remarkable exhibit in the whole array is the one which shows that 53 women and 38 men gave in their ages as 110.—St. Louis Republic.

Diamonds In the Meteors.

Professor Berthelot has pointed out that in the writings of Avicenna there is mention of a metallic aerolite which fell in Djorjan, in central Asia, in the eleventh century which could neither be broken nor worked up into arms or tools. One of the blocks of native iron found at Ovijak, in Greenland, in 1870, is so hard that it can neither be scratched nor cut, and Professor Nordenskjold suggests that this may be due to the presence of black diamonds disseminated through the iron.

Atlantic Surprise Party.

Miss Freda C. Haberman was agreeably surprised at her home on Atlantic street, Monday evening by a party of her friends. Games prevailed during the evening and the happy party disbanded in the "wee small hours" congratulating the hostess on her entertaining powers. Among those present were Mr. and Mrs. W. T. Bonner, Mr. and Mrs. Edward W. Crocker, Mrs. Nelson, Misses Nettie Crocker, Stella Crocker, Josie Crocker, Susie Hall, Genie W. Richardson, Florence Priest, Agnes Bennett, Messrs. B. T. Emery, A. L. Horton, P. A. Hall, A. W. Priest, L. F. R. Langelier, Frank Hersome and W. P. Hill.

October Magazines.

For the housekeeper and the mother, the October issue of "*Table Talk*" holds much of interest. For the help of the former, three dozen tested recipes are given in the inquiry department as well as menus for many occasions, while the latter will eagerly read much in "The New Bill of Fare" and the fashion department.

The battle of Bull Run is an inexhaustible subject of interest. It has been written about a score of times in these latest years, and a score of controversies about it are likely to still go on. Few articles have been written, however, which make the battle so real and so clear to us, as the vivid article by Francis S. Fiske in the October number of the *New England Magazine*. No one has made it clearer than Mr. Fiske does here, how easily this appalling defeat might have been turned into a decisive victory.

President Eliot, of Harvard, has written for the October number of The Forum an essay in which he points out the reasons why the American Republic will survive, in which he makes an inventory of the great forces in our political and social life, and shows that very many of the institutions upon which we pin our faith have proved insufficient in the past, but that there are others, to some of which little attention is paid, which he argues have brought new forces into human society, and which are likely to give our institutions permanance. It is in every way a most remarkable essay.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

For sale by Druggists and Dealers Everywhere.

☞ The handsomest, healthiest, most comfortable and attractive thing in a sleeping-room is a white enamel bed. They are modern, cheap and doctors everywhere endorse them. One of the best manufactured with brass rails and luxurious spring, complete for $10, others from $5 to $15. Henry L. Kincaide & Co.

ALLENS COMPOUND EXTRACT SARSAPARILLA THE HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—
I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Canker of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.
DR. H. F. MERRILL.

PROF. W. H. MORSE, M. D., F. B. S. Sc. of Westfield, N. J., author of "New Therapeutical Agents", the standard text book of the newer materia medica, Consulting Chemist and Therapeutist, one of the most widely known men among the medical profession gives it his highest endorsement, as testified by the following voluntary statement:

"**Allen's Sarsaparilla** commends itself to me therapeutically, chemically and clinically. Its therapeutical power, physiological activity, and chemical purity, are all noteworthy; and the reason is to be found in the fact that it is true to its name, or **honest**, as the word goes. That is, it is vegetable alterative, and tonic. Perhaps the highest praise that may be given it is that its action represents that of mercury, less the faults of that drug; for, has not Pereira said, "A perfect mercury would be a perfect alterative."
W. H. MORSE, M. D., F. B. S. Sc.,
Westfield, N. J.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for $1.00. Trial bottles 50 cts.

Grandmother's Cloak.

Cut it and rip it, each daintiest thread,
Many the years since the needle was sped,
Held by the fingers now nerveless and cold,
Pressing it, plaiting it, fold upon fold.
Smooth it out softly, in this latter day,
Fashion it deftly in quaint, modern way,
Tenderly touch its soft surface of brown.
Grandmother's cloak is her granddaughter's gown.

See! I am dressed, with a rose in my hair—
Grandmother, dear, do you know, do you care?
Out of the far realms of silence and shade
Can you look down at the gown I have made?
Can you remember when you, too, were young,
Setting the fashions the earth folks among?
Little you dreamed that your warm cloak of brown
Years would turn into a granddaughter's gown.

Grandmother, grandmother, when you were young,
Came to you ever, with flattering tongue,
One who bent low, with a smile, to compare
Soft damask cheeks to the rose in your hair—
"Sweeter than roses in paradise grown?"
Did he go off with the rose as his own?
Waiting I stand, with a smile and a frown,
Doubting and glad, in my sweet modish gown.

What were the dearest of words ever said?
Were the skies bright on the day you were wed?
Did all your fair, loving dreams come to pass
Ere you lay down under green growing grass?
Happy and faithful and tender and true!
May time be as gentle to me as to you,
And all homely virtues and graces come down,
Like sweet olden scents, for the granddaughter's gown.

FRANCE MAKING CRAFTY MOVES

Looking Toward Cutting Off Commerce In War Times.

WASHINGTON, Oct. 4.—The state department has been very fully advised from time to time by our representatives abroad of the inception and growth of the trouble between France and Great Britain relative to Madagascar. Efforts have also been made at intervals to induce our government to take sides in the matter, based on our large commercial interests in the island, for, surprising as it may seem to persons who know of the existence of Madagascar from the geographies, the United States controls three-tenths of the trade of this great island, which, in territorial area, quite equals France.

For years all of this commerce has been more or less hampered in growth by a standing dispute between France and the Hovas government, touching the recognition of consuls. The French claim the right under treaty to control all of the foreign relations of Madagascar, and include in their claim a right to issue exequaturs to consuls. The Hovas government held that the consuls' functions pertained only to commerce and were not connected with foreign relations. For this reason it insisted upon controlling their recognition.

Duties of Consuls Interfered With.

Things came to such a pass finally that consuls had to be provided with dual credentials, and even then they were sometimes not permitted to exercise their functions. The United States has had much difficulty in this respect, and our present consul at Tamatave is acting now under a provisional and unsatisfactory arrangement.

The British and Germans have not relished the claims of France in this respect and have indirectly sought to make the United States take the lead in repudiating them, though so far without success, as our state department has steadily abstained from interference.

Aside from this question of commerce, always of importance in British eyes, the principal reason for British concern in Madagascar, as it is understood here, lies in the fear that France is about to establish a new Gibraltar in the Indian ocean that would in time of war give her the power to totally cut off commerce between India, Australia, the Cape settlements and England.

France Strengthening Madagascar.

Already the French have been busily engaged in making a fortress and naval station at Diego Suariez, on the northern extremity of Madagascar. Here is a magnificent harbor, almost landlocked, and even at present quite as impregnable as Gibraltar itself. Making this harbor their base, a few French cruisers might so guard the Indian sea as to make British commerce impossible.

And the French are reaching out. They want more land around Diego Suariez to extend their fortifications, and they want Fort Dauphin at the southern extremity of Madagascar and several points between on the eastern and western coasts.

The British believe that these fortifications seriously threaten their East African possessions, and they are disposed to protest, but they find themselves much hampered, for when Great Britain annexed Zanzibar, lying to the west across Mozambique channel, they did so through an understanding with France that the latter should have a free hand to deal with Madagascar.

Diplomatic Circles Are Watching

the French-English contention over Madagascar as possibly foreshadowing a conflict for supremacy in Africa and the establishment there of an empire similar to the British empire in India.

A member of the diplomatic corps points out recent significant action indicating the basis of this belief. Last May Great Britain entered into a secret alliance by which it secured control over the Congo Free State in the heart of Africa. The arrangement was made at Brussels with the King of Belgium, who has been instrumental in exploring and developing the Congo country.

With this acquisition, Great Britain secured the middle link between her colonies in the south of Africa and those of Egypt on the north. In effect, it established Great Britain as supreme from the Mediterranean to the Cape of Good Hope. This belt of country extended north and south through the middle of Africa, except along a short stretch of the lower Nile, and as to this, English engineers reported that the portions of the river within British dominion could be so affected that the entire route of the stream could be controlled by the British.

The result of the Brussels arrangement was to give hopes in England and fears in France that the British empire of Africa was about to be accomplished in the same quiet way that the British dominion in Asia had been effected.

France on the Watch.

The incident has, however, aroused France to the strengthening of her hold on African soil if she hopes to head off England's purpose of securing commercial control of the country by establishing an English belt from the north to the south.

It was only four months ago that the British arrangement at Brussels was effected, and it is within the past few weeks that the French protest caused it to be vacated. Now comes the French move in Madagascar, which has caused such agitation and talk of war in London and Paris.

It is not, says the diplomat, any mere contention over Madagascar, but a part of the great contention between Great Britain and France for commercial control and political empire over Africa. For this reason, the present contest is regarded as affecting not only Madagascar but the future of the Dark Continent.

Nothing In It.

LONDON, Oct. 4.—Inquiries made at the foreign office late elicited the information that the calling of a cabinet council has no connection whatever with the meeting of the French cabinet on the same day.

The relations between Great Britain and France have certainly been strained during the past six months, since the attacks of the French press upon the Marquis of Dufferin, the British ambassador at Paris. Numerous colonial questions have also given rise to friction.

Although the government ministers would be glad to seize upon an occasion to discuss this matter, the cabinet would not have been summoned but for the dangerous appearance of the situation in China.

The Marquis of Dufferin is still in the north of Ireland. If the relations with France had been the cause of summoning a cabinet council, Lord Dufferin would certainly have come to London to consult with Lord Rosebery, the premier.

The Times, in a leader, points to the fact that neither the Marquis of Dufferin nor Baron de Coursel, the new French ambassador, is at his post, as proof that there are no serious matters between the two governments in dispute.

No Cause For Alarm.

BELFAST, Oct. 4.—The Marquis of Dufferin, British ambassador to France, is enjoying a vacation at his Belfast seat. To a reporter he said he saw no reason for immediate alarm in the relations between Great Britain and France.

BODIES WASHED ASHORE

Give Evidence of Many Wrecks During the Recent Southern Hurricane.

KEY WEST, Oct. 4. — More than 50 human bodies have been washed up along the reefs near here in the last few days. Many wrecks have been sighted near the Florida coast by the steamers which have arrived here. It may be that the bodies are from vessels wrecked by the recent hurricane in the Gulf of Mexico, and have been carried to Key West by the Gulf stream.

The steamer El Rio reported that on Sept. 26 she sighted a large steamer ashore eight miles northeast of Alligator reef. The vessel seemed to be a foreign tramp steamer.

The Osseo brought to Key West the first and second mates of the bark Wandering Chief, from Belize to Havre, which was totally wrecked on Elbow reef. The two men were the only survivors.

Most of the crew of the bark Brandon were lost when she was wrecked on Crocker's reef on Sept. 24. She was bound from Ship Island, Miss., to Liverpool.

The Morgan line steamer El Morte, recently arrived at New Orleans, signalled a large ship, bottom up, north of Alligator reef and a large barkentine well up on the reef, whose names she could not ascertain.

Professor David Swing Dead.

CHICAGO, Oct. 4.—Professor David Swing died last evening. He was taken sick about a week ago with gastric fever, which developed into acute jaundice. Professor Swing was born in Cincinnati 65 years ago. He accepted a call to occupy the pulpit of the Westminster Presbyterian church, Chicago, in 1866. From that time to his death he held a place in the popular favor of the western metropolis. His originality in thought and his liberality in the interpretation of a creed attracted much attention.

Flaw in the Indictment.

PORTSMOUTH, N. H., Oct. 4.—In the United States court the case of Dr. J. C. Moore, charged with the embezzlement of funds of the Commonwealth National bank of that city, of which he was president, was brought to a sudden termination owing to a fatal error in the indictment. The defense claimed that there was no place in the indictment where the bank was properly designated. Judge Webb instructed the jury to render a verdict for the defendant and Dr. Moore was discharged.

Children Kidnapped.

SALEM, Mass., Oct. 4.—Four men forcibly kidnapped from the residence of Mrs. A. H. Gledden yesterday her two children, and Mrs. Gledden claims that her husband was one of the men. Several years ago Mrs. Gledden's husband sued her for divorce, but was defeated, and she was given the custody of the children.

Whipping Post For Child Beaters.

ALBANY, Oct. 4.—Commodore Gerry addressed the final session of the convention of the humane society in favor of the introduction of the whipping post into the state of New York, to be used especially in the punishment of those who are cruel to children. Dr. Hendricks, a Catholic priest, spoke in the same line.

Endorsed by Two Parties.

NEW YORK, Oct. 4.—At the county convention of the New York state Democracy last night, John W. Goff was endorsed as a candidate for mayor. His name was presented by ex-Mayor Grace. Mr. Goff was also nominated for mayor at the meeting last night of the German-American Reform union.

The Tennessee Vets.

COUNCIL BLUFFS, Ia., Oct. 4.—At the first regular session of the Army of the Tennessee, General Dodge presided. Following General Dodge's remarks, General Howard addressed the meeting. The annual reports of the secretary and treasurer were read, and the convention soon afterward adjourned.

Georgia's State Election.

ATLANTA, Oct. 4.—The Populists will probably increase their vote over that of two years ago. Atkinson, the Democratic gubernatorial nominee, is being badly scratched in some localities by Confederate veterans, but the state is carried by Democrats by reduced majorities.

Gove For Congress.

BOSTON, Oct. 4.—Jesse M. Gove, the original Blaine man, was yesterday nominated for congress by acclamation by the delegates to the Ninth district Republican convention, which was held in the headquarters of the Republican city committee.

Died of Typhoid Fever.

HAVERHILL, Mass., Oct. 4.—Drs. Reynolds and Drexel yesterday performed an autopsy on Chester Peck of Newton, the last of that family to die. No trace of poison was found, and the cause of death was ascertained to be typhoid fever.

President's Fall Is Predicted.

NEW YORK, Oct. 4.—News from Areu, Venezuela, announces that that town and Caro are beseiged by revolutionists. President Crespo is preparing for a flight to Europe, where his family has already gone.

Saved the Catch.

PORTLAND, Me., Oct. 4.—During a gale the lobster smack Edith M. Thompson was driven ashore on Ragged island. Her crew got off safely and saved the cargo of 2500 lobsters, but the craft went to pieces.

To Fight at 126 Pounds.

BOSTON, Oct. 4.—Johnny Griffin has signed articles to fight George Lavigne on Oct. 22. The men agree to weigh in at 126 pounds and the contest is limited to 15 rounds.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE PACING WONDER.

World's Records Knocked Into Smithereens by Flying Jib.

THE BALTIMORE MEN OUTPLAYED

In the First Game For the Coveted Temple Cup.

CHILLICOTHE, O., Oct. 5.—Ten thousand people yesterday saw Flying Jib go against the world's pacing record of 2:01¾ made by Westmont with running mate at Chicago 10 years ago. The pacer went at a terrible clip, leading the runner to the half, made in 59s. flat. Rounding the turn he kept up close to the three-quarters pole and shot under the wire amid the hushed silence of 10,000 people, who eagerly strained forward awaiting Starter Loper's announcement of the time.

Loper said: "You have witnessed something which no audience in the world has ever seen before. You have seen the fastest mile that was ever paced. Flying Jib has beaten Westmont, and made the mile in 1:58¾." The first half of the heat was made in 59 and the last half in 59¼.

Another world's record was broken by Onoqua. She trotted under the wire in the first heat of the 3-year-old trot in 2:11¾, taking the world's 3-year-old trotting record.

Still another world's record was broken by Sidmont, who went against time and smashed the 3-year old stallion pacing record, going the mile in 2:10½, reducing the record made by Brookside a full second.

WAS NEVER FORGIVEN.

Corbett Made Himself Unpopular by Knocking Out John L.

HARTFORD, Oct. 5.—James J. Corbett, in explaining his sweeping challenge of a day or two ago, says: "I am sick of the pugilistic business and want to get out of it, but I intend to retire honorably. I only want to train once more and I will be perfectly fit that time, so that I feel that I can safely offer to meet within a week all the men who cover my money.

"I was never hurt in a fight in my life. I never got a black eye. After I had whipped Mitchell I could have whipped several Mitchells, and it was the same after the Sullivan fight. The 'job' seems a big one, but I mean business, as my money will prove.

"I tell you, it was one of the most unpopular things I could have done when I licked John L. Sullivan. When I knocked him out I shattered an idol of the people, for which I have not been entirely forgiven. Yes, you are right; the great majority of the public are now my friends and I am grateful of the fact, but I made many enemies when I knocked out John L."

All these remarks were inspired by the suggestion that the public did not appreciate that he was in earnest when he offered to be a party to a week's carnival. "I mean business by the affair," he repeated. "My money will prove that. If I am defeated the first night I will appear the second night, if I am able, and the third, until all are met, so as not to forfeit my money, and I will go through the program, whatever it costs.

"The series of fights must come after July 1, when my season closes. I have got a lot of money invested in this show, which I must get returns for, and I can't stop and attend to every fighter who claims my attention. It is only those who have a right to challenge me that I should notice. But I am going to be magnanimous if they will only wait until my season closes, when all will get satisfaction."

NEW YORK WINS.

Exciting Scenes at the First Game For the Coveted Temple Cup.

BALTIMORE, Oct. 5.—The first game of the Temple cup series was a good exhibition of scientific and fast ball playing. The New Yorks won. Rusie was in the box. He had terrific speed and thorough control of the ball, and the men back of him kept up their end. Esper, for the Orioles, pitched winning ball and was well supported. The inability to hit Rusie was the cause of the Orioles' defeat.

There were several features of the game that could have been eliminated to the credit of both teams. McGraw was the principal offender. Owing to the stormy weather, and a doubt of the series being played, only about 9000 of the expected crowd entered the grounds. The final agreement to play the series of games was made only a few minutes before the game was called. McGraw was the only one that held out, and his temper throughout the game was not of the best.

Both teams showed intense feeling. A close decision in the ninth inning by Emslie, which cut off Baltimore's hope of pulling victory out of the fire, caused a crowd to get after Emslie as soon as the game was over. The police, however, quickly dispersed the crowd.

Bad Enough as It Is.

KEY WEST, Oct. 5.—The report that 50 bodies were washed ashore here from the wrecks of the recent storm is untrue. Those known to be lost are 14 of the crew of the British bark Brandon, and all but two of the crew of the British bark Wandering Chief. Three other vessels are reported bottom up, but no bodies are reported as having washed ashore

A HERO HONORED.

Admiral Benham Gets a Gold Medal From a Noted Philadelphia Club.

PHILADELPHIA, Oct 5.—A gathering of most distinguished men filled the Union League clubhouse last night to do honor to Rear Admiral Andrew E. K. Benham of the United States navy in recognition of his services to the nation during the Brazilian rebellion. The admiral arrived from New York yesterday afternoon and was warmly welcomed to the clubhouse.

REAR ADMIRAL A. E. K. BENHAM.

He was escorted there by the veteran corps of the First regiment, preceded by the First Regiment band. President Young then presented to the admiral the Union League's gold medal as a mark of special honor for his services to his country, and the admiral in reply made a speech of thanks. An elaborate banquet followed the reception.

Punished at Last.

DENMARK, Me., Oct. 5.—About three years ago John M. Arlin of this place wrote a Cincinnati firm to send a certain consignment of goods to Denmark to customers who existed only in Arlin's imagination. The goods were sent as ordered, and for some reason Arlin escaped arrest until last week. Arlin was tried yesterday at Portland and found guilty of fraudulent use of mails. He was fined $50 and costs.

Burglars Had an Easy Job.

SPRINGFIELD, Mass., Oct. 5.—The residence of Mrs. Stewart on Crescent Hill was entered by burglars early last evening and diamonds and jewelry to the value of $2000 were stolen. Mrs. Stewart sat in the room adjoining the one in which the jewels were kept, and heard the thief at work, but supposing it to be one of the servants, she did not make an investigation.

Gibbons Entertained by Satolli.

WASHINGTON, Oct. 5.—Mgr. Satolli gave a luncheon yesterday to Cardinal Gibbons, who will leave here soon on a visit to Rome. Some import was attached to the occasion, as it brought together a number of prelates actively interested in the Catholic university, concerning which some announcement is expected from the pope this winter.

Efforts Were Fruitless.

NEW BEDFORD, Mass., Oct. 5.—The state board of arbitration yesterday afternoon had a conference with the manufacturers, but nothing was accomplished. The board returned to Boston last night and will there consider some course of action. They will probably formulate a proposition to be submitted to both sides.

Manley's Doctrine.

NEW YORK, Oct. 5.—Executive Chairman Joseph Manley of the Republican national convention wants it known that he will not take an active part in the New York campaign. "I do not believe in interfering in state campaigns," he said. "Besides, I think the committee is perfectly able to take care of itself."

Scare Is Over.

LONDON, Oct. 5.—The news agency which originated the report that yesterday's cabinet council was called on account of sudden new developments in England's relations with France says it learns that nothing has occurred between France and England that is in any way likely to become critical.

Passengers Badly Hurt.

ST. LOUIS, Oct. 5.—As a special freight train was leaving the city last night it crashed into and demolished a street railway car in the western suburbs. The car was smashed into kindling wood. Six passengers were badly bruised, cut and suffered broken limbs.

Nebraska Bolters Downed.

LINCOLN, Neb., Oct. 5.—Secretary of State Allen's opinion on the Democratic contest knocks the bolters' ticket out of the field, and the names on that document can only be placed on the regular ballot by petition and under some other heading than Democratic.

The Panama Canal.

PARIS, Oct. 5.—The first general meeting of the new Panama Canal company was held yesterday. Eight hundred persons were present and the proceedings were very noisy. A committee was appointed to effect an organization.

Flames Are Spreading.

BUCHANAN, W. Va., Oct. 5.—A fire, which broke out this morning in Liddy's furniture store, is spreading in all directions. Several building in the business part of the town have already been destroyed.

Passengers Escaped Injury.

WAKEFIELD, Mass., Oct. 5.—A special train on the Boston and Maine railroad, carrying delegates to the Epworth League convention at Manchester, N. H., collided with a freight train here yesterday. The engineer and fireman were badly injured, but the passengers escaped.

Next Meeting at Cincinnati.

COUNCIL BLUFFS, Ia., Oct. 5.—The 29th annual convention of the Army of the Tennessee closed last night with a banquet with 250 covers. It was under the auspices of the Loyal Legion. Cincinnati will entertain the league in 1895.

Henniker Murderer Indicted.

CONCORD, N. H., Oct. 5.—The Merrimack county grand jury reported an indictment against Arthur G. McLean for murder in the first degree in killing Nettie Belle Douglass at Henniker Aug. 15.

A TERRIBLE SCENE

Witnessed by a Horror-Stricken Crowd In a Boston Street.

TWO ELECTRIC LINEMEN KILLED.

Day and Munro Victims of the Deadly Current.

BOSTON, Oct. 5.—Not for a long time has so frightful an accident happened in Boston as that which befell Charles Edward Day at the corner of Channing and Congress streets yesterday. Not only did Day lose his life in a manner terrible to think of, but the accident that befell him also caused the death of A. J. Munro, who heroically went to his assistance.

Day had been a "trimmer" in the employ of the Boston Electric Light company since last July, and yesterday was in the discharge of his duties, "trimming" or resupplying carbons to the electric lights on Congress street.

This is a "dead circuit" during the day, or, in other words, there is no current of electricity coursing through these wires that connect with the lamps that have been burning all night. The current is shut off at daybreak, and was yesterday, but in spite of this fact there is always danger in the wires from the fact that they may be crossed with other live wires. In that case the voltage is perhaps just as great as if the current that supplies the are lights at night was on.

Day approached and ascended the pole by means of a short ladder, as usual, and no one paid any heed to him as he carefully proceeded to attach the ends of a leather belt to the iron work of the crosstree of the pole.

This leather belt, used as a safeguard, was in this case probably the

Indirect Cause of Day's Death,

for it prevented him from leaning or even falling from the pole, as it was intended to do, but in keeping him there it held him against the remorseless current until he was slowly roasted to death.

After all his preliminary arrangements were complete, the unfortunate fellow proceeded with his work. First he removed the glass globe, and then, with one hand grasping the iron rod that supports the cap of the light, with the other he proceeded to remove the old carbons. It was then that he received the terrific shock which soon ended his life.

The glass globe that he had been holding in his lap fell to the pavement, and the hurrying crowd looked up in surprise and then stood transfixed with horror.

Day had slipped from the wooden crossbar on which he had been sitting and hung by the strap around his body. Showers of blue sparks flew from his hands where they grasped the iron of the framework and little puffs of smoke came from the same place, showing that the flesh was burning. Sparks from other parts of his body showed constantly, and the odor of burning clothing as well as flesh quickly became apparent.

The man is not known to have uttered a sound, but the horror-stricken onlookers saw his legs and body slowly contract and grow rigid and his face become purple. Then his muscles relaxed and he hung limp and inanimate, with his

Hands and Flesh Still Burning.

No one in the fast multiplying crowd offered to render any assistance, and it is doubtful if any one could have done so, but the condition of the lineman was at once telephoned from a nearby store to the power house at the end of Congress street.

When a detail of men from the power house arrived, in charge of Inspector Munro, the second sad chapter of the tragedy was enacted. Without a moment's hesitation, Mr. Munro ascended to where Day hung limp and apparently lifeless.

The people watching saw him reach and try to turn the switch that it was thought was open, and the cause of Day's death. But as he did so, his body came in contact with that of his fellow-workman, and with another cry of horror, the crowd saw him shudder and pitch headlong to the pavement below.

Munro's skull was fractured, and though he was taken to the Emergency hospital with all possible speed, he died without regaining consciousness.

The courage that the next man who climbed that pole must have had entitles him to more than honorable mention, but his name could not be learned.

The Ladies and the Tigers.

NEW YORK, Oct. 5.—The Women's Anti-Tammany association of the Twenty-third assembly district of the city was duly opened last evening. Mrs. "Brick" Pomeroy was unanimously elected president and Miss Ella Ralls secretary. Two hundred and fifty women and 17 men were present. Some of the ladies advocated opening the churches for prayer on election day, and it is not improbable that earnest petitions will be made on that day for the defeat of the tiger.

Hill Didn't Say It.

NEW YORK, Oct. 5.—A rumor went around yesterday that Mirabeau Eltons had made a statement in which he said that Senator Hill had positively declined the nomination. Senator Hill when asked about this sent down this word: "I have never made such a statement."

All on Account of a Woman.

LITTLE ROCK, Oct. 5.—William Underhill and James Carrer engaged in a deadly encounter over a "cyprian" and both were killed. Carrer used a shot gun with deadly effect, but Underhill, after he had been shot, succeeded in mortally wounding his antagonist.

Will Remain at Colby.

PORTLAND, Me., Oct. 5.—President Whitman of Colby university has been offered the presidency of Columbia university in Washington. It is understood that President Whitman will not accept the offer, but will remain at Colby.

Not Politics.

BERLIN, Oct. 5.—The Reichanzeiger reiterates that the arrest recently of a large number of non-commissioned officers had nothing to do with politics. Eighteen foreigners have been examined. None of them have been liberated.

Sons of Veterans.

Tuesday evening, Mr. Fred Leavitt of West Quincy, became a member of Camp 27.

Those brothers who do not attend the meetings in this quarter just commenced are missing the most interesting and enjoyable meetings in the history of the camp.

Brother Leonard was present on Tuesday evening having just returned from an extended trip through the south.

At the last camp meeting the brothers were favored with the presence of Commander Holt and Comrade DeForrest of Post 88, G. A. R.

Two new applications for membership have just been received and indications point toward a most successful winter session.

The brothers will assist Post 88 at its fair, soon to be held, and a committee of five has been appointed to confer with the post.

The annual social of the camp will soon be held and if successful the proceeds are to be used to establish a permanent relief fund. The brothers realize that while they owe their unswerving duty to the survivors of the civil war, that in order to place their camp on a firmer basis, a fund that will benefit the sick and needy brother is essential to the permanency of the the organization.

Parlor Musicale.

A delightful parlor musicale was given at the residence of Capt. and Mrs. Samuel J. Higgins, Lincoln avenue, Wollaston, on Thursday evening. The musicale was given in aid of the Wollaston M. E. church. The musical selections were enthusiastically received by the large audience, and the readings by little Miss Maud Hathaway of East Boston, who is but ten years of age, were repeatedly encored. All of the ladies who made the affair such a marked success are residents of East Boston.

The programme was as follows:

Overture—"Morning, Noon and Night,"	Misses Dunbar and Morse.
Reading—"Sue's Wedding,"	Miss Maud Hathaway.
Song,	Miss Fannie McArthur
Whistling solo,	Miss Bessie Brown
Trio,	Misses Hathaway, Bruce and Staples
Solo,	Everett Higgins
Song, selected,	Miss McArthur
Reading,	Miss Maud Hathaway
Duett,	Misses Dunbar and Morse

Mexico.

The second lecture in the course on Mexico and its people, by Mr. G. W. Penniman, on Thursday evening, was even more entertaining and instructive than the first one, which was greatly admired. It seems singular that in a city as large as Quincy that there are not enough people to crowd any hall there is in this place with an intelligent audience. But on Thursday the hall was not more than half full. The rain, perhaps, kept some away, but more should have been present.

Needs Shortening

So do all cooks; and the puzzle for every one of them has been how to avoid sodden pastry. The problem has now been solved by the

TODAY'S JOTTINGS.

Gleanings from All Quarters of the City of Granite and of Schools.

Miss Jennie Coombs has returned from her vacation.

Quincy people have patronized the Brockton fair well this week.

E. H. Sanborn has sold his laundry business at Wollaston to H. P. Kent.

McConnell, the fruit man, is to occupy one of H. H. Faxon's houses on Hancock street.

Mr. John Ramsdell is attending the convention of Epworth Leagues at Manchester, N. H.

One of the men, who is said to have been one of the women chasers has gone to Dedham.

The new hose house at West Quincy will not be ready for occupancy much before November.

The mud in the streets is drying up very fast, and by Sunday, unless more rains falls, dust will be flying.

Mrs. Sarah Beals of Blaine, Maine, is the guest of Mrs. L. A. Shea of Hamilton street, Norfolk Downs.

Miss Grace Berry of Manchester, N. H., is the guest of Mrs. Edward Crocker of Hotel Elmer, Atlantic.

The Miller estate was thoroughly covered with officers Thursday night but the terror did not put in an appearance.

The street railway cars will not run across the further end of Neponset bridge until the bridge is made stronger.

Miss Elizabeth E. Jones, of Wollaston has accepted a position as a teacher in a private school at Tarrytown, N. Y.

Miss Eva Davis of Hamilton street, Norfolk Downs, was given a surprise party by a number of her friends Wednesday evening.

The successor of the late Hon. John Quincy Adams as State director of the Fitchburg Railroad, will be James Renfew, Jr., of Adams.

Next Sunday will be the last day for services in the Methodist Hall, Atlantic. Let all go and help make the meeting one to be remembered.

There are quite a number of people looking for houses and people who have tenements to let would do well to advertise them in the LEDGER.

The first of a series of lectures under the auspicies of the Epworth League will be given in the Methodist church, West Quincy, next Wednesday evening.

The Wollaston Baptist society gave a successful sociable in the chapel on Thursday evening. The affair attracted a large crowd of people from all of the societies.

George W. Mitchell, Quincy's crack bicycle rider got smashed up at the Brockton fair this week and was so badly injured that he will be unable to do any more riding this season.

All who are willing to make contributions of fruit, vegetables or clothing for a barrel to be sent to the Epworth League Settlement in Boston, are requested to leave the same at the Methodist parsonage West Quincy, before next Wednesday.

Thursday was one of the big days at the Brockton fair, and the unfavorable weather did not prevent half a thousand or more attending from Quincy. About 200 left the Quincy depot at 8.15 and 100 more at 10, and other stations contributed also.

Fred Davis, one of the boys at Timberlake & Small's store, and J. E. Alger made the trip to the Brockton fair Thursday on their wheels, the rain and mud being no drawback to them. When they got there it was hard to distinguish them apart on account of the mud.

The double quartette, which sang so acceptably at the Wollaston Congregational church last year, will sing for the first time this season at next Sunday evening's service. The members of the quartette are as follows: Sopranos, Miss Flood and Miss Delano; altos, Miss Lillian K. Bates and Miss Haynes; basses, Mr. Charles A. Tanner and Mr. Harry C. Osgood; tenors, Mr. Horace F. Bates and Mr. B. D. Mann.

Epworth League, Atlantic.

Saturday evening last, the Epworth League had their semi-annual election of officers. The following were elected for the next six months: President, Mr. H. D. Deetz; First Vice, Mr. John Ramsdell; Second Vice, Miss Jennie Coombs; Third Vice, Miss Dora E. Brown; Fourth Vice, Miss Barbara Vogler; Secretary, Miss Flora E. Brown; Treasurer, Miss Blanche Brown.

Brockton Fair.

There were immense gatherings at the Brockton fair this week. Never have we seen so many there before. All parts of the ground were covered with people, and they all seemed happy; each enjoying the part best suited to his or her taste; and there was no end to the variety of amusements offered. There was a large attendance from Quincy, and we do not think there was one who felt sorry that he or she went to the Brockton fair. To tell what we saw, and what was done, would take many columns of this paper.

TODAY'S COURT.

John Wren, better known as "Jacko," violated his pledge Thursday, and this morning appeared before Judge Humphrey who gave him a three months' vacation, which he will pass at the County institution at Dedham.

Owen Kenna was fined $5 for drunkenness at Quincy and as he did not have the five, he will keep "Jacko" company.

THE FAXON CASE.

The Hearing Closed on Thursday and Case Taken Under Advisement.

The hearing on the petition of John L. Faxon for a writ of habeas corpus to get the custody of his only child, Mary F. Faxon, 11 years old, from her grandmother, Mrs. Sarah J. F. Carr of Quincy, was Thursday morning resumed in the supreme court before Judge Barker and is reported by the Herald as follows:

Miss Mary L. Flint, a school teacher of Quincy, testified that Mary was very much attached to her grandmother.

Mrs. Blanche Elizabeth Spear of Quincy heard Mary crying "piteously" and saying to her mother: "You shall not go back to my father."

Dr. John A. Gordon of Quincy testified that Mary had a nervous heart. Her removal might result disastrously.

Dr. Nathaniel S. Hunting and Dr. Austin Leach, the latter a female physician expressed similar views upon Mary's condition.

Some few other witnesses were examined, and then the evidence for the defence was closed.

Amos L. Faxon, a younger brother of the plaintiff, thought his brother studious, industrious, competent.

Next the plaintiff took the stand. Mr. Faxon stated that he was a member of the Boston Art, Architectural, Unity Art and Twentieth Century Clubs. As an architect he has worked earnestly, and the results of some of his labor are the Victoria and Kensington Hotels in Boston. He has written art papers for the Boston Transcript for about 10 years.

Mr. Faxon told of his experience with his mother-in-law. Joseph Carr, his wife's father, had always favored him, but Mrs. Carr did everything to poison her daughter's mind against him.

He paid the expenses of the family living while Mrs. Carr was a member of the household. Up to 1885 he had always respected Mrs. Carr as he might his own mother. He struck his wife once. It was in Boston and of a September morning in 1887, and it grew out of his desire to kiss Mary on leaving for the day.

Witness then told of Mrs. Faxon's determination either to go to live with her mother or to separate from him for all the time. He asked her to consider her proposed action. This was in the morning. When he returned at noon for luncheon she had gone.

Mr. Morse asked if his intention now was not to benefit his daughter.

Mr. Faxon's voice trembled and he removed his glasses as the tears rolled down his cheeks.

Mr. Faxon said his child's happiness was the interest uppermost in his consideration. He would take her to his brother's home in Wellesley, if on reflection he found it likely that it would afford her more comfort and happiness than any other place.

Mr. Hemenway subjected Mr. Faxon to a rigid cross-examination.

On the question of Mr. Faxon striking his wife, Mr. Hemenway devoted considerable effort. He produced a diary kept by the late Mrs. Faxon, in which there is an entry under the date of July 15, 1887, in which she notes that Mr. Faxon struck her. There is another note to the same effect as of August 17, the same year.

When asked Mr. Faxon said he struck his wife only once. He never was guilty of a repetition of the act.

Witness said he never struck his baby, Mary.

When Judge Barker came in, in the afternoon, Rev. Mr. Allen took the stand to tell of his acquaintance with the petitioner. He had found Mr. Faxon gracious and kindly of manner, and brilliant and versatile of intellect. They had exchanged confidences, and belonged to same clubs. Had also seen him in a position where his patience was sorely tried, but he controlled himself admirably.

Mr. Hemenway asked if witness thought the action of Faxon in striking his wife justifiable. Mr. Allen replied:

"Of course I can not tell what the provocation or how I should behave if so circumstanced. But I hold that nothing can justify the striking of a woman."

Messrs. Robert D. Ireland, a dealer in gas fixtures on Boylston street; Joseph Sturgis Codman, real estate dealer and trustee of estates; Henry Sandham, the artist, and William C. Norris, the engineer, well known in connection with the Architectural club, testified for the petitioner.

Charles H. Crump of Shreve, Crump & Low, gave a highly flattering opinion of Mr. Faxon's worth, and then Miss Elizabeth Frances Faxon, the plaintiff's sister, told of the disposition of Faxon, displayed in the home circle. She claimed that he was extremely sensitive, but lovable and kind.

Mrs. Elizabeth Faxon, mother of the petitioner, also testified, and her opinion was in sympathy with those already made.

Mrs. Carr was called for a moment in rebuttal, and then arguments were made.

Mr. Hemenway opened for the defence, and made a most impassioned address, in which he scored the petitioner, and drew a vivid word picture of the young girl's future in one set of conditions, and as otherwise surrounded.

He stated that there were three conditions in the discussion at issue. These were the parental right, the marital and drew a vivid word picture of the child. The last was paramount. Parental authority must yield to the welfare of the little girl.

The petitioner came into court with unclean hands and soiled record. He had struck his wife Words, nor any other provocation, do not justify a blow struck at a woman. The man who does such a thing stands discredited not only among

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

The Republican State committee has issued a call to the Republicans of Norfolk county to meet in special caucus in their respective towns or wards on Friday, Oct. 12, or Saturday, Oct. 13, for the purpose of choosing delegates to a Republican special county convention to nominate a candidate for County Commissioner to fill the vacancy occasioned by the death of John Q. A. Lathrop of Cohasset.

It is hard telling who has the largest following in Quincy for County Commissioner, W. Walter Ewell or John Q. A. Field.

The following additional applications for naturalization have been filed with the City Clerk: Frederick Goss, Isaac D. Hurtle, Alfred Wessman, Charles V. Laumelson, Alexander McInnis, Charles A. Toder, Per Person, Charles Johnson, Andrew Westerburg, Nels Anderson, Andrew Peterson, Carl T. Sahlsten, Adolph Jacobson, Augus Anderson, John Johnson, Magnus J. Karlson, Johan R. "More for Our Money Here."

This is the every day speech of people who visit our store. Everyone is satisfied. Comparison of qualities prove our prices invariably the lowest, and the closest and shrewdest buyers come to us saying, "We have tried elsewhere, and only come back after wasting our time."

The Prophets Say

"This winter will be a hummer," and as usual, we are alert to the wants of the people. Our knowledge of the markets is of the greatest value to you, and in consequence we have secured some wonderful bargains in

Comforters.

Prices from 75 cents to $3.00. Our $1.00 special Comforter is the greatest value you have ever seen.

Blankets.

Overstocked markets and competition in prices have forced the prices to about one-third lower than former years. Today we offer a pair of good, all-round blankets, full size, for 65 cents. $1.00 will buy a pair as good as those you paid $1.50 for in former years. Soft and fleecy wool blankets at new free wool prices.

Parlor Stoves.

You might travel the country over, and we doubt if anywhere you can find a more complete line, or prices so low as are ours today—20 different patterns, a stove to suit your own idea in price and style. They range in price from $2.98 to $25.00

Mr. Wendell G. Corthell the Largest Taxpayer in the List.

School Committee-man Corthell pays the largest tax in the first instalment of the heavy taxpayers of Ward Five, published today. The dashes in the 1893 column show that many have jumped over the $50 limit.

The tax rate is $17.60 this year, an increase of $1 80. Any increase in tax over one-eighth shows an increase of valuation. The publication will be continued from day to day. The cents, although amounting to nearly a dollar in some cases are omitted:

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoar e or even after the cough has developed it will prevent the attack. 25 and 50 cent bottles.

A KNOTTY QUESTION

Involving the Welfare of a Child Who Might Have Been an Heiress.

BROOKLYN, Oct. 5.—An application for the appointment of a guardian for little Constance Winsor before Surrogate Abbott reveals a plot sufficiently strong to satisfy a writer of the Sardou school. Little Constance is the daughter of the late William T. Winsor by his first wife, who held property valued at more than $100,000, and made a will leaving all to her husband.

The day following the making of the will, just one day too late, according to law, for her to secure her share to the property, Constance was born. Her mother died shortly after this and Winsor had the will probated. He mentioned the existence of the child, but neglected to state that she was born after the will was executed. He converted the real estate into cash and subsequently remarried. By his second wife he had one child.

A few weeks ago Winsor committed suicide by shooting himself through the head. He left a will bequeathing his property to his second wife and appointing her guardian of the two children. Some of the friends of the first wife, fearing that justice would not be done to little Constance, have urged Mr. and Mrs. John R. Totten to act as guardian of the child. Mrs. Winsor No. 2 has also made a similar application. Decision was reserved.

Christian Endeavor Officers.

NEWPORT, Vt., Oct. 5.—Societies of Christian Endeavor elected these officers: President, E. G. Osgood, Bellows Falls; vice presidents, G. F. North, Rutland; Rev. J. L. Smith, West Derby; Marion J. Hall, South Ryegate; Rev. C. R. Seymour, Bennington; secretary, E. E. Towner, Montpelier; treasurer, M. L. Cheney, Barre; superintendent of junior work, Miss S. L. Marion, Albany; assistant, Mrs. J. L. Peters, West Randolph.

In Murderers' Row.

WASHINGTON, Oct. 5.—Captain Howgate, the alleged defaulting ex-chief of the signal service, was brought back to Washington yesterday after an absence of 13 years. Howgate occupies a cell in Murderers' row which was once occupied by Guiteau. This was because the cell is very strong and easily watched. The prisoner will not be arraigned for several days. He said he had no statement to make to the public at present.

No Hopes For Byers' Recovery.

PITTSBURG, Oct. 5.—Ebenezer M. Byers, the wealthy iron merchant of this city, has been declared a lunatic. His wife asked for the inquest into her husband's sanity. Physicians from the Pennsylvania hospital for the insane, where Byers is now under treatment, testified that Byers' mental recovery was impossible. Mrs. Byers will now go into court and ask to be made trustee of her husband's personal property.

Will Get a Pension.

WASHINGTON, Oct. 5.—After years of litigation the pension claim of Captain Charles A. de Arnaud, best known as Count de Arnaud, has been allowed. De Arnaud is a Russian, and claims to have served General Grant as a spy during the rebellion. His pension claim is based on injuries inflicted by the Confederates, who captured him while on a secret mission.

Temperance Women Elect Officers.

JAMESTOWN, N. Y., Oct. 5.—At the State Women's Christian Temperance union convention these officers were elected for the ensuing year: President, Mrs. Mary T. Burt; first vice president, Mrs. Ella A. Poole; corresponding secretary, Mrs. Frances W. Graham; recording secretary, Mrs. Georgiana M. Gardner; treasurer, Mrs. Ellen L. Tanney.

Robbed the Hotel.

NEW YORK, Oct. 5.—In the trial of William P. Wentworth, charged with forging certain entries in the books of the Victoria hotel to conceal larcencies committed by him while employed as cashier, the jury returned a verdict of guilty in the third degree, and recommended the prisoner to mercy. He will be sentenced Oct. 12.

Wound Up With a Banquet.

FRANKLIN, N. H., Oct. 5.—The New Hampshire Historical society held its annual field meeting here yesterday, visiting the birthplace and family homestead of Daniel Webster. An historical address was made by Amos Hadley, and a complimentary banquet was tendered the society by the citizens of Franklin.

Son Was Wayward.

MOUNT KISCO, N. Y., Oct. 5.—Mrs. J. E. Butler, a wealthy widow, shot herself through the head. Mrs. Butler was the wife of a Confederate general who died a year ago. They separated some years ago. The waywardness of a son is said to have been the cause of the suicide.

Balfour In Court.

BUENOS AYRES, Oct. 5. — The hearing of the appeal of Jabez Balfour, who is wanted in England to answer charges of fraud, against the decision ordering his extradition was begun here yesterday. It is expected that the charge will occupy two weeks.

Fishing Fleet Suffered.

ST. JOHN'S, N. F., Oct. 5.—The cyclonic storm, which had its origin in the tropics and swept up the coast, did more damage here than was at first reported. Vessels arriving from Grand Banks report that great havoc was caused among the fishing fleet.

Violators of Pension Laws Arrested.

BALTIMORE, Oct. 5.—The campaign inaugurated this week against alleged violators of the pension laws is now under full headway. Four arrests have thus far been made and others are expected to follow in rapid succession, as 25 warrants are out.

Each Got Five Years.

PORTLAND, Me., Oct. 5.—James Lamb, James Coleman and John Powers, three postoffice burglars, were tried yesterday and found guilty. Judge Putnam sentenced all three to five years in the state prison.

Little Rock's Horror.

LITTLE ROCK, Oct. 5.—There are no additions to the cyclone fatalities. The 37 injured victims are improving. Revised estimates of the damage sustained in the city indicate losses of $600,000.

An Alleged Embezzler.

BOSTON, Oct. 5.—Fred A. Prescott was arrested last night for the embezzlement of $394.51 from the New York and Boston Express company. Prescott is 32 years old.

Czar's Condition Very Bad.

BERLIN, Oct. 5.—The Kreuz-Zeitung's correspondent at St. Petersburg declares that the czar's condition is so bad that the end may be expected in a few weeks.

THE FAXON CASE.

[Continued from second page.]

women, but among decent men everywhere.

There is testimony that he is nervous. If he is nervous, the child, being nervous herself, may receive injury by the transference. If he is not nervous, then what he has done stands out in blacker lines. He brings no one here who has had any means of knowing what his private life is.

This man, said Mr. Hemenway, in conclusion, degraded his wife and she died. He will injure this child.

Mr. Morse spoke clearly for over an hour. His remarks were pointed with witty allusions and grounded upon profound interpretations of law. He claimed that the right of the father was supreme here. No court has the right to sit and make a nice balance of worldly advantages and give the child to her grandmother because she might be better circumstanced than the child's father. That being the case, every man might be deprived of his child if a richer person desired it or the child wished for a better home.

He spoke of Mr. Faxon's high attainments and the tributes paid him by men of all walks in life.

"Why," said he, "if they asked us to produce an ideal man we could prove that we have one here."

"Here is a case of right versus no right; the rights of a father and guardian as against no title whatever."

Judge Barker had a little talk with Mary and then took the case under consideration.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

—It does not look much like hard times when a single horse race will draw $45,000 in gate receipts.

—The number of farms in the United States in 1890 was four million and a half, in round numbers. The average size of the farms in the United States was 137 acres. The valuation of land, buildings, implements, machinery and live stock was sixteen billion dollars. As the wealth of the whole country was estimated at sixty-five billion dollars, the single business of agriculture is one-quarter of the wealth of the whole country invested in all the other kinds of business.

GIVE THEM A REST.

The Only Restorative for Tired Men and Horses.

Is a tired horse, which has worked all day, lashed because his strength is flagging? Sometimes, when a savage or a fool drives him. A wise man lets tired horses rest. Tired organs in the human body are often lashed with so-called "tonics," that are supposed to be strengthening. Nothing gives strength but food.

Paskola is a food, rich in nutritious elements. It is pre-digested, and requires no work of feeble stomachs. So Benjamin Helms of Bridgton, N. J., found out after medicines had failed to relieve him of indigestion. He writes May 4, 1894:

"I felt a beneficial result, from the very first dose, am gaining in strength daily and have a ravenous appetite. In fact, I can eat the most hearty and rich food that has been repulsive to me for a year past. My heart is much stronger, and I am free from sinking spells."

He could eat rich food after a time because Paskola had given his stomach a chance to rest.

Mrs. Charles E. Lathian of 111 West 45th St., New York City, writes:

"For five years I suffered from gastric indigestion, and have tried all the so-called remedies for indigestion, besides courses of treatment from physicians all over the country, from which I received only temporary relief.

"My symptoms were heartburn, flushing heat, dizziness, bloated feeling after eating, depression of spirits, severe and accute attacks of cramps and inflammation and chronic constipation.

"After taking one small bottle of Paskola I felt very much better. I have now taken only seven small bottles, and have never felt better in my life. I have gained ten pounds and now eat anything my appetite craves. My friends say 'How fat and well you look; what have you been doing?' My answer is 'Paskola.'"

You can buy Paskola at any druggists. A descriptive pamphlet, free, if you apply to The Pre-Digested Food Co., 30 Reade St., N.Y.

Park Theatre.

One of the brightest most talented and most popular of actresses will appear at the Park Theatre, Boston, Monday evening, Oct. 8. Fanny Rice in "Miss Innocence Abroad," is the luminary in question, and her jolly ways and overflowing mirth make a most pleasing impression upon her audiences. The play is an English comedy farce with musical interruptions, and is a more ambitious effort than "A Jolly Surprise," which Miss Rice presented so long and so successfully. The scenes of "Miss Innocence Abroad" are laid in London, and the story deals with the adventures of a bright young woman in a matrimonial agency, furnishing a solid foundation for two hours and a half of solid fun. Among the songs introduced is "Little Tommy Atkins," which made such a hit in London, and among her caricatures is that of the latest Parisian music hall success, "The Drummer."

TO HELP WOMEN.

That Is Why This Woman Writes.

[SPECIAL TO OUR LADY READERS.]

Few people have any idea of the suffering that oppresses some women.

Pains run rampant through their entire bodies. They suffer secretly as long as they can, and then go all to pieces and don't care what happens.

Yet this misery is easily relieved; thousands of American women proclaim the fact.

The portrait presented here is that of Mrs. J. M. Bender, who lives on the old York Road at Nicetown, Pa. She has been for many years in very poor health.

She had falling of the womb and other forms of female weakness, with headache, severe backache, pains all over her body, and serious kidney trouble.

Her blood was in such a bad state that physicians said she had dropsy. Nearly discouraged she tried *Lydia E. Pinkham's* Vegetable Compound, and to her great surprise it made her a well woman.

She now wishes to tell women all over the world to take the Vegetable Compound and be well. Any druggist has it.

Nothing in all the world has cured so many cases of female weaknesses as Lydia E. Pinkham's Vegetable Compound. Why don't *you* try it?

Heights.

Thank God for heights. All men may tread the plain.
Only the earnest unto heights attain.

God made them, meant them for his pilgrim's feet.
Their soil is rugged, but the air is sweet.

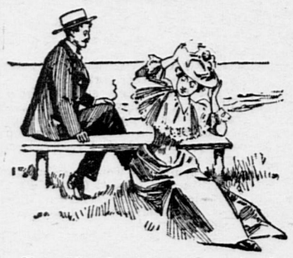

The path is long, but from the summits high
The traveler sees new lands and clearer sky.

But seek them not alone. He never meant
That man should be with his own weal content.

Those peaks are lonely, if thou have no friend
Spurred by the voice the upward way to wend.

His is the eminence who strives to be
Great that his toiling neighbors may be free.

Reasonable.

She—Why does the ocean make that moaning sound?

He—Probably one of the bathers stepped on its undertow.—Brooklyn Life.

CARUTH'S QUESTIONS.

His Thirst For Information Sometimes Takes All the Ginger Out of a Climax.

The habit of Representative Caruth of interpolating some pointed question and spoiling a climax when members are delivering a speech, as he did recently when he asked Mr Quigg at what period in history and in what country gladiators were booted and spurred, had a strong illustration in the Fifty-first congress.

Representative Dolliver of Iowa was in the peroration of an impassioned address, in which he was picturing the loyalty and devotion to American institutions of sundry immigrants. He was giving the house a thrilling and touching word painting of the goodness of these poor immigrants, declaring they had turned their backs upon the monarch ridden countries of Europe to greet the sun of liberty in their new home in America.

"I have had them sitting by my side in my office," he exclaimed, "while I was writing letters for them to their old friends across the sea and to their old homes, and they were shedding tears"——

At this point a strange voice from a seat somewhere on the other side of the chamber chimed in. It was Caruth's.

"What were they crying about?" he asked.

There was an uproar of merriment all over the floor, and Mr. Dolliver's fine forensic effect was shattered by a shout of laughter at Caruth's impudent interjection.—Washington Post.

Cancer of the Kidneys.

ST. PETERSBURG, Oct. 5.—The emperor's symptoms point to cancer of the kidneys. Public rumor ascribes his illness to excessive blood letting which he has undergone at the hands of Dr. Zaccharin.

Many Days Overdue.

PORTLAND, Me., Oct. 5.—Considerable anxiety is felt here for the safety of the fishing schooner Superior, which is several days overdue, and it is feared that she may have gone down with all on board.

Harper Chosen Treasurer.

NEW YORK, Oct. 5.—At a meeting of the Republican state committee, E. B. Harper was elected treasurer by a vote of 29 to 15.

MIKADO IS POPULAR.

Love Takes Place of Fear In the Hearts of Japanese.

OPPOSITION POLITICAL PARTIES

Fall In Line to Accomplish China's Defeat.

YOKOHAMA, Oct. 5.—The Japanese emperor's progress from Tokio to Heroshima, where he will supervise the army and navy movements, was the occasion of unprecedented displays of loyal enthusiasm.

At every station he was cheered by excited crowds, whose cries sounded strangely in the ears of those who remember the days when the imperial presence was surrounded with mystery and silent awe.

Twenty-five years ago the sovereign of Japan could not be looked upon by his people. When he passed, all heads were bowed and all bodies prostrated. His name could not be uttered by the masses. Now he comes and goes freely and listens with obvious pleasure to the acclamations of the people and turns his countenance in response to every demonstration. This last innovation was never observed until his passage through the streets of the capital on Sept. 13, but since then it has been the rule.

Bonds Found Ready Takers.

The applications for the Japanese war bonds have exceeded 70,000,000 yen, more than double the amount called for. The highest bidder made an offer of 20 per cent premium. Eight millions were bid for at an average of 6 per cent premium and 55,000,000 at par. Contrary to expectation, the floating of the loan has not perceptibly affected the money market. No heavy drafts have been made on the banks, and it is supposed a large portion from provincial hoards hitherto lying idle have been offered.

The Japanese government has decided to prohibit the export of coal from the empire.

The Chinese man-of-war Isao-Kiang, captured by the Japanese July 25, has been added to the mikado's navy, and is to be known as the Toyoshima, the name of the island off which she was taken.

A movement for the relief of the Japanese press from government restrictions is progressing favorably. The actual censorship was abolished Sept. 13, but the departments of war and navy have issued notices prohibiting the publication of news relating to military and naval movements and plans and strategic acts. The administration is evidently divided on the question, though the best intelligence of the cabinet is plainly on the side of the newspapers.

English-Speaking People Favored.

The new Japanese passport system for the benefit of British residents was put in force Sept. 20. It allows the British residents enlarged opportunities for traveling in the interior, as agreed in the recently enacted treaty between Japan and Great Britain. Hereafter Englishmen may use their permits the entire year.

The United States minister, desirous of securing similar advantages for his countrymen, has been in correspondence with the department of foreign affairs. By asking it as a friendly courtesy, he has succeeded in his application, and soon American citizens will enjoy the same special privileges now extended to Britishers.

The standing committees of the six political parties in opposition to the Japanese government have passed resolutions that, during the war, the ministry shall be cordially supported without regard to domestic differences of opinion, and that, during the impending session of parliament, they will vote all the required supplies and abstain from embarrassing the government's action upon condition that no peace shall be concluded until China gives a substantial guarantee for the preservation of order in eastern Asia.

The fate of Yauen Sciakai, whose administration in Corea is now held to be the cause of Chinese sorrows, is still a matter of mystery. The latest story told by his former friends is that having gone to Pekin to avoid the wrath of Li Hung Chang, he found himself so overwhelmed with reproach that he was forced to return to Tien-Tsin; that he was received with the pretense of forgiveness and invited to a feast at the viceroyal palace, and that he has never been seen since among the living.

British Troops For China.

LONDON, Oct. 5.—Six thousand troops will be sent from India to protect the treaty ports in China. The First Rifle brigade will leave Calcutta on Oct. 13 for Hong Kong. The other troops include the Northumberland Fusileers, two battalions of Ghoorkas and four regiments of Sikhs and drafts from the Punjaub.

Preparing for a Siege.

LONDON, Oct. 5.—Midland manufacturers have received inquiries from the admiralty as to the earliest dates at which they will be able to deliver various naval stores at Portsmouth, Plymouth and Devonport.

LONDON, Oct. 5.—The first class cruiser St. George has been ordered from Portsmouth to China.

Taking Big Chances.

LIVERPOOL, Oct. 5.—A steamer has been chartered near home to convey munitions of war so China. The freight to be paid on the cargo will exceed the value of the vessel. The owners will make a small fortune if their steamer evades capture under the foreign enlistment act.

Going to China.

LONDON, Oct. 5. — The second class cruiser Æolus, from the Mediterranean squadron, and the gunboats Redbreast and Pigeon, from the East Indian station, have been ordered to join Admiral Freemantle's squadron in Chinese waters.

A German Newspaper's Prediction.

BERLIN, Oct. 5.—The Vossiche Zeitung regards the Corean war as a forerunner of a great Anglo-Russian collision which surely will occur, sooner or later.

To Leave Yokohama.

BERLIN, Oct. 5.—The German warships stationed at Yokohama have been ordered to northern Chinese ports. It is reported that the Boerse negotiations for a Chinese loan continue.

Accidentally Shot Himself.

WILLIAMSTOWN, Mass., Oct. 5.—W. B Merwin of Pasadena, Cal., a member of the freshman class, accidentally discharged a revolver, and the bullet penetrated his thigh, causing a serious wound.

AN INHUMAN FATHER.

Sanctioned the Fiendish Murder of His Misguided Daughter.

RALEIGH, Oct. 14.—George Mills, who has been on trial for the seduction and murder of his niece, confessed the crime last evening. He told a story full of the most horrible details; how at the instance of the girl's father, who had said to him, "Taka Iana away and never bring her back alive," he had induced her to accompany him to an old, unoccupied house. Here he told her to take the contents of a bottle and it would produce an abortion, the girl having been betrayed. The drug was laudanum. Mills then struck her several times with a club.

She screamed and pleaded, but no one could hear her. He returned with the tale that somebody had murdered Iana and threatened to kill him. The girl lived 10 days, but never regained consciousness. Mills is almost an idiot. His trial will continue, notwithstanding his confession. Jack Wimbesly was jailed last evening. He was the principal witness against Mills, and now Mills will be the principal witness against him.

Keegan Held Without Bail.

PROVIDENCE, Oct. 5.—The case against Lawrence Keegan grows stronger. The boy who returned the carriage to the stable after it had been left by Keegan has been found. Two persons have been found who can testify to having seen Keegan with Mrs. Chambers on Thursday afternoon, and Professor Wood, who examined the revolver borrowed by Keegan, found that it was probably used to mutilate the face of the woman. Keegan was held without bail for trial Oct. 20.

Deadly Mock Duel.

KEENE, N. H., Oct. 5.—Arthur Thorning and Frank Blake, aged 18 and 15, respectively, were hunting yesterday, and on the way home it was suggested that they have a mock duel. They paced off 30 or 40 yards, turned and fired, supposing their guns were empty. Blake's gun contained a charge of shot, which struck Thorning in the face, lacerating it terribly, destroying both eyes.

Democrats Lost Much Ground.

ATLANTA, Oct. 5.—Returns from 137 counties place the Democratic majority at 20,000, which is accepted by conservatives. The Populists claim that the country counties, which will be the last heard from, will reduce this majority to 10,000. Several of the strongest Democratic counties in the state have been carried by the Populists.

Alleged Smugglers Held.

BOSTON, Oct. 5.—Yuen Tai and Yuen Chung, the two Chinamen charged with smuggling into the United States two of their countrymen, Yuen Sing and Yuen Lock, were held in the sum of $1000 for appearance at the Vermont court. The two Chinamen alleged to have been smuggled were also held as witnesses.

Was a Unique Character.

ROCKLAND, Me., Oct. 5.—Dr. Baynes, a dentist, is dead. For the latter part of his life he was a familiar and unique figure on the streets. He never had a doctor in 90 years, never would eat meats and slept in a chair of his own manufacture for 50 years.

First to Fall at Gettysburg.

GETTYSBURG, Pa., Oct. 5.—A monument was unveiled on the Gettysburg battlefield to the first man killed in that great fight. He was George W. Sandoe of this town and a member of the Twenty-first Pennsylvania regiment, which erected the monument.

Concord Firemen's Field Day.

CONCORD, N. H., Oct. 5.—A successful parade and field day of the Concord fire department closed last night with a grand ball. Mayor Cogswell reviewed a long line of machines and men in the afternoon, and a collation was served at city hall.

Russians to Explore the Nile.

ST. PETERSBURG, Oct. 5.—Count Kreitz and Baron Nolde are fitting out an expedition to consist of 200 armed followers and 250 camels to explore the Nile country near Lakes Rudolph and Stephanie. The expedition will be absent three years.

In Sympathy With Populists.

CHICAGO, Oct. 5.—Judge Lyman Trumbull will deliver an address at a mass meeting of Populists next Saturday night on "The rights of man as affected by accumulated wealth and favored monopolies."

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions of the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly concreasing the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of the quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W. Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

GREENHALGE AGAIN.

Nominated For Governor by the Republicans of Massachusetts.

THE OLD TICKET IS RENOMINATED.

Full Text of Addresses by Lodge and Greenhalge.

BOSTON, Oct. 6.—The Republican state convention met in Music hall today to place a ticket in the field. Governor Greenhalge had the call and no one else was mentioned for the head of the ticket General Cogswell was the presiding officer

The chairman, in his speech, paid high tribute to Governor Greenhalge, saying that he had administered the affairs of the state impartially, and that his appointments have been in the line of Republican prestige. He asserted that the Democrats were to blame for bringing about a state of affairs in the national government that must be disastrous if followed to its legitimate end.

GOVERNOR GREENHALGE.

Senator Hoar, although he came to the convention on "borrowed" credentials, was the sponsor for the resolutions. Following is the

Declaration of Principles:

The principles of the Republicans of Massachusetts are as well known as the commonwealth itself; well known as the Republic; well known as liberty; well known as justice. Chief among them are: An equal share in government for every citizen; best possible wages for every workman; the American market for American labor; every dollar paid by the government, both the gold and silver dollars of the constitution and their paper representatives, honest and unchanging in value, and equal to every other; better emigration laws; better naturalization laws; no tramp, anarchist, criminal or pauper to be let in, so that citizenship shall not be stained or polluted; sympathy with liberty and Republican government at home and abroad; Americanism everywhere; the flag never lowered or dishonored; no surrender in Samoa; no barbarous queen beheading men in Hawaii; no lynching; no punishment without trial; faith kept with the pensioner; no deserving old soldier in the poorhouse; the suppression of dramdrinking and dramselling; a school at the public charge open to all children, and free from partisan or sectarian control; no distinction of birth or religious creed in the rights of American citizenship; clean politics; pure administration; no lobbyists; reform of old abuses; leadership along loftier paths; minds ever open to the sunlight and the morning, ever open to new truth and new duty as the new years bring their lessons.

Henry B. Blackwell, Eliza Trask Hill and Mary A. Livermore appeared before the committee on resolutions to ask for the incorporation of a plank pledging the party to municipal suffrage for women. The committee refused to accede to their request.

The Catholic question was brought into discussion by remarks made by the advocates of municipal suffrage for women. Senator Hoar took occasion to say that he had no sympathy with any movement which had for its object the proscription of citizens on account of their religion.

It was a cold day for the suffragists; not a crumb of comfort was extended to them.

LIEUTENANT GOVERNOR WOLCOTT.

Lodge's Address.

Mr. Greenhalge was placed in nomination by Senator H. C. Lodge, who spoke as follows:

It has always been the custom of the Republicans of Massachusetts to recognize and reward the faithful services of those whom they have placed in the high offices of state and nation. To this wise practice has been largely due the success of the Republican party in commanding the confidence of the people of Massachusetts in holding unbroken control of the state government for more than the lifetime of a generation. But this wise custom is not merely that of the Republican party—it springs from the character and good sense of Massachusetts and of New England, which the Republican party best represents.

Look at our past history, and the names of Adams and Webster, of Sumner and Wilson, come at once to our minds as those of men whom Massachusetts kept in her service or in that of the nation all their lives, so that they won fame and honor alike for themselves and for her. Think how much the continuous service of such men counted for the state, the people and the party which stood behind them. Look at our sister states of New England, and see how they keep and have kept their public men in place, and how that strong band in senate and house have served New England when she has been attacked, as has come to pass in these latter days.

But, gentlemen, there is no need to go beyond this platform to illustrate and prove the wisdom of the custom of which I speak. What better example of it could be found than the chairman of your committee on resolutions, Senator Hoar. He has given to the people of this state a lifetime of distinguished service. He has given them freely his scholarship, his ability, his eloquence. For all these things and for better things even than these, for his pure and upright life, for his courage and unfaltering faith, for his devotion to Massachusetts, we have honored him and he has honored us, and so shall we continue to do in the future as in the past.

If you would look elsewhere for another example, you could find no better one than your presiding officer, today one of the leaders in the national house, a leader by virtue of ability and work, of hard duty, done without noise or proclamation, for the benefit of state and nation. Do we not all rejoice that old Essex keeps him in the front of our Massachusetts line and promises him this year a larger majority than any man has ever before received there?

In accordance, then, with the good traditions of New England, of Massachusetts and Massachusetts Republicans, I have risen to ask you to show your appreciation of high character and distinguished service by nominating the second time the present governor of the state. He led you to a brilliant victory last year. He has given you the best fruits of victory in an honorable and successful administration of his office. It is true he has written no letters to the legislature, denouncing as "party perfidy and party dishonor" a measure which he afterward permitted to become a law. It is also true that he has not held up to public scorn any bill as one he could not place before the people and then suffered it to go upon the statute book with his permission.

No; these feats have been reserved for the fearless champion of reform, of which the ways are indeed past finding out. Our governor has followed a very different path. He has met all his responsibilities face to face. All bills sent to him have met either his approval or his veto. He has shown himself cool, brave and effective in a moment of sudden emergency, diligent and painstaking in the performance of daily duty, always and everywhere the fit representative of the honor, the intelligence, the free spirit, and the ordered liberty of Massachusetts. His eloquent speech, his scholarship and his ability, have reflected honor on his state, on his party and upon himself. We can all be proud of him, and we know that he has deserved well of the republic.

And so, gentlemen of the convention, I ask you to put our governor again at the head of the party in the battle now close upon us. It is a great battle. It is not fought for mere party success, but to save the country from the evil times upon which we have fallen, and to give rest and breathing space to our stricken industries and fallen business. It is a noble fight to lead, and our governor is worthy and able to lead it.

Therefore, I ask you to renominate Governor Greenhalge. I ask you to do it with the enthusiasm and determination which this year of all years demands. "Do it with a spirit that shall start the earth along." Nominate him as you were wont to nominate Andrew in the days of storm and strife. The time is again ripe for such action and such spirit. Then an armed south struck at the nation's life. Now an unarmed south strikes at the nation's prosperity. Massachusetts didn't falter then; she will not fail now. I move you, sir, that Frederick T. Greenhalge of Lowell be declared by acclamation the nominee of this convention for the office of governor of the commonwealth.

The Governor's Address.

Mr. Greenhalge accepted the nomination in the following speech:

Mr. President and Gentlemen of the Convention:

I thank you, Republicans of Massachusetts for the expression of continued confidence conveyed in this renomination. This year has not been altogether free from trials and perplexities. I thank the legislature, the state officials and the executive council—never more helpful and serviceable than now—for most efficient co-operation, enabling me to meet these trials and perplexities with whatever measure of success may have been attained.

Nor can I refuse to pay tribute to our delegation in the Fifty-third congress, who have served the state so well, with such fidelity, courage and wisdom. I rejoice in the presence of our honored senator and representative, and I join with all my heart in sending a message of good cheer to General William Cogswell of Salem.

Gentlemen, I believe that the best service to the party can be only rendered by the best service to the commonwealth. Good administration with good Republican doctrines and good Republican work. It is true that affairs of state are not the only matters coming before the people for judgment at this time. The affairs of that larger commonwealth—the whole country—must claim our most earnest consideration now.

We are soon to meet our ancient enemy. In what guise does he come? He comes in worse guise than ever before—since he came as the ally of rebellion and treason. He comes branded with the misgovernment of 18 months, arrayed in the shreds and patches of ruined industries, and heralded by the execrations of an indignant people. The work of the Democratic party cannot be satisfactory to the country; it is not satisfactory to the Democratic party.

That work is based upon no principle—it does not even represent Democratic principles, and we have the unparalleled spectacle of a great party leader, a Democratic president, sounding the knell of his own party, and with blistering words stigmatizing the "magnum opus" of a Democratic congress as the consummation of "party perfidy and dishonor." We are treated to the strange spectacle of a president without a party and a party without a principle.

Taxation.

Our opponents promised to reduce the burden of taxation. They fulfilled their promise by placing a burden of $45,000,000 on sugar and by imposing an income tax, the nice feature of which I leave to the "inner consciousness" of our Democratic friends. They promised to benefit our industries—and they closed nearly every tinplate mill in the country. They promised to stimulate our foreign commerce—and they destroy reciprocity, which had already carried the flag of our commerce to new realms, brought profit to American industry and glory to the country.

Every dollar from the Republican system of revenue brought life to our enterprises; every dollar from the Democratic system is a deadly blow to our industries. They have lifted the burden from the foreign manufacturer and placed it on the domestic manufacturer.

They have cringed and fawned before the throne of a barbaric and dissolute sovereign, and turned their backs upon liberty standing at the gate. They, who claim to be Democratic leaders, have "crooked the pregnant hinges of the knee" to monopolies, and have vied with each other in servility to trusts.

Tariff reform? What crimes are committed in thy name? How different the record of the Republican party. How its principles shine and glow in the letters of living light coming from the heart and brain of our honored senior senator.

ANOTHER VICTORY

Scored by the Giants In the Temple Cup Series at Baltimore.

BALTIMORE, Oct. 5.—The second game of the Temple cup series was another exhibition of great ball playing. Both teams were evenly matched in skill and play, but an element of luck was in favor of the New Yorkers. The game was nip and tuck up to the ninth inning. In this inning an error by the peerless Jennings, which should have been an easy double, retiring the side, eventually gave the Giants four runs.

In early practise, when the "Kids" were on the field to chase the leather, Burke hit one of them in the face with a ball. It looked deliberate, and the crowd from the bleachers swarmed over into the field after him. The police drove the crowd back and Burke explained that the offense was unintentional.

The New York players and "rooters" came to the grounds at 2:30 o'clock with one policeman in each bus. The crowd of 11,000 people kept unusually quiet and undemonstrative through the game, with the exception at times when brilliant plays were made by either side.

GAYNOR DROPS OUT.

Declines the Nomination For Judgeship of the Court of Appeals.

BROOKLYN, Oct. 6.—A letter has been received from Judge Gaynor declining the nomination for judge of the court of appeals. In it he says that he owes nothing to the politicians; that he has for years fought political methods low, unmanly and base, and that he cannot see his way clear to take the place, because it would mean a change from the position that he has so long occupied.

In conclusion, he says: "If I thought that the withdrawal of my name would injure Senator Hill's canvass, I would try to see some way to allow myself to remain, for his recent development in the national senate places him with the foremost public men of his day. Between him and his opponent, he should, and I trust will, prevail.

Harrison and Hill.

ST. PAUL, Oct. 6.—General Lew Wallace says: "My opinion is that General Harrison will not be a candidate for the presidential nomination in the active, pushing sense. But a contingency might arise wherein the members of the convention, representing the united sentiment of the Republicans of the country, would demand that he accept the nomination, and in that event I believe that he would accept it." General Wallace thinks that David B. Hill will be the Democratic nominee.

That Cabinet Meeting.

BERLIN, Oct. 6.—It has been learned that a meeting of the British cabinet was called to discuss a proposal for combined action on the part of the powers to interfere and prevent the overthrow of the Chinese dynasty, which, it was claimed, would result in anarchy in the empire and a massacre of Europeans. It was decided, however, that active interference would be more dangerous than non-intervention, and it was decided that Great Britain should not interfere.

Sentence Suspended.

PORTLAND, Me., Oct. 6.—Griffith P. Owen of Lewiston was tried yesterday for using the mails for fraudulent purposes. He pleaded guilty, and Judge Putnam, in consideration of the man's previous good character, bravery, genius and the term he has served in jail while awaiting trial, suspended his sentence. Owen has three medals from humane societies and the government for bravery in saving life at sea. He was formerly in the show business.

Bay State "Machines" Won.

NASHUA, N. H., Oct. 6.—The firemen's muster here was remarkable, in that there were 16 contestants. The prizes were all won by Massachusetts companies, as follows: First, South Gardner, $150, 192 feet 8¾ inches; second, Salem, $100, 192 feet 8¾ inches; third, West Gardner, $60; fourth, Unions of Pepperell, $40.

Ex-Governor Its President.

CHICAGO, Oct. 6.—S. M. Biddeson, secretary of the State Mutual Life Insurance company, was arrested yesterday, charged with running a lottery under the guise of an insurance company. The State company is a prominent one, ex-Governor Beveridge being its president.

Taylor Is Insane.

AMESBURY, Mass., Oct. 6.—Word received from Canada says James W. Taylor, the self-confessed firebug, whose case attracted great attention throughout Massachusetts last July, is insane, and his case before this session of the superior court must be postponed.

To Even Up Prices.

PEORIA, Ills., Oct. 6.—Whisky dropped 10 cents yesterday owing to the discontinuance of the special cash rebate. The prices are now equivalent to what they would be with the 7 and 8 cent rebates.

Rumsellers Were Rounded Up.

ROCKLAND, Me., Oct. 6.—The supreme court adjourned yesterday, having been in session nearly three weeks. The sum of $1835 was collected in liquor fines and the cost of holding the court was $1700.

Rifles at Nine Cents Each.

MARSEILLES, Oct. 6.—Advices from the far East are to the effect that the Siamese government has sold to Chinese traders 60,000 rifles of an obsolete type. The price was 9 cents for each rifle.

Will Talk Politics.

BERLIN, Oct. 6.—Emperor William has arrived at Hubertusstock. Chancellor von Caprivi has also gone there, and it is reported that the political situation will be discussed.

Instantly Killed.

MALDEN, Mass., Oct. 6.—Michael J. Lucey, 28 years old, was instantly killed by being struck by a passenger train at this place.

GREENHALGE AGAIN.

[Continued from first page.]

You have placed the great standard of the party in my hands. I accept it reverently. Let the word ring along the Republican line: Forward, to the rescue of the country and its best and dearest interests. Victory awaits you, I firmly believe. And when I return this standard to you may every one of the principles blazing upon its folds shine out untarnished, clear and bright, as in the golden days of Lincoln and Andrew.

Other Nominations.

For lieutenant governor, the present incumbent, Hon. Roger Wolcott, was placed in nomination, and was the choice of the convention by acclamation.

There was but little opposition to the balance of the ticket. Ex-Senator Dawes came down from Berkshire to renominate Hon. William Olin of Boston as secretary of state. There was some talk of A. P. A. opposition to Olin on account of his pronounced views concerning that organization, but the movement did not develop much strength.

John W. Kimball of Fitchburg was renominated for auditor. James Fox of Cambridge announced himself as a candidate for Kimball's place, but made no pronounced inroads in the Kimball ranks.

The balance of the ticket is as follows:

For treasurer and receiver general, Henry M. Phillips of Springfield.

For attorney general, Hon. Hosea Knowlton of New Bedford.

General Cogswell's Speech.

Republicans of Massachusetts in Convention Assembled:

For the distinguished honor of being called to preside over the deliberations of this convention, please accept my profound thanks. Appreciating to the fullest extent this expression of your confidence and kindness, I realize that I shall need your forbearance and continued kindness to enable me to discharge acceptably the important duties you have placed upon me.

After almost 13 consecutive months, which I have just passed at the Capitol, in the depressing atmosphere of a Democratic congress and under the deep shadows of a Democratic administration, it is a relief, yes, a benediction, to stand as I do today in the presence of a Massachusetts Republican convention, and to look into the faces of a large, intelligent and patriotic assembly like this, all agreeing that the best and highest public service is along lines of encouragement, preservation and protection of the industrial interests of the country, and the honor and prestige of her flag abroad.

This convention meets today to place in nomination a state ticket and to inaugurate a Republican campaign for the state election and the election of Massachusetts' representation in the Fifty-fourth congress.

Our old opponent, the Democratic party, although just now "despised and rejected of men," if we are to believe some of its leaders and are to judge by the recent elections of Vermont and Maine, still confronts us; an enemy whose nerve, activity and mendacity ought never to be overlooked.

It is in control of both houses of congress and the administration of national affairs, although closing its second year of power, with confessedly, a lamentably humiliating, calamitous an un-American record.

Yet on the eve of another campaign listen to the words of a distinguished Massachusetts Democratic leader, speaking of the record of the Democratic party in the session of congress just closed, he says:

"All its acts were in line of the pledges it made to the people, and while it has not done all it might have wished, the Democratic party, responsible for all the legislation of the present congress, having full confidence in the intelligence of the people, appeals to that intelligence for an indorsement of its acts."

The coolness of that proposition will preserve it for a long time.

But it may be well to quote against it the words of another Democratic leader of the present congress, who said of the new tariff act, the great distinctive feature of recent Democratic legislation, as follows:

"I see an attempt to accomplish that which, if it be successful, will form the most discreditable page in the history of American government." And one is tempted to add the words of the president himself, who said of this same measure, "How can we face the people after indulging in such outrageous discriminations and

Violation of Principle."

These "acts" which "the intelligence of the people" is appealed to, to indorse, may be very easily and briefly stated: a tariff act, which no one would father, David B. Hill would not vote for, the president would not sign, and Mills of Texas says, "does not reflect the sentiment of 1000 people of the United States:" a bill that reduces revenues, fondly termed "taxes" by the ready-made Democratic orator, only some $19,000,000 less than the McKinley act, while adding $40,000,000 as a direct tax on sugar, and imposing an "odious, inquisitorial, unjustifiable income tax," to use old familiar Democratic phraseology.

For this great "act," which the intelligence of the people is asked to indorse, the business of the country has had to wait, in feverish anxiety, suspense and uncertainty, two years, while the values of property have shrunken, probably more than double the entire loss of property occasioned by the war of the Rebellion, and industries have had to stop or reduce wages, causing the loss of millions upon millions in wages to the wage people of the country.

And this wonderful reduction in taxation, this great load lifted from the shoulders of a poor, tax-ridden people, is made up, $15,000,000 of it, by the removal of duties on silk dress goods, ostrich feathers and flowers, kid gloves, Chinaware, paintings and statuary, pearl buttons, plate and cut glass, opium for smoking, jewelry, leaf tobacco and Havana cigars, lace and embroideries and on liquors; perhaps it is hardly worth the mention in this connection that in order to save the ostrich feathers, kid gloves, opium for smoking, etc., sugar had to be taxed.

The other "acts" I recall are: An extra session of congress to suspend the further purchase of silver bullion and to restore prosperity to the depressed business interests of the country.

After a three months' session it did not restore the prosperity and was only able to stop the purchase of silver bullion by the aid of substantially the entire Republican vote; an increase of the public debt by the issue of $58,000,000 of bonds; a deficiency of $70,000,000; the spoilation of the "gold reserve;" a brutal, merciless attack on the pensions of Union soldiers; the repeal of the federal elections laws; the letting of the consular service and "Lilinokalani."

These are the "acts" which have made illustrious and illumined the record of the Democratic party now in power.

Shades of Thomas Jefferson!
Shades of Andrew Jackson!

"O Liberty! liberty! how many crimes are committed in thy name."

Could the statesman of Monticello rise from his ashes and revisit and participate once more in the affairs of this world he would this fall at least

Vote the Republican Ticket.

Could the old hero and patriot, whose bones lie at the Hermitage, mingle once more with men, how he would strip the masks from the faces and scourge the temple of such bastard followers. I fear me his brave spirit has already been stalking abroad at noonday in the old Pine Tree state.

The new tariff act has an interesting history. The Wilson bill was framed substantially by Mr. Wilson, Judge Turner and Mr. Breckinridge, now minister to Russia. Mr. Wilson resides in Charlestown, W. Va., a town of perhaps 1500 inhabitants, a gentleman of scholarly tastes and habits, a student of books, a theorist, but one who commands the respect of all who know him.

Judge Turner lives at Quitman, Ga., a profound lawyer and just man. Mr. Breckinridge comes from Pine Bluff, Ark., a man of signal abilities, who stamped his own individual views upon the Wilson bill more than any other man engaged in making it up, a gentleman of high personal character, loyal in his friendships, who will show himself to be an exceedingly capable minister at the court of St. Petersburg, if not hampered by home instructions, which is very likely if any difficulties should arise and the same fatality should attend the present state department, in the future as in the past. All three of those gentlemen are able, honorable, lovable men, but each of them is a thoroughgoing free trader, born and bred. Each is possessed with the ineradicable belief that the north has become prosperous at the expense of the south, by reason of the favoritism of a protective tariff; but neither of them would know from experience or observation a northern industry should he meet one in the street.

This bill cut many a northern industry to the living quick, and under it, except at largely reduced wages, many of them would have been compelled to stop.

From any standpoint of a reasonable protective tariff, it was a cruel and disastrous bill in many respects; and here, it is but just to say, that the bill would have been still worse but far the valuable services of Mr. Stevens; probably, the best fitted man on certain lines, to frame a tariff bill on the Democratic side of the ways and means committee; but looking from his beautiful home on North Andover hill upon those great industrial cities of Lowell and Lawrence, eternal monuments to the benefits of the American system of protection, he could never get that bill into such a shape as to command his vote.

This bill, by a large Democratic majority, backed by the all-powerful and active personal support of the administration, went to the senate and

There Became Lost Forever.

I am not one of those who join in the popular clamor against the United States senate. It is the only great forum for intelligent, deliberate and effective debate of national affairs and legislation, and here the Cleveland-Wilson tariff bill, received on the Republican side, brilliant, discriminating and able discussion; and in the great debate, foremost among the leaders, foremost in activity, in keen satire, repartee, sound logic and strong argument, ever at his post, stood the senior senator from Massachusetts.

I can seem to hear him now, saying:—

"Mr. President, when you adopt here the standard of wages of other countries, you adopt with it the standard of citizenship of other countries. In America the hand of the workingman is upon the helm of the ship. No half-starved or half-paid pilot can navigate this republic over the stormy ocean of human history, or bring it safely past the shoals and breakers and rocks into port.

"Protection can do one thing. It can secure to American labor the American market. Free trade can secure to American labor no market whatever. Protection has lighted many a furnace fire. It has built many an American factory. It has opened many an American mine. There have sprung from it many an American manufacturing city and many an American manufacturing village, to be a market for the farmer. Free trade never lighted a fire in an American furnace. It has put out a great many. Free trade never built an American factory. It has shut up a great many. Free trade never opened an American mine. It has caused a great many to be deserted. Free trade never built a manufacturing city or sold a barrel of flour or a pound of pork for an American farmer. Free trade keeps the workshop that supplies the farmer and the market where he sells his produce on the other side of the Atlantic."

Thus spoke George F. Hoar.

Long may he live to wear unchallenged his present honors.

Still further; I do not agree with those who criticise and hold up to scorn the senator from Maryland, Mr. Gorman, and the senator from Ohio, Mr. Brice, for

Their Action Upon the House Bill.

True, with hot feet they had joined in the wild attack on the system of American protection, had been as fast in their pledges for free trade as any of the rest; but here and now they were confronted, not by a theory, but by a condition of responsibility and action. Men of brains, they looked abroad and saw the business of the country prostrated, paralyzed even, by the fear of this approaching disaster and ruin. They saw behind them the two senators from Alabama and the two senators from West Virginia saying, "you touch the great coal and iron interests of our respective states and we will lose them," and then not willing to see their beloved tariff reform utterly defeated, nor willing to see the country's interests wholly destroyed, they said this house bill shall not pass. And they succeeded in carrying out their purpose.

This action on their part is the only glimmering ray or flicker of an approach to statesmanship, or Americanism, or patriotism, that has flashed across the benighted pathway, at home or abroad, of the Democratic party since it came into power on the 4th of March, 1893.

No thoughtful man of middle life ought to be disappointed in the record of the Democratic party since its recent advent to full control of national affairs; for he has seen it controlled by the same old methods, policies and theories as he saw it in the last era of its powea, more than 30 years ago, when it ruined our financial credit and let the country drift into secession without raising a hand to prevent it. He has since seen this same party when the nation was in the agony and bloody sweat of a war to preserve its life, in national convention assembled, solemnly declare such war to restore the Union "a failure" and resolve that it should cease. So, too, in the critical period of reconstruction, the resumption of specie payment, the restoration of our financial credit at home and abroad, he has seen same party, with a persistency only equaled by its malignity, oppose, obstruct and bitterly fight every one of the great measures involved.

To the young men, however, the present record of a Democratic administration must be an object lesson of great value, though bought at a great price.

The Democracy may threaten the citadel, it may for a time, "blight and distress" with the dread uncertainty of its folly, it may still more humilitate, injure, devastate and ruin; but mark my words, free trade for this country has reached high water mark for this generation at least. Already the rich coal and iron deposits of the Virginas, the mineral resources of Tennessee, the vast agricultural and material possibilities of Georgia and North Carolina and the coal and iron fields of Alabama, are beginning to feel the living, quickening touch of

A Possible Wonderful Development.

And the masses of the people of these sections are watching the coming to them of the blessings of a home market and the wonderful impetus given by a system of fair and impartial American protection. Mica, coal, iron ore, the coarse cotton goods and rice of the south insist even now upon protection. In a few years more the present leaders in that section must naturally pass away; when the cry of "negro domination" will no longer have power to terrorize these communities against their own material interests and prosperity.

The repeal of the federal election laws has already taken from their hands this club of shameful intimidation; behind them already "stalks the headsmen." And when foreign competition comes, as soon it will, against the cotton of the southern planter, the Calhounism of free trade will lie as deeply in its grave as its twin brother, the Calhounism of human slavery.

The Democratic leader I quoted early in these remarks, also says: "When the Republicans denounce this bill, they must tell the people what they intend doing if returned to power." I answer. We will first summon all good men and true, no matter of what party heretofore, to help us draw off from the rocks and from amid the breakers the "old ship of state," where ignorant and incompetent Democratic pilots have almost wrecked her.

We will summon all men good and true, to come on board and help put her head to the open sea of commercial and industrial prosperity and financial honor; and to help bring her back once more to her ancient moorings, not with the flag of the underpaid workshops of Great Britain and Europe, but with the flag of American protectsan and American patriotism

Flying at Her Masthead.

We will then repair the breaches which recent free trade assaults have made in the lines of protection to American industries; existing industries we will allow to live, possible ones we will encourage; if New Bedford, with all the machinery and skill at hand, as she has today, can make the best cloths made in the world, we will protect her by a tariff as high as American wages are higher than those of her foreign competitor, that employment may be had, good wages allowed and products increased, and not stop this class of work as the present tariff does. We will bring back Republican wages, Republican prosperity; and, as higher wages give more purchasing power, as increased purchases bring more comforts, we will in this way lift our people up to a higher plane of civilization. We will not legislate for an alien importer. We will not legislate for Europe, but for America. We will try and recover the great and terrible losses of property and wages caused by Democratic misrule. We will meet all the great questions of the present and immediate future and settle them right.

No great question of recent years ever has been settled in this country except by the Republican party. The great questions of banking, currency, silver, will be taken up and determined in accordance with the traditions and record of the Republican party, which has never yet belittled or impaired the financial credit or good faith of the nation, sullied the national honor or been unfriendly to an American product. We will determine the important question of immigration, that this country shall neither become a dumping ground for the worthless, a receptacle or refuse, nor the home of the red flag of anarchy. Under consular inspection, no man shall come from abroad to enjoy permanently the blessings of this government without some knowledge of the value and principles of our institutions; without some capacity to appreciate them and a willingness to sustain them under all circumstances and at all hazards. And to this end we invoke the consideration of voters of Massachusetts to the support of the Republican cause

Wants Heavy Damages.

In the Norfolk Superior Civil Court at Dedham there was opened for trial this forenoon, the case of John Graham of West Quincy vs. Charles L. Badger and others, an action of tort to recover $25,000 damages. The plaintiff was an employe of the defendant as a teamster, and was struck by a heavy block which fell from a derrick owned by defendant, striking plaintiff on the back and causing paralysis of the lower limbs. The defence is a general denial.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

ACKOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health
IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines. ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

FOUND MANY VICTIMS

Recent Hurricane Was the Cause of Several Disasters.

WATERS STREWN WITH WRECKAGE

Storm Was Particularly Severe Off the Florida Keys.

PHILADELPHIA, Oct. 6.—News of the damage wrought to shipping by the hurricane of Sept. 26 and 27, which swept the southern coast, is now being received, and the shipping men anticipate the loss of much valuable property and the loss of many lives when the full particulars are brought to light. Vessels are arriving greatly damaged and their captains report thrilling encounters with the elements.

The schooner George E. Vernon, Captain Delahanty, has arrived from Pensacola, almost a complete wreck.

News came yesterday from Kingston, Jam., of the safe arrival at that port of the overdue British steamship Empress after a terrific passage.

The British ship Otago, which sailed from this port Sept. 21 for Havana, with 1609 tons of bituminous coal, valued at $4022, was abandoned at sea in a sinking condition, and all hands were landed safely at Jamaica. The Otago hailed from Yarmouth, N. S.

Captain Avis of the brig Wan-Bun, in port from Savannah, reports that when just outside that harbor his vessel took the hurricane in its full force, and standing off shore she burst all jibs. One jib was lost and the cargo shifted badly.

Arriving vessels report that the southern waters are strewn with wreckage of every description, indicative of many recent shipwrecks.

Fresh information from the Florida keys show a loss of life in the recent hurricane. Mr. Pinder, who resides on Earl Matacumbie key, reports that after Sept. 29

Two Sailors Drifted Ashore

with life preservers from the British bark Brandon of Quebec from Ship island, Pascoag, for Liverpool, with a cargo of timber, which ran ashore on Crocus reef on the night of Sept. 26, and after pounding over the reef got into the channel and capsized. Another of the crew came ashore the same night. There were 17 in all, and these are the only ones accounted for. They think the rest were drowned, as they were all in the cabin when the ship turned bottom up.

The shore is full of pieces of her cabin, forecastle and house, and three of her boats all smashed to pieces.

The Norwegian ship Theora was lost off Turtle Harbor, but fortunately all hands were saved. W. J. H. Taylor, the English, Swedish and French vice consul, provided for the crews and looked in every manner for their comrades.

Detroit's Holocaust.

DETROIT, Oct. 6.—Six men are dead, 10 are more or less injured and $80,000 worth of property was destroyed by the burning of Keenan & Jahan's five-story furniture establishment yesterday. Chief Elliott is being roundly scored for risking the lives of his men. The walls of the building were considered so bad that the city inspector had refused to allow the owners of the building now being erected on adjoining property to use the partition wall.

Partners Couldn't Agree.

NEW YORK, Oct. 6.—On the application of Walter Stanton, of the stock brokerage firm of Coffin & Stanton, Judge Lacombe has appointed Newman Erb receiver of the firm's assets. It is claimed that the assets will be more than enough to cover the liabilities, which are reported to be $3,600,000. Receiver Erb says the step has no semblance of an assignment, being merely the result of the partners failing to agree.

No Opposition From O'Neil Men.

BOSTON, Oct. 6.—At the Democratic congressional convention to nominate a candidate for the Ninth district, State Senator John E. Fitzgerald received the nomination. The delegates favorable to Congressman O'Neil made no stand beyond presenting resolutions thanking the congressman for his legislative deeds. O'Neil has been suggested for the Democratic candidate for mayor.

Japanese Spies Captured.

SHANGHAI, Oct. 6.—Two spies have been arrested at Nankin. One of them confessed that he had been furnishing information to the Japanese, and added that he regretted that he had been captured before he finished his work. The other prisoner pleaded youth and ignorance in extenuation of his offense. Both are now awaiting the decision of the viceroy in their cases.

Sentenced to Life Imprisonment.

NEWPORT, Vt., Oct. 6.—The jury returned a verdict in the Miles murder case, finding Abner G. Cram guilty of manslaughter and James Bowe not guilty. Bowe was discharged, and Judge Tyler sentenced Cram to hard labor in state prison during his life.

The Georgia Landslide.

WASHINGTON, Oct. 6.—A dispatch received at the Populists' headquarters says that even after Populist precincts have everywhere been thrown out, the Democratic majority in Georgia is only 7000, and that 59 counties unreported will probably overcome this.

Misconduct In Office.

COLUMBUS, O., Oct. 6. — Indictments have been returned by the grand jury against County Commissioner Cassidy, S. B. Riggert and J. M. McDonald, all Democrats, for receiving a bribe of $1200 each from the Columbus Bridge company.

Disastrous Floods In Austria.

VIENNA, Oct. 6.—Floods due to heavy rains have occurred at Linz, Melz, Salzburg, Schwechat and Gratz. A landslip occurred at Baden. Several villages around Gratz have been submerged.

Remanded For Trial.

BOSTON, Oct. 6.—Martin Fallon, charged with the murder of Thomas H. Mitchell, was arraigned in the municipal criminal court yesterday afternoon and remanded for trial to next Wednesday.

Charged With Rioting.

NEW ORLEANS, Oct. 6.—Bluefields advices say that Calvin Osburn of Pittsburg, the wealthy American resident, has been arrested for participating in the July riots.

A Step Forward.

BUDA-PESTH, Oct. 6.—The upper house of the Hungarian diet adopted, by a majority of three, the bill granting liberty of worship to all religious beliefs.

KEEGAN'S BAD RECORD.

He Is Now Said to Have Attempted to Kill Mrs. Laird.

PROVIDENCE, Oct. 6.—The most sensational development that has been discovered in the Keegan case was brought to light yesterday, when Deputy Sheriff Colvin of Fisherville found that Keegan made an attempt to murder a woman with whom he had planned elopement last Tuesday, the day before the Chambers murder.

The woman is Mrs. Rebecca Laird. Keegan met her last August and professed to be smitten with her. He met her frequently and at last persuaded her to leave her husband. He posed as a wealthy man with large property in New Haven, Boston and Australia. He told Mrs. Laird if she would go to Australia with him they could live together until she got a divorce, and then be married.

Mrs. Laird sold all her household furniture, and last Tuesday they started. Trunks were sent to Fall River, Mass., for the New York boat. Keegan and Mrs. Laird took a carriage to drive there. While on the road near Warden, Keegan proposed they walk a little way. When Mrs. Laird left the carriage Keegan pulled a knife and rushed at her. She seized the knife, cutting herself badly, but finally succeeded in getting it and throwing it away. She then compelled him to return to Providence, refusing to see him again.

Mrs. Laird has sworn to a full statement and there are four witnesses who saw them together that night. Keegan denies he ever knew the woman. While he admits he drove to Warden with a woman last Tuesday, he refuses to tell who it was. Mrs. Laird has borne a good reputation.

Strong For Mayor.

NEW YORK, Oct. 6.—The nominating conference of the committee of 70 and committees from the various anti Tammany organizations agreed to nominate the following ticket: For mayor, W. A. L. Strong; recorder, J. W. Goff; judge of superior court, H. R. Beekman; sheriff, Otto Kempner; president of the board of aldermen, ex-Justice Jeroloman; coroners, Drs. Hoeber and O'Meagher. The ticket was endorsed by the Republican county committee.

Strong Believer In Athletics.

MIDDLETOWN, Conn., Oct. 6.—Wesleyan university yesterday celebrated the formal opening of its new gymnasium. President Andrews of Brown college made the address. He took a decided stand in favor of football as a game best of all adapted to develop morality, manhood, and a clear, cool judgment. He concluded by stating that physical culture had proven itself worthy of a position as a part of the curriculum of the most advanced institutions of learning.

An Exciting Chase.

PORTLAND, Me., Oct. 6.—Three weeks ago John Johnson had his wheel stolen. Last night he recognized his wheel in another man's possession. Johnson gave chase and was soon joined by several cyclists. The race lasted for about 20 minutes, when he was run down. The man gave his name as Robert Knight.

Made It Binding.

PARIS, Oct. 6.—The civil marriage of Miss Elizabeth Sperry of San Francisco to Prince Poniatowski was performed by the mayor of Passy yesterday. The religious ceremony took place today in the Roman Catholic church of St. Pierre de Challiot, and afterward in the American Protestant Church of the Holy Trinity.

A Dastardly Plot.

FORT SCOTT, Kan., Oct. 6.—W. B. Webster, a W. C. T. U. lawyer, who has been making war on the saloons, has related to the police a plot to murder him. Mr. Webster is corroborated by prominent citizens. He has sworn out warrants for the arrest of seven saloon keepers.

Opposition to Protestantism.

MADRID, Oct. 6.—It is said that Premier Sagasta has privately declared the consecration of Rev. Senor Cabrera as the first Protestant bishop of Madrid illegal, and that the government approves of the protest entered against the consecration by the papal nuncio.

Of But Little Importance.

WASHINGTON, Oct. 6.—Minister Romero of Mexico says the belligerent tone of press dispatches stating that Mexican troops have been sent to the Guatemalan frontier is unwarranted, and that the trouble with Guatemala is of trifling importance.

Quite a Difference.

PARIS, Oct. 6.—The deficiency in the revenue from indirect taxation for the month of September was over 9,000,000 francs as compared with the revenue during the corresponding month last year.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

RUSSELL ONCE MORE.

"Shepherd of Leicester" Is the Choice of Massachusetts Democrats.

THE WILSON BILL IS ENDORSED.

Religious Creed and Politics Should Not Be Mixed.

BOSTON, Oct. 8.—The Democratic state convention was called to order in Music hall today by N. G. Robinson, secretary of the state committee, who introduced ex-Governor William E. Russell as permanent chairman.

George Fred Williams made the speech nominating John E. Russell as the candidate for governor, and Mr. Russell was present and made the following speech of acceptance:

MR. PRESIDENT AND GENTLEMEN: I have again to thank you for the nomination to lead the party. I had hoped that another might undertake the labor of the campaign, but I respond to your call willingly.

I have had an arduous summer in Washington endeavoring to assist, as a man, not a member of congress may assist, in getting such a tariff as we promised the people in the Chicago platform. I had hoped to pass the autumn, for the first time in years, in my own way, feeling that I had earned needed rest. I forego my intention, because it has been made clear to me that I should have given notice earlier of my strong desire to retire from active participation in our state politics.

It would be foolish to deny that we have great odds against us. This is a Republican state. All that selfish greed, social and business oppression can do, is against us. I believe it matters very little who is governor under our absurd system of commissions and council, but this is not an off year, and we must, from this moment, do the best we can to keep our party in line and uphold our administration: we are accustomed to defeat in Massachusetts, our party has grown up under it, as the oak strengthens in the storm.

Whatever happens to us, we shall meet no such overturn in state and nation as our opponents encountered four years ago, in the first election held in Harrison's administration. We will make losses, it will be contrary to the history of parties if we do not, but we will make no such losses as they made in 1890 and on no such grounds. We will lose because the times are against us; they lost in what they say was the flush of prosperity. They were utterly defeated and discredited for what they had done as a party.

Reed Roundly Scored.

Mr. Reed, now hotly canvassing for the presidential nomination, is fond of declaring that the Democrats cannot govern the country; this is iterated by his followers here.

It is quite true that we cannot govern in the Republican method for the reason that we propose a government by the people and not by a privileged class. I grant that we are hampered by the Jeffersonian maxim that it is the best government that governs the least, nor can we regard the exigencies of our party as good reasons for putting aside the constitution, nor can we transfer the highest functions of government for the money and influence of powerful combinations of capital. Mr. Reed so ordered and pervaded this Fifty-first congress that it took his name.

He need not seek the presidency in order to wreathe his brows with the garlands of immortality, he will go into history as the man who destroyed the hold of his party, and gave us the power to permanently change the policy of the country. At the same time, with "the whiff and wind of his fell sword" he shut off the political breath of McKinley and Harrison.

The result of the Reed congress was a storm of popular indignation which swept every part of the county, and brought us into power. We have repealed the worst part of its legislation, but we cannot restore the treasure it squandered. The Sherman act and McKinley tariff have gone forever; we have repealed the federal elections law, reformed the scandalous administration of the pension bureau, and partly purged the roll. Though we have not fulfilled our pledges to the people in a new tariff, we have struck a blow from which McKinleyism can never recover.

Free wool, free lumber, free salt, are great reforms, and the honest attempt in the income tax to shift part of the burden now borne by agriculture to the shoulders of wealth is an act our opponents do not dare to attack nor criticise.

It is in the control of the public purse that liberty consists. The Republicans amuse the people with elections and bawling about a free vote. But votes and town meetings should mean something, and that should be the people's control of their taxes.

His Views of Republicanism.

Under Republican rule the people had retained only the poorer half of liberty, the right to increase taxes and appropriate money for pensions and subsidies: under our rule they have regained the greater and glorious power to reduce their taxes.

We may have an adverse congress as our fathers had after 1846, but the Whigs, borne into office by the hero of the Mexican war, did not dare to increase taxes.

I judge from the lack of purpose in the speeches of our opponents that they see the situation. They taunt us with our forlorn hope. Let me correct the expression: it is not forlorn and we indulge no hope.

The question with us is our duty to the principles of our party; it is that loyalty to a cause which becomes dearer in adversity; it is that feeling which inspires soldiers who give their hearts with every shot, who seek not to know the verge and scope of battle, but to cope with the fronting foe.

Where would our opponents be in our case? How would this Persian host dissolve without its commissariat.

Victory may not be in success; they who make it possible may have fallen at the outposts. Bunker Hill was a defeat, but the monument which shall mark it while the ranged arch of the wide republic stands, records that it made Saratoga and Yorktown possible.

We long ago learned to bear defeat, and our opponents know that it cannot crush us. Let us then quit ourselves like men, as in the past times, feeling that in doing our duty we shall honor our cause and make future victory possible.

Other Nominations.

Charles E. Stratton of Boston, the candidate for lieutenant governor, was put in nomination by Mayor Crosby of Pittsfield.

The balance of the ticket was as follows:

For secretary of the commonwealth, Charles A. De Courcey of Lawrence.

For treasurer and receiver general, James S. Grinnell of Greenfield.

For auditor, Alfred C. Whitney of Boston.

For attorney general, Henry F. Hurlburt of Lynn.

The Platform.

The resolutions reiterate the loyalty of the Massachusetts Democracy to President Cleveland, congratulate the country on the repeal of the federal election laws, the Sherman silver law, the McKinley tariff law and the abolition of bounties, the conduct of our foreign affairs, the reform of abuses in the pension system, and the reduction in the appropriations of congress.

The Wilson tariff bill is endorsed as an honest effort to carry out the Democratic tariff policy, and the Democratic senators who prevented its passage are denounced. The new tariff bill is recognized as a great improvement over the McKinley tariff, and as the beginning of the end of the system of duties for protection only.

They favor placing all raw materials upon the free list, and to abolish duties which tend to create monopolies.

They trace back the currency evils from which the country has suffered to the legal tender decision of the United States supreme court, and point out the Republican responsibility for that decision. They assert that the only financial measure for which the Democratic party has been responsible as the party in power during this generation has been the repeal of the Sherman law.

It is pointed out that according to strict Democratic principles the sole function of the federal government in monetary matters is to provide a standard of value and coin metallic money.

The removal of the tax on bank notes, whether state or national banks, is favored.

The principle of the income tax is approved.

The extension of the civil service system is favored, and the administration is asked to formulate a plan by which the postoffices may be brought within its scope.

Any organization which aims to introduce distinctions of birth or religious creed into politics is opposed, and any party which tacitly accepts an alliance with such an organization is condemned.

Proportional representation and the adoption of voting machines are favored.

STRENGTHENING PEKIN.

Prince Kung Is Preparing to Fight Japs. Neutral Powers' Ultimatum.

LONDON, Oct. 8.—A dispatch from Shanghai says that Prince Kung, the emperor's uncle, who was recently called from retirement to take the position of president of the Tsung-Li-Yamen and the presidency of the admiralty, and to whom was intrusted the conduct of the war with Japan, remains in Pekin, where he is occupied with providing defenses for the capital.

A telegram from Pekin announces that the Italian minister, acting under instructions from his government, has expected the Italian consul at Seoul to observe the strictest neutrality and to confine himself to purely diplomatic action in order to as far as possible lessen the evils caused by the present struggle.

The minister, it is added, also addressed a note to the Tsung-Li-Yamen, offering pacific advice to the Chinese government. It is further said that he declined to accede to the views contained in a note addressed by the Tsung-Li-Yamen to the representatives accredited to the Pekin court, by the terms of which China sought to limit the rights of neutral powers to freedom of navigation of Corean waters. The British, Russian and French representatives forwarded a similar answer to the Tsung-Li-Yamen.

HELD HIGH POSITIONS.

Death of Andrew G. Curtin, Twice Governor of the Keystone State.

BELLEFONTE, Pa., Oct. 8.—Ex-Governor Andrew Gregg Curtin died yesterday. He was the son of an Irishman and was born in Bellefonte, April 22, 1815. He was admitted to the bar in 1839. He was an active Whig until the formation of the Republican party, with which he connected himself, and in 1860 was the nominee of that party for the governorship, to which office he was elected by 32,000 majority.

In his inaugural message Governor Curtin took strong ground for coercion of the seceding northern states. His administration was distinguished for the zeal and ability with which the national government was sustained in its war measures and for the efforts which he put forth for the comfort of Pennsylvania's volunteers in the field.

Governor Curtin's health began to fail in 1863, and he signified his intention of accepting a foreign mission which had been offered him as soon as his gubernatorial term had expired, but in the meantime he was renominated and re-elected by 15,000 majority.

He went to Cuba for his health in November, 1865, and in the same year declined another office of a foreign mission. In 1869 General Grant appointed him minister to Russia. He returned from Russia in 1872 and supported Horace Greeley for the presidency. Subsequently he joined the Democratic party, by which he was elected to congress for three consecutive terms, serving from 1881 to 1887.

Will Result Fatally.

PROVIDENCE, Oct. 8.—A stabbing affray occurred in the Italian colony last night, in which Gusetti Genardo was fatally wounded by Gusetti Spenna. The two men were playing cards with Spenna's wife when they became engaged in a quarrel. Suddenly Genardo seized his knife and stabbed it through the woman's hand, piercing it to the table. The husband rushed for his razor and slashed Genardo in the face and chest, inflicting a number of wounds, one of which penetrated his right lung. He was taken to the hospital and Spenna was arrested. Genardo cannot survive.

Brown Won't Fight.

ATLANTA, Oct. 8.—W. C. Glenn, recently a candidate for the Democratic nomination of attorney general for Georgia, has challenged George C. Brown, and the latter has declined to fight. Brown is solicitor general of the Blue Ridge circuit. Glenn and Brown are both prominent lawyers and politicians. Two years ago Glenn and his partner, C. D. Maddox, preferred charges of malfeasance in office against Brown and secured a legislative investigation. Brown was exonerated. Ever since then there has been a bitter feud between them.

A COMPLICATED CASE

Which Has Been Left to President Cleveland as Arbitrator.

DISPUTE OVER A BOUNDARY LINE

Of Much Importance to Brazil and Argentina.

WASHINGTON, Oct. 8.—President Cleveland is expected to give his decision as arbitrator of the important boundary dispute between Brazil and Argentine Republic soon after his return from Buzzard's Bay. Baron Rio-Branco, special envoy from Brazil, accompanied by a large suite, is now here awaiting the decision.

The case has been in Mr. Cleveland's hands for eight months, and as the treaty of arbitration provides that the decision must be made within a year, it is being looked for almost any day. The time for the decision expires Feb. 10 next, but as Mr. Cleveland will be busy with congress and public affairs soon after his return, he is expected to dispose of the arbitration question before taking up domestic affairs.

MAP OF BRAZIL.

It is understood that he has made the arbitration his special study during working hours at Buzzard's Bay this summer. It is a very complicated case, the brief of Baron Rio-Branco filling several large volumes, while the maps, old treaties, etc., and the briefs of Dr. Zeballos, the Argentine minister, make a fair-sized library.

Mr. Cleveland has not turned this mass of documents over to the state department, but has undertaken personally to go through it and unravel the dispute. It is a self-imposed task which the president does out of courtesy to the southern republics, and in the extent of interests involved and legal complications it is as large as any case pending in the United States supreme court.

Mr. Cleveland's decision will settle whether the eastern boundary of Argentine remains as it is usually given in the maps, or is extended by a wedge-shaped projection almost to the Atlantic coast. If Argentine gains this strip it will have a considerable effect on southern Brazil, as it will almost sever the great state of Rio Grande do Sul from upper Brazil, the remaining connection being

A Very Narrow Isthmus

compared with the general width of Brazil.

On the other hand, it will give Argentine a narrow arm of land stretching from the north to within 40 leagues of the Atlantic.

Mr. Cleveland's coming decision is awaited with great interest by the southern envoys, as it means much to the strategic strength of the two dominant South American countries.

Moreover, the disputed territory is itself very valuable for its mineral and agricultural resources. It embraces 11,823 square miles, with towns and villages having a population of 5793, most of them Brazilians.

Mr. Cleveland's arbitration is the result of a treaty made when Dom Pedro was emperor of Brazil. It has taken since to make the surveys and present the case, and Mr. Cleveland's decision will close the long controversy. He is obliged, under the treaty, to give all the disputed territory to Brazil or to Argentina, so that there is no opportunity for a compromise which will satisfy both parties.

A Disastrous Accident.

BRISTOL, Tenn., Oct. 8.—A train from New York jumped the track about three miles south of this place. The engine fell across the track, and the express and mail cars jumped over it, and, falling on their sides, were soon a prey to the flames, which consumed eight coaches. Everybody was badly shaken up, and many were badly injured. It is a miracle that many deaths did not result. The accident was the result of a bolt having been placed on the rail by some unknown person.

Loyal to the Dead.

DUBLIN, Oct. 8.—The procession held yesterday in commemoration of the death of Charles Stewart Parnell was the largest on record. In the line were political societies representing every county in Ireland. Over 50 bands were in the line. The streets were so packed with spectators that it was difficult for the procession to move. At Glasnevin cemetery the paraders deposited hundreds of beautiful wreaths on Parnell's grave.

Sailors Saved.

BOSTON, Oct. 8.—An ocean tug arrived here from Norfolk with Captain Sprague and crew of the Philadelphia three-masted schooner Frank McDonald, abandoned last Thursday off Cape Cod, on board. The vessel sprung aleak in a heavy southeast blow, and Thursday she began to settle and all hands took to the boats. The vessel sank in a few minutes in 45 fathoms of water.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

Editorial Comment.

CAMBRIDGE WILL be given the first hearing by the "Greater Boston" commission on Thursday evening, and we shall expect to see considerable opposition developed in that city. The commissioners give out that they have found many persons who raise strenuous objections because of the taxation, and it is anticipated that the greater part of the discussion to come will be upon this subject. The sewers, public schools, fire department, highways and water system are also subjects to which the people are giving much attention. The commissioners are having a map made, showing the territory which will come under the head of "greater Boston," so an interested person may see at a glance just the country the problem involves.

The dates for the series of public hearings have not been fixed. It is probable that it will be some time before the board will be able to open this series, but it will be finished before the legislature convenes.

MISSIONARY WORK.

Mr. Wishard of Y. M. C. A. Lectures Morning Afternoon and Evening.

Seldom does one have opportunity to hear more thrilling addresses than those given Sunday in our city by Mr. L. D. Wishard, of New York. The average person even though he be interested in religous affairs, is not apt to be enthusiastic over missionary addresses, but those of Sunday consisted of an entirely different plan of the work than is usually presented. Few men have ever had the opportunity to study all the missionary fields of the world as Mr. Wishard, and no other man has ever attempted to unite the students of all lands in a common Christian fraternity. A few years ago the various missionary boards of the foreign countries were confronted with the perplexing question "How can we best reach the young men in our schools, particularly the govenment school." It was considered unwise for any particular denomination to assume such a work, so that they finally decided to call upon the Young Men's Christian Association of America to send trained men to the most important educational centres of mission lands, to organize and train the college students.

Mr. Wishard made a tour of the world, occupying four years in studing the various problems connected with this work.

In his address in the morning at the Congregational church he gave the history of the Intercollegiate Y. M. C. A. work and the development of the students volunteer movement, and its relationship to the foreign mission fields. He also told of the wonderful growth of the college work in foreign lands, putting his facts so forcibly that one could not help but be convinced of the truth. In the afternoon he spoke to the young people impressing upon them the wonderful opportunities during the present generation to evangelize the world. He spoke particularly of the duty which we owe of giving all in our power to aid this work, relating several instances of self denial practiced by students and others that they might aid this work.

The Wollaston Congregational church in Ward Five was filled to overflowing on Sunday evening by the members of that society and also the Baptist and Methodist. It was a union missionary service and was addressed by Mr. L. D. Wishard, who spoke on the work for young men in foreign lands, especially those in educational institutions. The Rev. Edward A. Robinson presided and seated with him in the pulpit were the Rev. Preston Gurney of the Baptist Society and the Rev. C. W. Wilder of the Methodist society. The double quartette rendered some excellent music.

Hose 2 Jollification.

Hose company No. 2 held a meeting Saturday evening to complete arrangements to celebrate the completion of its new fire station which will be occupied by the apparatus for the first time on Wednesday. It was decided to have their jollification that evening.

The programme as arranged will be as follows: From 7.30 to 8.30 the Sons of Veteran's Drum corps will give a concert in front of the house. At 8.30 a banquet will be served by Caterer Nash. Speeches and a smoke talk will follow.

Invitations to be present have been issued to all of the city officials and all ex-engineers, and it is expected that over 200 will sit down to the banquet.

—The Hingham Gun club will make a visit to Dedham Saturday, Oct. 20, when a match shoot will take place with the Dedham sportsman's club.

TWENTY YEARS MARRIED.

Captain and Mrs. Eugene Hultman Entertain on Their Anniversary.

'Tis twenty short years since the genial Captain Eugene Hultman, who had bravely met many storms on old ocean's troubled waters without a quiver of fear, led, with faltering heart, a fair young bride to Hymen's altar, and vowed he would love, cherish and (perhaps) obey until death did them part, the blushing Lillian.

It was to commemorate this interesting event a few of the relatives and friends of Capt. and Mrs. Hultman gathered at their cosy new home at 105 Washington street, Saturday evening.

The captain received his guests with a hearty shake of the hand and vowed he felt as young as he did twenty years ago, and received unblushingly the many pretty compliments and congratulations that were fleeting permiscuously about.

The evening which was a very enjoyable one was passed with a few hands of whist for which suitable prizes were given, this being followed by a wedding supper and socially.

Capt. and Mrs. Hultman received a number of pretty wedding gifts, among which was a Japanese punch bowl, which was presented by Quincy friends. The presentation speech was made by Dr. C. W. Garey in the form of a poem written for the occasion, by one of the guests, and was as follows:

Twenty years or so ago,
On one pleasant sunny day,
Cupid took a yachting trip
Out in Massachusetts bay.

But as the party all were seasick,
There was naught for him to do;
So at last, as sometimes happens,
Overboard poor Cupid flew.

For a while he flew quite gaily—
Then alas! so tired grew.
When in joy he spied a vessel
Bounding o'er the waves so blue.

So this vessel staunch he boarded—
Sought the captain brave and bold:
Told him he would safely steer him
To the matrimonial fold—

If he'd take him as a pilot
He would bless him all his life;
For he quick and sure would steer him
Both to port and a young wife.

So the captain feeling lonely
Said he'd follow where love led.
The result you see before you;
Twenty years since they were wed.

Twenty years and Cupid still
Comes to see you oft by stealth,
So your friends wish to present you
With this bowl to drink Love's health.

It was at a late hour that the guests departed, but not before once more wishing the happy couple continued health and happinese, promising to meet them five years hence on the occasion of their silver anniversary.

DIED OF INJURIES.

Opinions Differ as to Whether Accidental or Assault.

On Saturday evening Sept. 1, a conductor of the Quincy & Boston street railway brought to the Quincy Police station a man who gave his name as James Moran and his residence as Dorchester. Moran's face was covered with blood and on his head were two deep cuts, one on the left crown and one over the left ear.

Officer Bissett, who was at the desk at the Police station that night, summoned the City Physician who dressed the wounds. The next morning Moran, who was simply held as a lodger was discharged.

Moran was covered with coal dust and the police were of the opinion that he fell from a train.

Moran remained about Quincy a week and had his wound dressed by Dr. Gilbert, after which he disappeared and nothing more was heard until Saturday, when word was received the Moran had died at the Boston City Hospital from wounds received at Quincy.

Since then the police have been looking up the matter and find that on the night in question two ground men found Moran standing against a post outside of a barbet shop at Wollaston, and as he was badly cut they started with him to procure medical assistance. Meeting John A. Duggan they turned the man over to him, who in turn sent him to Quincy on an electric car.

When Moran was brought to the police station he said he had $12 in his pocket when he left Dorchester and upon being searched $11 was found.

The Quincy police still think that Moran fell from a train but the Boston officers differ and all the parties who saw Moran in Quincy that night have been summoned to an inquest to be held in Boston sometime this week.

ADVERTISE IN THE LEDGER.

A MYSTERIOUS CASE.

Man and Wife Found Dead With Bullets In Their Bodies.

MIDDLETOWN, N. Y., Oct. 8.—John Tierney was found dead yesterday with a bullet hole in his right temple. His wife was lying near him with a bullet hole in her left breast, while a pistol lay a few feet away. The affair occurred in a cafe owned and conducted by Mrs. Tierney.

An aged uncle, Robert Flynn, awoke at 6:30 yesterday morning and went down stairs to the kitchen in the basement and built a fire. While thus engaged, he heard a report, which did not seem to him, he said, like that of a pistol, and the fall of a body. A moment later it was followed by another report. He sent a young man, who had just come in the back door of the cafe, to ascertain the cause of the noise. The young man returned, reporting nothing.

Shortly afterward Mrs. Tierney's son, Thomas, who is said to have been asleep on a sofa in the kitchen, went up and found the two dead bodies. His mother lay in the parlor with her feet in the bedroom adjoining, and his stepfather lay in the center of the parlor. He ran to his mother and found the body still warm. Tierney was gasping and frothing at the mouth.

Tierney married Mrs. McGuire, a widow, five weeks ago. Thomas, her son, was very angry at the marriage and left the house for two weeks.

Mrs. Tierney owned a cafe, which, previous to her marriage, it was believed, would go to Thomas when she died. This was not likely, however, after she married Tierney.

There were two others in the house, who say they did not hear any pistol shots. Mrs. Doran retired to her room adjoining Mrs. Tierney's at 4 a. m. She said she heard no shots. Her son, Edward Doran, spent the greater part of the night in the house, but Thomas Tierney says that the beds were not occupied. He gives it as his opinion that his mother was murdered by her husband, who, he asserts, committed suicide.

A MIDNIGHT TRAGEDY.

Two Deaf Mutes Seriously Stabbed by a Would-Be Robber.

BOSTON, Oct. 8.—About midnight the inmates of a tenement house, 88 Chardon street, were aroused by the moans of an Italian who had jumped from the fourth story window to the yard, after seriously stabbing two deaf mutes. Joseph Finnegan and his wife Clara occupied apartments on the fourth floor. Mrs. Finnegan felt someone disturbing the bed and saw a man prowling about the room, but before she could awaken her husband a knife was plunged into her neck.

The husband, aroused by the struggles of his wife, hardly had time to grasp the situation before he, too, was made a victim of the ready knife. The assailant rushed for the window and dashed through it, falling a distance of 30 feet to the yard below. It was found that his arm was broken and that he had internal injuries, which may result fatally. His name is Anton Lawo.

Mrs. Finnegan is seriously wounded, but her husband will recover. As the two were deaf and dumb, very little information could be got from them, but it is supposed that Lavo's motive was robbery.

Entertained on a Yacht.

BUZZARD'S BAY, Mass., Oct. 8.—J. M. Forbes' steam yacht Wild Duck arrived off Gray Gables yesterday afternoon. The Clevelands were entertained on board last night. Mr. Cleveland, Miss Benedict and young Mr. Benedict walked to Joseph Jefferson's to bid farewell to Mr. and Mrs. Jefferson, who left last night for Chicago, where the actor opens his engagement Oct. 15.

Revival Has Set In.

LONDON, Oct. 8.—In its financial article this morning, The Times says that the board of trade returns for September are rather unsatisfactory. The exports fully demonstrate that a revival of trade with America has set in, but the values of imports and exports are below the totals of September, 1893, although the figures then were reduced by the great coal strike.

End Near at Hand.

NEW BEDFORD, Mass., Oct. 8.—The amalgamated conference committee of the strikers yesterday discussed the recommendations of the state board of arbitration. A committee was appointed to confer with the manufacturers this afternoon. It is the general opinion that the conference will result in terminating the strike.

An Alleged Firebug.

BANGOR, Me., Oct. 8.—Gilbert McPherson was arrested here last night for burning the house and barns of Sumner Finson of West Bangor on Oct. 3. McPherson is a native of New Brunswick. His wife left him and was living at Finson's.

Laudanum and Pneumonia.

BOSTON, Oct. 8.—James Quirk, 32 years old, who attempted to kill himself by swallowing laudanum last week, died last night at the city hospital. The effect of the poison, together with an attack of pneumonia, was the cause of death.

George Wolfe's Feat.

NEW YORK, Oct. 8.—George W. Wolfe has wheeled all the way from Chicago, breaking the record between that city and New York by 1h. 13m. His time has been 6d. 9h. 30m. During that time he had only 11½ hours sleep.

Three Youths Missing.

PROVIDENCE, Oct. 8.—Howard Cornell, George Munroe and William Sutcliffe, each about 20 years old, are missing. They went fishing in a small skiff Saturday, and it is believed they have been drowned.

A Peculiar Accident.

PROVIDENCE, Oct. 8.—Nathaniel R. Wright, while hunting in Greenville yesterday, attempted to separate two dogs with his gun, when it exploded, killing him instantly.

The Peoples Party of Quincy have filed with the Secretary of State, nomination papers for the full State ticket, helping to make up the necessary quota.

At the Democratic State convention today, no Quincy men appeared on the committees. Two former citizens, Sigourney Butler and Josiah Quincy, served at large, the former as chairman of committee to report remainder of State ticket, and the latter as chairman of committee on resolutions and also on committee to report 20 members at large for State committee.

Another opportunity tomorrow night to register. No name can be added or changes made after Oct. 17.

Hon. Henry O. Fairbanks represented the tenth district on committee on credentials at the Republican State convention, and was elected one of the permanent vice presidents. John Shaw of Quincy was one of the committee on ballots. Hon. John Conners of Boston represented the tenth district on permanent organization, and Hon. Albert E. Pillsbury of Boston on the committee on resolutions.

Frederick W. Peabody will run for Congress in this district on nomination papers. Mr. Peabody moved from New York less than two years ago. The Journal shows the connection of John T. Wheelwright, a Democrat on the staff of Gov. Russell, with the nomination, and regards the efforts of the Democrats to divide the Republicans of the Tenth district as a burlesque.

Dr. Everett, a hungry seeker for a Federal appointment! Perish the thought! Isn't a solitary Mugwump idol to remain unbroken?—Journal.

Saturday's Game.

A large crowd greeted the ball team of '93 and '94, at North Weymouth Saturday afternoon, and although the game was a good one it was not as interesting as it might have been owing to the cold weather. The game resulted in a victory for the '93 team, which made 12 runs and held the '94s down to 4 runs. The features of the game were the pitching of Dolan for the '93 and the home run of Faircloth for the '94.

Body Found on the Track.

The body of an unknown man was found on the track of the New York and New England railroad at Forest avenue station, Dorchester, Sunday evening, and was taken to the City Hospital morgue.

In the pocket of the dead man's coat were found two letters, one addressed to John T. McMahon, Pontiac, R. I., and the other to J. H. Costello & Co., 158 Beach street, Boston.

A reporter called at the Costello residence on East Brookline street, to see if the dead man was known. Young Mr. Costello said that the description given tallied with that of one of their travelling salesmen who resided in Quincy, and who had recently been in Rhode Island,—Herald.

SAVED TWO WOMEN,
THOUGH MANY MILES APART.

[SPECIAL TO OUR LADY READERS.]

Many curious and interesting experiences are found in the correspondence of a woman like Mrs. Pinkham, who for many years ministered to the sufferings of her sex all over the land. Here are two notable cases, one from the Pacific and the other from the Atlantic coast.

The Brooklyn woman is Mrs. Lillie Meyer. Five years ago she began to feel sharp pains in her abdomen, with the bearing-down feeling and pains in her back. She tried doctors and got no relief. A friend told her of Mrs. Pinkham's Compound, and after using it the pain left her, and menstruation now comes without suffering.

The Riverside, Cal., woman is Mrs. J. E. Dewey, who says, "I have used three bottles of your Vegetable Compound for painful menstruations.

"Every month my suffering was terrible, and I was obliged to go to bed.

"After using the first bottle, my general health was much improved, and now, after using three bottles, all pain has left me, and I am a well woman. Lydia E. Pinkham's Vegetable Compound is as unfailing as the sun." Get it from your druggist.

AIMS AND OBJECTS.

President McLennan Tells What Literary Societies May Do.

The regular session of the Quincy Literary Society was opened in a very promising manner on Friday evening in Doble's hall South Quincy. There was a large attendance of ladies and gentlemen, the room being comfortably filled.

The central feature of the occassion was the inaugural address of the president, Dr. R. McLennan, who chose for his theme: "The Aims and Objects of Literary Societies." His remarks were chiefly directed on the advantages they offer for interchanging opinions, and the consequent acquirement of broader views concerning human life. The facilities they offer for obtaining that confidence in utterance which is born of practice and perseverence. He made an eloquent plea for the free and full discussion of subjects, contending that none was too sacred for consideration, non so inherently perfect, that criticism could neither add nor detract from its merits.

Said he, among other things "It is a cause for regret that in such a large community so few of the young people could be found to take interest in literary exercises. Useless frivolities, devised by the Shylocks seem to overfeed the vain at the expense of the noble. To people of ordinary mental calibre public speaking is an effort from which they retreat in fear. Not because of a lack of acquaintance with subjects, but because of a lack of confidence in communicating their thoughts to many listeners.

There is no better opportunity for an individual desirous of becoming in some measure a proficient speaker than to take part in a literary society. Here he may say a few lines from time to time. As his confidence developes, paragraphs take the place of lines, chapters the place of paragraphs, and so on to the first, second, and third volumes.

We are not all equally endowed mentally, but we can all become accomplished in some field of usefulness if we are really anxious to obtain it. Genius is the gift of nature, accomplishment the reward of perseverence. The genius among men is as scarce as the pearl in the crude material world, but by the polish of persistency, none but may become a finished topstone on some mighty edifice.

Time there was when in a mixed community it was advisable to exclude religious and political subjects, but the human mind has expanded and become more self conscious. The right of self-thinking is recognized on every hand.

It does not make any difference in the harmony of things that each individual has his own opinions if we recognize his right to them. If we could read through unbiased glasses we should find good in Christianity, Judaism, Paganism, Mohametanism, Ancient Mythology, Epicureanism, and Stoicism.

To me the positive proof that human intelligence is on the ascension lies in the fact that 1893 was the date of the first convention of the parliament of religions. Nothing betrays a man's incapacity more than pessimism, bigotry, and discourteousness.

The true philosopher looks on both sides of a question. He places before himself high ideals. He observes that passion, inclination and character are but the make up of inherited peculiarities and atmospheric environment.

How well the immortal Shakespeare puts that on the canvas before us. Froilus and Cressida is as Greek as if Sophocles had written it. Dante if dramatic could not have made Romeo and Juliet more Italian. All his plays have national as well as individual delineations.

Nothing surrounded by the halo of custom or ages should on that account be debarred from consideration, but we should compare it cautiously and respectfully with our own conceptions of right and wrong."

After the delivery of the presidential address a varied programme was contributed by the following ladies and gentlemen:

Songs by Miss L. Hutchison, Mrs. L Perry, Mrs. A. Craig, Messrs. Geo. Bowman, Alex. Hall and David Drummond.

Duetts by Misses Lizzie and Belle Smith, and Misses Alice and May Garvin.

Readings by Miss Mabel Ellis, Miss McKenzie and Mrs. Robert Allan.

Banjo and mandolin selection by Miss Bertha Foss and Mr. Bert Curtis.

Supplementary remarks on the subject of the evening were also interspersed by a few of the members.

Amidst this "feast of soul and flow of reason," the claims of the material body were not neglected, and a modest collation served during the services, succeeded in admirably blending together mental and physical nourishment.

Next Friday night, articles contributed to the "Society's Magazine," will be read and discussed.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

To a Cat.

Stately, kindly, lordly friend,
Condescend
Here to sit by me and turn
Glorious eyes that smile and burn,
Golden eyes, love's lustrous meed,
On the golden page I read.

All your wondrous wealth of hair,
Dark and fair,
Silken shaggy, soft and bright
As the clouds and beams of night,
Pays my reverent hand's caress
Back with friendly gentleness.

Dogs may fawn on all and some
As they come.
You, a friend of loftier mind,
Answer friends alone in kind.
Just your foot upon my hand
Softly bids it understand.

Morning round this silent sweet
Garden seat
Sheds its wealth of gathering light,
Thrills the gradual clouds with might
Changes woodland, orchard, heath,
Lawn and garden there beneath.

Fair and dim they gleamed below.
Now they glow
Deep as even your sun bright eyes,
Fair as even the wakening skies.
Can it not or can it be
Now that you give thanks to see?

May not you rejoice as I,
Seeing the sky
Change to heaven revealed and bid
Earth reveal the heaven it hid
All night long from stars and moon,
Now the sun sets all in tune?

What within you wakes with day,
Who can say?
All too little may we tell,
Friends who like each other well,
What might haply, if we might,
Bid us read our lives aright.

BELOVED AUTOCRAT

Succumbs to an Attack of Heart Failure at His Boston Home.

A LONG AND HONORED CAREER

Nobly Lived Out by the Great Poet and Philosopher.

BOSTON, Oct. 8.—Oliver Wendell Holmes, the beloved poet and author, died at his city home, 296 Beacon street, at 12:15 p. m. yesterday. Heart failure was the immediate cause of his death, although an asthmatic trouble of long standing helped to break him down at the last.

Ten days ago Dr. Holmes returned to Boston from his summer home at Beverly Farms. This journey so fatigued the aged man that he did not recover fully from it for several days. Last Friday a sudden attack of heart failure seized him, which passed off later and he seemed as well as usual. Yesterday morning a severe spasm attacked the doctor and he slowly sank until the end.

At the bedside were the members of his family, who watched the ebbing life until the last. The poet, without the semblance of a pain or a struggle, passed away as he had lived, peacefully and beautifully.

Just north of the common in Cambridge, and overlooking what is perhaps the most interesting spot historically in Massachusetts, stands a curious gambrel roofed house. It is at least 160 years old. It was used by the committee of safety in 1775, and Benedict Arnold's first commission was made out there. Not far away stands the famous elm under which George Washington took command of the American army. Washington occupied the house for a time. A little later it became the home of Dr. Abiel Holmes, historian of New England, clergyman and author, and in it, on Aug. 29, 1809, was born his famous son, Oliver Wendell Holmes.

O. W. HOLMES.

All the historic and patriotic associations of the place seemed to have had their influence on the boy. To the last of his life he was proud of his birthplace. When he was but 20 years of age he sat in an attic room of the quaint old house and penned his stirring lines on the destruction of the frigate Constitution, "Old Ironsides," as was afterward thus described:

And one who listened to the tale of shame,
Whose heart still answered to that sacred name,
Whose eye still followed o'er his country's tides
Thy glorious flag, our brave old Ironsides!
From yon lone attic on a summer's morn,
Thus mocked the spoilers with his schoolboy scorn.

The family was truly noble. It was also old, as age goes in New England. John Holmes settled in Woodstock, Conn., in 1688. His grandson, David, served as a captain of the British troops in the French war and surgeon in the patriot army of the revolution. His son Abiel, who was born in 1768 and died in 1887, was graduated from Yale in 1783, studied theology and became noted both as a preacher and a writer. His second wife was a daughter of Oliver Wendell, and of her five children the third was the renowned genialist and "Autocrat of the Breakfast Table."

Except the Historian Bancroft, no other American had so long a literary career, and probably no other had one so uniformly brilliant. At 16 he wrote musical lines glowing with optimism, and at 88 he looked upon the world without asperity and expressed himself with all the vivacity of youth. His native constitution and good habits probably had most to do in maintaining this uniform cheerfulness, and from his earliest years he breathed an intellectual atmosphere.

While preparing for college at Phillips Andover academy he made his first attempt at versification, turning the first book of the Æneid into heroic couplets. In 1829 he was graduated from Harvard. He was poet of the class at commencement, and was one of the 16 chosen into the Phi Beta Kappa society.

His first poem to attract general attention was the famous one on the Constitution, beginning:

Ay, tear her tattered ensign down!
Long has it waved on high,
And many an eye has danced to see
That banner in the sky;
Beneath it rung the battle shout
And burst the cannon's roar;
The meteor of the ocean air
Shall sweep the clouds no more.

It stirred the popular heart as did the "Star Spangled Banner." The young poet's fame became national in a month and worldwide soon after. The poem was published in almost every paper in the United States and circulated by thousands in handbills. A universal protest was echoed back from every section and the constitution was saved.

His suddenly won popularity was never once lost during the 60 odd years of literary life which followed, and though he was often attacked for special utterances, the attack always had in it something of sorrowful tenderness. This was all the more remarkable because most of the attacks were on religious grounds.

So far as Dr. Holmes' views on the unseen and unknown can be gathered from his writings he was a philosophic or scientific pantheist, nor does it appear that he ever had any orthodox faith, even in childhood. In the "Autocrat of the Breakfast Table" are found the most pointed of Dr. Holmes' stabs at the clergy, and there he gives offense chiefly by ignoring what is said on the other side as simply beneath notice.

To the direct question, "Do you believe man has an immortal soul?" the most that could be got from him was, "I hope so."

The young graduate had decided, or more likely it had been decided for him, that he was to be a lawyer, and he studied law for one year. During this year he wrote "Evening: By a Tailor," and other popular pieces of humor, then decided against the law and went to Paris as soon as he could afford it, to study medicine. After three years abroad he published his first volume of poems in 1836, the most noted productions in it being "My Aunt" and "The Last Leaf." The latter contains these exquisite lines:

The mossy marbles rest
On the lips that he has pressed
In their bloom,
And the names he loved to hear
Have been carved for many a year
On the tomb.

In 1839 he was chosen professor of anatomy and physiology at Dartmouth, and in 1840 married Amelia Lee, daughter of Judge Charles Jackson of the supreme court of Massachusetts. A son of this marriage, Oliver Wendell, Jr., born March 8, 1841, made a very honorable record in the war for the Union, and has attained high rank as a jurist. In 1882 he was made a member of the supreme court of Massachusetts, having previously published various law works.

BIRTHPLACE OF O. W. HOLMES.

In 1847 Dr. Holmes succeeded Dr. John C. Warren as professor of anatomy and physiology in the medical school at Harvard, and soon after became prominent as a lyceum lecturer. Thence, till 1860, his larger works appeared in rapid succession, works on literature and medicine alternating.

The zenith of his power was attained in his contributions to The Atlantic Monthly for the first three or four years of its existence—1857 to 1861. The most popular of all his productions, the one which secured him the title by which he is best known, "The Autocrat of the Breakfast Table," appeared as a serial in the first numbers of The Atlantic, and its advent was an era in literature. The "Professor at the Breakfast Table" followed, and then "The Professor's Story," which appeared in book form as "Elsie Venner: A Tale of Destiny." He continued to give the public new works occasionally till in 1887, when "Our Hundred Days in Europe" appeared. Several of his poems have given the public popular phrases of almost universal use, such as "the wonderful one hoss shay," for instance.

Unlike nearly all other writers, most of his poems were written to order, as it were, that is, for some commencement or festal occasion. His last production of that character involved him in rather the most serious controversy of his life, for, in exalting the effect of his favorite Harvard on current thought, he used these lines:

O'er Princeton's sands the far reflections steal;
Where mighty Edwards stamped his iron heel;
Nay, on those hills where old beliefs were bound
Fast, as if Styx had girt them nine times around,
Bursts such a light that trembling souls inquire
If the whole church of Calvin is on fire.

Princeton could not stand such a statement as that, and, as some of her professors were invited guests in the audience that listened to Dr. Holmes, the controversy took on a rather bitterly personal tone. The indomitable courage, good nature and adroitness of expression of Dr. Holmes, however, carried him through.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

FOUGHT IN THE DARK.

Japanese Killed a Number of Their Own Men at Azan.

ADVANCE GUARD AT THE YALU.

A Battle Is Looked For In the Near Future.

LONDON, Oct. 9.—The Times publishes a letter from Tien-Tsin which gives a new version of the battle at Azan. The writer says the Japanese tried without success the tactics which they later carried out at Ping-Yang with brilliant success.

It is added that the full details of the battle will never be known, but that the Japanese surrounded the Chinese and delivered a night attack. The Japanese so managed matters, however, that each of their divisions mistook the other for the enemy and dealt severe execution to their own men, enabling the Chinese to cut through the opposing lines and continue their march.

The Graphic publishes an interview with Admiral Wills, who was engaged in the expedition of 1880. He said he did not believe that the Japanese would succeed in a march on Pekin, certainly not before winter, on account of the elaborate preparation necessary to ascend the Pei-Ho river.

Now For a Fight.

A dispatch from Yokohama states that the advance guard of the Japanese army has crossed the Yalu river and formed a new camp. A battle is believed to be imminent.

Japan decreed the creation of naval prize courts on Sept. 20, and one of these courts has actually been sitting since Sept. 21. The supreme court sits at Toklo.

Rumors of a Rebellion.

A despatch from Shanghai says that rumors are current there that a rebellion has broken out in the district of Jehol, in the province of Chili. The object of the rebellion is said to be the overthrow of the Mantchu dynasty. No details have been received and the rumors are officially discredited.

A dispatch from Tien-Tsin says that railway building has been suspended and that the government is engaging European officers for the naval service.

Private Correspondence Not Molested.

WASHINGTON, Oct. 8.—Officials of the Japanese legation do not hesitate to affirm that the statement made in San Francisco that the private correspondence of American naval officers in Japan is subject to government espionage is incorrect. In this connection, Solicitor Stevens points out that the sanctity of personal correspondence is so highly regarded in Japan that it is guaranteed in the new constitution.

Dr. Smith's Retort.

CHICAGO, Oct. 9.—Dr. Julia Smith, in an interview on Cardinal Gibbons' attack on woman suffrage, said: "In support of his idea, the cardinal recites words of a Grecian ruler. 'I command Athens, Athens rules the world, and my wife rules me; therefore she rules the world.' Perhaps had the cardinal investigated his Grecian history more carefully, he would have discovered that it was not the wife that ruled or governed. The man whom Aspasia governed had a wife and family at home. Cardinal Gibbons would do well to study the story of Aspasia."

Massachusetts' Citizen Soldiers.

BOSTON, Oct. 9.—The Massachusetts Volunteer militia, about 6000 strong, assembled in Boston today, and were reviewed by the governor. The forenoon was spent in massing the troops and later there was a march through the city. Brigadier Generals Peach and Bridges and Colonel Bancroft accompanied the three divisions of the troops. The city put on a holiday appearance, the public schools, the markets and other public places being closed in honor of the citizen soldiery.

Vessel Abandoned and Crew Rescued.

GLOUCESTER, Mass., Oct. 9.—The schooner Hattie Graham arrived here, having in tow the schooner Alice T. Boardman of Calais, Me. The Boardman, laden with lumber, from Calais to Boston, was abandoned in a waterlogged condition Oct. 6, off Cape Cod. A note was found in the cabin stating that the British steamer Durham City, Boston to London, had rescued the captain and crew. They will be landed at London.

Johann Most Makes His Debut.

NEW YORK, Oct. 9.—Johann Most, the anarchist editor of the Freiheit newspaper, last evening commenced his career as an actor, when, with a company of amateurs recruited from the anarchists of both sexes in this city, he produced Gerhardt Hauptón's play, "The Weavers," at the Thalia theater. Most played Old Baumarte, and on appearing on the stage received an ovation.

Scattered by Police.

PARIS, Oct. 9.—The Chateau St. Peirre des Porte De Hyeres was the scene of a desperate attack by Italian brigands. A number of servants in the house succeeded in holding the brigands outside the wall. While the fight was being waged a number of gens d'armes approached the place, whereupon the brigands fled.

Laid at Rest.

BOSTON, Oct. 9.—In King's chapel, at noon today, funeral services were held over the remains of Dr. Oliver Wendell Homes. Rev. Stopford Brooke of the First Unitarian church officiated. Cousins of Dr. Holmes were the pallbearers. The burial was in the family lot at Mt. Auburn

RIORDAN DISCHARGED.

George Appo Is Held on the Charge of Attempting Suicide.

NEW YORK, Oct. 9.—George Appo, the Lexow witness, who told of the relations existing between green goods workers and the police, was in the Tombs police court yesterday to answer a charge of attempted suicide

GEORGE APPO.

The defendant had charged Michael J. Riordan, a Ward 1 politician, with cutting his (Appo's) throat, but on the hearing Riordan was discharged, and Appo charged with attempted suicide. The case was continued at the request of Appo's counsel to enable him to procure certain witnesses to the assault.

MILLS MAY START UP.

If Operatives Refuse to Work, the City Will Discontinue Aid.

FALL RIVER, Mass., Oct. 9.—Members of the executive committee of the Cotton Manufacturers' association and other leading manufacturers held an informal meeting yesterday and discussed the situation. No proposition was decided upon. There is a possibility that the mills may open in a few days to give a chance for the operatives to go in under the reduction. The shutdown by the manufacturers continued after the weavers' vacation ended. Many operatives have applied to the city for aid, claiming that they are ready to go to work but cannot. The starting of the mills under a reduction will remove the city from liability to support idle operatives who apply for aid. If they refuse to go in, they will do so on their own responsibility, and the city will not be liable for their wants. If the help refuse to work under the reduction, the shutdown will again become general.

Looks Bad For Keegan.

PROVIDENCE, Oct. 9.—The authorities investigating the movements of Lawrence C. Keegan in connection with the murder of Mrs. Emily Chambers and the assault upon Mrs. Rebecca Laird, two days before the murder, have hit upon fresh evidence. The knife with which Keegan attempted to murder Mrs. Laird was found yesterday in the Swansea field. It was a large butcher knife, and was identified by the manager of Young's stable as one that was stolen from that place on the day that Keegan hired a team to take Mrs. Laird to drive. It was more than a foot long. This is the only link necessary to sustain Mrs. Laird's story.

Religion and a Crown.

BERLIN, Oct. 9.—Owing to the probability of the crown of Wurtemberg passing to the Catholic branch of the family through the failure of male issue, a bill will be submitted to the diet arranging for the transfer, in that case, of the religious prerogatives of the crown to an ecclesiastical commission. William II, King of Wurtemberg, was born in 1848. He married, in 1877, Princess Marie, who died in 1882. The issue of this marriage was Princess Pauline. The king again married in 1886, espousing Princess Charlotte. Of the second marriage there is no no issue.

Knocked Overboard.

VINEYARD HAVEN, Mass., Oct. 9.—Schooner Deer Hill reports that when three miles south of Vineyard Sound lightship Captain William Cleveland was accidentally knocked overboard. A line was immediately thrown out, but he was probably stunned, as he was unable to swim for the line. He sank in a short time and no trace of the body could be seen. Captain Cleveland was a resident of Alma, N. B. He leaves a wife and two children, who were with him on the schooner.

Whole Family Blown Up.

IRONWOOD, Mich., Oct. 9.—John Ravell, a farmer of this city, together with his family of five, were blown up by an explosion of giant powder. Ravell and a 5-year-old son were killed outright. Mrs. Ravell and a 6-year-old daughter will undoubtedly die. The others were not dangerously hurt.

Tramp Eluded Arrest.

DOBBS FERRY, N. Y., Oct. 9.—Miss Ella Judson, a well-known society belle, was last Saturday night assaulted by a tramp. She was rescued by her father, but her injuries are serious. All efforts to apprehend the tramp have failed.

Lower Gas For Worcester.

WORCESTER, Mass., Oct. 9.—Mayor Marsh received word from the state gas commission that they had requested the Worcester Gas Light company to reduce the price of its gas from $1.40 per 1000 feet to $1.25.

Crooked Councilman Punished.

NEW ORLEANS, Oct. 9.—John T. Callahan, the first of the council convicted of criminal bribery and corruption in office, was sentenced by Judge Moise to five years in the state penitentiary and $50 fine.

McMahon's Suspicious Death.

NEWPORT, R. I., Oct. 9.—Attorney General Dubois has ordered the body of James McMahon exhumed and an examination of the stomach made, his relatives believing that poison caused his death.

Cholera's Progress.

AMSTERDAM, Oct. 9.—Throughout Holland last week there were 16 new cases of cholera and eight deaths from the disease, of which number six new cases and one death were in this city.

THE GIANTS GET IT.

Coveted Temple Cup Captured In Four Straight Games.

IT SURPRISED BASEBALL CRANKS.

Receipts of $25,000 to Be Divided Among Players.

NEW YORK, Oct. 8.—The Temple trophy belongs to the New Yorks. They have done great work in the series with the Baltimores for the possession of it, winding up at the Polo grounds with their fourth consecutive victory. Six games were originally scheduled by Managers Ward and Hanlon, three to be played in New York and three in Baltimore, with the understanding if the series stood a tie that the seventh and deciding game should be played in the city of the team whose manager should win by the toss of a coin.

But seven contests were not necessary; neither were six. Four settled everything. Everybody thought that the Orioles would put up a strong fight, but they did not, for the Giants in all four games played at so fast a pace that their opponents could not get near them.

The result is a great triumph for the honesty of baseball. Although the teams played for the Temple cup and the gate receipts, 65 per cent of which was to go to the winner and 35 per cent to the loser, there was no jockeying done so as to prolong the series and thus secure the money. Had they wished the teams

Could Have Played Seven Games

and each player would have been much richer financially.

It was a surprise to the entire baseball world that the series developed into a walkover for the Giants, as the cranks were all of the impression that it would be the bitterest series ever played.

It is said that the receipts for the four games will amount to about $25,000. Of this the Giants will get $16,000. As the expenses are not heavy, each of the 16 New York players will receive as his share nearly $1000. The Baltimores will have about $9000 to divide up among 14 players after their expenses are paid.

There were 12,000 people present yesterday. The Catholic Protectory band escorted both teams across the field. Van Haltren's heart swelled with pride in the second inning when Digby Bell walked out to the home plate and in behalf of the center fielder's hosts of friends presented him with a

Silver Bat of Regulation Size.

Van Haltren responded with a two-bagger.

In the sixth inning Van Haltren met with an accident which caused him to retire from the game. He collided with Jennings, while trying to steal second base, and was knocked unconscious. When he recovered, his nose appeared to be broken, but later it was found to be only an abrasion. Murphy took his place in center field. Jennings was seriously cut on the forehead, and retired in favor of Bonner.

There were many sensational plays—a stop by Davis being one of the finest ever seen on any ball field. Farrell, Van Haltren, Bonner and Brodie did nobly.

Wrecked Off the Australian Coast.

ADELAIDE, Oct. 9.—The steamer Londono was wrecked on Pollock reef, 45 miles south of Cape Arid. There were on board 160 passengers, while the crew numbered 36. It was impossible to use the small boats, so all hands made their escape to the reef over the bow of the steamer, which was well up forward. After getting on the reef, rafts were built of the wreckage, and on these everybody embarked and slowly sailed and rowed to an island 20 miles north of the reef, where all but four passengers, who are missing, landed in safety.

An Outrageuso Assault.

DUBLIN, Oct. 9.—Mrs. McDonnell, owner of an estate in Achill, was the victim of a most atrocious assault. Her skull was fractured, her nose broken and portions of her scalp torn away. When found she was in a half-conscious condition. Later, she identified a man named Lynchehan, who acted as her agent, as her assailant. Besides assailing Mrs. McDonnell, Lynchehan set fire to her house, which was completely destroyed.

Cloakmakers to Strike.

NEW YORK, Oct. 9.—Nine thousand members of the Operators and Cloakmakers union No. 1 met last night and by an almost unanimous vote declared a general strike to abolish the present system of piece work and substitute the adoption of a time scale. The general demand is for $18 weekly wages and a nine-hour work day.

Will Support Hill.

NEW YORK, Oct. 9.—Ex-Secretary Whitney visited the Democratic state headquarters yesterday afternoon. It was rumored that the ex-secretary brought the official and final assurances of the Cleveland faction's hearty support in the coming election.

Guardian For Ward's Boy.

WORCESTER, Mass., Oct. 9.—Ferdinand Ward, who abducted his son at Thompson, Conn., a few weeks ago, was yesterday adjudged an unfit person to care for the boy The uncle, F. D. Green, was appointed guardian.

About the Czar.

ST. PETERSBURG, Oct. 9.—The reports of the czar's condition are exaggerated. No idea is entertained of the establishment of a regency, and there is every prospect that he will be able to continue to conduct state business.

PALE, THIN AND EMACIATED PEOPLE.

The country is full of them. They do not know what it is to feel well like other folks. Medicines of all kinds have been tried without good results. Cod Liver Oil and the preparations of Malt have all failed. What is the reason? These emaciated people cannot digest starchy foods. The fat of the body is produced with bread, potatoes, and other starchy food. If they will eat food that is artificially digested, they will grow fat, strong, plump and robust. They will commence gaining flesh at once. This Flesh Forming Food is called *Paskola*. You can buy it at any drug store. THE CITY COUNCIL.

The Street Railway Company Petition for Withdrawal of the FRANKLIN STREET PETITION.

A Public Hearing is Given However and No Action Taken.

The Quincy & Boston Street Railway Company took a hand unexpectedly in the proceedings of the City Council, springing a petition for the withdrawal of their petition just before the hour for an advertised public hearing. The Council did not untangle the knot before adjournment as the proceedings show.

The absentees were Councilmen Robbins and Snow. The attendance of citizens was large.

To Fill Vacancy.

The Board of Examiners for Norfolk County declared a vacancy to exist in board of County Commissioners caused by death of J. Q. A. Lathrop, and ordered the vacancy filled at the coming State election. To Committee on Elections.

Petitions.

Several petitions for licenses to sell naptha, for flying horses, and for night lunch wagon were received and referred.

One of George F. Cunningham for pool table license was granted.

There was also one petition for State aid. Referred.

James H. Donaher asked for transfer of license for sparring exhibition from Music hall to Hancock hall. Referred.

The Republican Ward and City Committee petitioned for polling places for election of delegates to special county convention. Referred to Committee on Elections, who later in evening reported order authorizing Commissioner of Public Works to provide the same.

Withdrawal Asked.

Councilman Johnson presented the petition of the Quincy & Boston street railway company for a withdrawal of its petition for a location on Franklin street and Independence avenue. The prayer set forth that the petition had been entered Nov. 15, 1893, and that the company now deems it unnecessary. Laid on table.

Reports

The Committee on Licenses reported an order granting several licenses. Adopted.

The same committee reported an order granting license for sparing exhibition in St. Mary's hall. Adopted.

The Committee on Streets reported an order granting New England Telephone Company a location on South and Washington streets. Ordered to second reading.

The Committee on Finance reported an order appropriating $2500 for furnishing the new High schoolhouse. To second reading.

The same committee reported ought to pass on order authorizing transfer of $500 from Miscellaneous City to Miscellaneous Fire Appropriation. Passed unanimously.

The same committee reported an order appropriating $43.21 to rebate portion of tax of Milne & Chalmers. Ordered to second reading.

Willard Street Location.

At eight o'clock a duly advertised public hearing was given on the petition of the Quincy & Boston street railway for a location on the east side of Willard street from the West Quincy depot to the Milton line.

Marshall P. Wright of the O. T. Rogers Granite company opposed location on the side of the street, as it would greatly discommode them in their business. They abutted on the street for about 600 feet and used the whole front in carting out heavy loads. Would probably necessitate change of grade of our land. Would not object to location in centre of street.

Hearing closed and order recommitted.

Reservation Hearing.

Upon motion of Councilman Anderson the use of the Council chamber was granted to the commissioners to apportion assessments for cost of reservations taken by State, who will give a hearing Oct. 10.

Suit Against Fallon & Sons.

Upon motion of Councilman Holden the Mayor was requested to begin suit against Fallon & Sons relative to encroachments on Quarry street.

A recess was taken from 8.12 to 8 30.

Franklin Street Hearing.

At 8 30 a hearing was given the remonstrants to a location of street railway tracks on Franklin street. Councilman Holbrook objected to proceeding in view of the withdrawal of the petition, but was ruled out of order.

Councilman Bigelow introduced Miss Mabel Adams, who appeared for the remonstrants. She first distributed small plans showing number of estates on each side, and each of the owners who objected to the location. Franklin street was very narrow; it was but 27 feet from curb to curb at one point. Abutters were afraid of carriage accidents, and accidents to children, one little child having already been killed on a portion of Franklin street. The location was of no possible benefit to abutters, most of whom owned their estates, and took a pride in trees on street which must be cut down. It will benefit only out of town people and a corporation. The former are not particular as to route; the latter will soon be gobbled up by

BARRIOS AND EZETA.

Both Aspire to Be the President of All Central American.

WASHINGTON, Oct. 9.—The news of the important movements looking to the invasion of Guatemala, presumbly by forces under the command of Antonio Ezeta, the ex-president of Salvador, is supplemented by semi-official advices received here which indicate that preparations are being made in Guatemala not only to meet the threatened invasion, but to checkmate the plan attributed to Ezeta of uniting the Central American republics under one head.

Information has been received here from very high authority in Central America to the effect that President Barrios of Guatemala has taken active steps to sound the leading men of the other Central American republics, with a view to making himself president of the United States of Central America by a peaceful convention if possible, but by conquest if such a course seems necessary and practicable.

President Barrios is said to have devoted himself to exciting as much resentment as possible against the Ezetas in Salvador, who have always held him responsible for their downfall.

Barrios has long entertained hostile feelings toward the Ezetas, who, he believes, have secretly aided the anti-Barrios faction in Guatemala, with a view of securing their co-operation in the event of being able to organize a successful expedition from Mexico.

TWO TO ONE.

South Carolina Supreme Court Says Dispensary Law Is Constitutional.

COLUMBIA, S. C., Oct. 9.—The decision of the supreme court in the dispensary cases was filed last night. Justices Pope and Gary declare the law constitutional, while Chief Justice McIver dissents.

Justice Gary argues generally that the regulation of the manufacture and sale of intoxicating liquors comes within the police power of the state and that the dispensary is such a regulation of the traffic; that there is no inherent right in any one to sell liquor, and, that being the case, the state has the right to prohibit the sale altogether or to so control it as seems best for the general welfare. Justice Pope assents to this finding, which is a long legal dissertation on the constitutionality of the act. Justice McIver dissents and reiterates the position taken by him last spring.

The effect of the decision will be that Governor Tillman will now begin an active warfare against "Blind Tigers," which have been flourishing without molestation since the act was decided unconstitutional. What the saloon men will do is problematical.

Was Bound For Egypt.

NEW YORK, Oct. 9.—Steamer Seneca reports that on the 2d, about 30 miles off the Florida coast and about 65 miles north of Jupiter light, she sighted an abandoned bark. The vessel's crew had apparently been picked up the day before. The wreck is a dangerous obstruction. The bark was the Otar Niko, with lumber, from Pensacola for Alexandria.

Neglected His Wife.

BARNSTABLE, Mass., Oct. 9.—Patrick Hurley of Sandwich was arraigned here charged with manslaughter in causing his wife's death by neglect. The evidence showed that at the time of her death Mrs. Hurley's condition was shocking and filthy in the extreme. Judge Swift held Hurley in $5000 for the grand jury.

Involuntary Starvation.

CHICAGO, Oct. 9.—Professor William F. Sloan died here yesterday after a fast of 50 days. Professor Sloan, who was a prominent educator and newspaper man, had been subject to attacks of a strange disease, which he said compelled him to fast. He had frequently lived three or four weeks without nourishment.

On One Count Only.

SPRINGFIELD, Mass., Oct. 9.—Judge Phillips sentenced A. B. Crawford, the ex-cashier of the wrecked American National bank, to five years in the Missouri penitentiary. He was convicted on five counts, but four were ignored.

May Be Murder.

BOSTON, Oct. 9.—Just before daylight this morning a patrolman found the dead body of a man on Front street, Charlestown. It looks like murder, and the police are actively at work on the case.

It is reported at Edinburgh that 4500 of the Scotch miners who were among the strikers have resumed work, and that the strike is dying out.

IMPORTANT DEAL.

A Sixty Thousand Dollar Transfer of Real Estate.

THE CHARLES F. ADAMS ESTATE

On President's Hill Purchased by a Quincy Syndicate.

The beautiful estate and mansion house of Charles Francis Adams situated on President's hill, has been sold, through Herbert T. Whitman, to a syndicate of Quincy gentlemen represented by Henry M. Faxon, Clarence Burgin and Luther S. Anderson.

The estate purchased is assessed as follows:—17½ acres of land, $40,000; house, $16,000; stable, $2,800; barn and sheds, $500; total, $59,300.

The price paid by the syndicate was about $60,000, which is but little more than the assessed value.

This estate is one of the most beautifully situated in the city as the view here is unsurpassed. Directly in front a magnificent view is had of Massachusetts bay and Nantasket, while to the north the gilded dome of the State House and the city of Boston are plainly seen.

The syndicate are to develop the property and plans for that purpose are now being made. No lot will contain less than 15,000 feet of land and restrictions will be placed upon all lots sold to insure a class of buildings fitting to the location.

MILTON.

Milton society people are already active in preparations for the social season. Mrs. John P. Reynolds started the ball a-rolling by giving a recherche "afternoon tea's in the dainty club house of the Milton Club on Friday Oct. 5. About two hundred guests—all ladies—availed themselves of the opportunity. The hostess was handsomely attired in a Worth gown. This exclusive club, although for gentlemen, is composed of many members with charming wives, so that, "ladies' days" are frequent during the season. There will be a set of dinner dances and other festivities given. The club is purely social. Colonel Harry S. Russell is the president; Mr. George Bruce Upton, vice-president; Mr. James C. Barr, treasurer; Mr. Frederick Stanwood, secretary. Colonel Russell is famous for his fine stock farm in Milton and as owner of the stallion "Smuggler."—Post.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Register tonight.

The people of the county without regard to party would be glad and proud to vote for Hon. J. Q. A. Field of Quincy for County Commissioner. If the republicans are wise they will nominate him by acclamation, to succeed the late Mr. Lothrop —Walpole Democrat.

Verdict for $6,000.

John Graham secured a verdict of $6,000 at Dedham Monday in his suit against C. L. Badger and others of West Quincy.

The plaintiff sought to recover $25,000 damages for personal injuries received May 19, 1893, while in the employ of the defendants as a teamster at their stone yard in West Quincy, through the giving away of a derrick rope, allowing an iron block to fall, striking him on the back and causing, as a result, a paralysis of his lower limbs. He claimed the defendants were negligent in the premises.

The firm is said to be insured.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

the West End. Fourteen out of twenty abutters objected. If location were granted against the wishes of the abutters it was little wonder the best people moved out of city.

O. H. Leaman would like to see street railway on Independence avenue, but thought President's avenue preferable to Franklin street as a location.

The hearing then closed.

Councilman Bigelow moved to take the prayer of the street railway company for withdrawal from the table.

Councilmen Moxon, Holden and Holbrook thought no action necessary on petition.

Motion lost.

An effort was made to secure a vote on the order granting the location, but instead of moving to take it from the table there was a squabble as to whether it was or was not before the Council, and the Council adjourned.

A MILITIA CALL.

A New List of Fire Alarm Boxes—New Numbers Given Nos. 34 and 31.

Chief Engineer Williams has issued a new list of fire alarm boxes and has made some changes. The most important are: No. 34 at the corner of Union and Mill streets, which will hereafter be 171; and No. 31 on the New Road, which will become No. 172. This follows out a suggestion of the LEDGER that all boxes in Ward Two should be 702.

There are three new signals: 4 blows, three times, which is a militia call, and will doubtless be tested shortly; 6 blows, which calls the superintendent of the Water Works; and a Boston call, 162.

The list as issued by the chief is not correct in two instances: Newcomb street does not run into Sea street and therefore Box 25 cannot be located at the corner of these streets. Again Newbury street is half a mile from Billings street, and therefore Box 64 cannot be at the corner of these streets.

The LEDGER list below will be found complete and correct:

ALLENS COMPOUND EXTRACT SARSAPARILLA THE HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—

I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Canker of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

PROF. W. H. MORSE, M. D., F. B. S. Sc. of Westfield, N. J., author of "New Therapeutical Agents", the standard text book of the newer materia medica, Consulting Chemist and Therapeutist, one of the most widely known men among the medical profession gives it his highest endorsement, as testified by the following voluntary statement:

"Allen's Sarsaparilla commends itself to me therapeutically, chemically and clinically. Its therapeutical power, physiological activity, and chemical purity, are all noteworthy; and the reason is to be found in the fact that it is true to its name, or honest, as the word goes. That is, it is vegetable alterative, and tonic. Perhaps the highest praise that may be given it is that its action represents that of mercury, less the faults of that drug; for, has not Pereira said, "A perfect mercury would be a perfect alterative."

W. H. MORSE, M. D., F. B. S. Sc.,
Westfield, N. J.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for $1.00. Trial bottles 50 cts.

TOOK A BIG TUMBLE.

Wheat and Cotton Touch the Lowest Prices Ever Known.

INDUSTRIAL SITUATION BRIGHTER.

Bradstreet's Review of Canada's Business Outlook.

NEW YORK, Oct. 6.—R. G. Dun & Co.'s Weekly Review of Trade says: The lowest prices ever known for wheat and cotton necessarily imply somewhat restricted consumption of other products. With the chief money crops of the west and south sinking in value, it is not strange that purchases of manufactured products are smaller than was expected.

Wheat has touched the lowest point ever known for options, and cotton the lowest ever known in any form. Producers are compelled to sell at prices below the ordinary cost of raising crops, and in some western states there is also a lamentable failure of the corn crop. Under the circumstances it would be very strange if the demand for manufactured products should be quite as large as in other years.

Wheat, Corn and Pork Products.

Wheat suffers most from accumulation of stock in sight, which is far beyond what is usually expected for the season, and the exports in September were unusually small. For the first week of October Atlantic exports were 1,097,872 bushels, against 863,746 last year, and western receipts were only 4,615,000 bushels, against 6,130,687 last year, and these figures give some encouragement, but have little influence in view of the unusual visible supply. The price for cash wheat is a small fraction higher for the week.

Corn receipts at the west have been only a third as large as they were last year, with exports amounting to nothing, but the price has not further declined after the heavy fall during the previous fortnight.

Pork is weak, though lard is quotably lower.

The Manufacturing Industries.

The condition of the industries is, in in some respects, more satisfactory. Evidently there is a larger demand for iron products than there was a month ago, though the increase in output has been somewhat greater than the increase in demand, so that prices steadily tend downward.

The boot and shoe trade continues to deliver more goods than any previous year, as it did in September, and most of the works still have orders for one or two months ahead, although mainly for low and medium priced goods. There is a little better demand this week for goods of higher quality, however, and the demand for leather is still reducing the reserve.

Cottons and Woolens.

The new demand in dry goods is not as large as it has been, and in spring goods the market is called remarkably dull, though there is relatively a good deal doing in current orders for the fall trade.

Cotton print cloths are a shade stronger, as the news from Fall River regarding the duration of the strike is less encouraging, but for other goods the market is slow, as might be expected in view of the heavy decline in raw material.

Woolens are less active, and while there are numerous smaller orders for fall goods, the demand for spring goods is as yet not more than about three-quarters of the ordinary quantity and mainly limited to the cheaper grades. In these the domestic producers appear to be meeting foreign competition quite satisfactorily, and there are reported some cancellations of foreign orders in favor of domestic products.

Sales of wool for the week have been 5,926,950 pounds, against 6,272,400 two years ago, and for five weeks ending Oct. 2, sales were 24,279,300 pounds, against 17,188,175 last year and 37,352,900 in 1892.

Cotton is ¼ cent lower, the cash price being the lowest known for 45 years, and, considering the difference in classification, perhaps lower than any time in 1849, and estimates that the crop is more than 10,000,000 bales are more commonly credited now than estimates of 8,500,000 were two months ago. With favorable weather, the yield seems likely to be the largest ever known.

The failures have been 219 in the United States, against 320 last year, and 39 in Canada, against 45 last year.

Bradstreet's Weekly Report.

Bradstreet's today says: There is a moderate activity in general trade at Toronto, favorable reports being received from commercial travelers. Montreal jobbers report an improved demand from the interior in some lines.

Nova Scotia's apple crop is reported exceptionally large, and exports from Halifax are heavy.

Advices from New Brunswick are that the general business situation on the north shore is improving, with prospects good for lumber operations this season. Bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate $21,248,000, an increase of 13 per cent compared with last week, but nearly 9 per cent as compared with the corresponding week one year ago

Preparing For the End.

VIENNA, Oct. 6.—It is learned from a trustworthy diplomatic source that the condition of the czar is hopeless. Temporary improvement is only possible by a complete abandonment of state business. He is conscious of his condition and has been engaged lately in writing a sort of political testament.

Seeking a Separation.

CHICAGO, Oct. 6.—Daniel B. Hubbard of Massachusetts, who created a sensation by shooting his young wife and a friend who were walking on a street here, is defendant in a suit for divorce brought by his wife, who makes the shooting the cause of her action.

Gas Pipe Leaked.

BOSTON, Oct. 6.—The denizens of Boston's Chinatown are excited over the death of one of their number and the narrow escape of a second Celestial. Chin Bark You and Ching See Toy were the victims of a leaky gas pipe at 29 Harrison avenue.

Goethe's Visit to Carlsbad.

There is no doubt that the life of the great poet was greatly prolonged by drinking the waters of the Sprudel Spring. In our day we have the Sprudel Spring brought to us in the form of Salt, which is obtained by evaporation from the waters of Carlsbad.

The Carlsbad Sprudel Salt (powder form) is in no sense a mere purgative, but is an alterative and eliminative remedy which dissolves tenacious bile, allays irritation and removes obstruction by aiding nature. It acts soothingly and without pain. Beware of imitations. The genuine article has the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

PATENTS

NOTICE TO INVENTORS.

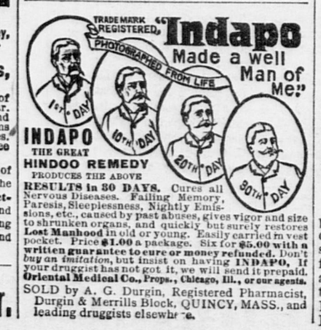

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Telling Stories.

I know of a boy that's sleepy.
I can tell by the nodding head
And the eyes that cannot stay open
While the good night prayer is said.
And the whispered, "Tell a 'tory,"
Said in such a drowsy way,
Makes me hear the bells of Dreamland
That ring at close of day.

So you want a story, darling.
What shall the story be?
Of Little Boy Blue in the haystack,
And the sheep he fails to see
As they nibble the meadow clover
While the cows are in the corn?
O Little Boy Blue, wake up, wake up,
For the farmer blows his horn!

Or shall it be the story
Of Little Bopeep I tell,
And the sheep he lost and mourned for,
As if awful fate befell?
But there was no need of sorrow
For the pet that went astray.
Since left alone he came back home
In his own good time and way.

Oh, the pigs that went to market—
That's the tale for me to tell!
The great big pig, and the little pigs,
And the wee, wee pig as well.
Here's the big pig—what a beauty!
But not half as cunning is he
As this little tot of a baby pig
That can only say "We-wee!"

Just look at the baby, bless him!
The little rogue's fast asleep.
I might have stopped telling stories
When I got to Little Bopeep.
Oh, little one, how I love you!
You are so dear, so fair!
Here's a good night kiss, my baby—
God have you in his care!
—Youth's Companion.

She looked up and smiled on the many glad faces,
The friends of her childhood, who stood by her side,
But she shone over them all, like a queen of the graces,
When, blushing, she whispered the oath of a bride.

WILSON WELCOMED.

The Democrats of His Bailiwick Turned Out In Force.

A TALK ON TARIFF LEGISLATION.

Democrats Will Fight For Lower Federal Taxation.

CHARLESTOWN, W. Va., Oct. 9.—Hon. W. L. Wilson's home-coming was made the occasion of a demonstration by his Democratic fellow-citizens of the Second congressional district which rather taxed the capacity of this historic old town.

Not only did the Democratic voters from the rural districts and towns and villages of the eastern Pan Handle respond to the call of the local committee of arrangements, but the more remote counties of the congressional district were represented, and not a few old Virginians and citizens of Maryland, and even of Pennsylvania, journeyed by rail to this out-of-the-way nook to assist in the welcome to the great exponent of the Democratic tariff policy and to listen to his address.

The arrangements for the events of the day were set on foot about the time Mr. Wilson sailed on his return voyage, and covered an afternoon mass meeting to be addressed by Mr. Wilson, ex-Congressman Myers and others, followed by a night meeting, at which three or four speeches were made.

Colonel Chew called the meeting to order, and on behalf of the Democracy of Charlestown, of Jefferson County, of West Virginia and of the county welcomed Mr. Wilson home.

Wilson's Speech.

Mr. Wilson began his addresses with a touching reference to the great popular demonstration which had greeted him upon his return. "We have reached," said he, "that stage of development of our country when we are compelled to have larger markets for our supply of product, and when such markets, through foreign trade, are only the safety valves of the healthiest prosperity of the American labor and the factory."

He referred to the struggle for lower federal taxation as a wonderful and inspiring popular revolution, and pledged the Democracy, as the party of the people, to go on in the combat. "I, for one," said he, "do not believe it is to come until the results secured are fully measured up to the ardor and the enthusiasm of the people."

"While I was in London, about two weeks ago, I was honored, very unexpectedly to myself, with an invitation by the Chamber of Commerce to be their guest at a public dinner. I was surprised; I was almost sorry, in one sense, to receive such an invitation, because I was seeking rest, and knew, as I know today, that what I would say on that occasion would be perverted and falsified before the American people; and yet I did not think I need be afraid to talk to the people of London as I talked to the people of West Virginia.

"And so I told them just what I have said to you today; that in the past we had been building up our tariff to keep them out of American markets, and now are tearing down the tariff to

Let Us Out Into the Air

and the other markets of the world. And I said to them that not only the great products of agriculture, not only in our wheat, corn, cotton, beef and meat products, but in the products of our manufacturers, they might henceforth find us competing with them in all of the markets that they sought.

"Thirty years ago we began to shut ourselves in from all the markets of the world; 30 years ago we called the American merchantmen from off the seas and surrendered the oceans to England and other nations to traverse them with their ships.

"When last Friday morning in a fierce gale, when I was off the banks of Newfoundland on one of those great ocean ships which seemed almost to be able to defy the fury of the storm and yet was tossed about like a cork upon the waters, I spied off in a fog a few fishing schooners, and I felt that men who could venture out in such weather in their little fishing boats were the men who could yet restore the American merchant marine upon the seas and carry our flag in safety through to all the ports of the world."

Mr. Wilson continued his tariff argument for over an hour, and was succeeded by Mr. Myers of Pennsylvania and Hon. J. T. McGraw.

It was 5 o'clock when the meeting adjourned to reassemble at 7, and speaking was continued until 10:30 last night.

Burglaries Are Frequent.

LYNN, Mass., Oct. 9.—Burglars are rampant in this city, several robberies having occurred since Saturday. Yesterday the residences of J. W. West, Miss Kate Lally and David H. Horton were entered through rear windows and a quantity of jewelry and money taken from each. Sunday afternoon there were three similar breaks in different parts of the city.

Austrian Official In Disgrace.

VIENNA, Oct. 9.—Dr. Pollschek de Palmforst, whose removal from the office of consul general at New York for Austria-Hungary was announced a few days ago, was arrested last evening, charged with malversation while consul general and also while Austro-Hungarian commissioner to the Chicago exposition.

Spinners Accept Five Per Cent Reduction.

NEW BEDFORD, Mass., Oct. 9.—The strike in this city was practically settled at a conference between mill treasurers and spinners yesterday afternoon. All unions, excepting the weavers, agreed to return to work Thursday morning at a 5 per cent reduction in wages.

Democratic Dissenters.

BROOKLYN, Oct. 9.—The meeting of the Shepard faction of the Democracy of Kings county was held last night. They declared in favor of a third ticket, to be supported by independent Democrats. Resolutions were passed, but no nominations were made.

Was a Short One.

LONDON, Oct. 9.—At the National Sporting club last night Frank Craig of America defeated John O'Brien of Wales in a glove contest for £150. The fight lasted for only one round and a half.

Anti-Semitics to Unite.

BERLIN, Oct. 9.—An anti-Semitic congress at Eysenach agreed to unite all the different groups in a single body, to be known as the German Social Reform party.

WILL AID DEMOCRATS

But Bourke Cockran Has No Desire to Remain In Congress.

NEW YORK, Oct. 9.—The World today says that Congressman W. Bourke Cockran will not be a candidate for renomination. He announced his determination to Mayor Gilroy and said:

BOURKE COCKRAN.

"My private affairs have been sadly neglected for the past year and I feel it incumbent upon me to decline a renomination. Until election day, however, I shall have no other occupation than that of laboring with all the energy at my command for the election of David B. Hill and the preservation of the Democratic party in this state." There has been no candidate decided upon to succeed Mr. Cockran.

Old Firm Assigns.

CAMBRIDGE, Mass., Oct. 9.—The University Press, John Wilson & Sons, made an assignment yesterday, for the benefit of the creditors, to William B. Reid, chief clerk at the Press. The announcement will be received with surprise, as the firm's financial standing was believed to be sound. Next to the Riverside Press, the University Press is the oldest and largest printing establishment in Cambridge. The concern was established in 1639, and with only a lapse of about one year has been running ever since. The firm employs from 300 to 350 hands.

Will Get a Divorce.

NEW YORK, Oct. 9.—Gilbert M. Speir finds that Daisy May Emmett is entitled to a decree of divorce against Joseph K. Emmett, the actor. The decision provides that he must pay her $40 a week permanently for the support of herself and their child, Eleanor. They were married May 4, 1886. Mrs. Emmett claimed her husband had got on too familiar terms with another woman.

Duly Endorsed.

NEW YORK, Oct. 9.—The Democrats of this city last night ratified the nominations of David B. Hill for governor, Daniel M. Lockwood for lieutenant governor and Judge Charles F. Brown for judge of the court of appeals. The meeting was held in Cooper union and was addressed by John B. Thatcher, Senator John W. Daniel of Virginia and ex-Judge Fitzgerald of Boston.

Believed to Be a Bath Vessel.

WELLFLEET, Mass., Oct. 9.—The schooner which sunk off here Sunday is believed to be the Herald of the Morning, of Bath, Me. The Herald sailed from Erie Basin, N. Y., Oct. 4, in company with a fleet of vessels. All, except the Herald of the Morning, have arrived at their destinations. The vessel was built in Bath in 1890 and was of 188 tons register.

To Stimulate Legitimate Business.

BERLIN, Oct. 9.—A meeting of representatives of German trade and industry was held at Cologne. A resolution was adopted advising the government to assimilate the dealing with repression of unfair competition as far as possible with the French legislation on the same subject. It is probable that the government will accept the advice.

A Weak Case.

BANGOR, Me., Oct. 9.—In the preliminary hearing in the case of the state against Gilbert McPherson, the supposed incendiary, and half a dozen witnesses were examined. The only result was the making out of a very weak case for the state, and it looks doubtful for the further continuance of proceedings.

Representing $2,400,000,000.

BUFFALO, Oct. 9.—The National Fraternal congress will hold its eighth annual session in this city Nov. 20. It will be a gathering of representatives of various fraternal and beneficiary organizations, having a membership of over 2,000,000 and an aggregate of benefit funds of $2,400,000,000.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

PRACTICED WARFARE

State Troops Massed at Boston, Six Thousand Strong.

THEY MADE A GRAND SHOWING.

Many Old-Time Methods Have Been Discarded.

BOSTON, Oct. 10.—Through the mist of a strangely variable autumn morning into the unbroken glory of an October day, 6000 Massachusetts militiamen marched. In the soft brown hats and canvas leggings of field uniform, with the double rows of bright buttons on their army overcoats glistening like stars upon the firmament, the state defenders made a most attractive picture.

Rapidly maneuvering, their swiftly shifting lines among the broad avenues of the Back Bay district and the greenery of the fens threw back a score of colors that arranged themselves with kaleidoscopic harmony. Infantry, artillery, cavalry, naval brigade, cadet corps, around they went with the signal corps on the towers and the men of the red cross on the Common—the whole an exemplification of what volunteers can accomplish in scientific warfare.

The main object of the day was the concentrating of masses into prescribed alignment from deployment in irregular formation; in less soldierly language, the bringing of a disciplined force to the relief of Boston, the performance of work in military fashion and the retirement of the forces as rapidly as they came.

The Essentials.

The men found themselves scattered amid the mists of early morning and Boston's suburbs; the problem was to close upon the mob supposed to be entrenched at the city's center. Every condition was made as much as possible like that of actual emergency. Having the battle line formed upon the general alignment of Massachusetts avenue, stretching through the city, across Harvard bridge and through Cambridge to Union square in Somerville, there was a general forward movement to a designated point by street formations, squares and riot columns to respective regiments.

The regiments reunited, each sought its proper brigade, and, that once formed, the march of the consolidated division was taken up for the heart of the city. All the bodies north of the city reported at Somerville, all south at the Roxbury baseball grounds, and you have the great outlines of the picture.

There was no burning powder or rattling musketry; instead, an endless forming of hollow squares, flank movements and skirmishing. The colonel gave the order to move forward and clear the street. The first company of each battalion swept ahead in double line, reaching from curb to curb. The second company wheeled to the left in two columns, covering the flank; the third to the right, while the fourth closed the square, the colonel and his staff, with colors in the center.

This done, there was the click of triggers from the flank lines to dislodge imaginary rioters in seventh-story windows and on tall housetops. Arrived at a cross street, the columns halted to allow the flank lines to face about down the side thoroughfare and fill the vista with flying lead, while the first company poured a volley into the crowd ahead and the rear company faced about to make the wounded think all hands were coming back.

On the Common.

Another square with unshifting lines was on the Common. Within the square and nearly at its center Captain Myles Standish sat astride his horse. There was the ambulance that looked like a bus. Luggage was scattered over the grass in firmly fastened bundles, while bedding and camp furniture were piled up in a heap.

Half of the naval reserves were with the land defenders. The others were in their element, some stringing a line of torpedoes across the Charles. All Captain Weeks' other boys were clambering about the dispatch and mortar boats, ready to run the most dangerous of blockades.

The signal corps, 'twixt earth and sky, perched on the roof corners of the state house and private buildings, were sweeping the horizon.

The men appeared less like marionettes, sawed out of plank, with their arms grown to their bodies. Instead, there was a natural swing that bids adieu to the old-time stiffness. The old wheel has become a turn: the methods of halting and resuming march, too, have been altered, and for the better.

Bits of bright color abounded from the crimson feathers of the sharpshooters to the blue and orange arm-bars of those engaged in special service. There were the snowy naval reserves nicely starched and laundered, the deep red cavalry blankets and the dazzling tin cups.

The schools in Cambridge were closed to allow the children to give the semblance of a riot, and many of the stores in Boston suspended business at noon.

The troops were reviewed by the captains, the colonels and the generals, and in the afternoon Governor Greenhalge, the commander-in-chief, presided over the grandest review of all. The parade itself was over two miles in length, and it was late in the afternoon before it had passed the reviewing stand at the state house. The line presented a brilliant spectacle. The soldierly bearing of the men brought forth round on round of applause from the spectators who lined the sidewalks.

A GREAT CELEBRATION

Over the Laying of the Corner Stone of the Home For "Drummers."

BINGHAMTON, N. Y., Oct. 10.—Fully 60,000 visitors were in the city yesterday, the occasion being the corner stone laying of the Home of the Commercial Travelers' Association of America. The celebration of the day included a parade through the principal streets of the city, winding up at the home site, which is situated on the top of South mountain.

The parade was one of the largest seen in southern New York. It consisted of the many delegations of commercial men, 85 Odd Fellow lodges, the Masonic fraternity of two New York districts, Red Men's tribes, a regiment of the Pennsylvania National Guard, the local fire department, and many other civic, military and fraternal organizations.

On arriving at the home John Hodge laid the corner stone according to the Masonic ritual. He also delivered an address. Colonel Baxter of Elmira delivered the oration of the day, after which Governor Flower and Governor Pattison made extemporaneous speeches, in which they eulogized the commercial travelers and said many pleasant things for the home. The celebration was a success in every way.

Against Hill.

NEW YORK, Oct. 10.—The Third ticket party, at a meeting last evening at the office of E. M. Shepard, decided to nominate the following ticket: For governor, Everett P. Wheeler, of New York city; for lieutenant governor, Daniel N. Lockwood, of Buffalo; for judge of the court of appeals, Charles F. Brown, of Orange county. Everett P. Wheeler has announced his acceptance of the nomination. Mr. Shepard said that Messrs. Brown and Lockwood would also accept the nominations. Hon. Charles S. Fairchild was appointed chairman of the campaign committee.

New York Endeavorers' Convention.

ALBANY, Oct. 10.—The ninth annual convention of the Christian Endeavor society of the state of New York opened with fully 3000 delegates present. Mayor Wilson delivered the address of welcome on behalf of the city. Several salutation addresses were delivered. Secretary Schuyler made a flattering report of the work of the junior departments and A. E. Dewhurst made a similar report for the senior unions.

Honeymoon Was Short.

NEW YORK, Oct. 10.—John F. Cutting was arrested yesterday in an action brought against him by Christine L. Cutting for a separation on the ground of abandonment. They were married on June 1, 1893, at San Francisco. She says that he learned on the bridal trip east that she had $7500, and that he obtained it from her by threats in order to invest it.

Who Is to Blame?

DAYTON, O., Oct. 10.—The search for the perpetrators of the two recent murders of the veterans of the Soldiers' home on pension day develops the fact that 40 old soldiers have been robbed and murdered at the National Military home here, and only passing notice has been taken of the crimes The Grand Army is taking hold of the matter.

Tillman's Declaration.

COLUMBIA, S. C., Oct. 10.—Governor Tillman declares that "constables will at once go to work and search all places where they have reason to know that liquors are kept, and that private residences will not be exempt when they are made depots for the storage of whisky."

Scholl's Offer.

NEW YORK, Oct. 10.—President Scholl of the Olympic club of New Orleans is in the city to bid for the Fitzsimmons and Corbett fight, for which articles of agreement will probably be signed tomorrow. The Olympic club will offer a purse of $25,000 for the fight.

End of a Family Quarrel.

HOLLAND, N. Y., Oct. 10.—For several weeks a family quarrel has been going on between Louis Kessler and his wife's father, Fred Schleifer. Yesterday Kessler killed his wife, who refused to live with him, and then went to the woods and shot himself.

Minister of Colonies Draws Out.

MADRID, Oct. 10.—Serious differences have arisen in the cabinet regarding the reforms proposed to be put into effect in Cuba and Porto Rico. The minister of the colonies has, as a consequence, announced that he will surrender his portfolio.

Was on Grant's Staff.

NEW YORK, Oct. 10.—General Ely S. Parker, who during the war was a member of General Grant's staff, has been stricken with paralysis again, and little hope is entertained of his recovery.

Murderers Lynched.

IRVINE DEPOT, Ky., Oct. 10.—Alexander Richards, who murdered Mrs. Emily White Saturday afternoon, was taken from jail yesterday by 100 men and lynched.

FACTS ABOUT ORIENTAL AFFAIRS

From One Whose Opinions Carry Great Weight.

WASHINGTON, Oct. 10. — Ambassador Patenotre, the representative of the French republic in the United States, is regarded as one of the best informed men in diplomatic life on China and the scenes of present conflict between that country and Japan. A good part of his life in the French diplomatic service has been spent at Pekin and Tien-Tsin. His views on Eastern affairs possesses unusual interest.

The ambassador was asked to give his personal observations of the places which are now the theater of conflict and of Li Hung Chang and his surroundings.

M. JULES PATENOTRE

"At the time the Tien-Tsin treaty was signed," said the ambassador, "I was brought in contact with Li Hung Chang almost daily for six weeks, and while I had known him before, this close intercourse in negotiating so important a treaty gave me the opportunity of a somewhat personal acquaintance with him.

"He does not speak English, French or any other language than his own, all intercourse with foreign officials being carried on through an interpreter. There appears to be a settled policy among Chinese diplomats and officials to adhere to their own language, so much so that a Chinese diplomat at Paris who became proficient in making French bon mots created something of a sensation and was afterward recalled.

"Viceroy Li impressed me, however, as one of the very few Chinese officials who at heart desired to adopt the modern ways of European countries, and if he had not been held back by the overwhelming sentiment of China against Eastern civilization, he would have modernized China long ago. As it is, he has introduced quite a European atmosphere into his private household. He has a French cook to serve him. Some of the dinners he gave me were what they termed "double dinners," as there would be a Chinese dish and then a French one, thus alternating courses throughout the dinner.

Statesman, but No Warrior.

"Li strikes one as a student and statesman, rather than a warrior. His tendencies are all those of a scholar, while his great authority as viceroy of the metropolitan province of China and special guardian of the emperor has made him the head of the war power. But he is not a genius of war as he is of statesmanship. He has sought to modernize the Chinese army and navy, and such strength as these arms of defense have are due to his introduction of foreign officers, including General Gordon, and his adoption of modern arms and ordnance. The artillery he has secured is fairly good, but compared with those of improvement of European and American troops, which improve constantly, they are out of date."

M. Patenotre was asked as to the defenses of Pekin which the Japanese now threaten to strike, and the roads over which the invaders will have to pass if they march on Pekin.

"The defenses are very primitive," said the ambassador. "The outer wall is a huge affair, completely encircling the city. It is about the height of a six-story building and wide enough for travel by horses and carriages. But as a means of defense it would amount to nothing against modern artillery. The walls about Tonkin were even stronger, being built by skilled engineers, but they quickly gave way before big guns. There is hardly any such thing as roads about Pekin and Tien-Tsin, so that travel is very difficult. There are occasional stretches of good road, paved with large stone blocks, but these are exceptional.

"The trip from Tien-Tsin to Pekin—about 90 miles—used to take two or three days. Usually it is made by the river route, and that also takes several days. It is the most primitive of traveling, each passenger having a boat to himself. When I went by river from Tien-Tsin to Pekin I occupied one boat, my secretary another, the provisions another and the servants another. Thus the boats beat and tacked by means of little sails. There was no steamer above Tien-Tsin, although the capital and the emperor were only 90 miles above."

Fishermen Suffered.

GLOUCESTER, Mass., Oct. 10.—Schooner Hiram Lowell, from Grand Banks, sprung aleak during the gale of Sept. 30, off Grand Banks, and went adrift, losing an anchor. All the trawl gear which was set was swept away and lost. Other vessels also suffered considerably.

NOT ONLY did the Metropolitan Park Commission in its taking for the Blue Hills reservation seize about 2,500 acres of taxable property, but the Quincy Quarry company propose to show that about 108 acres taken from them was very valuable. The final award should have considerable weight also in apportioning the assessment among cities and towns to pay cost of the taking. If the city of Quincy is to lose a large amount of taxable property annually, thereby increasing its tax rate, it should not in addition be compelled to pay a large assessment for many years. The taxpayers will therefore watch with interest the proceedings at the hearing opened today in Quincy to determine the value of the land of the Quincy Quarry company taken.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

A hearing was opened today in the Council chamber, before auditors, to determine the value of land of the Quincy Quarry company taken by the Metropolitan Park Commissioners.

The auditors are: Moses Williams, Morris Gray and M. Capen.

Judge E. C. Bumpus and C. F. Adams, 2d, appeared for the Quincy Quarry company, and the commission was represented by Col. Hopkins, Felix Rackermann and James H. Colt.

Lawyer Adams made the opening argument, which is said to have been his first plea. He said that in December last the State Park Commission had taken with other land about 108 acres owned by the Quincy Quarry company. The special act authorizing the taking says the board shall estimate the award but provides an appeal to a jury.

The land taken was part of a large lot being developed by the company. It was of great value when taken.

The company was conceived in the spring of 1893 by granite men of the city, who expected to derive a profit in two ways; 1, on increase of value of land developed; 2, on freight rates. It required considerable engineering skill to build the railroad including a deep fill. Land previously had not been developed because of inaccessibility and cost.

The company was formed in March 1893. In June it made its first contract for building a portion of its road, and in September a contract for completion, although it was to be continued as rapidly as quarries were opened.

At time of the taking company had a paid-up capital of $175,000. The land taken includes some of the best quarry sites which would soon have been opened.

The N. Y., N. H. & H. railroad was to furnish cars and operate the railroad, and was to pay the company $2 per car or ten cents per ton. Mr. Adams quoted rates, showing how much cheaper they were than teaming either to cars or Boston. Then there were the advantages as to certainty in speed, allowing company to contract for delivery of many tons per day, as in case of the Roxbury grade crossing, which required 500 tons per day for a year.

Would show by testimony the value of quarries by recent sales, but it was a fact that good quarries seldom changed hands. Would also show how similar railroads had developed other granite centres.

Plans for the possible development of the land taken were exhibited and explained. It could be done by easy grade at a cost of about $13,000 per mile.

The low land had value as well as the 27 possible quarries. Other land taken would have made good building lots for homes. The quarries in turn were then considered.

Then there was the damage to the property left. The taking of one-third reduced the earning capacity. Tributary territory had value to railroad.

Judge Bumpus said a view had been contemplated at this point, but nature had interfered and it would also be too wet on Thursday. He was willing to proceed with the hearing and it was so agreed.

H. T. Whitman and E. W. Branch, civil engineers of Quincy were sworn.

Col. Hopkins said there were certain questions to be discussed and counsel for State asked that the auditors take careful consideration of items before taking into consideration the evidence. This was agreeable to Mr. Bumpus and it was decided these should be discussed Thursday morning at 10 o'clock in Boston at the room of the second session of the criminal court.

Mr. Herbert T. Whitman then testified as follows:

He had made surveys for the Quincy Quarry Company to show ownership of estates in the "600 acre" lot. First began work on the railroad in January, 1893, and made map in February, 1893. Previous to Dec. 29, 1893, he had completed all surveys and estimates up to the Barry quarry and the road bed had been graded and nearly completed. The entire distance to the Prout quarry had also been graded and the road was ready for ballast almost the entire length.

Mr. Whitman showed on the map what had been done previous to Dec. 29, 1893, and what had been done since then by the road. He also testified that it was entirely feasible to build a road into land taken by the commission. Witness also told of the condition of land and quarries reached by road. Witness pointed out the several places acquired by the company, told how much land it contained and described condition of land.

He also pointed out the land taken by lots and told the number of acres in each and from whom they were acquired. Mr. Bumpus then put in as exhibits the deeds of the land acquired by the Quarry Company.

Ernest W. Branch, a civil engineer, had been doing the work for the Quarry company, and he testified as to the general condition of land when work was first commenced, which was mostly woodland, although there were several developed quarries. He also testified how the property had been improved and the changes made in its condition. None of it being in its natural state.

The general appearance from the surface was that there were quarries there. The only method of reaching the quarries were by narrow and rough cart roads, and there was no feasible way of getting out the granite quarried. There were only three cart ways, very narrow and rough.

Began work to construct road in last of May or first of June, 1893. Road as it is today was completed in September, this year. As to the number of spurs that could be built he could not state, but there were a number of them and there were ledges in the part taken that could be reached by a railroad.

The most costly part of the railroad was the first three-fourths of a mile. The area of the larger ledges in land taken by park were given.

Witness also gave estimate of heighth of these ledges above the level of the swamp.

The hearing then adjourned until Thursday morning in Boston.

IMPROVEMENTS WANTED.

The Wollaston Park and Norfolk Downs Association Organizes.

About fifty gentlemen, residents of Wollaston Park, Norfolk Downs and vicinity met in A. O. U. W. hall at Norfolk Downs on Monday evening and formed an Improvement Association, the object being to take concerted action for the improvement and beautifying of that section of Quincy in which they reside. Also for the purpose of obtaining such improvements from the city as the acceptance of streets, street lights, fire protection, proper school accommodations, etc., to which the large amount of taxes derived from this section justly entitles them.

The meeting quickly got down to business and the organization was perfected. Constitution and by-laws were adopted, S. E. Blanchard of Beach street was elected president, F. J. Pierce of Hancock street vice president, and H. S. Barker of Hancock street treasurer and secretary. Monthly meetings will be held the first Monday of each month, and the annual meeting the first Monday in January of each year.

There was considerable business vim manifested which protends energetic action on the part of the several committees appointed. The Wollaston Park and Norfolk Downs Improvement Association will undoubtedly be heard from frequently in the future, and its influence felt in city matters in general as well as in the particular section in which the members reside.

CHEE-FOO HAS FALLEN.

Japs Will Next Fight In the Vicinity of Port Arthur.

LONDON, Oct. 10.—A dispatch from Yokohama repeats the report of the capture of Che-Foo, and adds that the Japanese have landed troops at Tarascada, near Port Arthur.

The Times, commenting upon the report of the capture of Che-Foo by the Japanese and the landing of troops at Tarascada, says that if these reports are true, the Japanese have at last shown their hands wisely in deciding to avoid an attack upon Pekin.

They have apparently decided to attack Port Arthur, and, it is stated, have disembarked troops in a bay to the northeast of that place, which is well suited to form a base of operations. The garrison may now number 10,000 men.

Like many places provided with extravagant coast defenses, Port Arthur has a back door. In selecting this as a place of attack, the Japanese are following the best precedents. The conditions have many points of resemblance to those of Sebastapol.

In the face of the coming winter, which the Chinese can better endure than the Japanese, the latter have every inducement to hasten the attack, and are unlikely to undertake another operation for the present.

Crooked Counting.

BOSTON, Oct. 10.—City Clerk Galvin was a witness yesterday in the case of alleged fraud in the ward 19 caucus, and caused a sensation by testifying that he had not brought the registration box, as ordered by the court, because the figures on the box had been changed since the caucus. In cross-examination, the fact was brought out that the numbers were changed Monday night in city hall, because the boxes are to be used at the caucuses tonight. Judge Bolster made a final count of the checklist yesterday, showing that 838 names were checked off, whereas the announcement of Warden Mulhern, who is on trial, was a total of 976 votes.

A $26,000 Trotting Race.

LEXINGTON, Ky., Oct. 10.—The 3-year-old filly Beuzetta earned for her owner, E. W. Ayers, the largest amount that was ever paid to the winner of a trotting race—$22,430. Second money was $3000 and third money $1000, and Mr. Ayres got $1000 for nominating Beulah, the dam of Beuzetta. Beuzetta was considered quite the best of the nine starters.

An Arkansas Tragedy.

LITTLE ROCK, Oct. 10.—At Texarcana Dick Johnson, a gambler, had an altercation with C. E. Dixon, and Dixon threatened to kill Johnson in case he failed to produce a certain letter by 6 o'clock. Dixon took up a position in front of a saloon. A few minutes later Johnson emerged from the resort armed with a shotgun, and without warning blew Dixon's head off.

Strikers vs. Police.

NEWARK, N. J., Oct. 10.—A desperate fight occurred between a squad of police and about 500 Italians, formerly employed at the Newark end of the East Orange sewer outlet, yesterday afternoon. The Italians were marching to the sewer to drive out the men who had replaced them. Two policemen and a number of rioters were hurt. After 10 minutes' fighting the strikers fled

Strong For Mayor.

NEW YORK, Oct. 10.—After one of the liveliest times witnessed for many years at a county convention in this city the New York state Democracy nominated the choice of the committee of 70, William L. Strong for mayor, and, excepting the names of Otto Kempner for sheriff and Dr. O'Meagher for coroner, accepted the remainder of the 70's ticket.

A WOMAN'S BACK.

THE MAINSPRING OF HER LIFE.

[SPECIAL TO OUR LADY READERS.]

Few people realize this.

What can she do, where can she go, so long as that dreadful backache saps both strength and ambition?

She cannot walk or stand, her duties are heavy burdens, and she is utterly miserable.

The cause is some derangement of the uterus or womb. Backache is the sure symptom.

For years Sarah Holstein, who lives at 7 Perry Street, in Lowell, Mass., suffered with falling of the womb. The best doctors failed to relieve her, and as a last resort she purchased six bottles of *Lydia E. Pinkham's* Vegetable Compound. Now she is a well woman.

The dreadful pain in her back stopped after taking the second bottle. She wishes she had taken it sooner, and saved both money and years of suffering.

This Vegetable Compound is the one unfailing remedy for such troubles. A woman discovered it and gave it to woman.

October Magazines.

The October Overland contains the first part of the poem that Joaquin Miller asserts is his greatest work,—greater than any of his Songs of the Sierras,—one with which he wishes his name to be ever coupled,—"The Song of the Balboa Sea." It is fitting that California's most famous poet should bring out his greatest effort in California's only magazine. The vigilance Committee of 1856 was perhaps the most significant event in California's civil history; and the Overland begins in its October number a more detailed account of the episode than has yet been printed.

Babyland, (The Babies' Own Magazine) for October, opens with a charming frontispiece in eight colors, "The Thanksgiving Story." The prospectus for the new volume, announces a permanent enlargement to twelve pages, and features surpassing in interest and popularity anything ever given in delightful "Babyland."

Little Men and Women, for October, contains many articles of special interest to teachers in connection with their school work. These will likewise prove very popular with the children. "Our Little Orderly" "Fire Myths" "The Mole Cricket" together with poems, and abundant illustrations, make a pleasing ending of the current volume.

The Pansy with its "Reading Circle," "Christian Endeavor" and Mission bulletins, serials, etc., etc., grows in favor and hints of plans for 1895 show a portion of good things in store in the new volume.

"Our Dumb Animals" has a mission, but it is really an interesting magazine for children, with its pictures and short stories. It should be encouraged.

Town Commitee,—R. M. Cushing, J. R. Orcutt, F. C. Hawkes, B. F. Smith, Fred Souther, P. F. Hughes, Geo. A. Miles, Geo. Baker, T. F. Egan, M. Graney, J. W. Hart, D. A. Donovan, John W. Carey, A. P. Worthen, J. B. Whelan, James Moore, Richard Connor, H. G. Riley, Geo. Downey, B. F. Manning, D. B. Sullivan, J. F. Welsh, P. R. Newall, Minot Tirrell.

If Mr. Field of Quincy is wisely nominated by the Republicans for County Commissioner to succeed the late Mr. Lothrop, he will be elected by an overwhelming majority. He has had a long experience on the board and has proved his eminent fitness for the place.—Dedham correspondent of Central Norfolk Democrat.

A MILITIA CALL.

A New List of Fire Alarm Boxes—New Numbers Given Nos. 34 and 31.

Chief Engineer Williams has issued a new list of fire alarm boxes and has made some changes. The most important are: No. 34 at the corner of Union and Mill streets, which will hereafter be 171; and No. 31 on the New Road, which will become No. 172. This follows out a suggestion of the LEDGER that all boxes in Ward Two should be 702.

There are three new signals: 4 blows, three times, which is a militia call, and will doubtless be tested shortly; 6 blows, which calls the superintendent of the Water Works; and a Boston call, 162.

The LEDGER list below will be found complete and correct:

DIED OF A BROKEN HEART.

The Remarkable Case of Mrs. Mary Agnes Wolf of New York.

A remarkable instance where death followed a "broken heart" was recorded at the coroner's office Thursday. Mrs. Mary Agnes Wolf, 32 years old, died at her home on Wednesday evening. Dr. J. A. Sanders, who had last attended her, wrote a certificate that death was due to inanition and heart trouble and excessive grief. The board of health rejected the certificate, and it came to the coroner's office.

At the home of the dead woman it was said that she lived with her husband, George Wolf, an employee of the Metropolitan Traction company. Mary Melvin, the aged mother of the dead woman, had shared their humble apartments since the time of their marriage, five years ago. The mother and daughter had been constant companions all their lives. Melvin, who was an Englishman, died when Mrs. Wolf was an infant.

Last October Mrs. Melvin was stricken with a slow but fatal disease. Day and night the daughter waited upon her till her death, in June last.

For a few days Mrs. Wolf wept incessantly. Then a strange melancholy came over her. She ceased speaking of her dead parent, yet there was evidence of terrible inward grief. Her pining soon began to tell upon her health. Her husband talked with her about the folly of keeping the memory of her dead mother in mind, but she would not be consoled. She stopped going out and gradually ceased to partake of food. After a time she became so weak that she was obliged to take to her bed.

The husband returned nightly from his labor and sat by her bedside, imploring her to cheer up and live for his sake. Although she was sound of mind, she refused to pay any attention to her husband's importunities. Dr. Sanders found the woman suffering from no organic troubles and said that she would recover if properly nourished. He recommended that she be removed to a hospital, where she could better regain her strength. His suggestion was not heeded, because Mrs. Wolf declared she wished to die in the bed in which her mother had died. The doctor told her that he could do nothing more for her unless she took sustenance. She did not answer him, but shook her head. On Wednesday she died.

Mrs. Wolf will be buried in Calvary cemetery today. Dr. Cuff of the coroner's office said Mrs. Wolf's death was due to a broken heart. He said this was an instance where the woman's failure to pour out her grief in tears had brought on the disorders that caused her death. —New York Tribune.

INGRATITUDE OF NATIONS.

An Instance of It Toward a Hero of the Franco-German War.

A pathetic story of national ingratitude has been going the rounds of the London papers, which is interesting enough to be repeated, especially as it concerns those days of intense interest during which Paris was last in siege. Publicity has been given it by the fact that the hero of the incident has just gone into a French hospital in poverty, there to die. The Pall Mall Gazette thus tells the tale:

"When the German lines in the autumn of 1870 were gradually closing their boa constrictor grasp round the doomed capital, Durnof was the hero of the hour. An experienced aeronaut, who had three times been dashed into the sea and had run many other narrow escapes, he proposed, with his balloon, Neptune, to carry a mail out of Paris and to run the gantlet of the beleaguering armies. At daybreak on Sept. 23 he set out on his adventurous journey, the director of the posts assuring him as he handed in the dispatches and the pigeons that his courage and devotion would meet with a splendid reward. Durnof succeeded in his task and landed safe and sound at Evreux, but the poor old Neptune was never fit for another ascent."

Twenty-two years elapsed, but the unhappy aeronaut never received a penny from successive governments. Even his claim for the value of his balloon, which had been used till it was destroyed by the military authorities, failed to obtain the slightest recognition. After a couple of decades he got the bronze medal accorded to all who carried dispatches by balloon, and last year a small monthly grant was made, which barely sufficed to keep him from starvation. Swindlers and impostors of all kinds laid the foundation of future fame and fortune in the siege of Paris, but the first man who opened up communications between the imprisoned inhabitants and the outer world seems likely to die in dishonor and despair.

To Monopolize the Shopping Business.

A company has been organized in New York which will try to monopolize the shopping business. It has made an arrangement with the Broadway cable cars, and, it is said, will try to secure the same right on all the other lines, for the use of their front platforms as news and confectionery stands. On each car it will place a uniformed agent, who will sell the things on hand and will also take orders from the passengers for anything that they may want, from "collar buttons to a dress." The passenger has simply to tell the boy what he wants, and when he boards the car again the commission will be executed. The company proposes to make arrangements with a number of large establishments in the city to fill all orders that it brings in at the lowest possible rates.—New York Times.

The Crater Collapsed.

The great lake in Kilauea overflowed its banks on July 8, and on the 12th the lava fell 270 feet in 12 hours, causing the banks to fall in on all sides and engulfing about eight acres of the floor of the crater. The falling of the banks was going on all day and far into the night and produced a sight indescribably grand.—Honolulu Letter.

"What a Lovely Complexion!"

"Isn't her complexion charming!" These are expressions we hear every day, made by women in reference to others, which reveal a pardonable envy, and one which can be gratified.

The secret of good health, as indicated by a rich color, and well-rounded figure, is found in a good digestion.

Shopping tours, dances and entertainments indulged in, will leave you utterly fagged out, unless you are obtaining all the value from your food; and it is so easy to accomplish this that you will wonder no one has spoken to you of it before.

Try with each meal, and at bed-time, a wineglassful or more of the **Genuine Johann Hoff's Malt Extract,** which you will find to be most acceptable to the palate as a beverage, and will lift you right on to the plane of the vivacious and trim-figured sister you admire so much, and who seems capable of enduring endless fatigue.

Then, again, we must remember the nursing mother, where two lives are dependent upon the proper nourishing of the one. Surely nothing can be more valuable to the mother, nor give more comfort to the baby, by producing a generous flow of milk, than the

GENUINE JOHANN HOFF'S MALT EXTRACT.

Defective nutrition is the foundation of all ailments.

A healthy, well-nourished body can withstand almost any disease. There is resistance power in such a body.

• • •

I have been taking the *Genuine Johann Hoff's Malt Extract* myself for a year or so, and find it an excellent tonic and appetizer. Without doubt it is the best Malt Extract in the market. W. A. WHITTEM, Druggist, Chestnut Hill.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy—to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Her Perfect Lover.

"I had a perfect lover once," she sighed—
"Yes, just before I married you—
Who listened when I spoke, and tried
To answer all my questions too.

"So courteous and so kind, so good!
He'd never think a man could be
As thoughtless and indeed as rude
As you too often are to me.

"The jewel of my love once won,
He used to swear, could ne'er grow dim.
He would not dream that any one
Could whistle when I spoke to him!

"If he had faults, he kept them hid.
I should have married him? Yes, true,
And that's exactly what I did.
My perfect lover, sir, was—you."
—Chicago Times.

Tin Workers Out.

GAS CITY, Ind., Oct. 10.—The roll department in the Moorwood tin plate mills closed down yesterday. Owners of the mill wanted to make a reduction of 25 per cent in wages and the men refused to accept this.

The End of It.

NEW BEDFORD, Mass., Oct. 10.—The spinners last night voted to accept the report of the conference committee and go to work tomorrow morning. The weavers also will undoubtedly vote to go to work.

Murder and Suicide.

MARBLE ROCK, Ia., Oct. 10.—George Reams murdered his wife, breaking her head with a chair and then cutting her throat. He then cut his own throat. Domestic trouble was the cause.

Killed by Rejected Suitor.

SCRANTON, Pa., Oct. 10.—Mary Kersee was shot and killed by Frank Bezeck yesterday at Oliphant, because she refused to marry him. Bezeck fled, but was captured subsequently.

Society Is Prospering.

PHILADELPHIA, Oct. 10.—The supreme convention of the Catholic Mutual Benefit association is in session in this city. The reports of the various officers show the condition of the society to be most prosperous.

Stockholders Can't Agree.

NEW YORK, Oct. 10.—Judge Gaynor has appointed receivers for the Anglo-American Dry Dock and Warehouse company of Brooklyn, owing to the outgrowth of dissensions among the stockholders.

Held For Arson.

BANGOR, Me., Oct. 10.—The hearing in the case of Gilbert McPherson, charged with arson on Oct. 3, was concluded yesterday. Judge Vose bound the prisoner over to the grand jury.

Hardships In the Goldfields.

Americans who are thinking to try their fortune in the new Eldorado of western Australia should consider some of the conditions of life in the new goldfields before starting on a fool's errand, says a correspondent. Recent letters are full of doleful tales of hardship. Not more than five men in a hundred are lucky enough to strike it rich, and the region is already vastly overpopulated. The lack of water is the greatest drawback. Water commands 25 cents a gallon at Coolgardie, 37 cents at Hannens and 50 cents elsewhere. In the gold district many horses have died of thirst by the roadside. Five hundred men at Coolgardie are anxious to get work at any wages.

The Record Price For Pictures.

Eleven thousand guineas (something over $55,000) is now the record price paid in an auction room in London for a picture. This amount was realized at Christie's for Sir Joshua Reynolds' portrait of Lady Betty Delmse, sister of the Earl of Carlisle, with her children, a picture which is well known through engravings. It was put up at 5,000 guineas and was secured by Charles Wertheimer, a dealer, for 11,000 guineas.—London Standard.

RIOTERS WERE SHOT.

Their Friends Made Persistent Attempts to Ruin Mr. Ausburn.

SAMPLE OF NICARAGUAN JUSTICE

Shown by Government's Persecution of an American.

PITTSBURG, Oct. 10.—Pittsburg friends of Calvin Ausburn, the American, now imprisoned in Nicaragua, are daily expecting to hear from him regarding his situation. Mr. Ausburn is very well known here, having been in business in this city until 1886, when he first went to Central America. His home is at Brookville, and his parents now reside there.

In 1886 Mr. Ausburn decided to cast his fortunes in Central America. He went there and secured valuable timber and meat concessions. Later he embarked in the business of raising bananas for the markets of this country. His plantation is far from Bluefields. The land is at the junction of the Rama and Requa rivers and is the head of navigation, that is, so far as the big ocean steamers are concerned.

The ownership of this plantation, a mile square, is the cause of Mr. Ausburn's troubles. Pittsburg attorneys are counsel for him in a suit now pending in the United States circuit court.

About a year after he went to the country he was attacked by a body of riotous natives, who

Surprised Him at Night

and drove him out into the turbulent river in a small boat. They opened fire on him, but he was uninjured. The American servant, a colored boy, whom he had taken from Pittsburg, at this juncture secured several rifles and emptied them on the enemy. They believed they were being attacked in force and fled. It was discovered that several had been killed by the shots.

For this the partisans of the dead men never forgave Ausburn. Some time after that his house was attacked, looted and burned. At that time there were several thousands of dollars' worth of goods destroyed. Notwithstanding these drawbacks, Ausburn stuck to the country.

Then there was some talk of building a railroad in Nicaragua. The line of route was to pass through the property. The government thought that it would be desirable to acquire it, and the official persecution of Ausburn began.

Ausburn was in this country last month, having come home to get married. The ceremony was performed in New York on Sept. 3. A few days after he stopped in this city on his way to the south. He was warned by his friends not to return, but he decided to do so

A Would-Be Train Wrecker.

PITTSBURG, Oct. 10.—William Law, a former employe of the Fort Wayne railroad, was convicted yesterday of attempting to wreck a passenger train in revenge for having been discharged. A passenger train was stopped just in time to avoid running into an immense bowlder that would have ditched the train and cost perhaps many lives. At the trial Law's little son gave damaging evidence. No defense was made.

A Long Step Forward.

WASHINGTON, Oct. 10.—That great project to unite Chesapeake bay with the Delaware river by a canal, and thus supply the most important link to an internal waterway route from Florida to Long Island Sound, received an impetus yesterday by the appointment of an expert board of commissioners to select the line of the canal. The board is expected to go to work speedily.

Gallant Service Appreciated.

CHICAGO, Oct. 10.—For the first time in the history of the United States army permission has been granted by the federal department for the presentation of a stand of colors to a regiment by private citizens. The regiment is the Fifteenth Infantry of Fort Sheridan. The movement is in recognition of the services of the regiment during the great railroad strike.

Becoming Exciting.

MADRID, Oct. 10.—The papal nuncio affirms that the consecration of the first Protestant bishop of Madrid was sacrilegious and illegal. This action is considered by the Liberal party as interference by a foreign diplomat in Spain's internal affairs. The Liberal newspapers demand that the government hand the nuncio his passports.

Schooner Kenduskeag Sunk.

CITY ISLAND, N. Y., Oct. 10.—Captain Cushman, of the bark Henry Norwell, on Oct. 7, off Cape Cod, sighted the schooner Kenduskeag in a sinking condition. Captain Cushman took off Captain Ginn and the crew and landed them at this place. The Kenduskeag went down shortly afterward.

McKinley's Popularity.

ELROY, Wis., Oct. 10.—Governor McKinley spoke here last night. The governor has been nominated for president in every state through which he has passed, and Wisconsin has taken up the cry with increasing vigor at every place.

Missing From Auburn.

AUBURN, Me., Oct. 10.—Charles O. Littlefield of this city mysteriously disappeared on Sunday last, and has not been seen or heard from since. He had considerable money. Suicide is feared, though some hint foul play.

Didn't Bring Price Wanted.

LONDON, Oct. 10.—Moulton Paddock, the Newmarket residence of the late Abingdon Baird, better known as "Squire Abingdon," was offered at auction yesterday, but was withdrawn after £67,000 had been bid for it.

Authors' Guild's Choice.

NEW YORK, Oct. 10.—The American Authors' guild, an association of authors organized to protect authors in their dealings with publishers, has expressed the choice of Rudyard Kipling for its next president.

Must Wait a Year.

NEW YORK, Oct. 10.—W. Steinitz has received a letter from Emanuel Lasker in which the latter declares that he will not be ready to meet Steinitz in a return match before Oct. 1, 1895.

From Foreign Shores.

BOSTON, Oct. 10.—The Massachusetts nautical training ship Enterprise from Cadiz and Funchal via Bermuda has arrived in port.

VAN LUEN'S ADVICE

Was to Grease the Palms of Medical Examiners With Coin of the Realm.

DUBUQUE, Ia., Oct. 10.—Special Examiner Waite of the pension bureau, in obedience to the order of Judge Shiras in the federal court, has filled the documents captured in the famous tin box in Pension Agent George N. Van Luen's private office at Little Springs, Ia. These documents are mostly in the form of correspondence, incriminating upon its face, between Van Luen and certain boards of medical examiners with whom he had relations.

Nearly all of the numerous indictments found against the pension attorney are based upon these letters. In all, about 700 papers are filed. Some of these letters are to pension claim agents, who Van advised to grease the members of the board in order to have their examinations go through smoothly. Others are letters between the agent and the surgeon, in which terms are agreed on for raising ratings and fixing up the papers in their cases.

It appears that Van Luen gave claimants to understand that this payment of money to medical examiners was the usual thing. Some of the documents show that affidavits as to physical disability were bought from physicians at an average rate of 50 cents a line. One letter makes an offer to a physician at Lincoln, Neb., to pay $5 for an affidavit covering a disease of the stomach, deafness and heart disease. The doctor sent the affidavit, but demanded $10 for it. This physician, whose name is not revealed, has since testified that he has made a large number of affidavits.

Still Unsettled.

FALL RIVER, Mass., Oct. 10.—The Cotton Manufacturers' association after a two hours' session yesterday took no action toward closing the strike. Though no one favored a restoration of the old rate, the 10 per cent reduction failed to get the necessary three-fourths vote from those under agreement to shut down. The feeling is that the mills will resume on a full reduction of 10 per cent. Mayor Coughlin's letter encouraging the opening of the mills was favorably received, though no action was taken on it.

Mr. Jones Isn't Dead.

PITTSBURG, Oct. 10.—The suit of Mrs. Martha Jones to recover $2000 from the Fidelity Mutual Life association on a policy on the life of her husband was brought to an abrupt termination yesterday. The defense produced a deposition and photograph of Jones showing that he is now living in England. Mrs. Jones had in December, 1889, identified the body of a railroad victim as that of her husband.

A Pretty State of Affairs.

LOURENZO MARQUEZ, Oct. 10.—Several whites and a number of friendly Kaffirs were attacked and massacred in the outskirts of the town yesterday. The Portuguese and foreign residents are holding public meetings to denounce the incompetence of the government and to demand energetic action to crush the Kaffirs. Business is paralyzed and the public offices are closed.

Politics and Murder.

ATLANTA, Oct. 10.—James Chambers, a Democrat, shot and killed James Weaver, a Populist, in Early county, in a quarrel over the election returns. Chambers is in jail, and Populists threaten to take him out and lynch him. Democrats have armed themselves to defend Chambers. Excitement is at fever heat and a bloody riot is feared.

Paid a Big Bill.

WASHINGTON, Oct. 10.—The Chilian government has just paid into the state department $240,564, being the amount of the judgments rendered against Chili by the Chilian claims commission. Most of these claims are based upon injuries sustained by American citizens resident in Chili and Peru during the war between those countries.

On America's Shore.

BUDA-PESTH, Oct. 10.—Count Schy, a member of the lower house of the Hungarian diet, has written a letter from New York to his constituents saying that he has emigrated to America in order to start a new life. He had been renounced because he adopted the Unitarian faith in order to be able to marry the mother of his children.

A Bad Man.

PORTLAND, Me., Oct. 10.—Two years ago a man known as "Chucky" Feeney assaulted and nearly killed a barber named Jim Cady and shortly afterward injured Officer Sylvester. He was wanted on about a dozen charges, and was captured yesterday afternoon only after a hard fight.

Captain Bunce Will Command.

WASHINGTON, Oct. 10.—The board to conduct the trial of the Maine will meet at New London Monday at 10 o'clock. Captain Bunce will command the ship on her trial. As this will not be a speed, but a horse power trial, the engineers will conduct it.

A New Credit Bank.

MILAN, Oct. 10.—A meeting of foreign and Italian bankers was held here for the purpose of constituting a new credit bank. It was decided to pay 6,000,000 lire to the national bank as a deposit fund representing three-tenths of the capital of the new bank.

Looking For His Wife.

LOWELL, Mass., Oct. 10.—Daniel K. Chase of Lynn made an unsuccessful search for his wife here, but found his boy. Chase says he does not believe the stories of his wife's death. His wife disappeared seven months ago.

A Bad Start.

CAMBRIDGE, Mass., Oct. 10.—Bob Acton, guard on the Harvard football team last year, yesterday made his first appearance for this season. In the preliminary practice he dislocated his elbow, and will be disabled for the season.

Money Is Up.

NEW YORK, Oct. 10.—The backer of Billy Plimmer, the bantam champion, has put up a deposit of $500 to bind a match with Charley Kelley, who challenged Plimmer.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THIRTY LIVES LOST.

Nearly Three Hundred Vessels Damaged at St. Pierre, Miq.

BUILDING FELL IN NEW YORK.

Six Persons Instantly Killed While Asleep.

ST. JOHN'S, N. F., Oct. 11.—The storm was very severe at St. Pierre, Miq., where 80 lives were lost and great damage was done. A very heavy sea was running in the harbor. All the vessels at anchor there put out extra anchors and took measures to outride the gale, but the maritime casualties were many.

Many vessels dragged their anchors or parted their cables and were thrown upon the shore. Every effort made to draw off shore was fruitless, the gale blowing with such tremendous fury that even storm canvas could not be set.

Some of the doomed vessels were thrown ashore in very exposed places, and great seas breaking over them soon pounded them to pieces. No assistance could be rendered the shipwrecked men from the shore. A number of them, who jumped overboard and attempted to reach the shore by swimming, were drowned, while others were swept into the sea by the waves dashing over their vessel, and were not seen until their bodies were cast upon the beach.

The wrecked vessels were part of the fishing fleet that had put in to St. Pierre from the banks to repair damages they had sustained during the heavy storm of Sept. 30.

Altogether there were nearly 300 vessels at the port, not a single one of which escaped without sustaining some damage. Several of the fleet are missing and grave fears are entertained that they foundered.

Crushed to Death by a Falling Building.

NEW YORK, Oct. 11.—Just before 4 o'clock yesterday afternoon, while the wind and rain storm was at its height, an uncompleted building, seven stories high, at 74 Monroe street, fell in one chaotic mass, burying beneath a hundred tons of bricks and timber a flimsy dwelling, standing on the adjoining lot, in which 21 persons were peacefully sleeping. Six people were killed outright, three are missing and 12 miraculously escaped with broken bones and many bruises.

The police arrested Louis Aaronswitz, the owner of the unfinished structure that collapsed. He was arraigned in the Essex Market court and placed on parole. The contractor, P. J. Walsh, and the builder are now being searched for by the police.

Beach Strewn With Wreckage.

PROVIDENCE, Oct. 11.—Schooner L. O. Foster struck the west breakwater at the island and went to pieces during a terrible easterly storm. The beach is strewn with wreckage. The crew were saved.

Steamer Majella left the west side of the island for a harbor and headed for Newport. The captain was James H. Cook, and there was a crew of five men. All indications are that she has foundered and all on board lost.

The lifesavers at Captain Church's station, Narragansett Pier, saved the lives of five down-east sailors from the small coastwise schooner Leonessa, and also five others from two of Hugh Bros. & Bangs' stone barges.

The schooner and her cargo of coal are a complete wreck, and the two barges from the harbor of refuge fleet are pounding themselves into splinters upon the rocky shore almost in front of Congdon.

Several disabled vessels were sighted during the day, but the most of them succeeded in reaching Portland harbor in safety or made out to sea. The harbor is filled with disabled vessels, and many narrow escapes from wrecking are reported.

Heroic Work of Lifesavers.

PORTLAND, Me., Oct. 11. — Captain Trundy's lifesaving crew at the lifesaving station on Cape Elizabeth rescued the crews of three vessels yesterday and landed them without losing a man, in the fiercest gale known on this coast. The first vessel to suffer was the Laura Cox. She struck on Trundy's reef, and only for the prompt action of the lifesaving station Captain A. McMillan and crew of six men would have been lost.

No sooner had Captain Trundy's crew landed the crew of the Laura Cox than the two-masted schooner Rosa and Adra was seen ashore on a reef, not far from Trundy's shoals. Captain Trundy's crew took Captain Robbins and his crew off the vessel and landed them safely.

Then the schooner L. K. Ham became unmanageable and was deserted by her captain, Daniel Sellers. She had five men on board. The lifesaving crew landed her men safely. All of these vessels will prove a total loss.

Crew Had a Close Call.

SALEM, Mass., Oct. 11.—The crew of the schooner Hero were rescued late yesterday afternoon after having been tossed about in the bay helpless for over five hours. The vessel sprung aleak off Boon island, and shortly after she split open and lost her rudder. She entirely filled, and was only kept afloat by the cargo of lumber. The men lashed themselves to the rigging. Assistant Lightkeeper Terpenny and Harry Morse put off and rescued them at the risk of their own lives.

Schooner Adeline Dashed to Pieces.

GLOUCESTER, Mass., Oct. 11.—Captain Linnekin, in the tug Startle, observed a schooner drifting. Just before the tug reached her the crew abandoned the schooner, which drove on the rocks near Norman's Woe and was dashed into pieces. The crew effected a landing safely and reported their vessel as the schooner Adeline, 64 tons, Captain F. H. Lowell, owned at Bangor, Me.

New Bedford Got It.

NEW BEDFORD, Mass., Oct. 11.—A particularly heavy gale visited the city. The streets are filled with fallen leaves and tree branches and the telephone service is partly demoralized. The large yacht owned by W. D. Howland broke adrift and was driven ashore to have a large hole stove in her bottom. At Nonquit the waves piled upon the beach grandly and two yachts sank at their moorings.

Four Were Drowned.

OYSTER BAY, L. I., Oct. 11.—Four persons were drowned by the sinking of a barge in tow of the tug Belle McWilliams in Lloyd's harbor. They were John Murphy; his sister-in-law, Mrs. Murphy; Michael Murphy, a son, and an infant of the latter. They were in the cabin of the barge Jennie Hugh, when the vessel went to pieces on the rocks.

Considerable Damage at Portsmouth.

PORTSMOUTH, N. H., Oct. 11.—A severe gale, coupled with a heavy rainfall, caused considerable damage in this city, and the lifesaving crews have been kept busy. Captain Harding and crew succeeded in preventing three schooners from going to pieces on the rocks. There is much anxiety felt for the safety of four vessels sighted, bound for Gloucester, Mass.

Docks Under Water.

OYSTER BAY, L. I., Oct. 11.—There was a very high tide here, covering all the docks. Sumner lumber yards lost considerable lumber by being washed away. The sloop Dixey was sunk and several sloops were blown ashore on Bakman's beach. Much damage was done to the oyster business. Nearly every vessel in the harbor drifted.

Schooner Hart Sunk.

TARPAULIN COVE, Mass., Oct. 11.—Schooner E. K. Hart dragged her anchors and fouled an unknown two-masted schooner. The mizzenmast went and she sunk. The captain and mate had their wives with them. All were saved. Several small fishermen are ashore at the head of the cove.

Fruit Suffered.

BUZZARD'S BAY, Mass., Oct. 11.—During the gale a large windmill at Woods Holl was blown down. Tides ran very high at Buzzard's Bay, the water coming up nearly to the bridges and covering all low lands. At Sandwich the wind destroyed considerable fruit and damaged trees.

Telephone Service Crippled.

ROCKVILLE, Conn., Oct. 11.—A violent gale with heavy rain prevailed throughout Tolland county, doing considerable damage. Many trees and large limbs of trees have been blown down, and the telephone service is almost completely suspended.

Lifesavers on Guard.

CHATHAM, Mass., Oct. 11.—A heavy gale prevailed along this coast, accompanied by heavy rain, blowing down trees, fences and telegraph wires. The lifesaving crews patrolled the beach, watching sharp for possible wrecks, but none occurred.

Filled With Water.

NEW LONDON, Conn., Oct. 11.—The big three-masted schooner Clara E. Colcord ran on Cornfield shoal, and settled down on a sandy ridge, where she now lies, filled with water. Her crew were taken on board the Cornfield Reef lightboat.

Wrecked Off Virginia's Coast.

NORFOLK, Oct. 11.—Schooner Red Wing ran into and sunk the schooner Henry Lippett near Old Point and had her bow smashed and headgear lost. Four of the five missing men of the Lippett have arrived here.

Houses Unroofed.

BENNINGTON, Vt., Oct. 11.—A severe storm, accompanied by high wind, blew down trees, unroofed houses and caused considerable damage. Telephone poles are prostrated in many places.

Bad Wash at Bridgeport.

BRIDGEPORT, Conn., Oct. 11.—The heavy sea washed away a large part of the wall at Seaside park and flooded the boulevard, race track and ball grounds. Damage, between $10,000 and $12,000.

Prepared For It.

NEW HAVEN, Oct. 11.—One of the highest tides of the season broke over the Sound shore here. The tidal wave was expected and extra precautions had been taken to avoid loss.

Wrecked Off Cape Fear.

WILMINGTON, N. C., Oct. 11.—The Norwegian bark Ogier went ashore near the mouth of the Cape Fear river. The crew was taken off by lifesavers. The vessel is a total loss.

Coal Schooner Stranded.

ATLANTIC CITY, Oct. 11.—The three-masted schooner Lurena Reed, laden with coal, stranded abreast of the Ocean City lifesaving station, and will prove a total loss.

Summer Pavilion Gone.

STAMFORD, Conn., Oct. 11.—The big pavilion at Shippan Point collapsed and is a total loss. The waves washed away the foundations. The pavilion cost $10,000.

Wrecked Off Swampscott.

FORMALLY ACCEPTS.

Levi P. Morton Thinks That Republicans Deserve Success.

M'KINLEY BILL IS NOT PERFECT

But Democrats Have No Right to Modify It.

NEW YORK, Oct. 11.—Levi P. Morton yesterday sent his formal letter of acceptance to Warner Miller, chairman of the Republican state convention. It is in part as follows:

I have been officially informed within the past few days of my nomination for governor. Grateful for past recognition and for this friendly evidence of confidence, I accept the trust the Republican party has honored me with, pledging my hearty co-operation in their efforts for an honest and efficient conduct of affairs.

The platform adopted by that body is a just, but temperate, arraignment of the Democratic party, now, for the first time in many years, in full control of all branches of the national administration.

The issues involved in the pending canvass are clearly defined and of paramount import. They are related both to state and federal concerns. They affect the rewards of labor, the security of capital and the safety of society. Within our borders is the metropolis of the continent, and New York is first in commerce and manufactures and only second in agriculture.

Laudation For Republicans.

During the whole period of its existence, the Republican party has been distinguished for its devotion to the principle of protection to home productions. Variations in the rates of duty on imports have from time to time been made as the needs of the government and the condition of American industries have required, but the principle itself has been intelligently and steadily vindicated by every Republican congress.

The last Republican administration had given statutory expression to the American doctrine that duties should be laid upon foreign products in competition with like articles of home production, and that articles exclusively produced abroad and not so competing should be admitted free for the benefit of the consumers. After the passage of this law the nation was at the summit of its greatness and prosperity, with its name respected throughout the earth, and peace and plenty in all its domain.

It is not claimed that this statute, any more than any other human ordinance, was perfect in its details, nor that all its rates of assessment of duties should have been maintained, but the modifications suggested by time and experience should have been left to the friends of the measure.

A Gloomy View.

Peril to American industries was announced in the change of administration. The menace alone, which its advent heralded, was sufficient to still the looms, to darken the furnaces, to clog the wheels of business and to precipitate a financial depression unparalleled in our annals for severity and duration.

The menace, with its accompanying unrest and disaster, endured throughout 18 months, in which a Democratic congress sought to undo that which had been so well accomplished by its Republican predecessors; and in spite of the repeal of the silver purchasing clause of the so-called Sherman act, which was only rendered possible by the aid of the Republican party, it was evident that permanent relief could not come while the stability of our industries was threatened.

A measure was enacted false alike to the promptings of true Americanism and to the professions of the Democratic party. The bill which originally passed the house of representatives had at least the merit of consistency in some degree with the ante-election promises made to the people by the Democratic national convention.

The President Quoted.

But that which finally prevailed was an incongruous thing, a patchwork of protection and free trade, of protection to favored localities and to trusts, but of hostility to the masses of the workingmen of the land. Repudiated by its principal framer, characterized by a Democratic president as a bill of perfidy and dishonor, denounced by the senior senator from this state and unattested by the signature of the president, proclamation is already made that it is only the beginning of the attack which will be persisted in upon American wage-earners.

In the confusion of Democratic councils and the perversity of Democratic legislation it is plain that the only wise course for the country to pursue is to restore the management of its affairs to that party which for 30 years has developed its resources, upheld its good faith, cared for those who fought for its integrity, and guarded the rights and fortunes of its citizens.

Mr. Morton pronounces in favor of ballot reform and favors the preservation intact of the canal system of the state. He favors the fostering of the agricultural interest of the state and urges that ample protection be provided for the forests. One way in which the state can aid the farmer, he says, is in the construction of good roads.

Tammany's Ticket.

NEW YORK, Oct. 11.—The executive committee of Tammany hall named the following county ticket: For mayor, Nathan Straus; for president of the board of aldermen, Augustus W. Peters; for sheriff, Isaac Sohmer; for recorder, Frederick W. Smyth; for judge of the supreme court, Charles H. Traux; for coroners, Jacob Mittenacht and John B. Shea.

Brother and Sister Dying.

ST. CHARLES, Mo., Oct. 11.—David Wood committed a criminal assault upon Emma Collier. Robert Collier, in a battle to avenge the wrong done his sister, was fatally wounded by Wood. The girl is also dying of her injuries. Wood is in jail, with every prospect of meeting a sudden death.

Western Union Finances.

NEW YORK, Oct. 11.—The Western Union Telegraph company's gross earnings for the year ending June 30 were $21,852,655 and expenses $16,060,170, leaving net earnings of $5,792,485, a decrease, as compared with the preceding year, of $1,703,553.

Bad Season For Immigrants.

FIREMEN CELEBRATE

The New Hose House at Quincy Point Dedicated.

A DESCRIPTION OF BUILDING.

A Banquet With Speeches by Several of the City Officials.

The members of Hose Co. No. 4 painted the Point district red Wednesday evening, the occasion being the celebration of the completion of its new house for which the firemen and citizens of Ward Two have waited so long.

It is seldom that Quincy Point has a celebration, but when it does, it has a good one. Thus it was Wednesday evening. The day was anything but promising, but as evening approached the sky cleared and the evening was beautiful, and therefore those who were not fortunate enough to be invited to the gathering on the inside of the building could enjoy it from the outside.

In honor of the event the company had decorated the grounds in front of the building with Chinese lanterns, while the building itself was illuminated from top to bottom with electric lights.

The exercises commenced at 7.30 by a concert by the Sons of Veteran drum corp. While this was in progress, the guests, who included many of the city officials and assistant engineers and firemen from other parts of the city, were inspecting the building.

Shortly after 8 o'clock a banquet was served in the main apparatus room, after which Engineer Mahoney called order and in a few words of welcome introduced ex-engineer Herbert M. Federhen as toastmaster.

Mr. Federhen had a good word for everybody and his toasts were delivered in his characteristic manner.

All of the speakers congratulated the company on its new quarters and those members of the council who were introduced, promised to do all in their power to provide the company with a permanent man and horse, which all admitted were needed

The speakers were Mayor Hodges; Commissioner W. N. Eaton; City Treasurer Burgin; ex-Mayor H. O. Fairbanks; Chief Engineer F. D. Thayer of Weymouth; Chief Engineer Williams; John T. Cavanagh of the Water Board; Councilmen Moxon, Rooney, Johnson, McKeon and Bigelow; Principal Assessor Federhen, ex-Engineer Pray; T. B. Pollard, principal of the Washington school; Fred F. Green, ex-Councilmen T. H. Newcomb and William F. Powers; Hiram Phillips and Harvey French.

It was 10.30 when the exercises came to an end and special cars which were in waiting conveyed the guests home.

The new hose house is a modern one in every sense of the word. Its dimensions are: main building, 23 by 34; wings on each side 10 1-2 by 22, and stable 18 1-2 by 21.

There are three entrances to the building from the front. The large door for the apparatus leading directly into the apparatus room; a door on the right leading into a hall, and a door on the left leading into the district engineer's office.

The apparatus room is 23 by 34, and is sheathed in North Carolina pine, the lower finish is of cypress in panels. Leading from the east side in the engineer's room mentioned above, which is 10 by 22, and here is located the sliding pole from the upper floor. At the rear of the apparatus room is the stable with two stalls facing the room, and between the two stalls is a door opening into the hose tower which is 54 feet high.

There is also a side entrance to the lower floor from the west side, which leads into a small hall from which a stairway leads to the basement, and at the rear of the stable is still another entrance.

From the hall at the right front of the building a stairway leads to the upper floor to a broad landing, from which doors lead into two rooms, 17x23. Off from the rear room is a bath room, 10x12, and at the rear over the stable is a hay loft.

The walls of the halls and upper rooms are plastered and tinted an attractive color.

All of the doors up-stairs are made to swing both ways, while the doors in front of the horse stalls and large main door are operated by a trip.

The building is wired for electric lights and will be heated by a large furnace located in the basement. All of the plumbing work that shows is nickeled. The appropriation for the building exclusive of the land was $4,500.

Working for Schoolhouse.

LAKE MOHONK, N. Y., Oct. 11.—The 12th annual Indian conference opened here with about 350 members present. Mr. Smiley delivered a brief address of welcome. Rev. Dr. Gates of Amherst college opened the conference with a short address and introduced General Whittlesey, who gave a brief account of the legislation on Indian matters for the past year.

Mr. Hailman, superintendent of Indian schools, said he found the Indian children little different and not inferior in capacity to the white children, and that the civil service examinations have been so adapted to the requirements of the case those who have passed these examinations are reasonably sure to be well qualified as teachers.

Miss Sybil Carter, for 15 years a worker among the Indians of the northwest, told how she has taught the Indian women to make lace, paying them promptly for it, and showing that the work is admirable in quality and in constant demand on its own merits at good prices in the cities of the east.

Senator Dawes of Massachusetts gave an instructive address on the present condition and prospect of the Indians in the Indian territory as observed by him.

DELEGATES CHOSEN

To County, Senatorial and Representative Conventions.

BY THE QUINCY DEMOCRATS.

Few Contests and Very Little Interest Manifested Last Evening.

Democratic caucuses were held Wednesday evening in the several wards of the city and are reported below:

Ward One.

Seven of the faithful were present at the Ward One caucus in the Democratic headquarters, but only 19 chairs were provided, so a large number was not expected.

F. F. Green was chairman and J. T. Cavanagh secretary.

A committee of three retired and the other four ratified their choice of delegates, as follows:

County,—Frederick W. Tirrell, James E. Dunn, Paul R. Blackmur and John Swithin.

Senatorial,—Fred F. Green, Walter B. Wilson, Frank Garbarino and W. G. A. Pattee.

Representative,—W. G. A. Pattee, James E. Dunn, John T. Cavanagh, Joseph T. Welsh, Fred F. Green, Walter B. Wilson and Philip Cook.

John Swithin moved that it is the sense of this caucus that the delegates support J. Q. A. Field for county commissioner, and it was so voted.

Adjourned at 8 o'clock.

Ward Two.

At the Quincy Point caucus M. T. Sullivan was chairman and John Walsh, secretary. The following delegates were nominated without oppositions:

County,—James Collins, John Harkins and Jeremiah Meapey.

Senatorial,—Willlie H. Sampsou, Jr., Michael T. Sullivan and William Harkins.

Representative, — Michael Donahoe, Patrick O'Neil, John A. Griffin, John Connors and Cornelius Ring.

Ward Three.

South Quincy Democrats held their caucus in Cahill's hall. Timothy F. Ford called it to order and George D. Cahill read the call.

Upon motion, William H. Warner was elected chairman and George D. Cahill secretary.

A committee of five consisting of Andrew Howley, James Cavanagh, Timothy F. Ford, William Sullivan and John Nagle was appointed to bring in a list of delegates.

The committee were instructed to report no name who had served as delegate to any of the previous conventions.

While the committee were out John McCarthy, the silver tongued orator of Ward Three, enlightened his hearers on topics of the day and administered some wholesome advice.

The committee reported the following names which were adopted:

County,—Edward T. White, Robert J. Lewis, J. Kenniley and John Curtis.

Senatorial,—Peter O'Neil, James Morrisey, A. B. Smith and Rich J. Larkin.

Representative,—Andrew Howley, John Nagle, Andrew Costa, James E. Cavanagh, John O'Donovan, A. C. Smith and Daniel Dasey.

Ward Four.

West Quincy Democrats elected these delegates:

County,—Peter T. Fallon, John B. Early, Cornelius Crowley, James Rooney and William T. Shea.

Senatorial,—William D. Burns, T. J. Lamb, Thomas Hogan, John Reinhalter and John W. Burke.

Representative,—T. J. Foley, Peter J. Dohahue, James T. White, Patrick Cray, Thomas Shortle, W. Callahan, Patrick Manix, Jeremiah Henchion and John H. Rooney.

Delegate at-large from the city to all conventions, William F. Powers.

Ward Five.

The Wollaston Democratic caucus was held in the Brasee building on Wednesday evening. But five of the faithful put in an appearance. Charles T. Baker was chosen chairman and Benjamin Sargent, secretary. These delegates were elected:

County,—F. J. Lavery and George W. Brown.

Senatorial,—Watson H. Brasee and Wm. B. Orcutt.

Representative,—Charles T. Baker, Geo. W. Brown and Benj. Sargent.

The delegates were empowered to fill vacancies.

Ward Six.

Thomas A Whalan was chairman of the Democratic caucus held at Atlantic Wednesday night, and Edmund Pope secretary.

These delegates were elected, those for the Representative convention being said to favor John A. Duggan.

County,—Edmund Pope, Elijah J. Hall and Daniel C. Lyons.

Senatorial,—H. N. Holbrook, C. J. Duggan and William H. Owen.

Representative,—Edmund Pope, Dennis O'Neil, John A. Duggan, William H. Owen and Edward J. McKeon.

—One of the causes which has been assigned as responsible for the dry season, is the prevalence of spots on the sun. It appears that the years 1859, 1870, 1882 and 1894, which were all dry years, were also marked by the great number and activity of the sun spots. However, it is certainly not proved as yet that there is any real connection between spots and droughts.

GRANITE INDUSTRY.

Nemo Replies to His Critic and Reveals His Non-de-plume.

Editors of the Daily Ledger:

In the current issue of the Monumental News the Quincy correspondent of that paper takes occasion to criticise a communication which appeared in the LEDGER about a month ago, relative to the condition of the granite industry in Quincy. As writer of that communication, I would state that my critic has taken rather a round-about method in making his strictures. Why did he not reply at once through the medium in which the communication appeared? If my statements were incorrect it was his duty to do so, and not defer the matter until the publication of a paper which is not generally read among granite cutters. The obvious inference is that knowing his case was bad he did not wish to have the question discussed in the local paper where the truth could easily have been ascertained.

The writer in the Monumental News claims that "business in Quincy is good and the prospects were never better." But the only proof he brings forward in support of his statement is that manufactures have invested nearly $250,000 in a new Quarry railroad and that a certain dealer has purchased a new quarry.

The advent of the quarry railroad proves nothing to the point at issue. When that undertaking was commenced, the prospects were it would pay its promoters, and help to develop the granite industry in this section of the city. Doubtless in time, both these purposes will be accomplished, but this proves as little regarding the present condition of business—whether dull or otherwise—as does the further statement that,—"there are now working and has been for the past year, a greater percentage of men engaged in the granite business, than in any other trade in the vicinity." If this is true—and I am not inclined to dispute it—then so much the worse for the other trades, that is all.

In the communication to the LEDGER refered to, I gave facts and figures to show that trade was not busy; that there were a number of men out of employment, and had been so for some time. Moreover, on the very day on which the article appeared to which I took exception, there were nearly a dozen men discharged from yards in Quincy, and in view of this fact alone it looks like sarcasm to talk of trade being busy. The same conditions as to surplus labor still exist, and until such time as the correspondent of the Monumental News can give something better than vague assertions to prove otherwise, I still hold to the correctness of my previous statements.

The information which this gentleman has gathered about myself, is in part as inaccurable as his information upon the condition of trade. If he is not aware that it is bad taste to introduce anything personal into a discussion of this kind, he at least ought to know that it is undesirable and cannot serve any good purpose.

In conclusion I would state that I am not pessimistic in my views concerning industrial conditions, I do not believe in always looking at the darkest side of affairs, and predicting evils in the future. On the contrary I am hopeful that the depression in the granite business is well nigh at an end, and that better times are in store for all our industries.

At the present time however I fail to see that trade is busy, or even good, and I hold it is wrong to send out false reports which are sometimes the cause of men taking journeys which they can ill afford. When a revival in trade does take place in Quincy, and men are in demand, to no one will it be more welcome than myself, and no one will have more satisfaction in reporting the news. But the truth should be told at all times even if it is not so agreeable, or pleasant, as could be desired.

In deference to the suggestion of a friend of mine, I will drop the nom-de-plume "Nemo" which I have used occasionally for some years past and subscribe myself, JAMES MCADAM,

Sec. Quincy Branch Granite Cutters M. U.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Considerable interest is manifested in the Republican caucuses of Saturday evening, because efforts are being made to secure the delegates for two different Quincy candidates for county commissioner, while some Quincy gentlemen are known to be working for outside candidates. It is unfortunate that Quincy cannot hold a general caucus and send a solid delegation to the convention for either W. W. Ewell or J. Q. A. Field.

The convention is entitled to 124 delegates as follows, and 63 or less will be necessary for a choice. Quincy with 19 would give any candidate a good start and it would need only 44 more votes to ensure his nomination.

The LEDGER regards W. Walter Ewell, for three years the very efficient Commissioner of Public Works of this city as the most available candidate for the Republicans to nominate, and with the united Quincy support he would be nominated and handsomely elected. Never were the streets of this city in as good condition as during his administration.

The nomination should come to Quincy because the towns of East Norfolk should be represented on the board.

Because this section has one-third of the population and one-third of the valuation, and pays one-third of the taxes.

Because towns on the Boston & Albany and Providence division are represented and the towns on the Plymouth division of the Old Colony should be.

Because the only county officer from Quincy out of a total of 28, is a master of chancery.

Milton Democrats elected these delegates Wednesday evening:

Representative convention,—John R. Lawrence, Lawrence Duffy, John Pierce and John Watson.

County,—Christopher Whalan, Thomas J. Cummings, Jr., C. E. Churchill and Edward Cunningham.

Senatorial,—W. E. Cabot, J. M. B. Churchill, W. F. Welch and Walter P. Beck.

ADVERTISE IN THE DAILY LEDGER.

The HONEST KIND

ACKOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health

IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines, ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

A STUDY OF FACES,

no matter where you go, will show you how many, many people ought to be taking Carlsbad Sprudel Salt!

There's the thin, peaked face that tells of perverted nutrition. There's the fat, puffy face of flatulent obesity. There's the otherwise pretty face that's marred by skin disorders and eruptions; the yellow, haggard face of the dyspeptic; the dull, drawn faces of sufferers from stomach and liver and kidney troubles.

All these people need the Carlsbad Sprudel Salt. It goes to the root of the whole matter. It purifies the blood, dissolves obstructions, clears the system, and cures permanently, in a natural way, every derangement of the stomach, bowels, liver and kidneys. Beware of the many imitations sold as "improved" or "artificial" Carlsbad Salt. These generally consist only of ordinary Seidlitz Powder and Glauber Salt, sold by unscrupulous dealers upon the reputation of the Genuine Carlsbad Salt.

The only genuine imported Carlsbad Salt has the signature of "EISNER & MENDELSON Co., Agts, New York," on every bottle.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Woman's Majority.

She's long been a pet and a plaything,
A toy for king and for sage,
Beloved of the best and the bravest,
But woman is coming of age.

Oh, it's out of the far eastern harem
And into the college's door.
Oh, it's down with effete superstition,
For woman's a minor no more.

Then look to your laurels, ye statesmen.
The bird pines no more in the cage.
She's spreading her strong snowy pinions,
And woman is coming of age.

A Real Scene.

Marie—I tell yer yer are false! False to the marrer of yer h'art! I've trusted you blindly, fondly until the present moment, and now I loathe and despise yer!

CURES CONSUMPTION?

Sometimes there is no cure at all, but that is not the case as often as folks suppose. Slocum's Ozonized Norwegian Cod Liver Oil, with Guaiacol, allays inflammation, stops that weakening cough, and promotes the formation of solid, healthy flesh on emaciated bodies. And *it is pleasant to take.* It contains healing properties of great value, scientifically combined. That answers the second question.

TO ACT IN CONCERT.

Foreign Nations Seek to Avoid Complications in China.

A TOTAL LACK OF MODERN ARMS

Prevents Thousands of Chinese Taking the Field.

LONDON, Oct. 11.—Sir Edward Grey, parliamentary secretary to the foreign office, addressing a meeting at Wooley yesterday, said:

"It must be the desire of every nation which has interests in the far East to see the war at an end as soon as possible. The longer the struggle is prolonged the more difficult it will be to limit its consequences.

"The first duty of the government is to protect the lives and property of British subjects in the far East and it is also the government's intention to maintain concert with the other powers in order that all influence may be exercised so as to avoid complications which would arise from any attempt to take political advantage of the situation to the injury of the other powers."

Referring to the recent war scare, he remarked: "Last week it was stated in the newspapers here that there was a serious risk of our being drawn into a war with France. I am pleased to say that there was absolutely no foundation for the alarming reports circulated."

Powers Asked to Intervene.

The Standard this morning publishes a leader in which it argues in favor of the immediate intervention of the powers, including the United States, in the Chinese-Japanese war. It urges England to take the initiative.

A dispatch to The Times from Tien-Tsin says that Mr. O'Connor, the British minister, arrived at Chee-Foo on board the British warship Alacety, and is proceeding in haste to Pekin.

The viceroys Yun Kwei and Hu Kwang have been summoned to Pekin for a council.

The Japanese cruiser which was lately mistaken for the Yoshino was probably the Chiyoda.

The Japanese admiral has been making sham demonstrations with dummy ships painted white like war vessels.

Short of Arms.

A dispatch from Shanghai, dated today, says that tens of thousands of Chinese troops are waiting for arms. It is supposed that the reserve stores of rifles and cartridges have been found not to exist. Many of the troops sent to the front had no better arms than jingals and bows and arrows.

Additional contracts have been entered into with German firms for supplies of firearms of any pattern. These firms charge exorbitant prices for the delivery of their supplies at European ports, and China takes the risk of transportation to Shanghai or other Chinese ports.

The British Navy's Duty.

GLASGOW, Oct. 11.—At a trades dinner given here last night Sir George Trevelyan said it was an open secret that at a time grave events were passing in the far East the interests and safety of Great Britain, as well as those of other European nations and the United States, must be adequately protected. That, he added, was a duty which was all in the day's work of the British navy.

At Rest In Mt. Auburn.

BOSTON, Oct. 11. — At noon yesterday loving hands bore the remains of the kindly "Autocrat," Dr. Holmes, into King's chapel, and there, in the heart of the city, with the busy life of Boston surging around it, the griefs and consolations of the burial service were spoken over the dead, and prayer, no less than music, voiced not only the feelings of the select company that sorrowed within, but also the interest, sympathy and the aspiration of the great world that was mourning without. There was no pomp in the ceremony—not even the display of a formal eulogy. The interment was at Mt. Auburn.

Job Lot of Coins on Hand.

WASHINGTON, Oct. 11.—The treasury officials are considering the question of exchanging at par for gold the $1,700,000 in Columbian half-dollars now on hand. These half-dollars were sold by the Columbian exposition at $1 each, and at the close of the fair about $1,700,000 remained undisposed of and were redeemed by the government at their face value.

Jury Out All Night.

PROVIDENCE, Oct. 11. — The trial of James B. Mathes for the killing of "Monk" Saunders at Narragansett park on June 7 was concluded yesterday. The jury went out at 5:30 last evening, and, failing to agree promptly, were locked up in the jury room for the night. The indications point to either a verdict of manslaughter or acquittal.

Fatal Tenement House Fire.

BOSTON, Oct. 11.—One man dead and five men and one woman badly burned or injured by jumping and dropping from the windows of the four-story wooden tenement house, 218 Hanover street, is the story in brief of a fire which broke out in that building this morning early. The fire was, in itself, but of small magnitude.

Regulating Apprenticeship.

BOSTON, Oct. 11.—The National Horseshoers' union voted to admit no apprentice under 17 years of age and to compel apprentices to have a certificate from an examining board before practicing as journeymen.

All Creeds Took Part.

CHICAGO, Oct. 11.—The birth of Father Mathew, the apostle of temperance, was celebrated by temperance people of all creeds and denominations in a parade in which 15,000 people participated.

Firebugs Heavily Punished.

FREDERICKTON, N. B., Oct. 11.—George Brown and Jefferson Mount were sentenced to 12 years each in Dorchester penitentiary, for burning the Salvation Army barracks here.

Market Is Overstocked.

KIEF, Oct. 11.—Leading sugar manufacturerers have adopted a scheme to restrict their production. An agreement to this effect will be signed tomorrow.

Death Hovers Nigh.

SING SING, Oct. 11.—Warden Durston of Sing Sing prison is dying. Doctors in attendance say the warden cannot live throughout the day.

ON MONDAY NEXT.

Fall River Operatives Will Have an Opportunity to Go to Work.

FALL RIVER, Mass., Oct. 11.—The Manufacturers' association yesterday afternoon voted to start up the mills next Monday morning. This action was taken in accordance with the suggestion of Mayor Coughlin.

Secretary Howard of the Spinners' union said that the spinners were given to understand that if they return to work Monday they will only have a reduction of 5 per cent instead of the 10 per cent. and that the 60-day clause would apply to them also. He doubted, however, if the spinners would accept the reduction even at 5 per cent. It is generally believed, however, that they will accept it, and that the mills will open in full blast Monday.

Secretary Roundaville of the Manufacturers' association refused to state whether the spinners had been promised a reduction of 5 per cent. He only had authority to give out the ultimatum as above.

The weavers may make trouble if the spinners are given a less reduction than they, but the 5 per cent reduction is the same as the terms of the compromise presented by the spinners two weeks ago.

THREE GREAT CONTESTS

In Which Crack Athletes of America and England May Participate.

NEW YORK, Oct. 11.—The board of governors of the New York Athletic club held a special meeting to consider a suggestion that international games be arranged between the Oxford team of England and the New York Athletic club, in co-operation with the Schuylkill navy of Philadelphia and the Boston association.

The proposition as outlined is for a series of three contests, one to be decided in this city, one in Boston and another in Philadelphia. The board of governors approved the idea, and the Boston association and the Schuykill navy will be immediately asked for their co-operation.

Should the Schuykill navy or Boston association refuse to co-operate with the New York Athletic club in the big field meeting, it is said on very good authority that the New York Athletic club will send a team over to England next year to meet the English champions.

Is Going Away.

BOSTON, Oct. 11.—Henry L. Pierce has resigned the presidency of the New England Tariff Reform League. In his letter of resignation he says: "I have held the office of president of the league for many years and regret much to sever my connection with the earnest men who have worked with me to promote the purposes of the organization, but I am intending to be away some months and think that I should be relieved from all responsibility in the conduct of its work."

Quickly Compromised.

NEW YORK, Oct. 11.—Frank J. Larkin, who was injured in a railroad accident on Aug. 26, 1893, gave testimony in his suit against the Long Island railroad in the supreme court yesterday. His spine was injured, and he is suing for $50,000 damages. After giving part of his testimony, Larkin collapsed. Then he had a nervous chill and a doctor was hastily summoned. The defendant's lawyers at once offered to compromise on $19,000, which was agreed to.

Keegan's Unsavory Record.

PROVIDENCE, Oct. 11.—The police suspicions that L. G. Keegan had obtained all his money for the past 20 years from women of the town and servant girls are correct. One of his former roommates yesterday stated that Keegan once attempted to murder him for his money. Keegan has been identified as the man who drove through North Scituate with Mrs Chambers on the day of the murder.

A Dishonest Postal Clerk.

BOSTON, Oct. 11.—Clinton B. Buckingham, 22, of Milford, Conn., a railway postoffice clerk between Boston, Providence and New York, was arrested here for rifling a letter containing money. Buckingham confessed and bail was placed at $2500. He was one of the three clerks injured in the railroad wreck at Dodgeville three years ago. He was awarded $2500 damages at the time.

Preferred Death to Her Husband.

LOWELL, Mass., Oct. 11.—The body of Mrs. Elizabeth E. Chase was found in the canal and there is no doubt that she committed suicide. She disappeared last Thursday night, after an attempt had been made to reconcile her with her husband, from whom she separated some time since.

To Heal a Rupture.

MADRID, Oct. 11.—The council of ministers has decided that the foreign, colonial and finance ministers shall compile a financial and commercial program for submission to the cortes to remedy the consequences of Spain's commercial rupture with United States and Germany.

Heard Bad News.

ROME, Oct. 11.—M. Vlangali, Russian ambassador to Italy, yesterday received grave news concerning the health of the czar. The ambassador ordered that prayers for the recovery of the czar be offered in the chapel of the embassy.

Tars Treated Well Abroad.

NEW YORK, Oct. 11.—Admiral Erben was a guest last night of the New York commandery from the military order of the Loyal Legion at a banquet at the Delmonico. Admiral Erben told how well American tars were treated abroad.

Taken Out of the Hands of the Clergy.

BUDA-PESTH, Oct. 11.—The bill giving the registration of births, marriages and deaths into the charge of civil officials, to the exclusion of priests, passed its third reading in the house of magnates.

Two More Deaths.

SEATTLE, Wash., Oct. 11.—Two more men are dead as the result of the explosion at the New Castle mine. It is feared that two more will die, which will bring the fatalities up to five.

The Corn Crop.

WASHINGTON, Oct. 11.—The October returns to the statistician of the department of agriculture make the general condition of corn as being 64.2, against 63.4 in September.

Mercier's Proposal Rejected.

PARIS, Oct. 11. -The budget committee has rejected the proposal of Minister of War Mercier for a provisional budget to allow the increase of the army by 35,000 men.

Deputy Commissioner Nominated.

BROOKLYN, Oct. 11.—Granville W. Harman received the nomination for register on the Republican ticket. Harman is a deputy police commissioner.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

HILL ON THE STUMP.

He Declares That Platt Is Running For Governor by Proxy.

STRONGLY DENOUNCES THE A. P. A.

And Gives His Opinions on the Tariff Question.

SYRACUSE, Oct. 12. — Senator Hill sounded the keynote of his campaign for governor last night in this city, and with his address opened a partisan battle that promises to be historical in the annals of state politics.

The Alhambra rink was the scene of the opening note of warfare. The first political meeting that ever named Senator Hill for an office assembled under its roof.

The doors were opened at 7 o'clock, and within half an hour the hall and platform had been filled to repletion. There was an uproar as Senator Hill stepped upon the platform. He was the usual cool, impassive statesman, and to the storm of applause made but a slight inclination of his head.

When Senator Hill's name was mentioned by Chairman Mowry, the senator stepped to the front and faced his audience. For some minutes he waited while the audience cheered and then cheered again, and then he began his remarks. He was listened to with great attention, but was frequently interrupted with most vociferous applause. His remarks in part follow:

Senator Hill's Address.

I know of no more appropriate place in which to open the present campaign than before the united Democracy of Onondaga county. Although largely in the minority, you have never been dismayed by local defeats, nor discouraged by adverse circumstances, nor intimidated by the boasts of our adversaries. This county was the birthplace of that distinguished and sterling Democrat and statesman, Horatio Seymour, from whose lips I first learned the lessons of true Democracy, and it was also the boyhood home for many years of the present Democratic President of the United States, Grover Cleveland, where, struggling with honest poverty, he acquired those habits and principles of economy which have always been distinguishing features of his official administrations in state and nation.

It is my desire and intention to conduct upon my part an honorable campaign, free from unnecessary personalities and worthy of the important public questions at issue between the two principal parties. Facts for arguments are the weapons which I invoke, rather than vile vituperation. In great political contests, measures, and not men, should be essentially the controlling factors.

Mr. Hill here remarked that he had the most profound personal respect and nothing but the kindliest feelings for his political opponent, and referred to the fact that Mr. Morton was born in Vermont and for many years a resident of New Hampshire, where "Republicanism is most illiberal, and the constitution of the state was most proscriptive in terms, actually prohibiting, as late as 1867, any person 'not of the Protestant religion' from being governor or a member of either house of the legislature."

About Platt.

Mr. Hill declared that everybody knew that the real Republican candidate for governor was not Mr. Morton, but Mr. Platt himself. It was the voice of Levi, but the hand of Thomas. The people of the state, especially thoughtful Republicans, he said, had not forgotten the fact that for every office to which Mr. Morton had aspired he had been pushed forward by Mr. Platt. Mr. Hill continued:

I do not fail to appreciate the business qualifications, the excellent character and unquestioned political ability of Mr. Platt. I differ with him politically, but as a citizen and gentleman I have nothing to say against him, and decline to be one of his traducers. He has a perfect right to be ambitious and to aspire to the governorship of this state, but I do insist that he should be a candidate in person and not by proxy.

The senator then spoke at length on state issues, declaring that he did not intend to thresh old straw. He declared that the great question was whether the Republicans, by an unjust constitutional apportionment, should obtain control of the whole legislature for all time to come. The irregularities and abuses resently exposed in New York, he said, implicated more Republican than Democratic police officials. Coming to national politics, he said:

National Legislation.

The Democratic party in 1893 took charge of the government under unfavorable and adverse circumstances, with a slender majority in the senate, with an unwieldy majority in the house, with timidity and radicalism to contend with, and it is not to be wondered at that the measure of revision which was finally passed by the Democratic majority does not in all respects meet the public expectations.

It is, however, a vast improvement over the McKinley law, and will clearly demonstrate its superiority—as time rolls on, the business interests of the country shall adjust themselves to its provisions. It may be safely asserted that the new law will not cripple nor embarrass a single industry in the land nor throw out of employment a single workingman. It will not unduly stimulate over-production on one hand or exorbitant importations on the other.

If the new bill errs at all, it is in the interest of safety of moderation. The bill properly strikes a blow at paternalism by abrogating the ruinous systems of bounties to producers of sugar provided for in the McKinley law. The elimination of sugar bounties saves to the American people nearly $15,000,000 annually. If it be said that the new law in a single respect is unduly favorable to one particular trust, my answer is that the old law favored a dozen trusts where this may favor one.

Another Revision Not Contemplated.

Every man, despite the Republican statements to the contrary, should understand that another general or extensive tariff revision is not contemplated by the Democrats now in the future. This determination does not preclude the desirability of redeeming by the passage of such bills whatever pledges we have made in our platform or otherwise for free raw materials, or the readjustment of any objectionable sugar schedule. Beyond this, it is not wise to go much further at this time, unless the unforeseen necessity of the treasury warrants or imperatively demands it.

The depression or disturbance in business which necessarily accompanies any general tariff revision was, of course, to be regretted, but no matter which political party won in 1892 there would have been tariff revision, necessarily and inevitably so, because the McKinley law had broken down, had collapsed and had proved utterly inadequate to meet the necessities of the government and to furnish its required revenue.

When a Democratic administration after four years' time retired in March, 1889, it left to its Republican successor an ample surplus and a reasonably prosperous country. But when that Democratic administration returned to power again in 1893, it found that the ship of state had almost been stranded and scuttled through Republican misrule.

Good Times Now Due.

With the Sherman law and the McKinley law repealed, the country is now entering upon better times. Money is easier, trade is reviving, manufactories are resuming operations, new enterprises are starting up, and everywhere there is a feeling of security, of confidence and of prosperity. Our workingmen are rapidly finding employment and the great army of the unemployed will soon disappear.

What the country needs now is industrial peace. Any attempt to repeal the existing law and to substitute the McKinley law in its place will disturb the business interests of the country and will restore the recent hard times, and should be frowned down by every business man in the country. Besides it would be an ill-advised and idle effort.

I condemn that un-American spirit which seeks to set up a religious test as one of the qualifications for public office in this country. Any organization, secret or otherwise, which has this object in view, deserves the execration of every good citizen. It is useless to deny the fact that sympathy for this intolerant spirit has found much support in Republican circles, much encouragement in the Republican localities.

If the nomination, which I have reluctantly accepted, shall be ratified by the people, I shall assume the office under obligation to no ring, machine, cabal or political clique, and free from any entangling alliances whatever, and with the sole desire to discharge my duty to the whole people according to the best of my ability. To party friends, I have only to say that past differences shall be forgotten, and that all interests, all sections and all factions shall be treated fairly and alike.

To Third Party Men.

To the men who are now supporting the Third party ticket, I will say that this nomination was not of my own seeking and that for a week I sought in every honorable way to be relieved from the burdens and responsibilities which its acceptance imposed, but I found it impossible.

With "malice toward none and with charity to all," with no words of censure or complaint, I leave them to discharge their duty to their country and their party according to their own conscientious convictions. I beg only to suggest and hope that if they cannot consistently see their way clear to give me their support, that they will loyally support my honorable associates upon this ticket, Daniel N. Lockwood and Charles F. Brown.

A united Democratic party in this state will give us the victory. Let us enter the contest with a determination that we can and shall place the Democratic party in the victorious column, where it stood for seven straight years and where it belongs today.

I repeat what I said in opening the campaign in Brooklyn in September, 1892, in behalf of our national standard bearers, Cleveland and Stevenson, "to secure the victory which awaits us, we must organize, organize, organize."

At the conclusion of the speech there was tumultuous applause, and after the adjournment many people remained to shake the senator's hand. Outside he was greeted with cheers all along his route.

Senator Hill left here this morning for Binghamton, where he speaks this evening.

Looks Like Inhumanity.

HAVERHILL, Mass., Oct. 12. — Patrick Dorsey, an inmate of the poor farm, was found in a barn belonging to a farmer named Hasseltine, in Bradford, with his right shoulder broken and dislocated. How long Dorsey had been there or how he came in the barn is a mystery. He was in a famishing condition. The overseers of the poor of this city were notified Wednesday morning of the case, it is said, and they promised to see to the matter at once. Yesterday nothing had been done for the man and he was brought to the city farm.

Captain and Crew Lost.

OSWEGO, N. Y., Oct. 12.—About 5 o'clock last evening a vessel, supposed to be the Hartford, went on the rocks near Woodville, 35 miles east of Oswego. The place where the vessel struck, over a mile from the shore, is considered one of the most dangerous spots along the lake. Captain O'Toole, the owner, and six men were on board. The big sea commenced to break up the vessel, and it is reported the captain and the entire crew were drowned. No bodies have been recovered.

Connecticut's Comptroller Sued.

NEW HAVEN, Oct. 12.—State Comptroller Staub has been sued by Epenetus Erwin to recover $3000. In 1871 Staub was appointed conservator of Erwin and took possession of $5000 worth of his property. In April Staub was removed as conservator of Erwin, and turned over to him, it is alleged, but about $2500. Erwin sues for the balance of his money.

Schofield's Recommendations.

WASHINGTON, Oct. 12.—Major General Schofield's report on the operations of the army during the past year is principally devoted to a discussion of the necessity for strengthening the military arm of the government to cope with internal disorder as well as possible danger from without, particular reference being made to the Debs strike.

Two Were Drowned.

VINEYARD HAVEN, Mass., Oct. 12.—Schooner Tillie Vanderhercher, arrrived here, reports Captain Bateman and Seaman Gibson drowned, some sails lost and others badly torn, lost davits and boat, forward end of afterhouse broken, cabin flooded and otherwise damaged.

Light of the East Wrecked.

DENNISPORT, Mass., Oct. 12.—During the dreadful storm which prevailed along the coast Wednesday, schooner Light of the East was lost on Kilpond bar, and the crew narrowly escaped a watery grave.

Princess Is Also Sick.

BERLIN, Oct. 12.—In addition to the sudden indisposition of Prince Bismarck, which called Dr. Schweninger to Varzein, the condition of Princess Bismarck has become such as to cause uneasiness.

Fishing Smacks Missing.

PENSACOLA, Fla., Oct. 12. -Fifteen fishing smacks belonging to this port, were on the gulf during the storm. Nothing has been heard of them and much anxiety is felt.

ADVANCE RETARDED.

Japanese Find They Have Roads to Travel In China.

NEXT FIGHT WILL BE A HOT ONE.

Russian and German Comments on the Situation.

LONDON, Oct. 12.—A correspondent with the Japanese forces at Wi-Ju telegraphs under date of Oct. 10 as follows: The difficulty experienced in transporting our guns and commissariat overland has greatly retarded our advance. The main portion of the advanced column reached Yong-Chon on Oct. 4. No sign of the enemy was seen. On the 8th it was reported that a small Chinese force, under 2000 men, were still occupying Wi-Ju. The Chinese offered slight resistance and then fled in disorder across the Yalu river. The Chinese loss in killed and wounded was under 100. We occupied Wi-Ju on the same day.

Reconnaissances show that the Chinese are in force in the northern bank of the Yalu. We have already located eight batteries with guns in each. The enemy are rapidly building new earthworks and batteries. Their force appears to be strong. The next fight will be serious.

Field Marshal Count Yamagata, commanding the Japanese forces, still maintains his base at Ping-Yang, being convenient for his supplies. It is calculated that we will possess Moukden by the first week in November.

The government of Wi-Ju has been intrusted to a Japanese officer. A field telegraph has been completed and a regular courier service to the rear was opened today.

Chinese Ship Captured.

A dispatch from Tokio says that Japanese cruisers captured the Chinese ship Tenkyomaru, with a crew of Chinese and Europeans. She was dispatched to Nagaski, and China was officially notified of her surrender.

A state of siege has been declared at Hiroshima, under article 14 of the Japanese constitution, to prevent disclosure of Japanese movements to the advantage of the enemy.

Eight leading Corean noblemen will leave Seoul on Saturday to seek an interview with the Japanese emperor at Hiroshima. It is understood that they will petition the emperor to maintain the Japanese protection of Corea.

Russia's Threat.

ST. PETERSBURG, Oct. 12.—The Novisti contends that if the Japanese are victorious, they will firmly establish themselves in Corea, proving a constant menace to Russia, while the Chinese will threaten her from Manchuria.

Russia, The Novisti further says, will be compelled to make continued sacrifices to maintain the Siberian frontier, a task possibly beyond her power, while her Pacific squadron will be hampered by the Japanese fleet.

As the only means of averting this, Russia must intervene, send troops to Corea and Manchuria, annex both, extend the Siberian railway to Seoul, attain a firm footing on the Pacific and conclude her mission of civilizing the semi-civilized countries of Asia. The Novosti urges Russia to follow the example of Great Britain, which, it declares, knows how to safeguard her interests when they are threatened.

Opinions of German Newspapers.

BERLIN, Oct. 12.—The Cologne Gazette, in an article regarding the agreement of the powers concerning China and Japan, says that Germany does not belong to those powers which think of staying Japan's arm.

The paper adds that it is reported on reliable authority that Russia does not desire to put a stop to the present hostilities. By Russia's attitude, France will be guided.

The United States have from the outset made no disguise of their friendly attitude toward Japan. Austria has given evidence of her attitude by intrusting the defense of her interests to Germany. In conclusion, The Gazette says: It will be time enough for the powers to insure their interests when Japan shall have dictated terms of peace in Pekin.

The North German Gazette says that the duty Germany has to perform in the present crisis in the East is not only to safeguard the interests of traders, but to take measures for the safety of her missionaries, who are threatened. In particular, she is to consider the case of the Protestant missions in southern China and the Catholic mission in the province of Shan-Tung.

Corea Is Passive.

WASHINGTON, Oct. 12.—The Corean legation yesterday received a letter from Seoul. The Corean home authorities appear to be desirous of maintaining a strictly neutral attitude.

Steamer Bottom Up.

PROVIDENCE, Oct. 12.—The flat-bottomed steamer Majella lies bottom up on the coast between Matunuck beach and Point Judith. She foundered in the terrible gale, and the six men composing her crew were drowned.

Canoe Upset.

LAWRENCE, Mass., Oct. 12. — Martin Stienfield was drowned early this morning in the Merrimac river by the overturning of a canoe. Three men who were in the canoe with him narrowly escaped drowning.

Old Landmark Gone.

SPRINGFIELD, Mass., Oct. 12.—The historic five-mile-house on the Boston road, built before the revolutionary war, was totally destroyed by fire last night caused by an overheated chimney. The loss is $4000.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. DEDICATED TO GOD.

The Methodist of Atlantic Happy Over Completion of

THE NEW HOUSE OF WORSHIP.

Exercises Held Yesterday Afternoon and Evening—A Description.

The new Methodist Episcopal church of Atlantic for which the members of that denomination have labored so hard, is completed and was formally dedicated to the purpose for which it was built, on Thursday, with imposing ceremonies.

The exercises commenced at 2 30 in the afternoon, and at that hour a large number of the members of the church and friends gathered within its walls.

The only interior decoration for the occasion were autumn leaves, which were draped about the arches over the pulpit and choir platforms.

The exercises in the afternoon were very interesting, especially the historical review by Mr. John Ramsdell, who sketched the church history of Atlantic step by step from about 1834 up to the present time, showing what the Methodist Episcopal church in particular had done. Another pleasing part of the exercises was the beautiful solo sung by Miss Mabel Burr.

The order of the afternoon exercises was as follows:

Organ prelude.
Invocation, Rev. Edward W. Virgin
Hymn 415, Rev. Frederick N. Upham
Scripture reading, Rev. Charles F. Rice, Ph. D.
Prayer, Rev. George A. Phinney
Solo, Miss Mabel Burr
Historical review, Mr. John Ramsdell
Hymn 650, Rev. J. H. Yeoman
Sermon, Rev. William Nast Brodbeck, D. D.
Hymn 667, Rev. Charles W. Blackett
Benediction, Rev. Herbert D. Deetz

At the conclusion of the afternoon exercises a lunch was served those visitors who desired to remain to the evening service.

At 7 o'clock the people again assembled in the church, when there was a "Love feast" led by Rev. William Full.

At 7 30 the dedicatory service were held with this programme:

Invocation, Rev. Joseph H. Mansfield, D D.
Anthem, "Sweet the Moments."
Scripture Reading, Rev. Charles Parkhurst, D. D.
Prayer, Rev. David H. Ela, D. D.
Hymn 863, Rev. Charles W. Wilder
Sermon, Rev. John W. Hamilton, D. D.
Anthem, "Except the Lord build the House."
Dedication, Presiding Elder Mansfield and Rev. George S. Chadbourne, D. D.
Doxology.
Benediction, Rev. John W. Hamilton, D. D.
Organ Postlude.

The new church is situated at the junction of Squantum street, Newbury avenue and Hunt street, and is a very pretty structure. The corner stone was laid April 10th, and since that time work has gone rapidly forward to completion and the grounds in front are neatly graded.

The structure is 48 feet square and the lower part is of Quincy granite.

Steps in front lead to a partially inclosed platform and on the left front rises a tower. From the platform there are two entrances leading into the vestibule which extends across the entire front.

From the vestibule a stairway leads to the vestry and two doors lead to the auditorium which has a very attractive and home-like appearance.

The auditorium is fitted with oak pews arranged in a circular form with a seating capacity of 250, and on either side are large ornamental windows of delicately tinted glass. At the extreme end is a platform for the pastor, on the left of which is a similar platform for the choir, both of which are inclosed in ornamental arches. At night the room is lighted by eight electric light chandeliers.

From the pastor's platform there is another stairway leading to the vestry, which also has an entrance from Hunt, street.

The vestry is very conveniently arranged, and has a seating capacity of 150. Opening from the vestry there are a ladies' parlor Epworth League room, pastor's study, two class rooms, kitchen, etc.

The cost of the building was about $3,760.

THE NEW VOTERS.

A List of the Names Added Since Publication of Lists.

Since the preliminary lists of voters were issued a few days ago, the Board of Registrars have added 64, making the grand total now 3,498. There were added previous to posting, by registration and transfers, 137, so that there are over 200 new voters to be looked up. Just now, however, the committees are more anxious about the 416 dropped in revision, not one-half of whom have been restored. With the new voters, the lists are just 175 smaller than at the city election of last December, and registration closes next Wednesday night.

Following are the names of these who have been added to the voting lists by the registrars since the published list of September 22:

Conference at Wollaston.

The sixty-seventh annual meeting of the Suffolk South Conference will be held at the First Congregational church on Wednesday, Oct. 17. The afternoon session will be held from 2.30 to 5.30 and the evening session from 7 to 9.

The topic for the conference will be "Spiritual Marasmus, its Cause and Cure." The opening address will be by the Rev. Charles L. Morgan of the Jamaica Plain Congregational church.

At the evening session the Rev. Charles H. Beale of the Immanuel church, Roxbury will preach the sermon, taking for his subject "The Duality of Descent."

About 300 delegates are expected to be present. The local committee of arrangements,—Mr. N. G. Nickerson, Mr. George H. Murray, Mrs. Edward S. Tenney and Mrs. J. G. Witham—have charge of the providing of the collation for the gathering.

HAVOC AT CEDAR KEYS.

Business Streets Blocked With Mementoes of the Late Storm.

JACKSONVILLE, Fla., Oct. 12.—Communication has been re-established with all points on the west coast visited by the storm, and dispatches to The Times Union tell woful tales of the destruction caused by the wind and water. The storm first struck Cedar Keys, from which place the following dispatch has been received:

Cedar Keys has just experienced the most disastrous storm which has visited here for 25 years. The main business streets are piled from one end to the other with debris, consisting of wreckage from boats, wharves, fishhouses and logs of every description.

The loss of property is very heavy. The Town Improvement company is a heavy loser, as a number of business and dwelling houses were swept away. The city hall has the roof blown off and one entire side knocked out by logs. The city jail cannot be found. The five bridges to the shell road leading to the mainland are washed away.

A great many small boats were wrecked and fish camps demolished. One sloop came in with five men who had clung to a single palmetto tree since Monday night. Another came in with three men who were wrecked Monday night and had been on a shell bank ever since without food or water. It is reported that five sponge vessels went ashore during the storm and were driven several miles into the woods.

Undertakers Used Arsenic.

WINTHROP, Me., Oct. 12.—C. W. Dillingham, undertaker, and N. D. Hamblem, his assistant, have made sworn statements that they embalmed the body of Elisha Case two hours after death, pouring the fluid through the mouth to the stomach; also that they are informed by the maker that the fluid contained arsenic. The remains of Case, who died suddenly, had been exhumed, and an analysis showed that the only poison in the stomach and kidneys was arsenic.

Guests Leave Gray Gables.

BUZZARD'S BAY, Mass., Oct. 12.—Mr. Benedict and Miss Benedict, who have been visiting at Gray Gables, returned to Greenwich yesterday afternoon. R. W. Gilder returned last night, and the only guests at the Gables now are Mr. and Mrs. Perrine. The president and family will return to Washington next week.

Regarded as Suspicious.

NEW LONDON, Conn., Oct. 12.—The fact that no money or watch was found upon the body of Captain Charles Aitken of the pilot boat Ambrose Snow, found in the river here, is regarded as suspicious. He had a watch while he was employed on the Snow.

An Expert Shot.

CHICAGO, Oct. 12.—The highest score ever made by an army cavalryman was made in the United States army shoot yesterday by Sergeant Kersten. He made 47 points out of a possible 50 at 500 yards range, using the regular army carbine.

To Be Looked Into.

WASHINGTON, Oct. 12.—Immediate investigation will be made by the civil service commission of the charges of the Philadelphia Press that assessments were being levied "right and left" on Philadelphia mint employes.

An Unfortunate Vessel.

PROVINCETOWN, Mass., Oct. 12. — The schooner William Butman, with a cargo of lumber, which has been on fire here for some time, broke out anew during the cyclone of Wednesday, but the fire was got under control.

Suspected of Incendiarism.

MASSILLON, O., Oct. 12.—The entire Reimer family at Dalton has been arrested charged with conspiracy to burn the town. Dalton was recently wiped out of existence by fire supposed to be of incendiary origin.

Kaffirs Causing Further Trouble.

LISBON, Oct. 12. — Official dispatches from Lourenzo Marquez announce that the situation of affairs there has become worse, owing to the fact that large bodies of Kaffirs are pressing forward from all points.

PALE, THIN AND EMACIATED PEOPLE.

The country is full of them. They do not know what it is to feel well like other folks. Medicines of all kinds have been tried without good results. Cod Liver Oil and the preparations of Malt have all failed. What is the reason? These emaciated people cannot digest starchy foods. The fat of the body is produced with bread, potatoes, and other starchy food. If they will eat food that is artificially digested, they will grow fat, strong, plump and robust. They will commence gaining flesh at once. This Flesh Forming Food is called *Paskola*. You can buy it at any drug store. Send your name to The Pre-Digested Food Co., 30 Reade St., New York, and get their interesting pamphlet.

A Parrot Has Given It Away.

That Senator Merrill is a sly one.
That the home circle will now have stronger ties for him than the political field.
That H. M. Federhen, Jr., was not at the hose house dedication in his ward.
That he is chairman of the Committee on Fire Department of the City Council.
That he is not as popular as his father with the firemen.
That Mayor Hodges is making a reputation as a story teller.
That that of Wednesday evening was the best yet.
That he should not have said "Oh, no; my dear!"
That C. F. Adams has escaped for years with a very light tax on his homestead on President's hill.
That there is no more valuable residential land in the city.
That 17 1-4 acres at $40,000 is about five cents per foot, or $2300 per acre.
That some house lots are taxed for 25 cents per foot or $10,000 an acre.
That many are taxed for 20 cents per foot, or over $8,000 per acre.
That 15 cents per foot, or $6,000 per acre, is common.
That few good lots escape for less than 10 cents per foot, or $4,000 an acre.
That the Adams property should not have escaped so lightly.
That the land is worth over $75,000.
That the syndicate know it.
That the Assessors will find it out next year.
That Mr. Adams could afford to give the city a park or playground every year from the amount he saved.
That this is unequal taxation.
That this is what makes taxes burdensome to the less fortunate.
That that playground matter needs sifting.
That the parrot has heard considerable.
That he will soon give it away.

MRS. IDA CASLER.

Her Advice to Over-Ambitious Women.

[SPECIAL TO OUR LADY READERS.]

Mrs. Ida Casler, of 126 Olive Street, Syracuse, N.Y., believes that there is no amount of money large enough to equal a good, sound, healthy constitution.

Here is a history of her case:—

She was so ill with falling of the womb and leucorrhœa that she could not stand. She was attended by several doctors without benefit, and was completely discouraged.

One evening she heard what *Lydia E. Pinkham's* Vegetable Compound had done for other women, and decided to try it, together with Mrs. Pinkham's Sanative Wash, and it is well she did, for she says:—

"I am now well and strong. I am not troubled with either trouble, and all owing to Lydia E. Pinkham's Vegetable Compound.

"If more women would use the Compound there would be less suffering in the world. Many women bring on their troubles by over-work. Remember good health will outbid riches every time."

Masonic Visitation.

Rt. Wor. Herbert I. Mitchell and suite made an official visit Thursday evening to Rural lodge of this city, and it was the occasion of a very large attendance of members and visitors. On the suite were Wor. David Battles as G. S. W., Wor. Asa P. French as G. J. W., Wor. Henry L. Crane as G. T., Wor. M. E. Holmes as G. S., Wor. Charles H. Emerson as G. Mar.

Wor. Charles W. Hollis and his officers gave a very fine exemplification of the M. M. degree upon one of our prominent citizens who was a candidate. The Mozart quartette assisted. The work was praised by the district deputy.

A fine banquet was spread by Seiller at the close.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

For sale by Draggists and Dealers Everywhere.

MILTON.

Daley & Briley is the name of the new provision firm on Adams street.

The first dance to be held in Ellsworth hall is that of tonight of the Milton band.

Adams street is receiving the attention of the road department.

The Milton brass band are arranging to celebrate its first anniversary the 24th of this month.

John Graham and Henry McKay have opened a real estate office at East Milton.

Two bicycle races, one of which will be for boys, will be held at East Milton, Saturday, Oct. 20. The course is from East Milton to the Town House and return, a distance of about four miles. There will be three prizes in each race,—for the first: a pair of patent leather shoes, sweater and box of cigars. The prizes for the second race are: a pair of patent leather dancing pumps, sweater and a pair of slippers.

The Republican caucus to elect delegates to the county convention to nominate a candidate for County Commissioner to fill vacancy caused by the death of J. Q. A Lothrop will be held tonight.

—The two-minute mark for horses, which has been gradually growing nearer, was reached at Chillicothe, Ohio, one day recently, when the pacer, Flying Jib, with the assistance of a running mate, covered a mile in 1.59 1-2.

—Three canneries at Milford, Del., are packing 80,000 cans of tomatoes per day, and three at Frederica are packing 75,000 per day, while many smaller canneries all over the state and the peninsula are busy with tomatoes. Meanwhile a farmer in Kent county, Md., received recently for 100 baskets of tomatoes shipped to Baltimore $4.43. The baskets alone cost him four cents each.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

An effort will be made to unite the Quincy delegates to the county convention.

Republican caucuses Saturday night.

The last day for getting naturalized depends upon the different courts, but must be before the close of registration.

Objections to nominations must be made within 72 hours of the last hour of filing such nominations.

The political calendar for a week:

October 15—Last day for appointing election officers in towns.

October 15—5 P. M. last day for filing at the office of secretary or state nomination papers for candidates to be voted for at large throughout the state.

October 16—Last day for petitioning for the appointment of supervisors of elections.

October 17—10 P. M., last day for getting registered in all cities, and upon this day every registry of voters in cities must be kept open from 12 o'clock noon until 10 o'clock P. M. In the city of Boston the registrars of voters must hold at their principal office a continuous session from 9 o'clock A. M. until 10 o'clock P. M.

October 18—Last day for holding caucuses and conventions for nominating candidates for other state officers.

October 18—5 P. M., last day for filing at the office of secretary of state certificates of nomination for other state officers.

October 19—5 P. M., last day for filing at the office of secretary of state nomination papers of candidates for such other state officers.

—The probable cause of the numerous suicides in New York city has been discovered. In one block on 65th street there are 226 pianos, nearly all of them in daily use.

—The plain clothes policemen in New York make it very dry on Sundays. Just how long that state of affairs will be kept up, however, is the interesting query of the time.

—Our government fell $6,000,000 short of paying its bills for September. The gold reserve still remains at less than $60,000,000. But the sun of prosperity is shining; so who cares?

—Forty-five pounds of corn are said to be worth only a cent and a half in Russia today, and many farmers are sending their cattle into the fields, as the cost of harvesting would exceed the price of the corn.

—The letter-sheet envelopes will soon be withdrawn from sale at the postoffices. If you want one to preserve as a souvenir you had better purchase it right away.

—Every tinplate plant with a single exception in Pittsburgh has closed, and 3,000 workmen are idle.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

All I Ask.

Throughout the day in ceaseless toil
I plod, like some machine,
And in the city's mad turmoil
My faculties demean.
My better self is far above
This earning of my bread.
That's why the night I dearly love,
For I can read in bed.

No high backed chair of stiff design
Is good enough for me,
For wide limbed liberty I pine,
From hampering clothes quite free.
In pillowed ease I fain would lie,
By grave immortals led.
Tomorrow cheerfully I die.
Tonight I read in bed.

At midnight, Shakespeare at my beck,
Cervantes by my side
And Charley Lamb perched on my neck,
Through wondrous realms I glide,
With friends like these to have at will,
Though passed, to me not dead,
Let living friends desert me still,
For I can read in bed.

The golden gift of lyric song,
The faculty divine,
To other fellows may belong—
Alas! they are not mine.
But from the garden of the gods
This modest flower outspread
I pluck toward me as it nods,
For I can read in bed.

And when, beyond the golden stair,
St. Peter's gate I haunt
And am permitted to declare
The thing that I most want,
No lofty mansion, gilt refined,
I'll seek. I'll say instead,
"Give me a wife that does not mind,
And let me read in bed."

More Tammany Nominations.

NEW YORK, Oct. 12.—The Tammany Hall organization made the following congressional nominations: Ninth district, H. C. Miner; Seventh, F. T. Bartlett; Eleventh, William Sulzer; Twelfth, G. B. McClelland; Thirteenth, A. J. Cummings; Fourteenth, John Connolly.

Elopers Hid In Bushes.

PARIS, Me., Oct. 22.—Lydia F. Cotton of Porter, 23 years old, having four children, eloped from her husband's home with Stephen H. Gilman of Baldwin. They were pursued through several towns and caught hiding in some bushes. Their case is before the grand jury.

License vs. Prohibition.

CONCORD, N. H., Oct. 12. — Secretary Wheeler of the Law and Order league and Dr. Everett of Nashua engaged in a joint debate last night over the relative benefits to the state of prohibition or license. Wheeler had the better of the argument.

His Shoulder a Target.

NEW YORK, Oct. 12.—R. Schmuller, a merchant of Germany, who has been touring in South America, arrived in this city yesterday. Schmuller was shot in the shoulder in Peru, having been mistaken for one of the revolutionists.

Killed by a Train.

PRESQUE ISLE, Me., Oct. 12.—The mangled remains of William Tear of Point Lepreaux, N. B., were found on the railroad track six miles south of here. The coroner's jury exonerates the railroad company.

Treasury Was Short.

ROCKLAND, Me., Oct. 12.—Over 450 delegates are in attendance at Maine's state Sunday school convention. The report of Treasurer Nevins showed a deficit, but nearly $1000 was speedily pledged.

Must Go Back to Canada.

LONDON, Oct. 12.—Percival R. Neale, the Canadian customs officer charged with absconding with $6000, was yesterday committed for extradition.

THE CZAR'S SICKNESS

Has Reached a Stage Which Makes Recovery Doubtful.

THE FUTURE WELFARE OF RUSSIA

And Worriment Over His Sons Greatly Distress Him.

BERLIN, Oct. 12.—A member of the Russian embassy in this city is authority for the statement that the reason Professor Leyden was for the second time called to attend the czar was because the distinguished sufferer has suffered a relapse. This is shown in his greatly increased difficulty in breathing and in repeated periods of unconsciousness. Within the last week the czar's nervousness has grown worse so rapidly as to make him irritable, greatly lessening his chances of recovery.

The informant added that although the czar fully expects to die soon, he is eager for his removal to Corfu, the latter step becoming imperative if the only chance to save his life is utilized.

Professor Leyden will reach Livadia tomorrow night and will accompany the czar to Corfu, where he will remain until the crisis is over, having received six months' leave of absence from the Prussian government.

The distinguished German specialist persists in his rather favorable diagnosis of the czar's case and fully believes that if it is left entirely in his hands he will be able to effect a cure. Professor Leyden has taken to Lividia a liberal supply of drugs, his operating tools and a new remedy, supposed to be a specific against the disease, and in which Professor Koch and Professor Leyden both have much hope.

Professor Leyden In Full Charge.

The officials of the Russian embassy have no doubt that the czar has the best chance obtainable in Professor Leyden's hands, because he has placed himself unreservedly under the orders of the German physician, and has as a preliminary dismissed Professor Zacharin, his greatest danger, unless from the disease itself. But half a chance is now given nature and the doctor.

The reason for the czar's incessant worrying was first about the plainly approaching death of his son George, and secondly, the conduct of the czarewitch, who stubbornly refuses to marry Princess Alix. The reason assigned for this refusal is the great love of the czarewitch for his mistress, a most beautiful Jewess, who seems to have a great hold upon him, that for the sake of keeping her he has offered to renounce his rights of succession to the throne.

But the czar will not permit this, not approving of it for family reasons. At the same time, the czar fears for the welfare of Russia, and perhaps for the peace of Europe, if a regency is necessary.

These worries, Professor Leyden asserts, constitute the greatest feature of the czar's case.

To Work or Not to Work?

FALL RIVER, Mass., Oct. 12.—District meetings have been ordered to give weavers an opportunity to discuss the manufacturers' announcement of resumption Monday at a 10 per cent reduction for all except spinners. The sentiment of union weavers is of dissatisfaction at what they claim is discrimination in favor of the spinners. The temper of union weavers is against accepting the manufacturers' proposition. If the union weavers should refuse to go in Monday there are enough non-union weavers in the city anxious to secure work to start a majority of mills. The opposition by weavers cannot last if attempted.

Jim and Bob.

PHILADELPHIA, Oct. 12—Bob Fitzsimmons returned to this city last night bringing with him the articles of agreement between him and Corbett, signed at New York. When asked when he would sign, he refused to reply, but it is understood that neither signature will be affixed before Monday. Corbett, it is said, will sign in Connecticut. The name of the champion middleweight will be affixed either in Virginia or on the train en route.

Christians Elect Officers.

HAVERHILL, Mass., Oct. 12.—The Denominational Christian convention elected the following officers: President, Rev. A. H. Morrill, D. D., of Haverhill; secretary, J. F. Burnett, Eaton, O.; treasurer, F. A. Palmer, New York; board of control, Rev. C. W. Garrett, G. A. Conibear, Mrs. J. C. Drury and Rev. Lester Howard.

Addressed by Republicans.

BOSTON, Oct. 12.—The first annual banquet of the Club Fremont, a new organization of French-Canadian citizens, was held in Faneuil hall last night. Speeches were made by Governor Greenhalge, Lieutenant Governor Wolcott, Senator Hoar, Senator Lodge, and others. There were about 250 members present.

Prisoners Pleaded Not Guilty.

LAWRENCE, Mass., Oct. 12.—J. L. Johnson, Frank C. Hunt and Frank Little, charged with the murder of Hiram Crosby at Merrimac on the night of Aug. 25, were arraigned yesterday. They pleaded not guilty. The time for the trial has not yet been set.

Something New.

WASHINGTON, Oct. 12.—For the first time the naval constructors have undertaken to build small torpedo boats to be carried on the decks of the Maine and the Texas. These little crafts are marvels of lightness and efficiency.

Capture Was Important.

NEW YORK, Oct. 12.—The arrest of a party of counterfeiters at 111 West Twenty-sixth street will probably lead to a series of startling revelations. The men had bad $1 and $2 counterfeit bills in their possession.

Spiritualists and the Law.

WASHINGTON, Oct. 12.—The National Spiritualistic convention adopted a resolution making it incumbent on local societies to offer moral and financial support to mediums arrested and prosecuted.

Government Won.

RIO DE JANEIRO, Oct. 12.—The elections in the state of Rio Grande do Sul passed without any disturbance. The government candidates were victorious.

Couldn't Collect.

KEARNEY, Neb., Oct. 12.—The First National bank has closed its doors owing to impossibility to collect assets. Other banks are not affected.

WHEELS ARE TURNING.

Nearly All the Mills In New Bedford Are In Active Operation.

NEW BEDFORD, Mass., Oct. 12.—The mills in this city are running as if nothing in the way of strike had occurred, with the exception of the Acushnet and Hathaway mills. At these mills most of the weavers have refused to return to work. At noon only 75 weavers were working in the four mills belonging to these corporations. As many of the operatives in the other mills have left the city, a number of the Acushnet and Hathaway weavers have been able to get employment elsewhere.

At the North End the mills are all running, with the exception of No. 7 Wamsutta, where the looms were not ready for the weavers. Since the settlement of the strike, there has been a great deal of inquiry as to whether the mills which had started at old rates since the strike would now make a 5 per cent reduction, the same as the other mills. So far as the corporations controlled by William D. Howland are concerned, this matter was settled yesterday by Mr. Howland's announcing that there would be no reduction at present.

CHARGED WITH LARCENY.

Gotham Lawyer Said to Have Willfully Cheated a Client.

NEW YORK, Oct. 12.—E. T. Goldberg, a young lawyer, was held in the Tombs court in $3000 bonds for examination on a charge of larceny preferred by Thomas C. Clark. Clark complains that on July 26 last he applied to Goldberg for a loan of $50,000 on 35,000 acres of unimproved land in Tennessee, which he desired to improve with the money so obtained; that Goldberg guaranteed to secure the funds and that complainant turned over to him a deed, abstract and other proofs of title to the property. Clark alleges that Goldberg now refuses to effect the loan and wrongfully declines to restore the title, deed and abstract. The complainant avers that the defendant now claims the Tennessee property as his own and has transferred it to his sister-in-law, Cecelia Moses. Goldberg denies these accusations.

Ruin at Appalachicola.

APPALACHICOLA, Fla., Oct. 12.—Havoc and destruction were played by the storm here. Water, Commerce and Markets streets are a mass of logs, boats, lumber and dead fish. So far two lives are reported lost. All the docks were totally destroyed, houses were unroofed and fences scattered everywhere. Some of the best dry goods and grocery stores are shattered to destruction. At present it is impossible to get at an estimate of the loss of the goods or buildings.

Socialists' New Departure.

BERLIN, Oct. 12.—Herr Buebe and Herr Doppler, socialists, both of whom were elected members of the Strasburg provincial council, refused to take the oath of allegiance to the emperor on the ground that it was incompatible with their republican convictions. This is a new departure in the history of socialism. This incident will be welcome to those clamoring for repressive laws.

Couple Charged With Larceny.

NEWTON, Mass., Oct. 12.—Edward C. Lewis and Corrine M. Cleveland were arrested last night on a warrant from Brooklyn charging them with the larceny of jewelry and furniture from Mrs. Lewis, mother of Edward. The couple have been living at 22 Willoughby avenue, here, and have been regarded as well off.

The Storm at St. Pierre.

ST. JOHN'S, N. F., Oct. 12.—All but eight of the vessels that went ashore at St. Pierre, Miq., came off on the high tide. The extent of the loss and the severity of the storm were never equalled in St. Pierre. Fears are entertained that the worst of the effects of the fury are not yet known.

Antietam Fighters Remembered.

HAGERSTOWN, Md., Oct. 12.—Four hundred and six survivors of the Eighth, Eleventh, Fourteenth and Fifteenth Connecticut regiments, which took part in the battle of Antietam on that historic battlefield, yesterday unveiled four monuments and located the position of others.

Judge Holmes Gets His Father's Estate.

BOSTON, Oct. 12.—The will of Oliver Wendell Holmes, dated June 1, 1889, was filed yesterday in the Suffolk probate court. Five thousand dollars is left to a grandson of the poet. The rest is left to his son, Oliver Wendell Holmes, Jr.

Uncle Sam the Loser.

WASHINGTON, Oct. 12. — William B. Smith, a laborer employed in the bureau of engraving and printing, is charged with stealing 50,000 2-cent postage stamps from the government. It is believed that other employes are implicated.

Will Be Amply Protected.

ATHENS, Oct. 12.—Admiral Avelan, with a squadron of four Russian warships and several Greek ironclads, cruisers and torpedo boats, are proceeding to Corfu, where they will remain during the stay of the czar upon that island.

A Serious Charge.

PROVINCETOWN, Mass., Oct. 12.—Dr. R. C. Dailey as principal, and John Logan as accessory, were indicted by the grand jury at Barnstable for the crime of criminal malpractice on the person of Mellisson Hopkins of Wellfleet.

Suffocated by a Landslide.

BRIDGEWATER, Mass., Oct. 12.—While 12 inmates of the state farm were clearing off railroad land, a sandbank caved in, and Stephen Shaughnessy was suffocated. James Kelly, who was also buried, was taken out alive.

Tinkered by the Seventy.

NEW YORK, Oct. 12.—The committee of 70 has amended its ticket so as to correspond with that nominated by the state Democracy by substituting E. J. H. Teamseu's name for that of Otto Kempner for sheriff.

Indications of Murder.

NEW HAVEN, Oct. 12.—The investigation of the police and Coroner Mix into the death of John J. Gormley, which occurred at the hospital Tuesday, reveal facts which indicate that he was murdered.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

CHINA SEEKING PEACE

Her Terms Forwarded to Japan by Minister O'Connor.

ENGLAND AND RUSSIA WATCHING.

Japanese Must Not Permanently Occupy Russia.

SHANGHAI, Oct. 13.—China is suing for peace through the British minister at Tokio. She offers to recognize the independence of Corea and pay a large money indemnity. This proposal emanated from Prince Kung and Li Hung Chang. The British minister, Mr. O'Connor, is waiting for Japan's reply at Pekin

By Way of London.

LONDON, Oct. 13.—A Shanghai dispatch says that the steamer Tenkyomaru, the capture of which by the Japanese was announced in these dispatches, was a transport engaged to bring re-enforcements from the south. It is not known whether troops were on board of her when she was captured. The dispatch adds that vague reports have been received from Nankin to the effect that a fresh rising against the Manchu dynasty, fomented by the Kolachwei, a secret society, has occurred 50 miles from Hankow.

The Times today publishes a dispatch from Shanghai stating that reports from Moukden confirm the statement that only 4000 Chinese troops, commanded by General Tso, were at Ping-Yang. They repulsed the Japanese until General Tso was killed. This, it is added, explains the small Chinese loss.

Great Britain Growing Uneasy.

ST. PETERSBURG, Oct. 13.—It is semi-officially announced here that Great Britain is doing her best to induce the powers to join in an attempt to secure a cessation of war. It is considered certain that Russia will not permit Japan to permanently occupy Corea. In this, Russia is sustained by Great Britain, and all the other powers are not sufficiently interested to do otherwise.

Russia Not Idle.

BERLIN, Oct. 13.—The Tageblatt says it hears that Russia is still sending troops and war material to the Chinese frontier.

Arms For China.

NEWPORT, R. I., Oct. 13.—A report that the Chinese government were negotiating with the Hotchkiss company for the immediate purchase of 30 Howell torpedoes, a representative of that country now being in consultation with the company, is confirmed by F. H. Paine, the company's agent here.

Japanese Prince Arrives.

NEW YORK, Oct. 13.—Prince Yamaschino of Japan arrived here yesterday from Hamburg. When asked what he thought of the probability of the intervention of other powers to stop the war, he stated that he did not think other powers would interfere in the struggle.

Assaulted by a Sailor.

PAWTUCKET, R. I., Oct. 13.—Mrs. Patrick Moriarty was yesterday found lying in bed in a semi-conscious state, with her face terribly cut and battered. The bedding and the floor in all parts of the room were covered with blood. John McGovern, a sailor, and a son of a cousin of Mrs. Moriarty, is alleged to have attempted a criminal assault, and that, in her struggles to frustrate his purpose, he had beaten her into insensibility. Her face was blackened and swollen so as to be almost unrecognizable. Her left eye was terribly cut and bruised. Her left hand was also badly bruised. McGovern was thoroughly intoxicated when arrested. He admitted having had trouble with the woman.

Procession Was Delayed.

HOLYOKE, Mass., Oct. 13.—The annual parade of the Holyoke fire department was delayed by the refusal of several companies to march behind a band in which there was a drummer accused of being a member of the A. P. A. The matter was finally referred to the fire commission, the obnoxious drummer was sent from the line and the parade then proceeded

Missionaries Not to Be Withdrawn.

MADISON, Wis., Oct. 13.—The American Mission's committee on foreign secretaries endorsed the call extended to Dwight L. Moody to go to Japan for six months to do evangelical work. A resolution adopted instructed the prudential committee not to withdraw from any missions now established.

Gould Got There.

CONCORD, N. H., Oct. 13.—The long deadlock in the Sixteenth New Hampshire Republican senatorial convention was broken last night on the 102d ballot, Marcellus Gould receiving six votes, L. B. Bodwell five, one delegate from Ward 2 refusing to vote, and thus breaking the deadlock.

A Bad Lot.

CANTON, O., Oct. 13.—Rose Reimer, a schoolteacher at Dalton, attempted to burn the house occupied by the Reimer family. Old man Reimer denies his former confession that his wife started the recent big fire. Rose offered to plead guilty to save the family. All will be held.

Gannon Made Fun.

LAWRENCE, Mass., Oct. 13.—In the superior court Thomas Gannon was sentenced to five years in state prison, having been found guilty of the robbery of Thomas Cole. A four years' sentence was first imposed, but when defendant laughed a year was added.

FITZ WON'T SIGN.

He Wants a Few Changes Made In the Articles of Agreement.

PHILADELPHIA, Oct. 13.—Fitzsimmons received by mail yesterday a copy of the articles from New York. After glancing over them he said: "I shan't sign the articles in that shape."

"What is wrong with them?" asked a reporter.

"Why, right here in article 1. It provides that we shall fight for The Police Gazette championship belt. Now I will not fight for that belt. Richard K. Fox, its donor, only puts it up for advertising purposes, and I don't intend that he shall use me as a medium to advertise his paper.

"I object to the size of the gloves. I want the articles altered to read five-ounce gloves. Corbett defeated Sullivan and Mitchell with gloves of that weight and I have fought all my battles with them in this country. They are the regulation fighting gloves small enough for any one, and I guess Corbett don't want them any smaller. I object, because the club might want us to use 'pillows' weighing 12 ounces, and that might make a farce of the fight.

"I also object to the last section, 'The club shall name the referee.' I don't object to the club naming the referee, but I want a line added, 'that he must be satisfactory to both principals.' I don't know anything about the Florida club, but I hear that Corbett's backers, the Dwyers, are behind it, and as he has had everything his own way so far, I think ❖ should at least have a say as to who shall be the referee."

BOSTON, Oct. 13.—William A. Brady, Corbett's manager, says that the articles for the fight with Fitzsimmons have been signed and were forwarded to New York last night. This completes Corbett's part of the program for the present.

Authorities Almost Powerless.

CAPE TOWN, Oct. 13.—The town of Lourenzo Marquez is in a complete state of siege. All the streets on the land side of the town are barricaded to prevent, if possible, the entry of the Kaffirs, who are in arms against the Portuguese. Guns are mounted at the barricades and a guard is kept by Portuguese marines. Four hundred soldiers form a cordon from Borea to Reuben Point. The town will be at the mercy of the natives if they make an attack. The authorities are doing their best with the inadequate means at their command to protect the place.

Robbed the Express Safe.

RICHMOND, Oct. 13.—A passenger train on the Richmond, Fredericksburg and Potomac railroad was held up near Quantico last night. The engineer and fireman were forced from their engine and the engine was cut loose and sent ahead. The express car safe was then robbed. The runaway locomotive was stopped at Quantico by obstructing the track. There was an unusually large amount of money on this train, probably $50,000. The robbers, seven in number, were masked, and forced the messenger to open the safe.

A Dramatic Scene.

BROOKLYN, Oct. 13.—David Goodwin, noble grand master of Montauk lodge, I. O. O. F., went visiting a sick brother of the lodge last night. Goodwin had just reached the bedside of the sick man, Lewis C. Fish, and asked him what the trouble was with him, when, without a moment's warning, he fell across the bed dead. Death was due to heart disease.

They Favor Licenses.

HARTFORD, Oct. 13.—A meeting of German residents of this city was held to devise means to counteract the spread of the no-license sentiment in Connecticut, and to check any probable legislation permitting women to vote on the license question. The organization is intended to be the nucleus of a state organization of Germans.

Were Visiting Friends.

LEWISTON, Me., Oct. 13.—Lizzie and Annie Dise, two girls reported missing while en route from Lewiston to Rumford Falls, have arrived at that place safe and well, and offer as an excuse for not getting there before that they made a couple of stops on the road to visit friends.

Book Agent In Trouble.

SPRINGFIELD, Mass., Oct. 13.—F. M. Rowe was arrested here yesterday charged with stealing the canvassing list of a Greenfield firm, and cheating the people whose names were on the list by taking away their books to be bound and then selling them to outside parties.

Restored to His Father.

PROVIDENCE, Oct. 13.—John Waters of Springfield, Mass., came to Swansea yesterday and found his 9-year-old son who had been kidnapped by two tramps two months ago. The boy was abandoned by the men two weeks ago, and was being cared for at the poor farm.

John L. Sullivan's Farm.

SOUTH FRAMINGHAM, Mass., Oct. 13.—John L. Sullivan is negotiating for the lease of the Davis farm in South Sherborn. He will retire from the stage and establish a sanitarium on the farm, furnishing training quarters for pugilists.

Short About $5000.

PHŒNIX, N. Y., Oct. 13.—The Phœnix state bank was closed yesterday by State Bank Examiner Clark for the purpose of examining into its affairs. The bank has a capital of $300,000, and it is said has a shortage of about $5000.

Civil War In Albania.

BELGRADE, Oct. 13. — Two Albanian tribes have taken the field to settle a dispute, and have some 3000 men ready for action. The governor of Kossowo is trying to negotiate an armistice.

That Stamp Theft.

WASHINGTON, Oct. 13.—The government has sworn out a warrant for William A. Beach, a young man who is charged with receiving a part of the stolen postage stamps from W. B. Smith.

Wrecked on Lake Huron.

SAND BEACH, Mich., Oct. 13.—The tug Boynton has arrived with the crew of the schooner M. L. Breck. They abandoned her off Point Clark, near Goodrich, Ont. She is a total wreck.

Minus a Leg.

ASHLAND, Mass., Oct. 13.—Peter Webster, a 17-year-old tramp, fell under a train last night and had his leg taken off, besides receiving other injuries.

A DROP IN PRICES.

Wheat, Corn and Cotton the Features In the Trading Marts.

SHOE FACTORIES ARE PUSHED.

Woolen Mills Filling Orders For Fall Goods.

NEW YORK, Oct. 13.—R. G. Dun & Co.'s Weekly Review of Trade says: Business is still waiting for the development of retail trade. There is a little better demand in some industries, but not so good in others.

The government crop reports are not greatly trusted, and yet have an influence, and actually exaggerate the tendency toward lower prices, because they are supposed to put all the crops too low.

Men calmly reckon that if the government report indicates over 400,000,000 bushels of wheat, the crop must be over 500,000,000 bushels, and though western receipts for the week have been only 4,469,075 bushels, against 6,335,302 last year, and Atlantic exports only 647,244 bushels, against 900,564 last year, the price is slightly lower.

Corn has been stronger, for receipts are hardly one-fourth and exports barely one-eighth of last year's, and men question whether the actual yield, if above the government estimate, may not prove lower than has been supposed.

Cottons and Woolens.

The cotton returns are more confusing, but all point to a yield so far above that indicated by the government that its statement has been followed by a further decline for the week of ¼ cent. The receipts thus far hardly encourage extremely large estimates, and yet it is to be considered that the crop was later than usual. Reports from the different cities show that while extreme low prices for cotton and wheat are checking retail purchases in the west and south, there is nevertheless a gradual gain.

The demand for cotton goods has materially slackened and prices have become irregular, although resumption of work at Fall River and New Bedford, with only 5 per cent lower wages, indicates confidence in the future.

The woolen mills still have numerous belated orders for fall goods, but the demand for spring does not increase, though in nearly all the lower-priced products domestic markets appear able to command most of the business that exists. Sales of wool have been 4,877,949 pounds, against 2,500,452 last year, and 7,090,600 in 1892.

Other Manufactures.

The iron industry records larger production in September than in any other month this year, but as prices are gradually weakening because of insufficient demand for finished products, some works are preparing to close or shorten time.

The season for boots and shoes has been unusually good in number of cases shipped, but in value the decrease must be large, because of the general preference for low-priced goods. It is stated that 80 per cent of spring orders are for shoes selling for $1 or lower, and heavy shoes have largely taken the place of boots. Most shops have orders for some time to come, and demands for immediate delivery are still numerous.

Failures for the week ending Oct. 4 show liabilities of $1,714,276, of which $805,885 are of manufacturing and $892,391 of trading concerns. The final report for September shows liabilities of only $7,807,124, of which $3,254,373 are of manufacturing and $3,710,092 of trading concerns. The failures this week have been 231 in the United States, against 399 last year, and 43 in Canada, against 42 last year.

Bradstreet's Report.

Bradstreet's has this to say:

Trade is fairly active in Canada, though a slackening in demand is noted from September activity. Groceries are in better demand at Montreal.

The export apple trade is very large at Montreal and Halifax. Profitable returns are hoped for. Mild weather in the maritime provinces checks the demand for heavy goods. Bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate $20,299,000, a decrease of 4.4 per cent from last week, but an increase of 5 per cent over last year. There were 37 failures reported from the Dominion of Canada this week, compared with 40 last week, 32 a year ago and 36 two years ago.

Two Banks Are Closed.

KEARNEY, Neb., Oct. 13.—The Buffalo County National bank closed its doors yesterday. The closing was caused by a $19,000 judgment against the Sands Clothing house, in which the bank was interested. Following on the failure of the First National bank the day before, the closing of the bank yesterday has caused great uneasiness.

Elected Officers and Adjourned.

ROCKLAND, Me., Oct. 13.—At the close of the Maine Sunday school convention the following officers were elected: President, A. W. Butler; vice presidents, C. I. Bailey, Rev. George Lewis, Rev. T. H. Stacy; secretary, Rev. B. P. Snow; associate secretary, Rev. C. F. Morse; treasurer, H. H. Nevins.

Survivors Landed at Boston.

BOSTON, Oct. 13.—Five of the crew of the wrecked schooner Laura V. Rose arrived here yesterday. The vessel was wrecked Wednesday in Vineyard Sound, and the captain and steward were drowned, after being lashed for 15 hours to the rigging.

Loss of the Sea Foam.

LEWES, Del., Oct. 13.—The crew of the schooner Sea Foam, which capsized, were taken off by the schooner Mascott off the Delaware capes. Nothing was saved from the wreck. The schooner was towed to the beach.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoarse or even after the cough has developed it will prevent the attack. 25 and 50 cent bottles.

Albert Foster and Benj. Johnson, arrived Friday morning from Aroostook County, Me., with four deers, making eight the party of four got in two weeks. Mr. Foster killed a large buck with a fine set of antlers which he will have mounted.

New Timetable.

A change of timetable will be made on the N. Y., N. H. & H. R. R., on Sunday, but all the changes of Quincy trains are minor ones.

There is but one less week day train but the one dropped will be missed as it was the most convenient theatre train, the 6.52 P. M. inward. There are several changes of a few minutes which should be heeded.

Trains to Boston now run week days on this time will hereafter be later:—6.10, 9.05, 10.02, 10.38 A. M., 4.45, 4.55 and 7.11 P. M.

And these earlier:—7.26 A. M., 8.1s, 9.13 and 10.15 P. M.

Young Men's Christian Association.

Many new faces are to be seen in the gymnasium classes, but all are getting down to business. Dr. Johnson will begin at once to take measurements. Next Monday evening at 7.45 he will speak to gymnasium members and others on the "blood, circulation, heart, arteries, veins and lungs."

The annual meeting of the Woman's Auxiliary will be held Monday afternoon, October 15th, at 3 o'clock. Following it there will be a reception to members and other ladies who are interested in the great home missionary work for young men.

Next week the evening educational classes will get down to business. Nearly all have secured instruments and material and everything is ready to go to work. A number of fine drawings and models have been secured by the Association.

Died of His Injuries.

Jose Arnaiz, the man injured at the quarry of Craig & Richards, Friday, by being run into by a dump car, running from the quarry to the grout heap, died at the City Hospital that afternoon as a result of his injuries. It was found upon examining him that every bone in his back had been broken by the force of the blow. He was 31 years of age and was unmarried, and resided off Miller street, West Quincy.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

G. H. Cunningham and L. W. Cain of Weymouth have been nominated by the Prohibitionists for Representatives from this district.

Register tonight. Don't put it off, as registration closes next week.

Congressman McEttrick is a candidate for reelection and has issued his platform.

J. L. Wilder is the candidate of the Prohibitionists of this district for senator.

The 5th Norfolk Democratic representative convention will be held in Quincy, tonight.

The Democratic County and Councillor conventions for this district will be held at Dedham, in Memorial hall, Oct. 17, at 9 and 10 o'clock, A. M.

The 10th Congressional district Democratic committee have established headquarters at 38 Pemberton square, room 17, with these officers: John T. Curley, Ward 19, chairman; W. G. A. Pattee, Quincy, secretary, and Frederick S. Gore, Ward 15, treasurer.

At the Milton Republican caucus held Friday evening, the following delegates were elected to the county convention, by a vote of 14 to 12: J. Merrill Browne, J. Walter Bradlee, H. Clifford Gallagher, John P. S. Churchill. The delegates are said to favor Thomas Blanchard of Stoughton.

The statement has been made in the Democratic newspapers that Congressman Everett of Massachusetts, the noted schoolmaster at Quincy, is mentioned in connection with some Federal office, the term of which will begin at the expiration of his present term in Congress, March 4th, next. No office was named at the time, but it is now suggested that the schoolmaster of Quincy may be appointed Civil Service Commissioner.—Journal.

Ex-Mayor Fairbanks attended the dinner of the Republican committee of the Tenth Congressional district last evening. His speech is reported by the Journal as follows:

Ex-Mayor Fairbanks of Quincy said that Quincy would give Gov. Greenhalge and all the other Republican candidates a big majority this fall, and would also help elect Harrison H. Atwood to Congress, which statement was greeted with loud applause. He said that Quincy had been a Democratic city, but that it was redeemed last fall. An effort had been made to have the names of Republicans left off the voting list, but the plan had been discovered in time to have the wrong made right.

The fourth annual dinner of the Republican Club of Massachusetts will be held at Music hall, Boston, on Wednesday evening, October 24. Distinguished speakers will address the meeting. Every effort is being made by the committees to make this dinner as successful as those heretofore held by the club. Exchange of dinner tickets for reserved seats at the dinner tables at 5.15 P. M. Dinner at 6; speaking at 7 o'clock.

The method of changing the dinner tickets is for the purpose of allowing those who desire to do so to sit together at the tables, which would be practically impossible were the reserved seats issued from time to time, as ordered. With the dinner tickets, two tickets to the balconies for friends of the members will be given free.

It is very important that those who purpose to attend the dinner should make immediate application for tickets to Henry Parkman, Henry E. Turner, Edward B. Glasgow, Committee of Arrangements.

State Convention.

The twenty-eighth annual convention of Mass. and Rhode Island will be held at Newburyport, Mass., beginning Thursday, October 18, and closing Sunday evening the 21st. Many leading Christian workers will be present and participate in the exercises, among them being L. D. Wishard of New York, Rev. J. M. Gray, of Boston, Rev. Matt. S. Huglar of Portland, Me., James Stokes of New York and Hon. Elijah Morse of Canton. The following persons from Quincy have already signified their intention of attending: C. W. Miller, Ernest Gourd, John Ball, Jr., Dr. C. T. Sherman, John C. Wyllie, Thos. Parsons, Wm. P. Bailey and General Secretary Colton. Other members are urged to attend. Reduced rates have been secured on the railroads, and free entertainment is given all who attend.

Teacher's Convention.

The Norfolk County teachers' convention in Boston Friday was very largely attended and profitable. Quincy is well represented on the new board of officers:

President, — D. G. Thompson, Hyde Park.

Vice Presidents, C. F. Merrick, Quincy, D. F. Howard, Dedham, D. S. Farnham, Brookline.

Councilors,—Miss Mary McSkimmon, Canton, Kate L. Brown, Milton, F. W. Breet, Braintree, T. F. Pollard, Quincy, Albert Kingsbury, Weymouth.

Secretary,—Miss Mary Howard, Hyde Park.

Treasurer,—Joseph Belcher, Randolph.

—Every tinplate plant with a single exception in Pittsburgh has closed, and 3,000 workmen are idle.

—In the People's Temple in Boston they burst into applause when the preacher says anything that especially pleases them. The world seems to be moving.

—Abington and Rockland citizens feel happy this year to think their tax rates are $3 lower than for several years past. The rate, however, is $18.60 this year.

POLISHED CHIPS.

The Ledger Representatives Among the Quarries and Sheds.

The number of cars of rough and finished granite shipped from South Quincy averages 100 cars per week.

Owners of stone sheds are making ready for the winter by doing what little patching is needed.

The Craig & Richards Granite Company and Thomas & Miller have a good display of cut monuments in their yards.

Fuller, Foley & Co. are cutting a life-size statue of "Peace." The statue represents Peace seated on a pedestal, her long hair hanging down while about her hangs a loose drapery. In her left hand she carries an olive branch.

John Thompson & Sons are cutting a number of medium sized monuments.

Fagan & Ballou have some pretty work in their polishing shop and things are humming.

E. C. Willison is to close his yards at South Quincy, as he says it is cheaper to buy monuments all cut than to cut them himself.

Quantities of paving blocks are being cut along Quarry street and it seems as though when a man had nothing else to do he cuts pavers.

Milne & Chalmers have in their yards a number of finished monuments in Quincy granite ready for shipment.

S. Henry Barnicoat is erecting a new and larger derrick at his sheds.

E. F. Carr & Co. have about completed work upon several battle monuments.

C. H. Hardwick & Co. are uncovering about 4000 square feet from the easterly top of their quarry.

A. M. Deane & Co. are to open a new quarry in West Quincy in the spring, having purchased fifteen acres of land for that purpose.

McDonnell & Sons have recently finished a large monument to go to Hamilton, Ontario. The base is 9 feet, 6 inches square, upon which rests a granite statue of the recording angel eight and one-half feet high.

Collins, Spargo & Co. are successors to Medlyn, Collins & Co.

Many of the quarries are now equipped with short pieces of railroad running from them to the grout heap, thus saving much manual labor. It was by one of these railways that the man was killed Friday.

The auditors on the case of the Quincy Quarry Co., against the Metropolitan Park commissioners, reviewed the property Friday.

The pneumatic tools now used in most of the stone sheds are a great invention as they do their work quickly and well.

The O. T. Rogers Granite Co. are furnishing the granite for the State normal school at Bridgewater. They are also just completing a tomb to be set in Woodlawn cemetery, N. Y.

Field & Wild recently raised a block of granite weighing 18 tons from the bottom of their quarry, a distance of 150 feet.

Milford & Fahey is the name of a new granite firm at West Quincy.

Fatal Accident.

Mr. Willard H. Hunt, a well known citizen of Weymouth, met with a fatal accident Friday forenoon. He was driving one of Thayer's teams and in turning into the driveway leading to Ashford Baker's the wheel of his team struck a tree, throwing Mr. Hunt out. He struck violently on his head and lived only long enough to say, "Carry me home." He leaves a widow and two sons.

Park Theatre.

After four years' absence, in which time he has been sadly missed by the mirth-loving, theatre-going public, M. B. Curtis will again make his bow before the Boston audience at the Park Theatre, for two weeks, beginning Monday night, October 15, with matinees on Wednesday and Saturday, in his old character of "Sam'l of Posen." While the title and theme of the story remain the same. "Sam'l" has since its last appearance here undergone a complete revision and re-writing, and has been materially strengthened in plot, dialogue, and comedy, and is now reported to be in every particular thoroughly up to date, and funnier than ever. As a character-comedian and dialectrician, Mr. Curtis has few, if any equals, and his characterization of the hustling, good-natured, cheeky drummer can be justly accredited with being one of the premiere creations of this era.

—The Food Fair at Mechanic's building, Boston, is what none of our citizens should miss seeing sometime this month; and it is as good, or perhaps better now, than it will be the latter part of October. The exhibits are complete and the display is both entertaining and instructive.

—Governor Waite of Colorado is accompanied in his stumping tour of the state by Miss Alice Catlin, the nominee for superintendent of public instruction.

—The plague raging in China is said to be identical with that which devastated London in 1664, when there were 68,596 deaths in a population of 460,000.

—The letter-sheet envelopes will soon be withdrawn from sale at the postoffices. If you want one to preserve as a souvenir you had better purchase it right away.

—There are 780 lights on the Mississippi and 458 on the Ohio.

A Parrot Has Given It Away.

That there is considerable inward feeling because the Adams library was removed to Boston.

That it would have caused a formidable remonstrance if concentrated.

That said library was a gift to the city or town.

That therefore a vote of the City Council was necessary.

That someone has taken considerable liberty.

That a High School Alumni association will flourish.

That graduates will take pleasure in gathering once a year in the grand new building.

That they take a pride in the success of the school.

That the Atlantic Methodists are grateful to local newspapers for many kind notices, which have tended to build up the church.

That that is why they ease up on our job printers.

That said papers publish free the Sunday services, and by free advertising have put many dollars into the church treasury.

That the papers never expect to get a cent of this.

That it would be reciprocity to have printing done at home.

That this is one of the cases where one realizes that his work is not appreciated.

That Dr. Everett has crawled in at the window.

That he was afraid of tramps.

That he would "turn the rascals out."

That had he done this he might still be popular in the Seventh district.

Wollaston Day.

Friday, Oct. 26th, is the Wollaston day at the World's food fair. At 10 30 A. M., Mrs. Lincoln, a Wollastonian, will give a demonstration on bread, to which reserved seats will be furnished, free of expense to any person from Quincy, promising to attend. The banquet table in the reception room, will be spread for a Butterfly tea, and the reception committee will hold themselves in readiness to explain anything of interest connected with the "Home department." Let us strive to make this day a glorious success, not only in honor of our townswoman, Mrs. Mary J. Lincoln, but also in appreciation of this great work, planned by a former resident of this village, the hostess of the "Home department," Mrs. Ellen A. Richardson. The committee consists of Mrs. C. R. Sherman, chairman; Mrs. G. A. Litchfield, Mrs. Arthur Sibley, Mrs. N. G. Nickerson, Mrs. David Jewell.

A NEW DEPARTURE.

Postoffice Appointments Made Secure Except For Bad Conduct.

WASHINGTON, Oct. 13.—Acting Postmaster General Jones has issued instructions to all postmasters at free delivery offices directing that hereafter sub-letter carriers must be nominated from the eligible list. Vacancies in the carrier force must be filled, where practicable, by the promotion of the senior substitutes. All removals and new employments of clerks and carriers must be reported to the first assistant postmaster general as soon as made.

No carrier is to be removed except for cause and upon written charges filed with the postoffice department and full opportunity for defense. No resignation asked for by a postmaster will be accepted by the department. Postmasters must submit to the department all questions relating to appointments, removals and reinstatement of letter carriers for settlement by correspondence between the department and the civil service commission.

The object in issuing these new regulations, which practically deprive postmasters of the appointing power over their subordinates, is officially defined to be the avoiding of unjust removals of clerks and carriers in the classified service, and to avoid embarrassment and annoyance to the department and postmasters with reference thereto. Also to obviate the delay, annoyance and misunderstanding that have been caused in the past by postmasters conducting with the civil service commission correspondence which should originate alone with the head of the postoffice department.

It is denied that there is any political significance in the regulation.

Going On For Years.

PROVIDENCE, Oct. 13.—An investigation of the Providence postoffice has just been completed by Chief Inspector Boynton and his assistant, Inspector Parham, which shows that for years the office has been loosely run, and on account of the irregularities discovered there is talk of indicting two officials who have just been dismissed from the service. The facts have been submitted to United States District Attorney Gorman of the Rhode Island district and have also been sent to the department, together with a request for instructions.

Cloakmakers' Strike Situation Unchanged.

NEW YORK, Oct. 13.—The situation in the cloakmakers' strike remains unchanged. The Cloakmakers' union yesterday sent a copy of the agreement to the manufacturers which they desire them to sign. Five manufacturers signed before 5 o'clock. The agreement states that nine hours shall be a day's work, work to cease at 4 p. m. on Saturdays and during summer months at noon. Piecework shall be abolished and weekly wages paid instead. A regular rate of wages is stipulated.

Took Over 1100 Ballots.

SARATOGA, Oct. 13.—Early this morning the Twenty-second district Republican convention, by a tie vote, refused to excuse the St. Lawrence county delegation. The members from St. Lawrence then withdrew and General W. B. French was nominated for congress. The convention has been deadlocked for weeks, and 1135 ballots were taken by the delegates.

Endorsed Seventy's Ticket.

NEW YORK, Oct. 13.—The Good Government clubs held a convention last night and nominated Colonel William L. Strong for mayor, John W. Goff for recorder, Henry R. Beekmen for judge of the superior court, John Jeroloman for president of the board of aldermen and the other nominees of the ticket put forth by the committee of 70.

Nothing to Lose.

BROOKLYN, Oct. 13.—Deputy Police Commissioner Harmon, Republican candidate for register, handed in his resignation yesterday. The mayor is opposed to all office holders running for office. It is understood, however, that the office will be left open, so that in case of defeat Mr. Harmon may be reinstated.

A Public Necessity.

HARTFORD, Oct. 13.—In the superior court Judge Robinson approved the layout of the new electric road from East Hartford to South Windsor, on the ground of public necessity. The New York and New England railroad objected to the layout on account of the proposed road paralleling its tracks.

Composer Verdi Honored.

PARIS, Oct. 13. — President Casimir-Perier and several of the ministers of state were present last night at the opera house at the first performance of Verdi's "Otello" in French. M. Casimir-Perier presented Sig. Verdi, in the presidential box, the grand cordon of the Legion of Honor.

Identity In Doubt.

NEW BEDFORD, Mass., Oct. 13.—There is some doubt as to whether the vessel wrecked off Barney's Joy Point, Dartmouth, is the whaling schooner Hattie E. Smith. Samuel Osborn, Jr., of Edgartown, owner of the schooner, is quite sure that it is not his vessel which is wrecked.

Reckless Driving.

GREENFIELD, Mass., Oct. 13.—Henry Briggs, driver of a hotel coach, of Shelburne Falls, was before Trial Justice Martin charged with reckless driving that caused the death of Fred C. Allen, a 9-year-old boy, Sept. 26. Briggs was held for the grand jury.

An Unprofitable Suit.

BALTIMORE, Oct. 13.—At a socialist meeting a year ago, M. S. Goldstein called Abraham Goldstein a thief. The latter sued for $5000, and the jury yesterday gave him 1 cent and compelled him to pay costs of $100.

City Must Settle.

NASHUA, N. H., Oct. 13.—In the superior court the jury returned a verdict of $4000 for plaintiff in the suit of George Peno, a fireman, for damages against the city for injuries caused by falling on the sidewalk.

The Colcord Goes to Pieces.

NEW LONDON, Conn., Oct. 13.—The schooner Clara E. Colcord, coal laden, before reported ashore on Cornfield Ridge, is a total wreck. She was owned by Captain Colcord of Stockton Springs, Me.

Became a Victim Herself.

JERSEY CITY, Oct. 13.—Elizabeth Jones, a nurse, who left the Bayonne hospital to care for smallpox patients sent to the Hudson county pesthouse, died in the pesthouse of smallpox.

Five Per Cent Restored.

BRAYTONVILLE, Mass., Oct. 13. — The strike at the Braytonville mills, which has lasted three weeks, was settled yesterday by restoring 5 per cent of the cutdown.

BRAINTREE.

The ladies of the Universalist society have their annual Harvest supper next Wednesday.

The home of Mr. and Mrs. Fred Carmichael was made happy by a little baby daughter the other day.

The electric cars are a little aggravating when people who never walk are carried a few miles from home and then the power gives out.

The Universalist Sunday School will hold its annual Harvest concert next Sunday evening at 7 o'clock. Services as usual in the afternoon. All are cordially invited.

An article in last weeks' OBSERVER spoke of the electrics passing through Middle street. Such a route would not only help the sale of house lots but be of much service at once. Certainly there is more demand for depot carriages on this street than from East Braintree. The carriage drivers all verify that statement.

There is some talk of an alumni eleven of Thayer graduates.

The home of Mr. and Mrs. Arthur Gray was made happy by the advent of a little daughter.

Wednesday evening Frank E. Nelson and Miss Ella W. Whitney, daughter of Mr. John B. Whitney of South Braintree, were united, in the holy bonds of matrimony. The ceremony was performed by Rev. G. C. Lorimer, D. D., of Boston, pastor of the Baptist church, Tremont street.

Rev. Wm. Hyde will preach at Trinity chapel, Sunday, at 3.30 P. M. Holy Communion at close of service. Sunday School at 3 P. M.

There has been two new mails added to South Braintree post office; one arriving from Boston at 7 o'clock P. M., and one leaving here at 7.15 P. M.

We understand that Mr. T. A. Watson has subscribed fifty dollars toward paying the expense of putting in electric lights into the schoolhouse.

The young people connected with the M. E. church, will hold an entertainment in Union hall on Thursday evening. Talent from Quincy and Weymouth will assist.

Thursday afternoon, there came near being a serious fire at the home of Horace Jones. Mrs. Jones going off and leaving a pan of greese on the stove, the greese boiled over and set fire to the woodwork of the kitchen. A peddler happened along and seeing the blaze told a neighbor, and she went over and put it out.

Mr. Faxon to Have Custody.

Judge Barker in supreme court Friday, gave a decision for plaintiff in the habeas corpus case of Faxon vs. Carr. This was the case in which John L. Faxon seeks to obtain the custody of his daughter, Mary M. Faxon, who for several years has been living with her grandmother, Sarah J. F. Carr, of Quincy. The court gives the child to the father.

Mary is to attend a private school in Boston. The schoolmistress is to inform and communicate with Mrs. Carr and Mary's other relatives about the child, and the case is so left that an application may be made hereafter for a modification of this decree upon sufficient ground being shown.

Thayer Academy.

The regular classes in the new gymnasium will not be formed for a couple of weeks yet.

A new student entered this week, Mr. Godman, from Brockton.

George Arnold has taken the foot ball team in charge and under his coaching the eleven will probably put up a pretty stiff game.

It is understood that challenges have been received from one or two out of town teams.

Joe Breitling is in the Bowdoin Medical school.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

EMPEROR CHARLES II.

Accompanied by half the nobility of Austria, went to the Carlsbad Springs for the recovery of his health. Six thousand six hundred horses, so the town records say, were necessary to convey the company to the place.

The virtues of the water is as great at the present day as it was in the time of Charles II., and although the expense attached to a journey thither is not as great now as it was then, we are not all wealthy enough to undertake it. For such the virtue of the Carlsbad Spring is extracted. The Carlsbad Sprudel Salt, obtained by evaporation, containing all the solid constituents of the water, can be obtained at every drug store.

It is the very best remedy for catarrh of the stomach, constipation, liver and kidney troubles, gout, rheumatism, etc. Be sure to obtain the genuine imported article, which must have the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every package.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

BIG BATCH OF SUITS

Will Result From the Abrogation of the Brazilian Treaty.

CONGRESS EXCEEDED ITS RIGHTS

According to the Opinion of Interested Exporters.

WASHINGTON, Oct. 13.—The abrogation of the reciprocity treaty between the United States and Brazil is to have a sequel in the filing of claims and beginning of suits against this government for the total amount of duties collected on Brazilian goods covered by the reciprocity treaty from Aug. 27 last, the date the new tariff law went into effect, up to Jan. 1 next. In the aggregate these duties will reach $700,000, and may reach into the millions. The total cannot be estimated, even approximately, as yet.

The claims will not be made by Brazil as a government, but by individual importers of Brazilian goods. The first step toward making the claims will be by filing protests with the treasury department against the exaction of duties.

The claims will involve a test right of congress to pass a law which violates what it will be asserted is a

Contract Provision of a Treaty.

In the exchange of official notes leading up to the treaty, Minister Mendonca of Brazil wrote to Secretary Blaine that the treaty would be proclaimed "with the understanding that the commercial arrangement thus put in operation shall remain in force so long as neither government shall definitely, at least, three months in advance, inform the other of its intention and decision to consider it at an end at the expiration of the time indicated; provided, however, that the termination of the commercial arrangements shall begin to take effect either on Jan. 1 or July 1."

Notwithstanding this provision, the new tariff law abrogates all reciprocity treaties, except that with Hawaii,

Without Notice.

Efforts were made to have a provision inserted which would allow the three months' notice to Brazil in accordance with the treaty. Chairman Wilson, it is said, would have secured the insertion of this provision had not the tariff bill become so involved in conference that no changes could be made.

As the three months' notice provided by the original arrangement was ignored, it is contended that the Brazilian importers have a right to enjoy the rates given by the treaty up to Jan. 1 next, and that the duties collected in the meantime are illegal. For that reason protests will be made on the payment of duties and claims subsequently presented to the courts.

No Reciprocity With British Guiana.

WASHINGTON, Oct. 13.—The treasury department is officially advised that British Guiana has passed a new tariff law, by which the reciprocity treaty between that country and the United States is abrogated.

Will Test Liability of Stockholders.

BOSTON, Oct. 13.—Henry K. Hayden, receiver of the Capital National bank of Lincoln, Neb., has brought suit against George W. Chapman, Benjamin Lombard and others of this city to recover dividends paid upon their stock. The trial is expected to establish a precedent regarding the liability of holders of bank stocks. The grounds of the suit are that the bank was actually insolvent during the 10 years that dividends were declared.

Jekyll and Hyde?

CHICAGO, Oct. 13.—Vice President Howard of the American Railway union, Debs' prime minister in the great railway strike, has shocked labor circles. Howard was the victim of a pickpocket yesterday, and reported to the police that a score of annual and trip passes and other railway transportation over many prominent roads had been stolen.

A Handsome Return.

NEW YORK, Oct. 13.—John M. Ward and Edward Hanlon, the respective managers of the New York and Baltimore baseball clubs, have completed their task of arranging the expenses and receipts of the Temple cup. Four games were played. Each of the 16 New York players will receive as his share of the profits just $768.68.

Steamship Overdue.

BALTIMORE, Oct. 13. — The steamer Braunschweig, which sailed from Bremen on Sept. 27, should have arrived at her pier on Tuesday. The local agents have heard nothing of the steamer since she sailed from the other side. On board the Braunschweig are 142 steerage passengers.

Will Try It Again.

NEW YORK, Oct. 13.—The supreme court has reversed the judgment for $25,000 obtained by William Laidlaw against Russell Sage for damages sustained by him from the dynamite explosion perpetrated by Henry A. Norcross in Sage's office two yeas ago, and ordered a new trial.

Another Link.

PROVIDENCE, Oct. 13.—Miss Carrie Oatley is the latest witness against Keegan. She can testify to seeing him drive along the old bank road holding what looked like a fainting woman on the night of the murder. She saw him at the jail yesterday and instantly recognized him.

Voted to Accept Reduction.

FITCHBURG, Mass., Oct. 13.—At a meeting of the Parkhill mill strikers it was voted to return to work at reduced scale of wages. The executive committee advised this course on account of breaks made in the ranks by dissatisfied strikers.

Played With Matches.

BOSTON, Oct. 13.—Jeremiah McGonigle, 6 years old, while playing with matches last night at his home on Corey street, set himself and the house afire. The house was saved, but Jeremiah was terribly burned. His chances of recovery are slight.

Mrs. Cleveland Explains.

BOSTON, Oct. 13.—Mrs. Corinne Cleveland of Newton says the cause of Mrs. Lewis' action is jealousy, the elder lady being displeased with her son's plans matrimonially. The couple were held for trial in a nominal sum.

Fast Five-Year-Old.

WASHINGTON, O., Oct. 13.—The Warren track holds the world's record over a half mile track. Willis Laird drove the 5-year old bay Magnolia an exhibition mile in 2:11¼.

STRIKE IS ENDED.

Fall River Spinners Accept the Cut of Five Per Cent.

FALL RIVER, Mass., Oct. 13.—The spinners, the principal factors in the great eight weeks' strike, have voted unanimously to return to work on Monday. At their meeting yesterday there was hardly a dissenting voice heard against the proposition of the manufacturers.

The general favor with which the proposition was accepted is due to a certain extent to the report of the executive committee, which voted to report in favor of accepting the proposition.

When Secretary Howard had read the report of the executive committee he pointed out to the spinners the many reasons why the manufacturers' offer should be accepted. He first dwelt upon the great destitution and suffering that were visible throughout the city, and though the terms were not all the spinners were entitled to, still he thought the condition of the operatives at the present time warranted them in considering the offer with favor.

While the spinners are feeling somewhat jubilant over their partial victory, the weavers and carders are correspondingly "blue." There are some among them who are going about among the members inciting a very bitter feeling against the manufacturers, and from all accounts there will be considerable opposition made to the accepting of the proposition.

The King Philip mill strikers, who were out many months before the "vacation" opened up, will meet this evening. The determination seems to be to hold out, regardless of what action the general body may take. Secretary Whitehead said that if these weavers choose such a course they would be backed up by the association, as they have been called upon to accept two reductions.

LOSES HIS SEAT.

Another Whitewayite Found Guilty of Malfeasance In Office.

ST. JOHN'S, N. F., Oct. 13.—James W. Keating, member of the legislature of St. George's, was unseated and disqualified yesterday, judgment being delivered by Justice Little, who tried the case.

Keating is one of the 17 Whitewayites who were petitioned against in January last by the present government, which was then a minority. The disqualification of a number of these gave the O'Brien government the reins of office. Keating, who makes the 16th man convicted, was found guilty on all the counts in the indictment against him, charging him with bribery and promises, gifts and treating and the illegal distribution of public money. He was also ordered to pay all the costs in the cast. As he won his seat by only a slender majority, it is likely that it will now revert to the government. The election campaign is being waged with great bitterness.

Horseshoers Elect Officers.

BOSTON, Oct. 13.—The following officers were elected by the National Horseshoers' association: President, J. C. Buckley; vice president, P. J. Canty; organizer and statistician, Daniel Reardon; secretary and treasurer, W. J. Moore. Detroit was selected as the place for the next convention.

Lumber Schooner Abandoned.

NORFOLK, Oct. 13. — Schooner Robert S. Graham, from Brunswick, Ga., with lumber, for New Bedford, Mass., was abandoned in a sinking condition Wednesday evening off Chincoteague. Her crew were brought to Hampton Roads.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

ALLENS COMPOUND EXTRACT SARSAPARILLA THE HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of **Augusta, Maine,** after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—

I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Canker of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

PROF. W. H. MORSE, M. D., F. B. S. Sc. of Westfield, N. J., author of "New Therapeutical Agents", the standard text book of the newer materia medica, Consulting Chemist and Therapeutist, one of the most widely known men among the medical profession gives it his highest endorsement, as testified by the following voluntary statement:

"**Allen's Sarsaparilla** commends itself to me therapeutically, chemically and clinically. Its therapeutical power, physiological activity, and chemical purity, are all noteworthy; and the reason is to be found in the fact that it is true to its name, or **honest,** as the word goes. That is, it is vegetable alterative, and tonic. Perhaps the highest praise that may be given it is that its action represents that of mercury, less the faults of that drug; for, has not Pereira said, "A perfect mercury would be a perfect alterative."

W. H. MORSE, M. D., F. B. S. Sc.,
Westfield, N. J.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for $1.00. Trial bottles 50 cts.

ENGINE STRUCK THEM

Woman and Two Children Killed on a Grade Crossing.

HAD NO THOUGHT OF DANGER.

Bodies Carried a Long Distance on the Pilot.

BUFFALO, Oct. 15.—Dorothy, aged 11, and Emily, aged 5, daughters of John N. Scatcherd, and Miss Emily B. S. Woods, aged 30, sister-in-law of Mr. Scatcherd, were struck and killed by a freight engine on the New York Central belt line at the Parkside crossing yesterday afternoon.

Early in the afternoon Miss Woods, who lived with Mr. Scatcherd's family, had one of Mr. Scatcherd's spirited horses hitched up and took the two little girls out to call on a friend, Mrs. Ball. The party reached their destination in safety and spent an hour with the Ball family. When they started to return, the wind had grown very cold and curtains were placed on the buggy.

They drove down Depew avenue to Parkside avenue, and then made a short turn to cross the belt line. The wind was blowing a gale from the northwest, and a heavy freight train was coming from the east. The train was drawn by a big mogul engine. It is probable that Miss Woods did not hear the train, and it is certain that she could not see it, because of the side on the buggy.

Just as the buggy was on the track the great engine struck it. The horse was instantly killed and tossed to one side. The box of the buggy stood the shock and remained on the pilot. Before the engineer could stop the engine the train had reached Colvin street, which is about a quarter of a mile from Parkside. The buggy box remained on the pilot during all the distance. When the train was finally stopped the woman and the two little girls were found in the bottom of the box in

A Sickening, Bloody Pile.

The engineer summoned help and the buggy box was lifted from the pilot. Dorothy, the 11-year-old girl, was dead. She was on the side nearest the engine and received the full force of the blow. Miss Woods and little Emily were unconscious. Doctors were summoned from all directions. It was found that all three had been hit on the left side of the head and that all three had their skulls fractured.

Little Emily died in about two hours after removal to the Glenny house. Miss Woods was taken to the general hospital. She died shortly afterward.

The crossing is a dangerous one. There is no flagman there. This portion of the city is newly built up, and there are not many houses in the vicinity. The engineer claims that he blew his whistle and rang his bell and reversed his engine, but was unable to stop until he reached Colvin street. This story is corroborated by a boy who saw the accident.

Mr. Scatcherd, who was at the Country club, not far from the scene of the accident at the time it occurred, is prostrated. Mrs. Scatcherd is visiting in Simcoe, Ont., and has not been notified of her bereavement. There are two other children, a boy and a girl.

May Be the Laura V. Rose.

EDGARTOWN, Mass., Oct. 15.—Fishing smack Emma, from Nantucket shoals, reports a sunken schooner about 11 miles east by south from Sankaty Head, Nantucket. About 14 miles off shore in the same direction was found the top of the vessel's house. Near the top of the house was picked up a small sea chest, containing underwear marked "Leeds" and "J. H. L." It is thought to have belonged to Captain Leeds of schooner Laura V. Rose.

The Latest Concerning the Czar.

BERLIN, Oct. 15. — According to The Lokal Anzeiger, a Vienna physician, who is fully informed by St. Petersburg doctors, states that the diagonis of the czar's complaint wavers between cancer in the renal region and inflammation of the kidneys. All the doctors, however, agree that the end will be neither speedy nor sudden, but that death will come after a gradual decline.

Mormon Missionaries Roughly Handled.

CENTERTOWN, N. Y., Oct. 15.—Elders Freeman and Mercer, Mormon missionaries, who have converted 50 people in this vicinity, mostly women, to their faith, were visited by a party of indignant citizens and given a coat of tar and feathers. The two were then ordered to leave at once, which they promised to do.

Honors Even.

CHRISTIANIA, Oct. 15.—A final count shows that the Radicals polled 8332 to the Conservatives 8969. Each party will send four members to the storthing. The returns from the country are incomplete, but the figures received show that neither party will obtain a decisive majority in the new storthing.

Honors For Church Dignitaries.

ROME, Oct. 15.—At the next papal consistory, which will be held before Christmas, several cardinals will be appointed. Among those who will receive the red hat are Mgr. Jacobini, archbishop of Tyr and papal nuncio to Portugal; Mgr. Critoni, nuncio to Spain, and Mgr. Fausti, the papal auditor.

Kaffirs Growing Bolder.

LOURENZO MARQUEZ, Oct. 15.—The rebellious Kaffirs attacked this town yesterday, but were repulsed. The government of the Transvaal have offered to assist the Portuguese against the Kaffirs. The proposed co-operation is regarded with suspicion as an infringement of British suzerainty.

CHAMPION FEMALE SCULLER.

Miss Mosentheim Defeated Miss Ashley on the Mississippi.

ST. LOUIS, Oct. 15.—Before a throng which packed the levees on the other side of the river, and the great Eads bridge, Miss Rose Mosentheim, yesterday afternoon, finished easily first in the mile and a half sculling match for the female championship of America, defeating Miss Tillie Ashley of Hartford, who, seeing the race lost, stopped rowing before the contest was half over. The time was 12m. 20¾s.

ROSE MOSENTHEIM. TILLIE ASHLEY.

The air was crisp and cool, with a rather raw breeze blowing, which, however, had little effect upon the water. The course, which was down stream, lay between the great bridges. It was kept clear by patrol boats. Little time was lost in preliminaries, and at 4:35 the girls got away to a good start, each pulling an easy stroke for the first sixteenth of a mile.

The pulling was then strengthened a bit, and for the first quarter mile there was little to be seen between the bows of the two shells. At this point the St. Louis girl quickened her stroke, pulled into the lead and was never thereafter in danger. Just below the first half-mile the Hartford girl gave the race up and stopped, amid the yelling of men, firing of guns and screeching of locomotives from the tracks along the river front. Immediately after the close of the race the contestants were picked up by their tugs and taken to the clubhouse.

Drink and Death.

MIDDLETOWN, Conn., Oct. 15. — John Swanson, aged 27, was burned to death at West Cromwell, about 11 p. m. Saturday. Swanson and about a dozen other Swedes boarded with Mrs. Beanbran. Saturday night the men went to the boarding house considerably intoxicated. About 10:30 o'clock Swanson took a lamp and went to his room and 15 minutes later the rest retired. Two men who roomed next to Swanson kicked over a kerosene lamp in their fooling. The flames spread rapidly and all the household was aroused but Swanson. No one had time to dress, as the house burned like tinder. A ladder was raised to Swanson's window, but the room was ablaze. Swanson was seen lying on the bed, apparently asleep, and was probably already dead from suffocation. The rescuers abandoned the attempt to save him.

Led a Double Life.

BOSTON, Oct. 15.—The Herald is authority for the statement that William Barrett, the alleged burglar held for the murder of Constable Farrar of Lincoln, is now known to be William Bassett, who for 15 years led a double life in Boston and New York under the very eyes of the police. He claimed to be a horse jockey. He looked, acted and talked like a gentleman. His wife is a refined little woman, who, up to a few weeks ago, had no suspicion of the real character of her husband; and their boy, a bright lad of 11, is even now unaware of the revelations against his father. They supposed he was in the horse business in Boston. His little family in New York were maintained in grand style, the rent of the flat alone being $100 a month, while the man himself lived royally in this city.

Child Was Spared.

BROCKTON, Mass., Oct. 15.—The house of E. O. Wilbur was struck by lightning during a heavy thunder storm. The chimney was badly smashed, brick from it being thrown all about the yard. The plastering was knocked from the walls of an upper chamber, in which a 2-year-old girl was asleep in a crib. The lightning came through the wall, just above the child, making a large hole, but the occupant of the crib was not harmed.

Tempest In New Bedford.

NEW BEDFORD, Mass., Oct. 15.—This city was visited by a tempest. During the storm a lightning bolt struck William P. Wilson's house on County street. One-half of a big chimney was knocked off and the bolt entered one room, where it did some damage. A barn on the George A. Potter farm on the Hathaway road was also struck by lightning. The building, stock of hay, farming utensils, four cows and two horses were burned.

Skeletons Were Those of Smallpox Victims.

HINGHAM, Mass., Oct. 15.—The mystery in regard to finding the seven skeletons in the vicinity of the South Shore quarries has been solved. George Lincoln, the town's historian, claims that more than 100 years ago there was a smallpox scourge in the section where the skeletons were found. The pesthouse was then about half a mile from where the skeletons were found.

May Cost a Life.

MALDEN, Mass., Oct. 15. — Three carriages were in collision at the corner of Francis and Washington streets about 6 o'clock last evening. William Reed and his wife were thrown to the ground. Mr. Reed was badly injured. It is thought that Mrs. Reed's skull is fractured, and she may not recover. The men in the other carriage escaped with slight injuries.

Hanged by a Mob.

BEATTYSVILLE, Ky., Oct. 15. — Oscar Morton was taken from jail here and hanged by a mob of 100 men. He had been placed in jail for shooting and killing William Simms, sheriff of this county, who had attempted to arrest him for creating a disturbance at the county fair. Morton was under bond for killing James Wilson three months ago

A "HOLMES SUNDAY" AT BOSTON.

Pæons of Praise From New York Pulpits.

BOSTON, Oct. 15.—It was Holmes memorial Sunday yesterday in religious circles, and his poems were discussed and his songs sung in many churches. At the Bowdoin square tabernacle Rev. Walter Calley's special theme was the life and work of Dr. Holmes. The preacher said that the man who died one week ago was one of the most remarkable men of the century, and that his life work benefited the whole world. America not alone mourned him, but his death made a gap in the ranks of the foremost men of his time. Rev. M. J. Savage of the Church of the Unity preached on the "Religion of Dr. Holmes' Poems." Dr. Donald, rector of Trinity, paid an eloquent tribute to Dr. Holmes. Dr. Gordon of the new Old South church, Rev. L. B. McDonald of the New South church, also spoke on his life and work. Several of Dr. Holmes' hymns were sung by the choirs of the Bowdoin square tabernacle and Tremont temple.

AN OCTOBER SUNSET.

Dr. Macarthur's Glowing Eulogium of the Autocrat of the Breakfast Table.

NEW YORK, Oct. 15.—A sermon on the life and character of Oliver Wendell Holmes was preached last night by the Rev. Dr. Macarthur at the Calvary Baptist church. He said in part: "Never was there a more beautiful death than that of Oliver Wendell Holmes. He passed from earth to heaven as beautifully as the sunset on an October day. Never was there a writer in America or Great Britain more honored or beloved.

"Sidney Smith sneeringly asked: 'Who reads an American book?' While he was asking this question half a dozen Americans were preparing to write books which all the world should know.

"Among those men were Hawthorne, Longfellow, Emerson, Lowell and Whittier. Holmes was the center of this brilliant galaxy. There was no writer in the group who reached so lofty a position as Tennyson and Browning, but the average attained by American writers during the period is higher than that reached by British writers of the same time.

"One's heart grows sad as he thinks that the last of this group has gone. There was never before such an American school and in the nature of the case there can never be such another American school. Not until we have some great political upheaval or nature's cataclysm shall we again produce such a school of poets."

Dr. Colyer's Tribute.

NEW YORK, Oct. 15.—"The late autocrat of the breakfast table" was the subject of yesterday's address of Rev. D. Colyer, pastor of the Church of the Messiah. "I feel some touch of anger," said he, "because of the newspaper references to Dr. Holmes, in which he was described as a man of limitations. Such remarks, touching so grand a man, are mistakes. Of all men I have known I think he is the last of whom we could say: 'He wasn't this and he wasn't that.' He was just Oliver Wendell Holmes, the good physician and the grand poet. He was himself, and a bit of the truest manhood we have known in this generation."

Started Out as a Printer.

SANDUSKY, O., Oct. 15.—Oran Follette died yesterday afternoon in his 95th year. When a boy he learned the printers' trade and edited a paper at Batavia, N. Y. He was for some years a member of the New York legislature and an associate of Thurlow Weed. After removing to Ohio he was the editor of The Ohio State Journal, a member of the board of public works and president of the Sandusky, Dayton and Cincinnati railroad. He retired to private life in 1868, but continued to write for the press.

Robbed Mail and Jumped Bonds.

FRANKFORT, Ky., Oct. 15.—Edmund Crittenden was brought here yesterday from Canada and lodged in jail to await trial on charges of having taken money from mails while engaged as letter carrier in Frankfort postoffice. Young Crittenden was arrested last spring and defaulted his bond. It is said Senator Lindsay will make an appeal to President Cleveland to pardon Crittenden, owing to his youth.

Tackled by Three Men.

LACONIA, N. H., Oct. 15.—Patrolman Feltch, in quelling a disturbance at Lakeport, was assaulted by two men, who attempted to rescue an arrested party. During the struggle the three rolled down an embankment and the officer was badly injured by beer bottles. Cries for help frightened away the assailants, who were afterward arrested.

All Fixed Up.

BUZZARD'S BAY, Mass., Oct. 15.—Mr. Cleveland and family spent Sunday at Gray Gables. The president has completed the improvement of his lands, having had much plowing and grading done. He has cleaned out an old lily pond, which is to be planted with willows.

Figures Cut Down.

WASHINGTON, Oct. 15.—The officials of the bureau of printing and engraving express the opinion that the losses of postage stamps by the thefts of Smith and his confederates will not exceed $1200 or $1500. It is believed that all of those who were implicated will soon be apprehended.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoarse or even after the cough has developed it will prevent the attack. 25 and 50 cent bottles.

People Who Weigh and Compare

Know and get the best. Cottolene, the new vegetable shortening, has won a wide and wonderful popularity. At its introduction it was submitted to expert chemists, prominent physicians and famous cooks. All of these pronounced

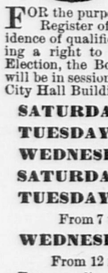

Cottolene

a natural, healthful and acceptable food-product, better than lard for every cooking purpose.

The success of Cottolene is now a matter of history. Will you share in the better food and better health for which it stands, by using it in your home?

Editorial Comment.

THERE IS considerable sense in the utterance of our townsman, Hon. William B. Rice, who was a guest of the Clover club of Boston at its dinner at the Tremont house, Boston, Saturday evening. It is all the more pleasing to anti-annexationists because Mr. Rice is chairman of the "Greater Boston" commission, and has given his opinion, it is not wholly size that Boston needs to be great. He is reported by the Herald as follows:

Chairman Rice spoke of the "Greater Boston" scheme, which he described as a tremendous question, involving unlimited labor and thought. The commission had entered upon its consideration in daily sessions, engaging the cooperation of prominent and able heads in the district included in the metropolitan limits, but in his own opinion Greater Boston could best be achieved, not by legislation, or the work of a commission, but by the citizens of the district developing the commercial possibilities of the city and its harbor to their fullest extent. If half the capital that has been sunk by Boston's wealthy men in western railroads had been devoted to developing Boston's wharves and the possibilities of the city's waterways to the great trade centres of the world, greater Boston would have been a reality long ago. He doubted whether the commission could complete its work and make its report to the Legislature in the time fixed for it.

Let anti-annexationists take up the watchword "No legislation necessary." Boston has kept its tax rate low by postponing the payment of its debt, and would seek relief by increasing the amount of taxable property and taxpayers by annexation. We may think the valuation of our estates in Quincy is high, but while they would decrease in value by annexation, Boston assessors would place the value much higher.

A SMALL AVERAGE.

Buildings Erected in 1893-94 Worth Only $1800 Each

BY ASSESSORS AGGREGATES.

Increased Value in Buildings $269,090; of Land $213,410.

The Assessors table of aggregates for 1894, is presented below in comparison with 1893, and affords an interesting study.

One notices first that there is a gain of but 39 resident taxpayers, against a gain of 87 in non-residents.

The number of persons assessed is 9,019, a gain of 832, but almost wholly in "polls only," as these increased 706.

The number of poll taxpayers is 5,920, and as 4,448 pay a "poll only," but 1,472 poll taxpayers have taxable property. Some of these have only a bicycle.

As every voter must be a poll taxpayer, there would be 1,472 voters out of 3,700 who own property, were it not that several of these poll taxpayers are not voters. Not over 1,300 voters, a little over one-third, are property taxpayers, and interested therefore in the tax rate.

The value of assessed personal property shows a big loss,—over $300,000,—while the value of real estate has increased $482,500.

The gain in number of houses was 150, and one would expect that the average value of these would be over $2,000, but here the figures show that the increase in value of buildings excluding land for the year, was but $269,090, or less than $1,800 each for the new buildings.

The value of the land exclusive of buildings was jumped up very nearly as much, —$213,410,—although the number of taxable acres was decreased 2,320 by the taking for the Blue Hills reservation, playgrounds, new High school lot, etc.

It has already been noted that there was a gain of nearly $200,000 in the valuation of the city in the year, and comparisons of the levy and tax rates have been given.

A comparison of houses, horses and cows for several years is given below. It shows that the number of houses will double in fifteen years. The gain for the year was 150, which was less than in any of the preceding three years, and just the same as in 1889-90. The total gain for five years was 870, about half the total of 1880.

The number of horses which have been on the gain since 1890 took a big drop, while the number of cows continue to decrease.

REPUBLICAN DELEGATES.

Chosen to County Convention to Nominate Commissioner.

Republican caucuses were held throughout the city Saturday evening, for the choice of delegates to a special county convention.

Ward One.

As usual the Republican caucus in this ward was quite largely attended, and while the polls remained open many of those who were busy in the stores came in and voted and then went out again.

Henry H. Faxon was on hand as usual and had something to say. He favored the nomination of Mr. Field, not because he had anything against Mr. Ewell, but he said as we were to have a Republican Mayor next year, Mr. Ewell was wanted for Commissioner of Public Works.

The caucus was evidently in favor of Mr. Ewell.

A list of names for delegates were nominated and the voters then marked for four, the result being as follows: Warren W. Adams, Russell A. Sears, John O. Hall and George O. Langley.

Ward Two.

The attendance at the Republican caucus at Quincy Point, Saturday night, was not very large probably on account of the severe storm.

Charles H. Johnson called the meeting to order and read the call and was elected chairman, with Horace O. Souther as secretary.

Benjamin J. Weeks, Charles H. Johnson and Horace O. Souther were nominated as delegates to the county convention and were elected.

The delegates were unpledged but probably favor W. Walter Ewell.

Ward Three.

The Republicans of South Quincy held their caucus Saturday night. Charles H. Grindell was chairman and Warren H. Rideout was secretary. These delegates were elected: Charles H. Glines, George O. Shirley and James W. Pierce.

Ward Four.

Charles L. Hammond was chairman of the West Quincy Republican caucus and Nathan Ames secretary. The delegates elected were: Nathan Ames, Tobias H. Burke and Edward J. Sandberg.

Ward Five.

The Wollaston caucus was held in the Brasee building. Mr. Harry E. Gifford, the secretary of the ward committee, called the caucus to order, Mr. W. S. Pinkham, the chairman, being out of town. Hon. Henry O. Fairbanks was unanimously elected chairman and Mr. Gifford secretary. On motion a committee of three consisting of Mr. E. S. Litchfield, Mr. Charles M. Bryant and Mr. A. G. Olney was appointed by the chairman to retire and bring in a list of three delegates to the county convention. The committee reported as follows: Hon. Henry O. Fairbanks, Mr. Charles M. Bryant and Mr. Walter S. Pinkham. The report of the committee was adopted and the delegates were unanimously elected. They are all Ewell men.

Ward Six.

Roger H. Wilde presided at the Republican caucus at Atlantic Saturday evening and Harry W. Reed was secretary. These delegates were elected: Daniel McGrath, Roger H. Wilde, and Stephen O. Moxon.

FEDERHEN AND ORCUTT

The Quincy Candidates of the Democrats for Representatives.

The Democratic Representative convention for the fifth Norfolk district was held at the Democratic headquarters in the Adams building, Saturday night, 31 delegates being present.

William F. Powers was elected chairman of the convention and Walter B. Wilson secretary.

Herbert M. Federhen, Jr., was nominated by acclamation as one of the candidates.

William B. Orcutt and John A. Duggan were then placed in nomination as the second candidate.

A ballot was taken which resulted in William B. Orcutt receiving the nomination.

The Weymouth delegation then came in and the nominations of Quincy and Weymouth were ratified, viz: Herbert M. Federhen, Jr. and William B. Orcutt of Quincy and Minot Tirrell of Weymouth.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

The result of the registration Saturday evening was 23 new names added and 4 restored as follows:

	Restored.	New Names.	Total.
Ward One,	2	5	7
Ward Two,	1	1	2
Ward Three,	0	2	2
Ward Four,	0	5	5
Ward Five,	1	7	8
Ward Six,	0	3	3
	4	23	27

The names will be given in tomorrow's LEDGER.

SHOT AT OFFICER.

Knight of Randolph the Would-be Victim.

WAS RIDING IN ELECTRIC CAR.

The Lives of Many Passengers Endangered but No One Hurt.

A shooting affair which endangered the lives of many people, and which is thought to have been a deliberate attempt on the life of Officer Knight of Randolph, took place on North Main street, in Randolph, Sunday afternoon.

About 5.30 car number 70 of the Brockton and Holbrook street railway was on North Main street, when a man in a covered carriage drove up alongside.

When he reached the side of the car he drew a revolver from his pocket and fired point blank at the car. The bullet crushed through one of the windows and buried itself beneath the seats on the opposite side of the car. The man then whipped up his horse and started on the run up Main street.

Officer Knight, who was on the front platform of the car, ordered the motorman to give chase, but the miscreant managed to escape.

There were quite a number of people aboard the car at the time of the shooting and that someone was not injured is a wonder.

There is a feeling in Randolph that the miscreant is one of the illegal liquor dealers whose business has been run to the ground by Officer Knight, and who tried to have revenge when he saw the officer on the car.

PRONOUNCED AS FALSE.

Members of the Board of Assessors Reply to a Reported Speech.

Editors of the Daily Ledger:

In the "Political Potpourri" in your paper of Oct. 13, 1894, the following statement appears as a portion of a "speech" delivered by ex-Mayor Fairbanks at a dinner of the Republican Committee of the Tenth Congressional district, viz. "An effort had been made to have the names of Republicans left off the voting list, but the plan had been discovered in time to have wrong made right."

In replying to this statement, we desire at once to pronounce it false, and also to charge ex-Mayor Fairbanks with knowing it to be false when he made it. When a man who has held the office of Mayor of a city makes an assertion such as Mr. Fairbanks has made, in this instance, he deserves and will receive the censure of every fair-minded citizen of Quincy, regardless of party politics.

In Quincy where Mr. Fairbanks is known such a loose statement as his will be attributed to the fact that he did not follow his usual plan of committing his speech to memory and rehearsing it before delivery, and therefore probably said things the full meaning of which he did not understand. But the outside public who are not acquainted with him, will be liable to give more weight to the utterances of an ex-Mayor, than they are warranted in doing in this instance. This statement of the ex-Mayor, that there was a deliberate "plan" formed to disfranchise voters in this city was nothing more or less than a base libel on the sworn officers in this city who are bound by their oaths to properly and legally perform their duties, and as such we resent it in the most emphatic manner in our power, and say to ex-Mayor Fairbanks that such a false statement as is attributed to him, ought to be beneath the dignity of a man who has been thrice honored by his fellow citizens, even after he has retired to private life.

Boy Missing.

Charles Carlson, the 12-year-old son of Louis Carlson of Albertina street, shook the dust of Quincy from his shoes Friday afternoon, and all efforts to find, or locate him have thus far failed. The boy had a good home but for some time had become possessed with the idea to travel in the cities of the old country, but his parents did not pay any particular attention to it.

Friday afternoon while his mother was sick he did up two pair of pants, some collars and handkerchiefs and departed. He was seen later in the afternoon going towards the woods in Braintree but he disappeared, since which time nothing has been seen or heard of him.

When last seen he had on a pair of black hose, lace shoes, gray and black fine striped pants, dark short coat, and a soft black hat. It is thought that the boy would try and ship in some foreign outgoing vessel.

THE LEDGER APPRECIATED.

Capt. Holmes of the Sons of Veterans Returns Thanks to the Editors.

The following open letter is self explanatory:

Editors of the Daily Ledger:

As the presiding officer of the Sons of Veterans of Quincy it affords me pleasure to personally acknowledge to you my heartfelt appreciation of the kindly recognition you have bestowed upon the order through the medium of your most excellent paper the QUINCY DAILY LEDGER.

It has been the will of the members of Francis L. Souther Camp 27, to place me at its head for the last two years and I am in a position to realize and appreciate that during that period nothing has accomplished more toward the building up of the Camp than the public notice which you have so kindly given it.

From January 1, 1893, to October 1, 1894, the LEDGER has devoted to the Sons of Veterans 45 articles, aggregating 1,377 lines, an average of about 16 lines per week. For the valuable and impartial service you have rendered to me in making my administration successful and prosperous and in behalf of the brothers of Camp 27, whose sentiments accord with my own, I extend to you my sincere thanks.

Yours,
MELVILLE C. HOLMES.

WEYMOUTH

Officers Bailey and Pratt, assisted by Officer Allen and Chief of Police Hobart of Rockland, raided the premises of David Mahan at South Weymouth on Sunday, and seized 240 bottles of beer and 6 gallons of whiskey.

The alarm from box 26 at seven o'clock this morning was for a fire in the unoccupied house of Edward J. Fennell on Broad street. After the fire had been extinguished an examination of the premises showed that the cause of the fire was incendiary. The floors of several of the rooms were found to be saturated with kerosene oil, but owing to the house being closed the fire burned slowly.

Installation.

Rev. Ira D. Morrison will be installed as pastor of the First and Third Universalist parishes of Weymouth on Thursday next, Oct. 18, at the church at the Landing. The program will be mainly as follows:

AFTERNOON AT 4.

Organ Prelude.
Invocation.
Hymn.
Scripture Reading.
Anthem.
Ordination Sermon, Rev. A. A. Miner, Boston.
Hymn.
Benediction.

EVENING AT 7 30.

Prayer and Act of Ordination, Rev. C. H. Leonard, Tufts College.
Response.
The Fellowship of the Church, Rev. Jacob Baker, South Weymouth.
Address to the Minister, Dr. A. J. Patterson, Boston, Mass.
Welcome to the Parish.
Welcome to the City.
Address to the People, Rev. Dr. E. I. Rexford, Boston, Mass.
Hymn.
Benediction, Pastor.

A number of the clergymen and others not named in this program will take part in the service.

The public is cordially invited to both the afternoon and evening sessions of the ordination service.

MILTON.

A public hearing will be given at the Town Hall, Milton, Tuesday evening, Oct. 16, at 7 30 o'clock, on the petition of the Milton & Boston street railway for a location.

A whist party was held at the residence of Mr. Eaton, on Eaton street, Wednesday evening. There were four tables. The first ladies' prize, a triplicate mirror, was taken by Miss Vina Brackett; second ladies' prize, silver pen tray, was won by Miss Lucy Eaton; first gentlemen's prize a seal leather cuff and collar box, was captured by Albert A. Brackett, second gentlemen's prize, a cigar tray, went to Joseph Vogel, Jr.—News.

MAGAZINE NIGHT.

The Papers Discussed by the Quincy Literary Society.

The regular business before the Quincy Literary Society at its meeting in Doble's hall, on Friday evening, was the reading and consideration of "the magazine." The president, Dr. R. McLennan presided, and there was a good attendance of members and friends.

Unlike ordinary magazines the supply of articles never exceeds the demand for space. No manuscripts are returned to aspiring authors with the curt devise "declined with thanks." Impartial treatment is accorded to all.

The editor, Mr. A. M. Craig, announced the receipt of four papers. The first one he read was upon the new organization which has sprung up into prominence or notoriety like Jonah's gourd, almost in a night.

The writer referred to the startling announcement made on its behalf, that Washington, the nation's capital, was in the hands of the common enemy, the Roman Catholic. The spirit animating the movement would be more in accordance with the anti-Catholic laws passed by the British Parliament at the close of the 17th century. The question for the A. P. A. to solve is; are the offices and positions complained of, held because of merit, or because of the "pull" back of them? There is little doubt but that a certain proportion are on account of the latter reason, but the same may be said of all creeds in the country. No first class newspaper will entrust high positions to men incapable of filling them.

In discussing the paper, the majority of the members seemed to sympathize with the sentiment there expressed, some contending, however, that unless there were sufficient cause for it, no organization could assume the dimensions of the A. P. A. in such a short time. Reference was made to the insiduous political control by foreign ecclesiasticism, that threatened to undermine the free institutions of the country and give them over to the custody of a vast theological machine.

The next paper read was upon theosophy a philosophy which the writer said was more ancient than the pyramids of Egypt. The poor dispised Hindoo has handed to his western brother the key of life's riddle. Theosophy is a doctrine not of faith, but of experience. It sees beyond material things and converses with the departed who inhabit the astrial plane. Reincarnation is the truth around which revolves the whole system of theosophical philosophy. The means of attaining the highest possible results are to cultivate purity of thought, and allow the mind freedom to reach out for spiritual truth. Its doctrine is destined to lead us out of the sphere of matter into a power and more beautiful state.

As this was an entirely unique subject in the society, there was considerable interest manifested in it by the members. That there was need of more extensive knowledge upon matters outside the domain of physical science was admitted, but doubts were expressed regarding the reliability of Theosophist claims. There was too much mystery about it. It did not lend itself readily to the test of critical investigation. Its terms were vague, and except to the initiated, meaningless.

What can the Hindoo prophets teach, that will add to our happiness and knowledge? They are blind teachers in a nation of slaves. They would sway over the minds of their followers not by appeals to reason and intelligence, but by fostering superstition, preying upon credulity, and encouraging all the baneful influences of caste and ignorance with which India is cursed. It was conceded, however, that the purity of its aims and the character of its adherents warranted fuller consideration of its tenets.

The third paper was from a lady contributor, giving a few suggestions regarding the admission of ladies to full membership in the society, and touching on other matters of similar import. Although there is a standing invitation for ladies to be present and take part in the meeting, yet the writer thought as invited guest they would not have the same liberty as they would enjoy if active members. Ladies nowadays do not expect to get to heaven hanging on the coat-tails of their husbands and sweethearts, neither do they wish to attend a literary society on such doubtful chariots.

They can no longer stand by and have their rights talked over by their male friends without taking part in the discussion.

It would be also beneficial to have a few more social features introduced, to relieve the monotony of heavy literature, and to act as an attraction for young people.

If a young man could be turned out able to excel Demosthenes, Cicero and Daniel Webster, or a young woman fit to rule at the White House, the name of the Quincy Literary Society would live forever.

In accordance with the writer's suggestions, a motion was subsequently passed to admit ladies to the whole privileges of membership. Masculine gallantry, however, conceded somewhat more liberal financial terms to them than are accorded to male members.

Advertised Letters.

At Quincy postoffice today, Oct. 15:

George D. Carter, John Goodwin, A. J. Knight, Frank H. Mason, John Murray, Charles O'Neil, F. F. Perkins, Alfred Sears.

Miss L. Freeman Clark, Mrs. H. K. Horton, Miss May Ellerica Harris, Mrs. Auders Molin, Mrs. Adam McKinzey, Miss Priscilla McMartin, Miss Rose Quinn, Mrs. Rafferty, Mrs. R. B. Robinson, Miss Mary Sheey.

☞ *Trunk:* Almost everything in this line but an elephant's trunk. Henry L. Kincaide & Co.

The final article was headed by the weird title, "Dreams and Speculations." There are moments in the lives of all, it observed, when the imaginative faculties take exclusive possession of the mind. Physical things are relegated to the lethe of forgetfulness. Whence are we? Whither do we go? If the evolutionary hypothesis be correct, can man claim eternal existence and condemn his lower brethren to unconscious oblivion? If he be but a highly developed animal are his conceptions of immortality warranted. Tested merely by the light of science, what transition takes place at the death of a human being that is not fully duplicated on the decease of a dog a cat or even a tree. If the concensus of scientific evidence belies the assumption of immortality, and the insinuation be accepted that the city paved with gold is but an optical mirage in the desert of prophetic tradition, then, indeed, shall fond hopes be blasted, and noble and tireless efforts in virtue's cause wasted.

The field for examination opened up by the subject, was too wide for adequate discussion, and beyond the restatement of scientific and religious conclusions the speculations were not exhaustively pursued.

The next meeting, which will be held in the same place on Friday evening, will be devoted to readings, original and otherwise. The readers will be Messrs. William S. Murray, Alexander Cowe, John Russell and Francis Morrison.

SQUANTUM AGAIN.

The Troublesome Section Still Seeking Disunion.

There was a meeting in Boston Saturday of the committees of the city governments of Quincy and Boston, relative to the act of the last legislature, which provides that that portion of Quincy known as Squantum may under certain circumstances be annexed to Boston. The Boston committee is composed of Alderman Sanford, chairman, Aldermen Hall and Folsom, and Councilmen Andrews, Whelton, Wise, Eager and Desmond.

The committee of the Quincy City Council are: Councilmen Horatio N. Holbrook, John O. Holden and Jonas Shackley, the first two being present.

Some of the property owners of Squantum were present to favor the scheme, and Boston papers report Messrs. Holbrook and Holden as favoring.

Councilman Holden informs the LEDGER he did not say whether he was in favor of annexation of Squantum or not, but he asked if it was not for the purpose of booming the land in that section.

Wednesday afternoon the two committees will visit Squantum to look over the ground. The Boston committee will arrive at Atlantic on the train due to arrive at 1 27, when a barge will be taken for Squantum.

The Parrot Has Given It Away.

That a majority of the special committee of the Quincy City Council are in favor of the annexation of Squantum to Boston.

That a majority of the voters are not.

That things were a little mixed at the meeting.

That our Councilmen in attendance were disguised as H. N. Holden and O. A. Holbrook.

That the views of Jonas were not reported.

That he is on the right side.

That H. M. Federhen, Jr., got there just the same.

That he may not get any further.

That he was fifth man in the race last year.

That C. L. Hammond led him 259 in the city and 313 in the district last year.

That Judge Flint will again be high man.

That Weymouth may elect all three of its men.

That it is one of the tricks of the Weymouth Republicans.

That they used Mr. Hammond mean last year.

That Quincy used all the Weymouth candidates well.

That one of them was second on the list, and the others fourth and fifth.

That in Weymouth the highest Quincy man was fourth.

That in Quincy a Quincy candidate was sixth.

That in Weymouth the Weymouth candidates were one, two and three, with good majorities, and the Quincy men four, five and six.

That Weymouth gave a plurality of over 200 for the Republican candidate for Governor last year.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

WEST IS MISSING.

Charges of Forgery and Bigamy Said to Be Against Him.

BOSTON, Oct. 15.—James H. West, expert accountant, confidential clerk, collector and bookkeeper in the office of the Mortgage, Loan and Trust company at 9 School street, has disappeared. It was on Sept. 22, says The Globe, that he was last seen, and now the bank police squad are looking for him to answer to the charge of forgery, which it is alleged he has committed.

For some time previous to his sudden departure forged checks, bearing the name of Manager Rothenberg of the trust company, were cashed on several occasions, and as Mr West cannot be found the police have every reason to believe that it was he who forged and passed them.

Besides the police there is another person who would like to see Mr. West apprehended. That is Mrs. West, a bride of but eight months, who has heard since Mr. West's disappearance that there is a woman on the other side of the Atlantic who took his name long before she herself promised to love, honor and obey him, and she would like to confront him with the statement.

So far no direct evidence that he has another wife living has been found, but an investigation is being made, and the suspense of Mrs. West No. 2 will not be of long duration.

HE DIDN'T RESIGN.

Pastor Hood's Pulpit Is Therefore Declared Vacant by the Presbytery.

CAMBRIDGE, Mass., Oct. 15.—Acting under the advice of the presbytery, Moderator Paisley has declared the pulpit of the First United Presbyterian church vacant. There has been trouble between the pastor, Rev. John Hood, and the trustees for several months, his resignation having been asked for as long ago as last January, and a memorial asking the presbytery to recall the pastor was sent to that body at the same time.

Mr. Hood agreed to resign if the proceedings against him were withdrawn from the presbytery, which being done and the resignation not having been sent within the time designated for its receipt, the pulpit was declared vacant yesterday.

Mr. Hood is very well known in his denomination. In connection with the trouble in his church he was arrested two months ago and obliged to appear in court to answer to a charge of assault and battery on the wife of the sexton.

Manufacturers Determined to Fight.

NEW YORK, Oct. 15.—The cloak manufacturers have decided to resist the demands of the striking cloakmakers and to refuse to make any of the concessions the workmen demand. This conclusion was reached yesterday. Sixty-three firms were represented in the conference. The aggregate capital, it was stated, of these firms is $40,000,000 and the aggregate amount paid annually in wages by them is $5,000,000. Some of the speakers said they would rather go out of business than accede to the demands of the strikers.

The Provincial Turmoil.

ST. JOHN'S, N. F., Oct. 15.—A sensation was caused here by the discovery that the Whiteway party had flooded the Trinity district with copies of a letter purporting to have been sent by Mr. Munroe, now a government candidate, to the leaders of the Whiteway party last spring, offering to secure the withdrawal of the elections against the Whitewayites for a monetary consideration. The latter is declared, by the alleged author, to be a base fabrication.

Big Crowd Attended.

NEW YORK, Oct. 15.—In the Broadway theater last night the Temple cup was presented to Captain Ward and his Giants. There was nearly $4000 in the box office, which will be turned over to the Giants. The fun began by a popular company singing a chorus. Attraction after attraction followed in quick succession. Justice Grady made the speech of presentation. Captain Ward made a short and pointed response.

Big Seizure of Liquor.

BOSTON, Oct. 15.—Ninety-five gallons was the aggregate of intoxicants seized by Lieutenant Brown's squad at the Jefferson House on North street yesterday. An assorted and expensive lot was secured. It varied from plebelan beer up the scale of excellence of wines and liquors, until even "extra dry" was included. George F. Green, a waiter, was placed under arrest on the charge of illegally selling liquor.

Long In the Master's Service.

BROOKLYN, Oct. 15.—Rev. Fr. Sylvester Malone celebrated the 50th anniversary of his pastorate of St. Peter's and St. Paul's church by a grand jubilee yesterday. The services commenced with a high mass, at which Father Malone officiated, assisted by Rev. Frs. Gallagher of St. Michael's and Wood of St. Malachi's, who were Fr. Malone's assistants for 14 years.

Was Sick For a Long Time.

FRAMINGHAM, Mass., Oct. 15.—Rev. Burtis Judd died Saturday evening, aged 76 years, after a long illness. He lived in Framingham about 20 years and was in the real estate and insurance business. He was well known in many parts of Massachusetts and Connecticut as a Methodist preacher.

Alleged Board Bill Jumpers.

POUGHKEEPSIE, N. Y., Oct. 15.—Captain Montague Martin, the alleged bridge jumper, and his manager, Duncan Ross, were arrested while waiting at the railroad station for a train for New York. They were charged with attempting to beat the Nelson House out of a board bill.

Fishermen Suffered Severely.

ST. JOHN'S, N. F., Oct. 15.—Banking vessels still arriving show evidence of the havoc played by the gale. The steamer Panther, from Labrador, reports extensive destruction along that coast as a result of the gale. Many craft are ashore.

Mrs. Sprague's Mistake.

NORTH ADAMS, Mass., Oct. 15.—Mrs. Marshall Sprague of this place took an ounce of laudanum, mistaking the poison for medicine. She was unconscious for several hours, but was finally revived and is supposed to be out of danger.

Lucky Banker.

PARIS, Oct. 15.—George Banker, the American wheelman, won the grand prize of Paris at the bicycle races. The prize is a work of art valued at 2000 francs, to which the city council added 750 francs and a gold medal.

Is Queen Lil Crazy?

VICTORIA, B. C., Oct. 15.—A rumor is in circulation at Honolulu that Queen Liliuokalani had gone crazy. The report is not credited, although for several days she had not left the house she is occupying.

PARLOR STOVES and RANGES

Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,

$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MAGEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,

$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,

75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,

55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size comforters, equal to those always sold for $1.50.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

Things Yet to Be.

Some say this world is an old, old world,
But it's always been new to me,
With its boundless range of ceaseless change
And hope of things to be.
A new friend takes my hand
When the old ones pass away.
The old days die, but the light in the sky
Is the dawn of another day.

Some say this world is a cold, cold world,
But it's always been bright to me,
With its hearthstone fires and warm desires
For the things that are yet to be.
And if I must labor I wait
And trust to the fields I have sown,
For I know there is truth in the promise of youth—
I will some time come to my own.

Some say this world is a sad, sad world,
But it's always been glad to me,
For the brook never laughs like my soul when it quaffs
And feasts on the things to be.
The night comes on with its rest;
The morning comes on with its song;
The hours of grief are few and brief,
But joy is a whole life long.

Some say this world is a bad, bad world,
But it's always been good to me.
With its errors, there live dear hearts that forgive
And hope for the things to be.
This world is not old or cold,
This world is not sad or bad,
If you look to the right, forgetting the night
And say to your soul, "Be glad."

—Alfred Ellison.

Struck by a Squall.

NEW BEDFORD, Mass., Oct. 15.—Schooner Fred Jackson was struck by a squall at the mouth of Vineyard Haven. She lost her foretopmast, foremast head, maintopmast and some sails. She was boarded by the lifesaving crew at Cuttyhunk, and after the wreckage had been cleared away she came into this port for repairs.

For Massachusetts, Rhode Island and Connecticut: Generally fair; brisk and high westerly winds; colder.

The First of the Season.

BELLEFONTE, Pa., Oct. 15 — A very heavy windstorm, accompanied by hail and snow, passed over the county yesterday, doing considerable damage. At Blue Knob, Cove Mountain and other peaks of the Alleghenies the ground was covered to a depth of three inches.

Catboat Capsized.

BROOKLYN, Oct. 15.—A catboat containing four men was struck by a squall off Coney Island and capsized. John and Daniel Bailey rescued one of the party, Walter Booth. His three companions were drowned.

Cheap Enough.

BERLIN, Oct. 15.—A Hamburg firm has purchased 100,000 Albini rifles at 4 francs each from the Belgium government for export to China.

Mrs. Mary A. Tupper has been released, at Wilton, Me., from the custody of extreme *Female Weakness,* which kept her a prisoner in bed unable to walk. *Lydia E. Pinkham's* Vegetable Compound made the change. She advises all sick women to take this valuable medicine, and be thankful for their lives, as she is for hers. It costs only a dollar at any druggists, and the result is worth millions.

VIOLATION OF TRUST

Alleged In a Suit to Be Brought Against Senator Squire.

NEARLY $1,500,000 IS INVOLVED.

Culmination of a Deal Made Many Years Ago.

MINNEAPOLIS, Oct. 15.—A local paper says that in a few days papers will be filed in a lawsuit which will involve the title to real estate valued at nearly $1,500,000, and will call upon United States Senator Squire of Washington for an accounting of property intrusted to him.

The plaintiffs are Colonel William S. King of this city, Philo Remington's famous antagonist in the historic suit of years ago, and Philo Osgood and John N. Goodwin of Ilion, N. Y. A quarter of a century ago King and Remington were close friends.

Years ago they invested heavily in western real estate, one of the deals being the purchase of a large amount of property where now stands Seattle. When the final crash came, this property was given to Remington

To Hold In Trust.

Subsequently Remington, who died a few years ago, intrusted the property to his son-in-law, Squire, who is the defendant named. Squire, according to the complainants, had never made an accounting of the old trust.

The property, then worth a few hundreds of dollars, is now worth millions. Port of it had been sold, and none of the money, according to the plaintiffs, has reached their partners in the original syndicate. Even the unsold portion, which, it is alleged, Squire still holds, comprises a number of choice locations in the heart of Seattle. These properties alone are conservatively estimated to be worth from $1,200,000 to $1,500,000.

Attacked by Di Rudini's Party.

LONDON, Oct. 15. — The Rome correspondent of The Times, denying the reported coolness between Prime Minister Crispi and Foreign Minister Blanc and the impending retirement of Sig. Blanc, says that the policy of the two ministers is absolutely identical. Sig. Blanc's position is assured. The attacks upon him are instigated by the Di Rudini party, who oppose the triple alliance and the alliance with Great Britain.

The Fight Went On.

PARIS, Oct. 15.—During a bullfight at Dax, yesterday, an officer, escorted by policemen, went to the arena to stop the fight. He laid before the directors a legal paper forbidding the fight, but was ignored by them. The toreadors continued their work until they killed the bull, amid the cheers and applause of the spectators. After the fight the crowd hustled the policemen and jeered the officer. The town is much excited.

An Alarming Discovery.

HAVRE, Oct. 15.—Several packages purporting to be furniture were landed here from Southampton. Upon examining them the police found that they contained a perfect arsenal of arnachist weapons, including various bombs, explosives, old arms and ammunition, skeleton keys and burglars' tools. The Havre police communicated with the English police, who are trying to trace the packages to the sender.

A Magnificent Gift to a Church.

LANCASTER, Pa., Oct. 15.—Bishop Rullison of the diocese of central Pennsylvania consecrated the magnificent golden chalice presented to St. James' Episcopal church by the late Mrs. James Wiley of Bethlehem. The chalice is richly studded with diamonds and ather jewels worn by the donor during her life. It cost over $6000 and Bishop Rullison asserts that it is the most valuable in the United States.

Socialists Hold Balance of Power.

BRUSSELS, Oct. 15.—The election returns now at hand are confusing, and it is impossible to tell how the election has gone. It is known, however, that the Socialists will be in a position to dictate terms to the Liberals, and if their terms are rejected, all the seats will fall to the Clericals, except that of Prime Minister de Burlet. All the members of the cabinet are re-elected.

Germany's Part.

BERLIN, Oct. 15.—Germany's refusal to interfere in the Chinese-Japanese troubles does not affect the question of protection to Europeans in China, in which she will fully co-operate. The German commander in Chinese waters has already been authorized to dispatch a small body of marines to protect the legation at Pekin.

Hawaiian Politics.

VICTORIA, B. C., Oct. 15.—Advices from Honolulu Oct. 5 state that delegates to the convention which is to choose senators and representatives adopted a resolution that no one who was not openly in favor of annexation should be elected. Registration for the election is proceeding satisfactorily.

Banqueted by the Emperor.

BUDA PESTH, Oct. 15.—King Alexander of Servia arrived here yesterday and proceeded at once to the royal castle, where he was received by Emperor Francis Joseph, who presented to him prominent personages. The emperor gave a state banquet in the king's honor.

Its Efficacy In Doubt.

BERLIN, Oct. 15. — Professor Virchow states that he believes Dr. Behring's diphtheria serum exercises a strong protective effect for weeks, perhaps for a few months, but that it remains to be seen whether the effect is permanent or really curative.

Boston Ship Abandoned.

NEW YORK, Oct. 15.—Steamer Lampasas, from Galveston, reports that on Oct. 9 she fell in with the ship Titan of Boston, Captain Allen, from Navasa, Sept. 27, for Carteret, N. J., abandoned. There was a very heavy sea running.

Robbers Are Still Free.

WASHINGTON, Oct. 15.—Not the shadow of a tangible clew to the identity of the men who accomplished the remarkable feat of train brigandage in Virginia Friday night has as yet come to light.

Couldn't Agree.

BERLIN, Oct. 15.—The negotiations between the brewers and the socialists to settle the long standing boycott against the breweries have collapsed. The boycott will be continued.

ENGINEER'S ERROR

Caused a Serious Wreck In Which Many Lives Were Jeopardized.

NEW ORLEANS, Oct. 15. — Engineer Simpson of the East Louisiana railroad is responsible for a frightful accident that occurred yesterday at the crossing of the Louisville and Nashville and Northeastern railroads, about two miles from where the Louisville and Nashville road leaves Elysian Fields street, an accident that will, in all probability, result in at least one fatality, while a score of passengers on the Louisville and Nashville road were severely injured.

The Louisville and Nashville "Across the Lake" excursion train of eight coaches, well loaded, a large proportion being women and children, pulled out on time.

The east Louisiana train, carrying excursionists to points in St. Tammany parish, was booming along its tracks, and with a shrill shriek from its whistle for down brakes it crashed into the sixth coach of the Louisville and Nashville train. The collision threw a crowded coach completely into the ditch. The greatest indignation and anger prevailed among the witnesses of the collision against Engineer Simpson. Simpson escaped to the swamp. News was brought to this city of the accident and a special train was dispatched to convey the injured to the city.

Engineer Simpson was subsequently arrested. The property loss is about $40,000.

GAVE A FICTITIOUS NAME.

It Probably Saved Warren Coon From Being Kidnapped "For Keeps."

NEWTON, Mass., Oct. 15.—Sixteen-year-old Warren Coon, son of Rev. G. W. Coon of Lowell street, Newtonville, was returning from the Newton public library. When he had reached the corner of Billerica street and Newton avenue a hack drove up and an unknown man jumped out.

The latter asked the boy if he did not want a ride, and before he could answer the man deliberately threw him into the carriage. Then the stranger also got in, the curtains were drawn, and the driver whipped up his horses.

Young Coon was badly scared, and for some time neither he nor the man spoke a word. Finally the stranger asked the boy his name, and the latter, shrewdly deciding that it would be unwise to give his right name, replied that it was Thomas Ryan. The man then said: "You're not the one I want. Get out," at the same time shoving him from the hack. The boy found himself on Oak street, Newton Upper Falls, nearly three miles from where he was put into the carriage.

The man is described as about 33 years of age, with very dark complexion, and heavy dark mustache. No motive has been found for the attempted abduction.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE CHRISTIAN FAITH

Is Making Good Headway In Far Eastern Countries.

PAPS CLING TO OLD RELIGIONS

While Idolatry Is Being Undermined In China.

WASHINGTON, Oct. 16.—Ex-Secretary of State John W. Foster, who has just returned from a trip around the world, last night addressed the presbytery of Washington on the extent to which Christianity was pushing its way in China, Japan, India, Palestine, Syria, Egypt, Ceylon, Burmah and the Malay peninsular. Mr. Foster graphically described the conditions he had recently observed.

JOHN W. FOSTER.

At Pekin he was called upon to address several hundred Chinese students, male and female, who had embraced Christianity. He also visited the Imperial Tumvagen college at Pekin and the naval and military schools of Viceroy Li Hung Chang at Tien-Tsin. They were taught by European professors, and the tendency was toward undermining the old Chinese faiths.

He spoke of the menace China would be to the world, with its 400,000,000 people trained to the arts of modern warfare, and possessed of the resources of Western science if once inspired with a hatred of Christianity. It was, however, the judgment of all who traveled around the globe that Christianity would follow in the wake of commerce, steam and electricity in entering China.

Mr. Foster said the wars now in progress would temporarily impede missionary work in Corea. But it was

Making Rapid Progress.

Of Japan, Mr. Foster said its marvelous advance in civilization had not been kept pace with by an advance in Christianity. They clung to the old religions and hampered the work of Christianizing. At Tokio, Mr. Foster addressed a large audience of Japanese students and told them that their nation was making the mistake of grasping the results without securing the great cause of our superior civilization.

Mr. Foster pointed out, however, that Japan's great progress had led her to get hold of the arguments of Western infidels and agnostics. The Japanese government was willing to accept the Christian calendar and to declare the Sabbath a legal holiday, in which all government offices, schools and public institutions should be closed, but the Western agnosticism and rush of commerce overcame these Christian steps.

An Embezzler's Case.

HOLLIDAYSBURG, Pa., Oct. 16.—The Second National bank of Altoona has entered suit against the estate of ex-Cashier Harry Gardner to recover $91,837.37, the amount of his alleged discrepancies. The estate of the late ex-Judge James Gardner, who was the cashier's bondsman, is also sued for the same amount. Gardner is now believed to be in Mexico.

Endeavorers In Politics.

BALTIMORE, Oct. 16.—Committees are being appointed by the Christian Endeavor societies of this city to map out a campaign in the coming elections. They propose to hold meetings in the various churches. They will pick their men from the lists presented by the various parties for the offices, and then work and vote for their selection.

A Change of Base.

WASHINGTON, Oct. 16.—The war department having become satisfied that the policy of charging army officers with the duties of Indian agents has worked to the detriment of the service, is relieving the officers detailed for this work as fast as civilian agents can be furnished to fill the places.

Howard For Congress.

NEW BEDFORD, Mass., Oct. 16.—Robert Howard, the Fall River labor leader, was nominated for congress by the Democrats of the Thirteenth district. This is the district now represented by Mr. Randall, and in which John Simpkins has been nominated by the Republicans.

Satolli In Montreal.

MONTREAL, Oct. 16.—Mgr. Satolli is in the city. He was taken around among the Catholic institutions of the city yesterday. He states that he is simply here for pleasure.

To Preserve Peace.

LISBON, Oct. 16.—An enormous crowd of people witnessed in silence the embarkation of 800 troops for Lourenzo Marquez, Delagoa bay.

A DRAMATIC INCIDENT.

A Blind Woman Repudiates Her Husband For a Kind-Hearted Criminal.

CHICAGO, Oct. 16.—Secret service officials who had arrested a man calling himself John Robinson discovered yesterday that their prisoner is John Spayne, a notorious counterfeiter, who has been a fugitive for three years. During his examination a woman of beautiful face, but totally blind, appeared at the examination and announced herself as Spayne's wife.

James Morton, a well-to-do merchant, who had been called as a witness, caught sight of the woman, and rushing up to her declared she was his wife, who had disappeared two years before. Recognizing Morton's voice, the blind woman piteously begged the officers to protect her from him. She acknowledged that she was Mrs. Morton, but said her husband had treated her cruelly and that she feared him.

Despite Morton's entreaties, the woman refused to go with him, declaring that Spayne had treated her kindly, and that even though he was a criminal she would remain with him. She told a pltiful story of ill-treatment, and was allowed to leave the courtroom with the guide who had accompanied here.

AMPLE PROTECTION

Will Be Afforded Foreigners In Pekin—Prolonged War Assured.

TIEN-TSIN, Oct. 16.—The Pei-Yang squadron has been able to leave dock, completely refitted, with magazines filled and otherwise ready for active service.

An imperial edict has been published at Pekin assuming for the government full responsibility for the protection of the foreign residents, denouncing rowdyism and punishing certain culprits shown to have taken part in the recent assaults upon travelers.

The imperial edict also assures strangers that their persons and property will be protected, its wording especially favoring the missionaries.

The Chinese overtures for peace having been rejected without a hearing, the war now enters upon a chronic stage, demanding an appeal to the latent forces of the empire. The latter are described as being quite great, but it is added they require time in order to organize them.

Attempt at Murder.

NEW HAVEN, Oct. 16.—At the Mechanic National bank yesterday afternoon, Elisha Trowbridge, an elderly man, had just finished a conversation with his brother, Charles H. Trowbridge, the cashier of the bank, when he fired two shots at his brother, one taking effect in the victim's leg. The would-be murderer was arrested. Elisha Trowbridge was once employed by the City bank, but has recently made a police record by theft. It is thought he is insane.

The Belgian Elections.

BRUSSELS, Oct. 16.—The result of the election is the complete overthrow of the Liberal party, save in the capital. The first application of the principle of universal suffrage has, therefore, justified the forebodings of the doctrinaires who foresaw in it the downfall of their cause. What they failed to foresee was the success of the Socialists, with whom the Catholics have now to reckon alone.

A Penurious Duke.

COBURG, Oct. 16.—The Gotha diet, after a long debate, has adopted a motion to provide the funds necessary to reopen the State theater, which closed after the present Duke of Saxe-Coburg-Gotha (more generally known as the Duke of Edinburgh) refused to renew the subsidy granted by the former dukes to this place of entertainment.

Thirty Six Competitors.

NEW YORK, Oct. 16.—The annual chess tournament of the Harvard university has just been begun here. There are 36 competitors. Those taking first and second places in each of the six sections are to compete in a final tournament. The two winners in the first will represent Harvard at the third intercollegiate tourney.

Found His Wife Dead.

BUZZARD'S BAY, Mass., Oct. 16.—When Laurestone Ames returned from Barnstable he found his wife, aged 62, dead on the floor. She was in her usual good health when he left her shortly before noon. Her little niece was talking with her an hour before Mr. Ames returned. Heart disease is the supposed cause.

Treasury Officials Worried.

WASHINGTON, Oct. 16.—United States Treasurer Morgan has been notified that $500,000 in gold was yesterday withdrawn from the New York sub-treasury for export. This is the first withdrawal of any importance that has been made since Aug. 6 last, and the news has had a disquieting effect among treasury officials.

Charges Not Proven.

WASHINGTON, Oct. 16.—News has been received of the acquittal and complete exoneration of Captain Ray, who is army Indian agent at the Shoshone and Arapahoe Indian agency in Wyoming, and who was arrested on a charge of misbranding cattle with intent to steal them.

A Love Feast.

ALBANY, Oct. 16.—The joint mass meeting last night by the Hill and Cleveland factions was an enthusiastic and significant jollification. Governor Flower, Bourke Cockran and Simon W. Rosendale were the principal speakers.

Real Estate Dealer In Trouble.

NEW YORK, Oct. 16.—Schedules in the assignment of Oliver Sumner Teall were filed yesterday. He says his liabilities are $110,936; nominal assets, $210.50, and actual assets, $6.74. His business is given as a dealer in real estate.

Wife Used a Knife.

BOSTON, Oct. 16.—Francesco A. Cosella, an Italian, lies in a critical condition at a hospital with two deep knife wounds in his left breast, inflicted by his wife Jessomina, during a family quarrel.

Three Years in Prison.

HALIFAX, Oct. 16.—Two Boston crooks, named Carr and Young, found guilty of stealing valises and a fur cape, were sentenced to three years in the penitentiary.

Declared War.

NEW YORK, Oct. 16.—Eighty-five cloak manufacturers held a meeting last night. Resolutions were adopted declaring war on the unions concerned in the strike.

CONFESSED MURDER.

Clarence Robinson's Version of the Killing of Montgomery Gibbs.

WIFE FIRED THE FATAL SHOT.

Story Doesn't Agree With His Wife's Statement.

CLEVELAND, Oct. 16.—Clarence Robinson, who is under arrest here, together with his wife, for the murder of Montgomery Gibbs on the streets of Buffalo last April, has made a complete confession. He says that he attacked the attorney, and that while the two were fighting Mrs. Robinson fired the shot which killed Gibbs.

"When we arrived in Buffalo last spring," said Robinson, "we were in want. We lived first at 190 East Eagle street, but during the week before the murder we had a room at 146 North Division street.

"When we started out that night Sadie wore men's clothes and we each carried 32-caliber revolvers. We walked along Delaware avenue. Gibbs approached us and I said to Sadie, 'Here comes a swell guy.' 'He looks too big for us,' she said.

"With that he had almost reached us, and levelling my revolver at him I ordered him

To Throw Up His Hands.

Instead of doing so he struck me with a cane or umbrella. He then grabbed my right wrist and we had a fight for the revolver. When he laid hold of my wrist the revolver was fired, but the bullet went into the air. A moment later there was another shot, and the bullet lodged in his left arm. He fell towards me and we clinched.

"Then it was that Sadie pulled her revolver and shot him in the head. He dropped and we started to rob him, when we saw somebody coming. We skipped out, climbing over the hedge fence and running between two houses we separated and met on a back street. Then we walked around the block and back past the place of the murder, but on the opposite side of the street. They were loading him into a wagon as we went by."

At the conclusion of his statement Robinson broke down and wept bitterly.

In her statement to the Buffalo police Mrs. Robinson claimed that Robinson had fired the three shots and that she did not use her revolver.

Spoke of Broken Promises.

BOSTON, Oct. 16.—The opening gun of the campaign in this state by the Prohibitionists was fired last night in Berkeley Temple. General Neal Dow, the veteran cold water man from Maine, was accorded a rousing reception. He criticised at length the records of the Republican party on the prohibition question. The section of their platform referring to prohibition was all right as far as it went, but many Republicans often forgot the platform after they were elected. The relation of the liquor traffic to the suffering in the ranks of the laboring classes during the industrial depression was also dealt with. General Dow was given a public reception at the Vendome.

Rebellion Is Growing.

LOURENZO MARQUEZ, Oct. 16.—The rebellious Kaffirs are again attacking the town. The government has appealed to the South African republic (the Transvaal) for assistance to quell the rebellion. Traders from Maputaland state that the Maputas are joining the rebels. The powerful chief, Gungunhama, is reported to be marching on Inhambane, a Portuguese town of about 6500 inhabitants, lying 200 miles northeast of Delagoa bay.

Walcott an Easy Winner.

CONEY ISLAND, Oct. 16.—In less than four rounds Joe Walcott of Boston, the colored wonder, succeeded in stopping Austin Gibbons, the Paterson lightweight, and at the same time pushed himself right to the front of his own class. The fight was at 140 pounds, 10 rounds, but the pace was too fast for the Jersey man, and he was practically out after a right-hand swing had sent him to the floor.

Assaulted a Woman.

NEW YORK, Oct. 16.—A small-sized riot occurred in Delancey street yesterday, caused by the cloakmakers' troubles. The wife of a contractor was assaulted by several of the strikers, and the husband, to protect his wife, fired several shots into the crowd. It was necessary to call out the police reserves before the trouble came to an end. No one was seriously injured.

A Millionaire's Will.

PHILADELPHIA, Oct. 16.—The will of the late Edward B. Leisenring, who died in Germany, was admitted to probate yesterday. The wife and daughter of deceased are each given $500,000. Included in the bequests, after private legacies, amounting to almost $1,000,000, are bequests of over $35,000 to public institutions.

Owes His Employers.

WORCESTER, Mass., Oct. 16.—Edward H. Eaton, a traveling salesman for O. P. Shattuck & Co., cigar dealers, has skipped for parts unknown, leaving large accounts due the firm. He acknowledged his indebtedness and promised to square up, but suddenly disappeared.

The Kaiser at Darmstadt.

DARMSTADT, Oct. 16.—Emperor William was welcomed here by the Grand Duke of Hesse and Princess Alix, the fiancee of the czarewitch. Last night a gala dinner was given at the palace. The grand duke toasted the emperor, who made a brief reply.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

Rev. Mr. Virgin of West Quincy was called to South Framingham Monday to attend the funeral of Rev. Burtis Jadel, a former pastor of many of the churches in the New England Methodist Conference.

Dr. and Mrs. W. G. Kendall returned to Atlantic on Saturday from their annual three weeks' hunting and fishing trip in Maine and Canada. Contrary to their usual custom they did not bring back much venison; the weather being too warm for it to keep on the long cause trip.

Dr. and Mrs. W. G. Kendall are entertaining the doctor's nephew, Mr. Frank A. Coyne of Orange, N. J., who is captain of the Orange A. C. foot ball team which played against Harvard on Saturday last, and which won the association championship last season. Mr. Coyne is also captain of the Steven's Institute la crosse team which won the world's championship at Chicago last year.

FOOT BALL.

The Initial Game of the Quincy High School Team.

The postponed game of Saturday between the Quincy High School foot ball team and the North High School of Weymouth was played Monday afternoon at Weymouth, and resulted in a tie. Although the Q. H. S. backs show that they need some practice in passing the ball, they also show the skill that they had in handling the opponent's backs as no gain could be made around their ends.

The features of the game was Chapman's long runs and his scoring a touch-down after a fifty yards gain; also Walsh in breaking through the line and doing some good tackling.

The Weymouth average weight was 140 pounds while the Q. H. S. only weighed 126 pounds which show the advantage that the Weymouths had could not do anything with the plucky boys from Quincy.

The Q. H. S. lined up as follows:

Walsh, c; McConnell, r g; Ford, l g; Wilder, r t; Martell, l t; Coe, l e; Hall & Marnock, r e; Fairbanks, q b; Chapman, r n b; Pirovano, l h b; King, f b; Touchdown — Chapman. Goal from touchdown—Fairbanks. Umpire—Mr. Savage.

NO SPARRING EXHIBITIONS.

Norfolk Downs People Attend En Masse and Have Something to Say.

The hearing to the Norfolk Downs people and the order to grant a license for a sparring exhibition were the breezy matters before the City Council Monday evening. Councilmen Robbins and Rooney were the only absentees.

Sparring License.

The Committee on Licenses reported that the order for a transfer of the license for a sparring exhibition, ought to pass.

Upon roll call it was lost by vote of 14 to 5, not the necessary two-thirds of the Council.

YEAS — Adams, Anderson, Babcock, Bigelow, Clark, Federhen, Holbrook, Johnson, Lamb, Lennon, McKeon, O'Brien, Snow and Sullivan—14.

NAYS—Baker, Holden, Moxon, Shackley and Waterhouse—5.

Communications.

A communication was received from the Mayor in relation to the resolution passed by the Council on street lighting, stating that he had investigated the subject. The company claimed the arc lights were fully up to the 1200 candle power called for in the contract and produced evidence to that effect. The incandescent lights in his opinion were failures and did nor think it wise to use them although he thought the company were trying to keep them in good order. He was not prepared to give an opinion at this time as to the policy of changing from electric lighting to the use of gas or oil and did not see that any action could be taken by the Council at present to bring about a more efficient lighting of streets. The executive department was keeping the company up to its contract as well as possible. Placed on file.

A communication was also received from the Mayor, suggesting that the Council take some action on the disposal of the Hose houses in Wards Two and Four. To Committee on Public Buildings.

The Mayor also called attention to the Council that the Auditor had reported that the appropriation for interest was exhausted and recommending an appropriation of $2400. To Committee on Finance.

A communication was received from the Auditor, stating that the appropriation for interest and Public Burial places was exhausted. To Committee on Finance.

An application for State Aid was received from Mary A. Whicher. To Committee on State Aid.

The Mayor forwarded a communication from the Assessors asking for the transfer of $125 from aalary of assessor for Ward Two, to the following: $100 for books and $25 for clerical series. The Committee on Finance.

A communication was received from the Auditor asking if he should approve bills amounting to $6,593.55 for extras on the new High school. Laid on the table.

A communication was received from the Wollaston Park and Norfolk Downs Improvement association inclosing a resolved passed by said association that some immediate action be taken by the city toward the erection of a school house in that section. Laid on the table.

An application to sell gasolene was received from Robert R. Smith. To committee on licenses.

Councilman Lennon offered a petition of John Donovan and others, that the gutters on Walnut street from Hancock to Myrtle streets be paved and to provide suitable crossings to opposite side of Hancock street. To committee on streets.

A petition was received from F. H. Crane & Sons and others that, Liberty street between Water street and Town brook, Penn street from Liberty street to Quincy street, and Quincy street from Penn street to Liberty street be regraded. To committee on streets.

Norfolk Downs Hearing.

At 8 o'clock a hearing was given to the petitioners from Norfolk Downs for the acceptance of Billings, Faxon and Rawson roads, Holmes and Moscow streets and Glover avenue.

B. L. Bissell the agent of Wood, Harmon & Co., was the first speaker, and made an earnest plea for the acceptance of all the streets. He claimed the residents were entitled to this because of the taxes they paid. By reference to the assessors' books you will find that in 1889 the valuation of the territory comprising Wollaston Park was $64,500, and the amount of taxes derived therefrom $842.06. The valuation of the territory comprising Norfolk Downs in the same year of 1889 was $60,000, the amount of taxes derived therefrom being $720; a total of the valuation of the two $124,500, paying total taxes of $1562.06. This year's valuation of land at Wollaston Park and Norfolk Downs assessed to Wood, Harmon & Co. is $347,095, and the taxes on the same amount to $6108.52. The individual taxes on the same property to people who have purchased and built homes there will aggregate at least $500,000 more, The taxes derived from same are between $8,000 and $9,000, so that we have in 5 years increased according to the assessors' figures the value of the two

POPULATION OF 3,000,000

If the Plans For a Greater New York Are Carried Out.

NEW YORK, Oct. 16.—The greater New York commissioners yesterday issued an address to the voters resident in the area of the proposed greater city. The address recites that the area proposed to be joined under our government comprises 317.77 square miles, all lying within a radius of about 16 miles from the city hall, and having a population of more than 3,000,000.

The territory of the greater city, as contemplated by the commissioners, includes the following civil divisions: New York city; Kings county—Brooklyn, Flatbush, Flatlands, Gravesend, New Ulrich, Jamaica Bay; Richmond county—Castleton, Middletown, Northfield, Southfield, Westfield; Westchester county—Port of Eastchester; Queens county—Flushing, part of Hempstead, Jamaica, Jamaica Bay, Long Island City, Newtown.

Electors are asked to observe that the vote amounts to nothing more than a simple expression of opinion on the general subject of consolidation. The vote will not be a finality, and no consolidation would result until further action by the legislature, prescribing methods, terms and conditions.

The Czar Hard to Please.

PARIS, Oct. 16.—One who is in a position to know states that the czarina, perceiving that the czar attributed his sufferings to the incapacity of the doctors, secretly summoned Professor Leyden, whose arrival had a great moral effect upon the czar, producing a great change. Unfortunately, progress is slow, and it is feared that the czar will become dissatisfied with Professor Leyden and call in others.

Death or Fortune Awaits Him.

HAVERHILL, Mass., Oct. 16.—Frank Hunt, who is accused of the murder of Henry E. Crosby of Merrimac, is one of the heirs to a fortune of $7,000,000, in what is known as the French spoliation claims. Although the evidence which has thus far been given against the boy on the charge of murder places him in a bad light, the parents still believe he is innocent, and the family believe he will be acquitted.

Between Two Fires.

FALL RIVER, Mass., Oct. 16.—The weavers who refused to go to work when the factory opened yesterday are very determined in their attitude toward the manufacturers. If they shall persist in remaining out the factories will close again at the end of the week and the weavers will neither be able to support themselves nor can they claim assistance from the authorities.

Official Trip Postponed.

NEW LONDON, Conn., Oct. 16.—Some alterations have been made in the machinery of the battleship Maine since her arrival here, and in consequence the horse power test which was scheduled for today was postponed for 24 hours. The torpedo boat Ericcson will probably make her official trip within the next two weeks.

Dangerously Sick.

PORTLAND, Me., Oct. 16.—Bishop Healy was taken violently sick Friday night and has been in a precarious condition ever since. It was the bishop's wish that his sickness would not be made public, but it was thought advisable not to conceal the matter longer.

Robbed by Providence Thugs.

PROVIDENCE, Oct. 16.—J. K. Davidson, who claims to represent one of the largest lumber yards in Boston, was murderously assaulted and robbed by two men on Kingsley avenue yesterday afternoon. His watch, about $100 and valuable papers were stolen.

Will Make It Interesting.

NEW YORK, Oct. 16.—Because of the refusal of the committee of 70 to endorse Otto Kempner for sheriff and other nominations favored by the Germans, the independent county organization here decided to place a third municipal ticket in the field.

Crew of Four Missing.

GREENPORT, N. Y., Oct. 16.—The S. S. Scranton, Captain Ranker, was lost off Long Island. The schooner had a load of bricks for Providence. She carried a crew of four men, who are supposed to have been lost, as nothing has been heard from them.

Can't Stand Severe Weather.

WASHINGTON, Oct. 16.—The health of Justice Jackson of the supreme court is such that he dare not undergo the winter weather in Washington, and he is making arrangements to go away soon. For a year his health has been poor.

Acknowledged Guilt.

CHICAGO, Oct. 16.—Detective Sutherland says that Knowles and Bedewe, two of the accused Grand Trunk wreckers, have confessed, and that George W. Johnson, a Battle Creek (Mich.) switchman, also accused, has been arrested.

Victims of the Big Storm.

APPALACHICOLA, Fla., Oct. 16.—In the recent storm 15 fishermen were lost on Sand island, 10 miles from here. It was known that these men were caught in the gale, but until now it was hoped that they had escaped.

The Sugar Market.

PHILADELPHIA, Oct. 16.—There is a much better demand here for refined sugar, and quite a large business was done yesterday. Prices are steady, but show no advance. Refiners are much encouraged and look for a good trade.

Something Unusual.

BERLIN, Oct. 16.—The company from the Paris theater Libre gave their first performance at the Residenz theater last night. This is the first time a play in French has been produced in Berlin since the war.

And Still Another.

BOSTON, Oct. 16.—At the Harvard football practice yesterday afternoon Richardson, left end, broke his collar bone. This is the sixth accident since practice began.

Boiler Exploded.

BRADFORD, Pa., Oct. 16.—A boiler at Kellerg's sawmill, near Sugar Run, exploded yesterday, killing two men and severely injuring a third.

Hill's Opponent.

NEW YORK, Oct. 16.—Everett Wheeler, independent candidate for governor, last night issued a letter accepting the nomination.

EX-MAYOR REPLIES.

Henry O. Fairbanks Writes an Open Letter.

TO MAYOR WILLIAM A. HODGES

He Promptly Denies the Report Published in a Boston Paper.

The following letters in answer to the report of a speech Ex-Mayor Fairbanks and a communication of the Board of Assessors thereon, are self explanatory:

Editors of the Daily Ledger:

I enclose a copy of the letter sent to Hon. W. A. Hodges, in reply to a communication in your paper of yesterday. Other gentlemen who were present on that occasion will, I think, bear me out in my denial of the words which reflected upon that board. Yours truly,

H. O. FAIRBANKS.

BOSTON, Oct. 11, 1894.

HON. W. A. HODGES,

Dear Sir:—In the issue of the DAILY LEDGER of yesterday, I noticed a communication from your Board of Assessors. Permit me to say to you, that in my remarks that evening, I made no reflections upon your Honorable Board and emphatically deny using the words a "deliberate plan," or any language to convey that meaning.

My personal acquaintance with the majority of that Board gives me a better opinion of their services due to you and to the city. Yours respectfully,

H. O. FAIRBANKS.

I was present and heard the remarks made by ex-Mayor Fairbanks. He evidently has been misquoted, as he made no reflection on anyone in regard to voters being dropped from the lists.

DANIEL KENT,
Secretary Republican State Committee.

WILL CONTEST.

The Kelliher Will Contest Decided in Favor of Quincy Contestants.

Michael S. Kelliher, before his death some three years ago, was a paper hanger. At his death he left property of the value of $75,000. He also left a will, but this was broken because of his incompetency. After the disallowance of the will Mrs. Catherine Sullivan of Quincy, since deceased, filed a petition for the partition of his estate among herself and his seven brothers and sisters.

Mr. John D. Kelliher of Deerfield, a brother of the deceased, opposed Mrs. Sullivan's petition on the ground that she was not a legitimate sister of the deceased, as she professed to be. Monday there was a hearing in the Suffolk Probate Court, before Judge McKim, on the petition of Mrs. Sullivan, which was pressed by her children, who live in Quincy. The Court decided that she was a legitimate sister of the deceased, thereby establishing the right of her children to one-eighth part of the deceased's property. The prayer of her petition, however, is to go into effect only when the inventory of the estate is filed, and an appeal will be taken to the Supreme Court by the heirs of Mary Keefe, a sister of the intestate, and by John D. Kelliher.

The brothers and sisters of the deceased who will take an interest in the whole property are John D. Kelliher of Deerfield, Cornelius Kelliher and Dennis Kelliher of Turner's Falls, Daniel Kelliher of Chicago, Honora Sweeney of Leyden, Ellen Kelliher of Leyden, the heirs of Mary Keefe of Greenfield and the heirs of Catherine Sullivan.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

The Republican and Democratic County conventions will be held Wednesday. The former in Boston and the latter in Dedham.

If nothing goes amiss Wollaston will again have a strong trio of Republican Councilmen in the City Council next year. The members who represented that progressive ward so acceptably the past year have signified a desire to retire. Councilmen Robbins, Litchfield and Snow find that their business cares are increasing and demand their undivided time. Wollaston has been always fortunate in being represented by able men in the city government. Three prominent men have been approached and requested to allow their names to be used at the municipal caucus. They are, Mr. Charles M. Bryant, Mr. N. G. Nickerson and Mr. Walter S. Pinkham, They have for years taken an active part in the party councils as advisers and leaders and are familiar with the needs of the ward and city.

New applicants for naturalization are Patrick Ford, Alexander Chalmers, Archibald McCormick, Maurice Ferriter, Olaf P. Nordenson.

This week has been a busy one thus far for the District Court officials granting final naturalization papers, as those who wish to vote at the coming election must register before Wednesday evening. It is a noticable fact that nine-tenths of these naturalized reside in Quincy.

☞ Of course, some people will go to Boston to buy goods, that's to be expected, but experience and observation both show that it is the wisest economy to buy Furniture right here in Quincy. Goods reliable, low priced and just as represented or money refunded at the store of Henry L. Kincaide & Co.

DEAR, DEAR, DEAR!

Horrible News From the Orient Received Through a 3 1-2 Inch Cable.

The retreat of the Chinese army from Korea without having made any great show of resistance has set all the military men guessing. No one can tell why the emperor should allow the seat of war to be transferred to his own domain. It will be seen at a glance that for the purpose of fighting Korea is far better than the Chinese frontier. In the face of all this and for no apparent reason the troops of the emperor have been withdrawn, and the Japanese have been allowed to mass their armies on the peninsula which composes Korea.

If a story which came out today is true, all the slighting things said of the Celestials and their leaders will have to be withdrawn. What is apparently the most flagrant piece of military mismanagement may be a stroke of genius which will set the achievements of all the great tacticians of history far into the background.

The plot, as declared by several minor officials, is in substance as follows: All the troops, agents and sympathizers of the Chinese are to be withdrawn from the peninsula of Korea. This is an invitation for the Japanese to greatly augment their armies upon the peninsula preparatory to a bold march into China. So far the plan has worked to perfection. And now there only remains the greatest coup ever attempted in any age. The plan is to cut a deep trench entirely across the isthmus connecting Korea to the mainland of Asia and to the Chinese empire. The structure of the point of land is a heavy layer of shale, resting upon bedrock. At every point where the Chinese army of occupation has camped, it is alleged, holes have been drilled, and immense quantities of lubricating oils have been forced down upon the surface of the bedrock. As the various divisions have slowly retreated apparently before the oncoming Japanese, these operations have been continued. The next move will be the last, according to the informers.

As soon as the Japanese are massed upon the peninsula the function of the trench will be made evident. It will be cut down to bedrock, and a large quantity of dry timber will be tightly wedged in. Above that at a little height iron bars will be placed. The timber idea is one borrowed from the Egyptians in their operations by which the obelisks were cut out in single immense blocks. Water will be poured in, and the timber will swell, exerting a powerful pressure. Then, by means of electric appliances the iron bars or blocks will be quickly heated to a high temperature and thereby expand, adding greatly to the force which the swelling timbers will be putting forth. Last of all, the entire Chinese army will be set to work in the trench, which will be hundreds of miles long. Each man will be armed with a powerful hydraulic jack, which he will operate when the iron and wood are getting in their best work.

The bedrock slopes seaward, and the result may be better imagined than described. The shale, having been thoroughly lubricated, will slip with comparative ease on the smooth surface of the rock, so think the Chinese engineers. Thus, when the millions of tons of pressure is brought to bear, the entire peninsula is expected to start slowly on its foundations. Then, as the great mass gathers headway like a launching ship, it will increase its speed and finally dash into the Japan sea.

Instant and complete destruction will fall upon the armies of the mikado as well as upon every man, woman and child in Korea. Nothing in the way of annihilation can compare with this except perhaps the fate of Pharaoh's army in the Red sea.

The immediate effect upon the Japan sea can scarcely be imagined. The Chinese warships will have been withdrawn to some safe haven, and the total destruction of nearly all of Japan's navy is assured.

The tidal wave is expected to almost wipe out the Japan islands. The waters will probably pour over the islands and sweep them of every vestige of animal and vegetable life.

This may sound like the dream of an insane man, and in order to carry weight with it your correspondent had the affidavits of his informants duly prepared. Unfortunately, however, the Chinese notaries have a seal nearly four inches in diameter, so when an attempt was made to cable the affidavits they stuck, as the cable is only 3½ inches through.—Loo-Jac Special to Cleveland Plain Dealer.

French Detectives on Bicycles.

The precautions which have been taken for the protection of the president of the French republic have in no way been relaxed. The police bicycle corps is now used for this service whenever the president drives about Paris. On his return to the city from his country home several detectives on bicycles accompanied the carriage, surrounding it on all sides. The French police are also making practical use of detective cameras. They shadowed two suspicious characters who were selling securities to money changers in Paris, and on the way to their lodgings the detectives succeeded in getting a good snap shot at them. They took the plate to headquarters, found that the photographs corresponded to those of two expert swindlers and returned and arrested them. They had a large amount of stolen booty, which they have been gradually turning into cash.—Paris Letter.

Imperial Federation Agitation.

Some of the leading members of the defunct Imperial Federation league are preparing for the active propaganda of its principles, but on different lines. It is proposed to divide London and other large cities into small areas, in each of which lecturers shall labor regularly, taking imperial unity as their text. The new programme is not so ambitious as the old one, but is not likely to prove more successful, the masses being still suspicious that imperial federationism is merely Torvism in disguise.

WAS A KNOCK OUT.

properties from $124,500 in 1889, which paid total taxes of $1562, to a grand total of nearly $900,000, paying about $15,000 in taxes.

Other speakers in favor were John S. Blagdon, H. S. Barker, T. H. Kingston, Louis Rinn, H. E. Weymouth, President Brown of the Atlantic Land Company, S. E. Blanchard and Charles T. Marr. All were allowed the greatest freedom and the Council found that there were many other improvements besides streets which the district wanted, principally a school house.

Ex-Councilman Peter T. Fallon of West Quincy embraced the opportunity to deliver one of his amusing characteristic speeches. He was glad to see the Norfolk Downs people out in large numbers, and would like to see their streets accepted. But he knew residents for 50 years who did not live on accepted streets, and thought the Downs people were fortunate to have as good streets as they had. He was the heaviest teamster in the city and had carted many foundation stones there and had never got stuck. Many sections were clamoring for better streets. Under Republican administrations West Quincy had not expected much, but under the present Democratic administration it had expected considerable and got nothing. He had dropped $500 in taxes in the slot the other day and got nothing. Quarry street was the worst street in the State. He had broken 13 axles there this year.

The hearing closed at 8.30 and the order was recommended to the committee.

Other Reports.

The Committee on Water Supply reported an order for $400 for the rebuilding of a retaining wall on Willard street. Passed.

The same committee reported that orders 42 and 81 for specific extension of water mains ought not to pass. Accepted.

The Committee on Finance reported an order appropriating $800 additional for burial places. To second reading.

The applicants for licences were granted leave to withdraw. Also an applicant for State Aid.

New Orders.

Councilman Moxon reported an order appropriating $2400 as requested by Mayor for interest amount. To Committee on Finance.

Councilman Sullivan reported an order authorizing City Clerk to issue warrants for State election of Nov. 6, polls to remain open from 6 A. M. to 4 P. M. Adopted.

Councilman Johnson offered an order requesting the Commissioner of Public Works to repair Main street. Adopted.

The Second Round.

Councilmen Johnson moved to reconsider the rejection of the order granting transfer of sparring license, and spoke in favor.

The vote was reconsidered, and the order again came up for passage.

Councilman Holbrook favored granting. He would like to attend one just to see what they do.

Councilman Moxon did not wish to oppose report of committee, but opposed these exhibitions.

Councilman Baker stood up bravely and announced that he should vote against each and every time.

Councilman Holden got off the track and charged Councilman Johnson with being owned by corporations.

Councilman Johnson demanded that Councilman Holden back up his charge, and the chair called Holden to order.

Councilman Johnson desired to speak further, but the chair thought it had gone far enough.

Councilman Federhen came to the rescue and Councilman Johnson was allowed to proceed.

Councilman Johnson said it had been his aim to be a faithful servant of the people and the taxpayers. He denied the charge. He believed Council should help the street railway, as it was a benefit to the city.

Councilman Anderson had voted in favor by mistake and should vote "No" this time. Councilman Clark also.

Councilman Shackley opposed on principle.

Councilman Bigelow favored athletic exhibitions.

The license was rejected by vote of 12 to 7, viz:

YEAS—Adams, Babcock, Bigelow, Federhen, Holbrook, Johnson, Lamb, Lennon, McKeon, O'Brien, Snow and Sullivan—12.

NAYS—Anderson, Baker, Clark, Holden, Moxon, Shackley and Waterhouse—7.

REV. JOHN T. JOHNSON.

Sketch of the New Pastor of the Swedish Lutheran Church.

The theol. student, John T. Johnson, who now has charge of the Swedish Lutheran congregation in this city is twenty-four years old, and was born in Oeland, Sweden. Having gone through with his studies in the public schools he entered a college in the city of Borgholm. Thereafter he attended one of Sweden's higher schools in Culmar for several years. Coming to this country in August, 1892, he took up his studies at the Swedish University in Rock Island, Ill. Under the summer vacation 1893, he had care of the Swedish Lutheran congregation in Skance, Mich., and came to Massachusetts under the fall of the same year, where he has had charge of the Swedish Lutheran congregations in Lynn, Salem and lately in Campello. He has not yet gone through with all his studies, and intends to take them up again as soon as money will allow it.

THE SQUANTUM CLUB.

A Banquet and Smoke Talk Winds Up the Season.

The Squantum Yacht club wound up its season Monday evening by a large gathering of the members at the club house at Norfolk Downs, and although everything on the outside was cold and disagreeable, all was warmth within and winter was not even thought of.

The club's beacon light on the outside of the building burned brightly and guided those without to a safe and pleasant harbor, and it goes without saying that none came that way who were not made more than welcome.

The club members believe in tenderly caring for the wants of the inner man first, and therefore the first thing in order was a banquet, to which all did justice. This pleasing occupation over a requisition was made upon things smokable and soon the air was full of smoke from T. D.'s, Blackstones, cigarettes, corn cobs, etc.

Then it was that the talk commenced, in which nearly all took part. The talk was all about yachts and yachting, the several good and poor qualities of the flyers being discussed informally at length. Plans for the ensuing year were also discussed and the outlook for next year's races is most promising.

PARLOR STOVES and RANGES
Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,
$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MAGEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,
$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,
75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,
55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size blankets, equal to those always sold for $1.50.

The Massachusetts Board of Health
IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines, ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

"All in a Row."

It is a unique sight to view at Carlsbad the motley row of drinkers of all nations, languages, manners and costumes hurrying down in single file to the boiling Sprudel Spring with an earthenware mug in their hands, or slung by a strap round the neck or over the shoulder, and patiently waiting their turn to sip of the precious fluid. For three centuries or more, all sorts and conditions of men, from the king to the tramp have pilgrimized hither in search of new life or relief from pain. But we cannot in these competitive days afford the time and money to travel so far afield, so it is brought to your doors bottled in its natural and original form at the Spring, or in powder evaporated on the spot, and so well known as the Carlsbad Sprudel Water, and Carlsbad Sprudel Salt. The signature, "EISNER & MENDELSON Co., Sole Agents, New York," is on every bottle. Beware of imitations.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

THE PAMIRS MUDDLE

Threatens to Add Considerably to the Present Eastern Complications.

RUSSIA'S KNOCK AT INDIA'S DOOR

May Follow the Death of the Ruler of Afghanistan.

LONDON, Oct. 16.—A dispatch from Simla says that the news of the impending death of the Ameer of Afghanistan is a great surprise. He is known to have bright's disease of the kidneys, but it was not thought that he was seriously affected.

For the present, Mr. Pyne, the English engineer who started a factory for the manufacture of guns, rifles and cartridges at Cabul, in addition to turning his attention to the manufactures of articles of commerce, wine, soap, paper, etc., at the capital of Afghanistan, and the other Europeans, including Miss Hamilton and the lady doctors, should be assured protection by the ameer's eldest son, Sardar Habibulla Khan, who presumably will assume the direction of affairs.

The policy of the Indian government will have to be declared promptly, it is added, and it is believed that Habibulla, if assured of British support, will be able to hold his own. The friendly relations between Great Britain and Afghanistan has not been broken since the successful mission last year of Sir Mortimer Durand to the city of Cabul.

General Roberts' Views.

General Roberts of Kandahar, V. C., formerly commander-in-chief of the British army in Idia, was interviewed in regard to the sickness of the Ameer of Afghanistan, in view of the fact that his death would be likely to add considerably to the Eastern complications.

Lord Roberts said: "Similar reports of illnesses from which the ameer has recovered have reached India in years gone by. But the ameer is now older and the constantly recurring attacks of the gout must have seriously undermined his general health. The news, doubtless, was brought from Cabul to Peshawer by horsemen, and was telegraphed from the latter place to Simla."

If the Ameer Dies.

The death of the Ameer of Afghanistan might easily lead to a diplomatic if not armed collision over the Pamirs question. The ameer's friendship for or fear of England has led him to favor Great Britain in her struggle to keep the Asian gateway to India closed against the Russian. The ameer has been courted by both England and Russia, but he finally favored the former, and made an agreement with Sir Henry Mortimer Durand of the Indian foreign office, which, during the ameer's life at least, holds Russia in check at this point.

Briefly summed up, the result of these negotiations was as follows: The ameer has withdrawn all claims to Chitral, Bajaur, Swat and all the neighboring frontier states in Indus-Kohistan, together with Waziristan, where he had a post that caused some trouble. This insured the safety of the Gomul route and completed the Zhob valley frontier.

In fact, it not only brought within the acknowledged and undivided sphere of British influence the wild region in which disturbances occurred so recently as the latter part of 1892 and the first quarter of 1893, but it also left indefinitely under British control the approaches to India on the southeast of the Pamirs. The tracts between the Punjab and Afghanistan, in which the ameer's interests had proved detrimental to good order among the hill tribes, were freed from his claims. No further opposition was offered to the railway terminus at New Charman.

England's Part of the Bargain.

In return for these concessions Great Britain permitted the unrestricted importation into Afghanistan of arms and stores; confirmed the ameer in the possession of Kasir and the Kunar valley; left the Kuram valley settlement undisturbed, and raised the annual subsidy to the ameer from 12 to 18 lacs of rupees (from $375,000 to $560,000).

Before the mission left Cabul the ameer publicly affirmed his friendship with England, holding a grand conference for that purpose. He congratulated his people on securing such a good friend as the British government, "which had no designs on their country and whose interests were identical with their own."

Toasted the Czar.

BERLIN, Oct. 16.—The Emperor Alexander regiment of the Prussian Guards celebrated yesterday the 80th anniversary of its foundation. At the banquet given in honor of the occasion, General Hahnke offered a toast to the czar and expressed the wish that his majesty might yet live for many years.

Plans of the Clevelands.

BUZZARD'S BAY, Mass., Oct. 16.—President and Mrs. Cleveland will not leave Gray Gables until next week. The president will go direct to Washington, but Mrs. Cleveland expects to visit the Benedicts in Greenwich and stop over in New York.

Quarrelled Over Whisky.

PORTLAND, Me., Oct. 16.—Roger Hagerdon of Westbrook got into a quarrel with Joseph Molia over a bottle of whisky and stabbed him in the neck and also in the arm. Hagerdon is under arrest. Molia is in a precarious condition.

Accounts Are Short.

MARQUETTE, Mich., Oct. 16.—The accounts of Thomas D. Meade, ex-receiver of the United States land office, have been found short, and his bondsmen have been notified. It is impossible, as yet, to tell the total shortage.

To Test the Serum Cure.

PARIS, Oct. 16.—The budget committee of the chamber of deputies has resolved to insert in its estimates a credit of 100,000 francs to be devoted to a trial of the serum used as a preventive against diphtheria.

May Not Accept.

NORWICH, Conn., Oct. 16.—Ex-Governor Thomas M. Waller of New London was nominated for congress by the Democrats of the Third district, but it is doubtful if he will accept.

Portugal's Vintage Favored.

OPORTO, Oct. 16.—The vintage is practically ended, and promises to be far superior to the expectations, owing to the fine weather that prevailed during the past month.

THE OYSTER INDUSTRY.

Thirty Thousand Persons Are Interested In It This Season.

BALTIMORE, Oct. 16.—The season for dredging and scraping for oysters in Maryland waters opened yesterday. The prospects are that a large volume of business will be transacted. More vessels are engaged in the oyster business this season than for several years, and the failure of the fruit crop is expected to create a good demand for oysters.

The entire fleet engaged in dredging will number 1500 vessels. Each vessel will employ on an average eight men, and 12,000 men will be employed in the business until April. This number does not include the tongers, and in the counties 7000 men are engaged in tonging.

The packing houses in Baltimore and at points on the eastern and western shores employ about 10,000 people. A careful estimate recently made by a prominent packer places the number of persons interested in the oyster industry at 30,000.

Verdict Against a Lawyer.

CAMBRIDGE, Mass., Oct. 16.—In the case of Mrs. Mary A. Collins of Chicopee against Lawyer W. H. Brooks of Holyoke, the Middlesex county jury returned a verdict of $350 in favor of the plaintiff. Lawyer Brooks was counsel for Mrs. Collins in a case in which she received a verdict of $750. Mr. Brooks drew a check for $350, which he gave to Mrs. Collins, retaining $400. Mrs. Collins therefore brought suit for the check.

Officer May Have Erred.

COLORADO SPRINGS, Oct. 16 — James Cannon and Thomas Short, arrested on a charge of having robbed a gambling hall, attempted to escape from the officers who were bringing them to jail at Divide. Deputy Sterling shot both, killing Cannon and dangerously wounding Short. It is believed the men were innocent of the crime with which they were charged.

Killed In a Lumber Mill.

GREAT BARRINGTON, Mass., Oct. 16.—William Dutcher, employed at a lumber mill, was struck in the chest by a board caught in an edging machine and instantly killed. He leaves a widow and three children here and four children in the Home for Little Wanderers in Boston.

No Money Forthcoming.

PROVIDENCE, Oct. 16.—J. J. McGill, who was to defend Keegan, the murderer, states that it is doubtful if he can take the case, as the prisoner is without money. Keegan spends his time in the chair shop at the prison, and seems to be perfectly unconcerned about his fate.

Ample Funds Ready.

DOVER, N. H., Oct. 16.—The Mule Spinners' association here received a letter from National Secretary Ross saying he and Secretary Howard would come to Dover if needed to help adjust the labor difficulty, and that all the funds necessary could be had to prolong the strike.

Is Long Overdue.

PORTLAND, Me., Oct. 16.—The fishing schooner Lucy M. Dyer, Captain Jackman, of Gloucester, Mass., which sailed from this port about two months ago, has not been heard from recently, and grave fears are entertained for her safety. She carried a crew of 18 men.

Weavers' Grievances.

NEW BEDFORD, Mass., Oct. 16.—Weavers at the Hathaway and Acushnet mills threaten to strike on the ground that the mill managers have failed to live up to the agreement, by not conforming to the demands of the particulars law.

Brooklyn Won.

NEW YORK, Oct. 16.—The first championship game in this city of the American League of Professional Football clubs was played at the Polo grounds between the New York and Brooklyn teams. Score—Brooklyn, 6; New York, 0.

No Arrests Yet.

BALTIMORE, Oct. 16.—Baltimore police authorities deny out-of-town rumors that any arrests have been made here of persons suspected of having been in any way connected with the Virginia train robbery.

To Leave Great Britain.

ROME, Oct. 16.—Count Tornielli Brusati di Vergano, Italian ambassador to Great Britain, will shortly be transferred.

Alix at Mystic.

MEDFORD, Mass., Oct. 16.—Alix, the famous bay mare, arrived at Mystic park yesterday from Lexington, Ky. She races with Directum next Saturday.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

WIJU, Oct. 17.—The Japanese and Chinese armies are facing each other on the banks of the Yalu river. Both sides are perfecting their preparations for battle. Not a shot has been fired yet. Field Marshal Count Yamagata, commander of the Japanese forces, is awaiting the arrival of supplies and heavy artillery. Spies report that the Chinese army is 25,000 strong.

Japanese scouts have brought in detailed information as to the condition of the Chinese defenses, showing that they are not so strong as the first reports indicated. The Chinese artillery is shown to be less formidable than the Japanese had supposed. A decisive attack is expected shortly. Various indications justify the belief that the chief stand of the Chinese will be at Kubenchao.

Foreigners Well Protected.

WASHINGTON, Oct. 17.—Officials of the Chinese legation say Americans residing in China will be given ample protection as long as the war exists. The legation shares the feeling expressed in recent cables from Pekin that foreigners have nothing to fear from outbreaks of natives. The newspapers and private advices received at the legation make no mention of the extreme disorder and panic at Pekin which the cables reported, and the officials think these reports were unwarranted and came through prejudiced channels. It is pointed out that rowdy outbreaks are likely to occur in war times, but it is stated with positiveness that the Chinese government has expressed no doubt of its ability to control these local outbreaks, as reported, and that it now assures American and other foreign residents of complete protection.

A Japanese Triumph.

SHANGHAI, Oct. 17.—A report is in circulation here that Port Arthur has been captured by the Japanese. This port is one of the most important of the Chinese strongholds, and was the place of refuge of the Chinese fleet after the battle of Yalu, the disabled ships having been refitted there.

Freemantle Will See It Out.

LONDON, Oct. 17.—The Standard this morning says it has been arranged that Vice Admiral Freemantle, commander-in-chief of the British China station, whose appointment to that command expires shortly, will remain in Chinese waters during the war.

Japs Were Respectful.

TOKIO, Oct. 17.—Several hundred Chinese prisoners, who were taken at the battle of Ping-Yang, arrived in Tokio yesterday. The street crowds indulged in no insults or signs of exultation.

Bound For Hong Kong.

SINGAPORE, Oct. 17.—The first-class British cruiser Crescent, mounting 13 guns, has sailed hence for Hong Kong.

Old Ocean's Victims.

GLOUCESTER, Mass., Oct. 17.—The year closing this month has been one of the most disastrous in the history of the Gloucester fisheries. The sacrifice of life attending this hazardous occupation greatly exceeds that of the previous year, while the loss of vessel property in connection with the fishing industry is about the greatest ever recorded in a single year from this port. Twenty-nine vessels were lost and a total of 112 men were drowned. A large number of widows and children are left dependent upon charity.

Opposed For Re-Election.

WORCESTER Mass., Oct. 17. — At the annual meeting of the Worcester Young Men's Christian association all the directors nominated were elected unanimously except Charles M. Rogers, the president of the Methodist Social union. The opposition of Mr. Rogers was led by General Secretary Gale, who based his objection on the ground that Mr. Rogers was addicted to the use of tobacco.

Prince's Life In Danger.

TANGIER, Oct. 17.—Morocco city is in a state of rebellion. The sultan's caliph, Prince Muley Abbas, is hemmed in by the insurgents, owing to his attempt to execute the sultan's order to arrest Caid Behama. The caid finally committed suicide in order to avoid being taken into custody.

Merchants' Week at Laconia.

LACONIA, N. H., Oct. 17.—The parade of the fire department took place yesterday, it being the opening event of merchants' week. Several visiting companies were present. In the hand tub contest the Lakeport company took first prize. A parachute leap was made by Miss Haven.

Testimony All In.

BOSTON, Oct. 17.—The commission on the unemployed has virtually concluded all its public hearings and is now at work reading over the vast amount of evidence already accumulated. The commission will soon begin on its report to the next general court.

Handled the Gun Carelessly.

NEW BRUNSWICK, N. J., Oct. 17.—Oscar Drake, 24 years of age, was cleaning his gun and did not know it was loaded. The gun was carelessly pointed toward his niece, aged 6, when it was discharged. The child fell dead in his arms.

BRITISH BURNED KINGSTON.

Patriotic Women Commemorate the Event by a Big Celebration.

KINGSTON, N. Y., Oct. 17.—The burning of Kingston by the British forces under General Vaughan, Oct. 16, 1777, was commemorated with most interesting exercises at the old senate house here under the auspices of Waltwick chapter, Daughters of the Revolution. The old structure, as well as the streets in the vicinity, was gaily decorated with flags and bunting. Many patriotic daughters from other states and cities were present.

Guests of the chapter were provided with a luncheon in the quaint old kitchen. After this, addresses were made by Mary I. Forsyth, regent of the chapter, and others. A paper on "Kingston and the Distinguished Sons of '76," was read by Mrs. Leduc, great-granddaughter of Governor Clinton, and an address on the "Old Senate House" was read by Mrs. Clearwater. This was followed by the poem on the "Burning of Kingston," a recent production of Will Carleton's, recited by Mrs. Madden.

At the close of these exercises the daughters drove with their guests to Hurley, over the same road taken in the famous flight of the women and children to escape the destruction of their homes. The old revolutionary houses at Hurley were inspected, and the entire party was entertained in one of them by Mrs. J. T. Winkoop, the present officer.

HAS QUIT DRINKING.

Sullivan Will Once More Devote His Attention to the Prize Ring.

PHILADELPHIA, Oct. 17.—John L. Sullivan last night summoned a party of newspapermen to the theater where he is filling an enaagement, and talked. He said that Al Johnson has offered to back him for $20,000 a side to fight the winner of the coming Corbett-Fitzsimmons battle, and he thinks he will go in for it. However, he believes that Corbett will not fight "Lanky" Bob. "He's got too much money," said John, "and moneyed men don't want to take any chances."

The ex-champion said: "I quit drinking last Sunday for good, and I'm going to be a different man. Then I'll fight anybody who comes along. I'm only on the stage for a little while."

Bayard Welcomed Home.

WILMINGTON, Del., Oct. 17. — Wilmington gave a rousing "welcome home" last night to Thomas F. Bayard, United States ambassador to Great Britain. The city was brilliantly illuminated and decorated and 10,000 people turned out to do Mr. Bayard honor. The opera house was crowded with a representative audience. Three hundred members of the Bayard legion acted as the ambassador's escort to the opera house. The procession was loudly cheered, and at the opera house the assemblage gave Mr. Bayard a demonstrative welcome as he walked upon the stage.

In the Nick of Time.

CHATHAM, Mass., Oct. 17. — During a heavy southerly gale, yesterday afternoon, schooner Ellen Morrison of Bangor, Me., Captain Nye, lumber laden, for New London, Conn., was driven ashore in the breakers on the dry part of Shovelful shoal. She was seen by the watchmen in the watch tower of Monomoy lifesaving station, and Captain Tuttle and crew succeeded, after a perilous battle with the waves, in landing the crew of the Morrison in safety.

Olney's Tip.

WASHINGTON, Oct. 17.—Attorney General Olney has informed the United States district attorneys in reply to numerous inquiries that "It is contrary to the rule of this department, uniformly laid down in every case in which application has been made, that district attorneys should actively participate in political campaign work."

Czar Losing Strength.

ST. PETERSBURG, Oct. 17.—A bulletin signed by Professor Leyden and Drs. Zachinera, Poppf and Beljaminoff says: "The disease of the kidneys shows no improvement. His majesty's strength has diminished. It is hoped that the climate of the Crimea will have a beneficial effect on the health of the czar."

A Bomb For Somebody.

HAVERHILL, Mass., Oct. 17.—Alfred A. Ordway, in looking about the new Pentucket club building, discovered a dynamite bomb so constructed that any violent contact with another object would at once cause an explosion. The police have formed no theories as to why or how the bomb was placed there.

Big Financial Deal.

OKLAHOMA CITY, O. T., Oct. 17.—A mortgage of $1,000,000 in favor of the Finance company of Pennsylvania on the property of the Choctaw, Oklahoma and Gulf road has been filed in this city.

Killed by Surgical Operation.

MINNEAPOLIS, Oct. 17.—Mrs. Bettie L. S. Harrison, widow of the eldest brother of ex-President Harrison, died here as the result of a surgical operation. She was 58 years old.

Northern and eastern beef cattle—The demand was active, and among the arrivals were some very good fat cattle, which drovers had no difficulty in disposing of at prices fully as strong as those received one week ago.

Milch cows and springers—The supply was light and the demand was fair.

Veal calves—The supply was fair, the demand active and buyers fixed prices immediately upon the stock being unloaded from the cars at quotations which were a shade stronger than a week ago.

Sheep and lambs—The receipts from the New England states were light. The quality was poor. Drovers were asking prices which drove buyers to the fence, and in retaliation the buyers offered prices which almost brought tears to the eyes of drovers.

Swine—The supply was very light, and prices showed no change from those of last week.

IN HOLIDAY ATTIRE.

All Wiesbaden Turned Out to Pay Tribute to Emperor William.

THE WILLIAM I STATUE UNVEILED.

The Royal Theater Opened For the First Time.

WIESBADEN, Oct. 17.—This beautiful watering place was crowded with enthusiastic Germans yesterday, and the town itself was brilliant with holiday bunting in honor of the visit of Emperor William, who arrived here to unveil the monument to the memory of his grandfather, Emperor William I, and to open the splendid Royal theater. The Royal theater of Wiesbaden cost 4,000,000 marks, and his majesty grants it an annual subsidy of 250,000 marks.

STATUE OF EMPEROR WILLIAM I.

At 4 o'clock in the afternoon, the civil and military notabilities began gathering at the railroad station, which was gorgeously brightened up. Punctually at 4:30 p. m., the imperial train arrived, and Emperor William, upon alighting, was formally received by Mayor von Ibel. The emperor was accompanied by a suite of 16 persons.

The party proceeded in open carriages to the south front of the new theater, opposite which stands the statue erected in honor of Emperor William I, the present emperor's grandfather. A guard of honor, composed of non-commissioned officers, escorted the emperor through the streets, which were

Lined With Troops and Police.

Upon arriving in front of the statue his majesty was conducted to a gorgeous pavilion which had been specially erected for the unveiling ceremony. The pavilion was draped with red velvet and surmounted by a huge gilded imperial crown. Around this structure, in a semicircle, were a number of tribunes, built with seats, which were filled with distinguished ladies and gentlemen who had been invited to be present at the ceremony.

After singing upon the part of a male chorus, Mayor von Ibel made a short speech of welcome, referring in the warmest terms of praise to Emperor William I and his worthy grandson. The emperor then unveiled the monument and the ceremony was

Concluded With More Singing.

It was noticed that the emperor did not appear to entirely approve of the statue or the position which it occupies.

After dinner Emperor William went with his suite to the new theater, where the audience was entirely composed of invited guests. The interior of the theater presented one of the most brilliant spectacles it is possible to imagine. Nearly all the men wore uniforms, which were glittering with orders, and all the ladies were in full evening costume.

The first row of dress circle was reserved exclusively for ladies, as at the gala performance at Berlin.

After the performance the emperor supped with Rittmeister von Hulsen, director of the theater. He left for Berlin by special train.

The Doctor Objects.

NEW YORK, Oct. 17.—Dr. Austin Flint has filed objections to the probate of the will of his mother, who left part of her estate to the contestant, but the major portion to her grandson, Grover Flint, the property to be turned over to the latter when he attains his 35th year.

Aaronize Not Responsible.

NEW YORK, Oct. 17.—Louis Aaronize, owner of the building 74 Monroe street, which recently collapsed and caused the death and injury of seven persons, was discharged yesterday afternoon by Justice Sims, who held that he was not responsible for the accident.

Socialists vs. Brewers.

BERLIN, Oct. 17. — Socialist meetings were held yesterday in 47 places in Berlin and its suburbs. The boycott against the beer brewers was the topic of discussion. Resolutions declaring in favor of generally continuing the boycott were adopted.

Audience Were Disappointed.

PHILADELPHIA, Oct. 17.—Dr. Stoddard, the lecturer, was to have delivered a lecture on "Switzerland" at the Academy of Music last night. The house was crowded, but the management announced that no lecture would be given.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

ANNUAL SALE

OF

PARLOR STOVES and RANGES

Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,

$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MAGEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,

$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,

75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,

55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size blankets, equal to those always sold for $1.50.

MANCHESTER—DELL.

Miss Lillie Zoe Dell Becomes Mrs. Harry E. Manchester.

No. 11 Filbert street, West Quincy, was the scene of a pretty wedding Tuesday evening, when Miss Lillie Zoe Dell was united in marriage to Mr. Harry E. Manchester of Fall River, the ceremony being performed by Rev. E. W. Virgin, pastor of the West Quincy Methodist church.

Mr. Peter Laurandeau of West Quincy, was best man, and Miss Priscilla Bertrand of Rockport, was bridesmaid. Mr. Stanley Tibbetts of Brockton, and Mr. Eli Bertrand of West Quincy, officiated as ushers.

The bride was gowned in a pearl gray satin, and a tulle veil, the dress being trimmed with point lace. Brides roses and smilax were worn on the hair and she also wore the same flowers on the corsage.

The bridesmaid wore a yellow cashmere and had a corsage bouquet of brides roses and smilax.

A wedding supper was served after the ceremony which was followed by dancing.

After a brief wedding trip Mr. and Mrs. Manchester will reside at No. 11 Filbert street, West Quincy.

Guests were present from Quincy, Fall River, Weymouth and Brockton.

Ely—French.

The Universalist church, Hyannis, was the scene of a brilliant wedding on Thursday last, the contracting parties being Miss Marion Rebecca French, daughter of Mr. J. H. French, Supt. of the Cape Cod Division, N. Y., N. H. & H. R. R., and Mr. Lester Hallett Ely, son of Mr. E. B. Ely, president of the Coxe Brothers Coal Mining Corporation of New York. The ceremony was performed by the Rev. George L. Wheeler of Bridgewater. The maid of honor was Miss Leona E. French sister of the bride, and the bridesmaids were the Misses Lamkin of Boston. The best man was Mr. G. J. Hearne of Wheeling, W. Va., and the ushers were Mr. Charles W. Gearhart, N. Y., Mr. Edward L. Eagleston and Mr. William J. Hallett of Hyannis.

The bride was richly attired in ivory satin, cut *en traine* and handsomely fashioned, and trimmed with costly lace. She wore a veil of tulle fastened with lilies of the valley, and carried a boquet of white bridal roses.

Immediately following the ceremony a reception to relatives and immediate friends was held at the home of the bride.

After the reception the bridal party took the afternoon train in a special car for Boston.

Mr. and Mrs. Ely will reside at Bayonne City, N. J.

Among the well known people present were Mr. and Mrs. Samuel F. Howard and Miss Howard of Wollaston.

Is it a playground for Ward Four or Five?

Were the Park Commissioners authorized to build roads?

Who are benefitted by the playgrounds?

Who knows anything about the playgrounds?

Is Ward One to be left out in the cold?

Which ward uses Merry Mount park the most?

Why should Wollaston have two playgrounds?

How many playgrounds are located to suit the people of the wards?

Did the playgrounds purchased cost the city too much?

How much should C. F. Adams be assessed for playgrounds?

Why should $50,000 be raised by loan if not needed?

Is it right to mortgage the city for fifty years?

What will be done with the balance?

Should it not be applied to the payment of the maturing water debt in 1895?

Are you tired?

Good Scores.

Two of our well known marksmen braved last Saturday's storm and had a shoot on the grounds of the Wollaston Trap club. Mr. Prescott made a remarkably good score, breaking 22 out of a possibly 25 blue rocks, 21 being straight. Mr. Sanborn also did good work, taking into consideration the severity of the storm

At the annual meeting of the Young Men's Christian Association Tuesday evening the following directors and officers were elected:

Directors for three years, B. F. Thomas, Cyrus F. Sherman, Reuben S. Elliott, George A. Sidelinger and Peter Dackers.

Everett S. Litchfield and Ernest D. Gourd were elected to fill vacancies caused by resignation of Fred E. Litchfield and Alex. Clark.

E. W. Branch was re-elected recording secretary and George W. Sidelinger treasurer.

Immediately following the annual meeting the Board of Directors met and re-elected T. Henry Wason president and Amos D. Alber vice-president.

The treasurer reported as follows:

Balance on hand Oct. 10, 1893,	$17 14
Received during the year,	$3,250 72
Expended during the year,	3,221 47
Balance,	$46 39
Indebtedness,	$1,385 20

Owing to the absence from the city of the chairman, the finance committee did not report the amount of the unpaid pledges, which will reduce the indebtedness.

The membership committee reported:—Total number of men, 270; total number of boys, 25.

Of these 130 have full privileges, 53 limited and 87 sustaining. The active membership is 109, associate 161.

The total attendance at the Sunday afternoon meetings was 2,376, an average of 46.

The total attendance at the boys' meeting was 1,132 for twenty-five Sundays, an average of 45.

Three different Bible classes were carried on during parts of the year. The total attendance was 224. Total attendance at all religious meetings, including week of prayer for young men was 3,937. Eighteen young men expressed a determination to lead Christian lives. One has united with the church and others will follow.

The total attendance at six receptions and banquets was 1000, at free entertainments in room, 450; at paid entertainments, 400; total, 1850.

The average attendance at the congress was 18.

Eleven practical and educational talks were given, with a total attendance of 330.

At the close of the business, President Wason spoke of the work of the past year, mentioning the kindly spirit shown by all who have been asked to contribute, and a willingness to help when possible. He spoke particularly of Mr. Faxon's gift of $250, which was given on condition that a like sum be secured in memberships.

The Women's Auxiliary of the Association held its annual meeting Monday afternoon. The following officers and directors were elected for the ensuing year:

President,—Mrs. George A. Litchfield.
Vice President,—Mrs. T. B. Pollard.
Secretary,—Miss Carrie Hardwick.
Treasurer,—Mrs. Mary E. Sampson.
Directors,—Mrs. Rachel S. Hewitson, Mrs. E. W. Branch, Mrs. S. F. Newcomb, Mrs. H. E. C. Burns, Mrs. James F. Merrill, Mrs. O. C. Colton, Mrs. W. F. Cummings, Mrs. Ellen A. Sprague, Mrs. R. S. Elliott and Mrs. T. H. Wason.

After the business meeting Mrs. Wooster, of Winchester, gave a very interesting talk on auxiliary work and Miss Grace Isaac sang a solo very acceptably.

Following the annual meeting a reception was given to ladies in the rooms which were beautifully decorated. Refreshments were served under the direction of Mrs. Theophilus King, assisted by the young ladies.

The Board of Control of Epworth Leagues for the United States will hold a mass meeting in People's temple, formerly People's church, corner of Columbus avenue and Berkeley street, Boston, on Wednesday evening, at 7.30. The Atlantic league are planing to go in a body.

Tuesday night the Unity club of Wollaston held its second meeting of this season. The subject was "The Madonna," and the programme included a piano duet, a vocal duet and two vocal solos. The music was appropriate to the general subject. Papers were presented on "Madonna Worship," the mother element in the Divinity we worship, "The Madonna in the Roman Catholic Church," celebrated pictures of the Madonna, and "Legends of the Madonna."

PRAISE FOR TROOPS.

General Miles Declares That They Saved the Country From Rebellion.

WASHINGTON, Oct. 17.—The annual report of Major General Miles, commanding the department of the Missouri, showing the conduct of affairs in the department, is a remarkably short document, considering the stormy period of international strife covered by it. But, notwithstanding its brevity, it contains some terse and very significant statements relative to strikes.

GENERAL NELSON A. MILES

The report begins with the statement that there have been no changes of troops in the department during the year. The report states in detail the companies and troops of regulars that were concentrated in Chicago "by the orders of the President of the United States to execute the orders of the United States court to prevent the obstruction of the mails and generally to enforce the faithful execution of the laws of the United States."

General Miles then continues in the following strain: "The conduct of the troops in restoring order and confidence, where mob violence and a reign of terror existed in Chicago, was marked by great forbearance, fortitude and excellent discipline, and their presence and action here very greatly contributed to the maintenance of civil law, and in my opinion saved this country from a serious rebellion, when one had been publicly declared to exist by one most responsible for its existence."

McEttrick Condemned.

BOSTON, Oct. 17.—The joint quarterly convention of the Massachusetts and New Hampshire state assemblies, Knights of Labor, was held here yesterday. State Master Workman Padden urged the necessity of united political action in line with the objects of the order. Resolutions were adopted condemning Congressman McEttrick as being false to the interests of organized labor and deserving of retirement from political life. Two years ago McEttrick was endorsed by the state assembly.

Germany Deeply Interested.

BERLIN, Oct. 17.—The troubles at Lourenzo Marquez create the greatest concern here. It is assumed that England intends to seize the occasion to extend her possessions northwards along the coast of the Indian ocean and possibly to attempt to acquire the whole region belonging to Portugal. It is considered that Germany's interests in this region fully entitles her to compensation in the event of an extension of British possessions in that part of Africa.

Dire Threats of Miners.

CRIPPLE CREEK, Colo., Oct. 17.—Excitement is running high among the Bull Hill miners on account of the shooting of James Cannon and Thomas Short by Deputy Sheriff Sterling. It is claimed that the prisoners were innocent of the robbery with which they were charged. Threats to sack this city and Colorado Springs are openly made.

Trouble Bridged Over.

NEW BEDFORD, Mass., Oct. 17.—The threatened strike of weavers in the Acushnet and Hathaway corporations was avoided by the officials conceding demands and filing particulars, which highly pleased the operatives. At a largely attended mass meeting the operatives declared themselves satisfied.

Legal Proceedings Withdrawn.

BALTIMORE, Oct. 17.—Boston banks and trust companies, creditors of the Pennsylvania and Maryland Steel company, have discontinued legal proceedings, and signified their desire to sign the agreement prepared by the reorganization committee of the steel company.

Probably a Total Loss.

GREEN'S LANDING, Me., Oct. 17.—The two-masted schooner Eunice P. Newcomb of Deer Isle, with a cargo of granite, sprung aleak, and to prevent her from sinking she was run ashore. She is in a bad position and it is feared she will be a total loss.

Old Freeman Academy Burned.

BUZZARD'S BAY, Mass., Oct. 17.—What was once the old Freeman Ladies' academy, an imposing three-story wooden structure, was burned to the ground by an incendiary fire. The structure was one of considerable note and historical importance.

Town In Ashes.

FORT WAYNE, Oct. 17.—The entire business portion of Liberty Centre, together with a number of dwellings, were consumed yesterday. The fire was incendiary. The loss is $100,000. Three suspicious characters have been arrested.

With Capital of Nearly $100,000.

MARLBORO, Mass., Oct. 17.—Surveys are to be begun immediately for an electric railroad between here and Westboro. The road is capitalized at $100,000, and nearly all of the stock has been taken up. The distance is seven miles.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

The Board of Registrars were more than busy Tuesday evening and at no time during the session did they have much leisure time. Fourteen names were restored and 58 new names added.

By wards they were as follows:

	Restored.	New Names.	Total.
Ward One,	4	13	17
Ward Two,	0	2	2
Ward Three,	6	9	15
Ward Four,	2	16	18
Ward Five,	2	16	18
Ward Six,	0	2	2
	14	58	72

The names will be printed in the DAILY LEDGER tomorrow.

The Ripley Democrats have organized and are sharpening their axes for the November election.

A grand Republican ratification meeting will be held Monday evening, Nov. 5th at which the speakers will be Henry Cabot Lodge and Attorney General Knowlton.

Ex-Mayor Fairbanks is not caught napping very often. He acts promptly and hits straight.

Councilman Johnson is suggested for Mayor.

Register today—It is the last opportunity.

TODAY'S COURT.

Thomas Moore, Jr., of Randolph was arraigned for maliciously discharging a fire arm at a car of the Brockton & Randolph street railway and held in $300 for his appearance Oct. 31.

Sunday afternoon a covered carriage drove alongside of the car and discharged a gun loaded with buck shot at the car. Liquor Officer Knights was on the front platform of the car and it was at first thought that an attempt had been made on his life, but investigation showed that such was not the case, but simply a freak of a drunken gunner.

Thomas J. Franklin was fined $8 for discharging a firearm at the public reservation.

THE LEDGER APPRECIATED

Capt. Holmes of the Sons of Veterans Returns Thanks to the Editors.

The following open letter is self explanatory:

As the presiding officer of the Sons of Veterans of Quincy it affords me pleasure to personally acknowledge to you my heartfelt appreciation of the kindly recognition you have bestowed upon the order through the medium of your most excellent paper the QUINCY DAILY LEDGER.

It has been the will of the members of Francis L. Souther Camp 27, to place me at its head for the last two years and I am in a position to realize and appreciate that during that period nothing has accomplished more toward the building up of the Camp than the public notice which you have so kindly given it.

From January 1, 1893, to October 1, 1894, the LEDGER has devoted to the Sons of Veterans 45 articles, aggregating 1,377 lines, an average of about 16 lines per week. For the valuable and impartial service you have rendered to me in making my administration successful and prosperous and in behalf of the brothers of Camp 27, whose sentiments accord with my own, I extend to you my sincere thanks.

Yours,
MELVILLE C. HOLMES.

Man Says.

Man says that woman's province is the kitchen,
Whose walled domain is pots and kettles, things
Create to cause the creature troubles
Less taxing brain than grim politic rings.
'Twould be unseemly for the weaker body
Engaged in usurpation of the rights
Surrounding voting and the wirepulling—
And then they'd be astray in caucus fights.

Man says that woman's occiput is shallow,
Her brain's no power solving questions dense.
Leave her the rolling pin and pots and kettles—
To him must fall the making of the laws immense.
Man says—but will not say in all the future
What woman shall or shall not have to do.
Man's always been a wondrous retrograder,
While woman yet no retrogression knew.

THE WITCH OF YELL.

The witch sat placidly sewing in her doorway when I saw her first, looking like nothing in the world but a soncie Zetlander of some 40 odd years, with a fresh color and a thick coil of raven black hair half hidden by her headgear, a bright blue handkerchief spotted with white. I gave her good morning and asked her if she would give me a glass of water and a bannock of oatcake, as I had been walking for some hours and was both hungry and thirsty.

"And welcome," she said, with the pretty Shetland courtesy, "if you be from Ireland, mistress."

"I am Irish," I said, "but wouldn't you give an oatcake to an English woman, my friend? No?" as she shook her head resolutely. "And how is that?"

"No food of my baking will pass Scots or Southron lips," she said harshly. "Sit ye down," pointing to her own stool. "Ye're fair tired out, mistress."

I laughed faintly as I accepted the seat. "I have been trying to walk away from myself," I said, "and though I've tramped through a whole forenoon I haven't done it yet."

"Ah!" she said, smiling a little—only with her lips, for her eyes kept their steady sadness. "It's a far way you have to go, mistress, and you must walk by night 'stead o' day. You're married," glancing down at my ungloved hands. "Have ye ever borne a child?" I looked down at my black dress and nodded silently. The woman drew in her breath sharply as if she were hurt at heart. "Aye," she said, "so have I, and lost it too. Poor lass!" And to my intense astonishment she stopped and kissed me once and again. "How old was he?" she went on gravely, taking no heed at the wonder in my face. "Mine was a man grown, but yours must ha' been but a bairn. Ye have the look of a bairn yourself."

"Have I?" I said, with a dreary laugh. "An old bairn, I'm afraid. My boy was 7 years old."

"Aye, and your man's alive? Do I know your man, and what for does he let you come here to dree your weird alone?"

"My man knows it's the kindest thing he could do," I said. "And I think perhaps you know him," I added, a little proudly. "Nearly every one in the islands knows Hector MacKenneth."

"Ay, do they. He's a man!" the witch said emphatically, as she came out of the cottage with a plate of bannocks and a big cup of milk. "And there's never a soul in the islands but he has done a kind turn or spoken a kind word to—even to me."

"Why 'even to you?'" I asked. "My husband has a great respect for you. He told me you were the wisest woman in the islands, Lief."

"Did he, now? And I his brother's wife!" the witch said musingly.

I started. "Whose wife? Not Ronald MacKenneth's—Ronald that died in England?"

"That same Ronald," she said quietly. 'He died in the south, I know, and some Southron brought the news to MacKenneth himself. But he lies buried away in the south, I heard say. Do ye know where, Mistress MacKenneth?"

"No; I wish I could tell you, poor soul," I said pitifully. "I wish I could help you."

"My bonny Ronald," she said, looking out to the blue, tumbling waves of the sound, her eyes grave and sad and her voice very low. "It's little ye thought of me, but on the day we were handfasted and the day ye lay a-dying." Then she bent down a little and looked sharply into my face.

"Did ever any one in the islands say to ye that we two were not man and wife? Did ever MacKenneth himself?"

"Never MacKenneth," I said honestly.

"Others have, though." She looked sharply at me again, then caught my hand in hers and dragged me up from my seat. "Come wi' me, you wife of the MacKenneth, and I'll show you what handfasting means to a woman."

I drew my cloak round me with my free hand, and we went slowly together over the scattered rocks and sand and down a little grassy slope, till we stood in front of an upright stone with a round hole in its center.

"There," said the witch, still holding my hand fast in hers, "there's where we were married—my man and I. See ye here, Eleanor MacKenneth, do you love your man, or liked ye your first lad best?"

I cried in my heart to the dead and gone Oscar to forgive me, and then I looked the woman fairly in the eyes and answered her, "I love MacKenneth best."

"Where were ye married? In kirk, of course?"

"In kirk, yes. We were married in a London church," I said; "the Church of St. Stephen."

"Kirk Stephen, aye? Well, this is Kirk Odin, where thousands have been made man and wife in their day. Go you nearer to the stone, wife of MacKenneth, and you shall be married there too, if you're no' afraid."

"Do I look afraid?" I said, with a smile, and she smiled back at me.

"Put your hand—closed so—through the hole in the stone." I obeyed with some difficulty, for the hole was unevenly cut, and its edges were jagged. "Now," said the witch, "open your hand and hold it so, and now say after me"——

I hesitated a moment and then repeated after her. "In the name of the One Eyed, the name of Odin, I hold thee and have thee through this life, and that life, and all lives to follow. I call thee and keep thee, my hand for the witness, my lips for thy kissing, my strength for thy weakness, my tears for thy sorrow, my breast for thy head when thou boune thee to sleeping, my life for thy calling"— Then she stopped and looked vaguely at me and beyond me, and I finished the oath with words that rose in my mind, though I had never heard them before:

"My life for thy calling, my death for thy living. Hear, Thor and hear Odin and Hector MacKenneth." Then I drew my hand out from the hole and turned to the witch, but the next minute I saw that her thoughts were not with me or with this material world at all, and I went softly away, leaving her standing with her back to the sea and her eyes fixed on the great stone, listening intently and vainly, with her hand against her ear.

So I saw her the next time I passed her neat cottage. She had been gathering some herbs, and now she stood listening again, with the herbs held tightly to her breast. This time I stopped to speak to her. "Lief MacKenneth," I said quietly, "are you not going to give your sister the morn's greeting?"

She gave me a quick, wild, wondering look, and her eyes filled with sudden sunshine. "God bless you for the MacKenneth," she said earnestly, "and for the sisterhood. But you must not stop with me today."

"Why?" I said. "We are not going to have a storm, Lief."

"Are we no?" she laughed. "Woman, dear, you're no Zetlander. There'll be a storm on us inside of an hour, and a black wind strong enough to blow the heart out o' your breast, or"——

"Or the dead out of their graves," I said, with meaning, and her face lighted up again.

"Maybe," she muttered, "maybe. Now go home, you wife of MacKenneth and dream o' your man and the bairns to be. Oh, aye," as I drew back, flushing hotly. "I'm not a witch for nothing, and I can see their shadows round you, Eleanor MacKenneth, two, three and four. Now"—she turned and caught my hands in hers and kissed me on lips and cheek and forehead with eager, close kisses. "There, now, go home, Eleanor woman, and shut the storm out. When do you go to your own home, soon?"

"Next week," I answered. "I told Hector to expect me on Thursday."

"Aye, and a fine, calm journey to you, dear heart. But I'll see you again. Go now, and goodby, woman dear."

I heard very little of the storm that night, for I slept as soundly as a child, and when, toward morning, I began to dream my dreams were pleasant enough, though they were all of Lief. The last dream of all was the one which made the deepest impression on me. It was of Lief again, but as I had never seen her. Young and with a wonderful shy gladness in her eyes, she stood at the door of her cottage in the driving rain, with her hand fast in the hands of a man with fair hair and bold blue eyes, a younger edition of my own husband. I saw them kiss each other, and then I woke.

"Ronald has come back to her," I said to myself as I rubbed my drowsy eyes, and somehow I was not in the least surprised or grieved when mine hostess came in later on in the morning to tell me that the storm had wrecked half a score of houses and had blown the witch's cabin out to sea. Nothing was ever heard of the witch herself, but after a little while my husband and I had a pine wood cross put up close to the stone of Odin, and on it we wrote the two names, Lief and Ronald. And in the small church of Kirk Harold, where Lief was christened, we put up a tablet to the glory of God and in loving memory of Ronald MacKenneth and Lief, his wife.—Macmillan's Magazine.

Destiny of the South.

As things are now in the southern states the man does not live that can make money in farming there. The price of cotton has dropped for a quarter of a century with a regularity that eliminates the element of chance and points to some law of markets that is out of the reach of fertilizers or any device of agriculture. It is this law that the planters are looking for.

There is a fine spirit of scientific discovery abroad in the southern states. If it does not amount to a great intellectual awakening, then the signs that have always attended popular movements do not apply in this instance.

It is the manifest destiny of the south to proclaim some cardinal principles of political economy in the near future. It might seem extravagant to say that the hope of the nation rests with the south, but in these days of political and commercial consternation much more extravagant things are afloat in the prints. In working out the destiny of the south the problem of the nation itself may indeed be solved. There are qualities in the character of the south that will inevitably bring these people to the front. —Donahoe's Magazine.

M. Grevy Was Tender Hearted.

Some one has taken the trouble to draw up a list of condemnations to death in France and their results since 1865 in order to show the different ways in which successive rulers have exercised the prerogative of mercy. Under the second empire, from 1865 to 1870, there were 193 condemnations and 85 commutations, or 44 per cent; under MacMahon, from 1873 to 1878, 179 condemnations and 112 commutations, or 62 per cent; under M. Grevy, from 1878 to 1886, 211 condemnations and 168 commutations, or 85 per cent. M. Grevy, it will be seen, was most merciful and next to him Marshal MacMahon, who, although an old soldier, had great difficulty, it is said, in turning a deaf ear to the appeals of the relatives of condemned men.—London News.

POLISHED CHIPS.

A Feature Which the Ledger Proposes to Make of Value to the Trade.

F. H. Barnicoat & Co. have a handsome monument of Westerly granite, surmounted by a statue of Memory, set up in their yards.

The Merry Mount Granite Company set up a very handsome monument Tuesday. The bases and die are of Quincy granite and the cap of Westerly. On the sides of the cap are four medallions one of which is a woman and the other three are children. This cap is surmounted by a life size statue of the owner of the monument, and thus the whole family are represented.

Swingle & Falconer are getting out some fine work at their yards.

A twenty-ton block of Westerly granite arrived in the cars Tuesday for F. Barnicoat, from which will be cut a statue of peace.

The Mitchell Granite Works were the first firm to put in granite cutting machinery. This was several years ago, and since that time the pneumatic tools have come into use, but with all the improvements the machines of Mitchell & Co. will level off a piece of granite in the shortest time.

McGrath Bros. have a display of finished monuments in their yards unsurpassed by any.

Granite manufacturers are requested to keep the DAILY LEDGER informed relative to all granite news. Our representative will call at any time if you will drop us a postal.

☞ Furniture and Pianos moved in a business like manner. Henry L. Kincaide & Co.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

For sale by Druggists and Dealers Everywhere.

☞ Of course, some people will go to Boston to buy goods, that's to be expected, but experience and observation both show that it is the wisest economy to buy Furniture right here in Quincy. Goods reliable, low priced and just as represented or money refunded at the store of Henry L. Kincaide & Co.

THE QUARRY LAND.

Various Estimates Placed by Experts on Land Taken for Reservation.

The hearing before the auditors, Messrs. Williams, Gray and Capen, to determine the value of the land of the Quincy Quarry Company taken by the Metropolitan Park Commissioners for the Blue Hills reservation, continues daily in Boston.

The commissioners before the present petition for damages was brought offered to pay the company $7000 for the land. Now the company has put on a number of witnesses who severally estimate the property's value at from $66,000 to $113,000. The assessed value is said to be about $6000, but the plaintiff claims the property is of great value for quarrying purposes.

Hon. E. C Bumpus appears for the plaintiff; Hon. W. S. B. Hopkins and Balch & Rackeman for the commonwealth.

BRAINTREE.

The old Erastus Newton house on Shaw street, owned by Edward Avery and occupied by George Rowell, was damaged $600 by fire this morning.

Undue Alarm.

Many absurd rumors are afloat creating a diptheria scare in the Coddington school district. The LEDGER learns that there have been eight cases of diptheria or diptheretic throats in the Coddington school district since August 31. One of the eight children was not a member of the school. Of the eight cases five have recovered, two are still in the hands of the doctors, and one death has occurred. In the whole city only eleven cases have been reported to the Board of Health since August 31.

☞ *Trunks:* Almost everything in this line but an elephant's trunk. Henry L. Kincaide & Co.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoarse or even after the cough has developed it will prevent the attack. 25 and 50 cent bottles.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

DID YOU EVER

hear tell of a purchaser wanting to buy an imitation? Why do men who try to sell such articles speak of the act as "working them off?" Simply because people want the best, and it takes work and likewise deception to sell them the worst. This unpleasant experience may befall the housekeeper who determines to

TRY COTTOLENE

the new vegetable shortening. The healthfulness, flavor, and economy of this wonderful cooking product has won for it the widest popularity, which in turn has attracted the attention of business parasites who are "working off" imitations and counterfeits. Recompense.

If none were sick and none were sad,
What service could we render?
I think if we were always glad
We scarcely could be tender.
Did our beloved never need
Our patient ministration
Earth would grow cold and miss indeed
Its sweetest consolation.
If sorrow never claimed our heart
And every wish were granted,
Patience would die and hope depart—
Life would be disenchanted.

The Doll's Wooing.

The little French doll was a dear little doll
Tricked out in the sweetest of dresses.
Her eyes were of hue
A most delicate blue,
And dark as the night were her tresses.
Her dear little mouth was fluted and red,
And this little French doll was so very well bred
That whenever accosted her little mouth said:
"Mamma! Mamma!"

The stockinet doll, with one arm and one leg,
Had once been a handsome young fellow,
But now he appeared
Rather frowzy and bleared
In his torn regimentals of yellow.
Yet his heart gave a curious thump as he lay
In the little toy cart near the window one day
And heard the sweet voice of that French dolly say:
"Mamma! Mamma!"

He listened so long and he listened so hard
That anon he grew ever so tender,
For it's everywhere known
That the feminine tone
Gets away with all masculine gender.
He up and he wooed her with soldierly zest,
But all she'd reply to the love he professed
Were these plaintive words, which perhaps you have guessed:
"Mamma! Mamma!"

Her mother—a sweet little lady of five—
Vouchsafed her parental protection.
And although stockinet
Wasn't blueblooded yet
She really could make no objection.
So soldier and dolly were wedded one day,
And a moment ago, as I journeyed that way,
I'm sure that I heard a wee baby voice say:
"Mamma! Mamma!"

—Eugene Field.

The Real Trouble.

Miss Farebrother—Good gracious, Mr. Gashley, whatever has done this for you? Railway accident?

Whisky Will Be Cheap.

PEORIA, Ills., Oct. 17.—The Whisky trust yesterday reduced prices on alcohol 2 cents a gallon, equivalent to nearly 4 cents a wine gallon. This is regarded as the beginning of a war in prices between the trust and competitors, and that goods will be sold regardless of cost to manufacture.

A Peculiar Gift.

VIENNA, Oct. 17.—Joann Strauss, who has just concluded the celebration in honor of the 50th anniversary of his entry into the musical world, has received word that ex-Khedive Ismail has sent him two giraffes as a jubilee gift.

Town Almost Wiped Out.

SULPHUR, Ky., Oct. 17.—Fire here swept away the entire central portion of the town, destroying seven stores, a bank, two livery stables, two hotels, six residences and the railroad depot. The loss is estimated at $100,000.

End of a Lovers' Quarrel.

DAVENPORT, Ia., Oct. 17.—As the result of a lovers' quarrel, Charles Kahler shot Lizzie Uchtorf in the face, inflicting a serious wound, and then sent a bullet into his own brain, dying instantly. The girl will recover.

Captured After a Fight.

CHERRY RUN, Va., Oct. 17.—The men who are supposed to be those who held up the train at Quantico last Friday night were cornered near here by detectives. After a hard fight two of them were captured.

Mrs. Putnam, Forristdale, Mass., says:

"That Bearing-Down Feeling

and dizzy, faint, gasping attacks left me as soon as I began to take *Lydia E. Pinkham's* Vegetable Compound. I am like one raised from the dead. I was sick with womb troubles so long I thought I never could get well."

A GLOOMY OUTLOOK.

Starvation Confronts the Fishermen and Indians of Labrador.

FISHING AND HUNTING WERE POOR

Red Men Returned to the Woods Without Food.

MONTREAL, Oct. 17.—Judge Vallee, the stipendiary magistrate for the north portion of the St. Lawrence, has returned to Quebec after a five months' visit to the Canadian Labrador, the island of Anticosti and other places. He reports that the fishing along the Labrador coast has been very bad, and unless government assistance is promptly sent, many deaths from starvation must occur before next winter is over.

To aggravate the situation for the fishermen the price of codfish fell during the summer from 30 to 50 cents a quintal. The distress is already very great, and the outlook is rendered more discouraging by the probability that none of the timber limits there will be worked this year.

Indians the Worst Sufferers.

As for the coast Indians, their condition is even worse than that of the fishing colonies, the yield of their hunt this year having been very poor, and the Hudson Bay company's ports having refused in many places to make them further advances, the result being that many of the Indian families returned to the woods this fall without provisions.

The reasons assigned by the company for making no more advances are that the Indians do not adhere to their engagements to bring their furs to those who advance them provisions and because they exchange their furs for strong liquor.

The Indians themselves complain that their annual hunts have yielded less and less for some years past, owing to the great forest fires which have ravaged the interior of the peninsula. During the past summer more than 150 miles of their hunting grounds were completely swept by fire. Fishing was fairly good this year around Anticosti, but the population is falling off year by year.

The Maine's Preliminary Spin.

NEW LONDON, Conn., Oct. 17.—The battleship Maine had a preliminary spin yesterday down the Sound. When Cornfield Point lightship was abeam, the Maine was turned about, and the manner in which she answered her helm was the subject of favorable comment. It is the opinion that the Maine will prove equal to all the tests that may be made of her engines and machinery.

A Plucky Old Ped.

NEW YORK, Oct. 17.—Edward P. Weston, the famous pedestrian, will undertake to cover a distance of 468 miles over the country roads of this state in 12 consecutive days. The determination of the veteran to again test his mettle was the result of a wager. Weston will make the start from Newburg on Monday next, and will complete his task at Middletown on Nov. 3.

Ship Ivanhoe Overdue.

SAN FRANCISCO, Oct. 17.—The gale which prevailed along the north Pacific coast has undoubtedly caused widespread disaster to shipping interests. At least three schooners are known to be wrecked, and there are grave reasons for believing that the American ship Ivanhoe has been lost with all on board.

The U. A. M. of Connecticut.

NEW LONDON, Conn., Oct. 17.—The annual session of the State Council of United American Mechanics convened here yesterday. The net gain for the year in the state was 312. Connecticut heads the state list of membership in proportion to population, there being one Mechanic to every 82.7 of population.

May's Suit Comes Up.

ST. JOHN, N. B., Oct. 17.—The trial of United States Treasury Agent Smith of Boston, in an action for $20,000, brought by W. R. May, a merchant tailor, commenced yesterday afternoon. The charge against Smith is malicious arrest and detention of May at Eastport, Me.

Cleveland Is For Hill.

NEW YORK, Oct. 17.—The World says that President Cleveland will next week send a letter endorsing the entire New York Democratic state ticket, and it also adds that the president will send a campaign contribution to the Democratic campaign committee.

Result Was Close.

NEW YORK, Oct. 17.—The professional football players from Boston made their first appearance in this city at the Polo grounds in a championship game with the New York eleven. They succeeded in defeating the home team by 3 goals to 2.

Hallowell's Turn.

MERCED, Cal., Oct. 17.—The Merced bank of this place, doing business since 1875, closed its doors yesterday.

WEAVERS WALKED OUT.

One of the Sagamore Mills at Fall River Forced to Shut Down.

FALL RIVER, Mass., Oct. 17.—Without giving any warning the weavers at Sagamore mill, No. 1, went out yesterday noon. The mill had been running full time. The weavers marched to the Mechanic and Weetamoe mills and tried to induce the few weavers at work at those mills to go out. The attempt did not succeed. There were derisive cries and hooting and groaning as the operatives quit work, but no violence afterward. The striking weavers held a meeting and decided to stay out at the Sagamore mill No. 2. Some of the weavers stayed out Monday afternoon. Others remained away yesterday afternoon, and only 300 looms were running yesterday. Today the No. 1 mill was not started, but the No. 2 mill is running.

Sagamore is not in the manufacturers' agreement, and the shutdown of No. 1 mill will not affect the running of other mills. Sagamore No. 1 has been running under a reduction for three weeks. The reason for singling out the Sagamore is not known. It is reported that operatives accuse Treasurer Brayton of the Sagamore of under selling the market and bringing down prices.

Morrill In Buenos Ayres.

MANCHESTER, N. H., Oct. 17.—An evening paper claims to have discovered the whereabouts of Charles F. Morrill, the defaulting cashier of the National Bank of the Commonwealth and treasurer of the People's Fire Insurance company. The paper says he is now in Buenos Ayres, and is in communication with his family in this city.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

Creditable Performance of the New Battleship Maine.

A TRIP ON LONG ISLAND SOUND

To Test Her Development of Horse Power.

NEW YORK, Oct. 18.—The official trial of the United States battleship Maine which took place on Long Island Sound promises good results, as the ship passed through it very creditably. N. F. Palmer, Jr., representing the contractors, was very anxious to have the trial take place in deep water, as the Sound is too shallow, he said, for a fair test, as yesterday's run showed very plainly, as she banked the water on each side of her, instead of its going underneath.

THE CRUISER MAINE.

It was stated that had the trial been in 20 to 30 fathoms of water, instead of in 8 or 10, a much better horse power would have resulted.

By noon the big ship was under way from the anchorage off New London, Conn. As soon as the Maine's anchor was hoisted she was sent along at a good rate of speed from the entrance to New London harbor until abreast of Watch Hill. Here she was turned about and headed toward the Sound.

At 1:30 o'clock everything was in readiness for the trial to begin, and a moderate forced draught was put on. The ship was heading straight into a northwester and the wind was also against her. She went along at a 15-knot gait, and there was scarcely any vibration observable on board, notwithstanding the velocity with which her machinery was being driven.

Showed a Speed of 18 Knots.

Just as the ship was passing Race Rock lighthouse she was making 18 knots an hour, but between the Bartlett Reef and Cornfield lightships, a distance of 11½ miles, her time was 46 minutes. The general verdict is that she will be an 18-knot boat.

The force of the wind and the velocity of the ship caused the spray to wash overboard from bow to stern, and frequently it went over the bridge and pilot house.

This not being a trial of speed, but one of the development of horse power, the most interesting work took place below decks. The corps of expert engineers took eight half-hourly observations of the main engines, cylinders and other parts of the plant. The average number of revolutions was found to be 127, and the average steam pressure 141.

Engineer Melville was not very communicative a the trial was concluded, but he said that the engines had worked satisfactorily, and there was no doubt that the horse power would reach, if not exceed, the requisite 9000.

One of the Finest In the World.

Pilot Arcularius, who took the Maine up from the Brooklyn navy yard last Saturday, said that she was one of the finest of her class in the world. He particularly mentioned the easy manner in which she answered the helm, and said that her steering gear worked perfectly.

When the four hours allotted for the trial were up, the ship was off Stratford, Conn. She continued to run at a fair rate of speed until Whitestone was abeam. The anchor was then dropped, and the big battleship remained there until this morning, as Captain Bunce did not consider it safe to have her pass through Hell Gate during the night.

Today she will be brought down to the navy yard, and as soon as possible her barbettes will be completed and her guns placed in position.

Thrown Out by Judge Scott.

OMAHA, Oct. 18.—Judge Scott and the other five judges of the district disagreed regarding transferring the libel case against Editor Rosewater of The Bee to some other judge, owing to the allegations of prejudice made against Scott. After criticising the other judges for interfering in the affair, Judge Scott yesterday dismissed the case, declaring that if he could not try the case it should not be tried.

Boston's Voting Strength.

BOSTON, Oct. 18.—The registration of voters for the coming state election closed throughout the city last night. Approximately 10,000 names have been added since Sept. 1, swelling the number of voters in this city to 88,000. There was no perceptible advantage in point of numbers to either side by the registration in Republican and Democratic wards.

A Democratic Love Feast.

NEW HAVEN, Oct. 18.—An informal banquet was last night tendered to Democratic nominees on the state ticket. All the nominees were present and made brief informal speeches. Each predicted the success of the Democratic state ticket if the entire Democratic vote was polled. Every Democrat was urged to do his duty.

AN AGED TOWN.

Attleboro is Celebrating the 200th Anniversary of Her Birth.

ATTLEBORO, Mass., Oct. 18.—This town is celebrating the 200th anniversary of its existence. Special services were held in each church yesterday and a union service in the Second Congregational church last night. There was a salute of artillery and a parade of school children today. Tomorrow there will be a great procession of military, firemen and trades' organizations, followed by fireworks and a grand ball in the evening. William Blackstone was the first settler on the original site of the town. Attleboro was the center of King Philip's war in 1675.

The town was originally a part of what was called the Rehoboth North Purchase. It was purchased in 1661 from Wamsitta, sachem of the Pokanoket tribe of Indians, and included all the land bounded on the west by the Blackstone river, on the north by the so-called Massachusetts colony line, on the east by the Taunton North Purchase, now Marshfield, Norton and Easton, and south by the old town of Rehoboth.

The name was probably taken from the old town of Attleboro in England, which is situated on the banks of the Bungay river. Here is also a small stream, which was named the Bungay, and probably there were among the early settlers those who came from that section of the mother country.

RUSSIA'S BIG FLEET

Will Have Much to Do With Japanese Movements In Corea.

LONDON, Oct. 18.—The Times today publishes a dispatch from Tien-Tsin saying that Japanese papers received at that place afford negative evidence that the report circulated three weeks ago of the dispatch of an army corps from Hiroshima for the invasion of China was true, any such expedition being rendered impossible by the shattered condition of the Japanese fleet.

The dispatch adds that perhaps Japan begins to reflect on the problem of the eventual extrication of her troops from Corea, where they remain on the sufferance of the maritime powers, especially Russia, who is sending 11 additional ships, including three ironclads. Russia will thus have the most formidable fleet ever assembled east of Suez.

News from the front is scarce. The Chinese headquarters is at Chuleang-Cheng, General Singy in command, Generals Yeh and Weh having been degraded. The Japanese headquarters is at Ping-Yang. Their outposts in the direction of the Yalu river seem to be occupied in road making.

A Parisian Sensation.

PARIS, Oct. 18.—Madame Marie Creste, since Ambroise Thomas refused her a prize at the conservatoire, has been possessed with a mania against Thomas and has placarded Paris with abusive posters, etc. Believing that Thomas was lunching with President Casimer-Perier, she rode on horseback into the courtyard of the palace of the Elysee yesterday, screaming "Vive Casimer-Perier," "A bas Thomas." She was arrested.

Must Remain In the Asylum.

BOSTON, Oct. 18.—Judge Putnam yesterday filed an opinion in the case of William H. King, the insane millionaire, deciding that King must remain in the asylum. This finally settles the litigation which has been carried on for a long time by friends of Mr. King, who believed that he should be at liberty. Mr. King has been in the McLean asylum for the insane for a number of years.

Favorable to Harvard College.

NEWPORT, R. I., Oct. 18.—It is reported that the widow of Professor Cooke, who was connected with Harvard college for over 30 years, will carry out the provisions of her husband's will, despite the unauthorized statement that her husband made a codicil depriving Harvard of a probable share of his estate because of the dismissal of two of his relatives.

Army Trouble Smoothed Over.

WASHINGTON, Oct. 18.—There has been some friction between General McCook and Lieutenant Colonel Noyes, at Denver, and the last named officer brought the matter to the attention of the war department. It is said that the difficulty has been adjusted, although the basis of settlement cannot be learned.

A Royal Visitor.

POTSDAM, Oct. 18.—Alexander, the 18-year-old King of Servia, arrived here last evening from Buda-Pesth on a visit to Emperor William. Great preparations had been made for his reception, and it was generally understood that this meant that the visit had political significance.

Fatal Card Game.

TRINIDAD, Colo., Oct. 18.—A man named Urgers, who came here about three weeks ago, in a quarrel over a game of cards, shot Antonio Precarso and his brother, killing the former and fatally wounding the latter. The murderer is under guard to prevent lynching.

Wanted In Chicago.

CHICAGO, Oct. 18.—Dr. Edward Everett Hale, the famous Boston preacher and writer, and Rev. F. W. Gunsaulus, president of Armour institute, were suggested at a meeting of the Central Church society as successors to Professor David Swing.

Four Shots In His Body.

PROVIDENCE, Oct. 18.—John Semmonian, an Armenian, was shot four times by Chabour Chongsian, a Turk, yesterday afternoon. Semmonian is dying in the hospital and his assailant is under arrest. The affair was the outcome of a quarrel.

Two Deaths Will Result.

GUTHRIE, O. T., Oct. 18.—A mad dog in West Guthrie yesterday bit Bessie Gates, aged 10 years, in such a fearful manner that she will die. Two men attempted to shoot the dog, but the bullet struck Mrs Littlejohn and inflicted a fatal wound.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoarse or even after the cough has developed it will prevent the attack. 25 and 50 cent bottles.

AN EMPHATIC DENIAL

Of Allegations That Republicans Are Affiliated With the A. P. A.

WILL STICK TO PARTY PLATFORM

And Leave Religious Matters Out of the Campaign.

WASHINGTON, Oct. 18.—Chairman Babcock of the Republican congressional campaign committee yesterday issued the following statement to the press:

"I have today been handed what purports to be an advance sheet of a document now being printed in this city. It is entitled 'A bold appeal to bigotry. Republicans circulating A. P. A. literature. The Republican congressional committee doing the work, but shirking the responsibility.'

"The document is made up from extracts from newspapers and is so utterly devoid of truth that it would hardly seem necessary to deny any such tissue of base fabrications, all of which are false upon their face. I have repeatedly stated to the press that the Republican congressional committee had no connection of any kind, either directly or indirectly, with any secret society, or in fact with any society; that it has conducted the campaign strictly upon the lines indicated in the last national platform, realizing that the committee has no authority to make or inject any issues into the campaign not authorized by the party platform.

"We have worked steadily on this line, and all of the literature that has been published or handled by the committee has been exposed for the public and for the public uses in our reception room at the headquarters. No one has ever been refused any of the documents published by or issued from this committee, and they have all been

Scattered Broadcast Over the Land.

"I desire to say once more that the statements made in this pamphlet or folder, so far as they seek to connect the congressional committee or the Republican organization in charge of the committee with any other organization of any kind, are absolutely and unqualifiedly false in every particular; that there is not, nor has there been, any connection, directly or indirectly, with any organization outside of the authorized state central and district congressional committee, nor has this committee handled, mailed, or caused to be mailed, any literature of any kind, except that exposed for public use in its reception room.

Trial Will Be Lengthy.

CAMBRIDGE, Mass., Oct. 18.—Miss Mary E. Bartlett, yesterday, occupied the witness stand in her own behalf in the suit against the estate of Dr. H. J. Bigelow to recover $150,000 which she alleges he promised her shortly before his death as a compensation for failing to keep his promise to marry her. Miss Bartlett related the many years that she says she was engaged, and the many postponements of the wedding day. The case will occupy several days yet.

Will Establish a Precedent.

WASHINGTON, Oct. 18.—The case of the people of the state of New York vs. John C. Eno, the defaulting president of the Second National bank of New York, was argued in the supreme court yesterday. The decision in the case, when rendered, will go far toward settling the conflict of jurisdiction in cases of offenses by national bank officials, between the federal and state courts, which has given rise in the past.

Albany Road Sued For $150,000.

BOSTON, Oct. 18.—A declaration of about 15,000 type-written pages has been filed by Frank O. Squire and Fred Squire in a suit for $150,000 against the Boston and Albany Railroad company for alleged over paid freights. There are 2221 counts in the declaration. Unjust discrimination in favor of shippers of dressed hogs and dressed beef as against shippers of live hogs is alleged.

A Maine Mystery.

PORTLAND, Me., Oct. 18.—Some time ago Clinton A. Woodbury of Deering, whose life was insured for $100,000 in New York life insurance companies, died very suddenly. It is believed that, as there are several hundred thousand dollars involved besides the insurance money, perhaps he was murdered. Detectives are said to be working on the case.

Beloved by French Canadians.

MONTREAL, Oct. 18.—A requiem service was chanted yesterday in the chapel attached to Notre Dame church in memory of the late Comte de Paris. The chapel was heavily draped in mourning, and all prominent members of the French-Canadian society were present.

Barge and Crew Missing.

MONTREAL, Oct. 18.—The barge Rembrant, bound from Quebec to Sidney, C. B., in tow of steamer Louisburg, broke adrift in the Gulf of St. Lawrence in a gale. She has a crew of six men. Tugs have gone in search of the missing boat.

Tyler Outdone.

SACRAMENTO, Oct. 18.—The weather was not good for fast bicycle riding. Otto Zeigler, however, went after the quarter-mile unpaced record of 26 3-5 held by Tyler, and cut it to 25 1-5.

Crushed Beneath Wheels.

BOSTON, Oct. 18. — James Morris, 46 years old, while attempting to board an electric car at Charlestown, fell under the wheels. His left leg was cut off near the body. He died in a few minutes.

Looks Like Suicide.

NEW YORK, Oct. 18.—Harris Olney and James Dalton of Brooklyn were found dead yesterday in a hotel in Brooklyn, apparently having gone to bed with the gas turned on full at the burner.

SLOCUM'S OZONIZED Norwegian COD LIVER OIL WITH GUAIACOL

Perhaps you don't know what Guaiacol is, but you know something of creosote as a remedy for indigestion and other diseases. Well,

Guaiacol

is a refined form of creosote, and is made from the resin of beech trees. It stimulates a languid appetite as the air of the woods does. As long as they can and will eat, consumptives can fight their disease. That is why Guaiacol is *combined with ozone*, a very active form of oxygen, in Slocum's Ozonized Norwegian Cod Liver Oil.

THE CONFERENCE.

The Congregational Churches Represented at Wollaston.

THE PROCEEDINGS OF THE DAY.

Abstract of the Sermon by Rev. Mr. Beale.—Resolutions Adopted.

The sixty-seventh annual meeting of the Suffolk South Conference was held at the Wollaston Congregational church on Wednesday afternoon and evening. The edifice was crowded at both sessions.

Over 300 delegates were present from the First church, Dedham; Norwood Congregational; Second church of Dorchester; Union church of Boston; Philips church of South Boston; Canton Congregational; Village church of Dorchester; Eliot church of Roxbury; South Evangelical of West Roxbury; Jamacia Plain Congregational; Immanuel of Roxbury; Trinitarian of Neponset; First church of Hyde Park; Pilgrim church of Dorchester; Highland church of Roxbury; Walnut avenue church of Roxbury; Olivet church of Boston; First church of Wollaston; Boylston church of Jamacia Plain; Clarendon church of Hyde Park; Arlington Congregational church; East Walpole Congregational church Memorial church of Atlantic; Harvard church of Dorchester; Central church of Dorchester and the Roslindale Congregational church. The oldest society represented was the First church of Dedham, organized in 1638, and the youngest, the Rosindale Congregational, organized in 1890.

The moderator of the conference was the Rev. Joseph B. Seabury of the First church of Dedham, and the scribe was the Rev. William Hervey Allbright of the Pilgrim church of Dorchester.

The afternoon session, which was from 2 80 to 5.30 o'clock, was devoted chiefly to the discussion of the topic for the conference, "Spiritural Marasmus, its Cause and Cure." The opening address was by the Rev. Charles L. Morjan of the Jamaica Plain Congregational church. After the address the pastors and laymen discussed the topic at length.

At the adjournment of the afternoon session the visiting delegates were invited to a collation in the church vestry, which had been prepared by the local committee of arrangements, Mr. N. G. Nickerson, Mr. George H. Murray, Mrs. Edward S. Tenney, and Mrs. J. G. Witham.

At the opening of the evening session the unfinished business was taken up.

These delegates were elected to the next National Triennial Council: Rev. Nehemiah Boynton, D. D., Mr. Eldridge Torrey, and Rev. Arthur Little, D. D.; Alternates, Hon. Jonathan A. Lane, Mr. Chas. W. Hill and Rev. Perley B. Davis.

The Rev. Elward A. Robinson, pastor of the Wollaston Congregational society, was elected secretary of the Sunday School work for the conference.

Mr. C. B. Botsford of Boston, offered the following resolution, which was unanimously adopted by the conference:

Whereas, the Suffolk South Conference composed of twenty-six churches, at its annual session learns with sincere regret that Boston has licensed ten theatres and like places to give entertainments on the Lord's Day that judged by the past are not in keeping with the sancity of the day and are in violation of the spirit of the law.

Resolved, that we earnestly protest against such entertainments and ask that their licenses be revoked.

After the transaction of the business, the Rev. Ellis Mendell of the Boylston church, Jamaica Plain, read from the Scriptures. The Rev. Dr. Boynton offered prayer, followed by a solo by Miss Lincoln, "There was a green hill far away."

The sermon was preached by the Rev. Charles H. Beale of the Immanuel church of Roxbury on the "Duality of Descent." He took for his text Romans 1: 3-4: "Concerning His Son Jesus Christ our Lord, which was made of the seed of David according to the flesh; and declared to be the Son of God with power according to the spirit of holiness, by the resurrection from the dead," and also from the first epistle of Peter, "Blessed be the God and Father of our Lord Jesus Christ, which according to his abundant mercy hath begotten us again unto a lively hope by the resurrection of Jesus Christ from the dead."

Rev. Mr. Beale said in part: The Jews objected to Jesus because they knew whence he came. To us this is a ground of confidence. He is not a mysterious visitor from some other sphere but of the seed of David rooted in our human history, the son of man, bone of our bone, our brother in weakness, in weariness in sympathy and affliction.

But he gives abundant evidence of another line of descent. His character, his wonderful works and still more wonderful words point to another ancestry, and as we contemplate him we are constrained to say, He is not of us, He is not explained by tracing his human lineage. The son of man is also Son of God.

As he is, so are we in the world. We also have two lines of descent. By comparison of structure we find ourselves allied to the animals and in many qualities and tendencies we discern our brute inheritance. We are of the earth earthy. But this is not all. We have mental capacities that separate us from the lower ranges of existence, moral qualities that are not of the earth, affections that ally us to the angels and aspirations that are but the drawing of celestial forces.

Man is not simply a wonderfully developed animal, the climax in a series of evolutionary processes. He is a son of the living God and needs only to claim his birthright and enter upon his heritage. He is lord of the domain and all forces, all institutions, all appliances are his. He is to live like a prince and so carry himself as to bring no discredit to his family and no stain upon his royal robes.

Even while he abides in the flesh and cannot but recognize his lowly origin as far as his body is concerned, he is to identify himself with his higher nature and realize that he is a child of heaven, not of earth; a resident of eternity not of time; and the universe not any narrow portion of an insignificant planet is his fatherland.

After the preaching of the sermon the Lord's supper was celebrated.

The next Conference will be held at the Union Congregational church, Boston.

THE Q. & B.

A Very Favorable Showing from the Annual Report of Company.

The annual meeting of the stockholders of the Quincy & Boston street railway was held in company's building in Quincy Wednesday afternoon and the following directors elected: John R. Graham, Winthrop Coffin, Arthur Burnham, Josiah Quincy, John A. Duggan, Thomas H. McDonnell, John F. Merrill, Roger H. Wilde and Dr. William A. Drake.

The report of the secretary and treasurer showed the past year to have been a good one financially for the road, as the total receipts were $67,961.69 and the expenditures $56,167 53, making the net earnings $11,794.16.

The number of passengers carried during the year was 1,099,468, an increase of 17,780 over the preceding year. This number of passengers would have been increased considerable more except for the dull season at Hough's Neck and the falling off on the West Quincy line.

During the year three miles of new track have been laid and two new cars added to the rolling stock, which will be further increased by two new 18 foot cars of the latest equipment which were shipped this morning from the works of J. W. Jones & Son at West Troy, N. Y.

LINCOLN—ESTES.

Mr. Bela F. Lincoln Wins the Heart of a Quincy Young Lady.

A pretty wedding took place on Wednesday evening at the residence of Mr. and Mrs. Daniel B. Estes on Saville avenue. The house was beautifully decorated with autumn leaves, plants and flowers, and a goodly number of relatives and friends were present.

The happy couple were Miss Clara Barstow Estes of Quincy and Mr. Bela Francis Lincoln of Hingham. The young lady is popular in a large circle and has for three years made an efficient and obliging clerk at the Quincy Savings bank. Mr. Lincoln is station agent and postmaster at West Hingham.

The marriage ceremony was performed by Rev. Walter R. Breed of Christ church, Quincy, at 7.30. The bride was accompanied by Miss Clara E. Thompson of Quincy as maid of honor. The ushers were: Mr. Arthur McNeil of Hingham, Mr. Evart W. Adams, Mr. Harry L. Whiton and Mr. William H. Whitney of Quincy. A reception was given from 8 to 10.

The bride was gowned in a white India silk, court train, and her veil was fastened with lilies of the valley. Her bouquet was of bride roses.

The maid of honor wore a gown of blue silk crepe, and carried pink roses.

Mr. and Mrs. Lincoln will make a brief wedding tour, and upon their return will take up their residence at West Hingham, where they will be at home Tuesdays after November 1.

The Parrot Has Heard

That the wants of Norfolk Downs residents are legion.

That if all they paid in taxes was expended there they would not be satisfied.

That it is true that their streets should be accepted.

That they should have a school building.

That two years ago Wood, Harmon & Co. would have given the city a lot for that purpose.

That the city will have to pay for it now.

That a question will arise on the proper location.

That if they get a school building before '95, they will be lucky.

That the School Committee report there are 201 scholars who would attend the new school.

That it costs about $25 a piece to educate them.

That this means over $3,000 per year.

That a new building would cost $30,000 or $40,000.

That Norfolk Downs has not yet paid for a school house.

That Wood, Harmon & Co. will keep out of city politics this year.

That they had their fill of it last year.

That the new Improvement association is to worry the City Council next winter.

WEYMOUTH.

A LIVELY TILT.

Personalities Indulged in at Democratic Convention

FOR NOMINATION OF SENATOR.

An Opposition to John W. Hart on the State Central Committee.

The Democratic convention for the First Norfolk Senatorial District was held in the Adams building, Quincy, Wednesday afternoon. It was called for three o'clock but was half an hour later in coming to order.

John V. Scollard of Braintree was chairman, and Frank I. Childs of Hyde Park, secretary.

A committee of five on credentials reported the convention entitled to 68 and that 60 were present.

A committee of eight, one from each city and town, was appointed to report a list of candidates for senator. The committee agreed upon Walter P. Beck of Milton and he was unanimously nominated.

All had been smooth up to this point, when it was voted to proceed to an informal ballot for a member of the State Central committee, and a committee on ballot was appointed.

Mr. Murray of Hyde Park then took the floor and placed in nomination Patrick H. Crowley of Hyde Park. He claimed that that town had never been recognized with a nomination for senator or a member of the committee. He then called John W. Hart by name and assailed him, mentioning the fact that the delegation from Weymouth, his own town, was divided in supporting him for a renomination. The nine delegates from Hyde Park were for Mr. Crowley, first and last, and the support of Canton and other towns were promised.

Two Canton delegates then hopped up and confessed a change of heart for John W. Hart.

W. F. Powers of Quincy placed John W. Hart in nomination, and eulogized his record; he had stood by the party in its dark days. The convention should not be threatened by Hyde Park, that unless it got this and that it would not give the party full support.

Mr. Grant of Hyde Park did not think there had been any threats. Wanted Hyde Park man for influence.

A. E. Avery of Braintree discountenanced personalities. Mr. Hart could not satisfy all in the scramble for post offices. Harmony demanded his reelection.

C. J. McMorrow of Weymouth, who confessed he was a personal enemy of Mr. Hart was for unity of party first, and personal matters second, and moved the nomination of Hart by acclamation.

Mr. Murray poured oil on the troubled waters which his storm had ruffled, and withdrew the name of Mr. Crowley. He also seconded the nomination of Mr. Hart.

The convention allowed the withdrawal of the name, and also the motion to proceed to the ballot, and John W. Hart was unanimously elected.

The District committee was authorized to fill vacancies, and John V. Scollard was re-elected chairman.

At 4.20 the convention adjourned.

HIGH SCHOOL DEBATE.

The Society Reorganized—Debate: That Falsehood is Never Justifiable.

The first regular meeting of the High School Debating society for 1894-95, was held Wednesday, October 17, in the large study room of the new building. Miss McGovern, '95, presided.

The election of officers was held and the following nominations were made:

For President,—Miss Bassett, '95; Miss Dinnie, '95; and Miss Pope, '95.

Vice President,—Mr. Mudgett, '96; and Mr. Barry, '95.

Secretary,—Miss Bemis, '95; Miss Sullivan, '95.

Treasurer,—Miss Coyle, '96; Miss Garrity, 96; and Mr. Warshaw, '96.

The results of the election were as follows:

Miss Bassett, president.

Mr. Barry, vice president.

Miss Bemis, secretary and treasurer.

Miss McGovern appointed as a board of decision: Miss Pope, Miss White, Miss M. Sampson, Miss Emery and Miss Gavin.

As critic, Miss Vogler.

As executive committee,—Miss Flood, '95; Miss Grace Lord, '95; Miss Bates, 95.

The entertainment was as follows:

Recitation, — Miss Ramsey, '96; an excellent selection from Tennyson; acceptably given.

Recitation, — "Potatoes," Miss Mary Pitts, '96; a lesson in practical charity; well rendered.

Recitation,—"The Painter of Seville," Miss Mellett,'96; an excellent story of a young painter,—his struggles and his final triumph; well memorized.

Recitation, — "Man Was Made To Mourn," Miss Rothwell,'96; an excellent selection.

The debate followed:—Resolved, that falsehood is never justifiable.

The speakers in the affirmative were: Miss Bassett, Miss Bates, Miss Bemis, Miss Bryant, Miss Cashman and Miss Dinnie.

In the negative: Miss Flood, Miss Greaney, Miss Haley, Miss Keating, Miss Leary, Miss Lowe and Miss McGovern.

For want of time the debate was continued.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Wednesday was a busy day for the registrars of voters and they were in session from 12 o'clock, noon, until 10 o'clock in the evening, when registration for the State election closed. Any man not now registered will be unable to vote in November. The number of new names added Wednesday was 102 and 13 were restored. By wards they were as follows:

	Restored.	New Names.	Total.
Ward One,	2	11	13
Ward Two,	1	11	12
Ward Three,	5	22	27
Ward Four,	3	20	23
Ward Five,	2	26	28
Ward Six,	0	12	12
	13	102	115

Previous to this there has been added and restored 162, and the total number added and restored since the printed list were issued in September, is 277. So that now there are on the lists 3709 an increase of 136 over the State election in 1893, and 36 more than at the last city election.

Names of new voters not already published will appear tomorrow in the LEDGER.

STRIKE IN PROSPECT.

Union Lasters at Brockton About to Make a Demand For More Pay.

BROCKTON, Mass., Oct. 18.—The lasters of Brockton want more money for the work which is done on the consolidated hand method lasting machines. For some time the Lasters' Protective union has been considering the matter, and it has finally sent a request to 22 concerns using the machines that more be paid.

In the circular which was sent out yesterday the union says that it believes that the wages paid to men working on the lasting machines have materially decreased since their introduction, and also explains that the present prices were made when the machines were new and no idea of their effect on wages could be formed. The union says it is ready to talk over the situation with the manufacturers, singly or collectively, or to meet a committee from the manufacturers.

It is apparent, however, that it means to insist on the prices being paid, even though it should result in a general strike. The union expects a reply from the manufacturers by next Monday. The firms using the machines are the largest manufacturers in the city.

Strength of the A. P. A. In Buffalo.

BUFFALO, Oct. 18.—Fr. Cronin, editor of The Catholic Union and Times, has prepared an article for publication, in which he gives the names and meeting places of 36 lodges of the A. P. A. organization in Buffalo. He puts the total membership in Buffalo at 4976. The A. P. A. have shown their hands at several caucuses, and, although they have always been defeated, the order seems to be gaining strength.

Threatened by Employers.

CHEYENNE, Wy., Oct. 18.—J. F. Pierce, candidate for state auditor on the People's party ticket, has been notified by the Union Pacific Coal company that he either must withdraw from the ticket or leave the employ of the company. The law in this state provides severe punishment for individuals or corporations interfering with their employes or preventing them from becoming candidates for office.

Nothing to Implicate Them.

WASHINGTON, Oct. 18. — The arrests made at Cherry Run, which were supposed to have some connection with the recent train robbery, evidently had no connection with it. Both men disclaimed any connection with the robbery, and there was not the slightest evidence found upon them to connect them with it, or to justify the rumor that the train robbers had been caught.

Grace's Bombshell.

NEW YORK, Oct. 18.—Democratic leaders found a fruitful subject for discussion last evening in the offer of William S. Grace to withdraw all the candidates of the state Democracy for congress, provided Tammany Hall did the same. Tammany leaders were much disturbed by the action of Mr. Grace, which they called a bluff, and, coming at such a late day, was not intended in good faith.

APPEAL TO STOMACH.

Generally Potent But How Will It Be in the Case of

THE SQUANTUM ANNEXATION.

Majority of Committee Seem to Favor, But a Minority Report is Promised.

The special committee of the Quincy City Council composed by Councilmen Holden, Holbrook and Shackley, and Aldermen Folsom and Bryant and Councilmen Whelton, Reidy, Wise and Andrews, composing the Boston committee, together with City Clerk Hillard of Boston, visited Squantum, Wednesday afternoon, to look over the territory, it being the first time many of the committee has seen it.

The visitors were met at the Atlantic depot with a barge, by Mr. L. V. Titus, one of the gentlemen most interested in the annexation, and the trip commenced.

The wind freshened just after the start and when the causeway was reached it was blowing a gale and a fair exhibition was had of how it seemed in winter.

The first stop was made at the little bridge, beneath which runs the creek which is not only a natural boundary line, but the one selected in the annexation plan.

From here the party drove to Squantum Head. Mr. Titus, who has Squantum's history on his tongue's end, explaining and pointing out the points of interest.

From Squantum Head a drive was taken to Moon Island, where they arrived at the same time as the Boston Society of Civil Engineers. The latter coming by boat. As the tide was right, all had an opportunity to witness the discharge of the sewage into the water.

Squantum proper was then visited, and after climbing to the several commanding points, the party were invited to the residence of Mr. Titus, where they were welcomed by Mrs. Titus and comfortable fires which were very welcome after the long cold ride.

A lunch, or what might more properly be termed a banquet, was served by Mr. and Mrs. Titus, and it was very tempting. The tongues of the law makers, which had become frozen, were thawed out, and conversation became general, but did not touch the annexation problem until after the cigars had been lighted.

The subject was discussed informally and while all were very much pleased with the territory, the gentlemen do not all agree on the annexation part.

Councilman Wise is opposed to annexation as he says he does not favor Boston taking this to enrich a few people who own land there, and thinks Quincy foolish if they let it go. Furthermore he informed the LEDGER that if a favorable report was presented he should offer a minority.

Councilman Andrews is said to agree with Mr. Wise, and Councilman Shackley of the Quincy Council is also opposed.

Councilman Holbrook favors the annexation and from the conversation Wednesday he has quite a following among the Boston committee, who in this see an opportunity to illustrate the "Greater Boston" on a small scale. Councilman Holden of Quincy is non-committal.

This meeting was only one of many to follow and before the barge was taken for Atlantic a vote of thanks was passed to Mrs. Titus, with promises to come again.

Ladies' Social Union.

The first entertainment of the Ladies' Social Union of the West Quincy Methodist church was held Wednesday evening and was quite largely attended. The entertainment consisted of harmonica and vocal solos by Miss Bowen, readings by Miss Flossie Thayer, remarks by the pastor, Rev. E. W. Virgin, and selections by a ladies' quartette composed of Miss Geer, Miss Moore, Miss Bayard, Miss Huntington. Refreshments were served after the entertainment.

ALLENS COMPOUND EXTRACT SARSAPARILLA THE HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—

I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Canker of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

PROF. W. H. MORSE, M. D., F. B. S. Sc. of Westfield, N. J., author of "New Therapeutical Agents", the standard text book of the newer materia medica, Consulting Chemist and Therapeutist, one of the most widely known men among the medical profession gives it his highest endorsement, as testified by the following voluntary statement:

"Allen's Sarsaparilla commends itself to me therapeutically, chemically and clinically. Its therapeutical power, physilogical activity, and chemical purity, are all noteworthy; and the reason is to be found in the fact that it is true to its name, or honest, as the word goes. That is, it is vegetable alterative, and tonic. Perhaps the highest praise that may be given it is that its action represents that of mercury, less the faults of that drug; for, has not Pereira said, "A perfect mercury would be a perfect alterative."

W. H. MORSE, M. D., F. B. S. Sc.,
Westfield, N. J.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for $1.00. Trial bottles 50 cts.

THE FIRST THING IN THE MORNING

take a little Carlsbad Sprudel Salt in a glass full of water. That will set you right and keep you right, if you're inclined to be bilious or dyspeptic or constipated.

People wonder, sometimes, why it is that the Carlsbad treatment, the world's remedy for habitual constipation, should be recommended for diarrhœa and such disorders, too. Simply, because it leads the stomach and bowels naturally into a healthy condition, whatever their derangements—it doesn't accomplish its results by harmful irritation, as most pills and purgatives do.

Beware of imitations sold as "improved" or "artificial" Carlsbad Salt.

The only genuine Carlsbad Salt, with all the properties of the Sprudel Spring solidified, has the seal of the city of Carlsbad and the signature of "EISNER & MENDELSON Co., Agents, New York," on every bottle. All others are worthless imitations.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

A NEGRO RAPE FIEND

The Primary Cause of a Disastrous Riot In an Ohio Town.

BIG MOB WANTED TO LYNCH HIM.

Many Persons Fell Before a Charge of Militia.

WASHINGTON, O., Oct. 18.—William Dolby, colored, pleaded guilty yesterday to outraging Mrs. Mary C. Boyd, in order to be rushed off to the penitentiary for protection, but did not get started in advance of the indignant mob. People were swarming into town all day. The sheriff could not get from the jail to the depot after the prisoner had been sentenced.

A mob had gathered about the jail Tuesday afternoon after Dolby had been identified by his victim, and Sheriff Cook called to his assistance the local militia. This action increased the fury against Dolby, and Governor McKinley was appealed to for additional assistance and troops from Columbus were sent here, Colonel Coit in command.

The mob surrounded the jail and courthouse, and attempted to take Dolby from the officers, when removed from the jail to the courthouse for trial, but were kept at bay by the free use of bayonets and clubbed guns. When brought to the courthouse, Dolby broke down. Deputies, with revolvers drawn, guarded the prisoner in the courtroom. He cried like a baby, and kept looking around for help. Soldiers were marched in to keep the crowd quiet.

Police Were Powerless.

After the sentence the prisoner was taken to the grand jury room. A mob gathered about the courthouse. The officers were powerless to get Dolby from the court to the jail, or to the train. The mob grew rapidly in numbers and desperation.

Colonel Coit made a speech, asking the crowd to disperse, but it was received with jeers. The prisoner was prostrate with fear, and lay crying and moaning all the time.

The mob kept Dolby and his guards prisoners in the courthouse until 6 p. m., and then made an attack. The militia repelled them without firing at first, but at 6:45 the south door was forced open. This door opens upon the street, which was filled with men, women and children. The detachment of the guards finally fired on the attacking party. Though none of the assaulting party were hurt, a dozen or more persons in the streets were struck, two killed outright and four more were fatally wounded.

The Killed and Wounded.

The killed are Smith Welch, aged 16, Jesse Judy, and Mack Johnson, who died in an hour.

Theodore Ammerman was taken to Bedel's clothing store wounded through the thigh. Theodore Niderhaus was carried home badly wounded. He was shot through both ankles. A man named Kaufman was shot through the wrist. Dave Dewitt, who was sitting across the street, was struck on the arm by a glancing bullet.

At the time the militia fired, a part of the mob was at the south door with a sledge hammer trying to effect an entrance. An angry crowd gathered, and it was whispered about that dynamite had been sent for.

Niderhaus is an old man who went to the courthouse to bring his boy home. The bones in his leg are all shot to pieces, and it is not believed he can live. Ellis Webster had his thumb shot off. John Koon was badly shot in the foot. Johnny McHugh, a little fellow standing on the outskirts, was shot in the leg, and in such a way that he will likely die. A man named Samms was shot through the bowels and will die. George Keating, aged 14, was fatally shot in both legs and groin.

More Trouble Feared.

The courtyard has been cleared of the mob, but the square about is packed, and more trouble is feared. By order of the chief of police all the saloons are closed.

The militia fired without warning, and a number of others are hurt, besides those in the list given.

The people are frenzied and threaten to dynamite the courthouse. Additional troops have been ordered from Cincinnati, Columbus, Chillicothe and other points.

Red Hat For Satolli.

NEW YORK, Oct. 18.—The World says it is in a position to state positively that Mgr. Satolli, apostolic delegate, has received official notice from the vatican that he is to be created a cardinal. The information that he was to be elevated to the cardinalate was announced to the distinguished prelate some time ago. This statement was confirmed by another prelate yesterday.

Tax Is Constitutional.

BOSTON, Oct. 18.—The full bench of the supreme court has sent down a decision holding that the collateral inheritance tax is constitutional. Only one justice, Judge Lathrop, dissents. The case was argued before a special sitting of the court at which the entire court of seven justices were sitting on the bench.

Five In the Race.

ALBANY, Oct. 18.—The nomination of L. N. Littauer for congressman in the Twenty-second district was filed with the secretary of state last evening. This makes five nominations from that district—two Republicans, one Democrat, one People's party and one Prohibition.

Swung Over to Populists.

FORT COLLINS, Colo., Oct. 18.—Judge McAnelly, for many years one of the most influential Democrats in northern Colorado, has resigned as a member of the Democratic state committee and joined the Populists.

A Turn About.

NEW YORK, Oct. 18.—The resignation of E. Ellery Anderson from the state Democracy and his determination to support the regular Democratic nominees were the surprises at Democratic headquarters last night.

A SILENT WITNESS.

Peculiarly Made Key May Put Police on a Murderer's Track.

KANSAS CITY, Oct. 18.—Burglars killed Christiansen Pearson yesterday. He was a policeman, employed by the wealthy residents of Hyde Park to guard their houses. He was found dead in the cellarway at the home of A. A. Mosher.

The murderers had left a clew that will prove of more service in bringing them to justice than their photographs. They dropped a key to the cellar door in the area. The key was of a peculiar make. Mr. Mosher owned several of them, and all were numbered. One was missing.

Members of the household had duplicates of the key and every one has been accounted for. One was given to Richard Russell, a negro employed by Mr. Mosher as a laborer a year ago. Two other negroes were employed to help Russell, and Russell reported one day that he loaned the key to one of his helpers and it was lost.

This is the key that was dropped by the men who killed Watchman Pearson. They let themselves into the cellar by it. Pearson came on them unexpectedly, as evidenced by the fact that his pistol had not been drawn.

Profited by the Wilson Bill.

WASHINGTON, Oct. 18.—A sharp diplomatic disagreement between the United States of Colombia and the United States of America has just been brought to a close. The difference has existed ever since President Harrison in March, 1892, issued a retaliatory proclamation against Colombia under the provisions of the McKinley act, because of the latter's refusal to negotiate a reciprocity treaty with the United States, as had been done by other central and South American countries.

Carr Indicted.

WORCESTER, Mass., Oct. 18.—The grand jury returned an indictment for murder against William G. Carr of this city, charged with shooting his sister, Mrs. Ellen T. Lucier, in the head, causing almost instant death, Sept. 29. Carr will be arraigned later, and if he pleads not guilty will be remanded to jail to await trial.

Castelar's Sentiment.

NAPLES, Oct. 18.—Prime Minister Crispi last night gave a dinner in honor of Senor Castelar, the Spanish Republican leader. Castelar assured Crispi that he warmly admired the Italians. He declared that a republican form of government could not give Italy or Spain greater liberty than a democratic monarchy.

Indicted For Bribery.

CHICAGO, Oct. 18. — Mrs. Warren Springer, wife of a millionaire, was indicted yesterday afternoon for attempted jury bribing. Mrs. Springer's alleged crime happened during a suit for the condemnation of some of her husband's property bought by the Metropolitan Elevated railroad.

ANNUAL SALE

— OF —

PARLOR STOVES and RANGES

Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,

$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MACEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,

$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,

75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,

55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size blankets, equal to those always sold for $1.50.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

HILL'S SENATE SEAT.

It Will Not Be Allowed to Pass Over to a Republican.

TAMMANY'S PLANS ARE UPSET

By Straus' Conclusion Not to Run For Mayor.

LITTLE FALLS, N. Y., Oct. 19.—One of the most intimate political associates of Senator Hill asserts that if the Republicans secure control of the legislature the senator will retain his seat in the senate, and will not qualify as governor, even though he be elected.

"There is no doubt whatever," said the gentleman, "that Senator Hill will keep his seat in the senate, even though he wins the gubernatorial race, rather than allow the Republicans to name his successor. Of course the Democrats are going to make a strong effort to elect a large number of their assemblymen. With the legislature Democratic, on joint ballot, Hill will take his seat if elected.

"I am of the opinion that if Hill should be elected governor and the legislature be Republican, the voters of the Democratic party would not condemn Hill if he allowed Lockwood to qualify as governor. Some of Hill's most trusted lieutenants approve of such a move, and unless he changes his mind between now and New Year's, he will not take his seat in the governor's chair, unless there is a Democratic majority in the legislature on joint ballot."

TAMMANY IN A MUDDLE.

Arrangements Knocked Out by the Withdrawal of Straus.

NEW YORK, Oct. 19.—Nathan Straus yesterday afternoon sent his secretary, Mr. Kincaid, with a letter to the northern portion of the state to Mr. Hill with reference to the question as to whether the senator's name will be allowed to stand on the state Democratic county ticket. Mr. Straus' conversation indicated that he would withdraw from the race for mayor if Hill allowed the Republican local ticket to be printed on the Democratic state ticket.

An intimate friend of Nominee Nathan Straus says: "Mr. Straus has practically decided to withdraw from the mayoralty race. This decision was arrived at after Mr. Straus received word from a close friend of Senator Hill, in which the latter declined to accede to Mr. Straus' request.

"Such Tammany leaders as Mayor Gilroy, ex-Mayor Grant, Delancey Nicoll, John M. Bowers and others labored long and earnestly with Mr. Straus, bringing all sorts of argument to bear, but the nominee was obdurate and insisted upon withdrawing."

The withdrawal of Mr. Straus will once more put the Tammany slate all awry, and until the leaders meet this evening, when the official announcement of Mr. Straus' withdrawal will, it is thought, be made known, everything must be a matter of conjecture.

It is admitted by most of the leaders that ex-Mayor Grant can have the nomination if he will only accept, but it is not believed that he will. Mr. Grant has frequently said that his business will not allow of his engaging in politics. It is known that he has within the past month withstood much pressure from such a source as the gubernatorial candidate on the Democratic ticket.

Then, too, Mr. Grant was heard to say he did not think himself a strong candidate, and agreed with Mayor Gilroy that the candidate for mayor should be selected from outside the organization. It is the opinion of the rank and file of Tammany Hall that Mr. Grant's position is analagous to that of Senator Hill, and that he will be compelled to accept the nomination.

Democrats' Opening Gun.

SPRINGFIELD, Mass., Oct. 19.—The keynote of the Democratic campaign was sounded in this city last night by John E. Russell, candidate for governor, and Charles E. Stratton, candidate for lieutenant governor. The hall was filled. James B. Carroll presided, and in his opening address pitched into the A. P. A. The burden of the two principal addresses was an appeal to stand fast by the party in spite of the tariff disappointment.

Letting Them Down Easy.

WASHINGTON, Oct. 19.—Havemeyer and Searles were arraigned before Judge Cole yesterday, and pleaded not guilty to the indictments against them for refusing to answer questions of the senate Sugar trust investigating committee. The proceedings were brief, and in 10 minutes the defendants were free again under bonds of $5000 each.

Priest Had Sharp Eyes.

CHICAGO, Oct. 19.—Father Gey of St. Peter's cathedral ended mass yesterday by abruptly leaving the altar, and, although robed in his sacred vestments, collaring a bold pickpocket thief in the main aisle. The thief was overpowered by Fathey Gey and turned over to a policeman.

A Supposed Moonshiner.

NEW YORK, Oct. 19.—John Zabrisky was burned by the explosion of a boiler at 230 Clinton street yesterday, where a private still was running. He was arrested at Gouverneur hospital, where he went to have his wounds dressed. He was held in $1000 bail for exan

Holding His Tongue.

CUMBERLAND, Md., Oct. 19.—C. J. Searcey, arrested for the Virginia train robbery, abstains from talking further than to maintain his innocence. There is a growing conviction that the prisoner had no connection with the Aquia hold-up

A DOUBLE HANGING.

Two Tough Characters Known to Have Been Criminals From Childhood.

ST. PAUL, Oct. 19.—Governor Nelson declined to extend clemency to Murderers Ermisch and Wonigkeit, and they were hanged this morning. These two young desperadoes, masked, at about 9 o'clock on the evening of May 2, entered the saloon of L. R. Kohlman, commanded everybody in the room to throw up hands and demanded the cash at the bar. They then shot down and killed Lindholf, the barkeeper. Though Ermisch was but 19 and Wonigkeit less than 21, it was shown that from childhood they had been criminals.

They were sent to the reformatory for burglary, and after two years they came back to St. Paul, armed themselves with revolvers and amused themselves on the highways leading to St. Paul by holding up farmers in broad daylight and robbing them of their watches and cash. After a few days at this sport they murdered Lindholf.

After the conviction an effort was made to induce Governor Nelson to reprieve the young men to life imprisonment in the penitentiary. Many feared that the governor would be prevailed upon, in view of the youth of the culprits, to grant the reprieve. But fortunately the true desperate character of the murderers soon came to light.

Ermisch secured a revolver through his mother, and attempted to carry out the plot for escape laid between himself and Wonigkeit. He shot and painfully wounded his death-watch and escaped part way through the jail. It was his intention to corner the death-watch in the end of the corridor on his cell floor, compel him to give up the key to Wonigkeit's cell, and then release his partner in crime. But the death-watch was too quick and foiled his scheme. Whatever intention the governor may have had in the matter, this daring break made it impossible for clemency to be extended.

Freight Cars Wrecked.

SOMERVILLE, Mass., Oct. 19.—The "Flying Yankee" train ran into the rear end of a wild freight on the eastern division of the Boston and Maine road, near the Mystic avenue bridge, last night and piled up cars in all directions. No one was seriously injured. The freight was just six minutes ahead of the Bangor train. Switchman Stearns endeavored to switch the freight off into the freight yard, but the switch failed to work. The passenger engine struck the freight with terrific force and telescoped the caboose. Eight cars were thrown from the track, and the lights in the van set the wreckage afire, and five cars were destroyed by the flames. The passenger train was not injured, except a slight damage to the engine.

Japs' Scheme Fell Through.

SHANGHAI, Oct. 19.—The Japanese at the Yalu river tried to surprise the Chinese under cover of darkness, but failed, and retired after desultory firing at long range. The Chinese claim that they inflicted loss upon the Japanese advance guard. Wei-Hai-Wei is being strengthened. Troops in the forts there fear a sudden Japanese naval descent. Reports have been received of a serious rebellion in Foo-Chow. It is reported that China is raising an internal 7 per cent loan of £20,000,000. It is still doubtful whether the Japanese have landed anywhere in China.

A Novel Wager.

PITTSBURG, Oct. 19.—Samuel F. Jennings and Leon C. Tinker of Wayland, N. Y., passed through here yesterday on their way from Rochester to Tallahassee, Fla., on a wager. They are two days ahead of time. They must not get on a train or carry a watch, cannot stop at a hotel, and in every town must secure the signature of a newspaper man, a preacher or a schoolteacher.

The World Must Settle.

NEW YORK, Oct. 19.—A jury awarded Miss Harriet Monroe judgment against The World for $5000 damages. The suit was brought to recover $50,000 for the publication in The World of the Columbian ode, written by Miss Monroe, which had been copyrighted.

Opposition Downed.

CHICAGO, Oct. 19.—The stockholders of the Pullman Palace Car company met in annual session yesterday afternoon. George M. Pullman and his friends were re-elected for another year, despite the opposition to the management which was said to exist.

The Czar's End Approaching.

ST. PETERSBURG, Oct. 19.—The czar appears to be dying. All the members of the imperial family are en route to Livadia, where the czar is sojourning. It is furthur said that the formal appointment of the czarewitch as regent is hourly expected.

Violation of Interstate Law.

PITTSBURG, Oct. 19.—James Mean, division freight agent of the Pittsburg, Cincinnati and St. Louis railroad, was indicted by the United States grand jury for discriminating in the matter of beer shipments from Cincinnati to Pittsburg.

PLANS OF PRELATES.

Jesuits Will Not Accept Father Papi For a Year or Two.

WHEN SATOLLI BECOMES CARDINAL

He Will Have Higher Powers Than Any Archbishop.

ROME, Oct. 19. — Information from sources within the Vatican make it possible to give details concerning the cardinalate to be conferred on Mgr. Satolli, and the retirement of Mgr. Satolli's secretary, Papi, from the Vatican staff, in order to join the Jesuit order.

There have been denials of the report of Father Papi's move, but the facts are now learned beyond any question. The request was very broad and contemplated a retirement from his official connection with the Vatican's foreign service and the prospective honors in store for him. It was made known that he desired to retire from the world and devote his life in the Jesuit order.

To this end he applied to the provincial of the Jesuit order in New York for admission, and on the granting of the exeat here he would have been transferred.

The plans were modified, however, by the premature reports of Father Papi's intentions. It was felt also by those having Jesuit interests at heart that the accession of Mgr. Satolli's secretary by the Jesuits might arouse criticism on the ground that the one best informed on confidential transactions of the ablegate had joined the order popularly supposed to be opposed to Mgr. Satolli.

While this criticism would be groundless, it was deemed advisable to avoid the possible charge of a "Jesuit trick." For this reason, it is believed that the New York provincial will advise Father Papi to wait a year or two before taking his exeat and joining the order, by which time Father Papi's confidential relations with Mgr. Satolli will have terminated.

Concerning the Cardinalate

to be conferred on Archbishop Satolli, there appears to be no ground for the reports that notice of appointment has been forwarded to the ablegate. The consistory of cardinals, which advises with the pope on the creation of cardinals, does not meet until next month, so that the actual determination on his appointment will not be made until then.

In the meantime there are seven names under consideration, from which number it is considered certain that five cardinals will be named, Mgr. Satolli is among the five. There are no further American names among those under consideration. It is expected that the conferring of the red hat on Mgr. Satolli will be celebrated at Cardinal Gibbons' church in Baltimore, and that several noblemen of high rank and distinguished prelates will go from here as the personal representatives of the pope.

There Is a Doubt

as to whether Mgr. Satolli's cardinalate will carry jurisdiction over the diocese or will be purely honorary. Cardinal Gibbons is also archbishop of the Baltimore diocese, including Virginia, Maryland and the District of Columbia, which makes him a powerful as well as honorary prelate. Whether a diocese will be created for the new cardinal is still undetermined.

It is probable, however, that his jurisdiction over questions between bishops' and priests' conflicts will be regarded as equivalent to a decree. All of the papers in these trials are in Latin, and as Mgr. Satolli is a perfect Latin scholar, as well as a master of canon law, he is considered better qualified for the work than for supervision over the active labors of a diocese.

The title is likely, therefore, to be honorary, without the supplementary power of an archbishop. Yet, as the personal representative of the pope in America, the cardinal will occupy a station higher than that which the powers of archbishop could bring to him.

Whisky Trust's Rival.

NEW YORK, Oct. 19.—The National Distributing company, incorporated a few weeks ago for the purpose of handling the goods of the anti-trust distilleries, has organized. The new company claims now to control a capacity for all substantial purposes as large as that of the American Distributing company, which controls the output of the Whisky trust.

Son-In-Law Gave It Up as a Bad Job.

CHICAGO, Oct. 19.—Mrs. Eliza Carson, aged 70, whose son-in-law asked for a conservator, that she might not squander her fortune in her fad for continual steamship trips on the Atlantic, has left here for New York to take another voyage. The son-in-law withdrew the application for a conservator.

Business Looking Up.

BOSTON, Oct. 19.—A new mill will be shortly constructed at Ludlow for the Ludlow Cordage Manufacturing company of this city. Jute having been placed on the free list, the company will devote more attention to the manufacture of finer goods.

Wrecked by a Gale.

SAN FRANCISCO, Oct. 19.—The tug Monarch, which towed the big log raft valued at $35,000 over the Columbia river bar on Friday last and started with it for this port, reports the raft a total loss. A terrific gale wrecked the raft the second day out.

Betrothed to Meet.

DARMSTADT, Oct. 19.—Princess Alix of Hesse-Darmstadt, the future wife of the czarewitch, left here today for Livadia. At Warsaw the princess joins the members of the Russian imperial family, who are en route to Livadia.

Back From Sweden.

PORTLAND, Me., Oct. 19.—W. W. Thomas, who has recently returned from Sweden, where he has been the United States minister for four years, returned home yesterday. He and his family will pass the winter here.

Editorial Comment.

ANOTHER EVIDENCE of the growth of Quincy is the fact that it is one of the few cities of the Commonwealth which shows an increase in number of voters this year, and that without any unusual effort. Of the thirty cities, the following show a decrease since 1893: Brockton, Cambridge, Fitchburg, Fall River, Gloucester, Haverhill, Holyoke, Lynn, Medford, Northampton, New Bedford, Newburyport, Newton, Springfield, Taunton, Waltham and Worcester. Quite a number of the above are even smaller than in 1892, while Quincy made a substantial gain over both years, and has reached high water mark in its registration.

But how about Boston? "June" will be interested in a comparison of the figures of Quincy and Boston. The figures of the Quincy Assessors show this city to have made a gain of 136 over the State election of last year. Boston added but 133. This only illustrates, and very forcible, that Quincy is gaining faster than Boston. Quincy has a larger number of voters than these cities individually: Chicopee, Everett, Medford, Northampton, Newburyport and Woburn. And about the same number as the enterprising cities of Waltham and Pittsfield.

THE ARTICLE headed "Appeal to the stomach" which appeared in yesterday's LEDGER, carried with it a wrong impression. It appeared from the reading that Mr. Titus gave the Committee on Annexation, who visited Squantum on Wednesday, a rich banquet, to influence them in favor of annexation; but all who are acquainted with Mr. and Mrs. Titus, know that they entertain all who stop at their residence in a most generous style, and on this occasion there was no exception. Many of the committee had had nothing to eat since early in the morning, and to do otherwise than to give them a slight lunch would have been most inhospitable; and not in keeping with the generous-heartedness of the host.

The Quincy High.

It is the aim of Supt. Lull with the assistance of F. A. Tupper, the head master, and his willing assistants, to raise the standard of the Quincy High, so that it shall rank among the best. The cooperation of pupils and parents is necessary and with this in view, the head master today forwards to parents the following circular:

"As the daily session of the High school closes before 1.30 P. M., it is evident that no pupil of the school can do work satisfactory to himself, his parents or his teachers, unless he has at home regular study hours that shall be observed as carefully and conscientiously as the study hours under the direct supervision of his teachers. To a great extent, promotion will depend on this home work. The parents must demand it, if they expect to get proper returns for the time spent in school. If any pupil says that he has nothing to do at home, something is wrong, and the matter should be investigated."

Necktie Party.

A very successful apron and necktie party was held in Doble's hall Thursday evening under the auspices of Merry Mount lodge, I. O. G. T.

The first part of the evening was given up to an entertainment of a very pleasing nature in which Mr. Frank Gilbert was heard in a piano solo; Miss Porterfield in some of her pleasing readings; Miss Bowen in a contralto solo, that called forth a well deserved encore; Mr. Gragg in a banjo solo; Messrs. Souther and Metcalf in a mandolin and piano duet; Mr. Knight in two of his popular solos; and Messrs. White, Chute and Fuller in a mandolin and guitar trio.

After the entertainment the young men put on the neckties they had purchased and hunted up the young lady who wore the apron corresponding with it, whom they were supposed to invite to partake of refreshments. The remainder of the evening was given up to social enjoyment.

Young Men's Christian Association.

President Wason will address the men's meeting Sunday, at 3.30.

The first reception of the season will be held Thursday evening, October 25. An interesting programme will be presented and refreshments provided. All members of the association and auxiliary are invited. No special invitations will be issued.

Never in the history of the association has there been so much interest manifested in any department as now in the industrial educational classes.

☞"Shoot it I must, this old spring bed, I've just bought a Pilgrim at Kincaide's," she said.

AN OYSTER SUPPER.

Followed by Button Sewing and Tack Driving Contests, With Prizes.

One of the most successful sociables which ever took place under the auspices of the Ladies' Aid society of the Wollaston Unitarian church was the one which was given on Thursday evening in the church vestry. The principal feature of the sociable was the tempting oyster supper, which was served from half-past six to half-past seven. There were raw oysters, and escalloped oysters, and oysters served in a stew; and then there were pies, and cake, and ice cream. After the supper there was a button sewing contest for the gentlemen and a tack driving one for the ladies. Mr. William E. Rowe won the gentlemen's prize and Mrs. Walter M. Hatch the ladies'.

The committee having the sociable in charge consisted of Mrs. Frank A. Page, Mrs. Sylvester Brown, Mrs. Edmund F. Taylor, Mrs. E. G. Thayer, Mrs. C. W. Brennan, Mrs. G. B. Rice and Mrs. Arthur Sibley.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

This is the last day for filing nomination papers for the State election.

All the Republican nominations throughout the State were filed on time.

The Prohibitionists will probably make no Congressional nominations this year.

But one Socialist nomination for Congress has been filed, and that in this district.

The Journal reports that McNary will be cut in the Sixth Suffolk Senatorial district.

The Democrats at their county convention renominated John H. Burdakin of Dedham, for Register of Deeds, and Charles H. Smith of Dedham, for County Treasurer.

There was also a contest in the Second Norfolk Senatorial district over the election of a member of the Democratic State central committee, the present incumbent, Charles H. Shriver being defeated by John F. Cusick of Brookline by a vote of 25 to 21.

Voters in the tenth congressional district have no reason to complain that they have not sufficient material from which to select a candidate on election day. They have, besides the regular party nominees, Atwood on the Republican and McNary on the Democratic side, Peabody as an independent Republican, Morton the Populist and Fitzgerald the Socialist. The last named was the leader of the industrial army on its Washington excursion. Evidently he fell in love with the place, but it is not expected that he will run so well as he walked. The Prohibitionists have no candidate of their own in the district, but most of them will throw their votes for Peabody.—Transcript.

THE SWEDISH FAIR.

The Entertainment of the Opening Night —The Tables.

The annual fair of the Swedish Lutheran church opened in Plumber's hall, Thursday evening with as large a crowd as the hall could hold and the prospects are that it will be a financial success. On the sides and end of the hall were a number of tables for the sale of useful and fancy articles, refreshments, etc., and the hall itself was very prettily trimmed.

The entertainment Thursday evening consisted of an address on harvest time by Rev. Mr. Johnson, a violin solo, with organ accompaniment, by Carl Kilstedt and Mrs. Anna Nelson, and music by the Swedish band.

The fair will be continued tonight and Saturday night.

Those in charge of the tables were:

Fancy table,—Mrs. C. F. Carlson, Miss Augusta Peterson, Miss Ida Pierson.

Wheel of fortune,—Robert Lofgren.

Refreshment table,—Miss Josephine Johnson.

Ice Cream table,—Miss Salma Ryden.

Coffee table,— Miss Bertha Nelson, Mrs. Andrew Peterson.

Tonics,—Andrew Nelson, H. Samuelson.

Fish pond,—Bernard Johnson, Carl Wallen, Ragnor Wallen.

Kitchen,—Mrs. Peter Carlson, Mrs. Inga Wallen, Mrs. Anna Wallen, Mrs. P. A. Peterson.

—Always on the alert to meet the wants of the women of New England, the Boston Globe has invited its feminine readers to send in their favorite recipes, so that they may be printed in the Globe. By this means the housekeepers of New England will get a splendid collection of practical home recipes. The women are sending them in rapidly, and the Globe is printing them every day, as well as Sunday. Get the Globe and secure these recipes.

Lodge Meetings Tonight.

Merry Mount lodge, K. of H.

In the Superior court at Dedham, Thursday, a verdict of $695 was returned for the plaintiff in the case of Herbert H. Hale of Weymouth, vs. Vincenza Palladino and others of Quincy, an action on a merchandise lein.

Merry Mount lodge A. O. U. W. will ho'd its last meeting in its present hall next Tuesday evening, as the lodge will occupy the hall over Wilson's market on and after November 1. A collation will be served after the business of the evening.

Annie Johnson, aged 65 years who claims to live in Wollaston was fined one cent in the municipal criminal court in Boston Thursday for shoplifting in the store of Houghton & Dutton. Her excellent reputation and age stood her in good stead.

TODAY'S JOTTINGS.

Gleanings from All Quarters of the City of Granite and of Schools.

Prof. and Mrs. Bush are in Belleview, Florida.

A harvest supper will be held next week in the Atlantic Methodist church.

Mrs. Eben Crane on Washington street is very sick and is not expected to live.

Harry Read has been on a squirrel hunt the past week in the vicinity of Marshfield.

Dr. Maria E. Drew of Atlantic is taking a post-graduate course at the Tufts' Medical college.

Miss Mary F. Lynch of Waltham is the guest of her cousin, Mrs. William D. Burns of Common street.

Mr. Gurney has adopted a new method of lighting by kerosene in his store and the effect is very fine.

Word has been received of the death of Mr. John Lillicrap, formerly of South Quincy, at Joliet', Wis.

The private social of the members of Memorial church, Tuesday evening, is said to have been a great success.

When the Compass whist club begins to play there will be at least four regular whist clubs in Atlantic.

Mr. William Keyes of Wollaston is reported more comfortable, with slight indications of improvement.

Mr. O. E. Ring of Bradford, N. H., is the guest of his daughter, Mrs. George F. Rand, of Newcomb place.

Mr. Charles R. Safford is out on a two weeks' vacation, and has gone to his old home in the western part of the state.

The Edgerley Tableaux troupe of the Boston College of Oratory gave an entertainment Thursday morning at St. Mary's hall.

The 8.27 train in the morning from Atlantic is much appreciated and the wonder is that it has not been put on before.

Either the city or the N. Y., N. H. & H. R. R should abate the nuisance near the Wollaston depot, caused by a defective water pipe.

Some big fish stories are told in Ward 6, but it is a fact that some splendid lots of smelts have been caught near the shore the past week.

Joseph F. Costello, Quincy correspondent for the Boston Globe, has returned from his vacation and is once more attending to business.

The DAILY LEDGER was butchered yesterday, the people being anxious to get a copy of that convenient little timetable on the N. Y., N. H. & H. R. R.

George W. Wales of Chestnut street also mourns the loss of a bicycle, which was stolen between 5 and 7 o'clock Thursday afternoon near the Quincy cafe.

Not a thing has been done by the city toward putting Walker street in a passable condition, and the citizens look upon such neglect with a great deal of disgust.

Quincy was well represented at the State convention of the Y. M. C. A. at Newburyport, which open Thursday. Secretary Colton of Quincy read a paper.

That the high school children may not get drenched when there is to be "no school," would it not be the proper thing to blow the whistle at 7.30 sharp?

A lecture will be given next Monday evening, at 7.30, in the vestry of the West Quincy M. E. church, by Rev. James Yeames; subject, "The Slums of London."

The case of John McTiernan vs. John Fallon, all of Quincy, to recover $1,000 for trespass on land, on trial at Dedham resulted in the verdict of $400 for the plaintiff.

Mrs. John H. Roberts of Wollaston returned on Thursday from a protracted visit at Somerville. Mrs. Howard Moore, her daughter, is rapidly convalescing from her illness.

The Butcher Boy of Braintree made a good record at the Peabody muster, Thursday but seven tubs did better and there were only six prizes. Her play was 191 feet 7 7-8 inches.

The "No Name" whist club met with Miss Ruth Bassett last Tuesday evening and passed a very pleasant evening. This club is composed wholly of young ladies and gentlemen and a merry season is anticipated.

A union meeting will be held at Memorial church, next Sunday evening at 7.30. The choir of the Methodist church will sing. The speakers are Supt. Coon and a party of menfrom the Union Rescue Mission, Boston. Everybody invited.

A young ladies' whist club has been formed in Atlantic to be called the "Brownie club." The first meeting was held with Miss Alice Coe on Billings street, last Monday night, and others will follow once a fortnight through the winter.

The Ladies' Social Circle of the Methodist Episcopal church, Wollaston, held a sewing meeting on Thursday evening, at the house of Mrs. S. J. Higgins, Lincoln avenue. Several of their gentlemen friends also met with them and passed a pleasant social evening.

The annual harvest concert of the Wollaston Unitarian Sunday School will be held in church Sunday afternoon, Oct. 21, at five o'clock. The subject will be "Flowers, or God in Vegetable Nature." Program will consist of singing and recitations and addresses by Mrs. John H. Litchfield, Jr., and by the pastor.

LIQUOR DISPENSARY LAW

To Be Passed Upon by the Attorney General's Department.

WASHINGTON, Oct. 19.—The secretary of the treasury has referred to the attorney general for his opinion on a question raised by the enactment of the Tillman dispensary law in the state of South Carolina, viz.: Can the state officers enter United States bonded warehouses and confiscate spirits on the payment of the internal revenue tax to the general government. In a letter to Secretary Carlisle, asking that the opinion of the attorney general be asked, Internal Revenue Commissioner Mills says:

"The natural effect of acquiescence in the course proposed by Governor Tillman would be probable complete destruction of the bonded warehouse system within the state, and the consequent ceasing of business of manufacturing distilled spirits under the internal revenue laws and the loss to the United States of further income from that source. The dispensary law has been construed by the state supreme court as not absolutely prohibiting the manufacture and sale of distilled spirits within the state, but it appears also that under the law the distiller in the state cannot sell his product to private persons within the state, nor, if I rightly apprehend the provisions of the third section, to private persons to be shipped out of the state, but only to the state commission or to persons outside of the state and under regulations which would seriously inconvenience the shipper.

"Under such restrictions there would hardly be any further lawful production of distilled spirits within the state. The question is broadly presented whether a state can so legislate as incidentally to deprive the United States of one of its declared sources of revenue."

HAPPY DAYS.

Attleboro's Residents All Appear to Be Thoroughly Enjoying Themselves.

ATTLEBORO, Mass., Oct. 19.—Everybody in this happy little town is wearing a badge. Not because they need a constant reminder that the much looked forward to bi-centennial of the famous young old town is being fittingly observed, but as a proud emblem of kinship with the borough.

Last evening there was a procession of illuminated floats through the principal streets. There was also a bicycle parade, in which women played the most interesting part. Every wheel was decorated and lighted for the event. The "welcome" arch was lighted from base to top by electricity. There was an exhibition of animals.

One of the features of the celebration is the large number of souvenirs issued. There is a loan exhibition in the vestry of the Methodist Episcopal church, at which some 600 pieces are shown. This list includes pictures, utensils, books and all sorts of ancient things. The first Attleboro postoffice—which was nothing but a table supplied with one drawer—is also exhibited. The Masons, Grand Army and other organizations are keeping open house during the celebration.

Nasal Appendage Broken.

NEW YORK, Oct. 19.—An altercation between Police Justice Patrick Divver and Morris Tekulsky is said to have taken place Wednesday night in the latter's saloon, which resulted in a lively bout without gloves, during which Judge Divver is said to have been badly whipped, and is reported to be laid up with a broken nose. The judge could not be found yesterday. Tekulsky positively refused to talk upon the affair.

Hazers Expelled.

HARTFORD, Oct. 19.—E. M. Pender of New York and F. C. Hubbell, students at Trinity college, have been suspended for hazing. The upper classmen compelled freshmen to sing in their rooms, and the noise aroused Instructor Pynchon, who caught these two. The students have petitioned the faculty for a reconsideration.

To Wrestle With Vice.

CHICAGO, Oct. 19.—The International Anti-Gambling association is a new corporation, with the chief office at Chicago and with branches in all other large cities of the United States, extending ultimately to the great centers of population in foreign lands. A national board of lecturers has been arranged for.

Encouraging Colonization.

BERLIN, Oct. 19.—The colonial council agreed to recommend that the settlement of Germans in German protectorates be not regarded as emigration, and that colonizing be facilitated to the utmost, especially by the exemption of such settlers from the obligation of performing general military service.

More Weavers Out.

FALL RIVER, Oct. 19.—The weavers who went out yesterday have voted to stay out till a settlement for all weavers has been reached. The manufacturers give no sign of weakening. If forced to, they will shut down, but they will not restore wages at present.

New Building Gutted.

SPRINGFIELD, O., Oct. 19.—Fire started in the White Star laundry last evening and spread to The Republic-Times building, burning the interior of the new four-story building. The Sunday News was also damaged.

The Virginian Won.

WASHINGTON, Oct. 19.—Hite Peckman of Alexandria, Va., and Jack Costello, champion welterweight of Canada, sparred six rounds at Alexandria last night. Peckman knocked out his opponent.

Will Wait but a Week.

BOSTON, Oct. 19.—In a telegram to Manager Brady from Hamilton, O., James Corbett says that if Fitzsimmons does not sign the articles within a week he will pay no further attention to him.

Smooth Sailing In Chili.

SANTIAGO, Oct. 19.—The chamber of deputies has passed a vote of confidence in the ministry. The government has definitely decided to refuse China's offer to purchase six warships.

A Valuable Equine.

VIENNA, Oct. 19.—The Jockey club has purchased from Baron de Hirsch his bay colt Matchbox. The price paid is said to have been £18,000. The colt will be used for stud purposes.

To Work on the Czar.

ST. PETERSBURG, Oct. 19.—Pere Ivan, otherwise known as "Holy John of Cronstadt," is going to Livadia to pray for the czar. Ivan is a miracle worker.

Missouri Murderer Hanged.

HERMANN, Mo., Oct. 19.—Edward Murray, for the murder of Edgar Fitzwilliams, was hanged here today.

ANNUAL SALE
— OF —
PARLOR STOVES and RANGES

Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,
$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MAGEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,
$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,
75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,
55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size blankets, equal to those always sold for $1.50.

MILTON.

Rev. H. C. Vrooman will exchange pulpits Sunday with Rev. E. W. Virgin of West Quincy.

"Confession," a three-act farce comedy, is to be given by local talent in Associates' hall next Thursday evening.

T. L. Pearce has opened his new store in the Ellsworth building and it looks very attractive.

Mr. Edward Eaton has raised quite a large crop of fine peanuts this year.

The Milton band will celebrate its first anniversary next Wednesday evening by entertaining their friends. The programme will consist of a concert, supper and dance.

The new Milton directory is being delivered this week and it is a very handy book for reference, as it is very complete. A map of Milton accompanies the book. This is the first directory Milton has had for about 8 years.

There are to be some good bicycle races at East Milton, Saturday afternoon, at 3 o'clock. The men's race has nine entries and there are five in the boys' race.

WEYMOUTH.

The marriage of Mrs. Jennie W. Rice and Mr. Leavitt W. Bates, at the Methodist church, Weymouth, Wednesday evening, was the society event of the week. A reception followed at No. 48 Middle street, the residence of the bride's parents.

Lemon Tea at Wollaston.

Mrs. James J. Lord of Wollaston gave another delightful entertainment at her residence on Hancock street on Tuesday evening, in aid of St. Chrysostom's church. The lemon tea was a decided financial success.

The entertainment consisted of some excellent singing by a quartette, Mr. Ferguson, Mr. Osborne, Mr. Hersey and Mr. Jones of Quincy; a vocal solo by Miss Briggs; a piano duet by Miss Olney and Miss Lord; and Miss Hyde of Weymouth read very acceptably two selections. Cake and Russian tea were served during the evening. The tea was poured by Mrs. Barbour and the ushers were Mr. P. L Davidson and Mr. Arthur Sibley.

St. Chrysostom's Opening.

The opening service of St. Chrysostom's Episcopal church, Hancock street, Wollaston, will be held on Thursday evening, October 25, at 7.30. Right Rev. William Lawrence, D. D., bishop of the diocese of Massachusetts, will be present and Rev. W. R. Breed of Christ church, Quincy, will conduct the service. On the Sunday following, at 10.30 A. M., full morning service and Communion, Rev. W. R. Breed officiating.

☞ Don't wait till the season is half gone, buy a parlor stove now and enjoy it. See the line and prices at the store of Henry L. Kincaide & Co.

☞ Beautiful silk banquet and piano lamp shades, all colors, and softest tints, $2.25 to $5.00. One-third lower than Boston prices. Henry L. Kincaide & Co.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

For sale by Druggists and Dealers Everywhere.

☞ Of course, some people will go to Boston to buy goods, that's to be expected, but experience and observation both show that it is the wisest economy to buy Furniture right here in Quincy. Goods reliable, low priced and just as represented or money refunded at the store of Henry L. Kincaide & Co.

MARRIED.

A Western Drama Presented.

"Crawford's Claim," a drama in three acts with a prologue, was repeated at Hancock hall Thursday night.

The members of the company who presented the play performed their parts in a creditable manner and elicited continuous applause from the large audience present. The play itself abounded with humorous and pathetic situations, while a number of pistol and bowie knife encounters gave it a genuine Western flavor. Miss Sadie Smith who acted the part of "Nugget Nell," is deserving of special mention, and her faithful rendition of her part was noticeable throughout the play. Mr. Edward Donavan, as Sing Sing, was excellent, and his impersonation of the giddy Chinaman brought down the house. The other members without exception performed their parts in an excellent manner and are deserving of great praise. During the first act the inimitable "Billy" Kingstree appeared in cowboy costume and sang several songs which won for him unbounded applause.

A STORY TOLD.

A little work, a little play,
To keep us going—and so good day!
A little warmth, a little light
Of love's bestowing—and so good night!
A little fun to match the sorrow
Of each day's growing—and so good morrow!
A little trust that when we die
We reap our sowing—and so goodby!
—George Du Maurier in "Trilby."

A DETECTIVE'S YARN.

"It is not very often," said Detective Riley, "that a detective is forced to assume a disguise to get information, but sometimes it is absolutely necessary. The last time that I had to go into a den of thieves in a bogus character was a good many years ago, and I had a rather lively experience and enough of excitement to stand me until the end of my days.

"We received a report of the escape of a crook from the Charlestown prison, and from what the authorities there had been able to gather it was supposed that the convict had come to this city. They sent a description of the man, and the only thing that I saw was of any use was that on the man's right arm were the initials 'A. T.,' with a flag above and anchor below them in india ink. I looked over our records and found that we had there the pedigree of Abe Taylor, and he had the same marks on his right arm. The rest of the description that we had did not tally very closely with the one sent from Charlestown, but I thought that there was good ground for the belief that the escaped convict was Taylor, who was one of the most successful jail breakers in the country.

"In order to be certain of the identity of the convict I went to Charlestown. I found that the man had been convicted under the name of John Smith for the robbery of the Pittsfield bank, and the style of the work was in line with the business usually touched off by Taylor. I took a run over over to Pittsfield, got a description of the two men who had done the bank out of $160,000 and became convinced that the man who had been shot and arrested and who escaped was Abe Taylor, and that his partner was Jerry Connors.

"I knew that I was up against a stiff game, and on the train from Boston I laid out a plan which I thought would give me a show to get on the track of the men. Abe and Jerry I knew were partners with Petey Slade, who ran a notorious fence and dive in Washington street, near Canal, and I made up my mind that some time or other the pair of them would land in Slade's place. I decided that my strongest hold would be to get in with Slade and his gang on their own terms. I knew the risk I was taking, for the gang were about the toughest set of thugs and assassins in the city and would not hesitate to slit a man's wizen in a second upon the slightest provocation. I put up a scheme which I thought would beat their game, and it worked to the queen's tatse.

"When I reached the city, I had myself arrested for a fictitious crime and was tried and sent to the Blackwell's Island penitentiary in a perfectly regular way, with the assistance, of course, of Recorder Hackett. The warden in the penitentiary knew my game and aided me in carrying out the business. After I had been locked up a few days I made my escape from the island after dark. The next day the newspapers contained a thrilling account of my escape, and the story was that I dug my way out of my cell and swam across the river to this city. I must have had a terrible time, as the papers told it, but as a matter of fact I crossed the river in a boat, and the story was given out to make me solid in the work I had laid out to do.

"When I reached the city, it was dark, and I walked down to Slade's dive in my convict's rig, which had been soaked with water to carry out my scheme. I sent a boy into the dive to get Slade to come to me, and I told him the story of my escape and said that a thief who had started to get away with me, but had lost his nerve when it came to taking the swim, had told me that when we reached the city we could go to Slade's and put up until the thing blew over.

"Slade was very cautious. He felt my clothing and took me in a back room in the den and carefully examined the clothes and shoes to see if they were the genuine convict's outfit. He was satisfied on that point, but was suspicious when I could not give him the name of my partner. I did not dare to fake a name, for Slade knew where every thief was who had been sent away that he ever did any business with. I told him that the man was known to me as Jack, and as Jack McCarthy, one of Slade's gang, happened to be on the island at the time my story was taken as being straight, and I was given a room on the second floor to bunk in. The next day Slade saw the story of my escape in the papers and became my friend at once.

"I must admit that I never got better treatment from any one than I did from Slade and the gang. He told them that I was all right, and they were glad to know a fellow who had the nerve to swim across the East river, where the tide runs like a mill race. I had to keep in the house all the time, and in case the police got on to me in any way I was shown a way that I could escape by getting into an underground passage, which led to a sewer in the street. I was fed like a fighting cock, and nothing turned up for about three weeks. Then early one morning, while I was sleeping, some one came into my room, and I heard a whispered consultation. There was a dim light in an adjoining room, and I could see four figures. My hair stood up on end, for I naturally thought that they were talking about me, and that I had been found out. I made up my mind to give them as good a fight as there was in me, but after awhile the men went into the next room, and I heard them get into bed. In the morning my heart gave a big thump when I saw that the new arrivals were Abe Taylor, Jerry Connors and Andy Cummings, the men I was after.

"My first idea was to connect with the outside and have the place pulled, and I would have done this if I had not learned that a scheme had been put up to turn off a savings bank in Newark. Cummings and Taylor had been a week in Newark planting the place. I was introduced to them by Slade, and Taylor took me right away as a jail breaker after his own heart. I worked my cards as skillfully as I could and let the gang know that I was dying of dry rot. In the course of my business I had naturally picked up every detail of the crook's trade and let Taylor know that I was anxious to get into some good bank lift. They waited about a week and then got word from Newark that the bank was ripe. I was delighted when Taylor told me I could go along, and I carried some of the jimmies.

"When we reached the Pennsylvania depot in Jersey city, we split up, and I went to a lavatory. I found a bootblack there, and I gave him a message for headquarters here and the chief of the Newark police, informing them of the attack that was to be made on the savings bank. The boy did his work right, and when we reached Newark I saw that we were picked up by some of the local police on the dead quiet. We went to the house of Red King and learned that a hole had been pushed through the wall of the building adjoining the bank. When we left King's to go to the bank, I saw three New York detectives on the way. I could not arrange for any signal and did not know when the attack would be made upon us.

"A dozen policemen were in the bank office waiting for us, and after we had got through the hole behind the safe and were getting ready to go to work the police rushed in on us. I dashed for the hole and fell on purpose so that I blocked it, and as every man was covered with a gun there was nothing to do but surrender. I went in with the gang, and they did not learn who I was until the next day. The gang swore they would kill me, but haven't done it yet. Taylor and Connors were sent to Massachusetts on the Pittsfield affair, and the rest of the gang got a taste of Jersey justice."—New York Recorder.

Pennsylvania Railroad Time.

There was a time when folks used to set their watches by the town clock. Nowadays the railway timepiece seems to set the pace. There is so much traveling and so many have to catch trains that men try to keep railroad time.

Few think, however, how difficult it is to keep that same railroad time straight. A bad watch or false time, even to the extent of a minute or two, might easily involve the destruction of a train and many lives. Conductors and engineers not only must have good time keeping watches, but they must have a very accurate standard of time to go by. All clocks vary, but most clocks vary too much for railroad accuracy.

All over the great Pennsylvania system the clocks are regulated every 24 hours by telegraph from Altoona, where they get the standard time in seconds from Washington. The conductors and engineers running out of Philadelphia get their time from the clock in the rotunda at the Broad street station, the big one in the center just outside the waiting room, which occupies the same position in the new station that it did in the old. This clock, which cost over $400, is considered a wonder and in the old station seldom varied more than two seconds in the 24 hours. It has not been doing quite so well since taken down and put up again, but is improving and is so much better than any other clock known that nobody thinks of changing it, and in all probability in a little while, when it gets accustomed to its position and surroundings, it will come as near perfect accuracy as it ever has in its history.—Philadelphia Times.

The Kaiser's Favorite Dish.

The German kaiser and kaiserin usually breakfast and dine with 20 to 60 friends. They call that a "home" luncheon or dinner. The cuisine is half English and half German, and meats are always served in great variety, as the kaiser is a great meat eater. German champagne is furnished with soup, Moselle and Rhine wine follow and then Burgundy and Heidsick Royal with the dessert.

The latter is a special brand manufactured expressly for his majesty, who has always from 6,000 to 10,000 quarts of it in his cellars. The kaiser's favorite dish is Vienna roast beef, or pot roast. Whenever he visits at a house, his court marshal asks the host to place this dish on the menu. The kaiser's menu is always in German script except when foreigners are invited who do not speak the language. The kaiser keeps no pastry cook. All pastries for the schloss are furnished by a caterer in Unter den Linden.

The Empress Frederick's cuisine has never excited the enthusiasm of gourmets. It is neither English nor French nor German. Her majesty is inordinately fond of cream, which is added to most dishes on her table. Purees and pastries are much liked.—New York World.

Breslau's Trick.

Breslau, a celebrated juggler, being at Canterbury with his troop, met with such bad success that they were almost starved. He repaired to the churchwardens and promised to give a night's takings to the poor if the parish would pay for hiring a room, etc. The charitable bait took, the benefit proved a bumper, and next morning the churchwardens waited upon the wizard to touch the receipts.

"I have already disposed of dem," said Breslau. "De profits were for de poor. I have kept my promise and given the money to my own people, who are de poorest in dis parish."

"Sir," exclaimed the churchwardens, "this is a trick."

"I know it," replied the conjurer. "I live by my tricks."—London Tit-Bits.

Cottolene

The new vegetable shortening is the most popular food product of the day. Its use means good food, good health and a goodly saving in the end. Since the introduction of Cottolene, lard has no longer place in food or kitchen.

Cottolene

serves every purpose of lard, and serves it without grease, odor or indigestion. Those who have given Cottolene a fair trial never go back to lard. Be sure and get the genuine. Don't let any dealer palm off any of the many worthless imitations on you.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Kissing Time.

'Tis when the lark goes soaring
And the bee is at the bud,
When lightly dancing zephyrs
Sing over field and flood,
When all sweet things in nature
Seem joyfully a-chime—
'Tis then I wake my darling,
For it is kissing time!

Go, pretty lark, a-soaring,
And suck your sweets, O bee!
Sing, O ye winds of summer,
Your songs to mine and me!
For with your song and rapture
Cometh the moment when
It's half past kissing time
And time to kiss again!

So, so the days go fleeting
Like golden fancies free,
And every day that cometh
Is full of sweets for me,
And sweetest are those moments
My darling comes to climb
Into my lap to mind me
That it is kissing time!

Sometimes, maybe, he wanders
A heedless, aimless way—
Sometimes, maybe, he loiters
In pretty, prattling play,
But presently bethinks him,
And he hastens to me then,
For it's half past kissing time
And time to kiss again!

Fire Made a Clean Sweep.

HUDSON, N. Y., Oct. 19.—South River street, at Coxsackie lower landing, was gutted by fire yesterday. A warehouse filled with hay and straw was destroyed, as were a number of dwellings, a saloon and an icehouse. The loss is $30,000.

Bishop Barker Gets It.

NEW YORK, Oct. 19.—William M. Barker, bishop of western Colorado, was elected as bishop of the missionary jurisdiction of Olympia, state of Washington, by the bishops of the Protestant Episcopal church of America.

Against Eight Hours.

BERLIN, Oct. 19.—The municipal council, by a vote of 94 to 18, has rejected a proposal made by the socialists to establish eight hours as a legal day's work for all workmen employed by the council.

The End Not Yet.

DENTON, Ky., Oct. 19.—Many shots were fired from ambush at the non-union miners going to work on Davis run. Jack Marcum was seriously wounded. There is more trouble expected.

Divorce Granted Mrs. Emmett.

NEW YORK, Oct. 19.—Justice Ingraham has confirmed the report of the referee giving Mrs. Daisy May Emmett an absolute divorce from the actor, Joseph K. Emmett.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

ORGANIZED AT LAST.

American Association of Baseball Clubs Exists In Fact.

EIGHT CLUBS IN THE CIRCUIT.

Provisions of the Constitution Are Extremely Liberal.

PHILADELPHIA, Oct. 19.—Baseball men representing six cities quietly gathered at the Colonnade hotel yesterday, and after six hours' deliberation and discussion, Frank R. Richter, editor of The Sporting Life, who acted as spokesman for the party, announced the formation of the American Association of Baseball clubs, with a circuit made up thus far of Philadelphia, New York, Brooklyn and Washington in the east, and Chicago, Pittsburg and Milwaukee in the west. The eighth club is to be located in St. Louis, Detroit, Columbus or Buffalo, with chances favoring the latter.

The would-be magnates were confronted upon their arrival in the city by the announcement that Al Johnson, the Cleveland capitalist, who has been looked upon as the backer of the new organization, had withdrawn his financial support and decided to have nothing to do with baseball hereafter. Not the least cast down, however, by this unexpected move, the delegates organized at noon by choosing Mr. Richter as temporary chairman, Mr. Hewitt acting as temporary secretary.

Many Cities Apply For Membership.

A full discussion of the situation then followed, and it was decided to organize a new American association, with a circuit comprised of cities represented, all the delegates having shown financial backing satisfactory to the convention. Applications for membership were received from Buffalo, Detroit, St. Louis, Cincinnati, Providence and Columbus. These were referred to a committee, pending the arrival of an absent delegate.

It was decided to name the new organization the American Association of Baseball clubs.

The constitution reported by a committee was then adopted. This constitution limits the membership to eight cities, fixes the life of the association at 10 years, and defines the duties of president, secretary and board of directors.

Exhibition games between association clubs, during the championship season, are absolutely prohibited. Transfer of games will not be permitted. The buying and selling of ball-playing releases are also prohibited by the constitution. The sections relating to membership and full receipt division cannot be amended except by unanimous consent, thus preventing any "throwdowns" whatever.

Other Important Rulings.

It was also decided that the double umpire system should be used. Each club must adopt for its team a distinctive style and color of uniform to be worn at home and not to be changed during the season. Stringent rules were also adopted on the subject of dirty ball playing and rowdy conduct on the field.

It was decided that there should be no fight with the league if the association could avoid it. In pursuance of this policy it was decided to respect all contracts and to play a non-conflicting schedule.

The gate receipts are to be divided equally, after the payment of 10 per cent into the general fund, which must be maintained at $25,000. Each club is to be permitted to regulate the matter of free admissions, according to its own judgment. The general admission was fixed at 25 cents, and permission to play Sunday games was accorded to all clubs that desired that privilege.

A Swindler at Large.

PORTLAND, Me., Oct. 18.—A man who gave his name as Calvin S. Goodwin registered at the Preble House some time since, and represented that he was an agent for the A. G. Morris Safe company of Boston. When he came to settle he presented a check for about $450, drawn on the National Exchange bank of Boston. The clerk paid the man the amount of the check over and above his bill, and sent the check to Morris & Co., who pronounced it a forgery. The man's whereabouts is unknown.

Peace Once More Reigns.

WASHINGTON, O., Oct. 19.—This place is as quiet as though rioting and bloodshed had never been seen within its borders. The withdrawal of the last detachment of soldiers acted like a soothing poultice upon the half-crazed populace. From that hour the excitement rapidly subsided. William Sams died yesterday, making four victims. A number of those reported seriously wounded are now known to be merely scratched or bruised.

Sounds Like a Fairy Tale.

CASSIOPOLIS, Mich., Oct. 19.—Dr. A. B. Conkling returned home last night. He says he was kidnapped the night of Sept. 2, by two negroes, and driven all night to the house of some colored people, where he was kept in confinement one week and then taken to some city unknown to him and turned over to two white men, who always wore masks. He is unable to account for his abduction.

Old President Retained.

FITCHBURG, Mass., Oct. 19.—The state W. C. T. U. convention elected the following officers for the ensuing year by ballot: President, Mrs. Susan S. Fessenden of Boston, for the fifth year, 260 votes out of 261; corresponding secretary, Mrs. Esther Housh, Boston; recording secretary, Mrs. Helen G. Rice, Boston; treasurer, Mrs. A. H. Wood, Boston, and a vice president for each county.

A Runaway Horse Car.

LEWISTON, Me., Oct. 19.—A horse car crowded with people became uncontrollable on a hill in Auburn last evening, and rushed down the incline at a terrific speed. The horses were run over and one was killed. The car left the track, but did not tip over. No one was much injured.

Shot Himself.

BOSTON, Oct. 19.—Arthur Baer, 60 years old, a well-known diamond merchant, attempted suicide by shooting last night, and now lies in a critical condition at the city hospital. Baer has been despondent for several months.

Falcon Is Overdue.

ST. JOHN'S, N. F., Oct. 19.—Steamer Falcon, from Philadelphia for this port, laden with anthracite coal, is a week overdue. It is possible that she was disabled in the gale of Oct. 8.

DON'T LIKE RUSSIA.

Afghans' Affections For Foreigners Were Confined to English People.

LONDON, Oct. 19.—T. A. Martin, the London agent of the Ameer of Afghanistan for the past nine years, in an interview in regard to the situation of affairs at Cabul said:

"If the ameer knew that his death was near and that the lives of Europeans at Cabul would be in danger, he would take every step possible in order to ensure their safety. I hope to hear of the arrival of the Europeans in India at any moment.

"Afghanistan has immensely changed under the rule of the ameer, and the British are more liked than formerly by the Afghans. I know that the ameer told me that the whole feeling of the inhabitants of Afghanistan was against Russia, and the ameer discouraged trade with Russia in every possible way."

A dispatch from Simla says: It is confidently believed in government circles that the ameer is dead, although no official confirmation of his reported death has been received.

In view of this reported death of the ameer the situation at Cabul is considered to be serious. Nothing has been heard of Engineer Pyne or the other Europeans at Cabul for a number of days past.

Ghoalam Haider Khan, the Afghan commander-in-chief, is believed to be absent from Cabul on a tour of inspection. This is looked upon as being a good sign, as the khan is a violent anti-foreigner.

CHINA STARTED THE ROW.

The Mikado, Therefore, Will See That Japan Attains Her Objects.

HIROSHIMA, Oct. 19.—A session of parliament was held here yesterday. The speech from the throne was delivered by the mikado in person, who said that he had given directions to his ministers to submit for the deliberation of the diet a bill providing for increased expenditures for the army and navy, which is an important matter.

He declared that he was greatly pained that China should have forgotten her duties in regard to the maintenance of peace in the East in conjunction with Japan. "She having brought about the present state of affairs, however," proceeded the mikado, "and hostilities having been commenced, we will not stop until we shall have attained our objects."

In conclusion, his majesty expressed the hope that all his subjects in the empire would co-operate with the government in order to promote the restoration of peace by means of a great triumph for the Japanese armies.

Decision Reserved.

NEW YORK, Oct. 19.—Judge Lacombe yesterday heard argument on the writ of habeas corpus asking for the release of J. J. Howard, Levi P. Morton's coachman, who is held as a contract laborer. The judge reserved his decision.

Put In For Repairs.

ROCKLAND, Me., Oct. 19.—The fishing schooner J. W. Collins of Gloucester, Mass., reports loss of spars and portion of her sails in the big gale. She was off the Georges when the hurricane struck.

Killed by Accident.

LONDON, Oct. 19.—Viscount Drumlanrig, eldest son of the Marquis of Queensberry, was accidently shot in the head yesterday while shooting over covers at Bridgewater. The viscount died in a short time.

D. A. Buck, a resident of Waterbury, Conn., once made a perfect steam engine that was so small that the engine, boilers, governors and pumps all stood on a space only one-forth of an inch in diameter and less than seven-sixteenths of an inch high. The engine had 148 distinct parts, held together by 52 screws. The diameter of the cylinder was but one-twenty-sixth of an inch, and the whole affair not including the base plate, weighed but three grains.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

PARLOR STOVES and RANGES

Oil Heaters, Comforters and Blankets.

No retail house in America can show you a better line of the above goods more adapted to your wants than can we. Our store is modern and progressive, keeping always abreast of the times, and we never lose sight of our one principle of storekeeping—to handle only reliable merchandise, secure the best the market offers, and sell at a small profit to every one. These ideas puzzle and perplex the old fogies who drone on, clucking and clacking over the way they always have done. Public opinion must be considered in storekeeping as well as in everything else. Thus do we illustrate:

CLENWOOD RANGES,

$20.00 to $33.00.

We are the manufacturer's agents and carry their complete line. This stove needs no recommendation from us.

MAGEE RANGES and HEATERS.

Exclusive agents and representatives for Quincy of the Magee Furnace Company. The Magee Mystic and Magee Grand Ranges always in stock.

GOOD COOKING RANGES

From $10.00 up, including the Union, Waverly and Valet.

PARLOR STOVES,

$2.98 to $23.00.

Twenty different patterns, including the grand square nickled Parlor Stoves which are so wonderfully popular at the present time.

OIL HEATERS

Cost almost nothing to run, and can be taken from one room to another with absolute ease. No Smoke! No Dust! No Gas! $2.98 to $12.

COMFORTERS,

75c. to $3.50.

Our $1 Special Comforters out-rival all others, however, they are beauties and mighty warm, too.

BLANKETS,

55c. to $4.50 per Pair,

Prices about one-third cheaper than in former years. $1 buys a pair of splendid heavy full size blankets, equal to those always sold for $1.50.

THE TERMS OF THE AGREEMENT

To Be Made Between Magnates and the Players.

PHILADELPHIA, Oct. 20.—At yesterday afternoon's session of the American Association of Baseball clubs the delegates adopted the Keefe ball, which is manufactured by Keefe & Becannon of New York. The guide published by this firm was also adopted. President Kames was given the power to form the schedule, and the meeting adjourned, subject to the call of the president.

The delegates were very reticient in regard to where the money is to come from, and refused to give out the names of the backers of the new association. The contract which each player will be required to sign is as follows:

This agreement, made this ..... day of ..... 18.... between the ..... Baseball club, a corporation under the laws of ..... party of the first part and ..... party of the second part, witnesseth:

1. Said party of the second part agrees to devote his entire time and services as a ball player to said party of the first part during the period of this contract.

2. Said party of the second part agrees to conform to all the rules and regulations now adopted or which may hereafter be adopted by the party of the first part, appertaining to his services aforesaid.

3. Said party of the second part agrees not to render any services as a ball player during the time of this contract to any other person, corporation or association other than the party of the first part.

The Magnates' Promises.

In consideration whereof, the party of the first part agrees:

1. To pay to the party of the second part the sum of $.... per year, to be paid in equal semi-monthly installments upon the 1st and 15th of each and every month during the season, which shall commence ..... and terminate ....., unless the ball team shall be away from home, playing games, in which event the installments falling due shall be paid within the first week after return home of baseball team.

2. Said party of the first part agrees to pay the traveling expenses, board and lodging of said party of the second part whenever said party of the second part may be traveling in the service of said party of the first part, and when not so traveling the party of the second part will pay all of his own expenses; and the party of the second part agrees to furnish, at his own expense, his uniform and outfit as a ball player, the same to be designated by the party of the first part, and in case the party of the first part shall pay for the uniform and outfit, it shall have the right to deduct the amount so expended from the salary of the party of the second part.

This contract shall be in force during the year ..... to ..... In witness whereof the party of the first part has caused its seal to be hereunto affixed, and the presents to be subscribed by ..... president of said club, and the said party of the second part has hereunto set his hand and seal, this day ..... of 18...., in presence of .....

Fraud Alleged.

TERRE HAUTE, Ind., Oct. 20.—Dr. R. C. Flower of Boston was arrested here yesterday at the instance of Nathan C. Foster of Fairchild, Wis. Flower is a member of a company owning land around Deming, N. M. Foster charges him with having obtained $50,000 under false pretenses. Flower claims Foster was let into the company after inspecting the land, but became dissatisfied, but now that the land has become valueless he wants it back.

A Woman of Mystery.

PORTLAND, Me., Oct. 20.—Monday night a woman fainted on the street and was taken to the Maine general hospital. She seems to have some terrible scene constantly before her, and is watched for fear she will commit suicide. She is very pretty, and was well dressed when found. No clew to her identity has yet been discovered. She says she will kill herself before she tells who she is.

Youthful Toughs Captured.

PORTLAND, Me., Oct. 20.—Two boys were seen loitering around the Grand Trunk freight yards yesterday. They were arrested on suspicion of being runaways, but it was learned that the boys were wanted in Lynn, Mass., on a charge of burglary. They gave their names as Frank Barry and Frank Shannahan. Both boys are tough customers.

Following Lexow's Lead.

NEW YORK, Oct. 20.—Inspector Williams has raided the bucket shop of the Stearns Commission company in New street, with offices in the Edison building, and arrested nine men. This is the mining stock quotation company that is being investigated by the Lexow committee.

Succeeded at Last.

WEST DERRY, N. H., Oct. 20.—George F. Griffin killed himself yesterday by shooting. He has a number of other times undertaken to end his life. He was born in 1812 and had held many publis offices.

Dingley Bought It.

GRAND RAPIDS, Oct. 20.—The Daily Eagle, sold at mortgage sale yesterday, was bid in by Congressman Dingley of Maine, who held a first mortgage.

PARIS, Oct. 20.—General Giovanninelli, now in command of the Third Army corps, has been appointed to the command of the French expedition at Madagascar.

GENERAL BOOTH IN GOTHAM.

Expects to Gain 100,000 Recruits In the Next Six Months.

NEW YORK, Oct. 20.—Commander Ballington Booth, the head of the Salvation Army in the United States, has completed preparations for a welcome to his venerable father, General William Booth, the founder and international commander-in-chief of the army, who arrived in this city last night from Canada. On Monday a monster reception will be given in Union square. There will be 120 staff officers, 1000 other officers and 3000 delegates from all parts of the country. A great procession will then be formed and march to Music hall, where a formal welcome will be given to the general. On Tuesday the general will hold a special meeting at Association hall for the auxiliary league and its friends only, and in the evening he will speak in Music hall on "The Social Scheme."

GENERAL BOOTH.

General Booth has just completed a triumphal tour of Canada and starts from New York for all of the leading cities of the United States. He believes, and Ballington Booth agrees with him in this, that the tour means 100,000 recruits to the Salvation Army during the coming six months.

Perhaps the greatest ovation to be tendered General Booth, except that in New York, will be that in Pittsburg, where 20 neighboring towns will join in the services. Commander Booth is accompanied on his tour by his sons, Commanders Herbert Booth of Toronto, Ballington Booth of New York, and his private secretary, Staff Captain Malan.

RECORDS SMASHED.

Remarkable Performances by Crack Cyclists on Waltham's Track.

WALTHAM, Mass., Oct. 20.—Five world's records went to smash at the bicycle track here. Harry Tyler started to break the two-mile standing record, and he cut down the record 13s., and his time, 4m. 8s., was under record for the same distance made on a flying start. Arthur W. Porter made new figures for the third and half mile class A records. Gardner broke the record for the unpaced third of a mile.

The record up to yesterday for the standing two miles was held by Kennedy, at 4:15, and was made at Denver at the national meet there last August. Butler holds the flying start record for that distance, 4:04 4-5, but he must better it now to hold out against Tyler.

Tyler's intermediate times were: Quarter, 28 1-5; third, 49 1-5; half, 1:01 1-5; two-thirds, 1:20 4-5; three-quarters, 1:30 1-5; mile, 2m.; quarter, 2:30 1-5; third, 2:40 3-5; half, 3:00 4-5; two-thirds, 3:22 1-5; three-quarters, 3:32 2-5; two miles, 4:03.

The conditions were excellent for record breaking, and Porter, too, decided to take advantage of the opportunity. He lowered Davidson's class A record for the flying half from 56s. to 55 2-5. The flying third he lowered to 34 4-5; the quarter was ridden in 26 2-5.

Arthur Gardner of Chicago next tried for the unpaced third-mile. He equalled the world's record, which is the class A record also, and which is held by Allen, 39 1-5s. Sanger's class B record of 40s. dropped, however, 4-5s. Gardner's quarter was made in 28 3-5s., his third in 30 1-5s.

Marchioness Wants a Divorce.

LONDON, Oct. 20.—The Marchioness of Queensberry has lodged a petition for the nullification of her marriage. John S. Douglas, eighth Marquis of Queensberry, was married in 1866 to Sibyl Montgomery, who obtained a divorce from him in 1887. In November last the marquis was privately married to Miss Ethel Weedom. The Marquis of Queensberry has four sons and one daughter living by his first wife.

Commodore Melville's Recommendations.

WASHINGTON, Oct. 20.—The annual report of Commodore Melville states that speed can be increased in the future by means of triple screws. The report recommends a new boiler shop at the Portsmouth (N. H.) navy yard, and that the Boston yard be again used as a repair station and the shops placed in running order.

Bellman Bust Unveiled.

BROOKLYN, Oct. 20.—The Swedish residents of this city assisted today in unveiling a bust of Carl Michael Bellman, the Swedish poet and composer, in Bay View park. There was a procession of persons dressed to represent characters from Bellman's poems. The statue was modelled by the Danish sculpter Leth.

Signed by Both.

NEW YORK, Oct. 20.—The articles of agreement between James J. Corbett and Robert Fitzsimmons have been signed by the representatives of both men. The only change is that the referee selected by the Florida Athletic club shall be satisfactory to both principals.

Won't Accept It.

COLON, Oct. 20.—The widow of President Nunez has declined the proposed grant from the Republic of Colombia of the sum of $100,000 as a token of the country's appreciation of the services which her husband rendered to Colombia.

Matches Ablaze.

PORTLAND, Me., Oct. 20.—A fire in the Portland Star Match company's factory was easily extinguished, but several thousand dollars' worth of dry matches and much machinery and material were ruined.

Swept Overboard.

ROCKLAND Me., Oct. 20.—Captain Wingfield of the brig M. C. Haskell reported the loss of a sailor named Henry Pegler. He was swept overboard in a hurricane.

DEATH HOVERS NEAR

Court Officials and Friends Hastening to the Czar's Bedside.

SYMPATHY FOR HIM IS UNIVERSAL.

Appeals to the Deity to Spare the Monarch's Life.

LONDON, Oct. 20.—The last red tape cordon that is always drawn around the truth by diplomacy was broken when M. de Staal, the Russian ambassador to Great Britain, admitted that telegrams that had been received at the embassy preclude any hope that the sufferer of Yalta would never again rise from his bed. Baron Mohrenheim, Russian ambassador to France, furnished the Paris Figaro with the same unwelcome news.

If this is not sufficient, the fight of court officials, the forced journeys of members of the Russian imperial family, the alarm of the various courts, the shivering bourses and the prayers offered up in churches are irrrefutable testimony of the fact that the czar is dying.

Throughout the day and evening a rain of telegrams has fallen in this city. Compiled and sifted, those facts are gleaned: M. Benkendorff, the Russian court chamberlain, has countermanded every order that has been issued in connection with the proposed visit of the czar to Corfu. Many officials have started for Livadia. Princess Alix, the czarewitch's betrothed, will arrive at Yalta, where the czar is sojourning, on Monday, and she will be preceded by a few hours by Grand Duke Vladimir. The Grand Duke Alix arrived in Paris yesterday morning, and left last night on the Oriental express, which is due at Yalta on Tuesday.

Around the palace at Yalta there was yesterday placed a triple cordon of police and soldiers, in order that no access could be had to the palace from without, and that nothing from within could escape to the world unless it first passed through the crucible of censorship.

Uneasy Feeling Among Financiers.

So grave are the issues depending upon the czar's life that even the people of Russia are obliged to be satisfied with curt official bulletins so meager as to suggest in every case fully chosen word theory of the worst. This is the reading by the bourses, to which the London stock market furnished a prompt echo. Russian securities declined from weakness, but it seemed that the markets everywhere were checked later by heavy purchases which, it is reported, were made on account of the Russian treasury in order to prevent a panic. Thus the uneasy feeling among financiers found its foil.

Dispatches received from St. Petersburg report that the city wears its usual aspect, except that crowds of people are in every street grouped about the places where the bulletins were posted. Here they have been clustered, waiting the receipt of further news. Last night the theaters were open as usual, but the audiences were oppressed by a sense of calamity. In Russia this is entirely neutral.

Many Sympathizers.

What certainly is a remarkable feature of the present crisis is the sympathy developed within the past 24 hours in London for the czar, the man and the sufferer. In the clubs, omnibuses, trains and everywhere where people come together there is hardly any subject discussed but that of the czar's sickness.

The keenness of English sympathy has been deepened by the news that a nerve specialist has been called to the side of the czarina, sister of the Princess of Wales, who is herself threatened by the strain of nursing the dying emperor. Nor are the English alone in their sympathy. From Cettinje, the capital of Montenegro, Prince Nicholas this morning telegraphed to the czarewitch, saying: "In the deep anxiety and pain which the news from Livadia causes me, I can only unite my prayers with yours for a lengthening of the precious days of my great and noble protector."

Prayers For Recovery.

The churches throughout Russia held special services yesterday for the recovery of the czar. In the Cathedral of St. Isaac in St. Petersburg the highest officials to the moujiks joined in solemn petition to God to save the czar.

In the Russian church in Paris services were also held, and were attended by many notabilities. The services were marked with deep emotion, yet the thoughts of those present must have flown ahead, asking: "When the czar is dead, what then?"

The Temps answers the question thus: "In the day when his majesty passes away, beyond dispute the prestige of Russia will not be diminished, neither will the reasons which have drawn her to France be weakened, nor will the sentiments uniting the two peoples be altered, but Europe as a moral entity will have sustained an appreciable loss. She will lack a portion of her conscience. This is great praise for a prince, Alexander alone has merited it."

London admits that a serious crisis is possible, but yet hardly probable.

His Condition Unchanged.

A bulletin issued at Livadia at 10 o'clock last night says that the czar passed Thursday almost without sleep. His general weakness and the action of his heart are unchanged. The œdema of the feet, which previously appeared, has increased. His general condition is unchanged. This bulletin is signed by the five doctors in attendance upon him.

Further news from Livadia is anxiously awaited. All kinds of conflicting rumors are afloat. It is impossible to learn anything in official quarters beyond the bulletins. Several Russian journals have hurriedly sent special correspondents to Livadia. Grave fears are expressed that Princess Alix will arrive at Yalta too late to allow of her marriage to the czarewitch taking place before the czar's death.

Editorial Comment.

THE GRANITE contractor who misses a a number of the DAILY LEDGER may lose a $1,000 contract. We have made arrangements to get press clippings promptly from all the newspapers in the United States and will republish the same week news of all proposed monuments. Can you afford to wait for a monthly publication, or to be without the DAILY LEDGER. Why not subscribe today?

LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no excuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

EX-MAYOR WINN of Malden told the Metropolitan district commissioners that the idea of Boston having a million population was more a matter of sentiment than anything else. Ex-Mayor Coggan strongly opposed annexation. Clarence A. Perkins favored self-government, and Street Commissioner Cox was the only one to favor annexation. Judge Pettengill used these arguments against annexation:

He claimed that there was no corruption in Malden, but that their was plenty of it in Boston, and their annexation meant an extension of this corruption.

He made the statement that Boston business men lacked brains, and that the city represented antiquity. He said Boston had poorer roads than the outlying districts, and to illustrate this, he claimed that he broke his carriage last Sunday on Commonwealth avenue.

He gave figures tending to show that the tax rate for the Metropolitan district would be $15.80 on a thousand, with small tax rates left out.

Wollaston M. D. Married.

A dispatch from South Berwick, Me., to the Globe says: Miss Kathrine Oakes, youngest daughter of Abner Oakes, was married at 2.30 Thursday afternoon to Dr. Charles S. Adams of Wollaston, Mass. in the Congregational church, which was tastefully decorated with evergreen boughs, autumn leaves and bittersweet. The bride wore white overshot silk, with satin ribbons, and a tulle veil. The bridesmaids, Miss Katherine Quint of Marion, Mass. and Miss Annie Williamson of Augusta, wore orange brocaded silk and lavender striped silk respectively. The groomsman was Dr. Darling of Brookline. The ushers were Dr. Charles W. Oakes of New York, Dr. Stevens of Boston, W. H. Roberts of Rollinsford and John F. Hodgdon of South Berwick. A lunch was served at the residence of the bride's parents, after which the couple left for their new home in Wollaston.

No Street Cars for Milton.

The worthy people of Milton—those who ride in chaises—evidently have no use for electric cars. At the town meeting held Tuesday evening, to hear the petitions on the subject of extending the electric car system from Mattapan, through Milton to Quincy, resolutions were offered condemning the movement, on account of the narrow streets (?) and after a heated debate the selectmen "took the matter under advisement." It looks as if the Milton electric street railway was embalmed.—Hyde Park Gazette.

Park Theatre.

Monday evening, October 22, will not only see the beginning of the last week of the engagement of M. B. Curtis in "Sam'l of Posen" at the Park Theatre, Boston, but it will be the last times that production will be seen again on the American stage, for Mr. Curtis intends to shelve the play for a new one after playing it for positively the last times abroad in a tour of the continent. The public has been loth to part with "Sam'l of Posen" as has been shown by the magnificent business the play and the Park have enjoyed during the past week. Mr. Curtis' work is most delightful, and the greatest tribute that a real artist can receive is that his character is one of which the public never tires. One can see his "Sam'l" time after time and discover new beauties in it and discover new opportunities upon which to laugh.

D. A. Buck, a resident of Waterbury, Conn., once made a perfect steam engine that was so small that the engine, boilers, governors and pumps all stood on a space only one-forth of an inch in diameter and less than seven-sixteenths of an inch high. The engine had 148 distinct parts, held together by 52 screws. The diameter of the cylinder was but one-twenty-sixth of an inch, and the whole affair not including the base plate, weighed but three grains.

NEWLY PROPOSED MONUMENTS.

Contractors of This City Should be Alert for These Contracts.

H. A. Beattie has just completed modeling a large and handsome bas-relief which is to be cut on a monument to be erected on the Chickamaugua battle-field. It represents an officer on horseback leading his men to a cavalry charge.

State officials and citizens of Williston, Vt., are moving for a State appropriation for a monument to Thomas Chittenden, the first governor of Vermont.

There are few granite firms in Quincy that get out better or more work than Badger Bros., and they are rushsng business both in their sheds and polishing shops.

The Iowa City Republican's suggestion of a state memorial to Gov. Kirkwood, the same to be in the form of a building in which history and political economy will be taught, is a good one and we believe it is bound to become popular with the people before the next legislature meets.—State Register, Des Moines, Ia.

Few are the yards but what there are some men at work.

T. F. Mannix has a yard full of rough stock, and his polishing shop is running at full blast.

The Aberogwen monumental work ship today a very handsome monument of Quincy granite, which is to be set up in Dennisport. The bottom base is fine cut and is 3x5 feet. The second base is 2-6x 46, the four sides being polished and ornamented. The third base is 2-1x4-1 and is also polished and ornamended, the name "Ansell" being in raised, polished letters on the front. The column die is 3-10-x1-10x1-10 and is polished on four sides, the inscription being in sunken letters. The cap is 4-3x2-3x1-8 and is also polished and ornamented, the old English letter "A" being carved on each side.

The O. T. Rogers Granite company is cutting some fine work at its sheds.

A suggestion which meets with favor is the erection of a monument in Pittsburg with the surplus of $10,000 from the fund raised for the National G. A. R. encampment.

McDonnell & Sons have a number of handsome monuments of Quincy granite set up in their yards.

Quincy granite seems to be more in demand now than other granites.

Philadelphians are rejoicing over the will of the late Richard Smith, a typefounder of their city, who has bequeathed them $500,000 with which to build an arch in Fairmount Park as a memorial to those Pennsylvanians who took part in the civil war. The arch is to have equestrian statues of Gens. McClellan and Hancock and bronze busts of Gens. Meade, Reynolds, Hartranft, Beaver, and Crawford, Admirals Porter and Dahlgren, and Gov. Curtin. He also leaves a fund of $50,000 for the erection of a proper building.—Chicago Tribune.

The Quincy Quarry railroad is now sending down over its road an average of two cars per day.

Five car loads of pink granite was shipped by the Braintree Red Granite Co. Thursday, and more are to follow.

An appropriation of $1,000 was made by the Supreme Lodge Knights of Pythias for the purpose of placing a monument at the grave of the late Justice H. Rathbone, founder of the order.

Cook & Watkins are having all they can do and are getting out some fine work.

The number of cars of rough and finished granite shipped from West Quincy each week is at present about 50.

Sussex county, N. Y., is to erect a soldiers' monument in Newton; the cost will be $6,000. Of this amount $4,000 was appropriated by the Board of Freeholders and $2,000 was raised by one dollar subscriptions throughout the country.—Port Jervis Gazette.

Few are the yards that are not now equipped with the pneumatic tools, the larger part of which are run by electricity.

The granite news in the DAILY LEDGER has become a feature which will be appreciated.

The Schnorer club of the annexed district held its annual dinner Oct. 14, at the clubhouse, One Hundred and Sixty-third Street and Eagle Avenue. The object of the dinner was to secure funds for the erection of a monument to Louis J. Heintz, who was for many years President of the club. There were about 200 people present, and $2,000 was subscribed for the monument.—New York Times.

A very pretty fight is on over the appropriation by the last legislature of $15,000 or less to erect monuments on the sites of the first free public school and the first town meeting in America.

Both Dorchester and Salem claim the first town meeting, and a surprise that is rather startling, comes in the shape of a claim from Maine. The little village of Fort Popham on the Kennebec river asserts a title to the Massachusetts appropriation, alleging that it had the first town meeting.

Moreover, the first public school is claimed by Dorchester, by Salem and Ipswich, by Old Boston, by Plymouth, Newton and Dedham.

TODAY'S JOTTINGS.

Gleanings from All Quarters of the City of Granite and of Schools.

One alien received his final naturalization papers at the District court this morning.

Walter A. Holbrook of this city attended the Attleboro celebration, his native town.

W. H. Doble and family are to occupy a part of the Turner house on Canal street.

George G. Saville and family will move from Canal street to the Sheen house on Greenleaf street.

On some of the streets outside of the centre the water carts put on so much water that it is very muddy.

The institution of a lodge of the Sons of Temperance at Norfolk Downs last Tuesday evening was postponed until a future date.

Two bicycle races will be held at East Milton at 3 o'clock this afternoon and the result will be published in Monday's LEDGER.

The preliminary meeting for the organization of a High School alumni association will be held in the school building next Friday evening.

The name of Christopher A. Spear has been mentioned as a Republican candidate for mayor at the next municipal election. A very desirable candidate.

The next meeting of the Hospital Aid association will be held in the Probate Court room, Adams building, Thursday afternoon, October 25, at 3 o'clock.

Dr. John H. Ash of West Quincy has been appointed a member of the Board of Health to fill the vacancy caused by the resignation of Dr. C. O. Young.

Some very pretty windows have been placed in the new house of C. Theodore Hardwick on Chestnut street. They are something new and attract attention.

Mr. and Mrs. S. F. Newcomb and Miss A. F. Newcomb were in the party of Sons of the American Revolution at Plymouth, Friday. There was a banquet at the Samoset House.

There will be a harvest gathering of fruit and flowers about the altar at the Universalist church tomorrow morning, and Rev. A. C. White, the pastor, will preach a sermon appropriate to the occasion.

Mrs. E. Marnock held a 5 o'clock tea Wednesday afternoon, in honor of her sister-in-law, Mary Datzell, who sails from Boston on Saturday for Scotland, her home, having spent two months in this city with her brother.

Mr. John A. Nightingale of Easton, Pennsylvania, celebrated his eightieth birthday on Tuesday last. He has two brothers, James and Jeremiah Nightingale, residing on Granite street, in this city.

Another large crowd was present Friday evening at the Swedish Lutheran fair in Plumer's hall, and many of the articles on the several tables were disposed of at good prices. The entertainment consisted of singing by the choir, music by the band, a poem by Miss Salma Ryder, and an address on "Sweden in the 16th century," by Rev. Mr. Johnson, the new pastor.

Mrs. Jane Algeo, for many years a resident of Quincy, but of late has resided in California, died on the morning of the fourth of October, at her residence in San Leandro. She had been quite a sufferer for about two years previous to her death with indigestion, which she bore very patiently. She resided for some years at the foot of Spear street, previous to going to California.

The Rev. F. C. Baker of Providence, R. I., whose boyhood was spent in Atlantic, and who graduated from the Adams Academy, is to read a paper before the Convention of Methodists ministers in South Braintree next Tuesday on "Dangers from Romanism to Protestant America." Mr. Baker, while a resident of Quincy was a frequent contributor of prose and poetry ot the columns of the Quincy Patriot.

The South Quincy Base Ball club held a social dance at Hancock hall Friday evening. During the evening there was a prize waltz for two gold medals, which were won by Mr. Frank Smith and Miss Sarah McHugh. Hanson's orchestra furnished music, and the floor was in charge of Charles Purdey, assisted by John McIntosh, George Ingraham, Michael Deady, James E. Bienie, Charles Prowsa, John Pirrivna and George Guston.

Upon Tuesday evening, October 30, 1894, comes the annual dinner of the Adams Academy Alumni association, at the Parker house, Boston. A full attendance of all past members of the school, whether belonging to the association or not, is desired. Every graduate should be present, as the annual dinner affords the great and almost only opportunity for the graduates to meet together and renew old friendships. It is the desire of the committee to make the dinner a great success, and the only way to do so is to have the hearty co-operation of every past member of the school. Every man counts, and the absence of everyone tells.

Blue Hill Predictions.

During the coming week the warmest days will be about the 20th, 23d and 25th to 26th. The coldest between the 21st to 22d and 24th to morning of 25th.

The rainfall will probably be less than the average. The greatest probability of rain is on the 23d or between the afternoon of the 22d and 23d. The remainder of the week will be generally fair, except local showers may occur in parts of New England about the night of the 20th and on the 26th.—*Norfolk County Gazette.*

CARRIAGE DRIVERS

Arraigned in Quincy Court for Loafing at

THE RAILROAD DEPOT, QUINCY.

The Defendants Had Been Notified Not to Solicit Passengers.

The trouble among the carriage drivers at the Quincy depot which has existed since last February, came to a head this morning, when James E. Dunn, Alfred W. Bisson and James H. Bisson were arraigned in the District Court upon complaint of Christopher T. Bailey, for loafing about the Quincy station of the New York, New Haven & Hartford railroad.

Last February the above railroad issued to Messrs. Penniman & Son a contract, giving them the sole right to solicit passengers at the Quincy station, and the defendants, who were proprietors of carriages and were also soliciting passengers, were notified that they must withdraw.

They did not do so, however, and have continued to solicit trade as before. Soon after issuing the contract the railroad placed Mr. Bailey on duty at the depot as an officer and he was duly appointed and confirmed as a railroad police by the city of Quincy. Mr. Bailey has, evidently, been accumulating evidence, and the cases this morning were the first move the railroad has made to place Messrs. Penniman in control.

The government was represented by City Solicitor Blackmur and the defendants by J. W. McAnarney, Esq.

Counsel for the defence admitted that Mr. Bailey had been appointed by the City of Quincy but when Mr. Bailey, who was the first witness, was asked by whom he was employed, Mr. McAnarney objected on the ground that this was a matter of record and that the government must prove by the records of the railroad that he was employed by them.

A lengthy argument followed and the court allowed the objection, and the case was continued until next Saturday that the government might produce the evidence and records required to establish by whom Mr. Bailey is employed.

The complaints against Messrs. Bisson and Dunn was brought under Section 196 of Chapter 112 of the Public Statutes which reads as follows:

"Whoever without right loiters or remains within a station-house of a railroad corporation or upon the platform or grounds adjacent to such station, after being requested to leave the same by a railroad police officer, shall forfeit not less than two nor more than twenty dollars."

These cases have caused considerable comment among the parties interested, and the outcome is awaited with interest.

POLITICAL POTPOURRI.

Echoes of Past Elections and Gossip of Approaching Ones.

Too late to make any more nominations for the State election.

New voting lists will be issued next week.

Official returns show Boston's registration to be 87,740, against 87,352 at the State election of 1893.

Congressman McEttrick filed nomination papers Friday for Congress. About 150 of the 283 names were from Quincy.

Frederick W. Peabody also filed nomination papers for Congress. Many of the signatures are said to be Democrats.

The executive committee of the Republican City committee held a meeting Friday evening and transacted considerable business.

Democratic rallies will be held tonight at Quincy and West Quincy.

Thayer Academy.

The physical examinations of all the students were begun last week and will last for several days, accurate measurements in the metric system are taken for all parts of the body.

The game with the High school is off for the present.

Miss C. B. Cornell will not enter Radcliffe this fall.

Professor Sewall announced in chapel that the managers of the electric railway had decided to allow academy students in Braintree to ride for one-half fare. It is hoped this will also apply to out of town students.

The laboratory will probably be ready next week.

There are about 150, 16 candle power incandescent lamps in the new building already to be connected with the street mains if they should be required at any time.

WEYMOUTH.

Mr. and Mrs. William Legge of South Weymouth celebrated their golden wedding Monday.

Wompatuck encampment I. O. O. F., will celebrate its 19th anniversary next Saturday evening.

BRAINTREE.

The M. E. church is to be lighted with electric lights.

The electric cars ran to Quincy line this week for the first time.

The Quincy resevoir is 90 inches below high water mark, and still goes down.

Rev. J. W. Kingsbury will give a course of lectures in the Town Hall.

Joshua Wilkins took first money in the 2.30 class with "Roy K," Tuesday.

The High School eleven will play the Quincy High team on the common Thursday afternoon at 3 P. M.

Mrs. J. D. Bradford went to Attleboro and was present at the 250th anniversary of the town.

Chester Kane, son of W. A. Kane, is making arrangements to go to Florida for the improvement of his health.

Mr. and Mrs. W. L. Gage returned Thursday from a two weeks' visit to friends living in the state of New Hampshire.

Mrs. Trefy of South Braintree Heights has returned from a two months' visit to her daughter, Mrs. Paige of Greenfield, Mass.

The literary meeting of the Young People's Christian Alliance will be held next Tuesday evening with Mr. Eben Prescott.

Wednesday evening the annual harvest supper and entertainment given by the First Universalist society took place in the Town Hall; the supper being served in the lower hall.

The Providence District Ministerial Association will meet in the M. E. church on Monday and Tuesday (day and evening) of next week. The meeting will be of interest for all.

Thayer academy lined up for its first game of the season last Friday on the common. The opponents were the Weymouth North High school eleven, and they eventually won the game by a score of 12 to 6.

About 30 were at the home of Mrs. Hannaford on Thursday evening and enjoyed the fine supper provided by court autumna, L. K. J. L. Music, singing, readings and social intercourse made the evening pass very pleasantly.

I. F. Vinton, C. Tinkham, R. Loud, C. Packard and a friend are at Brant Rock enjoying a week's coot and brant shooting by special invitation of George W. Conant of South Weymouth, proprietor of Conant's cottages, Brant Rock.

We do not know how the directors of the Braintree & Weymouth Electric Street railway entertain the idea of laying their track via Union and Middle streets, on to the Braintree depot. We hope they will not act like the Democratic party in Congress, deaf to reason and their own best interests.

Division 6, A. O. H. of Weymouth and 12 of Braintree, intend to run a grand ball next month in Long's hall. The committee in charge of the ball are Messrs. Riley, Havelind, Cary, Callahan of Weymouth and Conly, Buckley, Croke and Slavin. The arrangements are mostly completed.

The Universalist society has made arrangements to hold Sunday evening services in Pythian Hall during the month of November. Dr. Miner and other eminent ministers will be present on these occasions. This will be good news to the liberal people in the north part of the town.

Rev. John Holland of the Sacred Heart church is very generous to the Sunday School children. He has offered thirty prizes to be distributed as follows: To the first boy and girl answering the most questions in the catechism correctly $10 each; and to the second boy and girl $5 each.

The fire alarm system is not complete and when it is, the fact will be made known to the public. There are a great many wise people abroad, that go around saying they could have had the whole thing done in six weeks, but unfortunately they were unknown. When the town puts in another system such "wise men" will be sent for.

Another outward mail has been added to those already received at the Braintree post office; arriving at 6.50. This makes 17 mails received and sorted at the office every day with the exception of Sundays. Who says that Braintree by either railroad facilities or postal accommodations has no means of communication with the outside world?

The School Committee have appointed William Orr janitor of the new school building in East Braintree. There were a number of applicants, all good men, and it seems that the committee had a difficult job on their hands in making a selection. Of course their are a number disappointed. It is no fool's job anyway.

The young people connected with the M. E. church in East Braintree held an entertainment and fair in the engine house hall on Thursday evening. The hall was filled and proved a success financially as all entertainments do which are given by the members of this little church. Miss Hannah Roulston presided over the candy counter, Miss Josephine Horte over fancy goods, Miss Maggie McDowell over miscellaneous counter and Mrs. Nickerson over ice cream.

TODAY'S COURT.

John J. Tracy of Weymouth was fined $5 for drunkenness.

Michael Lee of Randolph was arraigned for non-support of his family. Case continued until next Saturday.

Gilbert Bovine of Quincy was fined $1 for maliciously breaking glass.

Phillip Forrester and Lorenzo Woods of Holbrook were fined $3 each for assault on Edward E. Sullivan.

John Howley and William Mullane of Holbrook were sent to the State Farm at Bridgewater for 6 months for being tramps.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

LOWELL NEXT.

Spinners Propose to Fight Against Reductions in Wages.

NEW BEDFORD, Mass., Oct. 20.—Up to the present spinners have been paying 50 cents a week into the funds; hereafter they will pay $1. Secretary Ross said this course was not taken to promote hostility, but for future defense of the union's purposes. The spinners, as well as all other branches of textile labor, have learned a good lesson in unionism, and they propose to profit by experience.

Tomorrow, the executive committee of the National Mule Spinners' union will meet in Boston. Among the business to be transacted will be the remitting of strike fees on New Bedford and Fall River spinners and perfecting of plans for the institution of a bitter fight against the Lowell manufacturers who have been reducing operatives' wages.

Regarding the matter, one of the prominent officials of the union said that the wages of the Lowell spinners are 10 per cent lower than those of the New Bedford and Fall River operatives, and the union proposes to take an active part in having the wages of the Lowell operatives brought up to the regular standard.

Labor unions in this city are preparing a bill for presentation to the next legislature, asking that all members of board of public works be elected by the people, instead of the present system of appointment. This action is brought about by the claim of the union mechanics that they have been denied employment by the board, who give unskilled help the preference.

A DANGEROUS CRANK

Used a Revolver to Enforce a Demand For $1000 From a Bank.

NEW YORK, Oct. 20.—A crank entered the Clinton Place bank yesterday afternoon and demanded $1000 from Paying Teller Hind. The teller told the crank to wait. As Hind turned away, the crank fired a revolver point blank at him and the bullet flew by Hind's head. The crank was turned over to the police.

The prisoner said his name was Charles Freeman, and that he lived at 66 First street. He said that he was 39 years old, and had been born in Portland, Me.

When questioned by the judge as to why he had done this, he answered: "I acted under the instruction of my God."

After answering a few unimportant questions, he volunteered the following information:

"About three months ago the Lord put it into my head to get enough money to build a home for consumptives. I had the consumption myself about six years ago, but I cured myself by my own skill. I am somewhat learned in the occult sciences."

"How did you treat yourself?"

"Ah, that is my secret, and a valuable one it is, and I was going to employ it in the home."

He was held for further examination.

Chinese Emperor's Birthday.

LONDON, Oct. 20.—Preparations for the celebration of the emperor's birthday have been going on for some time in all parts of China. The present emperor, whose name is Kwangsii, and who is only 25 years old, celebrates his birthday today. He is known by sight to very few of his 400,000,000 subjects, for the simple reason that he cannot appear in public, and even when he journeys out of the palace grounds at Pekin he is carried in a close sedan chair and the roads are guarded to prevent any curious intruders from approaching the royal presence.

Significant Utterances.

BERLIN, Oct. 20.—At the banquet given by Emperor William at the new palace to the guests who had attended the ceremony of consecrating the flags of the new battalions, his majesty, it is reported, thanked the commanding generals and the regimental commanders for their efforts to complete the efficiency of the army, so that, in case of necessity, it would be in a position to protect the empire from foreign foes and to maintain its authority at home.

All In Three Months.

PORTSMOUTH, N. H., Oct. 20.—Dr. F. A. Dallen of this city, in July, met Georgie Stott, a miss of 18 years. They were united in marriage, and during the same week she was discovered in the company of other men too much to suit the doctor, who objected. Trouble began, and she was arrested, charged with adultery. She was not prosecuted, and on being released left town, and has not been seen since. The husband commenced proceedings for divorce, and it was granted him yesterday.

Must Go Back.

NEW YORK, Oct. 20.—Judge Lacombe, in the United States circuit court, rendered a decision in the case of John J. Howard, Levi P. Morton's coachman, imported under contract. The judge dismissed the writ of habeas corpus, and ordered Howard to be taken back to Ellis island. He will be sent back to Europe.

Sir John Thompson Going Abroad.

Death of a Young Lady.

Miss Annie Hayes, the daughter of Mr. and Mrs. John Hayes, died at home on Mt. Pleasant yesterday after a lingering illness. Miss Hayes was a young lady posseseed of many noble qualities and virtues, and throughout her long illness and sufferings she evinced a resignation and meekness characteristic of a true Christian.

Though of a retiring disposition she made many friends who sincerely regret her death while yet in the flower of her youth.

Mr. and Mrs. Hayes and the other members of the afflicted family have the sincere and heartfelt condolences of a vast host of friends in their trying and sad hour of bereavement.

Wants to Be Free.

BOSTON, Oct. 20.—Many people have petitioned the pardon committee for the release of Albert Joy, who has served 17 years for the murder of Charles Gilman. Ex-Wardens Russell and Lovering are favorable to it. Joy was 19 when he was charged with killing his employer, who was a peddler, for $12. All the evidence was circumstantial.

To Be Investigated.

SAN FRANCISCO, Oct. 20.—A body washed ashore at San Diego has been identified as J. H. Striedinger, a civil engineer of national reputation, who had been living in San Francisco for the last few years. His friends are investigating his death to learn whether it was the result of murder, accident or suicide.

Dog Bites Mrs. Flower.

NEW YORK, Oct. 20.—In return for attention on the part of his mistress, a bulldog, in the family of Governor Flower, sprang at Mrs. Flower and buried his fangs in the lower part of her face. Mrs. Flower herself cauterized the wound with nitrate of silver before the doctor arrived.

Early Preparations.

MONTREAL, Oct. 20.—It has been decided to hold a week of winter sports in Montreal in February next instead of the proposed carnival. Committees will be formed at once and arrangements pushed forward as fast as possible.

Don't be Deceived

By those who offer substitutes for Cottolene. Its success has been so phenomenal that numerous imitations are now being offered which are claimed to be, "just as good." All these

Imitations

lack the intrinsic merit of Cottolene and will prove disappointing and disagreeable to those who use them. These counterfeits differ widely from Cottolene and are mere

Experiments

when compared to the reliable shortening—Cottolene. Save money, annoyance and your health by refusing all substitutes offered to take the place of Cottolene.

PATENTS
NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

HOW THE PUBLIC IS IMPOSED UPON.
BEWARE OF FRAUDS.

For The Sake of Profit They Will Sacrifice Principle, Health, Etc.

Unscrupulous dealers are trying to sell ordinary Glauber Salt or a mixture of Seidlitz Powder as "Artificial Carlsbad Salt," "Sprudel Salt," "German Salt" or "Improved Carlsbad Salt," and under other similar names. The Natural Remedies of Carlsbad can not be imitated.

"What Nature makes, man can not improve upon." Artificial made wines will never replace the natural juice of the grapes. Neither can the natural waters of Carlsbad nor the Carlsbad Sprudel Salt be replaced by the cheap substitutes offered to a guileless public for the sake of the larger profit made thereon, by these unscrupulous dealers.

No one would buy artificial wines knowingly. Why buy the imitation of the Carlsbad products, when your health is at stake?

The Carlsbad Sprudel Waters are a specific for all diseases of the stomach, liver and kidneys, and have been used with great benefit by hundreds of thousands of people. The Carlsbad Sprudel Salt, which is evaporated from the Sprudel Water at Carlsbad, is an excellent Aperient, Laxative and Diaretic; is an alterative and eliminative remedy, which dissolves tenacious bile, allays irritation, and removes obstruction by aiding nature, and not by sudden and excessive irritation, as most cathartics do. Use the imported Carlsbad waters, or if it is not convenient to use the waters, or when a more decided laxative effect is desired, use the Carlsbad Sprudel Salt.

Insist upon the genuine, which is imported direct from Carlsbad, and must have the signature of Eisner & Mendelson Co., Sole Agents for the U. S., 152 & 154 Franklin St., New York, on every bottle.

A BUSINESS PARADOX
Exporting Gold Instead of the Products of the Farmer.

LOW-PRICED WHEAT AND COTTON.

The Business Conditions of Canada Reviewed.

NEW YORK, Oct. 20.—R. G. Dun & Co.'s Weekly Review of Trade says: Cotton below 6 cents and wheat below 55 cents, each lower than ever since present classifications were known, with exports of gold, instead of products at such prices, in October, are the salient features in business this week.

Distribution of goods to consumers goes on fairly, with gains at nearly all points in comparison with last year, but not yet at a rate to sustain the present volume of manufacturing production, so that prices weaken a little.

The domestic trade represented by railroad earnings in October is 3.4 per cent less than last year and 13.4 per cent less than in 1892.

The payments through the principal clearing houses for the third week of October are 2.3 per cent greater than last year, but 31.5 per cent less than in 1892.

The Produce Markets.

Wheat for October delivery fell to 54.12 cents on Wednesday, and in spite of some recovery the average for October thus far is 2 cents below the lowest monthly average ever made, which was in September, and was nearly 10 cents below the lowest prior to this year, the October average being 50 cents below that of October, 1891, or 1890. Western receipts are only 4,700,891 bushels for the week, against 6,064,333 last year, and Atlantic exports 631,084 bushels, against 893,343 last year.

Corn declined ½ cent during the week, with receipts not a quarter of last year's, and exports not one-tenth.

Pork products are somewhat weaker, with lard ¼ cent lower.

Cotton sold at 5.94 cents on Thursday, and with Ellison's estimate that the world will consume 8,248,000 bales American, the stock of 2,000,000 bales in sight and the estimated yield of over 9,000,000 bales deter buyers.

The Textile World.

The dry goods business and textile industries were especially favored by the demand in August and September. Wholesale and retail stocks have been replenished, and business waits for retail sales, which are as yet slower than was expected. In cotton goods the new business has been narrow, and resumption by Fall River mills has depressed prices to some extent.

Woolens have been somewhat affected by the auction sale of a fifth of the year's production by the Arlington mills, which brought prices about 15 per cent below those previously quoted, while soft wool dress goods are 3 to 5 per cent lower than last year. In men's spring goods there are few small orders, and while fall orders for sultings continue good, the demand for cloakings have been reduced by the strike of cloakmakers. Sales of wool have for three weeks of October been 15,147,499 pounds, against 8,344,452 last year and 19,966,000 in 1892, with markets dull and prices barely maintained.

Boots and Shoes.

The boot and shoe trade is doing remarkably well, shipments from Boston for three weeks having been 252,585 cases, against 169,564 last year and 243,899 in 1892. Most of the shops have orders for some time, and are receiving more in men's cheap shoes and women's grain and buff shoes, some having work until December.

Business Failures.

The failures in October thus far have been quite moderate in strictly commercial lines, the liabilities amounting to $3,821,987, of which $1,793,636 were of manufacturing and $1,966,686 of trading concerns. Some failures of banking, investment and loan concerns, not here included, have not proved of general importance. During the past week the failures have been 253 in the United States, against 341 last year, and 43 in Canada, against 29 last year.

Bradstreet's Report.

Bradstreet's has this to say:

At Toronto general trade has been less active, but collections have improved somewhat. Montreal reports that collections are fairly good, with prices stronger, but the volume of business is not equal to one year ago.

General trade has been moderate at Nova Scotia. New Brunswick advices are that recent heavy rains have favored the interests of lumber men. Bank clearings at Hamilton, Toronto, Montreal and Halifax amount to $19,850,000, a slight decrease from the total in the preceding week, but a gain of 5 per cent from the corresponding total one year ago.

Doing Well.

NEW YORK, Oct. 20.—Judge Barrett will direct the receivers of the St. Nicholas bank to pay a further dividend of 20 per cent to depositors and claimants. This will make a total dividend of 80 per cent, and will leave 10 per cent in cash in the hands of the receivers, besides a large body of assets.

Sanctioned by the Queen.

LONDON, Oct. 20.—The queen has consented to the marriage of Prince Adolphus of Teck, eldest son of the Duke and Duchess of Teck, to Lady Margaret Grosvenor, the youngest daughter of the Duke of Westminster, probably the wealthiest nobleman in England.

Violated the Law.

CHICAGO, Oct. 20.—Indictments against six ex-officials of the Santa Fe railroad system have been returned for violations of the interstate commerce law, charging that the Santa Fe has paid millions of dollars in rebates to shippers.

Lynching Awaits Firebugs.

DENVER, Oct. 20.—Half a dozen fires of incendiary origin have destroyed over $50,000 worth of property in Colfax during the last few days. A vigilance committee has been formed, and the firebugs will be lynched if caught.

Merit Recognized.

CHICAGO, Oct. 20.—The Fifteenth regiment infantry, U. S. A., was presented a stand of colors at Fort Sheridan yesterday by Chicago citizens, in recognition of service during the strike.

Grant For Mayor.

NEW YORK, Oct. 20.—Ex-Mayor Grant has accepted the Tammany tender of the mayoralty nomination.

CHANGED HIS MIND.

Hugh Grant Accepts the Tammany Hall Nomination For Mayor.

NEW YORK, Oct. 20.—Hugh J. Grant was named as Tammany's candidate for mayor, vice Nathan Straus, withdrawn, at the meeting of the executive committee in Tammany Hall yesterday afternoon.

The ex-mayor said in the morning that he would not accept a nomination, but he changed his mind after a long conference with a committee who had tracked him and urged him to make the race. He left 261 Broadway at 4 o'clock, and went direct to Tammany hall, where the executive committee soon afterward went into executive session and named him as the organization's candidate for mayor.

The following letter from Mr. Straus was read at the committee meeting: "I cannot too highly express my appreciation of the honor conferred on me by the nomination as the candidate of the Democratic party for mayor of the city of New York. The distinction was all the more flattering because the nomination was tendered to me without any pledge, either expressed or implied.

"But while I have never had the slightest doubt about the election of the candidate placed on your ticket, I simply obey the dictates of my conscience in withdrawing my name from it. My reasons you will find more fully set forth in the letter of which I append a copy addressed to the Democratic candidate for governor of the state, but to which I have received no written reply.

"Though personally out of the race, my efforts for the success of the ticket will be continued without intermission, and all the organization so far perfected and all the campaign material collected at my headquarters, and with the headquarters itself, are at your disposal."

Following is Mr. Straus' letter to Mr. Hill: "I trust that you have declined to allow your name to be placed on any other ticket in this county than the regular Democratic ticket, upon which my name appears. I expect to stand as the candidate of the Democratic party for mayor, but I shall positively decline to run if you overthrow the political standing of the Democratic party in this county by permitting your name to appear on your ticket with a Republican candidate for mayor."

Charged With Malpractice.

DOVER, N. H., Oct. 20.—Dr. Frank E. Brigham was released from jail last night, having secured bonds in the sum of $5000. He has been in custody since Oct. 10, charged with causing the death of Marcia J. Quint of South Berwick, Me., by a criminal operation.

PATENTS
FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

The HONEST KIND

ACKOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health
IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a **DIRECT POISON**, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines, ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

CARS WERE RIDDLED.

Deperadoes Fired Over Two Hundred Shots at a Train.

PASSENGERS GAVE UP VALUABLES.

Four Police Officials Were Among the Victims.

WAGONER, I. T., Oct. 22.—A Kansas City and Memphis express was wrecked and robbed by the Cook gang of desperadoes at Correta, a blind siding, five miles south of here. The train was running 20 miles an hour. When within 100 feet of the switch a man came out from behind an embankment and threw the switch for the siding, running the train into a string of box cars.

Engineer Harris applied the air brakes and reversed the engine. The robbers commenced firing at the engine and coaches, and as soon as the train stopped, two of them commanded the engineer and fireman to come down. As soon as they had dismounted, the robbers marched them to the baggage and express cars. Here they forced Express Messenger Ford to open the doors by perforating the side of the car with bullets.

Plans Were Well Laid.

Meanwhile two more of the robbers had taken up a position at the rear end of the sleeper to prevent any one escaping. Two others mounted the platform between the smoker and baggage car and two were on the platform between the first and second coaches, all keeping up a continual firing.

The two robbers in the express car were meanwhile ransacking that car, securing all the money in the local safe. They commanded Messenger Ford to open the through safe, but when he explained that the safe was locked at the main office, and not opened until it reached its destination, they left the car.

The two men on the front platform then started through the coach demanding money and valuables. As soon as they reached the rear end of the coach the two men on that platform started through the second coach.

When they were about half way through, a freight train, following close behind, whistled, and Bill Cook, the leader, who had all the time remained outside issuing commands, swearing at the passengers and shooting, called for all hands to come out.

The men on the cars jumped out, and when all were on the ground fired a last volley at the train and disappeared in the darkness. There were eight or 10 men in the party. Two of them were white and the others were halfbreeds.

No Respecters of Persons.

Special Officers Helmick and Dickinson of the Missouri Pacific were on the train, also United States Deputy Marshals Brunner and Casaver, but they were covered by Winchesters in the hands of the bandits before they had time to make a move. Casaver lost a watch and a six-shooter.

The train was backed up to this place for assistance. The cars were completely riddled with bullets, every window being broken. The engine cab was shot all to pieces, even the steam gauge and gauge lamp being shot away, and the ground around the wreck covered with empty shells. It was a miracle that many lives were not lost. Over 200 shots were fired.

The Missouri Pacific immediately started a special train from Little Rock, carrying Superintendent W. J. McKee, and picking up deputy marshals. United States Indian Agent Wisdom of Muskogee has ordered all the Indian police to report for duty.

Prominent Worcester Man Dead.

WORCESTER, Mass., Oct. 22.—Hon. Samuel Winslow, ex-mayor of this city, died yesterday after a sickness of nearly a year. He accumulated a large fortune in the manufacture of skates. He served in the Massachusetts legislature and was mayor of Worcester for four terms. He was actively interested in suburban street railways.

Chinese Casualties.

SAN FRANCISCO, Oct. 22.—Mail from the Orient brings news of a fire at Chung-Kiang. Over 30 people were burned to death and 2000 houses were destroyed. Disastrous floods were reported in northeastern China. Many women and children were drowned and an enormous property loss suffered.

Baggagemen Thrown Out.

SELMA, Ala., Oct. 22.—The new management of the Southern railway issued an order to the effect that on Nov. 1 all the train baggagemen will be removed. Express messengers will have to attend to both baggage and express matter.

His Worth Realized.

LONDON, Oct. 22.—All the papers this morning contain leaders of eulogy on James Anthony Froude. The Times says that his death seems to close a memorable and brilliant chapter in the literary history of the country.

Fast Bicycling In Missouri.

ST. LOUIS, Oct. 22.—E. E. Anderson broke the world's class A bicycle record for one-quarter mile, unpaced, flying start, Saturday. He made the distance in 26 4-5s, taking 1 1-5s. off the record made by F. H. Grosch.

TITLE WELL EARNED.

Queen Alix Has an Easy Victory Over the Famous Directum.

BOSTON, Oct. 22.—Queen Alix and King Directum met on the Mystic track at Medford and raced for a purse of $11,000. Ten thousand disappointed persons saw the contest, which was discontinued before the deciding heat had been tried.

THE HEAD OF ALIX, 2:03¾.

Fate was against Directum. He was in no condition to show his splendid mettle, and after he was beaten in the first two heats the judges and the doctor prescribed a rest.

So Alix took the race and the purse, and then trotted an exhibition mile in 2:07¾, as a consolation to the spectators, who had paid $1.50 aptece to see the great event of the racing season of 1894.

Alix made her first mile in 2:09, and her time at the quarters was: 32, 1:04¾ and 1:37¾, coming down under the wire two lengths ahead of Directum.

She trotted the second heat in 2:14¾, making the quarters at 32, 1:05½ and 1:40, beating her rival by three lengths.

It was a procession all the way around the track in both heats, the pace of the queen being set just fast enough to keep her ahead of the disabled king. "Directum isn't well! Mud fever!" said an expert in horseflesh."

Attacked by Apaches.

TUCSON, A. T., Oct. 22.—The first act of violence committed by Indians resulting from the removal of the troops from Fort Bowie is reported. Phil Softer, while on his way to a round-up in Stein's Pike, was attached by a band of six or seven Apaches, who were lying in ambush. A number of shots were fired at him. His pack animal was killed. The attack was presumably to get his firearms, ammunition and contents of the packs. He barely reached the nearest ranch, five miles away, where he lies in a dying condition.

No Verdict.

CAMBRIDGE, Mass., Oct. 22.—The jury which sat the past week on the celebrated Bartlett-Bigelow in the superior civil court were dismissed, having been unable to agree upon a verdict. The case was given to the jury at 2:45 o'clock Saturday afternoon. At 10:30, no agreement having been reached, the deputy, acting under instructions, dismissed the jury, and they departed for their homes.

Hazzard Goes West.

PLYMOUTH, N. H., Oct. 22.—T. R. Hazzard, the alleged Wichita (Kan.) forger, will be obliged to face the charges against him. Governor Smith granted a requisition in Hazzard's case, and today Officer Greene of Wichita started west with the prisoner. Hazzard is charged with forging deeds to real estate, defrauding J. W. Ramsey and Thompson & Bland out of $7800.

Loss of Life on the British Coast.

LONDON, Oct. 22.—A fierce gale along the British coast caused many casualties. The Warner lightship broke away from a tugboat when near New Haven and was driven shoreward. A boat was lowered to replace the towline, but a heavy sea capsized it and four of its occupants were drowned. The lightship made leeway rapidly and was soon driven ashore.

Has the Gout.

LONDON, Oct. 22.—A dispatch from Simla says that the doctors there believe that the symptoms displayed by the Ameer of Afghanistan are due to gouty complications, which may disappear, and that the ameer has instructed his notables and generals to support his eldest son, Prince Habib Oullah, in the succession to the throne.

Considerably Less Than $10,000.

PORTLAND, Me., Oct. 22.—In the Davis-Burbank $10,000 libel suit, the jury returned a verdict in favor of the plaintiff, Elroy Davis, in the sum of $278, defendant to pay costs of trial. The plaintiff's counsel will file a petition for a new trial.

Not a Record Breaker.

TOLEDO, Oct. 22.—Miss Annie Londonderry of Boston, who left Chicago on Sept. 24, with only 3 cents in her purse, to make a tour of the globe on a bicycle, arrived here yesterday, just 27 days out. Her trip so far has been without incident.

To the Bitter End.

WASHINGTON, Oct. 22.—A telegram was received at the Japanese legation yesterday stating that the universal expression in Japan is that the war must be vigorously pursued until it is brought to a triumphant conclusion.

Was Starving to Death.

NEW YORK, Oct. 22.—Revelle Germain, an actor, formerly husband of Maud Granger, was picked up on the street yesterday in a starving condition, and removed to a hospital.

Foreclosure Likely.

DENVER, Oct. 22.—The American Trust company of Boston, who owns and controls the bonds of the Union Pacific and Gulf road, will commence suit for the foreclosure of the mortgage bonds of the Gulf road.

Horribly Mangled.

WEBSTER, Mass., Oct. 22. — Richard Palmer, a cotton spinner, aged about 37, was run over by a freight train and instantly killed. His head, both arms and both legs were cut off.

UPLIFT THE FALLEN.

Society Sins by Turning Its Back Upon Depraved Women.

DR. PARKHURST'S EARNEST PLEA

For Good Women to Put Forth Helping Hands.

NEW YORK, Oct. 22.—Dr. C. H. Parkhurst yesterday preached a sermon in his church which was a plea for fallen women. The doctor took for his text, Matthew 21 31: "Verily I say unto you that the publicans and the harlots go into the kingdom of God before you." Dr. Parkhurst said society has a way of scaling sins for which no warrant can be found in the Scriptures.

"What the state punishes crime for is because it is sinful to society. The penalty in such cases is according to the harm it will do to society. The acts that are most likely to land a man in jail are not the most likely to keep him out of heaven. If a man be a thief, he will always have the indulgence of other thieves."

"There seems to be one character of crime that if one sex practices it, it is all right, but if the other does, ostracism from society follows. Men can do as they choose on this score with women for whom they have no respect; but with a woman it is different. You no doubt have acquaintances whom you know ought to be in jail, but until they are sent there, you are friendly to them. When they don the prison garb, however, then the community at large has no use for them. The people

Have No Use For an Ex-Convict."

Dr. Parkhurst cited statistics from Sing Sing which showed that many return to prison a second time. "A man who has served a second term will tell you he did so because on his release he was shut out from the church and society in general.

"There is always far more readiness on the part of profligates to abandon their life than it is for the chief priests, elders and pharisees to help them. Society says there are several unpardonable sins. They say it is a crime for a woman to transgress the seventh commandment, but it is not so for a man.

"One of the great troubles when a woman wishes to lead a better life is that she does not find the help in her sisters."

The doctor related an experience of a woman he knew who had reformed. He cited the case as an example of the little hope held out by good women to their fallen sisters.

"What hope then is there for a woman to try and do better? There are a great many Magdalens in New York, probably thousands of them, who will get to heaven. They are children of God, just as good in his sight as you, and you should do all you can to help them.

Christ's Blood All-Sufficient.

"If your fallen sister has reformed and has been washed in the blood of the lamb, what is it your business? No matter what her former life had been, His blood is sufficient to redeem her. Some of you gather your skirts about you to escape from them, while they are just as precious to Him as you are.

"The story of the prodigal son is a good lesson on the subject. The father of this boy took him back into his home and forgot the past. But the prodigal's eldest brother could remember nothing but the fact that his brother had at one time been an outcast.

"This describes society to a dot. There is no reason why an ex-convict or a fallen woman should not be received into society when they have again became good persons and the past is blotted out.

"This, however, is not the rule, and this is the reason why out of 100 persons who enter a depraved life, 95 die in that life which binds them to their destiny and damnation."

Almost Starved to Death.

HALIFAX, Oct. 22.—Steamer Harlaw brought as passengers from Bay of Islands, Captain McDonald and five men of the Gloucester (Mass.) fisher, Martha C., which was driven ashore at a place called Bear Point on Sept. 28. The crew for 13 days lived under a tent made of canvas saved from the wreck. They had little or nothing to eat, and, when assistance arrived, were on the verge of starvation. The Martha C. was returning from a trading voyage to Labrador.

Mills Running at Night.

LAWRENCE, Mass., Oct. 22.—Lawrence industries are enjoying a marked increase in business. The mills are not only running full time, but night work is now necessary in order that they may keep pace with orders coming in. Standing at night on the bridge crossing the Merrimac river on Union street, one can look a half a mile up the river and see many of the mills are lighted up, and the hum of machinery tells the story of a return of better times.

A Sea Trip Contemplated.

Mortgagee's Sale.

BY virtue of a power of sale contained in a certain mortgage deed given by John Gilcoine to Barnabas Clarke, dated January 29, 1889, and recorded in Norfolk County Registry of Deeds, libro 616, folio 571, and duly assigned by said Clark to Adalaide M. Bass, for breach of the conditions of said mortgage and to foreclose the same, will be sold by public auction, on the premises herein described, on WEDNESDAY, November 14th, 1894, at 3 o'clock P. M., the said premises; being described in said mortgage deed as follows:

A certain lot of land and all buildings thereon, situated in that part of said Quincy called West Quincy, and being lot numbered twenty (20) on a plan entitled "Plan of House Lots" situated at West Quincy, Mass., owned by Barnabas Clarke, April, 1887; Whitman Breck & Co., surveyors, Boston, and recorded with Norfolk County deeds and plans. Said lot is situated on the east side of Smith street, as laid down on said plan, and is bounded and described as follows: Northerly, by lot twenty-one (21) on said plan, one hundred, eleven and 6-10 (111.6) feet; easterly, by a private way forty-two and 9-10 (42.9) feet; southerly, by lot nineteen (19) on said plan, one hundred, seven and 9-10 (107.9) feet; Westerly, on said Smith street, on said plan, fifty (50) feet; and containing about five thousand and ninety (5,090) square feet of land, more or less.

Together with the same privilege of using the well of water upon lot numbered twenty-seven (27) upon said plan, which was granted to said John Gilcoine by said Barnabas Clarke.

Being the same premises and privileges conveyed to said Gilcoine by said Clarke, by deed, dated November 6, 1888, and recorded with Norfolk Deeds, libro 614, folio 299. Said premises will be sold subject to all unpaid taxes. Conditions, $300 down at sale.

ADALAIDE M. BASS,
The present owner and assignee of said mortgage.

Editorial Comment.

LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no excuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

FOOT BALL.

The Q. H. S. and Independents of Boston Play a Tie Game.

The Quincy High school foot ball team played a game at Merry Mount park Saturday at 4 o'clock with the Independents of Boston. Having received the challenge late Friday night the game was not advertised, but quite a crowd gathered to see the Q. H. S. practice and they saw them practice with the Independents of Boston.

The boys from Boston are all graduates from English High school, and eight of them go to Harvard college. Their average weight was 176 pounds, 50 pounds heavier than our boys but this only gave courage to the home team and they played like old veterans, as no gain was made around the ends and a little through the center.

J. Ford, the Q. H. S. left guard, had a small man against him who only weighs 230 pounds, but he did his duty and held him back in great shape. The tackling of Coe, Chapman and Perovano was very good and the work of the whole team was excellent. The game lasted twenty minutes and was called to an end by mutual consent of both captains, neither side scoring. Umpire, William Donovan.

The High school team expects to play the Weymouth High school tomorrow afternoon, if pleasant, and Thayer academy Saturday afternoon on the park. Thursday they are going to Braintree.

24 OUT OF 25.

C. L. Prescott Makes the Above Score and Also 23 out of 25.

The Wollaston Trap club had some high scores made at its grounds on Saturday afternoon by Prescott, who broke 23 out of a possible 25 on the first string, 15 being straight, and 24 on the second string. This ties Morse's high score of 24. Elcock came from West Quincy and did good work, breaking 19.

Fire at Duck's Nest.

The Duck's Nest, Wollaston, narrowly escaped being burnt out on Saturday evening. A large central draft lamp which is suspended over one of the alleys was jarred from the hook which holds it to the ceiling by the dropping of a heavy weight on the floor above. The lamp came down with a crash, the burning oil spreading in all directions. The blaze was extinguished in a few minutes. The alleys were not damaged.

DEMOCRATIC RALLY.

Candidate McNary and others Address Two Gatherings on Saturday evening.

The Democratic campaign in Quincy was opened Saturday night by two rallies, one in Hancock hall and the other in St. Mary's hall, the speakers at both meetings being the same.

At Hancock hall, W. G. A. Pattee presided, and on the platform besides the speakers were: Mayor Hodges, Councilmen Adams and Baker, John T. Cavanagh of the Water Board, and Timothy F. Ford of the Board of Health.

At West Quincy William F. Powers, chairman of the Democratic City committee presided and on the platform with him were: Councilmen Lamb and O'Brien, William Shea, Thomas Foley, Thomas Hogan, Peter Donahoe and William Brown.

All the speakers paid their respects to the organization known as the A. P. A. and scored the independent Democratic and Republican nominees from the Tenth Congressional district.

The speakers at Hancock hall were C. A. Engstrom, H. T. Blumenthal, Hon. W. S. McNary, John F. Fitzgerald and William B. Orcutt.

Candidate McNary was introduced as a Democrat who always supported Democratic principles. The speaker touched upon the leading question of the day, the tariff, and the Wilson, bill, and argued that better times were coming and that another year would see plenty of work for all. He then referred to the Congressional fight in this district and told what he had done for the Democratic party, and how much he thought of the workingmen of Quincy.

Mr. Fitzgerald said the Republicans tell us that a Democratic administration had brought on this panic and filled the streets with marching armies of distressed people calling upon the government to save them, but the disaster was the result of the preceeding four years of Republican rule. In this contest we are struggling for an honest tariff and honest currency, an honest ballot and a free and open conscience.

The other speakers also spoke of the tariff and said it was a great benefit to the workingmen to have free lumber, jute, salt, iron and wool. They also scored the A. P. A. and said that A. P. A. ism and Know-Nothingism could not exist in the Democratic party, a statement that brought forth applause.

BICYCLE RACES.

Six Prizes Distributed in Two Classes at Milton Saturday.

Quite a large crowd collected at East Milton Saturday afternoon to witness the bicycle races that were given by Robert Sweeney, one of the local merchants.

There were two races, the first for men and the second for boys. In the first race there were four prizes, viz.: Pair of patent leather shoes, sweater and two boxes of cigars. In the boys' race the prizes were: Sweater, pair of dancing pumps and a pair of slippers.

The judges were Gideon Beals, John Farrell and Edward Gallagher.

The starters in the men's race were: Walter B. Skinner, George A. Skinner, Charles Gallagher, Walter A. Bates, R. A. Robertson, Louis A. Staples, William Graham and William A. Gordon.

The course was in front of the Rugby building to the Town House and back, a distance of four and one-fourth miles.

The winners in the first race were: Walter B. Skinner, R. A. Robertson, Charles Gallagher and Louis H. Staples. Time, 13 minutes 50 seconds.

The boys' race had five starters, George A. Bates, Derby Eaton, Paul Eaton, James McIsaac and John Bryden, and the winners were, Paul Eaton, Derby Eaton and James McIsaac. Time, 14 minutes 55 seconds.

PREVENTED BY POLICE.

A Prize Fight That Did Not Occur Saturday Night as Planned.

A prize fight between two Nova Scotia granite workers, for $100 a side, was to have taken place Saturday night in the vicinity of midnight, but the presence of Chief of Police Hayden put a stop to it. Those who had purchased tickets were not told where the fight was to come off but were told to be at the Quincy Adams depot at 7 o'clock where they would be informed, and at that hour a large crowd congregated.

Shortly after they started for the sand pit near the Braintree line. Chief Hayden, who had been given the tip by one of his officers who had been given an opportunity to purchase a ticket, but did not, started in that direction also with Officer Nicol. As the sand pit was reached the lights of lanterns were seen and at the same time the officers also and in an instant the lights were extinguished and the crowd scattered in all directions.

This put a stop to the fight as far as Saturday night was concerned and the police will be alert to prevent its occurrence at any time.

Harvest Concert.

The first harvest concert of the season at Wollaston was given by the Unitarian society on Sunday afternoon. The church was prettily decorated with autumn leaves and flowers. The subject was "Flowers, or God in Vegetable Nature." There was singing by the Sunday School and selections pertinent to the subject were spoken by Mr. Wallace Bennett, Miss Myra Brown, Mr. Percy A. Hull, Mr. Clifton F. Baker, Miss Eugenia M. Hatch, Mr. Nathaniel A. Thayer and Miss Ernestine M. Litchfield.

Mrs. John H. Litchfield, Jr., spoke very interestingly on the subject, illustrating her remarks with crayon drawings of flowers and leaves. The Rev. James E. Bagley closed the concert with a brief address.

Milton's new "hurry up" wagon is in service, but as yet the public have not had an opportunity to use it. This is what Quincy needs, and the police of this city would have plenty of opportunities to use it.

The altar at the Universalist church was very handsomely decorated yesterday with plants, flowers and fruit. The rich beautiful flowers, very prettily tinted, mixed with bright green and fruit, making an attractive picture. An able and appropriate sermon was delivered by Rev. A. E. White, the pastor.

Last evening about a dozen boys entered a church with the avowed purpose of breaking up the prayer meeting. With longsuffering and forbearance the good usher employed conciliatory means only. This failing, exeunt. Have the parents and public school teachers done their utmost to teach those lads the principles of etiquette, public and private?

At the Sunday morning's service at the Wollaston Congregational church the Rev. V. A. Cooper, superintendent of the New England Home for Little Wanderers, spoke in behalf of that worthy institution. A choir of little children from the home sang several selections. A collection was taken up in aid of the cause and netted $103.

Funeral of Miss Hayes.

The funeral of Miss Annie Hayes, who died on Friday, was held from St. John's church this morning at 9 o'clock, when a solemn mass of requiem was celebrated by Rev. F. A. Friguglietti. The musical portion of the mass was rendered by the full choir, under the direction of Miss Margaret Garrity.

That the young lady was held in the highest esteem by all who knew her was fully attested by the large concourse of people who filled the church.

The handsome broadcloth casket containing the remains was covered with flowers, among them being two handsome set pieces; one an open book with "Our Shopmate" in blue immortelles, from the ladies of Penniman's shop, where the young lady was employed. The other was a pillow marked "Annie, Q. & B." from the employes of the Quincy and Boston Street railway, where Mr. Hayes, the father of the young lady is employed.

The interment was at St. Mary's cemetery, West Quincy, where Rev. J. P. Cuffe conducted the final services at the graveside.

DAMAGING EVIDENCE

Given at the Preliminary Hearing In the Chambers Murder Case.

PROVIDENCE, Oct. 22.—The greatest legal event in the history of Scituate took place at Richmond village, when Lawrence C. Keegan was given a preliminary hearing on the charge of murder.

The most important development in the court proceedings was the identification of the prisoner by Miss Fanny Oatley, who saw the phaeton buggy with its big bundle covered with the laprobe. She positively indentified the driver as the prisoner seated before her in the courtroom.

Mrs. Annie B. White, a Providence dressmaker and a widow, testified she knew Keegan and that she saw him in a buggy on Friendship street on the day of the murder. She positively identified the prisoner as the man whom she saw on that day in company with a portly and dark woman. It was about 4 o'clock when witness saw Keegan and his female companion.

Gilbert Bishop, Nelson Bennett and George B. Dexter positively identified the black mustang and buggy. The horse and carriage were brought to the courthouse door so that the witnesses could view them.

Then the three witnesses positively and unreservedly identified the accused as the driver of the horse on the day of the murder.

The government rested and Lawyer McGill asked for a discharge, but Judge Johnson held Keegan for the grand jury in $20,000. He was taken to Cranston jail in default of bonds.

A TERRIBLE ACCUSATION.

Shipowners Said to Have Planned Crime to Collect Insurance Money.

SAN FRANCISCO, Oct. 22.—The bark Adalguisa, from Callao, for Humboldt, Cal., put into this port in a disabled condition. She was launched in 1856, and since that date not a cent has been spent for repairs. Mate Roberts says the bark's owners deliberately planned to wreck the ship, which was heavily insured, and to drown the crew.

He says the sailors were all shipped under false names, so they could never be traced. The ship was provided with dummy provisions and water for only 30 days. The bark sailed from Callao on Jan. 20, and if a rain had not supplied water, the crew must have perished with thirst. A big box, labelled provisions, when opened, contained nothing but scraps of iron, shaving and oil cans.

Every man in the crew was of a different nationality. When they arrived in port they were fearfully emaciated with hunger. The mate says the only sound thing about the bark was the ship's boat, in which the owners planned that the captain and mate would escape. The Peruvian consul will not allow the Adalguisa to leave port. She is unseaworthy and will be sold to pay the crew.

Against Militia.

BOSTON, Oct. 22.—The Central Labor union, at its meeting yesterday afternoon, emphatically placed itself on record as being opposed to all military bodies, either state or national, and denounced them as an injury to the working classes and a tool for capitalistic monopoly. Further, it was urged that all toilers with a home to protect and a living to make, if they are members of the militia at the present time, get out of it immediately, as the militia of today, as has been made evident on several occasions recently, is nothing more than a death machine whereby the interests of the moneyed monopolists are protected at the cost of the employes' life.

Keeping Abreast of the Times.

WASHINGTON, Oct. 22.—The report of Commodore Chadwick, chief of the bureau of naval equipment, shows that the coal bills of the navy are steadily increasing, owing to the increase of the power of the vessels; that a great improvement has been made in night signals; that a new boat's compass has been adopted, and that aluminium has been substituted for bronze in binnacle fittings.

The Old Story.

GLOUCESTER, Mass., Oct. 22. — Austin W., the 14-year-old son of Willis Stockbridge, was accidentally shot by George Cameron. The two boys went into the barn where there was a gun, which the Cameron boy picked up, thinking it was not loaded, but it accidentally discharged, the shot taking effect in young Stockbridge's head. The injured boy cannot live.

Outraged a Baby.

HICKSVILLE, O., Oct. 22. — Charles O'Neill, a negro, was arrested for outraging Harriet Hickerman, 3 years old. The child was discovered unconscious in a barn. O'Neill admitted the charge, and for a time it was thought he would be lynched, but O'Neill was safely jailed.

Was a Philanthropist.

POUGHKEEPSIE, N. Y., Oct. 22.—Andrew Smith, of the firm of Smith Bros., manufacturers of cough drops, died here yesterday. He was 58 years of age. Mr. Smith had contributed to numerous charities. He and his brother recently presented this city with a public park.

A Knotty Question.

BERLIN, Oct. 22.—Though the Prussian cabinet sat for five hours, further meetings are expected before a final decision in regard to the repressive measures against socialists is arrived at. Among the measures likely to be adopted is a strict press law.

A Drunkard's Horrible Death.

PROVIDENCE, Oct. 22.—A drunken man staggered from the sidewalk on South Main street last night and fell in front of a car, being dragged nearly 75 feet. He was killed almost instantly, his body being shockingly mangled.

A Fatal Error.

SHELBYVILLE, Ind., Oct. 22.—While casing a gas well some one struck a match to light his pipe. An explosion followed, and three men were fatally hurt. Several others were injured.

Enough to Start a Bar.

BOSTON, Oct. 22.—Lieutenant Brown's liquor officers did a good Sunday's work, 220 gallons of beer and 30 gallons of whisky being confiscated from kitchen barrooms.

Furniture Economy.

It makes no difference what others say about goods, or what others get for them; at this store the aim is straight for one point, viz: To handle only reliable merchandise, and give it at the right rate, a trifle lower than any other Furniture house in the State, and invariably do it.

Our increasing trade proves too well that there is satisfaction for the public in trading right here in Quincy on sure grounds, and we cannot help noticing how others attempt to imitate our methods.

It is gratifying for us to hear the old saying which comes to our ears so often, "More for our Money Here," we have come back to trade after wasting our time elsewhere.

A Large Granite Contract Which Quincy Didn't Get.

A granite contractor who has not been a regular reader of the DAILY LEDGER, concluded Saturday when he saw the column of granite news that the best thing he could do was to subscribe.

Col. James H. French, on behalf of the Cape Ann granite company, signed a contract with the U. S. government last week for the placing of stone on the Sandy bay breakwater at Rockport, Mass. Col. French agrees to deliver 240,000 tons of stone within two years. This is one of the largest contracts that has been made for that work. Already 800,000 tons of stone has been put in place. The whole work will require 5,000,000 tons of stone. Congress appropriates from $100,000 to $150,000 a year for this work. All former contracts have been made by the Rockport granite company of Rockport.

Salem, N. H., is likely soon to have a soldiers' monument. Daniel Barley has pledged $500 therefor, and Mrs. Sims of Boston, a Salem women by birth and wife of a 13th Massachusetts veteran, who is leading the enterprise, is confident that the monument will be in readines for dedication next Memorial day.

The monument to the memory of soldiers of Tarrytown, N. Y., and its neighborhood, who fought in the war of the revolution, was unveiled in Sleepy Hollow cemetery Oct. 19, it being the 113th anniversary of the surrender of Cornwallis at Yorktown. The monument is about 12 feet from the base to the point to which the block itself tapers. It is six feet square at the base and tapers just enough to give it symmetry. The base and sub-base are rough hewn. The block is polished. On the face is the inscription. On the other three faces of the block are the names of the 76 soldiers to whose memory the stone has been erected.—Herald.

The members of William Gurney Post, G. A. R., of Bay Shore, are taking steps to erect a granite monument to the memory of the Bay Shore soldiers and sailors who lost their lives in the war. It will stand in front of the school building and will cost $6,000.—*New York Tribune.*

A new monument to Garibaldi, and perhaps the finest in Italy, is to be erected in Rome next September. It is to stand on the Janiculan Hill, opposite the dome of St. Peters. It is said that there is not a town in Italy, or even a populous village, that does not contain statues of Victor Emmanuel and Garibaldi. The great monument to Victor Emmanuel now in course of erection on the Capitol Hill will have cost $5,000,000 when completed.—Boston Transcript.

Steps are being taken to erect a monument in Hudson Park, New Rochelle, commemorating the landing of the Huguenots at that place. Messrs. David Cromwell, James T. Lockwood, Edwin L. E. Phipps, Monmouth G. Hart, and seven other gentlemen to be hereafter named have the matter in hand.

Funds are being raised in Voorheesville, N. Y., for a soldiers' monument.

THE SPOILS SYSTEM.

And Other Subjects Discussed by the Quincy Literary Society.

The regular meeting of the Quincy Literary society was held in Doble's hall on Friday evening the president Dr. R. McLellan in the chair.

Readings, preferably original, had been set down as the order of the evening, and four members appointed to furnish matter for consideration. Contrary to expectations, the time was wholly occupied upon two selections, the others being unavoidably held over till a future occasion. Ordinarily, readings are not fruitful subjects for discussion, as the readers themselves generally monopolize most of the time. In the literary society however, the reader merely provides the material around which the play of words revolves. The taste displayed in the choice of a selection, the selection itself, the style of rendering are all open to the freest criticism. Marks of approval are not indiscriminately bestowed, nor has custom decreed the suppression of real opinion. Woe to the aspiring dramatist or orator, who fails to embody the true art of expression in his passages or whose subject is dull and uninteresting.

The first gentleman called upon Mr. John C. Russell, took very appropriately for his theme, a speech of Daniel Webster upon the spoil system of government, a condemnation in his own unique way of the method in vogue of turning one rascal out and putting another one into office at every change of administration.

In the discussion that followed this delivery, the question of federal and municipal patronage was exhaustively discussed. The sentiments expressed by the great statesman were cordially endorsed by most of the speakers. It was contended that a vast proportion of the political abuses of the present day were directly traceable to this cause. There was no incentive given to office-holders, to carefully qualify themselves for the situations, as it was realized that their tenure of occupancy was determined not by efficiency, but by political favor. It caused public affairs to be controlled by men largely devoid of true principles, and who were actuated only by self interest in their efforts to obtain party supremacy. The United States, it was said, was able to furnish diplomats equal to any power in the world, were nature faculties and special training in that direction encouraged.

It is indeed a forlorn cause that finds no supporters, and the present system did not lack apologists in this case. It was defended on the plea that work in the service of a political party deserves some recognition, and that it insured less friction in administrative affairs if officials and subordinates are allied to the party in power.

It is an acknowledgement of the important factor in educative affairs that the modern newspaper has become, when the second reading was chosen by Mr. Alex. Corne from an editorial in a recent issue of the Boston Herald upon the growing facilities for the study of sociology.

Differences of opinion were expressed upon the merits of the newspaper quoted from, and the particular article in question but all were agreed upon the importance of the study, and the great need of enlightment on sociological problems. It was feared, however, that the present interest manifested on the subject, was but a fashionable fad, destined to run a certain course in theological and literary circles, and then to be replaced by some other periodic spasm of cultured diversion.

Next Friday evening the primary feature will be an essay on "The art of poetry," by Mr. James McAdam. The well known literary ability of the essayist is a guarantee of attractive interest.

Close of Swedish Fair.

The three days' fair of the Swedish Lutheran society at Plumer's hall closed Saturday night, the attendance being unusually large.

The only entertainment furnished was music by the Swedish Lutheran band.

Many of the articles on the tables were sold at good prices, and those that were not sold were auctioned off during the latter part of the evening.

The fair has been a grand success but just how much will be cleared is not known at present, although it will not be far from $300.

THE QUINCY UNION.

The King's Daughters From All Parts of City Meet at Wollaston.

The annual meeting of the Quincy Union of King's Daughters was held at the Wollaston Congregational church on Saturday afternoon. The Rev. Edward A. Robinson, pastor of the Congregational society, presided. The church was tastefully decorated with flowers.

The meeting was opened by singing and was followed by the saying of the Lord's Prayer by the congregation led by Mr. Robinson, who conducted the devotional service which followed. Preceeding the address of welcome to the assembled circles and tens by Mr. Robinson, Mrs. Frank A. Page rendered a vocal solo. Miss Lincoln also sang "There is a City bright." The Rev. James E. Bagley, pastor of the Wollaston Unitarian church, spoke on the good works of the King's Daughters. The devotional service was concluded by a solo by Mrs. Page and the pronouncing of the benediction by Mr. Robinson.

At the conclusion of the devotional service the business to be transacted was taken up. Reports were read from the Gleaner's Ten, the Loyal Circle, the Whatsoever and the Sharer's Tens of Wollaston, and the Charitable, Unity, Hospital and Reaper Tens of Quincy.

The election of officers then took place and Miss Emma Saville of Quincy was elected president and Miss Florence G. Olney of Wollaston, secretary and treasurer, for the ensuing year.

A lunch was served in the vestry, after the business meeting, to the visiting members.

Poor Lights.

The incandescent lights on Brook street, Wollaston, have been of such diminished candle power the past two months that some of the residents talk strongly of petitioning the city to replace them with gas lights. When this thoroughfare was first lighted with incandescent lights the lamps were of high candle power, but about two months ago these lamps were replaced with those of an inferior quality giving a light of about one-half the candle power of the old lamps, thus leaving Brook street and those streets which intersect it, in almost total darkness.

—The capitol at Washington, it is said, has cost the countrey $30,000,000 to build and keep in repair.

—Hingham dedicated two $20,000 school houses on Saturday. Formal exercises were held.

WEYMOUTH.

Officers Bailey, Pratt, Fitzgerald, Pease and Litchfield raided several places and were successful in securing liquor in all but two. The premises raided were John and Thomas Lynch, Edward F. Conlon, Cornelius Lehon and Mrs. Samuel Gregory. Nothing was obtained at either of the Lynch places. Two one-half barrels of beer were secured at Conlon's; three bottles of beer and one gallon of whiskey were seized at Lehon's, and two quarts of whiskey at Mrs. Gregory's.

Weymouth, in town meeting assembled on Saturday, authorized the selectmen to contract with the Massachusetts highway commissioners for building Bridge street, and appropriate a sum not exceeding $6,000, in addition to the $16,000 given by the State.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

SLOCUM'S OZONIZED Norwegian COD LIVER OIL WITH GUAIACOL

It is as easy to explain a cold as to catch one. The skin, exposed to a sudden change in temperature, ceases to throw off waste matter, and double duty is imposed upon the lungs. Hence, inflammation of the bronchial tubes and frequently consumption. A medicine to cure consumption must help not only the lungs but the stomach, because good appetite and good digestion are required to fortify the system. Slocum's Ozonized Norwegian Cod Liver Oil, with Guaiacol, is a great flesh-maker.

Send for Book on Ozone, mailed free.

Prepared by T. A. Slocum Co., New York.

IT IS NOTHING BUT MEDICINE.

It is wholly medicine, **all** medicine.

Here's the Formula:

Trifolium	Red and White Clover
Tararxcum	Dandelion
Barosma	Buchu
Gentiana Lutea	Gentian
Podophylium	May Apple
Rumex Crispus	Yellow Dock
Apocynum Andros and Mifolium	Bitter Root.

The combination is named

Clover Bitters

Nature has provided the ingredients; the combination is the result of the medical knowledge of over twelve centuries in all countries in the world. Not witchcraft, nor chance, quackery, or theory, but an absolutely standard medical preparation that is **all** medicine. Acts directly upon the seat of the disease, because it's made that way, and therefore starts right. The result of starting right is that it works quicker, surer, and with unfailing accuracy, and drives all symptoms of disease before its action, curing completely. Therefore it will cure you.

Sold by all druggists under positive guarantee. **Full pint bottle, $1.00; 6 bottles, $5.00.**

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Alone.

I miss you, my darling, my darling.
The embers burn low on the hearth,
And still is the air of the household,
And hushed is the voice of its mirth.
The rain-splashes fast on the terrace,
The winds past the lattices moan,
The midnight chimes out from the steeples,
And I am alone.

I want you, my darling, my darling.
I'm tired with care and with fret.
I would nestle in silence beside you
And all but your presence forget
In the hush of the happiness given
To those who through trusting have grown
To the fullness of love in contentment,
But I am alone.

I call you, my darling, my darling.
My voice echoes back on the heart.
I stretch out my arms to you in longing
And, lo! they fall empty apart.
I whisper the sweet words you have taught me—
The words that we only have known—
Till the blank of the dumb air is bitter,
For I am alone.

I need you, my darling, my darling.
With its yearnings my very heart aches.
The load that divides us weighs harder.
I shrink from the jar that it makes.
Old sorrows rise up and beset me.
Old doubts make my spirit their own.
Oh, come through the darkness and save me,
For I am alone.

CAREFUL TREATMENT

May Preserve the Czar's Life For Many Weeks, If Not Months.

A MORAL AND UPRIGHT RULER.

His Character as Viewed by an American Diplomat.

LONDON, Oct. 22—Advices from Livadia are to the effect that the condition of the czar is unchanged.

In spite of the latest bulletins, there is reason to believe that the czar's life may be prolonged by careful treatment for weeks, if not months. The end generally comes after a period of collapses of unconsciousness, which may last several days.

The czarina, who is the second daughter of King Christian of Denmark, is suffering from severe nervousness. The rumors that she has been stricken with either paralysis or apoplexy are untrue.

According to the best information obtainable, there will be a formal bethrothal and exchange of rings between the czarewitch and Princess Alix at Livadia on Wednesday, perhaps sooner, according to circumstances.

The marriage of a foreign unorthodox princess to a Russian heir apparent necessitates three distinct ceremonies — reconciliation to the orthodox church, betrothal and nuptials. The ceremonies formerly were always separate, but the betrothal and actual marriage latterly have often been performed together. An imperial manifesto on this subject is expected.

Diplomat Smith's Conclusions.

PHILADELPHIA, Oct. 22. — Ex-Minister Charles E. Smith, who, during the time he represented the United States at St. Petersburg, had ample opportunity to observe the personal and political characteristics of the czar, talked in an interesting fashion when asked by a reporter for his impressions as to the effect the death of the czar would have on the Russian empire. Mr. Smith said:

"The death of the czar would, in my opinion, be a serious misfortune for Russia and for Europe. It is not probable that there will be any marked change in the conservative attitude of the imperial government. The peace policy of the present reign has been so wise, prudent and firm that it is likely to be followed.

"But with a new and untried sovereign there must be solicitude until the lines are settled. As to Russia internationally, the present emperor has given her tranquility and stability. There is little discontent, no agitation, and general devotion to the crown, and with wise counsels it will be easy to move forward without disturbance.

"Alexander III has been an upright and earnest ruler. Less commanding than Nicholas, less liberal than Alexander II, he has been well-balanced. His personal qualities have inspired devotion at home and confidence abroad. He has been sincere, steadfast, conscientious and straightforward. He has shared the reactionary tendency which followed the assassination of his father, and which has been unfortunate in some of its developments, but with his firm policy he has united a strong sense of justice.

A Beautiful Domestic Life.

"No one could see anything of the beautiful domestic life of the emperor, or of his laborious devotion to the responsibilities of the crown, or of his manifest desire to promote the welfare of his people, without great respect for him. He has been a Russian of Russians in his feeling, and has almed to develop the national spirit of his people. But he has joined with this national sentiment a deep personal sense of right and duty.

"The sudden and swift collapse of the czar in the very prime of life seems strange and almost incredible. He is only 49 years old. He had the stalwart figure and physical prowess of the Romanoffs. Standing 6ft. 2in., well proportioned, the very picture of robust health, reputed to be the strongest man in Russia, prudent, living a model life, he seemed the last of the living sovereigns upon whom dread disease would lay its fatal hands.

Preserved Peace In Europe.

"His moral rectitude and his upright purpose have matched his rugged manhood. His character and impulses have inspired loyalty and devotion at home and respect and confidence abroad. For years he has been the sheet anchor of peace in Europe. As crown prince he won soldierly laurels in the Russo-Turkish war, but as emperor he has been devoted to continental peace and has been the surest and most potent force in maintaining it.

"With one hand he moderated the impulsive ardor of France, and with the other he warned and checked the aggressive tendency of Germany. He restrained the hostile spirit of others, and renounced warlike purposes himself. Had he been restless and ambitious of military glory and aggrandizement, he might easily have applied the torch which would have set Europe aflame. But he held a steady hand over the great powers.

A Journalist For Counsellor.

"Curiously enough, with all the Russian censorship and restriction, the most active and potent agent in leading the czar from the old foreign influences was a journalist, Katkoff, the chief of the Moscow Gazette, who was one of the ablest and most powerful editors of any country, and the alliance of the czar and Katkoff shook the universal intellectual and diplomatic domination of Bismarck, and, from playing a subordinate part to the great German chancellor, advanced Russia to the position of holding the balance between adverse forces and dictating the peace of Europe. The czar pursued this policy with steady and rational judgment.

"There is a prevailing idea that he has lived in constant dread and anxiety. But he is a fatalist, and he has moved calmly forward with the conviction that his destiny, whatever it might be, could not be changed. Doubtless precautions have constantly been taken for his safety, but they have been the measures of those about him rather than his own. His great service to mankind has been as the peacemaker of Europe.

"What will follow his death no one can yet tell. The heir to the throne is only 26. His opinions and tendencies are largely a matter of conjecture. It is to be hoped that when he comes to the throne the influences about him will be of a wholesome character, and that, with a broader liberalism, he will maintain the attitude of Russia as a conservator of peace. In that direction and in his own blameless life the czar leaves a worthy example."

STRUCK BY A ROCK.

Aged Lawrence Man Received Injuries Which Caused Death.

LOWELL, Mass., Oct. 22.—Michael J. Martin, 17 years old, is under arrest on suspicion of having caused the death of Patrick H. Buckley, a man about 88 years old, who died yesterday from the effects of injuries caused by a rock thrown on Fayette street Saturday night.

The victim had been in Edward Cushing's saloon on Concord street, where there was a row, but Buckley did not take part. Martin, the prisoner, and one Roache had a dispute because the latter protected an old man named Clark from being tormented by others. Roache slapped Martin's face, and both left the saloon at different times.

On his way home he felt a shower of stones strike him. Farther down the street a second shower struck him and also hit Buckley, who was talking with two of his relatives on the corner. The old man fell, and was taken into the hospital, where he died yesterday.

LOVE TURNED TO HATE.

William Fuller Hacked Emma Hunt to Death With a Butcher Knife.

ALBION, N. Y., Oct. 22.—William Fuller, alias Lake, the murderer of Emma Hunt, was captured yesterday afternoon in a farm barn by Constables Handy and Barry. He offered no resistance and was lodged in jail here. Lake acknowledged that he committed the crime, and said that after knocking the woman senseless he cut her throat and hacked her with a butcher knife.

The murderer was born in Middleport. After being arrested he spoke of the confession which he wrote previous to the murder. Fuller is worn out with his efforts to escape capture and from want of food. He fails to realize the enormity of the crime of which he has confessed. He says that the only reason he had for killing the girl was her refusal to reciprocate his love. Her refusal turned his love to deadly hate.

Struck With an Ax.

BOSTON, Oct. 22.—A determined attempt was made at 11 o'clock last night to murder Luigi Marabello, the keeper or boss of an Italian lodging house at 18 Moon street. Marabello's assailant was Alphonso Scantone, and the weapon used was a hatchet. Scantone's brother, Philipe, and his wife, are lodgers in Marabello's house and have not paid their rent for some time. Marabello had given him notice to leave the house or take his chances of being ejected, and it led to the row last night. Marabello's injuries are serious, but will not prove fatal.

The Belgian Elections.

BRUSSELS, Oct. 22.—The reballoting for members of the chamber of representatives passed off without any disorder. The returns thus far received indicate clerical successes in Brussels. The Catholics were victorious over the Liberal-Socialist coalition. Eighteen Catholics have won seats formerly occupied by Liberals.

Nuptial Knot Retied.

CHELSEA, Mass., Oct. 22.—Mr. and Mrs. James Watts were married Saturday night by Rev. R. J. Wyckoff. They were married a month ago by Rev. Mr. Wriston, who was recently fined for marrying people without having due authority. This made Mr. and Mrs. Watts anxious, and they got married again, to make sure.

Shortage of Over $3000.

BELLEFONT, Pa., Oct. 22.—For the misappropriation of money collected as school tax in the borough of Philipsburg in 1892, Associate Judge C. A. Faulkner of Centre county has been arrested on the charge of embezzlement, and bound over in $1000 for trial. The amount of his shortage is over $5000.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

THE POLITICAL POT

Boiling In a Rather Lively Manner In the Empire State.

BOTH PARTIES ARE HUSTLING.

Fight In New York City and Brooklyn Fiercely Wages.

NEW YORK, Oct. 23.—The Republican managers of the state campaign, while actively at work pushing the canvass in all parts of the state, say they are unable to find any distressing indications in the ranks, and in serene confidence are watching the attempts of their Democratic adversaries to adjust and harmonize the factional disturbances with which they are beset on all sides, especially in this city.

Ex-President Harrison will arrive here later in the week to attend to some private business, and while he is in the city it is Chairman Hackett's intention to arrange, if possible, a mammoth meeting, at which the ex-president will speak, and at which his former running mate, Mr. Morton, now the Republican candidate for governor, will be present.

Senator Hill spoke at Yonkers last night. He will speak at Brooklyn this afternoon and in New York and this vicinity until Friday, when he will return to the interior of the state. A great deal will depend upon the result of his visit and the conference he has with the state and local leaders.

The situation so far as the New York city and Brooklyn Democratic candidates for congress and assembly are concerned is very critical, with county Democratic candidates opposing the Tammany congressional and assembly candidates in this city, and Shepard candidates running against the regular nominees in the Brooklyn districts, save that represented by Coombs. There are nine congressional districts in this city and five in Brooklyn. The opposition of the county Democratic candidates

Jeopardizes the Election

of from one to four Tammany candidates in this city, and the Shepardites endanger four in the districts in Brooklyn.

As the margin by which the Democratic managers hope to carry the next house of representatives is very narrow, the situation is regarded as extremely grave at Democratic headquarters. All efforts heretofore made toward harmonizing differences to prevent the possibility of Republicans slipping in through Democratic divisions have proved ineffectual. Senator Faulkner, chairman of the congressional campaign committee, will be here again tomorrow to witness the result of the present effect.

Richard Croker and Perry Belmont, Mr. Cleveland's ex-minister to Spain, were at the Democratic headquarters yesterday regarding this matter. The rumor was rife and apparently well-founded that ex-Mayor Grace, who is at the head of the county Democracy organization, was willing to compromise on the basis of withdrawing the county Democracy candidates in seven of the New York city districts, if Tammany would withdraw ex-Senator Cantor in the Fifteenth and John Connolly in the Fourteenth, in order to give Robert Grier Monroe and Dewitt Warner clear fields.

The Tammany candidates for congress and for the assembly were represented as recalcitrant to Senator Hill. Mr. Croker and other leaders were said to be advising a policy of concession, but Lieutenant Governor Sheehan said last evening that no basis of agreement had yet been reached.

Hill Smoothing Difficulties.

At headquarters it was said that Senator Hill's campaigning trip in the state had been very successful in conciliating the opposing Democratic factions. Wherever possible, the Hill partisans were kept in the background, and the Cleveland Democrats managed the receptions and meetings.

Chairman Thatcher still insists that President Cleveland will speak in no uncertain tone at the right time. It is an open secret that a letter written by Judge Maynard, the unsuccessful Democratic candidate for supreme judge last year, detailing the manner in which his nomination was brought about and acquitting Senator Hill of responsibility therefor, is in existence, and it will probably be given out shortly.

Lieutenant Governor Sheehan gave out an interview in reply to the charges of colonization of voters made by the Republicans, in which he makes counter charges against them. He says that the Democratic committee have been repeatedly warned of the Republican colonization schemes, receiving such information from railroad officials and in other reliable manner.

A Question For the Courts.

NEW YORK, Oct. 23.—There is a deadlock over the Simpson-Campbell congressional fight. When the question was considered the Tammany commissioners offered a resolution recognizing Simpson as the Republican candidate from the Ninth district. This was lost, the Republican commissioners voting negatively. Then the Republican commissioners offered a resolution recognizing Campbell. This, too, was lost. The matter will now have to be decided by the courts.

THREE SCORE VICTIMS.

Soldier's Carelessness Caused an Awful Explosion at Rio De Janeiro.

BALTIMORE, Oct. 23.—Captain Hudgins of the coffee bark, Dom Pedro II, gives a graphic description of a dynamite explosion that occurred in Rio a few days before his vessel sailed for Baltimore.

A Brazilian soldier discovered near the English cemetery a subterranean magazine in which the insurgents of the recent rebellion had concealed a quantity of gunpowder, cartridges and dynamite shells. The soldier reported his find to the general commander, and a cart was sent to the scene to remove the contents.

A detachment of soldiers and a curious crowd of citizens followed it to the little hill. A quantity of shells had been placed in a pile and others had been passed out close behind it, when one of the soldiers, while in the act of handling a shell, dropped it among the others.

The same second an explosion shook the earth. A sheet of flame shot upward and a cloud of whitish smoke came into view. The vessels in the harbor rocked at their moorings, and the city was much excited. The soldiers and mules were blown into fragments, and only the iron tires of the cart wheels were found. Over 60 persons were reported killed.

On the Way to Gotham.

BUZZARD'S BAY, Mass., Oct. 23.—The Clevelands left here this morning at 8:39 by special train. The train will run a special to Middleboro, thence to Providence, where it will be attached to a regular afternoon train for New York. Those leaving on the car with the president and family were Mrs. Perrine, Miss Rose Cleveland and the three detectives who have been here this summer. The president appears to be in the best of health. He says he is thoroughly rested and spent an enjoyable vacation.

A Grand Trunk Shakeup.

PORTLAND, Me., Oct. 23.—For some months detectives employed by the directors of the Grand Trunk railroad have been engaged in spotting dishonest train employes, and the result has been radical changes of conductors all along the line of the road. Many conductors who have been considered trusty men have been discharged, and many more removals are to follow. Employes are very much stirred up over the affair.

A Domestic Tragedy.

HANNIBAL, Mo., Oct. 23.—Sanford Baldwin murdered his wife here yesterday and then killed himself. The weapon used was a shotgun. Baldwin was 50 years of age and his wife 35. Both had been married before their union last August, the woman having four children, one of whom Baldwin did not like. Quarrels on this account were frequent.

Murderer Said to Be In Custody.

DOVER, N. H., Oct. 23.—The case of McArthur, the escaped murderer of Deputy Sheriff Smith of Barrington, is again before the public, word having been received by Attorney General Eastman that the much-wanted criminal is under arrest in Pulaski, Tenn., or a man answering the exact description of McArthur.

Another Shutdown In Prospect.

FALL RIVER, Mass., Oct. 23.—Fully 3000 weavers paraded through the streets yesterday, and as many more followed the procession on the sidewalks. The mills are paralyzed and the manufacturers are satisfied that they cannot run under existing conditions, and talk of shutting down Wednesday or Thursday night.

Ominous Movements of Troops.

OAXOACA, Mex., Oct. 23.—The government of Guatemala is dispatching large forces of troops to the frontier along the Mexican border. The Mexican government has ordered several thousand troops to Acapulco and Tehauntepec to be prepared for any hostilities on the part of the Guatemalans toward Mexico.

Struck For the Old Scale.

NORTH ADAMS, Mass., Oct. 23.—The help in the Briggsville mill refused President Barker's offer of a restoration of 8 per cent and two hours and began a strike yesterday. The indications are that a compromise will be effected and that the help will return. About 200 hands are employed in the mill.

Missionaries Killed In China.

ROME, Oct. 23.—News has been received at the Vatican of the destruction of several mission stations in China. The inmates, it is said, were killed. The Vatican will appeal to the powers for the protection of its missions in China.

Cleaning Them Out.

ROME, Oct. 23.—All the socialist workingmen's societies throughout the kingdom were dissolved yesterday by government decree. The offices or domiciles of the members were searched and some important documents seized.

Boys Suspected of Murder.

CHARLESTON, Oct. 23.—Three young white boys, ranging in age from 18 to 22 years, are suspected of the murder of County Treasurer Copes. The purpose is to get all the evidence against them before making the arrest.

Farms Suffered.

ARKANSAS CITY, Kan., Oct. 25.—A tornado struck Geuda Springs and much damage was done to farms and crops. It is feared that more serious reports will be received when telegraphic communication is restored.

Result of Family Troubles.

CAMBRIDGE CITY, Ind., Oct. 23.—John Waldz shot himself and his 3-year-old son and both will die. Family trouble is given as the cause of the act. The husband and wife separated two weeks ago.

Both Legs Gone.

PORTLAND, Me., Oct. 23.—Andrew W. Johnson was run over by a heavy car loaded with logs, and both legs were crushed. He stood amputation well, but there is little hope of his recovery.

All Are Well.

PHILADELPHIA, Oct. 23.—The schoolship Saratoga has arrived at the Delaware Breakwater. The vessel has been on her cruise since early spring. All on board are well.

Alleged Forger Captured.

TRENTON, Oct. 23.—Police authorities have arrested Arthur Woods of Littleton, N. H., who is wanted at that place for forgery and grand larceny.

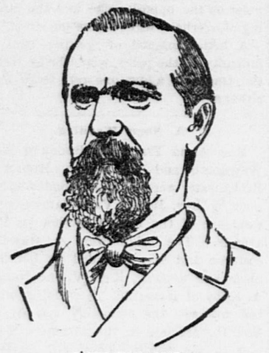

"WIFE BOSSES HIM."

O'Donovan Rossa Therefore Hastened Back to America.

HE WANTS TO KNOW WHO UHL IS.

Airs His Grievances In a Letter to Cleveland.

NEW YORK, Oct. 23.—Edwin F. Uhl, assistant secretary of state at Washington, has declared that O'Donovan Rossa is not a citizen of the United States, although he has been voting here for a number of years on papers granted by Judge Larremore in the court of common pleas on Feb. 21, 1871. Mr. Uhl holds that these papers are worthless, on the ground that the qualification of five years' continuous residence was not complied with.

O'DONOVAN ROSSA.

Mr. Uhl's ruling on this subject accounts for Mr. Rossa's return from Europe last spring earlier than he intended. Uhl refused to grant him a passport, and he did not, in consequence, visit Scotland and England, where he intended to deliver some lectures. Rossa has sent a letter to President Cleveland reciting the facts in the case.

Before going to Europe last May, Rossa wrote to Mr. Uhl for a passport. This was refused. In his letter to Mr. Cleveland, Mr. Rossa says:

Complains to Cleveland.

"President Cleveland, who is this Mr. Uhl whom you have around you as president of your passport bureau in Washington? I have suffered somewhat by the refusal of Mr. Uhl to send me a passport when I was going to Europe last May. I had engagements made to give some lectures in Ireland, England and Scotland. I made arrangements to sail on the Campania from New York on May 19. On May 15 I wrote for the passport. It did not come before the 19th. I sailed on the 19th.

"On May 23 my wife got Mr. Uhl's letter refusing me a passport, and telling her I was no citizen of the United States. That letter threw her into sickness. She wrote to me telling me not to go into England or Scotland; that she had reasons for telling me so, and asking that I come back to America as soon as I had filled my engagements in Ireland. My wife bosses me, and I obeyed her orders.

Going Into Details.

"Who is this Mr. Uhl? And do you say that my citizen papers are bad? I lived here; did business here in New York in the year 1863. Barney Ryan, a deputy sheriff here now in New York, lived in the same house with me at Madison and New Chambers streets. Three brothers of mine were in the war. That year I took out my first papers. In July, 1865, I left New York for Ireland. In September, 1865, I was returning to America. On Friday evening of Sept. 15 I was packing my trunk, as I was to leave the cove of Cork for America the following Sunday.

"The soldiers of the English government in Ireland arrested me and put me in prison, and kept me in English prisons up to January, 1871. Then the English sent me from Chatham prison to New York, and next month I went before Judge Larremore and told my story in the application I made for full papers of citizenship.

"He gave them to me by virtue of that clause of the constitution which says that the five years' "consecutive residence" in the United States holds good for the man who has taken out his first papers and leaves the country with the intention of returning, but who is detained in any manner that makes it impossible for him to return, and returns when he can."

Bulgarians Honored by Turkey.

SOFIA, Oct. 23.—The Sultan of Turkey has conferred the grand cordon of the Order of the Osmanieh upon M. Sterloff, Bulgarian prime minister, and the grand cordon of the Order of the Mejidieh upon M. Nachevitch, minister of foreign affairs. This is the first time that Turkey has ever decorated Bulgarians.

Killed For Money.

LICK HAVEN, Pa., Oct. 23.—A man named Sturtevant of Westport, boss of a lumber job near Cross Forks, was found dead along the railroad, with his skull fractured. He had received money to pay the hands, and it is supposed he was murdered and then robbed.

Weston's Tramp.

NEWBURG, N. Y., Oct. 23.—Edward P. Weston, the famous old-time pedestrian, started from the square in Water street on his 496-mile tramp through the state. He was accompanied by Gustave Meyers and Mr. Sackett, who rode in a wagon.

Cholera Is Decreasing.

WASHINGTON, Oct. 23.—Dr. Irwin, surgeon of the marine hospital service at London, in a special report covering the progress of cholera in Europe for the week ending Oct. 10, says there is a steady decrease in the epidemic everywhere.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

SPECIAL TEACHERS.

The Newest Idea In School Teaching Working Well in Quincy.

Superintendent Lull is quick to grasp all new ideas which promise better results in our public schools and for two weeks a new system has been in operation at the Washington school, Quincy Pointt, of which Mr. T. B. Pollard is principal.

It is the fulfilment of the specialty notion, which prevails in most trades, particularly manufacturing. As now arranged Principal Pollard teaches all four of the grammar grades in geography, and two grades in history. Miss Marden teaches music and language in the four grades, Miss Sargent, nature study and drawing, and Miss Hatch, arithmetic, while each of the above instructors teaches reading and spelling in his or her own room.

The scholars do not move from room to room, but the teachers do, according to a time schedule.

It is claimed that teachers are more proficient in one branch than another and that they can do better work as specialists. This idea is in force in colleges and in high grade schools, but except in few places has not been tried in grammar grades of public schools.

So carefully was the change arranged in advance that there has been no friction at the Washington and the new idea is working very satisfactory, with promise of good results.

Death of John Parsons.

News was received Monday from Scranton, Pa., by A. C. Stewart that on Oct. 12, John Parson of that city fell from a new building upon which he was working and was killed almost immediately.

Deceased was a resident of this city during three years, and was well and favorably known, as his genial disposition won many friends, particularly in the choir of Christ's church, of which he was a member. He was also associated with the Young People's Society of Christian Endeavor of the Congregational church, and the Y. M. C. A. when it was first instituted. The news of his sudden death comes as a shock to his many friends who join in sympathy with his bereaved parents.

It seems rather funny, but the site the school committee selected for a new school building at Norfolk Downs, is the identical lot offered free of cost to the city two years ago but was not accepted. It is also the same lot one of the school board classed, without seeing it, as a swamp.

"Quincy's Young Men," the new Y. M. C. A. monthly, is a newsy little sheet "devoted to the best interests of young men." The Quincy Association is a busy one working on many lines and Secretary Colton finds no difficulty in filling its pages with matters of local interest, and active members will prize every issue.

The opening reception of the Y. M. C. A. will be held Thursday evening. The entertainment will consist of readings by Miss Snow of Hyde Park, and singing by Mr. Wilkinson of Lawrence. Refreshments will be served. Members of the association and auxillary are invited. New members are especially urged to be present.

Folding fans were invented in Japan, and were suggested by the way in which a bat closes its wings.

WITH A CONDITION.

An Objection to Acceptance of Norfolk Downs Streets in Present Condition.

The Committee on Streets did not report Monday evening on the acceptance of the new streets at Norfolk Downs, as the grade in the plan of said streets and the grade of the streets did not agree. It is understood, however, that the committee intends to report favorably on the acceptance of Beach street and Rawson road and upon Billings road, the latter conditionally; the conditions being that the poles in the middle of the street be moved to the side, and that the grass along the railroad tracks be removed.

It is understood that Wood, Harmon & Co. will not comply with the conditions.

The street itself is very wide, being over 20 feet on each side of the railway track to the sidewalk. The poles are as good as could be had, and the sodding on the side of the tracks was done at considerable expense, and with the additions the new improvement association intend to make, the plat along the tracks will be very attractive another season.

The poles have been there nearly three years and up to the present time no accident has occurred. If the poles were removed to the side of the street it would necessitate the erection of another line of poles on the opposite side and the stringing of overhead wires across the street.

A better method of getting over the difficulty of the poles would be to inclose the tracks in a low, one rail, fence along either side.

A Noon Wedding.

Miss Anna Frances Holbrook of South Weymouth and Mr. Aaron Hobart of Bridgewater were married Monday at high noon by Rev. Judson Van Clancey, at the residence of the bride's mother on Park avenue. The bride wore a travelling costume and was attended by her little niece and nephew, Ruth V. and Norman A. Kilby of Haverhill. A wedding breakfast followed the ceremony, and Mr. and Mrs. Hobart left in the afternoon for a tour in the South. They will reside at Newton Highlands.

SHRINGFIELD, O., Oct. 23.—Ex-Police Judge C. E. Morris has fled, after fleecing people to the amount of $20,000. He is supposed to be in Canada.

LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no excuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

Extensive alterations has made the Boston store of Wm. S. Butler & Co., (opposite the Tremont House) one of the most enjoyable for our lady readers—in fact the person, be he man or woman, will find every department so loaded with goods and bargains that all should seek an opportunity, if visiting the Hub, of verifying the facts contained in this advertisement found in another column. If you cannot visit Boston just now, use their mail order department.

A Drop in Prices.

We have made a *special* reduction in English Wiltons and Brussels, and on Oriental Rugs and Carpets. Our Fall Stock, which we are now showing, is unequalled in this city. Furniture Economy.

It makes no difference what others say about goods, or what others get for them; at this store the aim is straight for one point, viz: To handle only reliable merchandise, and give it at the right rate, a trifle lower than any other Furniture house in the State, and we invariably do it.

Our increasing trade proves too well that there is satisfaction for the public in trading right here in Quincy on sure grounds, and we cannot help noticing how others attempt to imitate our methods.

It is gratifying for us to hear the old saying which comes to our ears so often, "More for our Money Here, we have come back to trade after wasting our time elsewhere."

Shawmut Spring Water.

F. J. FULLER, Proprietor.

WEST QUINCY, - - MASS.

This is an excellent water of remarkable purity.
H. L. BOWKER, State Assayer, Boston, Mass.

The water question is engaging the attention of residents in thickly settled districts, and an intelligent investigation shows a large proportion of disease directly traceable to drinking water.

Experiments have shown that microbes that form in decayed vegetation, stagnant water and sewerage, which are the principal cause of fevers, will filter through seventy-five feet of jacked sand and how much farther through sand or earth is not known. Nearly three-fourths of the human system is water. How important then that we should drink only pure soft water which absorbs and eliminates lime and other earthly salts from the body. There is no other sensible preventive or cure for the system that is choked and clogged with calcarious salts than a systematic use of pure water.

This Shawmut Spring Water comes from a fissure in the face of a hill of Granite. Its use in cooking, drinking and bathing will, we think, show marked improvement in health. Different from hard water, in bathing it gives a soft, velvety appearance to the skin and should be used exclusively in washing young children.

It is free from all surface contaminations.

Pure water is the best medicinal water; there are no typhoid fever germs in it. It assists nature and restores to healthy action the digestive organs, and is conducive to the health of children and all persons of delicate constitution.

The very low price of this excellent water is within reach of all; just enough to defray the expense of delivery. All communications sent the proprietor will be promptly attended to.

THE CITY COUNCIL.

Order Reported Granting Street Railway a Location on Willard Street.

$4,000 FOR ADAMS STREET.

Various Other Reports, Petitions, New Orders, Etc.

The session of the City Council Monday evening was less than an hour in duration and what little business there was to transact was disposed of speedily.

The absent members were Councilmen Adams, Litchfield, Rooney and Waterhouse.

Petitions.

Petitions were received from Margaret Burke for State aid.

That Nelson street be laid out as a public way.

That the grade of the hill on West street near Centre street be cut down and put in condition for travel. All of which were referred.

Report of Committees.

The Committee on Streets reported an order granting the Quincy & Boston street railway a location on Willard street to the Milton line, the location to be in the middle of the street, flat rail and paved between the tracks and eighteen inches on each side. Ordered to second reading.

The Committeee on Streets reported an order appropriating $3,500 for regrading parts of Liberty and Penn streets. To Committee on Finance.

The Committee on Streets reported an order appropriating $4,000 for regrading Adams street, from Whitwell street to Furnace brook. To Committee on Finance.

The Committee on Finance reported a slight amendment to order apropriating $2,400 for interest. Amendment adopted and order passed to be ordained under suspension of the rules.

The Committee on State Aid reported leave to withdraw on petition of George W. Tibbitts. Adopted.

The Committee on Finance reported an order transferring $100 from appropriations for salaries of city officers to Assessors' department for books, etc., and $25 from the same appropriations to the Assessors' department for clerical services. Passed to be ordained under suspension of the rules.

The Committee on Streets reported an order for a public hearing Nov. 5, on the laying out of Walker street.

The Committee on Finance reported an order appropriating $7,093 55 for the payment of bills on the new High school building.

Councilman Moxon did not object to the order, but to the precedent of doing work before an appropriation was made.

Councilman Holbrook thought the order was late in coming to the Council.

Order passed to second reading.

New Orders.

Councilman Moxon moved that when the Council adjourns it be until next Monday evening. Voted.

Councilman Holden moved that the communication of the Mayor in relation to street lights be taken from the file and referred to Committee on Street Lights. Voted.

Councilman Holden offered an amendment to Ordinance No. 17, section 32, by adding the words "half the fine imposed to go to the informant." To Committee on Ordinances.

Calendar.

The order appropriating $800 for public burial places was advanced a stage.

Adjourned at 8.15.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved withouf paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

Granite Workers Benefitted by Y. M. C. A. and City Evening Schools.

Few trades are favored as is the granite industry and workers of Quincy. Each winter the city supports free evening schools, both for the common branches and for instruction in drawing with special reference to drafting for stone work, and this year the Young Men's Christian Association has opened industrial educational classes, which instruct in monumental drafting, clay modeling and free hand drawing and designing. The city evening school will be opened next Monday in the commodious new High school building. Particulars will be found today in our advertising columns, and applications should be made immediately.

The memorial to revolutionary soldiers buried in Pine Grove cemetery, East Concord, N. H., will be dedicated next Monday, October 29.

Granite manufacturers and granite cutters are requested to forward all items of interest to the industry to the DAILY LEDGER. Please drop us a postal if you desire work or improvements inspected.

New York's new law which provides for the cutting, within the limits of the state, of all marble, granite and stone work designed for municipal contracts, is being watched with much interest by building contractors in that state. This will necessitate bringing the material in the rough from the quarries, and necessarily mean largely increased expense in cost of material. It is a move entirely in the interest of labor, but its effect upon the labor of other states, the possible influx of such labor into New York, and the liability of contractors to sustitute other and less expensive material, are possibilities that are not unlikely to arise.—Monumental News.

Quincy has the advantage of many places, because our quarries cannot be moved.

Waltham is preparing to erect a monument to Gen. N. P. Banks. B. B. Johnson, a man of force, is at the head of it, and the plan is to name a new park Bank's park, and to erect on it a memorial shaft.

The Confederate veterans of Nashville, Tenn., propose to erect a monument in that city to Gen. Nathan Bedford Forrest, the Confederate cavalry commander. It is proposed to unveil the monument during the Nashville Centennial Exposition in 1896.

Maj. W. D. W. Miller, a prominent New York lawyer, and one of Plainfield's most patriotic citizens, has revived the project of erecting in his city a soldiers' monument. Plans for an imposing granite column were prepared three years ago and many hundreds of dollars were subscribed for its erection, but the full sum required has not yet been realized.

The officers of the 150th New York regiment have been appointed a committee to prepare plans and arrange for the erection of a monument on the battle field of Wauhatchie near Chattanooga, as the State has appropriated $2,000 to each regiment that took part in the battle. A. B. Smith is president. The meeting was held at Poughkeepsie.

The portraits of the directors of the new Quincy Quarry Railroad company are going the rounds. The Monumental News used them in the October issue with due credit to the DAILY LEDGER.

WHAT YOU NOTICE

at first, perhaps, in taking the Carlsbad Sprudel Salt regularly, is a decrease in weight. It is getting rid of all the unhealthy, unnatural flesh and tissue—*if you have any.* That is what makes it so valuable in cases of obesity.

But after that, or, if you are thin already, the firm, sound, healthy flesh that you need comes in a thoroughly natural way. Your digestive organs are put into perfect condition; your appetite is sharpened; there's no waste; the food that you take *nourishes* you.

No matter whether you're too stout or too thin—the Carlsbad Sprudel Salt brings you to the proper, healthy standard, either way.

Take no imitations sold as "improved" or "artificial" Carlsbad Salt, which are only mixtures of ordinary Glauber Salt and Seidlitz Powder, sold by unscrupulous dealers in order to make larger profits. The only genuine imported article has the signature of "EISNER & MENDELSON Co., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle.

A MATTER OF DOUBT.

Definite News Concerning the Czar Is Difficult to Obtain.

OLD-WORLD NEWSPAPER GOSSIP

On the Future Movements of Russia's Royal Family.

LONDON, Oct. 23.—In all the continental capitals and London there have been streams of callers—official dignitaries, aristocrats and humble people—at the Russian embassies. To these, however, little information concerning the czar was vouchsafed, and that little consisted of gloomy forebodings. Prayers and masses were unceasingly offered from St. Petersburg to Vladivostok.

A dispatch from St. Petersburg says that besides the offering of prayers for the recovery of the czar in all of the churches, the holy synod has ordered that there be prayers for the same end in the army and navy on board the vessels of the Russian Pacific and Mediterranean squadrons. Archbishop Moghileff has ordered prayers in all the Catholic churches.

The Times' Vienna correspondent telegraphs that it is announced from Sofia, Bulgaria, that no special services have been held there for the recovery of the czar. The clergy appear to have been instructed from headquarters.

The wild rumors reported from St. Petersburg were repeated yesterday in still wilder form. From Moscow comes a report that there are people there who insist that the czarewitch has refused to ascend the throne, and that the czar in order to compel him has ordered his marriage to Princess Alix. The Muscovites fear that should the rumors prove true, they will have to face the gravest peril possible. While the people crowd the churches to pray for the czar, the fears that the rumor has truth gives added fear for their petitions.

The question of succession still holds the principal place in the flood of statements, rumors and surmises. The Cologne Gazette prints a St. Petersburg telegram stating that the czar has given orders for a settlement of the succession to the imperial council. He has advised that Grand Duke George, his second son, should, on account of the state of his health, renounce his claim in favor of his brother, Grand Duke Michael, who ought to take the oath as the heir presumptive to the throne.

Czarewitch Is Obstinate.

The relations between the czar and czarewitch do not appear to be of the best. The statements, however, are unfounded that the czar had a heated quarrel with his son, which excited him in a manner dangerous to one of his condition.

Still it is no secret that the czarewitch does not care much about the throne, not on account of love affairs, but from observation of the continual excitement and terror in which his father lived. The suddenness of the crisis has served to intensify his aversion, yet nobody here believes he will execute his intention to renounce the throne.

The Crown Prince of Denmark is hastening to Livadia to join his sister, the czarina, in her troubles.

I hear that preparations have been made to decrease the aversion of the czarewitch to succeed his father. It is stated that during the last three days he has signed all official documents, and that the czar has admonished him to attend to the advice of M. Bunge, president of the ministerial committee.

Princess Alix at Livadia.

Princess Alix arrived at Livadia last night. The czarina accompanied her to the chapel of the castle, where both prayed earnestly that the life of the czar be spared. The czarina looked careworn, but she walked without assistance. All the reports stating that her majesty has been stricken with paralysis are untrue.

The Berliner Tageblatt publishes a telegram from Livadia asserting that the betrothal of the czarewitch and Princess Alix will formally occur this evening, and the marriage take place tomorrow. This hastening of the ceremony is said to be rendered necessary by the rule of the Romanoff family compelling every heir apparent to marry before ascending the throne and to proclaim his successor.

On this account the proclamation of the nearest agnate, the Grand Duke Michael, as the ultimate heir apparent, is generally expected. Another rule in connection with the accession requires that when the oath of allegiance to the new czar is administered to the troops and officials an oath of fidelity to the heir apparent must be taken at the same time.

The Official Gazettte announces that Princess Alix has arrived at Livadia, but does not publish a word about her marriage. From what I hear, no marriage is likely now, but there will be a formal betrothal, and the benediction of the czar under the circumstances will bind the princess and the czarewitch until the wedding ceremony takes place.

Has Less Appetite.

The bulletin issued last night by the physicians in attendance on the czar says: "His majesty slept five hours intermittently. He rose this morning as usual. His appetite has lessened. His strength has not increased."

The Standard's St. Petersburg correspondent telegraphs the following: Everybody is surprised that no mention is made of the pulse or temperature; in short, there is no clew as to what the disease from which the czar is suffering actually is. Medical men are unable to form any conjectures as to the possible issue. It is rumored that an operation is contemplated. Another story has it that the malady is expected to reach a crisis within the next day or two, but as to what the operation or malady are, even the best informed are ignorant.

The St. Petersburg correspondent of The Daily News says that private telegrams received Monday from Livadia confirm the official dispatches. They stated that the czar's mental faculties are somewhat more active, and that he seems to have gained confidence by his short walk in the castle garden.

The weather at Livadia is beautiful. All agree that much importance must not be attached to his majesty's temporary betterment. The doctors keep their patient out of bed as much as possible, first to maintain his moral energy and second on account of the weakness of his heart, which with long reclining becomes very dangerous.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

ALLENS COMPOUND EXTRACT SARSAPARILLA THE HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—

I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Canker of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

PROF. W. H. MORSE, M. D., F. B. S. Sc. of Westfield, N. J., author of "New Therapeutical Agents", the standard text book of the newer materia medica, Consulting Chemist and Therapeutist, one of the most widely known men among the medical profession gives it his highest endorsement, as testified by the following voluntary statement:

"**Allen's Sarsaparilla** commends itself to me therapeutically, chemically and clinically. Its therapeutical power, physiological activity, and chemical purity, are all noteworthy; and the reason is to be found in the fact that it is true to its name, or **honest**, as the word goes. That is, it is vegetable alterative, and tonic. Perhaps the highest praise that may be given it is that its action represents that of mercury, less the faults of that drug; for, has not Pereira said, "A perfect mercury would be a perfect alterative."

W. H. MORSE, M. D., F. B. S. Sc.,
Westfield, N. J.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for $1.00. Trial bottles 50 cts.

Lyceum League's Purpose Is to Train Young Men For Pure Politics.

BOSTON, Oct. 23.—The management of the Lyceum League of America was transferred last night from The Youth's Companion company to a directorate, of which Hon. Theodore Roosevelt is president. The Lyceum league is a national organization of young men who are training themselves for the duties of citizenship.

It is in some respects like an old-fashioned debating society, except that its discussions are confined to American political, economic and social questions, and much attention is given to local government reform. Its lyceums are scattered through all the states. It is non-partisan. In his inaugural address, President Roosevelt said:

"The prime purpose of the league is to cultivate good citizenship. In political life, whether a man acts without or within party lines, is not of very great moment, if only he acts honestly, fearlessly and effectively. Parties are necessary. But no man has a right to condone crime or to excuse moral shortcomings of any kind because of alleged party necessity. With the young American it rests to decide the failure or success of the tremendous experiment begun by Washington and carried on by Lincoln."

Advance Was Refused.

NEWBURYPORT, Mass., Oct. 23.—Yesterday the 100 cutters for the extensive shoe contractor, E. P. Dodge, notified the firm that they would strike if by 4 p. m. their new price-list, the minimum of which was $15 a week per man, was not acceded to. The firm declined, and the cutters quit work. This will cause a closing of the shops, depriving at least 500 persons of employment.

Left the Looms.

NEW BEDFORD, Mass., Oct. 23.—Another strike was begun at the Wamsutta mills yesterday. The wide loom weavers in No. 7 mill, about 50 in number, were requested to take another loom, making five looms for each weaver. The request was not complied with, the weavers leaving the mill in a body rather than take the extra work.

To Be Banished.

ROME, Oct. 23.—Mgr. Boeglin, editor and proprietor of The Moniteur de Rome, was arrested last night and will be expelled from the country. The Moniteur de Rome has stopped publication. Boeglin has been in trouble before with the authorities because of an article published in his paper, which is a church organ.

In Carlisle's Hands.

SALVATIONISTS' METHODS.

General Booth Declares That the End Justified the Means.

NEW YORK, Oct. 23.—The members of the Salvation Army gathered in Union sqare last evening, and after greeting the venerable General Booth, dispersed to reassemble in Carnegie Music hall, where an audience of 5000 greeted General Booth. The boxes were filled with fashionable men and women.

In the midst of a picturesque group on the stage the general was the striking and central figure. He was surrounded by his staff officers, the bands, and slum brigade. The background of this group was composed of the banners of the army, bearing such inscriptions as "Harlem for Jesus" and "The Bowery for our Lord."

Commander Booth led in prayer, and then the Rev. Dr. Bradford read an address of welcome to General Booth. The address was signed by Rev. Dr. Parkhurst, M. K. Jessup, W. E. Dodge, Dr. Hastings, D. J. Burrell, A. J. Palmer and others. As Dr. Parkhurst's name was mentioned, there was a round of applause.

Commander Booth then presented his father, the general, with a handsomely framed testimonial from the staff officers. General Booth made a speech, in which he briefly told the history of the army.

"Why did I undertake this work?" he asked. "Because in one part of the east end of London the population had never been inside a church. I drew the painted women from the street and the drunkards around me and preached the gospel of Jesus to them. Before them Christianity was a byword of reproach on their lips.

"People have questioned our mode of operations—the noise and banners—but I claim the end has justified the means. We have planted our banner on the walls of St. Petersburg and in distant India, and will push our fight to every corner of the earth."

Disastrous Underground Fire.

DENVER, Oct. 23.—A fire, caused by spontaneous combustion, in a hill above the town of Marshal, 30 years ago, threatens to communicate to the surrounding coal fields. The fire rages throughout an underground mine of 300 acres, and spouts flames, cinders and smoke through a dozen outlets. Property worth millions of dollars has been destroyed. Two weeks ago the miners were driven by smoke from the drift of the last coal mine that was workable.

Police Interfered.

ST. JOHN, N. B., Oct. 23.—Eddie Connolly of this city and Pete Manning of Boston fought here last night. Both men weighed in at 128 pounds. The fight lasted just 1m. 45s., in which time Connolly sent the Bostonian to the boards four times. The latter was ready for more punching, when the police stopped the fight.

Against Sunday Entertainments.

BOSTON, Oct. 23.—At a meeting of the Congregational club Sunday night concerts and entertainments were condemned in a lengthy set of resolutions requesting the city government to order playhouses closed on the Lord's day. This is the second religious club that has adopted similar resolutions within a week.

A Tough Nut.

TAHLEQUAH, I. T., Oct. 23.—Jim Cook, a brother of the leader of the noted Cook gang who is under arrest here for murder, has made his escape. While in charge of two guards and after giving his captors a severe tussel he got free, although hampered by a heavy chain locked about his wrists and ankles.

Fought on the Road.

CHICAGO, Oct. 23.—John Mahan, champion quarter-mile sprinter, whose home is in Fitchburg, Mass., is dangerously wounded by a bullet in his left breast and with his left arm broken. Mahan was returning from Indiana on a freight train and had a fight with two tramps in a box car.

Iron Workers Meet.

INDIANAPOLIS, Oct. 23.—One hundred and fifty thousand iron workers of America have sent delegates to a conference now in session here. The sole purpose of the gathering, said one of the delegates, is to bring the iron workers closer together. No strike is contemplated.

Alleged Swindlers In Custody.

BOSTON, Oct. 23.—E. L. Cooper and Joseph M. Wales, both formerly doing business in this city, are charged with passing worthless checks. The checks alleged to have been disposed of by these men are 12 in number, and amount from $5 to $50 each.

With a Big Fare.

SAN FRANCISCO, Oct. 23.—The steam whaler Narwhal came into port yesterday. Her cruise in the Arctic regions extended over a period of 32 months. During that time she took 89 whales, which it is estimated will net her owner nearly $500,000.

Building Collapsed.

ST. PAUL, Oct. 23.—A building on Bridge square, being demolished by the Pabst Brewing company for the erection of a new warehouse, fell in, and six men were buried under the debris. They were badly injured.

SEARCEY "PEACHED."

Told Express Officials Where to Find the Stolen Pouch.

MORGANFIELD'S IDENTITY PROVEN

But Few Men Concerned In the Aquia Holdup.

WASHINGTON, Oct. 24.—The relentless search which the officials of the Adams Express company have prosecuted to apprehend the criminals who held up a train at Aquia Creek, Va., on the 12th, and to recover the stolen property, was rewarded yesterday by the finding of the pouch in which the robbers had placed most of their booty. The pouch was secured through the aid of C. J. Searcey, one of the robbers who was arrested at Cumberland, Md.

This fact proves conclusively what the express officials have claimed, that Searcey was one of those wanted, and the relationship which has been shown to exist between Searcey and Morganfield, now held in Cincinnati, establishes beyond a doubt that Morganfield was his pal, and it is now known that the latter was the man with the shrill voice who entered the express car and held up Messengers Crutchfield and Murray.

The details of the recovery of the pouch, or how much money it contained, are not known here, except that the sack was found

Hidden In the Woods of Virginia

near Calverton, and that there were present Prosecutor W. Seymour White, C. W. Edrington, sergeant of police of Fredericksburg; Sheriff Hugh Adie and Robert A. Pinkerton, when it was secured.

It can also be stated that not more than four men and probably only three were concerned in the holdup. Two are now under arrest, and the third, it is expected, will be caught within a short time. Searcey, who conducted the authorities to the concealed booty, made a partial confession, all the statements of which have been corroborated, and this knowledge has very materially aided the express officials in their search.

Much of the credit for the arrests falls to General Manager Herring of Philadelphia and his assistant, C. B. Forbes, who have labored indefatigably, day and night, to run down the criminals. They are particularly pleased because they are able to reiterate what they have always claimed, that no one has ever robbed the Adams Express company and escaped.

Talk of Lynching.

PORTLAND, Me., Oct. 24.—Firebugs are getting in their work on Cape Elizabeth, and farmers go to bed at night fearing that their buildings may be the next to go up in smoke. The people in that part of the cape, where three fires have just occurred, have organized themselves into a vigilance committee and will protect all of the roads at night. Should the incendiaries be caught, Judge Lynch may hold court on Cape Elizabeth.

Sent to Prison.

LOWELL, Mass., Oct. 24.—Judge Fessenden sentenced the following prisoners to the state prison: James Stewart, breaking and entering, three years; Joseph Daigle, breaking and entering, three years; George Howard, larceny, three years. Burt Morton was sentenced to three years for embezzlement in the reformatory at Concord.

For France to Deal With.

MARSEILLES, Oct. 24.—Advices from Madagascar report that the Fahavalos tribesmen have raided a village near Majuga, on the northwest coast. The Fahavalos attacked the French trading house and beheaded the two agents there. A number of soldiers belonging to the Hova tribe saw the attack, but they did not interfere.

For Illegal Registering.

BROCKTON, Mass., Oct. 24.—Edward and John McCount, C. T. Laird and D. J. Cronin are charged with false registration. J. W. Baxendale, J. F. Porter and E. T. Drake are also under arrest, charged with perjury, it being alleged that they made false statements and are thereby implicated with the others.

Northampton's Present.

NORTHAMPTON, Mass., Oct. 24. — The Forbes Library building, the gift of the late Judge Forbes of Northampton, was dedicated last night, and at the same time occurred the formal transfer of the building from the trustees named by the donor to those elected by the city.

Ground to Pieces.

NEW HAVEN, Oct. 24.—An unknown man was killed on the railroad at Cheshire. He had been put off a train and arrested because he would not pay fare. He broke away from the officer and ran directly into another moving train, which ground him to pieces.

Big Increase In Exports.

WASHINGTON, Oct. 24.—American consuls throughout Europe are sending reports to the state department showing the remarkable increase of exports to the United States from their consular districts since the new tariff bill became a law.

No Receiver.

TRENTON, Oct. 24.—The application for the appointment of a receiver for the East Trenton Pottery company, on the ground of its insolvency, was denied, on the ground that the company was not insolvent.

Forty Colliers Killed.

BUDA-PESTH, Oct. 24.—By the explosion of firedamp in the Anina colliery, 40 persons were killed.

SUICIDE BY MORPHINE.

Aged Preacher Who Had Killed His Wife Takes His Own Life.

BIRMINGHAM, Oct. 24.—The body of Dr. William Turner, who has been missing for several days, was yesterday found in a small cottage in which he lived alone at Faulkville. The doors were locked securely, and a half empty morphine bottle on the bed told the tale of suicide, though the body was too badly decomposed to admit of an autopsy.

Dr. Turner, who was a Methodist minister, 72 years of age, married a beautiful young woman, his third wife. Four years ago he became insanely jealous of her, and one day saw her talking to another man on the street. When she came home he seized and choked her to death without warning. He was arrested, but declared insane and sent to the state lunatic asylum at Tuscaloosa. Six months ago the asylum physicians pronounced him cured.

BATTLE NEAR WIJU.

Each Side Said to Have Lost Three Thousand Men.

TIEN-TSIN, Oct. 24.—The Chinese officials report that a battle occurred near Yi-Chow, and that the Japanese were repulsed southward with a loss of 3000 men on each side.

It is reported that the second Japanese army began operations for the capture of Port Arthur yesterday.

A British View of It.

LONDON, Oct. 24.—The Times this morning, in a leader on the recent report of Major General Schofield, commanding the American army, says: When he suggests that the Atlantic presents no greater obstacle to European ironclads than does the Yellow sea to the Japanese fleets he suggests the possibility that he is less vested in naval than in military strategy.

Venezuelan Progress.

MARACAIBO, Venezuela, Oct. 24.—The government has made a contract for the construction of a railway from Puerto Cabello to Carenero, from which the coast towns are expected to receive incalculable benefit. The government will receive 8 per cent of the net receipts from the traffic.

A Whaler's Report.

NEW BEDFORD, Mass., Oct. 24.—Bark A. R. Tucker, from Hudson's Bay, brought 3500 pounds of whalebone and 120 barrels of oil. Plenty of whales were seen, but heavy ice prevented capture. One of the crew had scurvy, and Joseph Spooner died from cancer of the stomach.

OUR RED BRETHREN.

Their Enjoyment of Peace Depends Upon Presence of Troops

BUT THE LAW MAY INTERFERE.

War Department Must Act With Great Caution.

WASHINGTON, Oct. 24.—Secretary Smith, in his letter to the war department, says that in view of the obligations of the government, as set forth in the treaties with the Indians of the Indian territory, to protect the five civilized tribes against domestic strife and hostile invasion and to guarantee those people the peaceable enjoyment of their country, he recommends that troops be sent to protect all classes.

Commissioner Browning, in a letter accompanying the secretary's, suggests that a troop of cavalry be sent into the Indian territory to assist Agent Wisdom at Muskogee in preserving the peace. It is expected that the troops will then be used to hunt down and drive out the marauders who are harassing the people.

Agent Wisdom yesterday wired the Indian office asking authority to incur the necessary traveling expenses of the Indian police in assisting United States marshals who were hunting down thieves and making arrests. Such authority was granted.

Matter Referred to General Schofield.

These communications reached Acting Secretary Doe at the war department yesterday afternoon, and after reading them carefully he referred them to General Schofield, commanding the army. General Schofield looked into the matter and then returned the papers to the acting secretary, with a suggestion that the request for the aid of troops be maturely considered, with a view to ascertaining the legality of the proposed action.

This endorsement from so high an authority upon the complex questions between military and civil branches of the government will undoubtedly cause the war department to move with great caution in acting upon this request for troops, and in the end may result in a refusal.

The Indian territory differs from other territories from an administrative point of view in the fact that the national government is bound by treaties with the Indians to protect them from domestic violence. But in the absence of express stipulation and law it has been held that the protection must be extended exactly as it is to the inhabitants of other territories, namely, through the judiciary provided by law.

Will Move With Deliberation.

So far as the department is advised, the judiciary of the Indian territory has not appealed for the assistance of troops, and as in the case of the disturbances of last summer, the government will not move until such application is made and after the judicial officers have shown a proper disposition to restore order in the Indian territory.

The war department, it is stated, has taken notice of the efforts of the express companies to secure governmental protection for their service, and the officers are by no means well disposed toward the project. Army officers in charge of affairs feel that the express companies have not gone as far as they should in the direction of guarding the property confided to them, and they hold that by placing one or two determined and fearless guards in the express cars they could soon check the attacks of train robbers, which endanger the lives of passengers.

A New Fraternal Order.

BALTIMORE, Oct. 24.—There was incorporated here yesterday a new national patriotic order named American Knights of Protection, founded upon what is contended to be broad principles of protection to American interests and the families of its members. The order is declared to be patriotic, non-secret, non-sectarian and beneficial. It will provide for death benefits to the families of its members.

A Vigilant Fish Warden.

PORTLAND, Me., Oct. 24.—Fish Warden Barbour yesterday confiscated several thousand short lobsters and set them at liberty. Lobster men claim that many of the lobsters confiscated are beyond the regular lengths. The fish warden says that these lobster men are killing off the lobsters along the coast, and that the fish is fast disappearing.

Visited the Benedicts.

GREENWICH, Conn., Oct. 24.—The Cleveland party, including the president and family, Mrs. Perrine and Miss Rose Cleveland, were met at the station here yesterday afternoon by E. C. Benedict, and were driven to his country seat. The party left early today for New York.

Editorial Comment.

THE LEDGER labored with the city government in the spring to reduce the taxes this year. It pointed out, when the appropriations were submitted, that they were in excess of last year, and that the maturing debt would be much larger. It pointed out, also, several ways to relieve the taxpayers, but the executive was indifferent and his political opponents did not care to help him out of a hole, and matters took their own course. We now see the result, —the highest tax rate in Quincy with a history of over a century. In an editorial on taxes, the current issue of the Monitor says:

"It seems a pity that Mayor Hodges did not earlier in the year use some of that business shrewdness with which he was accredited last December and so arrange the finances of the city for the year, that the poor people would have been relieved of this extra burden. The great business depression that has been upon our industries for some months, and will remain with us for some time to come was obvious to any observer as early as last March, and had the Mayor when he was making out his appropriation bill and arranging the finances of the city for the fiscal year, only exercised a little more care and foresight, this extra expense might have been saved, and the money that the wage earner will now be obliged to pay into the City Treasury could have been employed in providing the family with comfortable clothing and other necessaries for the winter months."

DID YOU notice the number of DAILY LEDGERS read on the outward trains last evening? Those who have business in Boston may, by reading the LEDGER upon their way home, become better posted on the doings of the day in Quincy than those at home all day who do not read the paper. Buy the Boston dailies if you wish, but include the LEDGER, too. It is for sale at the Old Colony news stand, and by newsboys on the trains.

Briggs—Morton.

Miss Jennie Andrews Morton, the eldest daughter of Capt. Josiah Morton of Plymouth, was married on Monday of last week to Mr. William Penn Briggs of New Bedford. The bride was a winsome picture of loveliness in her gown of white corded silk trimmed with rich lace.

The Old Colony Memorial says: "After the ceremony there was a merry time, and the most sincere good wishes were tendered by all. The fair bride is one of the best known of our beautiful Pilgrim maidens, having been an employe of the Western Union Telegraph company at this station, Quincy, Bethlehem, N. H., and other places, winning many warm friends in all locations, so it was little wonder that on her wedding day there was hardly place in her father's house to bestow the valuable tokens of esteem and love which were sent to her, or given by home associates.

Surveying at Wollaston.

A detachment from the United States Coast and Geodetic Survey has been surveying at Wollaston this week. This work is being done in conjunction with the trigonometrical survey of Boston Harbor. Base lines have been run from the flag staff on Third Hill, which the survey has recently erected.

The hydrography of the bay and harbor in the charts now in use is from a resurvey made in the years 1861-64 by A. Boschhe, C. E., under the direction of the U. S. Harbor Commission, consisting of Brig. Gen. J. G. Totten, U. S. A., A. D. Bache, Supt. of the Coast Survey and Rear Admiral C. H. Davis, U. S. N. That of the approaches to the harbor was from the survey of Lieut. Comd. C. H. Davis, U. S. N., in 1846-48 and Lieut. Comd. H. S. Stellwagen, U. S. N. in 1854 55.

Harvest Supper.

The beautiful new Methodist church at Atlantic was thronged with people Tuesday evening, the occasion being the harvest supper by the society, which was also the first social gathering held in the new edifice.

During the first part of the evening a harvest supper was served, which all pronounced as excellent. This was followed by a brief entertainment consisting of chorus singing, violin solos by Miss Olive Green, and piano solos by Miss Burr. A reader was to have been present, but unfortunately the committee were disappointed.

BLACK TRAMP CAT.

He Attempts to Steal a Ride to Boston on a Car Truck.

Soon after the 9.46 train from Campello to Boston on the New York, New Haven & Hartford railroad had left that station yesterday morning the engineer found a handsome black cat quietly resting on the tender of the locomotive.

When the train arrived at Braintree, the animal was placed in charge of one of the employes of the station.

It is evident that the feline did not appreciate the companionship of the person with whom it was placed. He had started for Boston and he didn't propose to be interfered with.

The train had gone but short distance when the conductor discovered that the cat had indeed come back. There he was perched on the rear trucks of one of the cars.

When the train had reached Quincy his catship was removed from his quarters, and the train proceeded to Boston leaving its feline passenger behind.

McETTRICK RALLY.

A Large Enthusiastic Audience Crowds Hancock Hall.

Hancock hall was filled to the very doors Tuesday evening on the occasion of the McEttrick rally. At 8 o'clock not a seat was left and all the available standing room was occupied.

Simon Little presided, and on the platform besides the speakers were ex-Councilman Little and W. J. Sullivan.

Candidate McEttrick was the first speaker and he received an ovation. He scored McNary, saying that he used his office and money to down him. He (McNary) turned a Democratic board of Aldermen to a Republican board. He built his political structure so that he alone should receive the nomination.

The speaker then gave his attention to Mr. Fitzgerald saying that it was impossible for anyone to get the nomination unless he was in the ring. He (McEttrick) was informed that under no consideration would he get the nomination and he therefore had no alternative but to run independent.

The speaker said his political life had been conducted on fair, square and honorable means. He then gave the records of Messrs. Atwood and McNary and also what he himself had done to benefit the laboring man. His friend the water commissioner may have voted for labor bills, but it was one thing to vote for them and another thing to fight for them, and he challenged McNary to produce one, without exception, labor bill for which he had spoken during his service in the Legislature.

A. A. Carlton, a well known labor leader and organizer followed, denoting his remarks entirely to that question and the betterment of the laboring classes.

Joseph J. Kelley the next speaker, referred to the labor record of the several candidates and said somebody got hit with a political brick two years ago and they have forgotten that brick is laying around now.

J. B. Moran was the last speaker and he opened his remarks by inviting Mr. John E. Fitzgerald, if he was present, to come upon the platform and face him. Mr. Fitzgerald was evidently not present as he did not appear. The speaker then produced a stenographic report of Mr. Fitzgerald's speech at Quincy last Saturday. He read extracts from this speech and told wherein the statements were false, and challenged Mr. Fitzgerald to prove his statements. Mr. Moran spoke nearly an hour and was frequently interrupted with applause.

LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no excuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

A TRUNK that won't wear out is an everlasting comfort to the traveler. You'll find them at our store from $1.00 up. Henry L. Kincaide & Co.

American Missionary Association Is Doing Much Good Work.

LOWELL, Mass., Oct. 24.—The 48th annual meeting of the American Missionary association opened in this city, yesterday afternoon, with more than 400 delegates present. President Merrill E. Gates occupied the chair, and after the opening exercises, Rev. H. A. Hayden, D.D., of Boston was elected permanent secretary, with Rev. W. E. Barton as his secretary, and the following business committee was appointed: Rev. George F. Kenzott and Thomas Weston of Massachusetts, Rev. R. N. Wallace of Rhode Island, Rev. W. D. Hibbard of Maine and Rev. Edward Hawes, D.D., of Vermont.

Organization being perfected, the delegates were welcomed by Mayor Pickman. President Gates responded for the association.

The report of the treasurer, summarized, is as follows: Expenditures—In the south, $243,284.03; among the Indians, $45,546.69; among the Chinese, $13,900.75; for foreign missions, $4828.80. Total, $304,810.27. For publications, $9785.34; for the various agencies, $18,066.80; for administration, $24,296.62; for annual meeting, $942.64; for wills and estates, $1199.45; for interest, $3674.94; for amount sent to the treasurer by mistake, $27.10. Total, $361,802.66. Debt balance Sept. 30, 1893, $45,028.11. Grand total, $406,880.77.

Receipts — From churches, Sabbath schools, missionary societies and individuals, $185,259.26; from estates, $95,867.10; from income funds, $10,999.33; from tuition, $41,851.11; from the Slater fund $7500. Total, $340,469.80. Debt balance Sept. 30, 1893, $45,028.11. Debt balance on the year 1893-1894, $21,332.86. Grand total $406,880.77.

Rev. Nehemiah Boynton of Boston delivered the first part of the general survey. He reported that there were 42 common and 86 normal schools in the rural districts, one of the latter being in the black belt. There were 27 universities The Fiske college had 450 pupils. The University of New Orleans celebrated the 25th year of its existence this year. These schools and colleges are all positively Christian.

In the mountain schools there are 2000 pupils, 500 more than last year. In Alaska the murder of the missionaries there last year was a setback, but the murderer has been put to death and the prospects are brighter. During the past year the church collected a total of $340,469, and the debt is $21,332.86, which, together with the old debt, makes the total indebtedness of the association $66,369.79.

The afternoon session closed by a quartet given by negroes from South Carolina.

In the evening the delegates and a large number of citizens attended services in the church. The sermon of the evening was delivered by Rev. C. H. Richards, D. D., of Philadelphia.

The religious exercises closed with a communion service. The meeting continues today and Thursday.

Will Exact Seven Millions.

NEW YORK, Oct. 24.—On the steamer from Kingston, Jam., came Dr. Wolfred Nelson of this city. Dr. Nelson said that England would exact from Nicaragua $7,000,000 indemnity as the outcome of the conduct of the latter country in the Mosquito territory. Nicaragua has entirely ignored the provisions of the treaty of Managua. It was further rumored that England would transport the Mosquitos into British Honduras.

Weavers Want a Conference.

FALL RIVER, Mass., Oct. 24.—The executive committee of the Weavers' association have instructed the secretary to write to the Manufacturers' association requesting a conference. Resolutions were adopted declaring that the manufacturers compromise with the Spinners' union was an utter disregard of the welfare of 95 per cent of the operatives in this city, who could not surrender their rights without a struggle.

ON THE QUARRY RAILROAD

Faculty of Woodward Institute and Others the Guest of Supt. Anderson.

On Thursday at the invitation of Supt. Anderson of the Quincy Quarry Co., the faculty of the Woodward Institute together with their friends, enjoyed a trip over the new Quarry railway.

A special train of two cars left Boston at 1.40 P. M., making stops at Wollaston, Quincy and Braintree, where the guests, numbering about thirty were taken aboard. The train then ran to West Quincy and thence upon the Quarry railway to Nelson's quarry, the end of the Lyons branch. The quarries of the Scandinavian Granite Co., and of the Prout Bros. Granite Co. were then visited. At this point fine views were obtained of the new Blue Hills reservation and of Boston harbor.

The train returned to the junction switch and ran to the lower spur at Clarke's, when the party climbed the hill to enjoy the view just above the Lyon's quarry, whose new turning plant was also visited. Again boarding the cars, the train was run back to the Knox or Bunker Hill spur, and from the hill above the old quarry a fine view was enjoyed of the Bunker Hill quarry and the surrounding country. Elcock's quarry was then visited, and a beautiful view was obtained of Quincy and the harbor.

At about 5.15 the return trip was made to West Quincy, and thence running through the Y at Braintree, the party reached Quincy about 5.45 P. M.

Adams Suit Discontinued.

The suit that was recently brought in the name of the late John Quincy Adams against Messrs. Russell Sage and George J. Gould, to account for $11,000,000 securities in connection with the trusteeship of the Kansas Pacific consolidated mortgage, but was later discontinued, has been renewed in the name of the Soldiers' Orphan Home of St. Louis. The summons and complaint were filed Tuesday by Attorney L. J. Morrison in the Supreme Court of New York. The plaintiff asks the trustees be required to account for the proceeds of the trust stock, and that they be removed from the trusteeship.

REBUTTAL TESTIMONY.

The Case of the Quincy Quarry Company Vs. the Commonwealth.

The commonwealth on Tuesday closed its evidence as to the value at which Hon. Moses Williams, Morris Gray and Samuel B. Capen, as auditors, ought to estimate the damages recoverable by the Quincy Quarry Company for the taking of 108 acres of land in West Quincy by the Metropolitan Park commissioners. The quarry company's experts variously estimated the value of the taking at from $66,000 to $116,000, which is far above the value set upon it by the state's experts. They severally estimate it at sums ranging from $3500 to about $10,000.

This morning the hearing will be resumed in the new court house, when the petitioner will put in some rebutting testimony, and on Friday counsel will argue the case.

Hon. E. C. Bumpus appears for the petitioner; Hon. W. S. B. Hopkins and Balch & Rackeman for the commonwealth.—Herald.

Granite manufacturers whose works are near the main line of the N. Y. N. H. & H. R. R. at South Quincy, have a great advantage over those firms that are situated further off, for many of those located near the railroad have a spurr track running into their yards. For instance take the yards of Swingle & Falconer they have a spur track and cars are run into their yards directly beneath the derrick, so that they can be loaded or unloaded with but little expense.

The water board of Boston awarded the contract Tuesday for the construction of the new Payson park reservoir to R. A. Malone, Lancaster, Penn. Malone's figures were: Plan A, $148,571; plan B, $146,941.

Boston Theatre.

To judge by the columns upon columns of eulogistic criticism bestowed by the Boston newspapers upon "In Old Kentucky" which was given its first Boston production at the Boston theatre last Monday night the engagement will be the most successful ever played at that theatre so famous for long runs. The great playhouse was packed to the doors by one of the largest and most enthusiastic audiences ever assembled within its walls and the plaudits with which the play as a whole and its many powerful situations were received fairly shook the house. The play itself paints a most graphic picture of life in the Blue Grass regions of Kentucky, depicts Kentucky life, its scenes and incidents as they exist today, and clothes it all with a scenic magnificence startling and entrancing in its picturesqueness of detail.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

FAVORS A DISTRICT,

But Not a Greater Boston by Annexation.

VIEWS OF CHARLES F. ADAMS.

He However Is Not a Resident of the District.

Charles Francis Adams of Lincoln was before the Metropolitan commissioners Tuesday, and expressed his views as follows:

"The problem appears to me to be most difficult, and no satisfactory result can be developed, except in a natural way, and as the result of experience. If it is proposed to break up the local town governments within the new metropolitan system, I will say at once that I cannot favor the idea. My convictions are all against the one municipality business.

"There has been a scheme submitted in the maturing of which the legislature took the initial step, appointing the board of health and metropolitan park commission as a joint body to treat it. I refer to what is known as the basin of the Charles.

"This joint board brought in a report which included a scheme for damming the river at its outlet near Craigie bridge in Boston and developing the water basin above that into a system of parks. This plan, if carried out, will require a great many years for its development and the expenditure of a vast amount of money. It can be developed and carried into effect only through the joint and harmonious action of the various communities which cover the region involved. It is very difficult if not impossible to see how this scheme can be brought about, except through some metropolitan organization. On the other hand it is obvious to every one who has been concerned in these inquiries that there is very considerable danger of going too fast."

In regard to the names of the services which in his opinion would be better administered under a metropolitan government than under the existing local control, he said: "There is drainage in the first place, and that includes all sanitary questions. One community cannot in this matter protect itself. Drainage and sanitary issues include much. Parks also involve both sanitary questions and questions of pleasure. As respects police, I think that we agreed that it was better to have a metropolitan system than a local system. I should also be distinctly of the opinion that water should be included. Education, I for one, would leave alone for the present.

"I see no occasion at present to go beyond Weymouth river in forming the metropolitan system. As at present advised I am disposed to think that it would be desirable to have all the towns on Boston bay within the metropolitan district. I would not go beyond Cohasset on the one side, and very possibly might stop at Winthrop on the other. I would include Dedham. It is on the Charles river and in the Charles basin, and should be included in the metropolitan district for sanitary reasons.

"How large a council would I suggest? I should myself form the council, or the legislative body, on the corporation principle. I should propose to have a body, say about 20 in number, and elect those composing it just as the directors of a railroad corporation are elected. I have no faith whatever in the systematical geograghical district system."

A FROST FOR A FROST.

Colonel Slupsky Puts a Gentleman on Ice to Take the Chill Off.

The Sabbath calm that usually reigns seven days in the week at the Hon. Jim Cronin's establishment at Twenty-first and Market was violently disturbed early in the week by Colonel Abe Slupsky, the school board reformer, who attempted to kill, murder and slay Mr. F. C. Howard by freezing him to death in Mr. Cronin's icebox. Colonel Slupsky dropped into the saloon with a couple of friends just as Mr. Howard, who seems to have been blowing himself, invited all hands to take something. When he saw the colonel ranging up to the bar, Mr. Howard looked at him severely and said, "Nay, nay, Pauline; it's off!"

"What's off?" queried Slupsky, who had not been aware of Howard's generous intentions.

"Your graft. We are not playing ringers on this track. You're ruled off the course. In other words, such drinks as you pays for you gets; not otherwise. See?"

"I was paralyzed," Abe confided to a friend. "I'd never laid eyes on the fellow in my life before, nor he on me, but I couldn't stand a play of that sort, you know. Great Scott! If I had all the drinks that are coming to me! Well, anyhow, I put a quarter in the darky's hand and whispered him to open that long, low icebox Jim has over against the wall and leave it open, and then I walked up to Mr. Howard and said:

"'I don't know who you are, sir, but you mustn't leave me out of a general treat this way. It hurts my feelings.'

"He said he'd see me gormed first, and with that I caught him, and before he could even begin to cuss any I had him in that icebox, with the cover down. Well, sir, I thought I'd die. He was the most surprised man I ever saw in my life. I guess that icebox was about the last place on this earth he thought he was heading for when he began his play.

"Well, I went to the door and stood there, although at first I intended to keep him there until he agreed to treat me. While they were getting him out and peeling the things off him somebody asked him what he wanted to insult Congressman Frank that way for.

"'Great Scott! Was that Congressman Frank?' he says. 'Let me see him,' and he came to me, with his hand out, saying: 'Congressman, you must forgive me. I had never seen you before, and I'm sorry that I insulted you.'

"I stood on my congressional dignity awhile and asked what my constituents would think of it if they heard I was grafting for a drink, but finally I forgave him, and we all went in and had something. I invited him to come down and see me at my office in the Turner building, and when he calls I guess Nat Frank and he will have a nice time getting themselves straightened out.

The Gracious Czar.

The czar has just issued his approval of the institution of dueling in the army. The commander in chief at Kiev, in issuing the new dueling code, says: "The czar has conferred upon us a new mark of his imperial grace in granting us the right to defend with arms in our hands that which is most precious to all of us—our honor. This gracious act on the part of his majesty makes it our duty, still more than heretofore, so to regulate our conduct and manners alike in official and social intercourse as to obviate all inimical misunderstandings and frivolous quarrels."—Moscow Letter.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

My Creed.

You ask me to what church I pin my faith.
To none, and yet I love God's temple, and
My life is shaped and molded to a creed
So simple that a child may understand.

I love the living Source of all that's fair
And beautiful on earth and sky and sea.
I love my fellow beings, and I try
To do as I would have them do by me.

I am not orthodox in all my views.
I cannot shout his praises to the skies,
Yet I am sure we are his children all,
And that he shapes our lives with purpose wise.

I think if we reach out a helping hand
To those who faint and falter by the way—
If by our sympathy and kindly aid
Some sorrowing heart finds happiness each day.

And if we ever carry in our hands
The mantle of sweet charity and grace
To shield the weak and erring ones of earth
And lift them up to a securer place,

Then I believe if our incautious feet
Should wander out where thorns and thistles grow,
He still would follow us with boundless love
And lead us where the living waters flow.

For I am sure he planted in our hearts
The impulse that moves us day by day,
And all our weakness he can understand.
He will not let us drift too far away.

And I believe, if by this simple creed
That any little child may understand
Our lives are molded, we at last shall find
Beyond the sapphire sea a happier land.

FIXING THEIR FENCES

Eyes of Politicians Now Centered on Doings In the Empire State.

HILL ACTING AS PEACEMAKER.

An Effort to Straighten Out the Congressional Tangle.

NEW YORK, Oct. 24.—Yesterday was a day of conferences among the Democratic leaders, with a view of straightening out the tangles resulting from the nomination of factional Democratic congressional candidates in this city and Brooklyn. Senator Hill addressed himself to this task early in the morning, and had the energetic aid of Senator Faulkner, who came over from Washington. The latter was the active mediator in the negotiations.

Private conferences were held with Senator Faulkner by Mayor Gilroy and Police Commissioner Martin, representing Tammany, and ex-Mayor Grace and Francis Scott, who ran for mayor against Grant in 1890 on the reform ticket, representing the county Democracy.

All, it was stated, were agreed upon a policy of concession. Terms of compromise, it is announced, are practically decided upon, by which the knots will be cut and the Democrats united on single congressional candidates in each district.

Harmonizing Party Strife.

All the details have not yet been arranged. It is known, however, that Tammany has agreed to withdraw its candidates in two districts, and the county Democracy in the others. The indications at headquarters point to the withdrawal by Tammany of General Daniel Sickles in the Tenth and J. J. Walsh in the Eighth. DeWitt Warner, Robert Grier Monroe and ex-Congressman Dunphy are mentioned as possible Grace candidates.

General Sickles was at headquarters, and it was stated that he was willing to make any personal sacrifice to aid Senator Hill's candidacy for governor. The opinion was expressed that Walsh would be more difficult to deal with. To accomplish the purpose aimed at, it was proposed to transfer Amos Cummings from the Thirteenth to the Eighth district, but it is learned that Cummings had protested, and his protest was backed up by a delegation of trades assembly people. He will be allowed to remain where he is.

The Democratic managers have been at work on the Brooklyn congressional situation and express themselves as elated over the prospect of unity. Senator Hill was besieged with callers all day.

The President May Speak For Hill.

President Cleveland's departure from Buzzard's Bay on his way to Washington was an event of importance, and gave rise to many rumors, among them being one to the effect that he had agreed that in the event of united action on the congressional candidates to make a speech in Senator Hill's favor before returning to Washington. Both Chairman Thatcher and Mayor Hinckley treated the report lightly, but Thatcher still firmly maintained that the president would be heard from in the proper time.

The "committee of 70" had a ratification meeting at Cooper Union, at which Carl Schurz, Seth Low, ex-Secretary Fairchild, Dr. Parkhurst and other eminent reformers spoke in favor of the election of Strong for mayor and against Tammany and its methods.

Vice President Stevenson will be here tomorrow and will make three speeches, and Secretary Carlisle has also agreed to make at least one speech during the closing week of the campaign.

Important Democratic Discovery.

Late yesterday afternoon the Democratic headquarters were agitated over an alleged sensation. "We have made a big discovery," said Chairman Thatcher. "There is a defect in the new constitution, upon the adoption of which the voters will be required to pass judgment Nov. 6, which will create a legislative hiatus if adopted. The discovery was made by Henry T. Utley, a lawyer, of Waterville, N. Y.

The feature of the discovery is that if the constitution is adopted there will be no legislature in 1895, and the candidates elected this year will not meet at Albany next winter. The new constitution, after making the new appointment, provides for the election of senators and assemblymen under it in November, 1895, and then provides that the constitution, if approved, shall go into effect Jan. 1, 1896.

Republicans' Determined Work.

At Republican headquarters there is the usual activity. There was a long list of callers. They all made encouraging reports. The Republican managers announce that they will continue to push their canvass vigorously, with no bitter factional fights within their own ranks to distract their attention.

On Friday, Governor McKinley, whom it is proposed to take through the state on a special train, will open at Buffalo, and will make about 12 speeches in two days. Next week Chauncey M. Depew will give two days on a special train to speaking.

Two Immense Ratification Meetings

were held here last night. At Tammany hall the tigers met to ratify the state ticket of the regular Democracy and the Tammany municipal ticket, while the committee of 70 and all the anti-Tammany organizations of the city packed Cooper Union to excess for the ratification of the municipal ticket, which is expected by them to down Tammany at the polls.

At Cooper Union a very large number of women who are busily engaged in hunting the tiger were strongly in evidence. A few Tammany men put in an appearance and endeavored to create a disturbance, but failed in the attempt.

The speakers were not much inconvenienced, and the proceedings were marked by intense enthusiasm from start to finish. The ratification of the ticket was passed by acclamation.

Tammany's Demonstration.

Tammany hall was crowded at its meeting, and thousands of braves listened to speakers in overflow meetings on Fourteenth street. The iniquities of the A. P. A. were descanted on by many of the speakers.

The resolutions denounced the constitutional apportionment, approved the nomination of Hill, Lockwood, Brown, Grant and the other candidates on the Tammany municipal ticket; condemned the nomination of Colonel Strong for mayor as a trick to Republicanize the city government, and appealed to all Democrats who looked for the supremacy of the party in state and municipal affairs to support the municipal ticket. The resolutions were adopted.

At the meeting of the committee of 70, Joseph Larocque presided. He administered a scathing rebuke to Tammany and mercilessly scored the city regime. Seth Low, Mr. Von Briesen, Hon. Charles Fairchild and others made vigorous speeches against Tammany.

Ex-Mayor William R. Grace was greeted with wild applause. "This is not a question of Democracy or Republicanism," said he, "but it is the serious business of seeking to regenerate the government of New York city and to redeem it from the grasp of the tricksters, blackmailers and political harlots who now control its destinies."

SUPERSTITION NOT DEAD.

Certain Russians Do Not Regard the Czarewitch as Heir to the Throne.

LONDON, Oct. 24.—Little further respecting the czar has transpired. The police now distribute the official bulletins publicly. According to advices received by physicians here from their conferrees at Livadia the sickness of the czar is taking its usual course toward a fatal issue. His majesty was better Sunday and Monday, and worse yesterday, while it is expected that the loss of his strength will carry him to eternity.

A bulletin, dated Livadia and timed 7 p. m., was made public last evening. It said: "During the course of the day the czar was languid. There were slight convulsive symptoms. His appetite was better than yesterday."

A dispatch from Berlin says: The St. Petersburg correspondent of The Vossische Zeitung predicts trouble over the accession to the throne. He says: "The superstition following the death of Nicholas I that no other Nicholas would be enthroned survives. Fear of a renewal of the condicion of affairs under Nicholas I is deeply rooted.

"The feeling prevailing among the lower masses proves that they do not regard the czarewitch as heir by the grace of God. Moreover, their views on autocracy have greatly changed."

Locomotives Wrecked.

BOSTON, Oct. 24. — Two locomotives were wrecked and two or three hundred passengers violently shaken up by a collision of passenger trains on the New York, New Haven and Hartford railroad here last night. No one was seriously injured. An inward Dedham train left the line at a misplaced switch. The trains were moving at a comparatively slow rate of speed, but there was no time to reverse either engine. The loss to the railroad will be $10,000.

Testing Torpedoes.

NEWPORT, R. I., Oct. 24.—The first Howell torpedo ever fired from a cruiser left the bow tube of the Detroit last evening. After running 900 yards it came to the surface. A Whitehead was fired from one of the deck guns. This also worked satisfactorily. The Cincinnati's complement consists of six Whiteheads and two Howells.

A Token of Esteem.

NEW YORK, Oct. 24. — Alexander S. Webb, president of the College of the City of New York, was yesterday presented with a heavy silver loving cup by the professors of his college, in commemoration of the 25th anniversary of his presidency of the college.

Unconscious a Year.

BROOKLYN, Oct. 24.—James B. Macomb, aged 71, died here yesterday. He was a well-known merchant of Boston until about three years ago. For the past 15 months he suffered from brain trouble, and for the past year he was unconscious.

Thrown From a Carriage.

ROCKLAND, Me., Oct. 24. — Jackson Weeks and wife were out riding when the horse became unmanageable and finally threw Weeks and his wife from the carriage. Both are well along in years, and chances of their recovery are doubtful.

Searles' Ride Ended.

NEW YORK, Oct. 24.—R. P. Searles rode up to the city hall here yesterday at 12:10 noon. The journey from Chicago was made in 6 days 7 hours and 30 minutes. He was 16 hours and 30 minutes behind his scheduled time.

We Don't Want Them.

LONDON, Oct. 24.—Numbers of English and foreign anarchists are vacating their haunts in London and proceeding singly to America, because of the incessant harassing they have been subjected to by the police.

Burned For Three Weeks.

PROVINCETOWN, Mass., Oct. 24. — The schooner William Butman, which has been on fire for three weeks, is badly burned. The fire is now out, and the vessel will return to Thomaston, Me., for repairs.

Caprivi's Invitation.

BERLIN, Oct. 24.—The Cologne-Gazette states that Chancellor von Caprivi has invited the leading ministers of the German states to a conference in Berlin, in order to discuss the proposed anti-socialist measures.

Both In Good Health.

BERLIN, Oct. 24.—There is no foundation for the alarming reports regarding the health of Prince and Princess Bismarck. Both the ex-chancellor and his wife are enjoying satisfactory health.

Northern and eastern beef cattle—Receipts were large, the quality is good, and home slaughterers purchased quickly. All good cattle were sold at prices which show no change from those quoted one week ago, with the exception of a few fancy lots.

Milch cows and springers—The supply was large and the demand was fairly active.

Veal calves—The supply was fair, the demand active, and good choice veals were 1@c higher than they were quoted last week. The general run of veal calves, however, show no change from the quotations of a week ago.

Sheep and lambs—The supply was larger than that of one week ago, and drovers found that buyers were determined that prices must go down.

Swine—Prices show no change from the quotations of one week ago, but the supply was rather light.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

"HERO OF ANTIETAM"

Unveiling of the Statue of General George B. McClellan.

AN ELABORATE MILITARY DISPLAY.

Thousands of Philadelphians Witnessed the Ceremonies.

PHILADELPHIA, Oct. 25.—In the presence of civic and military dignitaries from all parts of the country, and amid the crack of musketry and the strains of martial music, the equestrian statue of Major General George B. McClellan was unveiled on the north plaza of the city hall yesterday afternoon. The general's widow and their son and a host of distinguished persons were present.

THE M'CLELLAN STATUE.

The unveiling was witnessed by 20,000 persons, and at least 100,000 others reviewed the procession as it passed along Broad street. Rain, however, unfortunately marred the occasion, and the ceremonies were delayed an hour in the hopes of its clearing.

The parade was constituted of 11,000 United States marines and sailors, Pennsylvania and New Jersey state militiamen, Grand Army men and others. Passing the statue, it gave a marching salute to the reviewing officer, Major General Schofield, commander-in-chief of the United States army.

The ceremonies began at 1:35 o'clock, when Major Moses Veale introduced General Smith, the president of the McClellan Memorial association, who presided over the ceremonies. Rev. Dr. Henry C. Cook, pastor of the Presbyterian Tabernacle of this city, offered prayer, and then General Smith delivered a brief address

The Unveiling Ceremonies.

General Smith referred to the dead hero as the creator of the Army of the Potomac, which repulsed two formidable invasions and finally forced its great rival, the Army of Northern Virginia, to lay down its arms, giving to us a blessed peace with honor. Following General Smith, a poem, written for the occasion by Dr. S. W. Mitchell, was read.

With battery A of the Pennsylvania National Guard firing a salute of 17 guns, and amid the cheers from the thousands of throats, the statue was next unveiled to view. As the bronze figure was exposed the First Regiment band struck up a patriotic air, and, following, a choir of 80 voices from St. Mark's Protestant Episcopal church, and 70 other singers from the Macmercher and Orpheus music societies, sung a hymn, especially composed for the occasion. The principal feature was the oration of General William B. Franklin of Hartford, who commanded a division under McClellan during the rebellion, and who was considered by McClellan to be one of his ablest officers.

About the Statue.

The statue is the result of a movement started just after McClellan's death, in October, 1885. Success did not wholly crown these efforts at first, but in 1889 an appropriation of $5000 was secured from the Pennsylvania legislature. By continued hard work $13,000 additional was raised by popular subscription, William Astor of New York and William Frazier of Philadelphia each giving $1000.

The statue represents the once commander-in-chief of the Union army in full field uniform, astride of his horse and overlooking the battlefield of Antietam. It was jointly designed by Henry G. Ellicott and Paul M. Pelz of Washington, the former designing the statue proper, and the latter making the drawings for the pedestal.

The pedestal is of granite, and is one of the most elaborate in the country. It has a broad base, and is embellished with gracefully festooned wreaths of bronze. On either side are ornamental bronze panels, upon which are engraved suitable inscriptions recounting the virtues of the man in whose honor it is erected.

Matrimonial Bonds Severed.

LONDON, Oct, 25.—The Marchioness of Queensberry has obtained a decree nullifying her marriage. The marquis was married privately in November last to Miss Ethel Weedon.

Railroad Shops Destroyed.

WABASH, Ind., Oct. 25.—The extensive shops and roundhouses of the Michigan division of the Big Four were almost wiped out by fire. The loss is estimated at $100,000.

Crew Taken Off.

HALIFAX, Oct. 25.—Schooner Coronet, from here, Oct. 2, for Cuba, has been abandoned at sea, and the crew landed at Port Spain. Vessel and cargo insured.

MURDER AND SUICIDE

The Theory of the Police Concerning Cogghill and His Wife.

ATTLEBORO, Mass., Oct. 25.—Fred Bodwell, while cutting wood near Wrentham, yesterday afternoon, found the dead bodies of Mr. and Mrs. Clarence Cogghill of Attleboro. The bodies were lying in a roadway, about 50 feet apart, and there was a bullet wound behind the woman's left ear. There were indications of a struggle. No traces of a carriage or conveyance were discovered. An alarm was at once given, and the authorities took up the case. Their only theory is that the woman was shot by her husband, who then committed suicide.

Hotel Not Responsible.

PORTLAND, Me., Oct. 25.—The Waldo hotel fire case, which has been on trial in the supreme court for three days, went to the jury late yesterday afternoon. The defense was that the Waldo hotel manager exercised reasonable care in the protection of the structure from fire, and that the Taussig family had plenty of time to save their personal effects, as the other guests had done. The jury brought in a verdict for the defendants. The plaintiffs sued for about $4000 for personal property lost in the fire.

Gathered at Holyoke.

HOLYOKE, Mass., Oct. 25.—Eighty veterans of the First Massachusetts cavalry were present at the annual reunion in this city. These officers were elected for the coming year: President, H. D. Bartlett of New York; vice president, W. D. White of Holyoke; secretary and treasurer, E. A. Smith of Somerville; trustees, C. G. Davis, E. A. Smith and D. H. L. Veason. It was decided to hold the next annual reunion in Worcester.

At Our Navy Yards.

WASHINGTON, Oct. 25.—The annual report of Chief Constructor Hichborn calls for many improvements in the various navy yards, and shows a very large increase in the estimates for next year as compared with those of last. Much of this is due, however, to the fact that a number of vessels are near completion. The work on the vessels in course of construction have made fairly good progress.

Affairs at a Standstill.

FALL RIVER, Mass., Oct. 25.—No action was taken at the meeting of the Manufacturers' association yesterday on the shutdown. The communication of the secretary of the Weavers' association asking for a conference was discussed at length, and it was voted to appoint a committee to prepare resolutions on the letter and present them at a subsequent meeting.

Balmaceda's Adherents Pardoned.

VALPARAISO, Oct. 25.—The government has granted general amnesty to all persons accused of political offenses prior to Aug. 28, 1891. The effect is to pardon the adherents of ex-President Balmaceda up to the day he was forced to resign, and does not extend to those who resisted the new government of Chili formed after Balmaceda's abdication.

Waters Gets It.

NEWPORT, R. I., Oct. 25.—The wardens' count on the municipal election gives John P. Sanborn, the Republican candidate for mayor, a majority of 25, but the official count will without doubt elect John Waters (Dem.) by a small majority. Sanborn admits his defeat. The council is Republican.

Three Chiefs Surrendered.

MADRID, Oct. 25.—A dispatch from the Philippine islands says 1000 men of the force sent to subdue the Malays on the island of Mindanao are building fortifications on the left bank of the river Agut. Three of the most powerful of the chiefs against whom the force was sent have surrendered.

Renewed Business Activity.

WOONSOCKET, R. I., Oct. 25.—Notices were posted yesterday in the factories of the Millville and Alice Rubber works stating that work would be resumed next Monday. The Millville works have been closed since Sept. 12, and the other mill shutdown a few days later.

France and Russia.

PARIS, Oct. 25.—La Merite states positively that a secret agreement between France and Russia, signed at Cronstadt, gives details of the terms in accordance with which the nations are to act conjointly should certain contingencies arise.

Explained at Last.

BIDDEFORD, Me., Oct. 25.—Florence LeMay, an 8-year-old child, has been sick for two years with a mysterious ailment that baffled the physicians. The cause was a pin swallowed two years ago, and which has just been removed from her side.

China's Offer Spurned.

LONDON, Oct. 25.—It is stated that Japan has again rejected the mediation of a foreign power in her dispute with China, while the latter country has expressed her readiness to accept an armistice on any reasonable conditions.

Hayes-Platt Nuptials.

COLUMBUS, O., Oct. 25. — Rutherford Hayes, son of the ex-president, and Miss Lucy Platt of this city were married in Trinity Episcopal church by Rev. Dr. Jones. Mr. and Mrs. Hayes will reside here.

A Paying Business.

NEWARK, N. J., Oct. 25.—The American Type Founders' company's report shows that the running of the business during the past year cost $158,571.38, nevertheless the company made a profit of $184,004.23.

Off on a Two Years' Cruise.

NEW LONDON, Conn., Oct. 25.—William A. Slater's steam yacht Eleanor steamed out of this harbor yesterday on a two years' cruise around the world. The first stop will be at Marseilles. All told, there are 64 people on board, including Mr. and Mrs. Slater and two children.

Manufacturer Drowned Himself.

NEW YORK, Oct. 25.—Policemen pulled the body of L. S. Stern out of the Central park lake yesterday. Stern was a member of the large shirt manufacturing company of Stern & Co., which failed yesterday, with liabilities of $250,000.

Compelled to Put Back.

CHERBOURG, Oct. 25.—The French cruiser Gabes, which left here Tuesday for Madagascar, has returned, she having been in collision with an unknown steamer. The cruiser's bows are stove.

Public Hearing.

CITY OF QUINCY,
IN COUNCIL, Oct. 22, 1894.

WHEREAS, In the opinion of the City Council of the City of Quincy, public necessity and convenience require that the way therein called Walker street be laid out and extended to Newbury avenue through land of E. Larkin and land of Messrs. Clean, Churchill, Hinckleys, Crane and Hunt, all as shown on plan by H. T. Whitman, Surveyor, filed in the office of the City Clerk, it is therefore

ORDERED: That due notice be given to the said Larkin, Clean, Churchill, Hinckleys, Crane and Hunt, and also to Joshua E. Drew, J. A. Kendall, Mrs. J. W. Hill, Cephas Drew, William E. Murphy, William Ailback, Seth Burrell, George E. Alden, William F. Cummings, John W. Atkins, George H. Sherman, Frank E. Badger, Charles D. Lincoln, Edward Willett, Charles R. Safford, and all other real estate owners on Clive and Walker streets, and all other parties interested, by an officer competent to serve civil process, who shall make return of his doings in this Order by serving them respectively with copies of this Preamble and Order, that it is the intention of the City Council to extend said Walker street as above recited, under the provisions of law authorizing the assessment of betterments, namely—Chapter 51 of the Public Statutes, and for that purpose to take portions of the land of said Larkin, Clean, Churchill, Hinckleys, Crane and Hunt, and that MONDAY, the 5th day of November, 1894, at 8 o'clock P. M., and the City Council Chamber at the City Hall, in said Quincy, are the time and place appointed for making said extension and laying out and for hearing any of said owners upon the question of damages occasioned thereby, and that a copy of this Order be printed in the Quincy DAILY LEDGER, the Quincy PATRIOT and the Quincy Advertiser, at least seven (7) days before the date of said hearing.

Adopted Oct. 22, 1894.

CITY OF QUINCY.

Free Evening Schools.

EVENING Schools for instruction in English branches will be opened in the Adams School Building and in the Willard School Building, on **MONDAY,** October 29, 1894, at 7 P. M.

The schools will be in session on MONDAY, WEDNESDAY and FRIDAY evenings of each week. Regular attendance is demanded.

"Every person who regularly employs, or permits to be employed, a minor fourteen years of age, or over, who cannot read or write in the English language, providing such minor has been, since reaching the age of fourteen years, for one year continuously a resident of a city or town in this Commonwealth, wherein public evening schools are maintained, and is not a regular attendant of a day school, or has not attained an attendance of seventy per cent. or more of the yearly session of the Evening School, shall for every such offence, forfeit not less than fifty nor more than one hundred dollars for the use of the Evening Schools of such city or town."—PUBLIC STATUTES, Acts of 1889.

The Evening Drawing School will be opened MONDAY, Oct. 29, in the New High School Building, Hancock street, at 7 P. M.

The Free-hand Class will begin Monday; the Mechanical Class will begin Tuesday.

Applications for admission to the Drawing School must be made during the week before the school opens, at the office of the Superintendent of Schools, Faxon Block, at regular office hours. Office hours: Monday evening from 8 to 9 o'clock; Tuesday and Thursday afternoons from 5 to 6 o'clock; Friday noon from 12 to 1 o'clock.

Editorial Comment.

Boston has reached the point where she is obliged to confess her inability to educate all her children. Hundreds who have applied this autumn for admission to grammar and primary schools have been refused, because there was no accommodation for them. Several thousands of others are getting a little instruction in miserable quarters, not owned by the city, but for which the city pays high rent.—Herald.

Is this one of the reasons why Boston wants to enlarge its taxable acreage and increase the number of taxpayers? As a part of Boston, Norfolk Downs and "the Rail" might find that they would have to wait much longer for a school building than as part of Quincy. This city finds the school expenses large, but it will not acknowledge that it is unable to educate all its children. Further, Quincy schools are as good if not better than Boston, and in this particular the LEDGER agrees with C. F. Adams in his views on a Metropolitan district,—"Education, I for one, would leave alone for the present."

DEATH ABOARD SHIP.

Engineer of a Steam Yacht Passes Away Unattended.

The death of Charles H. Crooker, engineer on the steam yacht Marie which has been anchored in the waters of Quincy Point, late Wednesday afternoon, gave rise to grave rumors that foul play had been the cause of the man's death. When found he had a deep gash on the side of his head. It was afterward ascertained that the man had died from natural causes and that the cut had been received in falling. The circumstances of the case are as follows:

Wednesday afternoon about 3 30 o'clock, Harris Calkins, the deck hand, took a boat and went ashore on an errand, leaving Crooker in the engine room getting up steam. Calkins returned half an hour later and was surprised to see the engineer laying upon the floor dead.

Undertaker Hall was notified and the body was removed to his rooms where they were viewed by Medical Examiner Gilbert.

The deceased was about 50 years of age and is said to have belonged in Lynn. It is also believed that he has a family there and an effort will be made this morning to locate them.

This morning Medical Examiner Gilbert made an examination of the body and gave heart trouble as the cause of his death.

It has also been learned that he came from Bath, Me., last August and that his widow is at present in Lynn.

Past Grand Surprised.

There was a little surprise party Wednesday evening at the meeting of Manet lodge, I. O. O. F., M. U., and the person most surprised was Thomas F. Ferguson, who was presented during the evening with a very handsome Past Grand's regalia, the presentation speech being made by William H. Sampson, Jr.

Tom is usually ready for any emergency but this was too much for even him and he could only murmur his thanks.

Mr. Ferguson was one of the charter members of Manet lodge, and to his efforts much of the success of the order is due.

UNION SOCIABLE.

Another of those Good Will Receptions at Wollaston.

LIST OF THOSE IN ATTENDANCE

The Entertainment, Committees, Decorations, Etc., Etc.

A year ago the ninth of next month the first union sociable, or as its originator, the Rev. Edward A. Robinson, pastor of the Congregational society, termed it, "Good Will Reception," was held at Wollaston. The Wollaston Unitarian society seeing the good fruits of that gathering, threw open its doors Wednesday evening and held another "Good Will Reception," which was attended by between three and four hundred people, representing the Methodist, Baptist, Congregational and Episcopal societies. The affair was a brilliant success.

The reception was held in the auditorium of the church and light refreshments were served during the evening informally in the vestry. The auditorium was elaborately decorated with flowers and autumn foliage, as also was the vestry. The vestry was lighted with several piano lamps and rich Turkish rugs and Persian carpets covthe floor.

During the reception an organ concert was given by Miss Minnie Parker Prescott, organist of the Congregational church, and Mr. Charles A. Pinkham organist of the Baptist church.

The guests were received by the reception committee and introduced to Rev. and Mrs. James E. Bagley, Rev. Charles W. Wilder of the Methodist church, Rev. Preston Gurney of the Baptist church and Rev. and Mrs. Edward A. Robinson of the Congregational church.

The reception committee consisted of Rev. and Mrs. James Bagley, Mr. and Sylvester Brown, Mr. and Mrs. Charles T. Baker, Mr. and Mrs. Walter J. Wellington, Mr. and Mrs. W. E. Simmons, Dr. and Mrs. George B. Rice, Mr. and Mrs. Walter M. Hatch, Mr. Chandler W. Smith, Mr. and Mrs. E. H. Sprague, Mr. and Mrs. Frederick H. Bishop, Mrs. Charles R. Sherman, Mr. and Mrs. Frank A. Page, Mr. and Mrs. C. K. Crane, Mr. and Mrs. Charles S. Comins, Mr. and Mrs. I. W. Faunce, Mrs. S. E. Merrill, Mr. and Mrs. W. H. Logan, Mr. and Mrs. Thomas F. Mitchell, Mrs. Kingman, Hon. and Mrs. Henry O. Fairbanks, Mr. and Mrs. G. B. Totman, Mr. and Mrs. F. W. White, Miss Thayer, Miss Sherman, Mrs. Kingman, Mr. and Mrs. H. W. Lull, Mrs. George W. Bennett, Miss Foster, Miss Taylor, Miss Helen Foster, Miss Jameson, Miss Kingman, Miss Howard, Miss Noyes, Miss Ela, Mr. W. E. Simmons, Jr., Mr. Walter M. Baker, Mr. Wm. E. Howard, Mr. Elmer T. Noyes, Mr. Herman H. Wieting, Mr. Ernest Judkins, Mr. Mace, Mr. Nelson Smith and Mr. Arthur Sibley.

After the reception and lunch, short addresses were made by Rev. James E. Bagley, Rev. Charles W. Wilder, Rev. Preston Gurney and Rev. Edward A. Robinson. Mrs. Jeannette Noyes Rice and Mrs. F. A. Page rendered in excellent taste, duetts and solos.

Much of the credit of the success of this great undertaking is due to the committee on decorations which was composed of Mrs. Charles F. Baker and Mrs. C. K. Crane; the committee on refreshments, Mrs. George W. Bennett, Mrs. Walter J. Wellington and Mrs. George Weston; and the committee on music, Mrs. F. A. Page, Mrs. H. W. Lull and Mr. Chandler W. Smith.

Among those people who were present, besides those previously mentioned, were noticed:

Big Guns Were There.

BOSTON, Oct. 25.—The Republican club of Massachusetts held its fourth annual banquet and ratification rally in Music hall last evening, with 1500 members present and many guests. The banquet was served at 6 o'clock, and was followed by Republican speeches by the guests of the evening. Francis H. Appleton presided, and about him sat Governor Greenhalge, Lieutenant Governor Wolcott, Senator Higgins of Delaware, Harold M. Sewall of Maine and Senator Hawley of Connecticut. Much enthusiasm was displayed.

Played at War.

NEWPORT, R. I., Oct. 25.—A torpedo attack was made on the cruiser Cincinnati last night by the torpedo boat Cushing. After maneuvering the cruiser picked up the Cushing with her searchlight as she was coming for the cruiser at full speed. The Cushing's officers claim that they got within the limit line for the firing of a torpedo, but they did not make the fact known by the firing of a gun until the light was full upon her.

Workmen Own a Third.

HIAWATHA, Kan., Oct. 25.—The Pullman Co-operative company have applied for a charter. The capital stock is $75,000. The workmen take $25,000 of the stock and pay for it in work. Eighteen families and 32 men will be brought here at once from the Pullman works. The new works will not now manufacture cars, but will make furniture and anything there is a demand for.

An Old Sea Fighter.

NORFOLK, Oct. 25.—Captain Robert Pegram, formerly in the United States and Confederate navies, died here yesterday, aged 83 years. He was in the expedition to Japan in 1852, and in 1855 commanded the American forces which united with the English in operating against pirates in Chinese waters.

Close to World's Record.

ST. LOUIS, Oct. 25.—Albert S. Harding is the holder of the American century record, which, owing to his efforts yesterday, now stands at 46 4-5 or 23 minutes better than the best previous record. Competent judges say that Harding would have had but little trouble in doing better than 4:19, the world's record.

Ceiling Dropped.

PORTLAND, Me., Oct. 25.—The entire ceiling of the Free Street Baptist church fell in yesterday. A meeting was about to be held in the church.

Given Up For Lost.

ST. JOHN'S, N. F., Oct. 25.—Nothing has been heard of the steamer Falcon. All hope of her safety has been practically abandoned.

THE WEATHER INDICATIONS.

ALMANAC FOR THURSDAY, OCT. 25.

SUN RISES	6 09	MOON RISES	2 27 AM
SUN SETS	4 47	FULL SEA	8 15 AM
LENGTH OF DAY	10 38		8 45 PM

Forecast for Maine and New Hampshire: Generally fair; east winds; no change in temperature.

For Vermont: Fair; east winds.

For Massachusetts, Rhode Island and Connecticut: Rain, followed by clearing weather; east winds, increasing in force; slight changes in temperature.

The tropical cyclone is now central north of the Bahama islands, moving northward, and likely to trend to the northeastward. It constitutes a source of danger to all outgoing and coastwise vessels, as it will probably travel at least as far as the Newfoundland banks.

Young Men's Christian Association.

The members' reception this evening promises to be of more than usual interest. Miss Mabel C. Snow, of Hyde Park, has the reputation of being a very entertaining reader. Mr. A. D. Wilkinson of Lawrence is one of the prominent singers of that city. His selections tonight will include "I fear no foe," by Pinsuti; Light, by Medlinger; Jack Frost, by Helen Hood. Light refreshments will be served.

A membership ticket will admit member of the association and auxiliary with a friend.

THE PRESS WINS.

High School Club Debate Power of Pulpit and Press.

Miss Bassett took the chair at the meeting of the High School debating club on Wednesday. Miss Bemis, the secretary, read her report. The board of decision on the last debate then retired and Miss Vogler, the critic, gave her report. The entertainment followed:

Mr. Marnock, '96, was not ready and will consequently speak next time.

Recitation, "The Lost Chord," Miss Graney; an excellent selection.

Essay, "A ghost story," Miss Vogler, '95; full of thrilling adventures; a meritorious essay.

Mr. Winlock was not ready. He will speak next time.

Recitation, Miss Lowe, '95; a humorous selection.

Essay, Miss Mary Sampson, '95; a pleasing picture of "An Old Man and his Violin."

The board of decision reported in favor of the affirmative side of last week's debate, "Resolved that falsehood is never justifiable."

The debate followed: Resolved, That the Pulpit is more Influential than the Press.

The speakers in the affirmative were: Miss Pierce, '95; Miss Pope, '95; Miss Alice Sampson, '95; Miss Mary Sampson, '95; Miss Sullivan, '95; Miss Thomas, '95; Miss Vogler, '95.

In the negative: Miss White, '95; Miss Temple, '95; Mr. Barry, '95; Miss Allen, '96; Miss Beckworth, '96; Miss Briggs, '96.

When the debate was opened to the society, Miss Alice Sampson and Miss Catherine Pope spoke effectively. The debate was a brilliant and spirited one. The Board of Decision brought in a verdict for the negative.

F. Wesley Fuller has made application for a patent for improvements in machines for grinding and polishing spherical bodies. He has made a grand success of it in polishing granite balls.

The monument to General G. B. McClellan was unveiled at Philadelphia on Wednesday. It cost $18,000 and represents McClellan in full field uniform, astride of his horse and overlooking the field of Antietam. See telegraphic report on first page.

The Stone Cutters' Journal reports "that the city councils of Philadelphia decided to report an ordinance similar to the New York law; that efforts are being made to have the Rhode Island State house built of Rhode Island material and cut in that State; that Boston mechanics are endeavoring to get similar legislation for municipal work, and other cities and States are deeply imbued with the heretical doctrine."

A plan has been selected by the court house commissioners for the new court house at Woonsocket, R. I. The structure will be built of dark blue and light granite, with columns of dark polished granite. It will be three stories high with a front of 76 feet and 92 feet wide.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

WEYMOUTH.

Emerson L. Hunt of North Weymouth was ordained Wednesday as pastor of the Scotland Congregational church at Bridgewater. The church has not had a settled pastor for more than 40 years. The new minister is about thirty years of age. Rev. J. L. Wildes of Weymouth Heights delivered the charge to the people.

Administration was granted at Dedham on Wednesday on estate of G. W. Mitchell late of Weymouth, to J. A. Raymond.

MILTON.

A baptismal service will be held Sunday evening at 6 o'clock at the Blaney Memorial Baptist church, Lower Mills, at which time four persons will be baptised into the fellowship of the East Milton Baptist church.

The will of R. W. Sumner was allowed at Dedham on Wednesday; W. M. Priest was appointed executor. Administration was granted on estate of Mr. A. H. West of Milton.

TODAY'S COURT.

Ruben Silverman was arraigned for the larceny of clothing valued at $138 from Abraham Edelstein at Quincy and was held in $500 for the grand jury.

John F. Walsh of Quincy was fined $5 for drunkenness.

John C. Gilligan was arraigned for the illegal transportation of liquor into Weymouth and was held in $300 until next Thursday.

Rally at Atlantic.

A Democratic rally in the interest of Hon. William S. McNary was held Wednesday evening at Music hall, Atlantic, which was largely attended.

John A. Duggan presided and on the platform with him, including the speakers were: W. S. McNary, James F. Jennings, W. C. Cherrington, James E. Hayes, Boardman Hall, William J. Miller, D. J. Moynihan and others.

Mr. McNary was the principal speaker, and his remarks were practically the same as delivered at Quincy and West Quincy last Saturday.

The HONEST KIND

ACKOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health
IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines, ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

GOUT, RHEUMATISM,

rheumatic gout, or any gouty or rheumatic affection whatever, has its surest remedy in the Carlsbad Sprudel Salt. There's nothing so successful in clearing out the excess of uric acid in the blood. That has been proved in hundreds of years and in thousands of cases at Carlsbad.

So with any of the ailments brought on by sedentary habits—dyspepsia, indigestion, perverted nutrition, constipation, Carlsbad cures them, and cures them permanently.

But the best way is to prevent them. A little Carlsbad Sprudel Salt taken when you suspect any trouble, will keep your stomach and liver and bowels and kidneys in perfect order.

Take only the genuine imported Carlsbad Salt (solidified and bottled at the Sprudel Spring) with signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

THE LAST SACRAMENT

Reported to Have Been Administered to the Dying Czar.

PRINCESS ALIX IS OBDURATE.

Protests Against Fanatical Zeal of Orthodox Clergy.

LONDON, Oct. 25.—A dispatch was received from Livadia late last evening stating that the condition of the czar was so serious that the last sacrament of the Greek church was administered to him.

The czar is suffering from increasing lassitude and drowsiness, and it is almost impossible to keep him awake except when he is attacked by the nervous spasms, which almost amount to convulsions, and which add to his exhaustion. On the other hand, the sufferer has taken more food and is able to retain it.

A bulletin issued from Livadia at 8 o'clock last evening and signed by the five doctors in attendance upon the czar says: "During the day his majesty showed no signs of somnolence. His appetite and spirits are better. The œdema of the feet has somewhat increased."

A dispatch from St. Petersburg says that among the various reports in circulation, there is one to the effect that Professor Bergmann, the well-known German physician, has declined to go to Livadia to attend the czar and that a French physician has been summoned with a view to the possibility of an operation, if it be found that only one of his majesty's kidneys is affected.

The dispatch adds that detailed accounts are given of the will of the czar, but that nothing authentic can possibly be known beyond the official bulletins. Even the ministers and ambassadors receive no more information than is contained in the bulletins. It is true, however, that since the 18th all the state papers have been signed by the czarewitch by the czar's order.

The minister of finance has telegraphed to the president of the Odessa exchange, begging him to call the bankers and representatives of financial firms together and appeal to them for abstention, under the sad circumstances, from all speculation, especially the purchase of gold, and also to do their utmost to prevent the depreciation of the rouble and state of the funds.

The Czar's Treatment.

The Local Anzeiger of Berlin publishes a dispatch from Sebastopol containing the particulars of the czar's treatment. This treatment lies mostly with Professor Leyden, who enjoys the czar's greatest confidence.

The emperor suffers with a burning thirst, and takes buttermilk as his principal sustenance. This is served to him in the morning at 7 o'clock and again at 11, in the afternoon at 4 and in the evening at 9, when he is given a pint and a half. What he gets at 9 o'clock serves for his use during the night. Altogether the patient takes on the average three quarts of buttermilk daily. The czar greatly enjoys it, as it effectively quenches his thirst. He takes very little solid food.

On the other hand, broth, in which are milk mixed, the yolk of eggs, is much enjoyed by him. As with all persons dangerously ill, the czar's condition becomes worse in the evening. Special arrangements are made for the night.

A dispatch from Paris says that the French cure at Moscow, at the request of the French bishops, has suggested that the czar promise, in the event of his recovery, that he will make a pilgrimage to Lourdes. Father Ivan and other Greek priests also believe in the Lourdes miracles.

Doleful Rumors.

The St. Petersburg correspondent of The Daily News says that the official bulletins do not represent the gravity of the czar's condition. Temporary relief by tapping, he adds, means nothing. It is the general opinion that the czar is already dying. It is known that his unconscious periods last several hours.

Persistent rumors are in circulation of mournful sick-bed scenes and other touching incidents. Princess Alix, it is said, is still waging a desperate struggle against the fanatical zeal of the orthodox clergy, who insist upon her declaring that the Evangelist faith is accursed. The princess cannot be persuaded that the matter is a mere formality, and demands that she may be excused from pronouncing the words in question.

The correctness of these rumors cannot be vouched for, and the fact is only mentioned that they are in circulation and are receiving fresh nourishment from the absence of the news about the wedding. However, as news from Livadia generally takes considerable time in coming, news of the marriage may still be expected.

All telegrams from Livadia go first to St. Petersburg, where they are subjected to the scrutiny of the censors.

Sharp Eyes on Strangers.

All strangers arriving in Livadia are subjected to the strictest surveillance imaginable. No one is allowed to approach the castle. All arrangements for the regulation of the domestic business of the imperial household are made by the minister of the imperial house himself.

According to telegrams from Copenhagen, the czar expressed a wish to see once more King Christian and Queen Louise of Denmark, but the plan was dropped at the czarina's urgent request, as she feared the risks of such a long journey for her father and mother.

It is stated that Prince Waldemar, youngest son of the King and Queen of Denmark, and the czar's favorite brother-in-law, will go to Livadia.

A dispatch from St. Petersburg says it is rumored in that city that the physicians in attendance upon the czar in Livadia express the hope that the czar will live for two or three weeks, and that, therefore, the wedding of Princess Alix and the czarewitch has been postponed.

Schemers at Work.

A seditious proclamation or appeal to the people is circulating secretly through the post here. The origin of the proclamation is unknown, but it is evident that its authors have taken advantage of the exceptionable circumstances that now prevail. The document is dated Feb. 19, and is signed "The Party of Russian Rights." It demands that the rights that a despotic government has withdrawn be restored.

Nothing is said in the proclamation about the sickness of the czar, but the present moment is referred to as propitious for securing the liberty of the press and conscience. An election, etc., is demanded. No importance is attached to the appeal.

CHINESE AND INDIANS.

Progress Among These People Discussed by the Missionary Association.

LOWELL, Mass., Oct. 25.—After the opening exercises and a number of addresses at the second day's meeting of the American Missionary association encouraging reports were received. Rev. A. E. Dunning, D.D., made his report and address on "Chinese Missions," which in substance was as follows:

The missions on the Pacific coast now include 21 schools, most of them in California. Thirty-four teachers have taught 1201 Chinese pupils, of whom 197 have been led to cease worshipping idols and 173 have professed faith. These schools are scattered through the cities and towns from San Francisco southward 500 miles to San Diego, on the borders of Mexico.

This work is not likely to take on much larger proportions. The number of Chinese in this country is slowly but steadily decreasing, and is now probably less than 100,000.

Rev. Dwight M. Pratt of Portland, Me., then reported for the committee on Indian work. Churches here at home, he said, may well turn for inspiration to the Indian churches of Nebraska and the Dakotas, where, in some instances, 24, and even as many as 46, new converts have been added to individual churches during the year on confession of faith.

Many of our large city churches cannot claim such a large Sunday school as that at Fort Berthold, N. D., with its enrolment of 275 Indian children; or such proportionate benevolence as that of the Indian churches, which gave last year out of their poverty $300, $309 and $375, respectively.

Where, under similar conditions among our white populations, can we parallel the church at Fort Yates, that in four years has grown from a membership of 16 to 160, and at the May communion added 17 more converted Indians to its enrolment?

Christian benevolence ought never to have permitted such a school as that at Santee to decrease from 241 pupils to 94, thus practically turning out of doors, for lack of money, 147 bright Indian youths, who were covering the blessings of a Christian education.

Briggsville Strike Ended.

NORTH ADAMS, Mass., Oct. 25. — The Briggsville woolen mill strike was settled yesterday by a compromise. The strikers first demanded the restoration of the whole 18 per cent cut. The owners offered 8 per cent and 60 hours' pay for 58 hours. The strikers then demanded 10 and afterward 15 per cent and full pay. The matter was compromised on a 9 per cent raise and extra two hours' pay. The workmen went to work yesterday afternoon.

Accounts Were Mixed.

BROOKLYN, Oct. 25.—Robert Bower, 45 years old, a bookkeeper, was arraigned yesterday, charged with stealing $8200. The prisoner was employed as bookkeeper for the India Wharf Brewing company. Some days ago it was discovered that his accounts were not right. An examination was made, and it resulted in finding that the above sum was missing.

They Were Fooled.

BANGOR, Me., Oct. 25.—Nine native Bostonians, with cards from Kelley's Employment agency, Boston, are here, broken in purse and spirit. They are well connected and feel their position keenly. They say that Kelley's card does not get them the promised employment.

SPLIT OF DEMOCRATS

Insures Republican Success in New York, Says Harrison.

HE WILL SPEAK FOR MORTON.

Futile Efforts to Straighten the Democratic Tangle.

NEW YORK, Oct. 25.—President Cleveland and ex-President Harrison both arrived in this city yesterday. The former was accompanied by Mrs. Cleveland and E. C. Benedict, Mrs. and Miss Benedict. The party were driven to the house of Dr. Bryant, the president's physician. Ex-President Harrison went to the Fifth Avenue hotel, where a vast throng of Republican politicians were awaiting his arrival.

At Republican headquarters it was announced that there had been no developments to disturb conditions that have existed for several days past.

It is stated on the authority of a close friend of the Democratic chairman of the state campaign committee that all efforts to straighten out the congressional difficulties have proved futile, both in New York and Brooklyn.

When seen last night Mr. Harrison at first declined to speak of politics. "Anything else rather than that," said he.

Afterwards, however, he consented to speak on the political situation of Indiana, and later of New York politics. But he positively refused to express his opinion of the effect that the approaching election in New York state would have on the national campaign, if any.

"You must excuse me from answering that question," said he. "It would hardly be the thing, you know. Why, my opinion would be mere conjecture at best. Besides, I know but little about the situation in New York, anyway."

A little later, however, Mr. Harrison manifested his acquaintance with recent political developments in New York by asking if the Democrats had arrived at any agreement in the congressional matter, and if Tammany would withdraw General Sickles. He spoke freely about the prospects for the

Republican Success In Indiana.

"We are contesting each and every district in the state," said he, "with bright hopes of success. During my four days' tour of Indiana I saw more enthusiasm than I had ever witnessed before. We will carry the major portion of the congressional districts, in my opinion, and it would not be at all surprising if our delegation in congress is largely Republican.

"From what I read and hear, I think our party will regain its control in this state. This is due to a number of things. A desire for Republicanism first, of course, then come a number of situations that will add to the majority. Prominent among them is the disintegration of the Democratic party. They claim, of course, harmony on the state ticket, but it is doubtful whether they will find that when the ballots are counted.

"Yes, I think that Republicanism is written everywhere this year. It will be a great year. The commencement made in New England, that so surprised the people, is a mild forerunner, as it were."

In reply to a question asked if he would make any speeches in this state, he replied that he had made no arrangements to do so, but did not know what action he would take if asked.

At this point, Mr. Morton arrived, and the two adjourned to the dining room. On their return they were met by Chairman Hackett, and a formal request was made, with the result that Mr. Harrison will make at least one speech in New York. No date has as yet been set.

Burned to a Crisp.

ATHOL, Mass., Oct. 25.—Jeremiah Twoling, 67 years old, was burned to a crisp yesterday afternoon. When found by neighbors he was dying on the floor. The covers of the stove in the room were all removed, indicating that he had been tending to the fire which ignited his clothes. Others think he was lighting his pipe.

The Sophs Won.

CAMBRIDGE, Mass., Oct. 25.—The annual fall races of Harvard on Charles river resulted in a victory for the sophomores. The course was one mile. The race between the crew of '97 and the boys of '96 was very close, the former winning by only quarter of a length; '95 was not in the race at any time.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

ALL THE BIG GUNS

Have Been Drafted Into Service In the Empire State.

HARMONY NOT YET IN EVIDENCE

But Hill Appears to Be Confident That It Will Prevail.

NEW YORK, Oct. 26.—The campaign rooters of both parties are now under full swing, and the general political situation all over the state is indicative that a fierce fight will be fought on election day. The most prominent Republicans and Democrats alike have been drafted into service, and the headquarters of both forces were never so alive with bustling politicians as the past two days.

Ex-President Harrison declares that he is in the hands of his friends and that he will make a speech at their discretion, and the understanding is that Oct. 31 has been selected as the date.

Senator Hill spoke at Long Island City yesterday, and again at Cooper Union, in this city, in the evening. Governor McKinley held forth at Dunkirk and Buffalo; Chauncey M. Depew helped to lead the Republican forces on the Bowery, and J. Sloat Fassett did duty in Brooklyn. Minor meetings were held by the score, all of which contributed to the postponement of the customary conference on behalf of harmony.

Vice President Stevenson spoke at Tivoli hall last evening. "Everything throughout the country," he said, "was assuming a brighter aspect." He said the Democratic party never recognized any religious class or sect, which had been made an issue by the Republicans in the present campaign. "All eyes are now turned toward the Empire state," he continued, "and in this hour of peril let the lines be closed and stand by that matchless leader, David B. Hill, who at all times and under all circumstances, has said, 'I am a Democrat.'"

Hill Confident of Harmony.

But so far as harmony is concerned, Senator Hill is quoted as saying that before the time allotted for the substitution of nominees for some already named for congress had elapsed, the Grace and Tammany factions will swing into line if any substitution is necessary.

Senator Faulkner, who has been here in the interests of harmony in regard to congressmen, left the city yesterday. If his efforts have borne fruit, there is no one at political headquarters who will tell of it.

From the headquarters of the state Democracy yesterday came a statement explaining why the congressional snarl still remains unravelled. In the statement Tammany hall is made to bear the brunt for this failure.

At both headquarters there was the usual rounding up of official statements, with none that might materially affect the situation, either one way or the other.

A Whack at the South.

LONDON, Oct. 26.—The Times this morning published a two-column letter on the southern states, signed by Richard Edmonds of Baltimore. In an editorial commenting on the letter, The Times says it will be some time before the south generally, and Virginia in particular, recovers from the discredit due to the latter's bad faith toward her creditors, but that there is no doubt that European capital will slowly seek that part of the world whose physical features are so favorable.

A Surprising Decision.

KANSAS CITY, Oct. 26.—According to a decision by Assistant District Attorney Draffen, vote repeating at the November election can go on uninterrupted without the slightest danger of prosecution. Mr. Draffen says: "I have been unable to find anything in the statutes authorizing the United States to punish persons for fraudulent registration, except section 5513 of the revised statutes, known as the crimes act. I find that this section has been repealed."

Going Over His Books.

MONMOUTH, Me., Oct. 26.—All the people in Littlefield are anxiously awaiting the report of the bondsmen of Collector W. F. Adams of that town. Adams is said to be in Boston trying to raise funds to correct the alleged deficiency in his accounts. For the year 1892 there is alleged to be a deficiency of $548.53, for 1893 of $521.77, making in all $1070.30.

Gave Way Under the Strain.

CHICAGO, Oct. 26.—Mrs. Mary A. Woodbridge, world's secretary of the W. C. T. U., died last evening at her home here. Mrs. Woodbridge, who has been greatly pressed with work lately, gave way under the strain two days ago. The first symptom was a chill. It was seen at once that the case was hopeless, as congestion of the brain had thoroughly set in.

A Lad's Awful Error.

UTICA, N. Y., Oct. 26.—Stuart England, 16 years of age, and a companion about the same age, were playing around the safe in Goldstein's jewelry store last evening, when England, on a wager with his companion, touched the safe and fell dead. The safe had been charged with electricity as a precaution against burglars.

A Horrible Outrage.

ST. PETERSBURG, Oct. 26. — Several heathen peasants of the village of Staraia have been arrested on the charge of murdering, beheading and disembowelling a man whom they sacrificed to their gods.

A Difficult Task.

AUCKLAND, Oct. 26.—Either the prime minister or the colonial treasurer will visit Samoa in January in reference to New Zealand's proposal to assume control of the islands.

NO CONCESSIONS.

Ultimatum of Manufacturers as Issued to Fall River Strikers.

FALL RIVER, Mass., Oct. 26.—The Cotton Manufacturers' association of this city, after a long session, issued its ultimatum to the weavers last night. By a unanimous vote, it was resolved to make no concession whatever to the weavers, and to henceforth refuse giving their representatives an audience. This, in brief, means a continuation of the difficulty that has been in existence for weeks past.

Secretary Roundsville of the Manufacturers' association, in a letter to Secretary Whitehead of the weavers, claims that the present condition of the market calls for no higher wages than those received in the reduced schedule. He says further that the mills were opened to allow operators to make a living, with a promise to restore wages in 60 days if the markets allowed it, and concludes as follows:

"With these facts in view, any concession is out of the question. We believe the weavers have been made a fair proposition. The wages offered are as good as paid in any large manufacturing center of New England."

ROBBERS OR INDIANS?

Doubtful Elements In Agent Wisdom's Request For Federal Troops.

WASHINGTON, Oct. 26.—The officials of the war department are not of the opinion that the interior department has made out a proper case for the employment of troops as a posse comitatus in the Indian territory. Agent Wisdom's dispatches, on which the application for troops are based, state in one place that they are wanted to run down a band of robbers, and in another that the treaties require the Indians to be protected.

There is no question with the department officials that the employment of troops under the first point would be clearly illegal, and as to the second, there is no evidence that the Indians themselves have suffered or have appealed for protection. Nevertheless, to set at rest all doubts in the matter, Acting Secretary Doe has referred the application for troops to the attorney general for an opinion as to the legality of their employment in this case.

Run on the Spoils System.

WASHINGTON, Oct. 26.—Theodore Roosevelt, civil service commissioner, has submitted a report to the commission of his findings in the investigations he has made at Pittsburg of charges that federal officeholders have been guilty of coercing employes to make campaign contributions. Mr. Roosevelt says that the internal revenue office, being without the civil service law, is used as a cog in the machine of whichever party may be in power. Mr. Kearns, the collector, is described as Congressman Sibley's man, and it is declared that while he has not violated the law, the office has been run on the spoils system. Mr. Roosevelt recommends that internal revenue offices be put in the classified service.

To Be Investigated.

BOSTON, Oct. 26.—Charles D. Harrington died at the city hospital yesterday from injuries received by falling from the steps of his home, 34 Edinboro street. After Harrington fell, the people in the house, seeing that he was unconscious, carried him to his room, but although the emergency hospital was only a block away, medical aid was not summoned until 12 hours later, when he was ordered to the city hospital, where he died 10 minutes after being taken there. The matter will be investigated.

Receiver Asked For.

NEW YORK, Oct. 26.—Deputy Attorney General Hasbrouck moved in the supreme court yesterday that a temporary receiver be appointed for the Commercial Alliance Insurance company. He said that there was a deficit in the finances of the company, and that a circular which the company had sent out was a deception on the public and on policy holders. Decision was reserved.

Valuable Documents Recovered.

NEW YORK, Oct. 26.—L. C. Weir, president of the Adams Express company, has received a pouch containing a number of valuable documents. These papers were stolen from the company's safe in the Aquia Creek robbery on Oct. 12. The recovery of these documents reduces the loss of the Adams Express company by the robbery to less than $6000.

Children's Aid Society Sued.

BOSTON, Oct. 26.—Mrs. Lucy M. Green of Worcester has sent a petition to the state house asking that the charter of the Children's Aid society may be revoked. She alleges that two of her children have been taken away from her by misrepresentation on the part of representatives of the society. She has brought suit against the society for $10,000.

Dr. Helmbold Dead.

TRENTON, Oct 26.—Dr. Helmbold, of Extract of Buchu fame, died suddenly of apoplexy in the state asylum for the insane in this city. He was 57 years of age, and had been an inmate of the institution about three years.

Let Off With a Warning.

BATH, Me., Oct. 26.—The case of the state against Mrs. Love for assaulting a schoolteacher who had beaten her boy, was heard yesterday and the defendant was discharged with a warning.

Coal Barons' Decision.

NEW YORK, Oct. 26.—The eastern anthracite sales agents have decided to advance prices and put no limit on the production of coal.

Shawmut Spring Water.
F. J. FULLER, Proprietor.
WEST QUINCY, - - MASS.
This is an excellent water of remarkable purity.
H. L. BOWKER, State Assayer, Boston, Mass.
The water question is engaging the attention of residents in thickly settled districts, and an intelligent investigation shows a large proportion of disease directly traceable to drinking water.
Experiments have shown that microbes that form in decayed vegetation, stagnant water and sewerage, which are the principal cause of fevers, will filter through seventy-five feet of jacked sand and how much farther through sand or earth is not known. Nearly three-fourths of the human system is water. How important then that we should drink only pure soft water which absorbs and eliminates lime and other earthly salts from the body. There is no other sensible preventive or cure for the system that is choked and clogged with calcarious salts than a systematic use of pure water.
This Shawmut Spring Water comes from a fissure in the face of a hill of Granite. Its use in cooking, drinking and bathing will, we think, show marked improvement in health. Different from hard water, in bathing it gives a soft, velvety appearance to the skin and should be used exclusively in washing young children.
It is free from all surface contaminations.
Pure water is the best medicinal water; there are no typhoid fever germs in it. It assists nature and restores to healthy action the digestive organs, and is conducive to the health of children and all persons of delicate constitution.
The very low price of this excellent water is within reach of all; just enough to defray the expense of delivery. All communications sent the proprietor will be promptly attended to.

ACCORDING TO the investigation of School Committeeman Wetmore, Boston needs twenty new school buildings, besides several enlargements and sanitary improvements. Does Quincy want to help build these by voting for annexation!

POLISHED CHIPS.

An Elaborate Memorial of Quincy Stone in New Hampshire.

The dedication of the memorial stone, erected to the memory of the Revolutionary soldiers buried in old Fort cemetery, East Concord, N. H., will occur on Monday, Oct. 29, at 2 P. M. The stone of polished Quincy granite, furnished by the Granite railway company, of Quincy and Concord, and appropriately inscribed, weighs three tons, and is set in the cemetery wall, being probably the most elaborate and complete memorial of the kind in the State.—Globe.

Here are two opposing views of the New York law now interesting granite men requiring the granite work for State to be dressed in the State. "Stone" says:

The hope of prosperity in the stone trade lies in the successful effort to bring the price of stone down nearer to the level of the cost of the artificial substitutes; when it can compete on anywhere near equal terms with brick, terra cotta and concrete, more stone buildings will go up and fewer of the other kind. We want to see nature's best building material regain its popularity with builders which it had before burnt clay became a fad and the reign of shoddy was ushered in. The only way we see to regain this prestige for stone is to get the cost of it down to a competing basis.

In reply to the above the Granite Cutters' Journal says:

When the cost of granite can be got down to a competing basis with mud and clay, the editor of *Stone* will be in his grave, but the "reign of shoddy" will be over before granite can be brought "down to a competing basis" with it, for a granite building is a standing advertisment, "top of column, next to reading matter," in favor of its use as against baked clay or concrete. From all our enquiries we fail to find any granite cutter but says the New York law is a good one; and until practical granite cutters condemn the law meddling outsiders, who write in the interest of those who have made fortunes in manipulating legislation, and altering contracts, will have no influence in breeding dissension between the granite cutters of Maine and New York, as the aim of this editor appears to be.

Granite City Club.

The gent's whist tournament which has been going on for the past six months at this club was terminated Oct. 17th. Below will be found the average per cent. of points won by those members who played 60 per cent. of the games: J. C. Morse, 57.0; Warren Rideout, 56.1; W. W. Mitchell, 55.1; Fred. L. Jones, 53.2; Dr. Hallowell, 52.6; E. W. H. Bass, 51.0; George W. Jones, 50.7; Henry F. Tilden, 50.0; John Curtis, 47.8; W. W. Ewell, 47.1; G. W. Prescott, 40.0.

The ladies' tournament closed Oct. 24th, and the result will be announced later. It is the desire of the committee that all members of this club will attend with ladies the opening of the next series, which commences Wednesday evening, Nov. 7th at 8 o'clock, and continues every two weeks.

Entertainment and Dance.

Notwithstanding the extreme inclemency of the weather, Thursday evening, a large number braved the storm to attend the entertainment given at Hancock hall, under the auspices of the Loyal Ladies' of Clan McGregor, and it is safe to say that none were sorry that they did attend, for the programme was of such a nature to please the most fastidious.

The entertainment was given by Prof. George W. Blish, and consisted of a piano solo by Miss Paula Muller; songs by Miss Florence G. Ayers; readings by little Miss Grace M. King, who completely captivated the audience; and selections by Prof. Blish.

The entertainment was followed by a dance until 3 o'clock this morning, music being furnished by the Merry Mount Orchestra. Refreshments were served in the lower hall during the evening.

CHINAMEN FLED.

Their Opponents Scored a Victory In the Latest Battle at Yalu.

TOKIO, Oct. 26.—Field Marshal Count Yamagata has telegraphed to the war office that a detachment of 1600 Japanese infantry crossed the Yalu river on Wednesday and attacked the enemy. The Chinese force consisted of 600 cavalry and 100 infantry, with two guns. The enemy fled. The Japanese captured a Chinese fort, the two guns and many rifles. The Chinese loss was 20 killed and wounded. The Japanese sustained no loss. The dispatch adds that the Japanese advance columns are marching upon Lishyen.

The Japanese were ferried over the Yalu at daybreak. The Chinese fled after the first few rounds were fired at them. The Japanese captured the works with a rush. The Chinese fled to batteries that had been constructed lower down the river, throwing away their arms in their flight. These were found to be antiquated muskets.

The advanced detachments now hold the Sukin ferry to guard the passage of the Japanese main body, the advance of which will commence at once. The Japanese engineers have pontoons thrown across the river for the army to pass over.

The Chinese are still in force in the batteries opposite Wiju. Their strength has not materially increased during the past week. The attack upon the Chinese position will begin before Sunday.

The main body of the Japanese army is reported to be attacking the Chinese position at Kulensti, North Wiju.

Apples For England.

BOSTON, Oct. 26.—The largest European shipment of apples ever made from Boston, and probably the biggest shipment ever made from any American point, left this city by the steamer Philadelphian. She carried 18,000 barrels. They will be distributed all over England. Other steamers are taking large shipments of the fruit, so that nearly 75,000 barrels are likely to leave Boston this week. Luckily for New England growers, the entire European apple crop is a failure. The New England yield is said to be the largest ever known.

Worshipped at Bacchus' Shrine.

NEW YORK, Oct. 26.—A man claiming to be William J. Deshays of Bridgeport, Conn., who mysteriously disappeared from that city about three weeks ago, was at the St. James hotel yesterday. Deshays was in a rather dilapidated condition, and admitted he had been on a prolonged spree. He also said he had taken $1500 from the safe of the Bridgeport Traction company, whose trusted bookkeeper he claims to have been. He says he is ready to give himself up.

Breathes Free Air Again.

BOSTON, Oct. 26.—Once more executive clemency has opened the state prison gates at Charlestown and Henry J. Gunn, after 14 years of imprisonment, walks forth a free man. His request for pardon was granted yesterday. Henry J. Gunn was sentenced May 20, 1880, at Plymouth, to life imprisonment for murder in the second degree. He killed his father at Bridgewater, Sept. 24, 1879, by inflicting on him three wounds with a hatchet.

Concerning Whisky.

WASHINGTON, Oct. 26.—Secretary Carlisle holds that whisky in a customs bonded warehouse cannot be withdrawn, thereby extending the bonded period eight years in addition to the period allowed on whisky in customs bonded warehouses. The inference is that whisky once deposited in a customs warehouse cannot be withdrawn for any purpose or at any time and deposited in a distillery warehouse.

Chelsea's Holiday.

CHELSEA, Vt., Oct. 26.—Chelsea's new town hall and the Alden Speare Library building were dedicated yesterday afternoon. The town was gay with bunting, and all the townspeople were out in their holiday attire. The building has a pleasant site, near the central part of the village. It was the gift of Hon. Alden Speare and other prominent men who were natives of this place.

An Honest Teamster.

CONCORD, N. H., Oct. 26.—A driver of a coal team found a small hand bag in the street yesterday. Inside, among other things, was a bank book, showing that $1000 was deposited in the Merrimac county savings bank, and cash to the amount of $50. Inside the bank book was the name of its owner, to whom it was restored.

No Financial Report.

TOPEKA, Oct. 26.—There will be no financial report in connection with the Santa Fe annual report. "The road is in the hands of a receiver," said Treasurer Wilder, "and there is no financial report to be made except the report which may come from Stephen Little, and that is not ready and will not be for some time."

To Answer For Murder.

BUFFALO, Oct. 26.—Clarence Robinson, who with his wife Sadie murdered Attorney Gibbs, has arrived here in charge of Officer Cussack. The four charges of burglary and larceny against Robinson were set aside at Cleveland in view of the fact that he was wanted here on a more serious charge.

A Bad Half Year.

PORTLAND, Me., Oct. 26.—The Grand Trunk's report says that the past six months have been most disastrous, owing to the trade depression, the silver difficulty, the coal strikes, the Pullman strikes and low prices of produce, but the worst, the report concludes, is now past.

First to Reach America.

NEW YORK, Oct. 26.—A consignment has just come here of a small quantity of the new remedy for diphtheria, the anti-toxine serum. This is the first portion of the drug to reach this country. The consignment came to Dr. George F. Shrady and Dr. Louis Fisher of this city.

Lost Their Courage.

WATERTOWN, N. Y., Oct. 26.—James Pierce was married three weeks ago. Because of financial difficulties he and his wife decided to die together. Pierce yesterday administered chloroform to his wife and then took poison himself. Pierce is dead. His wife will recover.

For Killing His Sister.

WORCESTER, Mass., Oct. 26.—William L. Carr was arraigned yesterday afternoon on the indictment charging him with the murder of his sister, Ellen T. Lucier by shooting Oct. 3. He pleaded not guilty.

Six of the Crew Killed.

BREST, Oct. 27.—One of the boilers of the French cruiser Arethuse exploded yesterday. Six of the crew were instantly killed and 20 others were injured.

CHURCH DEDICATION.

The Episcopalians of Wollaston Move Into Their New Edifice,

ST. CHRYSOSTOM'S CHURCH.

A Description of the Building and the Opening Exercises.

The opening services of St. Chrysostom's Episcopal church of Wollaston was held on Thursday evening. Notwithstanding the severe storm there was a large audience present.

The society started in a modest way, but its number increased so rapidly that the present edifice, which was formally consecrated to the worship of God on Tuesday evening, was projected and the corner stone was laid on June 12 of this year by the Rt. Rev. William Lawrence. D. D., bishop of the diocese of Massachusetts.

The site upon which the edifice stands, bounded by Hancock and Linden streets, was given for the purpose by the Taylor heirs.

The style of the new church is the old English. It was built by Mr. George E. Thomas from plans drawn by Mr. I. Howland Jones of Wollaston. It is in appearance simplicity personified. The entire absence of anything like showy features and florid architecture in the design is pleasing. The picturesqueness of the structure at once attracts attention. A sense of its beauty grows upon one on examination of the building from an architectural point of view with its shingles left to mellow with age, its quaint little spire surmounted by a wrought iron cross and its old fashioned leaded window panes.

But the interior is equally as pleasing with its high girdered roof, having the timbers left in the rough to give an antique appearance to the auditorium. The walls harmonize with a soft fawn tint.

The auditorium is 25 feet by 80 feet and has a seating capacity of 200. The pews were made by J. J. McNutt of Boston and are of cypress. At the easterly end of the church a wing, 12 feet by 27 feet, extends towards the south. This contains the sacristy and the stairs to the vestry.

The chancel rail and choir seats are of cypress and the altar, which was a present from the Church of the Advent of Boston, is of solid mahogany surmounted with a massive slab of marble.

The pipe organ was made by Hook & Hastings.

The building is lighted throughout by electricity and heated by furnaces.

The opening service was the regular Episcopal service. Bishop Lawrence was assisted by the Rev. Alden Bennett of Waltham, who acted as priest in place of the Rev. Walter R. Breed, rector of Christ's church of Quincy, who was unable to be present, and also by James B. Thomas of the Harvard Theological school, who acted as deacon. The music was directed by Mr. George W. Stover, and Miss Eloise P. Flood was the organist.

Bishop Lawrence's address was wholly informal, as he expressed it, it was simply a "talk." He extended the congratulations of the diocese to the society on the completion of its edifice and the holding of the first service. The end of the building, said he, is the beginning of the upbuilding of this church. He told briefly the early history of the Episcopal church and showed how it was the church of our ancestors, and why it was here. First, because we turn back to the religion and forms of our fathers; second, because of its simplicity of doctrine and creed; and lastly because of its historic associations and continuity.

In concluding the Bishop said that if this church is to live it must think of Christ first and the church last.

At the conclusion of the service Bishop Lawrence held an informal reception.

THE CITY HOSPITAL.

An Appeal to the People from Dr. John A. Gordon for

THIS GRAND INSTITUTION.

Hospital Sunday, Oct. 28, and Then Hospital Week.

The following open letter is from Quincy's famous physician, Dr. John A. Gordon, and his appeal for the Quincy Hospital we know will not go unheeded:

Editors of the Daily Ledger:

Just five years ago the first sod was turned for the foundation of the City Hospital of Quincy, and a little over four years ago the building was dedicated to the "care and treatment of persons who may need medical or surgical attendance during temporary sickness or injury." Since that time the hospital has obtained a wide spread reputation. A late volume of the Reference Handbook of the Medical Sciences published in New York says, "The City Hospital of Quincy is an excellent example of what has been done in providing a hospital that, in the three years of its existence has made a creditable record, and become a model of construction that others have followed." And the Boston Herald in its investigation of Massachusetts hospitals gives it the first place in economical management.

In these four years it has treated seven hundred and twenty-one patients, comprising almost all classes of cases, and including the most severe quarry and railroad accidents, as well as some of the most difficult surgical operations, with a success that will compare favorably with the best hospitals in the country.

We all remember the public enthusiasm that hailed its dedication and opening. We can recall with satisfaction the thankfulness of the community that we had such a hospital for the reception of the injured and dying sufferers of the terrible railroad accident that occurred in the first months of its existence, and we note with pleasure the expressions of gratitude of the many patients who have been helped and cared for in its wards.

This success demonstrates the need of its existence. In a city like Quincy, with its dangerous granite industry and its twenty thousand inhabitants, the hospital has become a necessity. On this point we are all agreed. It would be difficult to do without it. On another point we should be equally clear: The hospital is not especially for the benefit of its promoters and those who give their time and skill freely and without price for its welfare. It is for the whole community. It stands ready to receive the sick and suffering from the households of the rich and poor; and no one can tell how soon he may need its services. Consequently everyone should feel an interest in its success and be willing and ready to contribute towards its maintainance and support. That the community is ready and willing to maintain and support the hospital has abundant proof in the cheerful and substantial way in which every appeal for aid and means has hitherto been answered. Last year a deficit of almost four thousand dollars was made good by the people in one week.

This year the hospital again finds itself obliged to appeal to the citizens for assistance. The income from the endowment fund and all the other sources of income fail to yield sufficient for the constantly increasing expenses, and the hospital finds itself largely in debt, with more than two months of the year to provide for. At least five thousand dollars should be raised to pay the present deficit and carry on the work for the remaining months of the year.

The coming Sunday, October 28th, has been set apart as Hospital Sunday, and it is sincerely hoped that a large sum will be secured by contribution on that day in the several churches.

During the coming week a committee from the hospital will make a direct appeal to all the citizens of the city for contributions, and it is hopefully and confidently expected that the appeal will be met by a genorous and substantial response.

One More Year.

LONDON, Oct. 26.—In its financial article this morning, The Times announces that the Baring liquidation will be extended over another year, when it is expected it will be terminated. The liabilities are now reduced to about £1,750,000.

Doctors Kept Busy.

BOSTON, Oct. 26.—At the annual meeting of the Massachusetts Charitable Eye and Ear Infirmary it was shown that the number of patients treated during the year was 19,369, an increase over the previous year of more than 1000.

Emperor William's Edict.

BERLIN, Oct. 26.—Emperor William has ordered all the Protestant churches in Prussia to celebrate the 400th anniversary of the birth of Gustavus Adolphus on Dec. 9, either by a sermon or a special eulogy.

Waters' Tight Squeeze.

NEWPORT, R. I., Oct. 26.—The official count of Wednesday's vote elects John Waters (Dem.) mayor by 26 plurality. The warden's count elects John P. Sanborn (Rep.). The Republicans gain a councilman and have good majorities in both branches of the city government.

MILTON.

The petition of the Milton Street Railway Company for a location from the Quincy line to the terminus of the Dedham tracks at Mattapan has been refused by the selectmen. The reason being, the narrowness of the streets from the station at East Milton to Mattapan street.

The Quincy & Boston Street Railway Company has petitioned for a location on Granite avenue from the Quincy line to the East Milton station of the N. Y. N. H. & H. R. R. This is looked upon with great favor by the residents of East Milton and the board of selectmen and will no doubt be granted at once. The fare will be five cents the same as from Quincy.

A large tract of land near the corner of Readsdale road and Randolph avenue is being surveyed and laid out into house lots.

The only kind of a store East Milton now needs to look like a city is a pawn shop.

The Milton band celebrated its first anniversary Wednesday evening by entertaining its friends at Ellsworth hall. During the first of the evening the band gave a concert which was followed by a supper and dance until 2 o'clock.

Henry Gummo has bought out Titus Wollaston express.

Robert Ladd, a youth slightly demented, committed suicide Monday morning by shooting himself in the head with a gun. He was about 24 years of age.

Mr. Quimby's brother has taken Mr. Baxter's place in his drug store.

A reception and conversation party will be given, by the King's Daughters, to the people of East Milton at Ellsworth hall, this evening from 8 to 10 o'clock.

A new building is being erected near the East Milton depot.

Registration closes in Milton Saturday night at 10 o'clock.

—Attar of rose is constantly growing more costly. A small quantity, about eight teaspoonfuls, costs from ten to fifteen dollars. The peasants who produce it in Bulgaria have largely given up raising grain to raise roses.

—Our Swedish people are to celebrate the birth of Gustavus Adolphus with a torch light parade and exercises in Boston Dec. 8. An appeal will also be made for the erection of a Gustavus Adolphus Home for aged infirm Swedes in Massachusetts.

"Those Female Ills can be cured. I suffered long and severely. *Lydia E. Pinkham's* Vegetable Compound cured me. I advise any woman who suffers with any form of female weakness to try it."—Mrs. WALTER WILCOX, 736 West St., Philadelphia, Pa.

WEYMOUTH.

Mrs. Mary Gregory of East Weymouth, whose place was raided last week by Officers Bailey, Pratt and Pease, has given notice that she has commenced suit against them for damages alleged to have been sustained by their leaving the house insecure.

Thursday at the meeting of the Weymouth Selectmen the matter of the suit was discussed and the board decided to support the officers and fight the case in their interest. One of the board says "Millions for defense but not a cent for blackmail," and the authorities will contest the case, and if necessary carry it to the Superior Court.

The Directors of the Braintree and Weymouth street railway have elected John Kelley as president and Douglas A. Brooks, clerk and treasurer.

☞ The ladies are not interested half as much in the present political contest as they are in making the home look attractive, which at the present time can be done so cheaply with pretty house furniture, that is if they purchase it of C. W. Guy and W. G. Shaw at the Quincy Coliseum. lpo 1t

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

For Sale by Druggists and Dealers Everywhere.

LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no excuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

DUE CARE EXERCISED

In Excluding Undesirable Immigrants From Our Shores.

FOREIGN OFFICIALS CO-OPERATE

As Far as It Lies Within Their Power to Do So.

WASHINGTON, Oct. 26.—Superintendent Stump of the immigration bureau has returned to Washington from a six weeks' tour of European cities. Colonel Stump investigated the subject of immigration in all the cities he visited.

In Italy he found the government willing and indeed very anxious to co-operate with the United States in wiping out the admittedly pernicious padrone system. The Italian officials stated that the immigration of their people to this country resulted in their sending large amounts of money to relatives in Italy, and in this way it was a considerable benefit to the country, but they were in entire sympathy with this government in keeping out criminals and other objectionable characters, and to that end they would furnish to every intending emigrant, if so requested by this government, what is known as a penal certificate, under seal, which would show for what, if any, crimes they had been convicted. This was Colonel Stump's suggestion, and it met with sincere favor.

The record of the investigation conducted by the senate committee on immigration of the Fifty-third congress showed that about $30,000,000 was annually returned to Italy by those who had immigrated to this country.

In Germany

the officials were taking unusual precautions to prevent any of the prohibited classes from sailing to America from German ports. In this they were assisted by the steamship companies, which were enforcing the rules by imposing heavy fines on their agents who sell tickets to persons not allowed to land in the United States. Some of these companies impose a fine of $20 on each passenger so refused admittance, and others impose a fine equal to the entire expense of returning the immigrant to the port from which he sailed.

The Jewish Exodus.

Colonel Stump had several conferences with agents of Baron Hirsch in regard to the exodus of Jews from Russia. He was assured that the persecutions by the Russians had practically ceased, and that in consequence comparatively few were now leaving Russia.

Baron Hirsch's society was doing all it could to encourage colonization in the Argentine republic, but they were exercising extreme care in accepting only those of the better classes. The Argentine republic, in their opinion, would prove far more advantageous to the Russian Jews than the United States.

Speaking generally, Colonel Stump was of the opinion that a far better class of immigrants were coming to this country than at any time in the past. He believed it to be a fact that none of the European governments were now given any aid to intending immigrants, and, if assistance was being furnished at all, it was by friends and relatives of the immigrants themselves.

Eleven Miners Entombed.

IRONWOOD, Mich., Oct. 26.—A bad accident occurred on the fourth level of shaft No. 1 at the Pewabic mine yesterday afternoon. One man is known to have been killed and 11 are entombed, and their fate will not be known for 18 hours, as it will take that length of time for the large force of men employed in the narrow shaft to clear away the rubbish. The accident was caused by the sandstone capping which overhung the room falling and crushing the timbers.

A Ripper In Canada.

LISTOWEL, Ont., Oct. 26.—There is a growing suspicion that if Chattelle is the man who murdered Jessie Keith, he is none other than "Jack the Ripper," the fellow who committed the horrible Whitechapel murders. Jessie Keith was not subjected to any outrage before or after death. The assassin had killed and mutilated her by removing some of the organs of her body.

General Booth's Movements.

NEW YORK, Oct. 26.—General Booth addressed staff, field and local officers yesterday. He spoke of army methods, the creed and general working details. Last night he addressed the army. Today is being devoted to army councils and tomorrow General Booth will leave the city.

Auditorium Dedicated.

CHICAGO, Oct. 26.—The large auditorium of the Young Men's Christian association on La Salle street was dedicated today. Beginning Oct. 28, a series of two meetings each week will be held in the hall, when subjects touching the problem of life and Christian citizenship will be discussed.

To Keep Up Prices.

CLEVELAND, Oct. 26. — The Central Traffic association, after considerable discussion, adopted resolutions providing for the appointment of committees for the maintenance of the freight rates and for the conference with the Trunk association in regard to rates.

Caught McKinley on the Fly.

CLEVELAND, Oct. 26.—Sheriff Kennedy of Stafford county, Virginia, met Governor McKinley at Ashland and secured the latter's signature to the requisition papers for Morganfield, one of the Aquia creek train robbers, now in jail at Cincinnati.

Free Thinkers Meet.

CHICAGO, Oct. 26.—Many delegates from all parts of the United States and Canada are here to take part in the congress of the American Secular union and the Free Thought Federation of America, which opened in this city today.

High Figures.

WASHINGTON, Oct. 26.—The acreage and product of cotton for the year 1893 are estimated as follows: Acres planted in 1893, 19,525,000; number of bales harvested, 7,493,000.

French Diplomat Recalled.

WASHINGTON, Oct. 26.—M. de Commines de Marsilly, first secretary of the French embassy here, has been recalled. His future post is likely to be London.

Juniors Outclassed.

PRINCETON, N. J., Oct. 26.—The seniors won the class football championship and the prize cup offered by C. C. Cuyler by defeating the juniors.

GATES RE-ELECTED.

Choice of the American Missionary Association For President.

LOWELL, Mass., Oct. 26.—At the third day's session of the American Missionary association the financial report was presented by Franklin Fairbanks of Vermont. Dr. D. W. S. Clark then spoke upon the necessity of keeping up the missionary work.

The next speaker was Governor Greenhalge, who extended a welcome to Massachusetts. He complimented the association on the work it was doing for the uplifting of the negro race and the good citizenship that must result from such efforts. He believed in the need of commerce, but the soul should be the first interest, the body second and property last.

He was followed by Rev. C. M. Lamson of Connecticut, who responded on "Southern Church Work," and addresses were made by Rev. J. W. Bell and J. A. Herod, colored missionaries from the south, and Rev. W. G. Oliver, missionary from Tennessee.

Officers were elected as follows: President, Merrill E. Gates, Amherst, Mass.; vice presidents, Rev. Dr. F. A. Noble, Chicago; Rev. Dr. Alexander Mackenzie, Cambridge, Mass.; Rev. Henry Hopkins, D.D., Kansas City; Rev. Henry A. Stimson, New York; Rev. Washington Gladden, Columbus, O.; corresponding secretaries, Rev. Dr. M. E. Strickby, Rev. Dr. A. F. Beard, Rev. Dr. F. P. Woodbury, New York; assistant secretary, Rev. Dr. J. C. Ryder; recording secretary, Rev. Dr. M. E. Strickby, New York; treasurer, H. W. Hubbard, New York; auditors, Peter McCartee and James Mitchell; executive committee (for three years), William Hayes Ward, New York; James W. Cooper, New Britain, Conn.; Lucien C. Warner, New York; Joseph H. Twitchell, Hartford; Charles P. Pierce, New York; (for two years), A. J. F. Behrends, Brookline, Mass.; financial committee, General Augustus Taylor, Joseph Vanbleck, John McAusland, Arthur O. Bent and D. C. Tritont.

Fires In Five Counties.

OMAHA, Oct. 26.—In Cherry, Thomas, Grant, Hooker and Sheridan counties the most destructive prairie fires in the history of the state are now raging. In these counties hundreds of thousands of cattle have been grazing, and it is thought that most of them were burned. Near Mullen, on the ranch of L. E. Lasher, four lives are reported lost. The loss to farmers and stock raisers has been enormous. The flames are traveling westward, fanned by a wind blowing at the rate of 70 miles an hour.

New Iron Hall Plan.

MANCHESTER, N. H., Oct. 26.—A secret meeting of the members of the Iron Hall order was held here last night. F. D. Somerby, supreme justice, stated that the order was never in a more prosperous condition than today. He said $382,000 had been collected during the past year, and $300,000 paid out. A new plan is to be placed in operation, and the order will regain the prestige it formerly held.

Fears For the Emskar's Safety.

LONDON, Oct. 26.—The greatest anxiety prevails in shipping circles over the fact that the steamship Emskar, which sailed from Philadelphia Oct. 3 for this port, with a cargo of merchandise valued at $300,000 and 222 head of cattle, has not yet reached here. She was due on the 17th inst., but no tidings of her have been received since she left the Delaware Breakwater early on the morning of the 4th inst.

Falcon Believed to Have Gone Down.

PHILADELPHIA, Oct. 26.—All hope for the safety of the British whaling steamship Falcon, which brought to this port the members of the Peary expedition, and which sailed Oct. 3 for St. John's, N. F., has now been given up and there is no longer any doubt that she has gone down at sea with all hands.

Barkentine Missing.

BOSTON, Oct. 26.—The barkentine Levi S. Andrews of Thomaston, Me., Captain Leslie Walker, from Galveston for Pensacola, in ballast, is two weeks overdue. It is feared the vessel and crew of nine men are lost. The principal owners are Boston men.

At Death's Door.

MONTREAL, Oct. 26.—Father Chiniquy, the celebrated ex-priest, is at the point of death. He caught a severe cold while returning from Albany, and his age almost precludes recovery.

Ten Train Hands Killed.

ST. PETERSBURG, Oct. 26.—Two freight trains came into collision on the Kosloff Woronesh railroad, demolishing 22 cars and killing 10 train hands.

LORD ROSEBERY PAYS TRIBUTE.

Great Britain Owes Debts of Obligation to the Czar.

LONDON, Oct. 26.—A dispatch from St. Petersburg says it is reported that Dr. Zacharin is opposed to an operation being performed upon the czar.

A bulletin issued from Livadia late last night says: Neither somnolence nor spasmodic symptoms were observed today. His appetite is satisfactory. The œdema did not increase as usual.

The Local Anzieger of Berlin publishes an interview with Professor Bergmann, who was reported as having refused to go to Livadia to attend the czar. Professor Bergmann declared that surgery was useless in the czar's case, because both of his kidneys were affected, and the removal of both of them would be as bad as beheading him.

The Cologne Gazette has the following dispatch from St. Petersburg: The czar's strength is daily decreasing, but he awaits death with perfect composure. In order to counteract the depression of those about him, he has ordered that the band at the palace play during lunch time. The czarina, though suffering severely, never quits her husband's side. She sits for hours beside the armchair occupied by the emperor and watches by his bedside when he is unable to sleep. The czar, it is said, has made all his arrangements with a view to death. He has completed his will, and has verbally advised the czarewitch to consult M. Dunge, president of the committee of ministers on political questions, and also to consult Grand Duke Michael on family matters.

It is reported that the czarina is in a very nervous condition. She suffered an attack of lumbago before she reached the Crimea.

Naturally there is great anxiety on the czar's account, but there are no apprehensions for the future, except the holders of high offices, who fear they may be superseded. It is expected that there will be extensive, though gradual, changes in the internal affairs of the empire, in the event of the czar's death, but the diplomatic circular from the foreign office, which it is customary to issue upon the demise of the crown, will doubtless announce that there will be no change in the foreign policy.

The Official Messenger of St. Petersburg, commenting on the profound sympathy expressed by the foreign press, observes that France, more deeply than any other state, feels how differently would have been the relations of the European powers but for the czar's pacific influence.

Rosebery's Estimate of the Czar.

Lord Rosebery made an address last night at the banquet of the Cutlers' society of Sheffield, in which he paid a high tribute to the czar. The prime minister said that the present moment of shadow clouded the domain of foreign politics. There was not a thoughtful mind in Europe that did not turn to the sick bed in the Crimea.

Great Britain, he added, had in times past had acute subjects of difference with Russia, but he felt certain that there was nobody who was aware of what had happened in Europe during the last 12 years who did not feel the immeasurable debt of obligation that Great Britain lay under to the czar.

Continuing he said: "We had in him a monarch whose watchword was reign, and whose character had been a worship of truth and peace." He would not say that the czar would rank among the Cæsars and Napoleons. "But," he said, "if peace had her victories not less renowned than war, he would reign in history as not less entitled to fame than either Cæsar or Napoleon. It was due to his character and influence, as much as to any other cause, that peace had been preserved. His death would mean the removal of one of the greatest, perhaps the greatest, guarantee of peace in the world.

An Interesting Law Case.

SIOUX FALLS, Oct. 26.—Samuel W. Allerton of Chicago is to sue for the recovery of a 5-32nds interest in the Homestake mine No. 2 in the Black hills, amounting in value to $2,343,750, and for $50,000 damages for the wrongful withholding of the property. Allerton states that he has been the rightful owner of an interest in the Homestake mine since July 16, 1879, but that since that date the Highland Mining company has improperly withheld his interest.

Sore Arms Are Plentiful.

WASHINGTON, Oct. 26.—A general order that everbody in the interior department shall be vaccinated forthwith was issued by the secretary, in view of the prevalence of smallpox in the city. The result of the order issued is that the business of the department is practically at a standstill.

Disastrous Farm Fire.

BRATTLEBORO, Vt., Oct. 26.—Rodney Marcy's farm buildings in East Putney were burned. Eight head of cattle, several swine and 120 hens, 1000 bushels of corn, grain, hay and farm implements were burned. A part of the household goods was saved. The total loss is $6000.

Furniture Economy.

It makes no difference what others say about goods, or what others get for them; at this store the aim is straight for one point, viz: To handle only reliable merchandise, and give it at the right rate, a trifle lower than any other Furniture house in the State, and we invariably do it.

Our increasing trade proves too well that there is satisfaction for the public in trading right here in Quincy on sure grounds, and we cannot help noticing how others attempt to imitate our methods.

It is gratifying for us to hear the old saying which comes to our ears so often, "More for our Money Here, we have come back to trade after wasting our time elsewhere."

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

A NEW WHISKY TRUST

It Will Start In Business With a Capital of $5,000,000.

COMPANY CONTROLS NEW PATENTS

For Manufacturing Spirits Out of Corn and Molasses.

NEW YORK, Oct. 27.—Papers were filed at Trenton, in the secretary of state's office, yesterday, which indicate the formation of a new whisky trust. The papers comprise the articles of incorporation of a concern to be known as the Great White Spirit company, with a paid-up capital of $5,000,000, the total authorized capital being limited by the charter to $50,000,000.

The principal office and place of business of the committee outside of the state of New Jersey will be Boston, but it will carry on business in various other states and territories of the United States. The $5,000,000 capital stock of the company is divided into 50,000 shares of the par value of $100 each. Of that stock $500,000 is divided into 5000 shares of the par value of $100 each, and is to be first preferred stock and be known as "guaranteed" stock and $2,000,000 is to be divided into 20,000 shares of the par value of $100 each, which shall be second preferred stock and be called "preferred" stock, and the balance of stock, to wit, $2,500,000, is to be divided into 25,000 shares of the par value of $100 each, and shall be called "general" or "common stock." The guaranteed and preferred stocks are to receive 8 per cent per annum, cumulative; after Jan. 1, 1895, provision is made for retiring the guaranteed stock at $110. The company is to commence business on the 29th.

The Organizers and Corporators

of the company are Robert H. Dillingham of East Orange, N. J., and David M. Ripley and Edward G. Maturin of this city. Mr. Maturin is described in the articles as the subscriber for 5000 shares of the guaranteed stock, 20,000 shares of preferred stock and 24,800 shares of the common stock. Mr. Dillingham and Mr. Ripley are put down as holding 100 shares each of the common stock.

One of the men interested in the organization of the company said that it represented a combination of the New England distillers with certain New York men who had retired from the present Whisky trust. The new company, he said, owned the patents for a new process for making spirits out of molasses, and they would have distilleries in which spirits would be made from corn and molasses alongside of each other.

To develop and carry out that departure in making whisky, he said the company had acquired large sugar properties in the West Indies, and for that purpose the company was authorized to buy steamships. Two such vessels, he said, had been already bought.

Plunged to Her Doom.

LONDON, Oct. 27.—The captain of the German bark Rebecca reports that at 3 o'clock yesterday morning when off Ilfracombe he sighted a large steamer flying signals of distress. Soon afterward the steamer went down bow foremost. The crew could be seen running about on her deck and their cries for help could be heard distinctly. The Rebecca could do nothing to save them as she was running under bare poles before a furious gale. The name of the lost steamer is not known.

A Clever Robbery.

OMAHA, Oct. 27.—The fact was made public yesterday afternoon that the safety deposit vaults section of the Omaha National bank had been robbed, and in so dexterous a manner that no clew of the manner in which the work was done is obtainable. Large sums of money have been taken. The bank officials offer no explanation other than to declare it is not due to the carelessness of the bank employes.

Didn't Work Well.

NEWPORT, R. I., Oct. 27.—Cruiser Cincinnati fired a Howell torpedo yesterday for practice. After running 400 yards it went to the bottom, and has not since been found. It also leaked out yesterday that the trial with the Howell on the Detroit ended the same way, and divers are still searching for it. Both torpedoes acting the same way is causing much unfavorable comment in naval circles.

The Oriental War.

TIEN-TSIN, Oct. 27.—Thirty-seven transports were sighted Wednesday morning making toward Tatung-Kao, near the scene of the late battle. It is believed in Yokohama that the second Japanese army, numbering 22,000 men, landed at Shan-Ching on Tuesday. The Chinese foreign office at Nankin has been transferred to Shanghai by an imperial order.

VIOLATION OF LAW.

Northwestern Federal Office Holders Are Requested to Chip In.

WASHINGTON, Oct. 27.—The civil service commission has received from a postmaster in Washington state a copy of a circular from the Democratic committee levying an assessment of $5 on each postmaster. It has the heading of the committee and is signed by Charles De France, secretary. It states that:

"The committee having under consideration the necessity and ways and means of raising funds for the campaign, have concluded that those who are enjoying the benefits of Democratic success in the past should contribute to the expenses of the present campaign. The committee have, therefore, assessed you $5."

It is stated by the commission that this circular, being sent to a person in a government building, is a violation of the law which prohibits solicitations in such buildings. A copy of a circular issued in a similar California case has been sent to the postmaster forwarding the circular from Washington state.

Many Public Bequests.

CAMBRIDGE, Mass., Oct. 27.—The will of Francis Buttrick, of Waltham, was filed at the probate court yesterday. Among the public bequests are the following: To the city of Waltham, $60,000 for a public library; $10,000 to the First Universalist society; $10,000 to the city of Waltham for a poor fund, and $25,000 to his wife, to be expended for charitable purposes. To his wife is left, for her own use, the old homestead and $150,000. The remainder of the estate, after the provisions of the will are carried out, is to be devoted to such charitable purposes as the executors may deem advisable.

Temperance Women Elect Officers.

SKOWHEGAN, Me., Oct 27.—The Maine Non-Partisan Woman Christian Temperance union yesterday closed a successful convention. The following officers were elected: President, Mrs. A. C. Paul, Fort Fairfield; vice president, Mrs. A. R. A. Cushman, Auburn; general secretary, Mrs. A. L. McKeen, Belfast; recording secretary, Mrs. G. P. Porter, Oldtown; treasurer, Mrs. G. H. Denio, Bangor; assistant recording secretary, Mrs. F. H. Beal, Augusta.

Dr. Hudon Is Alive.

MANCHESTER, N. H., Oct. 27.—The Dr. Hudon whose name was mentioned in a bottle washed ashore at Old Orchard, Me., as having been lost at sea while fishing, is in this city. He left Biddeford, Me., Oct. 7. The bottle story is dated Oct. 8. Hudon claims he does not know anything regarding the bottle affair, and thinks it must have been a hoax.

Letters Only Can Be Sealed.

WASHINGTON, Oct. 27.—Postmaster General Bissell has issued an order stating that sealed packages, other than letters in their usual and ordinary form, are not allowed to be dispatched from the United States to Canada, even though postage is prepaid at the full letter rate. This is to prevent a form of smuggling of small articles.

A Cautious Postmaster.

PORTLAND, Me., Oct. 27.—The postoffice and general store at East Deering was entered by boring holes about the lock of the door. The burglar could not find any postage stamps or money, as the postmaster takes all the government property home with him every night. Some cigars and small articles were carried away.

Failed to Effect a Settlement.

FALL RIVER, Mass., Oct. 27.—Messrs. Walcott and Barry of the state board of arbitration met again yesterday afternoon, but have not succeeded in accomplishing anything looking toward the termination of the strike.

A Hartford Murder.

HARTFORD, Oct. 27.—Michael Buckley, whose skull was fractured on the night of Oct. 23, died yesterday afternoon. His assailants, one of whom, Peter Horan, is now in jail, will be held for murder.

A Runaway Lad.

PORTLAND, Me., Oct. 27.—Willie Miller, aged 13 years, ran away from his home in this city. He took his pet dog with him. Young Miller is of dark complexion and wore a black suit of clothes.

Three Were Killed.

KNOXVILLE, Oct. 27.—In a pitched battle between opposing forces of whitecaps in Sevier county, Laban Latham, John Kibble and Elithan Allen were killed and several others wounded.

Dwellings and Icehouse Burned.

BRISTOL, R. I., Oct. 27.—Gooding's large icehouse and two tenement houses were destroyed by fire. Cause unknown. The damage will amount to $10,000.

A BRIGHTER OUTLOOK

An Increasing Demand Shown For Products In General.

IMPROVEMENT IN INDUSTRIALS.

Bradstreet's Review of Business In the Provinces.

NEW YORK, Oct. 27.—R. G. Dun & Co.'s Weekly Review of Trade says: Engrossing political excitement in many of the states causes a natural slackening in some kinds of business, but on the whole business indications are rather more favorable than they were a week ago.

Gold exports have ceased, quite a number of mills have gone into operation, and the demand for products, if not equal to that of prosperous years, is better than it has been most of the time this year.

The prices of farm products do not improve much, and there are still some strikes to resist the reduction of wages, so that the purchasing power of the people cannot have materially increased, but there is a more hopeful spirit which prompts greater activity. On the other hand, the record of past transactions is somewhat less favorable than of late.

Cotton and Cotton Manufactures.

Cotton has sold at 5.81 cents for middling uplands, and the large receipts at such low prices indicate clearly that the crop will at least be close to the largest, if not the largest, ever produced.

The anticipated settlement of difficulties at Fall River has not been realized, and at present a good many spindles and looms are idle. But strikes are temporary; a more lasting influence is the large accumulation of cotton in the world's markets, the stock of American in sight now exceeding 2,000,000 bales. It is interesting that in spite of the low price of the principal southern crop, wholesale dealers report rather more improvement in trade with the south than with any other section.

Grain and Provisions.

The wheat market is ¼ cent lower, and nothing appears to justify any important change. Western receipts have been 4,816,571 bushels, against 6,276,623 last year, and Atlantic exports only 584,263 bushels, against 1,069,666 last year.

Corn is higher, without any clear reason.

Pork is lower. Lard is 35 cents a hundred weight and hogs 40 cents lower. The contrast indicates how little the provision market depends at present on natural relations of supply and demand.

Industrials More Encouraging.

The boot and shoe industry leads in improvement, the actual shipments from the east being larger than in any previous year—for four weeks 336,016 cases, against 297,524 last year and 314,022 in 1892.

In textile industries the situation is peculiar and in many respects perplexing. It is undeniable that orders for goods are on the whole diminishing, and retail trade does not yet prompt such supplemental orders as were expected, but a good many works have found orders enough to start up for a time, some having business for several months.

The demand for wool is not as large as it has been, and while prices have scarcely changed for two weeks, sales are but 4,304,250 pounds, against 5,778,750 in 1892, and for four weeks 19,451,749 pounds, against 25,744,750 in 1892.

Prices were put down before the new tariff took effect, so that the results of foreign competition are felt mainly in reduced sales of some domestic wools. Almost nothing is doing in spring woolens for men's wear, but manufacturers are more encouraged to believe that, as to a large share of the cheaper goods, they can meet any price that foreign mills can make.

Business Failures Decreasing.

It is still, as it has been for some months, an encouraging fact that the volume of commercial failures is small. Reports for the three weeks of October cover liabilities of only $5,639,741, of which $2,629,671 were of manufacturing and $2,957,567 of trading concerns. The failures for the week were 231 in the United States, against 352 last year, and 52 in Canada, against 44 last year.

Bradstreet's Review of Trade.

Bradstreet's has this to say: No gain in business is reported from Montreal, but at Quebec City there is improvement noted among shoe manufacturers and dealers in leather.

Trade has been fair at Toronto, but mild weather is acting as a check on the sale of winter goods. At Halifax general business about equals an average at this season.

Bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate $20,350,000 this week, against $19,850,000 last week, and $18,394,000 in the week a year ago.

There were 36 business failures reported in Canada this week. Last week the total was 39; one year ago it was 38, and the year before that 30.

Caught In a Storm.

COLBERG, Oct. 27.—Three torpedo boats were caught in a storm in the Baltic sea and headed for Colberger-Munde. Two of the boats were damaged in entering the harbor. The third boat ran ashore and one of the seamen aboard of her was drowned.

Died In a Chair.

AUGUSTA, Me., Oct. 27.—Dr. John M. Eveleth of Hallowell, aged 70, came to Augusta to attend a meeting of Trinity commandery. He took a seat in an anteroom, called for a drink of water, fell back in his chair and died in five minutes.

Howgate's Case.

WASHINGTON, Oct. 27.—District Attorney Birney says that Captain Howgate will withdraw his plea of not guilty to the indictment charging him with embezzlement and will ask leave to demur to the indictment.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

Blue Hill Predictions.

During the coming week the warmest days will probably be on Oct. 27 and Nov. 1, and the coldest between Oct. 29 and 31. Rain is probable on Oct. 27 to 28, and again about Nov. 1. Oct. 29 to 31 will probably be clear or fair and cold.—*Norfolk County Gazette.*

Adams Academy Games.

The annual fall games of the school will be held as usual on the morning of Founder's day, Tuesday, 30 October, at 10.30 o'clock. All friends of the school are invited to come to the grounds at the school and witness the events. A varied programme has been arranged. Among the events there are four entries for an eight mile bicycle race. Two eleven chosen from the school will play a game of foot ball. It is hoped that all interested in Adams Academy will attend these games without further invitation.

Paul-Shaffer.

In Frankford, Pa., Oct. 17, by Rev. Mr. Kochler, Mr. John E. Paul of Boston, formerly of Quincy, to Miss Emma Shaffer of Frankford, Pa.

The wedding took place at the residence of the bride. Following the ceremony a splendid collation was served. The presents were numerous and beautiful. The young couple took a wedding tour to Boston, where they will reside.

Mr. Paul was for several years a compositor in the PATRIOT office, where he was much appreciated.

The Hospital Aid.

Eighteen members braved the northeast storm, Thursday afternoon, to attend the monthly meeting of the Hospital Aid association, which proved a very interesting one. During the last month sixty-three needed articles have been made for the use of the hospital.

The association is grateful to Mr. Mitchell for upholstering a large chair for the hospital, free of expense, and to Mrs. A. B. Spear for making seventy-two large button-holes in dressing-gowns for the patients. Money is a great necessity in the maintenance of our hospital, but there are certain things which the hands must do, and all assistance in that direction is of equal importance, and quite as acceptable.

At the close of the meeting, Hon. W. B. Rice addressed the ladies, stating that the hospital sadly needed money to carry on its good work, and urged them to make even more strenuous efforts to raise money. When the hospital was new, people were filled with interest and every one helped it along, but the ardor has been allowed to cool, and money has not flowed in so freely.

The O. C. R. R., after the accident, agreed to support a free bed, which they did till it changed to the N. Y., N. H. & H. R. R., but that income has now been withdrawn. So an appeal is again made to the people to raise money for the hospital's support.

It is easy to criticise, and we can always find plans, but we must bear in mind many a poor sufferer has been healed and sent home with a grateful heart, and received the care and attention impossible even in the best regulated homes.

And so let us commend, and not condemn the good work and "lend a hand."

THE LEDGER APPRECIATED

Capt. Holmes of the Sons of Veterans Returns Thanks to the Editors.

The following open letter is self explanatory:

As the presiding officer of the Sons of Veterans of Quincy it affords me pleasure to personally acknowledge to you my heartfelt appreciation of the kindly recognition you have bestowed upon the order through the medium of your most excellent paper the QUINCY DAILY LEDGER.

It has been the will of the members of Francis L. Souther Camp 27, to place me at its head for the last two years and I am in a position to realize and appreciate that during that period nothing has accomplished more toward the building up of the Camp than the public notice which you have so kindly given it.

From January 1, 1893, to October 1, 1894, the LEDGER has devoted to the Sons of Veterans 45 articles, aggregating 1,377 lines, an average of about 16 lines per week. For the valuable and impartial service you have rendered to me in making my administration successful and prosperous and in behalf of the brothers of Camp 27, whose sentiments accord with my own, I extend to you my sincere thanks.

Yours,
MELVILLE C. HOLMES.

—The fact that last year $10,000,000 was spent in this country for new bicycles alone suffices to show that the outlook of the horse breeder is not so rosy as it might be.

Q. H. S. ALUMNI.

A Preliminary Meeting for Organization of Association.

18 CLASSES REPRESENTED.

Committee of Ten Appointed to Draft By Laws—Adjournment for Two Weeks.

The promoters of the new High School Alumni Association were very much encouraged by the large attendance of graduates at the preliminary meeting in the new High school building last evening. All told there were 56 in attendance including Superintendent Lull and Head Master Tupper. Mr. Frank F. Prescott, '77, called the meeting to order and was chosen chairman, and Howard W. Battison, '85, secretary.

CLEVELAND IS SILENT.

Not Likely to Make a Statement In Endorsement of Hill.

WASHINGTON, Oct. 27.—No authoritative information can be obtained here respecting the direct question as to the president's purpose to write or not to write a letter announcing his desire that all Democrats should earnestly support Democracy in New York. Nevertheless, it is the opinion of many of his friends that he will not in any way interfere in the New York campaign.

With reference to the president's registering or voting, one of his closest friends makes the statement that Mr. Cleveland had no legal residence in New York and could not lawfully register or vote there. Mr. Cleveland himself, it is understood, has said that his legal residence was in Washington. It can be stated further that, after the expiration of Mr. Cleveland's presidential term, he will not again take up his residence in New York.

APPETITE IS GOOD.

The General Condition of the Emperor of Russia Is Unchanged.

LONDON, Oct. 27.—An official bulletin issued from Livadia last night says: "During the course of the day the emperor ate. His appetite was good. He felt some weakness, but otherwise his condition was unchanged."

It is understood that Professor Grube has refused to operate upon the czar, as he declines to assume the responsibility of so doing.

The crown jewels are being forwarded to Livadia from Moscow in order to be used at the marriage of the czarewitch to Princess Alix of Hesse-Darmstadt, which ceremony has been fixed to take place on Monday next, although this date is subject to alteration in the event of unforeseen contingencies.

Democratic Leaders Spoke.

BOSTON, Oct. 27.—Music hall's big auditorium was filled to overflowing last night with an audience gathered to hear the principles of Democracy expounded by the leading orators of the party in this state. It was the opening rally of the state campaign in Boston. The speakers were John E. Russell, Josiah Quincy and Thomas J. Gargan. The speakers all praised the Wilson bill and urged their hearers to stand firm for Democratic principles in the coming election, declaring that they would not be discouraged by defeat.

Poisonous Oyster Stew.

DETROIT, Me., Oct. 27.—A social assembly was held in Detroit village, at which many of those present partook of oyster stews. The caterer had come over from Newport with his oysters, but had forgotten to bring any vessel in which the stews could be cooked. A washboiler was procured and used. Of the 70 of 80 persons who partook of the stews, 17 are seriously sick with typhoid fever, and some are not expected to recover. An investigation will be made.

Strife In Samoa.

APIA, Samoa, Oct. 27.—There have been no recent conflicts between rival native bands. All the warriors are still under arms, however, and the people here are prepared for an outbreak to occur at any time. A movement has been inaugurated here to urge the three treaty powers to remove President Schmidt, with whose administration there is considerable dissatisfaction.

A General Vacation.

WASHINGTON, Oct. 27.—The closing of the interior department will last until Monday, and employes will have a holiday until then. Those who have been particularly exposed to infection by contact with the people of the afflicted law division have been granted leave of 12 days. Offices located in other buildings will probably remain open.

Boston's Epidemic.

BOSTON, Oct. 27.—Diphtheria and scarlet fever are epidemic in certain sections of this city. At midnight last night there were in the city hospital 32 cases of diphtheria. In another ward were 29 patients suffering from both scarlet fever and diphtheria. In the epidemic hospital are 15 patients suffering from scarlet fever.

Prison Sunday.

NEW YORK, Oct. 27.—Tomorrow Prison Sunday will be observed throughout the country, under the auspices of the various prisons associations. The churches in one-third of the states have generally adopted the custom. Sermons are preached and special services are held in the interest of prison reform and the prisoners.

An Offer of $50,000.

NEW YORK, Oct. 27.—A letter has been forwarded by Vice President Latnan of the Kinetoscope Exhibiting company to James J. Corbett and Bob Fitzsimmons, offering a purse of $50,000 for their fight, the contest to take place in Mexico, where there will be no danger of official interference.

Accounts Were Short.

COLUMBUS, Ind., Oct. 27.—Daniel McClintic, for four years past the trustee of Clifty township, and the defeated Democratic candidate for county auditor, committed suicide yesterday by taking polson. He is known to be short in his township accounts and to have forged two notes.

Left to Attorney General.

BOSTON, Oct. 27.—The attorney general has decided that the governor and executive council have no power to revoke the charter of the Children's Aid society, and the petition of Mrs. Lucy M. Green of Worcester will be referred to the attorney general.

Neither Side Would Yield.

DOVER, N. H., Oct. 27.—The visit of National Secretary Ross of New Bedford and Treasurer O'Donnell of Fall River to this city has had no effect toward settling the strike of the mule spinners. No concessions have been made on either side.

Entire Town Aroused.

ROCHESTER, Ia., Oct. 27.—The large brick hotel occupied by Bradley Bernhart was wrecked by dynamite. The persons committing the outrage and the reasons for it are unknown. The entire town was aroused by the explosion.

Fred A. Lapham celebrated his birthday anniversary Friday evening by entertaining a number of his friends at his residence on Washington court. The evening was one of enjoyment to those present.

A meeting of the Norfolk County Republican Committee will be held this afternoon at 2 o'clock at Young's hotel, Boston. The Republican candidates for County Commissioners will be present.

Rev. Herbert M. Youtz, a graduate of Boston University will fill the pulpit of the Washington Street Congregational church tomorrow. Mr. Youtz is a candidate for the existing vacancy, and it is hoped a large congregation will greet him at each service. Morning exercises at 11 o'clock and in the evening at 7.15.

The committees of last year on "Hospital Week" met at the residence of Hon. W. B. Rice on Adams street, Friday evening to arrange for the work this year. All wards were represented at the meeting and the same committee as served last year were appointed for this year, and next week will begin a house-to-house canvas for contributions for the Hospital.

—Change of time on the Fall River line on Monday next, Oct. 29. Steamer will leave New York at 5.00 P. M. each day instead of 5.50; and special Pullman vestibuled trains will leave Boston at 6 P. M. week day, at 7 o'clock on Sundays. A fine orchestra is on each steamer throughout the year. The steamers Priscilla, Puritan, Plymouth and Pilgrim are the largest and handsomest steamboats ever constructed.

—Two hundred cases of shoes a day is a wonderful output for a factory, especially when cases of 24-pairs each are meant. That means 4800 pairs a day, and at that rate all of the male residents of Quincy could be shod in less than a week. Yet there is a shoe manufacturer in Brockton who says he is making that number each day.

TODAY'S COURT.

The cases against James E. Dunn, Alfred W. Bisson and James H. Bisson, the three carriage drivers who were arraigned last Saturday for loitering about the Quincy depot, which were to be tried this morning, were again continued until next Saturday.

Cornelius Leahan of Weymouth was arraigned for keeping intoxicating liquor with intent to sell. Case continued until next Friday.

William Buchan of Milton was arraigned for escaping from an officer, March 28. Case continued until next Monday.

Last March, "Billy" was arraigned for assault on his aged mother and for drunkenness. Both of these charges were proven against him and he was sent to Dedham to cut sole leather for 4 months for the benefit of the county. Billy started for his summer's sojourn in company with Officer Leary, with a fair prospect of being behind the stone walls of Dedham jail during the summer months. As the train speed along between Boylston station and Jamaica Plain, Billy had a longing for liberty and succeeded in getting onto the platform of the car where he took a flying leap into space. He turned a double somersault, that would have put a circus actor in the shade, and landed on the banking. He got up apparently unhurt and left for parts unknown.

Friday, under the shade of night he quietly stole into his native town again and was soon in the grasp of the strong arms of Officer Leary, who lost no time in putting him safe behind the bars of Milton's police station.

—Socialist John Swinton wants to see Gen. Schofield, U. S. A., hanged for recommending an increase in the army. The socialists and the other ists and isms are great for declaring for free speech and freedom of action till things are said or done that don't suit them. Then they want to hang somebody right off.—*Brockton Enterprize.*

FAXON'S REASON WHY.

He Wou'd Have Atwood Beaten Because of His Record.

[FROM THE BOSTON POST]

Henry Faxon of Quincy says: "I signed Mr. Peabody's nomination papers as a protest against the candidacy of a man whose entire legislative record shows him to have been a supporter of the saloon element. Would it be consistent for me, or other temperance advocates, to aid the election of one who has proven false to all our interests? The clamor of hidebound politicians that the party's nominee, if not up to the mark of rectitude, must be accepted, is dangerous doctrine. The Republicans failed to secure a Congressman from the tenth district in 1892 by nominating Mr. Atwood, but the party does not seem to have profited by the results of that defeat. If the better class of voters would persist in bolting unfit candidates, political parties could soon be made to realize that they must raise the standard of office holding. I sincerely hope that Mr. Atwood will be overwhelmingly defeated in the approaching election, thus teaching delegates to Republican conventions that if they nominate men of doubtful integrity the best citizens will repudiate them at the polls."

Mr. Faxon furnishes this statement of the legislative record of Harrison H. Atwood antagonistic to the restriction and prohibition of the liquor traffic; also opposed to woman suffrage:

HOUSE OF 1887.

On ordering to a third reading the bill to repeal chapter 359 of the acts of 1885, relating to the disposition of cases for violation of the liquor law, voted yes.

On reconsidering the engrossment of the bill prohibiting the granting of liquor licenses in dwelling houses, he was absent.

On allowing women to vote on the license question, absent.

On ordering to a third reading the bi l to limit the number of places to be licensed for the sale of liquor to one for each 500 of the population, voted no.

On ordering to a third reading the bill prescribing the minimum fees for liquor licenses, voted no.

Engrossment of last named bill, voted no.

Engrossment of the bill relative to the forfeiture of liquor licenses, he was absent.

HOUSE OF 1888.

On recommitting the report of the liquor law committee, leave to withdraw, on the petition for a repeal of the local option law and for the enactment of a law prohibiting the manufacture and sale of all alcoholic liquors as a beverage, voted yes.

On recommitting to the liquor law committee the bill to exclude from juries in the trials of liquor cases all persons engaged in the manufacture or sale of liquor, voted no.

On three different readings of the bill to allow women to vote on the license question, voted no.

On reconsidering the engrossment of the bill to prohibit the sale of liquor on Fast Day, Thanksgiving Day and Christmas Day, voted yes.

On engrossement of the bill to define what shall be deemed intoxicating liquor within the meaning of the public statutes, chapter 100, voted no.

On engrossment of the bill to limit the number of places to be licensed, paired no.

On third reading of the bill to allow women to vote and hold office in municipal and town elections, voted no.

On the engrossment of the bill prescribing minimum fees for liquor licenses, voted no.

HOUSE OF 1889.

On ordering to a third reading the bill fixing the penalties for violation of the liquor law, voted no.

On ordering to a third reading the bill giving women qualified to vote for school committee the right to vote in municipal elections, voted no.

On substituting a bill relative to the granting of licenses for the sale of liquor, for the report of the liquor law committee, inexpedient to legislate, paired yes.

On engrossment of the bill to prevent fining or imprisonment for first offence of drunkenness, he was absent.

POLISHED CHIPS.

The Ledger Tour Among the 130 Quincy Firms.

NEW WORK AND IMPROVEMENTS

Thomas Miller to Ship Handsome Sarcophagus to Kansas.

There are over 130 firms in Quincy engaged in some part of the granite business.

There have been lots of inquiries for estimates of work for spring delivery and the prospect is good for next year.

James N. White is at work upon a plain granite sarcophagus monument to be erected in Cedar Grove cemetery in memory of John L. Stevenson.

For removing pieces of steel, etc., from the eyes none excell the granite workers who are daily called upon to relieve some fellow workman.

Nearly all the machinery of the Lyons Granite Co., has been put in position and work in their yards and quarries is rushing.

John Reinhalter has opened a quarry on the Bailey estate near Pleasant street.

William Turner has several handsome polished cradles in his yard.

The Glencoe Granite Co. think business is on the improve and they have good hopes for the winter.

The greatest piece of monumental sculpture in the world is claimed to be the German National monument erected in commemoration of the restoration of the German empire and Franco-Russian war.

The roads or cart paths that lead to some of the quarries are anything but smooth, and the wonder is that the stone teams do not break down oftener than they do.

Notwithstanding that the granite business is reported as being quiet, the Monumental News reports a number of new firms that have gone into business with a large capital.

Thomas & Miller have just completed a handsome sarcophagus monument of medium Quincy granite which will be shipped to Kansas next week. Mr. Miller will go on to set the same.

The Adams Granite Co., is building an 18-foot addition to its blacksmith shop.

Swingle & Falconer have this week shipped three car loads of finished stock, to the west.

Residents of Warren have raised funds to erect a monument to the memory of the late Rev. W. A. Rankin, as a mark of the esteem and reverence in which he was held during his long pastorate in their city.—Jamestown, (N. Y.) Journal.

The Boston Stage.

Park Theatre.

"Off the Earth," one of the greatest successes of the season, and exploited by a coterie of the leading artists of the country, will be the attraction at the Park Theatre, Boston, beginning on Monday, Oct. 29. This sparkling combination of burlesque, ballet, travesty and spectacle was written by John D. Gilbert, and the music which is taking and catchy, was written by Fred J. Eustis. "Off the Earth" opens in the "Bazaar of Wonders," a bargain store, in which a variety show and a circus side-show tent exhibition are provided for the patrons.

During a hypnotic scene, Luna, queen of the moon, visits the earth, and she condescends to take the principal character of the play to her realms, where nearly all the rest of the action occurs.

Grand Opera House, Boston.

At this theatre next week will be given the first Boston presentation of the romantic Irish comedy-drama "Rory of the Hill," a play dealing with the modern Irishman, his joys, troubles and adventures, and treating the subject matter in such a manner as can only be done by a native of the Emerald Isle, whose heart is the fountain spring of his dictations. James Connor Roach, from whose facile pen many pretentious stage offerings have emanated, is the author of the piece and the leading role, Rory O'Malley, will be essayed by him.

The New Lyceum Theatre.

Beginning Monday, another inviting and varied bill will be presented. This will include the famous character song artiste, Miss Hilda Thomas, whose success the past few years in leading theatrical productions has won for her a name as a prominent entertainer. Bostonians by the hundreds will recall her clever work as Gabriel in "Evangeline," and will surely give her a fitting welcome upon her return to the Boston stage. Miss Thomas will come with an extensive repertory of song.

Austin & Stone's.

Way from the Tchin hills of Burmah there has been brought to Boston the greatest object of that far distant country. To the inhabitants of Burmah their sacred white tattooed bulls are reverenced as their God. They bow down and worship these quadruped with all the pomp and spirit which the education of generations brings about. In Boston this sacred animal has been placed on exhibition at that popular amusement place Austin & Stone's Museum.

—The Norfolk County Poultry Association will hold its first annual exhibition of poultry pigeons and pet stock at Music Hall, Franklin, Mass., on Dec. 12 and 13.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

BRAINTREE.

Tuesday the committee in charge of putting in the fire alarm system made trial of the system at the electric light station, East Braintree, in presence of interested and competent parties, which proving efficient in answering all the tests deemed necessary, was formally accepted by the committee in the name of the town.

We are pleased to learn that Mr. John Kelley of East Braintree has been elected president of the Braintree and Weymouth Electric street railroad. This is putting assuredly "the right man in the right place." Mr. Kelley will now have an opportunity of showing what stuff he is made of, and if he possesses the executive ability of another Chauncy Depew.

The people of East Braintree are all on the *qui vive* in making due preparations for the formal dedication of the new school building, one of the finest in Norfolk county. The building is within a hundred dollars of being finished.

Next Sunday evening at the Baptist church there will be a harvest concert, and all are invited. A good programme is in process of preparation. Rev. L. B. Hatch will be present with his people throughout the day.

The keys for the fire alarm boxes have been put up.

The steam road roller has arrived and now the burning question is, what to do with it?

Wednesday the Braintree and Holbrook electric street cars began to run to Capen's bridge, which obliges them to make quicker time.

H. W. Borden has got the contract for building the new Russell-Randall block, to be erected on the corner of Pearl and Hancock street, South Braintree.

The change from hot water to steam in heating the handsome railroad station at South Braintree is going to work like a charm. Already the benefit of the change is felt and highly commended. The station is kept in excellent shape and it is worth taking care of. It is a fine building.

Charles Lothrop was out on a gunning expedition, one day this week at Great Pond. He shot at a pond hen and knocked her over; she lay as if dead for ten minutes, and Charles thought of how lucky he was; but all at once the fowl got up and flew away leaving Charles like Lord Aullen's daughter, "lamenting." 'Tis better not to cook a pond hen, till you get her.

Rev. J. B. Dunn, D. D., of Boston, will address the A. P. A's at the Town Hall, on Monday evening next. Good music.

The private coachmen's ball last night in Long's hall was a complete success. Now let the newspaper men have theirs.

The first of a series of informal dances, the same that have been given for the past season or two, takes place tonight in Long's hall, the matrons we understand are Mrs. Pitkins, Mrs. N. E. Hollis and Mrs. R. Elmer Morrison. Dancing from six to ten o'clock.

Sergt. Bannon's "recollections of the war," that have been published from week to week in the columns of the OBSERVER for many weeks and have proved excellent entertaining readings for our numerous readers, are drawing to a close.

The High School and Academy teams trotted out on the Common yesterday afternoon, in a light drizzle to play off the postponed game of last week, and the Academy eleven won hands down.

MILTON.

A large catch of smelts had been taken at the old railway wharf this week.

Adams street from the railroad crossing to Squantum street has been closed this week for repairs.

Mr. Kent, proprietor of the Wollaston steam laundry, has recently moved into the house of Mr. A. A. Brackett on Brackett street.

The foundation is being built for a building east of the Rugby Block to be occupied by a Chinese laundry.

The ladies sewing circle met Wednesday afternoon with Mrs. O. A. Andrews.

Mr. and Mrs. John Shields Jr., were presented with twin boys, Wednesday.

The Whist club met Wednesday evening with Miss Mabel Buck. Mr. Joseph Vogel, Jr., secured the gentleman's prize and Miss Buck the lady's prize. The next evening will be with Miss Graham.

☞ Some time ago we asked a veteran in the business what the requirements were to become an auctioneer? His answer: "First obtain your license, next inform the public, and always practice the following: Become proficient and well informed in matters pertaining to what you intend to sell. Above all things tell the truth, be wide-awake, active, courteous and considerate." We thanked him, and having followed his advice we now respectfully solicit your business. Henry L. LOOK UP the LEDGER printed bulletins at the news stands and see if there is not two cents' worth of news before making the investment. This is hardly necessary because it is worth five cents every day to every resident, but then there will be no xcuse for taking up the paper, and after reading the news returning it to the counter. Don't rob the newsdealer and publishers of two cents, but encourage the newsy local daily.

Furniture Economy.

It makes no difference what others say about goods, or what others get for them; at this store the aim is straight for one point, viz: To handle only reliable merchandise, and give it at the right rate, a trifle lower than any other Furniture house in the State, and we invariably do it.

Our increasing trade proves too well that there is satisfaction for the public in trading right here in Quincy on sure grounds, and we cannot help noticing how others attempt to imitate our methods.

It is gratifying for us to hear the old saying which comes to our ears so often, "More for our Money Here, we have come back to trade after wasting our time elsewhere."

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances, by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

DOUBLE RESIGNATION

Von Caprivi and Zu Eulenberg Leave the German Cabinet.

STATESMEN COULD NOT AGREE

On Matters Concerning Repression of Socialism.

BERLIN, Oct. 27. — Chancellor von Caprivi and Count Botho Zu Eulenberg, president of the Prussian council of ministers, have resigned. It is known that for some time past there has been considerable tension between the chancellor and Count Zu Eulenberg, owing to the former's views in regard to the measures to be submitted to the Reichstag for the repression of socialism. The chancellor is in favor of pursuing a moderate policy, while Count Zu Eulenberg believed in the adoption of radical measures to obtain the end sought.

COUNT VON CAPRIVI.

So many versions are current of the suddenly precipitated crisis that it would be impossible to form a definite conclusion until the matter has further developed Yesterday's outward events were as follows: After the services in the Russian chapel, which were attended by both Emperor William and Count von Caprivi, the emperor gave an audience to the chancellor at the castle at 2 o'clock. A quarter of an hour later. Count Zu Eulenberg had an audience with the emperor, and at 2:30 the emperor received Count Lechenfield, the Bavarian minister here; Count Hoenthal of Saxony, Baron von Buler of Wurtemberg and Dr. Jagen of Baden, all ministers of their respective countries.

Before his majesty received these ministers, both Count von Caprivi and Count Zu Eulenberg had resigned. Reports differ as to when, some saying that Count Zu Eulenberg resigned Tuesday, and that the emperor ineffectually tried to induce him to withdraw his resignation. It should be noted that Count Philip Zu Eulenberg, Count Botho's brother, is an intimate friend of the emperor.

Great Excitement Prevails.

The first intimation to the public of the crisis was the official announcement that the emperor had postponed his journey to Blankenberg. Any politician who had told in the morning that such a crisis was impending would have been laughed at. The greatest excitement was created when the events became known.

Numerous candidates are mentioned as successor to Count von Caprivi. Besides those already mentioned Baron von Zeedlitz is talked off. It cannot, however, be stated that any of those whose names have been mentioned have any prominent claims. It is asserted that the emperor has a "dark horse."

Count von Caprivi is said by his intimate friends to be glad to escape from the cares of the chancellorship. He is a moderate man, opposed to extreme views of any kind. Therefore, he is well hated in many quarters. The intrigues against him on the part of the Bismarckians and agricultural party have been bitter. He often expressed a desire to retire to military life, and only remained in office from a sense of duty to his country. He will, in a few days, proceed to Geneva for his health.

His persistent enemies have cause for self-congratulation, but the situation is regarded with great apprehension. It is believed that the emperor secretly favors strong repressive measures against the socialists and Poles, despite his expression of approval of Count von Caprivi's policy, and that the next chancellor will be called upon to introduce such measures. If so, stormy times are in store in the reichstag.

The emperor is credited with being much annoyed by the papers expressing such liberal approval of Count von Caprivi's policy. Any way, the latter's disappearance means a radical change in Germany's internal policy.

Caprivi's Career.

General Count Georg Leo von Caprivi de Caprera de Monte-Cucculi succeeded Prince Bismarck as chancellor of the German empire shortly after the latter's retirement in March, 1890. He was born at Charlottenberg in 1831, being the son of a high legal functionary in the service of Prussia. He entered the army in his 18th year, and won rapid promotion. He served with distinction in the campaigns of 1864 and 1866, and in the Franco-Prussian war he acted as chief of staff to the Tenth corps.

Swiftly ascending the other steps of the military ladder, he was appointed in 1883 to the command of the Thirtieth division at Metz. The next year he passed at a single bound from the army to the navy, succeeding Herr von Stitch on the latter's retirement from the head of the admiralty. In a short time naval men by profession were amazed at the mastery of their arts and the perception of their interests which were displayed by a mere landsman and soldier-like general, Von Caprivi. His administration proved at least that he was a man with a rare power of adapting himself to new modern lines of activity.

Soon after the present emperor's accession, the navy was reorganized and General von Caprivi was appointed to the command of the Tenth Army corps, the command of the imperial fleet being vested in Admiral von der Goltz. During maneuvers in the autumn of 1889, the emperor had a good opportunity to study the character of Von Caprivi, and later he was asked to accept the chancellorship. He was not anxious to accept the position, but his scruples and self-distrust were finally overcome, and he assumed the office which he has now resigned.

During his term of office he has had several severe contests with the reichstag, in all of which he has come out victorious. Among his later parliamentary struggles were the fights to secure an increase of the army and the adoption of commercial treaties. He was forced to make concessions on both measures, but the bills were finally passed to the satisfaction of the government, it being generally believed that Count von Caprivi had asked for more than he knew would be granted to him in order to make the concessions that were sure to be demanded.

His fight for a commercial treaty with Russia brought upon himself a fierce onslaught, and resulted in the formation of what is known as the agrarian party. The adoption of the treaty was opposed by every known political method, but in the end Count von Caprivi had the satisfaction of seeing the convention adopt it.

His fight to prevent the views of extremists in regard to the proper measures to be adopted against socialists and socialism prevailing is of too recent date to need extended mention. He insisted upon the adoption of a moderate policy, and it is said that the emperor agreed with him.

Count Zu Eulenberg is reported to have strenuously opposed anything but radical measures, and several times it has been reported that the difference of opinion between himself and the chancellor would lead to the resignation of one or both. It is surmised that this is the question which has at last led to the resignation of both.

Speculation is already rife as to Count von Caprivi's possible successor. Dr. Miquel, General Bronsart von Schellindorf, minister of war, and General Count von Walderse are spoken of, but hope or fear is chiefly father of the thought. Until something more definite is known of the causes of the crisis, there can be no solution.

The Tageblatt declares that the astonishment caused by the resignations is equally great among the friends and the foes of the ex-chancellor and the ex-Prussian premier.

The newspapers here are only able to give conflicting conjectures as to the real cause of the crisis.

Some Are Alive.

IRON MOUNTAIN, Mich., Oct. 27.—The only fact established is that a number of the men imprisoned at the Pewabic mine are alive. Whom and how many will not be known until late today. Communication was established by means of hammering rocks. The men are well supplied with air. They have now been imprisoned over 40 hours. Superintendent Brown is certain that at least eight of the men have escaped uninjured, but fears there may have been many caught under the falling walls and crushed to death. Around the shaft are gathered large crowds of relatives.

How Olney Views It.

WASHINGTON, Oct. 27.—Attorney General Olney, speaking of the statement of the assistant district attorney at Kansas City that there was no law by which election frauds could be punished in United States courts, said that on a careful examination of the statutes he was of the opinion that the Kansas City attorney was correct. At the same time there was no doubt in his mind but that state laws were in existence by virtue of which election frauds, whether of registration or of voting, could be punished in state courts.

Teller Francis' Downfall.

HARTFORD, Oct. 27.—J. A. Francis, teller of the City bank, and one of the most respected residents of the city, was arrested last evening. He has confessed to embezzling $28,859.83 from the bank through a series of false entries in his cash account. The guilty man is 61 years old, a prominent church member, and has been connected with the bank for 35 years. He infers that he has loaned the money to friends, expecting to replace it.

Not a Life Lost.

PROVINCETOWN, Mass., Oct. 27.—Fishing schooner John A. Matheson has arrived from the Grand Banks fishing grounds with all well. This is the last one of the Provincetown codfishing fleet to arrive. The season has been a successful one, as not a life has been lost and all have made good catches. An estimate is made of 15,000 quintals for the eight vessels engaged.

Booth's Tour Begun.

NEW YORK, Oct. 27.—General Booth, the founder of the Salvation Army, started today on his tour, which will embrace the principal places between here and Seattle, Wash., at which place he hopes to arrive on Dec. 31. All along the route governors, mayors and men in high standing have consented to take part in the meetings.

Tonghaks Causing Trouble.

SHANGHAI, Oct. 27.—The Tonghaks in Corea are said to be disposed to march upon Seoul. Some Corean troops and Japanese gens d'armes were sent to quell a disturbance caused by the Tonghaks, and the ringleader and 91 rebels were captured, and one of the leaders and 130 rebels were captured.

National Bank Looted.

COUNCIL BLUFFS, Ia., Oct. 27. — The Farmers' National bank of Malvern was wrecked and looted by robbers. The vault and safes inside of the vault were blown into pieces, the concussion completely wrecking the inside fixtures of the building. It is estimated that the robbers got away with $15,000 to $20,000.

Nebraska's Prairie Fires.

GORDON, Neb., Oct. 27.—The prairie fires now sweeping over the sandhills in this vicinity are doing immense damage. The flames consume everything in the tracks. The whole country in the neighborhood of Pullman is a raging furnace. People in the track of the fire are fleeing for their lives.

Work For Fitchburg Folks.

FITCHBURG, Mass., Oct. 27.—The Mitchell mill property, which has been in assignees' hands since September, 1893, has been bought by the Fitchburg Manufacturing company and will resume the manufacture of fine ginghams. Three hundred hands will be employed.

BOSTON, Oct. 27.—Thomas Norton, aged 50, while chopping trees in Apollo gardens, Roxbury district, was crushed to death by a falling tree.

WHEN YOU FEEL LANGUID,

dull and heavy, it's your liver that's at fault. A sluggish, torpid liver deranges your stomach and kidneys and bowels. It poisons your blood. You feel it "all over."

The best-known remedy in the world is Carlsbad. People go there, not only for a disordered liver, but for all the diseases that follow it, and for jaundice and chronic liver complaint, and every ailment of the kind.

There's no need for you to go. You get precisely the same treatment in the Carlsbad Sprudel Salt (the water solidified at the Spring) or in the imported waters. In catarrh of the stomach, dyspepsia, habitual constipation, diabetes, or any gouty or rheumatic affection, they have been a specific for hundreds of years.

Take only the genuine imported article, with the signature of "EISNER & MENDELSON Co., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle. Beware of the many worthless imitations sold here as "improved" or "artificial" Carlsbad Salt, which consist only of a mixture of common Glauber Salt and Seidlitz Powder, and in no way have the same action as the genuine natural remedy of Carlsbad. Insist upon the genuine.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

WITH STATE'S MONEY

Republicans Say That Democrats Printed Campaign Documents.

CLOSING WEEK OF THE BATTLE

Promises to Be a Lively One In the Empire State.

NEW YORK, Oct. 29.—Sunday is always a quiet day with politicians. At the political headquarters in this city yesterday the work of correspondence was carried on as usual, but there were few visitors. At the Grant headquarters Mr. Grant's letter of acceptance of the Tammany nomination was made public.

In his letter Grant says, among other things: "Wherever the responsibility lies, police blackmail and corruption are intolerable. I join every right-minded citizen in its condemnation and desire for its punishment. The root of the evil, however, lies in the system, and now that public attention has been attracted and public support guaranteed, I shall, if elected, do all in my power to hasten correction of every abuse.

"I advocate the thorough reorganization of the police department on such a basis as will render it impossible for such corruption as has prevailed to continue or exist.

"The success of the municipal ticket should be subordinated to the defeat of the reapportionment and the election of the Democratic state ticket."

Colonel Strong's headquarters were closed during the day, and Strong was not in evidence, except to a few of his closest supporters.

A Serious Charge.

At Republican headquarters a long dispatch was received from Albany and was at once given out for publication to the effect that the employes in the state departments there were employed in preparing and distributing thousands of campaign documents in the interests of the Democrats. The dispatch says in part: "The campaign work which should be done by the Democratic state committee is thus forced upon state departments and paid for from the state treasury. These documents are printed by State Printer James B. Lyons, and a large force of the department clerks are taken from their duties to the state to shove out, in individual envelopes, Hill's campaign documents."

It was announced that ex-President Harrison has consented to speak from his car on his way back to Indiana. It was said that the ex-president would give a few talks on his way up through the state from the car platform, the first to be at Albany next Friday.

The Registration

in New York and Brooklyn is very satisfactorily regarded by the Republicans, also, their leaders claiming that the vigilance which has been manifested in regard to repeaters throughout the state will make a difference of 30,000 votes to the Republican state ticket.

Corrections made in the returns show a total registration in this city of 399,930, the largest registration ever recorded in New York. The largest preceding was that of 1892, which reached a total of 309,625. The registration of 1893 was 265,908.

The recent arrest of several hundred men for alleged fraudulent registration, it is believed, has had a deterrent effect, and the large registration is considered a big increase in men entitled to cast their ballots. District Attorney John R. Fellows, however, expressed himself as not at all surprised at the registration. He though there was nothing extraordinary in it, and said he could see nothing substantial to be derived from either side from it.

Word was received at headquarters from the Republican state committeemen in Essex county that after a conference the two opposing candidates had withdrawn and that Albert Weed of Ticonderoga had been nominated as the Republican candidate for assembly. There is now no district above the Harlem river where there are two opposing candidates for assembly running against a Democrat.

The Chief Interest

of the present week among Republicans centers in the appearance of ex-President Harrison on Wednesday evening next at Carnegie Music hall.

In Democratic circles the start today of Governor Flower on a tour through the state in the interests of the Democratic state ticket is arousing a good deal of interest because of the master stroke the Democrats claim Chairman Thatcher has made in securing the services of the governor on so important a mission.

There has been a disposition on the part of the various organizations here to make public their allegiance to the respective tickets. The executive board of the grand lodge of the Independent Order of Sons of Benjamin, however, resolved not to permit the use of its name in connection with politics.

This decision was arrived at at a meeting of the board yesterday, at which resolutions were adopted repudiating any attempt to make use of the order for any political purpose whatever. This action was taken because, it was said, an attempt had been made to represent the order as opposed to the candidacy of Senator Hill.

ITS DAYS ARE NUMBERED.

T. D. Sullivan Tells Bostonians His Opinion of the House of Lords.

BOSTON, Oct. 29.—T. D. Sullivan, M. P., ex-lord mayor of Dublin and an ex-political prisoner under the Balfour coercion act, lectured here yesterday. Mr. Sullivan ridiculed the house of lords, styling it a relic of barbarous times, and pointed out the absurdity of the theory that because a man has some brains his offspring are capable of filling his place as a lawmaker.

"This institution has frequently been threatened and is now in its last days," he said. "If these lords inherit anything from their fathers' broad acres, it is the fear of human progress. They have destroyed every bill that sought for the advancement of the people that has come to them from the house of commons.

"Ireland is represented in parliament by a body of fearless men. The house of lords is composed of 573 dukes, earls, bishops, archbishops and so on, who do not fear removal by anyone. In the house of commons 40 constitute a quorum, but in the upper house three are all that is needed to destroy bills sent up. Three lords, then, have the same amount of brains as 40 members of the house of commons.

"These aristocrats, unless they are alarmed by some measure that comes up to benefit Ireland, are hardly ever present during the session, but when they are alarmed they are not slow in attending. The largest attendance ever known in the history of the house was on the day the Irish home rule bill came up from the lower house.

"Then they poured in from all parts of the world—the gouty were carried in, the blind were led in, and it was common knowledge that one member was taken out of an idiot asylum to vote against this bill."

Mr. Sullivan, in describing the interior of the house of lords, said: "It is called the 'gilded chamber,' but it is a gilded abattoir to the Irish people."

Awful Explosion of Dynamite.

CHIPPEWA FALLS, Wis., Oct. 29.—This city and vicinity were terribly shaken yesterday by an explosion which occurred on a summit of a hill a mile from town, where were stored in a small building five tons of dynamite. The stuff had been sent here on a consignment from a Chicago house to a local hardware merchant. It is presumed that a rifle bullet fired by a hunter into the building lodged in the powder. A handkerchief and a piece of coat sleeve were found about 50 rods away, and they are thought to be a part of the clothing of Paul Brohar, who was seen going in the direction of the magazine a short time before the explosion.

A Husband's Serious Mistake.

SANDWICH, Mass., Oct. 29.—Mrs. Ellis, wife of C. H. B. Ellis, was shot Saturday night by her husband while entering her own house through the window, and is in a precarious condition, suffering great pain from the wound in her shoulder, caused by the entrance of the bullet, which has not yet been extracted. Her husband is in the lockup awaiting an examination. It is clear that the shooting was accidental. Ellis was tired out and went to bed early, and on suddenly waking up was confronted with a supposed burglar, whom he thought was entering the house for the purpose of assassinating him.

Coxey House Burned.

MASSILLON, O., Oct. 29.—The handsome residence of J. S. Coxey at Coxana, four miles north of this city, was burned to the ground. A number of outbuildings were also destroyed, and but few household effects were saved. The origin of the fire is unknown, but it is supposed to have been the work of incendiaries. Loss, $10,000.

Alleged Anarchists.

WASHINGTON, Oct. 29.—Emil Sterlitz and Paul Biernes, two Frenchmen, were arrested early this morning as suspicious characters. A French hotel keeper charges that Biernes attempted to jump his board bill. The hotel keeper asserts that the men are anarchists, and that Biernes had recently come from Quebec.

Accident to a Lineman.

HAVERHILL, Mass., Oct. 29. — Frank Boyle of Newburyport, employed by the Haverhill Electric Light company, while at work on a pole yesterday, received a shock from a live wire and fell to the pavement, a distance of 30 feet, and was badly shaken up, face cut, hands burned, but no bones broken.

To Fight a Trust.

MEMPHIS, Oct. 29.—The federal court is to be asked by Tate Bros. to enter upon an investigation of charges that have been made against the cotton seed oil owners of the south to the effect that they have nearly all entered into a gigantic conspiracy to control the market for cotton seed.

Cherokees' Decisive Action.

FORT GIBSON, I. T., Oct. 29.— The Cherokees have now in the field in pursuit of the notorious Cook gang a force of nearly 300 well-armed men, thoroughly equipped for a continued campaign. The Cherokee nation has placed $500 reward on the head of each member of the gang.

An Argentine Earthquake.

BUENOS AYRES, Oct. 29.—An earthquake was felt throughout the Argentine republic Saturday. Many churches, theaters and private houses were destroyed. Twenty persons are known to have perished. The inhabitants are in a state of panic, fearing a repetition of the shock.

For Honest Government.

NEW YORK, Oct. 29.—The business men's mass meeting to ratify the candidates for municipal officers on the committee of Seventy's ticket was held in the big auction room of the real estate exchange today under the auspices of the Honest Government club.

A Gauntlet of Pasteboard.

LONDON, Oct. 29. — In a leader this morning commenting upon Premier Rosebery's speech opening the Liberal campaign The Standard says that he has thrown down the gauntlet, but, like Don Quixote's visor, it is only of pasteboard.

Relief Expedition Unnecessary.

ST. PETERSBURG, Oct. 29.—Trevor Battys and Hyland, his companion, who were supposed to be in straits on an Arctic island, arrived here yesterday. The rescue expedition planned by his brother had not started.

HONORS WERE EASY.

Japs Captured a Chinese Stronghold Without Much Difficulty.

SCRAPS FROM ORIENTAL PAPERS

Concerning the Great Battles of Ping-Yang and Yalu.

WASHINGTON, Oct. 29.—The Japanese legation received a dispatch which confirms the news published yesterday from Shanghai of a second victory of the Japanese army under Marshal Yamagata. The telegram is dated Hiroshima, and reads as follows:

"Before dawn of Oct. 26 our army, under Marshal Yamagata, attacked Kin-Len-Cheng, one of the important strongholds upon the Chinese frontier. The place was defended by 16,000 troops under Generals Lin and Song. The Chinese fled after offering only a slight resistance, and the Japanese forces took possession of the fortifications and the city. They captured 30 large field guns, an immense quantity of rice, food of other kinds, etc., and more than 300 tents. The Japanese loss was 20 killed and 63 wounded. The Chinese lost 200 killed. The exact number of their wounded is not known."

It is believed at the Japanese legation that the General Lin mentioned in the above dispatch is the noted Chinese commander who played such a prominent part during the Tonquin difficulty, and to whom it was recently reported Viceroy Li had offered the chief command in the Chinese army.

The Japanese legation has received its first mail of Japanese newspapers since the battles of Yalu and Ping-Yang, and they are filled with the details of the engagements, lists of killed and wounded, accounts of heroism and other evidences of war.

Chinese Invite Slaughter.

The bad tactical methods of the Chinese soldiers excite the derision of the Japanese. The latter point out that the Chinese erect breastworks and then sit quietly within without throwing out skirmishers to harass the enemy. The Chinese soldiers also raise a number of banners just as they fire a volley, so that the Japanese troops always know when a shower of lead is impending. The Chinese also exhaust the cartridges in the magazine guns as fast as they can fire them, making a hail of bullets and then a long calm. The rifles captured from the Chinese show rust of long standing and other careless treatment.

A touching story is told of a Japanese bugler who had just sounded the "charge" when he received a bullet in the breast. He was urged to lay aside his bugle, as any fresh exertion would make a hemorrhage, proving fatal. His reply was another blast of the "charge" as he toppled over.

The members of the Japanese house of peers have sent 500,000 cigarets to the Japanese soldiers.

The leading tea merchant of Japan has presented the war office with 1000 chests of tea.

Snow fell in Japan on Sept. 22, which is the earliest in 10 years. The cold weather may put a stop to the campaign until spring.

An Aggressive Press.

The Japanese press go to extremes in their demands for indemnity from China. One of them says China must pay Japan ten times the cost of the war, and must agree to let Japanese troops be stationed throughout China hereafter.

A Tokio paper states that prior to a Chinese naval inspection by Li Hung Chang the men manufactured cannon balls out of clay, painted them black and passed inspection with this bogus equipment.

Large coal merchants of Japan are charged with secretly furnishing coal supplies to the Chinese navy.

The gold ingots and coin captured by the Japanese at Ping-Yang amount to 700,000 yen.

Count Oyama, war minister, has issued a proclamation urging troops to show every kindness to the Chinese wounded, adding that they "should not be more anxious to display carnage than charity."

The Japanese naval experts say that torpedo boats proved to be a failure at the Yalu naval battle.

A Japanese clerk recently beheaded in Tien-Tsin is supposed to be one of the two students surrendered by the American consul.

Mother Is Dying.

LOWELL, Mass., Oct. 29.—A family quarrel occurred in the Linnehan family on Water street late last night. Mrs. Linnehan, the mother, is in a dying condition in St. John's hospital. Her son Daniel and his wife are also bruised and cut. The stories of the affair are conflicting, but apparently liquor had considerable to do with it, and the woman at the hospital was the peacemaker until she was so seriously injured.

Elevator System Sold at Auction.

MOOREHEAD, Minn., Oct. 29.—M. J. Moorehead of Duluth, receiver of the Northern Pacific Elevator system, sold the system at auction to E. M. Peet of St. Paul for $250,000, on behalf of the reorganization committee. The system will be incorporated into the Consolidated Elevator company, and will include all the terminal elevators at Duluth, besides plants in Minnesota and North Dakota.

Charged With Murder.

NEW YORK, Oct. 29.—Thomas S. Burke, the old South Beach hermit, who is charged with having, on Aug. 15 last, shot and killed his son-in-law, Frederick Bergman, was recently indicted for murder in the first degree. Burke's trial begun today.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

Editorial Comment.

ONE COULD not expect that an organ devoted almost wholly to politics, would make a fair statement of facts. When politics enter, one believes only as much as he pleases.

In our efforts this year to secure a lower tax rate, we were not actuated by any political reason. We were working solely in the interests of the taxpayer in a year of business depression. Taxpayers look more at results than methods, but as the most successful business men, Boston and other cities extend their debt at times, the proposed method in this case could not have been very serious. Had Mayor Hodges succeeded in reducing the tax rate $2 per $1,000 this year, he would have been triumphantly reelected in December next. But with a full knowledge of the large amount of debt maturing this year he deliberately increased the annual appropriations without providing any other way of meeting the same than by taxation. At no time during the year, we believe, has he vetoed an appropriation, or proposed any other time of payment than that outlined by the Finance Committee of the City Council, a majority of whom are Republicans. This committee, let us say, has this year apportioned the special appropriations with excellent judgment, scarcely increasing the amount maturing in 1895, which was already large.

The Advertiser says the LEDGER has been backing-up for the past five years the financial methods of the city. Again allow us to emphatically deny the assertion. It is a fact, we believe, in the six years of the history of the city, that the vote on any important appropriation has not been divided on party lines. Further, that if the total of all votes could be obtained that it would be found that more Republicans than Democrats had voted against appropriations. It is plain, therefore, that the Republicans are in nowise more responsible, if as much so, as the Democrats, for the city debt.

The point the LEDGER makes is on the years of maturity of the debt. Had this been more equitable apportioned when contracted, no one would now be raising an objection. It is the fault of the Democrats of one Council, not of the five years, that the maturing debt of 1894 was so large. It is an undisputed fact that the Democrats, with the Republican minority, overruled the reports of the Finance Committee and insisted throughout that year on "short loans." This in the face of the water debt which was about to be saddled upon the city. The two together account for the high tax rate this year. It was not too late this year, however, to have so managed the finances to have kept the taxes down, even smaller than last year, and it was for this that the LEDGER labored.

The statement of the Advertiser, that "Mayor Hodges has no worse opponent in the city" than the LEDGER, we are willing to refer to the candid judgment of people out of politics. We have always endeavored to treat His Honor fairly, believing the city's interests paramount to politics, and have often been criticised by Republicans therefor. It is because the Mayor did not show a guilding hand that we have criticised him. At that time, Mayor Hodges was not a candidate for reelection, as he personally informed the writer, therefore we were not opposing him for a second term. It was only on Saturday last that we learned he was a candidate for reelection.

The Advertiser implies that "outsiders" have written editorials for the LEDGER, but such is not the fact, and if it will please our contemporary, we will make this a signed editorial. F. F. PRESCOTT.

THE PROPOSED extension of the Quincy & Boston street railway from its present terminus at West Quincy to East Milton cannot fail to be otherwise than a great benefit to the business interests of Quincy, for East Milton with its population of 1500 will be put in touch by half hourly cars with our city, and as five cents will take them from East Milton to Quincy Centre, much of the trade that now goes to Boston will come here. This being the case, it is for the interest of the city that the City Council in granting the location do not cover it with so many conditions and restrictions as to make it impossible for the road to build the line and make the trip for five cents.

The location asked was on the side of Willard street, but the location as reported by the Committee on Streets, of the City Council is the middle of the street and that the entire line shall be paved.

Mr. A. G. Olney, real estate agent of Wollaston, reports the following transaction: The Nourse place on Arlington street, including 10,000 feet of land, has been sold to Herman Waterman. The Rich place on Winthrop avenue has been leased by Mr. Sheldon of St. John, N. B.

The gunners shooting from boats and steam launches on Sunday annoyed the people of Wollaston and Atlantic. A strong effort will be made next year to have the old law re-enacted, prohibiting shooting from boats, in the mean time why does not our police enforce the law against shooting on the Lord's Day.

Mr. A. G. Olney of Wollaston intends to push the case against the boys who smashed the glass in the house on Beale street, of which he is the agent. Unless the parents come forward and settle the bill for damages he will turn the case over to ex-District Attorney French of Braintree, who will probably bring the boys into court. This is a move in the right direction and will stop hoodlumism at Wollaston for a time at least.

EDGARTON—BIGELOW.

The Charming Daughter of Councilman Bigelow Becomes Mrs. Otis A. Edgarton.

The residence of Councilman and Mrs. John P. Bigelow of 37 Franklin street was prettily decorated Saturday evening with plants and flowers from the greenhouses of Mrs. Packard, and the marriage of their daughter Miss Grace Green Bigelow to Mr. Otis Atwood Edgarton of Dorchester, was a joyous occasion to the many life-long neighbors and friends in attendance. Rev. E. C. Butler of the First church tied the knot at 7 P. M., and a reception followed from 8 to 10, supper being served by Caterer Wales.

The bride's gown was of white silk with valencia lace and white roses. Miss Edith B. Hammond of Dorchester was maid of honor, and her dress was of white silk and imperial lace, and her bouquet of red and white pinks.

Mr. John P. Bigelow, Jr., was best man, and the ushers Mr. Charles A. Hobart and Mr. Albert J. Williams of Quincy, Mr. Harry Ober and George Smythe of Boston. Mr. Charles S. Whitcomb of South Braintree presided at the piano.

Mr. and Mrs. Edgarton were assisted in receiving by Mr. and Mrs. Bigelow, Mrs. James Edgarton, Mr. and Mrs. W. H. L. Smythe of Dorchester, Miss Sadie Restarick of Mattapan and Mr. and Mrs. W. H. Lee of Chelsea.

The young couple will be at home at 28 Beach street, Harrison Square, on the Wednesday evnings of November.

POLISHED CHIPS.

Monumental News of Interest to the Granite Trade.

The Philadelphia Times is moving for a monument to Governor Curtin. In its issue of Saturday, in a half column editorial, it says: There would be eminent fitness in erecting to the late Governor Curtin a monument worthy of the distinction he achieved in the great cause of preserving the unity of the Republic. Such a monument should be erected in the city, that during all the trying times of the war was the great centre of loyal devotion to the government.

There will be a monument erected over the grave of Curtin at Bellefonte. The people of his mountain home and his neighbors who throng its fruitful valleys will not be content that his tomb shall be left without some enduring mark of the exceptional devotion of his neighbors to him personally, and of their pride in his great achievements.

A curious and anomalous spectacle is presented by the voluntary restoration a few weeks ago of the Major Andre monument, erected in Tappan, N. Y., by the late Cyrus W. Field. At Tarrytown, only a short distance away, directly across the Hudson, stands the shaft that perpetuates the memory of Andre's captors—John Paulding, David Williams and Isaac Van Wart. Almost in sight of each other are these memorial tablets. One to the spy, who planned with the traitor, Benedict Arnold, what might have proven a disastrous blow to American liberty. The other commemorates his capture and the brave, patriotic fellows who so luckily accomplished it.—Post.

RAID AT WEST QUINCY.

Politics and Beer Were Flowing Freely When Officers Dropped In.

Chief of Police Hayden accompanied by Officers Hanson, Ferguson, Bradley and Bisset made an unceremonious call Saturday night upon John Cassaina at 120 Willard street. John was somewhat surprised at the call as were also the half dozen more men seated about a table drinking beer and discussing the probable chances of election of McEttrick and McNary.

By an oversight John had neglected to provide himself with the required documents to enable him to serve liquid refreshments, so the officers confiscated his stock, consisting of 12 gallons of beer, 3 gallons of wine, 1 gallon of whiskey, tumblers, pitchers, etc., and transferred them from their resting place in John's abode to cell No. 1 at the police station.

TO BE IMPROVED.

Lovell's Grove Changes Hand and May Become Popular.

The summer resort property known as "Lovell's grove," has just been sold to James Donaldson of Boston, the well-known shoe man, the price paid being about $35,000.

The grove, which is one of the most beautiful in the neighborhood of Boston, is situated in North Weymouth, and contains 10 acres, with big oak shade trees. The land is high. An extensive outlook may be taken from its towers.

The property was owned by E. B. Wildes, and was sold direct to Mr. Donaldson. The grove was improved by George Dunbar, many years ago, at an expense of $50,000. Since Mr. Wildes became the owner of the property many improvements have been made.

Mr. Donaldson, when seen last night, stated that it was his intention to expend between $15,000 and $20,000 in fitting the grove up, beside putting in a new line of steamers next season.—Globe.

THE KAISER'S CHOICE.

Von Hohenlohe and Von Keeller Will Take the Vacant Cabinet Seats.

BERLIN, Oct. 29.—The appointment of Prince von Hohenlohe as imperial German chancellor to succeed Count von Caprivi has been gazetted. The Gazette also contains the announcement that Herr von Koeller, under-secretary of the interior for the province of Alsace-Lorraine, has been appointed Prussian minister of the interior, vice Count Botho Zu Eulenberg, who held that office in addition to being president of the Prussian ministerial council.

It is believed that the only departmental changes likely to follow the change in the chancellorship in the Prussian ministry will be those necessary to prevent friction in the state machinery, the emperor being especially anxious for the continuity of the present foreign policy. Baron Marschall von Bieberstein, secretary of state for foreign affairs, will retain office.

The choice of Prince von Hohenlohe insured the continuance of the foreign policy as heretofore. He obtained favor in France as German ambassador, though he has no idea of any territorial restoration. In home policy he is a moderate conservative.

Herr von Koeller, the new Prussian minister of the interior, is in Prince von Hohenlohe's confidence, but his policy is more doubtful. He is identified with the anti-socialist methods.

WOMAN WAS KILLED.

Her Husband and Son Badly Wounded by a Gun Explosion.

NEWTON, Mass., Oct. 29.—A frightful accident in West Newton yesterday afternoon destroyed the peace of an humble home and plunged a contented, happy family into the deepest sorrow and mourning. The family consisted of Philip Raymond, aged 28, his wife and young niece, and two children, aged, respectively, 9 and 5 years.

There was a henhouse a short distance from the house, and of late it had been visited regularly by a colony of rats that infested the neighboorhood.

Raymond yesterday had a good chance to get a shot at the rodents and picked up an old two-barrelled shotgun and pulled the trigger. Both barrels exploded. His wife was almost instantly killed and his son and himself were badly wounded. Raymond is almost crazed with grief.

Epidemic of Suicides.

PHILADELPHIA, Oct. 29.—Augustus R. Billmyer, aged 50, was discharged from a good position and took to drink. As a consequence his wife left him. He committed suicide yesterday. The wife of John Wilfong, aged 32, left him a few days ago, and becoming impressed with the idea that she had been unfaithful to him John took poison yesterday. He will probably die. H. J. Johnson, aged 57, prefaced his self-murder, yesterday, by writing a tender letter to his wife and begging her forgiveness. He wrote that heart disease drove him to suicide. All three men took laudanum.

Surprising the Doctors.

ST. PETERSBURG, Oct. 29.—The czar's bettering is a surprise to everyone. Dr. Zacharin remarked to a friend that medical science was unable to explain this turn in the case. Such a rally, he said, contradicts all presumption, and impossible things now seem possible. The czarina's condition does not cause anxiety. The latest official bulletin issued from Livadia last night says: "The emperor slept well and his appetite is good. Otherwise his condition has not changed."

Weavers Giving It Up.

FALL RIVER, Mass., Oct. 29.—The weavers of the Shove mill have decided to return to work today. The action was taken at an independent shop meeting, and several other meetings have been called for today to take action upon the question of going back to work under the managers' offer independent of the vote of the weavers' body. It is expected that the result of today's meetings will be a general vote to return to work.

Condemned the Militia.

BOSTON, Oct. 29.—The militia was a subject of discussion and much adverse criticism in a number of labor meetings yesterday. On Oct. 21 the Central Labor union adopted resolutions condemnatory of the militia. This action has been endorsed by the Upholsterers' union, Carpenters' union 33, Cigar Makers' union 97, Furniture Workers' union 24, and by Typographical union 13 and other local unions.

Another Case of Smallpox.

WASHINGTON, Oct. 29.—Another well-developed case of smallpox was discovered yesterday, the victim being Charles E. Williams, a colored messenger in the interior department. His case is traceable to the fact that he came in contact with another messenger in the department who has been stricken. Williams is the third messenger in the department who has been attacked.

The Dover Strike.

DOVER, N. H., Oct. 29.—The District Mule Spinners' association yesterday voted not to accept the 5 per cent reduction offered by the Cocheco company, but declared a willingness to work at the Fall River schedule. The strike will be continued and bulletins will be issued calling upon mule spinners to stay away from this city.

A Freak of Nature.

SAN DIEGO, Cal., Oct. 29.—The shocks of earthquake which began last Tuesday afternoon continued during the week, and reached an end with a perceptible shock. A spring of water, which had been obliterated before the earthquake two years ago, again sprang into existence.

Emperor's Composition Was Applauded.

BERLIN, Oct. 29.—The emperor and empress last night attended an opera performance in aid of the movement to secure funds for the Emperor William Memorial church. The emperor's "Song to Ægir" was sung and loudly applauded.

Ravisher Captured.

BALTIMORE, Oct. 29.—Henry Leonard, a negro charged with attempting to assault a young white woman, was captured and lodged in jail here. An angry crowd collected in front of the jail. The police finally dispersed the crowd.

WASHINGTON, Oct. 29.—The cruiser Detroit, which is to be added to the fleet of vessels on the Asiatic station, has left New London, Conn., on her long journey. She will make the trip via the Suez canal.

McEttrick Rally.

A rally to endorse the candidacy of Michael J. McEttrick for Congress was held Saturday night at St. Mary's hall.

The speakers were Mr. McEttrick and John J. Moran, Lewis Doud, Frank Foster and A. A. Carleton. Candidate McEttrick paid his respects to Candidate McNary and the organization known as the A. P. A. He would like to discuss their respective labor records in the Legislature. McNary's record there was one an honest man would hate to think of. Let him meet the issue fairly and fearlessly, instead of making a record for me out of his own head which he in his heart knows to be absolutely false.

Mr. Moran severely criticised the labor record of Mr. McNary, and said he would like to meet Atwood and Fitzgerald.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

—Attleboro, Mass., the jewelry town of the world, celebrated its 200th anniversary Oct. 19th and 20th, and did it with a champagne fizz and sparkle. The town was dressed like a bride for a wedding. TERRIBLE WEIGHT.

THAT BEARING DOWN FEELING.

[SPECIAL TO OUR LADY READERS.]

The recovery of Lucretia Osborne Putnam of Forristdale, Mass., was really wonderful. She had been sick for years.

She was utterly prostrated, and seemed beyond a hope of cure.

Her spine, heart, liver, and brain were all seriously affected.

The weight of her body upon her feet would cause dizziness, faintness, and terrible pains in her back, and it was sometimes several hours before she could dress.

This woman's trouble was in her womb, effecting her whole constitution.

She was crushed with that indescribable feeling of bearing down, and suffered agonies that would appal a man.

She found new life in *Lydia E. Pinkham's* Vegetable Compound.

She says: "I am like one raised from the dead. I was sick so long I thought I never could get well.

"The suffocating, gasping attacks and awful bearing down feeling left me, my appetite returned, and my friends wondered at my improved looks. I believe Mrs. Pinkham's remedies are a sure cure for the misery of our sex."

IN THE CHURCHES.

About One Hundred Religious Services Sunday.

QUINCY A CITY OF CHURCHES.

The Ledger to Make a Feature of This News on Mondays.

THE LEDGER announced on Saturday at least 69 religious services including Sunday Schools and young people's meetings, for Sunday, and the services were not complete nor were eight societies included. Quincy is a city of churches as well as a city of granite and of schools. It has 22 church edifices, besides 6 societies which meet in halls. So long as there is one church for every one thousand citizens the city is safe. Three churches have been dedicated in Quincy this year.

Through a misunderstanding Mr. James B. Thomas of the Harvard Divinity school, who was to have conducted the services at St. Chrysostom's church, Wollaston, on Sunday, did not come out from Boston, so it was necessary to postpone the service.

The attendance at the harvest concert of the Congregational church, Sunday evening, was very large and the exercises were of a pleasing nature, The programme consisted of the cantata "Garland Sheaves," which combined music and recitations, which were given by members of the Sunday School. Miss Isaac was also heard in a pleasing solo.

The magnificent contribution of $103, given by the Wollaston Congregational society to the New England Home for Little Wanderers has been increased to $115.

The services at St. Chrysostom's church, Wollaston, will be conducted by Mr. James B. Thomas of the Harvard Divinity school. Mr. Thomas acted as Deacon at the opening services of the church on last Thursday evening.

All of the services at the First church were largely attended Sunday. At the morning service at 10 30, the pastor, Rev. Ellery C. Butler, preached an eloquent sermon. In the afternoon at 4 o'clock, there was a vesper service, lasting a little over an hour. In the evening at 7 o'clock there was a meeting of the Guild at which the subject was "God works surely, if Slowly."

The Rev. F. W. Pratt of West Roxbury, preached at the Wollaston Unitarian church on Sunday, exchanging with the Rev. James E. Bagley of the Wollaston Unitarian church.

Work has begun grading about the enlarged chapel of the Quincy Congregational church.

The Rev. Edward A. Robinson of the Wollaston Congregational church, exchanged with the Rev. George Walcott Brooks of the Village church, Dorchester, on Sunday.

Hospital Sunday was observed at only one of the Wollaston churches on Sunday,—the Methodist. A collection of $15, was taken up.

Mrs. E. A. Gleason, the noted temperance speaker, addressed the various Wollaston Sunday Schools on temperance a on Sunday and in the evening spoke to large audience at the Baptist church.

James B. Thomas, a divinity student, conducted the services at Christ's church Sunday, morning and evening, and delighted his congregations.

Will pastors and others please encourage the LEDGER in its efforts to print all the religious news by promptly forwarding items?

How Wollaston Feels.

There will be a meeting of the pastors of the different churches and the Ward Five Hospital Canvassing Committee on Tuesday evening to discuss by what means the money shall be collected this year, whether it shall be by collections at the churches or by a personal canvass. Wollaston contributed $815.03 last year. Wollaston's contribution will probably fall considerably short of that amount this year as there seems to be a feeling that Wards Three and Four (South and West Quincy) where 48 of the accident cases came from last year, did not do their share in supporting the institution. Their combined contributions (South Quincy $300, and West Quincy $32.25) but slightly exceeded the Wollaston contribution. Wollaston is always ready to do its share in charitable work, in fact it does more than its share, but as a prominent citizen expressed it, he would like to see the two wards for which the hospital was built contribute their share towards its running expenses.

—The weather bureau has made arrangements with Jesuit priests along the coast of the Gulf of Mexico to Yucatan by which telegraphic advices concerning storms from the Carribean Sea can be received at Washington.

A cargo of 40,000 frozen carcasses of mutton have been received at London, shipped direct from Auckland, New Zealand. This shipment was equal to about 2,500,000 pounds of mutton, and report has it that the ocean pneumatic refrigerators are playing havoc with the prices of mutton, as it can be supplied from the above point much less than the London quotations.

To harden tools for engraving they are heated to whiteness and plunged into sealing wax, withdrawn after an instant and plunged in again, repeating the process until the steal becomes cold. The tool will thus become almost as hard as a diamond.

THE LITERARY SOCIETY.

The Study of Poetry the Subject of Essay and Discussion.

In all ages and countries poetry has played an important part in human affairs, whether chanted from lip to lip in the unlettered epochs of the past, or produced mid all the accessories of embellished art that mark the threshold of the 20th century, it alike appeals to the imaginative and spiritual forces inherent in humanity. Its wholesome influence in directing the development of the higher mental faculties of the race has been incalculable. Even in such an intensely practical age as the present, its votaries are legion, and the words of the true poet still sway the reason, and guide the aspirations of mankind.

It was little wonder then, that despite the severe inclemence of the weather on Friday evening, there was a good attendance of members at the meeting of the Quincy Literary Society to listen to an essay on the study of poetry by Mr. James McAdam. The chair was occupied by the president Dr. R. McLennon.

The discussion that followed the reading of Mr. McAdams' paper was of a decidedly complimentary character. It was realized that the subject was not a very debatable one, that poetical influence was a matter of personal feeling rather than a definite experience conveyable to others in words and symbols.

Next week an interesting innovation in the line of discussion will be adopted.

The subject of the evening will be a debate upon the particularly timely topic: "Should the women have the suffrage?" The affirmative side will be opened and closed by Miss Mabel Adams, than whom there are few better qualified to present the claims of the sex for political recognition. The negative side is under the direction of Mr. Alexander Cowe, one of the most competent members of the society. All are cordially invited to be present.

A PROFESSIONAL.

He Had Designs on George Gould's Roll, but Put Up With Smaller Game.

"The last time I went to Europe," said an editorial friend of mine, "I went in very distinguished company. Among my fellow passengers were George Gould and family, Widener, Elkins and Yerkes, the street railway millionaires, and I don't know how many more rich men.

"On the second day out there was the usual drift of fellows of sporting proclivities toward the smoking room, and very soon several games were going on. A very gentlemanly person who was looking on like myself asked me if I ever played poker. I said, 'Yes, now and then, if the stakes were small.' After a little further conversation we found three other men, took a table and began to play a dollar limit game. Some of them wanted to make the limit higher, but I was firm, and we kept it down. We played pretty much all day, and then again at night without any very big hands or any great variation in luck. Finally, however, I struck a big hand, and so did my gentlemanly friend, who was indeed quite the most agreeable man at the table. We backed our hands for all they were worth, and perhaps in my case for more, for I lost. The same thing happened several times, and the result was that, small as the game was, I got up from the table $50 out of pocket. The next day we played again, but there was very little life in the game, and finally we gave it up.

"The matter had almost passed out of my mind when the man who had won my money came to me one day as we were nearing the other side and said:

"'I think I ought to give that money back to you.'

"'I don't see why,' said I. 'If I had won your money, I should have taken it.'

"'Yes, but this is different.'

"'How different? I don't understand.'

"'Well, the fact is, I don't mind telling you that I am a professional.'

"'Well, if I had known that, I don't think I would have played with you. But if you won my money fairly keep it.'

"'That's just it,' he said. 'Here is your money. You are not the sort of game I am after. I rang in a cold deck on you during a deal, and I am one of the few that can do it.'

"Then he went on to tell me after I had taken the money that he had come abroad expressly to pluck George Gould or one of the street railway magnates, but had given up the job. 'The fact is,' he said, 'rich men nowadays are not like they used to be. So soon as a man gets a big pot of money he does all his gambling in stocks or grain. Sometimes we get hold of a sucker that has come into a fortune by luck, and he is good game, but that sort is getting scarcer every day. Don't give me away until I leave the ship. Good day!'"—M. P. Handy in New York Mail and Express.

THE PHONAUTOGRAPH.

A Remarkable Machine Invented by a California Genius.

A San Francisco man has invented a machine which will do away with typewriters, both instruments and operators, if he succeeds in perfecting his invention.

The new machine combines the phonograph and the typewriter, and in looks bears considerable resemblance to a cash register. On the front of the machine are small electric buttons, which you press before talking into the mouthpiece projecting from the upper part. This mouthpiece is connected with a revolving cylinder, which receives impressions in a way similar to the Edison phonograph. A traveling needle regulates the position of the impressions on the cylinder according to the size of the paper they are to be reproduced on.

The filled cylinder is placed on rollers in the lower part of the machine. Above the rollers is a supply of paper for receiving the written characters.

There are several mysteries about the working of the new invention. No ink is used, the written characters being produced in a bold, round hand by chemical action. It spells entirely by sound and is unable as yet to cope with the diphthong, the silent letter, the capital, the semicolon or figures, but it will receive the sounds of the human voice in any language except Chinese and reproduce them in plain English chirography.

This seeming fairy tale comes from the financial backer and the inventor, these two men being the only persons who have seen the wonderful machine. —Kate Field's Washington.

Home News From Abroad.

After enduring insult and calumny at the hands of scurrilous journalists for many years the leaders of New York society have thought it time to revolt. They have engaged counsel to frame an act establishing a "court of censorship" upon news, which they fondly hope will be made law some day. In the meantime the personalities will continue, and—what is the foolish part of it—the purchase of the papers by the reformers will continue.—London Globe.

A Large Transaction.

The corporation at Cardiff, in pursuance of the ambition to make that port a rival of Liverpool, have decided to buy up various docks and lands, the present property of the Marquis of Bute and other private owners. The purchase money is $35,000,000, and Cardiff believes she can raise the money at 3 per cent on the security of the borough taxes. This is one of the biggest deals of the kind in recent years.

Volcanic Ashes.

The scientists of a European expedition now in Ecuador have been making analyses of ashes which fell 150 miles away from Cotopaxi at the time of its last eruption. They have found them to consist mainly of feldspar, quartz, maquetite and specular iron ore. One sample yielded silver at the rate of 200 grains to the ton.—St. Louis Republic.

PATENTS
NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

While We Live, Let Us Live.

Life's joys are many, but cares are more,
And half the apple is always core.
Still it's not all work if it's not all play,
Though sad tomorrow, we'll sing today.

Then waste no time over sighs and tears,
For age counts not by the flight of years.
Though steps must falter and hair turn gray,
If we're old tomorrow, we're young today.

Come, shout hurrah! for a merry life,
And if short the pleasure—well, short the strife,
And banish sorrow with yesterday.
Though dead tomorrow, we'll live today.

Don't strike your flag to an unseen foe,
Don't say goodby till it's time to go,
And we'll cheat care yet in this simple way,
For tomorrow the morrow will be today.

NASHVILLE, Oct. 29.—J. A. Gates, the Populists' candidate for congress in the Eighth district, has been withdrawn, and there will be an attempt to fuse with the Republicans and support McCall, Republican, against Enloe, Democrat.

Disastrous Freight Wreck.

BRISTOL, Pa., Oct. 29.—A construction train having on board about 40 laborers pulled up near Corrydon and stopped to take on more workmen, when a fast freight crashed into the work train. Several cars were wrecked, and in the crash three men were instantly killed and 20 were injured. Three or four may die from their injuries.

To Vote or Not to Vote?

SAN DIEGO, Cal., Oct. 29.—It is alleged that several hundred Indians who have been allotted lands in severalty have been registered as voters in this county. The authorities are divided in opinion as to the constitutionality of the procedure.

Freights Collided.

LIMA, O., Oct. 29.—A fast freight was run into by another freight in a dense fog just east of the Ottawa river bridge. Six cars were thrown down an embankment and wrecked. Three men were injured seriously, but not fatally.

Prize Drilling at Memphis.

MEMPHIS, Oct. 29.—An interstate drill begun here today. Military companies from all parts of the United States will participate. Citizens have raised a purse of $10,000 to be distributed as prizes to the best drilled companies.

Why does the air of the pine woods have such a beneficial effect on consumptives? It is on account of its purity and of the antiseptic substances contained in the exhalations from the trees.

A PLOT OF FIENDS.

Hungarian Boarding House Blown to Splinters by Dynamite.

SEVERAL DEATHS WILL RESULT.

Authorities Have Placed the Landlord Under Arrest.

WILKESBARRE, Pa., Oct. 29.—A large Hungarian boarding house at Laurel Run was blown to atoms by dynamiters early Sunday morning, and three of the inmates were killed outright, four fatally injured and a half dozen seriously hurt.

The fiends who planned the explosion did their work well, despite the fact that part of their plan failed. They placed about 24 sticks of dynamite under the building, each being about nine inches long and weighing about half a pound. A wire connected the sticks with a battery situated about 50 yards away.

When the electricity was applied, only about half a dozen sticks exploded. They were sufficient, however, to completely wreck the building. Several of the inmates who occupied beds in the upper floor were hurled 50 feet in the air, some of them escaping fatal injuries by alighting in the trees near by. Half dazed by fear and sleep, they managed to hold on to the limbs until they recovered their senses and

Were Able to Reach the Ground.

A trackwalker, who arrived on the scene shortly after the explosion, says it resembled a battlefield. The cries of the injured filled the air. Some of them were in the trees, others were lying on the ground, and still others under the debris of the wrecked building.

One of the boarders, who escaped injury, made his way to a neighboring shanty and awoke the inmates. Blankets and bedding were then carried to the scene, and the injured made as comfortable as possible.

At daylight the officials of the Lehigh Valley railroad were notified, and a special train, with a number of physicians, was hurried to the scene. The doctors dressed the wounds of the injured, who were afterward brought to the hospital in this city.

Robbery Probably the Object.

The boarding boss says he is at a loss to know what prompted the dastardly deed. He says he has no enemies in the world. Some of the boarders think the motive was robbery, as several of them were known to have considerable money in their possession.

No arrests have yet been made. One of the wounded men says that immediately after the explosion he saw four strange men running down the roadway leading to the village of Miners Mills. They carried lanterns. While he lay on the ground another stranger approached him and rifled his pockets. He also cut the belt which encircled his waist and carried it away. Another of the injured gives it as his opinion that the men seen after the explosion were tramps.

The dynamiters used Pittsburg dynamite, which fact may lead to their discovery, as dynamite of that character is used by the railroad contractors, whose toolhouse is near the scene. The toolhouse had been broken open and a new battery taken out. An old battery was found near by. The supposition is that the latter would not work and a new one was necessary.

Michael Bellakovitch, the proprietor of the boarding house, was arrested last night and sent to jail. The authorities say they want him as a witness. He has money in his possession, and on Saturday last told a friend that he was going to the old country on Monday.

Carved His Countrymen.

BOSTON, Oct. 29. — Salvatore Razzo, Guesippi Leppierio and Bemlamino Uva, Italians, became involved in a free fight last night on Hanover street. Razzo drew a knife and proceeded to carve up his enemies. He drove the knife to the hilt in Leppierio's abdomen, penetrating the intestines. Uva was stabbed in the left hand, was taken to the Massachusetts general hospital, and it is doubtful if Leppierio will recover. Razzo was arrested.

For Benefit of Marines.

NEW HAVEN, Oct. 29.—The two-masted schooner Robert P. King, a down-east vessel, has been chartered by the New Haven Steamboat company to serve as a lightship during the winter months. She will be stationed at the mouth of the harbor, southeast of the regular light, and will remain there until March.

The Methodists' First Home.

NEW YORK, Oct. 29.—The John street Methodist church celebrated its 125th anniversary yesterday. It was an event of considerable interest to the millions of Methodists in America, for on the spot where this rather shabby church stands was erected the first Methodist meeting house in America.

Seeking Reunion.

ROME, Oct. 29.—The second meeting of the conference to devise means, if possible, to reunite the Eastern and Western churches was held yesterday, the pope presiding. The principal topic of discussion was the increasing influence of the Eastern patriarchates as proselytizing centers.

Chili's Big Show Opened.

SANTIAGO, Oct. 29.—At 2 o'clock yesterday afternoon the mining and metallurgical exposition was inaugurated with appropriate ceremonies, and there is every evidence that it will be a grand success. England, Germany, America and other countries are among the exhibitors.

Bows to Hungary's Will.

BUDA-PESTH, Oct. 29. — Francis Kossuth, son of Louis Kossuth, arrived in this city yesterday. In reply to the greetings of a deputation, he said he bowed before the will of Hungary, which had become reconciled to the present dynasty.

Scored by Mexicans.

GUATEMALA, Oct. 29.—The government is frightened because it is known that Mexico has sent troops to cover her frontier, and the feeling is freely expressed that the troops may invade Guatemala.

A Case of Suicide.

DAMARISCOTTA, Me., Oct. 29.—The remains of Percival R. Oliver, who disappeared May 23, were found yesterday in a reservoir formerly used by the shell mill. He had evidently committed suicide.

MUCH GOOD WORK

Accomplished by Berkeley Temple, Pioneer of Institutional Churches.

BOSTON, Oct. 29.—Berkeley Temple began a series of important meetings yesterday. The program for the week includes a series of meetings in the interest of good citizenship, municipal reform and the Christian Endeavor movement as related to these subjects; the rescue of children from the slums and dangers of the cities, the proceedings of the second annual conference of the Open or Institutional Church league, the recovery of abandoned women and the problems of the large and aggresive city churches.

Berkeley Temple is the pioneer institutional church in the United States. The name of this new ecclesiastical species originated with President Tucker, LL.D., of Dartmouth college. He used it in conversation with Dr. Dickinson, and the latter adopted it, and it has become naturalized in the phraseology of all denominations. Berkeley Temple, contrary to the popular impression, is not composed wholly of the so-called "mission element."

Thirty-five meetings are held weekly in 22 rooms. About 90 per cent of the intemperate dealt with have been reformed. There are at least 50 such churches in the United States as the result of the changes in church-life during the last seven years. They are principally in Congregational, Presbyterian, Baptist and Methodist churches.

Diminished Importation of Sugar.

WASHINGTON, Oct. 29 — The importations of sugar show a remarkable falling off during September, the first month after the new tariff law went into effect. In July there were imported 765,000,000 pounds, compared with 293,000,000 in the same month of 1893; in August, 145,000,000, as against 201,000,000 pounds for the same period in 1893. The enormous disparity between the two July months was due probably to the efforts to get all the sugar possibly into the country before the new law went into effect, and this may account for the unusually small figures that are given for September.

Senator Cranston's Funeral.

PROVIDENCE, Oct. 29.—The funeral of Senator George T. Cranston of North Kingstown was held at the Advent Christian church yesterday, and was attended by Governor Brown and nearly all the state officials, delegations from all Grand Army posts and inmates of the soldiers' home of Bristol. After the service interment was held at Glenwood cemetary, Allentown, services being conducted by C. C. Baker post.

Most Choked Off.

NEW YORK, Oct. 29.—The Newark police last night refused to let Johann Most produce his play, "Die Weber." This action was taken mainly because of the unsettled and excited condition of the thousands of Polish and Russian women in the part of the city where Most and his band of anarchist actors intended to perform.

Engineer Seriously Injured.

REVERE, Mass., Oct. 29.—Locomotive 107 of the Boston and Maine railroad left the track, when entering this town. The track was torn up for a distance of several feet, and Engineer Hanson was violently thrown from the cab, bruised and probably internally injured. The accident was caused by spreading rails.

Mysterious Diamond Robbery.

SPRINGFIELD, Mass., Oct. 29.—Another mysterious diamond robbery, the second within a month, occurred in this city last night. The house of Nelson C. Newell was entered and a pair of diamond earrings and five diamond scarf pins, valued at $300, were stolen.

Contraband Liquors Seized.

BOSTON, Oct. 29.—Captain Brown and his squad yesterday seized 500 gallons of beer and liquors, besides 2000 empty bottles. Two hundred gallons were seized at an establishment in Roxbury supposed to have been under the protection of a well-known brewery.

Twenty-Three Years In One Pulpit.

EXETER, N. H., Oct. 29.—Rev. John N. Chase yesterday preached his farewell sermon as pastor of the Baptist church, after 23 years' service. This evening parishioners and friends give him and Mrs. Chase a reception.

Dr. Jerdon has stated that the spine-tailed swift, roosting in Ceylon, would reach the Himalayas, a thousand miles, before sunset. In their ordinary flight the swift was the only bird the author ever noticed to outstrip an express train on the Great Northern railway.

PATENTS
FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

SCHURZ'S BROADSIDE

Unmerciful Lashing of Tammany Tigers and Their Methods.

HILL IS THEIR ONLY SALVATION.

Cited as a Case of the Devil Claiming His Own.

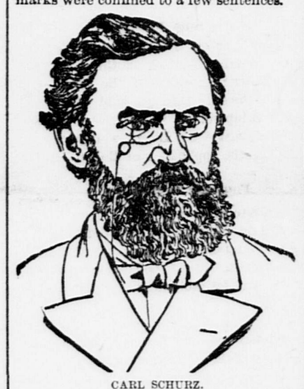

NEW YORK, Oct. 30.—Notwithstanding the quiet appearance of the different political headquarters in this city yesterday, a great deal of active political work was in progress. All still express the utmost confidence in the success of their respective tickets.

So far as the city is concerned, the Tammany men place great reliance on their thorough organization, and even their opponents admit that the full Tammany vote will be polled. The adherents of the Seventy ticket base their firm belief in winning upon the conviction that there will be, regardless of ordinary political methods, an "uprising of the people," such as overthrew the Tammany rule in 1871.

Much of the quiet work done yesterday was directed toward detecting frauds in registration and toward arranging to get to the polls without fail all who are registered.

Perhaps the most important incident of the day was the attempt of an evening newspaper to implicate Colonel Strong in an old matter involving leanings toward the A. P. A., and his prompt denial of any intentional participation in it.

Cooper Union was crowded last night when the Reform Democrats met to express their determination to support Everett P. Wheeler, the nominee for governor. Mr. Wheeler spoke, but his remarks were confined to a few sentences.

CARL SCHURZ.

Carl Schurz was the orator of the evening, and was repeatedly applauded. He said in part:

Plain Language.

Mr. Schurz began by telling his hearers he was there as a private citizen, not engaged in active politics, to tell them why he thought David B. Hill should not be elected governor of the state of New York and why Everett P. Wheeler deserved support.

"There is in this municipality," said Mr. Schurz, "a great struggle going on which is to decide whether the city of New York shall be owned by the inhabitants thereof or by Tammany Hall. It has long been popularly believed that Tammany Hall is a nest of rapacious freebooters, but recent disclosures of corruption, of blackmail, of robbery, of vice and crime planted and protected for revenue, of terrorism, of cruel oppression practiced upon the poor, the weak and the helpless, have gone far beyond popular expectation.

"The good citizens of New York concluded at last that it was time to make an end of this. The Tammany chiefs became alarmed. They saw a day of judgment coming. The head chief, Dick Croker, took to his heels. He gathered up the princely fortune he had saved from his revenues as king of New York, and retired as a Tammany 'sage' complacently, conscious of having secured his harvest in season.

"But the other Tammany chiefs were not so comfortably settled. They had to brave the coming storm. They found themselves put to their wits and tried various devices. They would do anything to make people forget the tiger's teeth and claws until after election, but it was all in vain.

Opens His Batteries on Hill.

"In their extremity they bethought themselves of their lifelong friend, their trusty confederate, David B. Hill. If they could only make Hill governor again they need not trouble themselves about a defeat in a mayor's election.

"But would Friend Hill be willing to accept the nomination for the governorship? Hardly. Comfortably ensconced for several years in the senate, he would not like to take unnecessary risks. Tammany, therefore, resolved to nominate without asking, and the game succeeded.

"It is universally known and not contradicted that the stampede in the Democratic convention which thrust the nomination upon Hill was planned and managed by Tammany, and that Hill had been nominated and virtually accepted and found himself harnessed to the Tammany cart ere he had time to rub his eyes. That so sly a fox should be caught by surprise may seem ludicrous. But it is more than a joke; it is the sin of the evildoer coming home to roost; it is the devil claiming his own.

Hill and Tammany Bound by Ties.

"So often had Hill ridden into play and power on the backs of Tammany Hall and the state machine that Tammany and its allies have a right to jump upon his back and say: 'Now, we will ride you for our salvation. We have done your work; now you will do ours.' All this is perfectly fit and proper; Hill and Tammany are bound together by natural ties. They are of one flesh and blood. Their principles are the same, their methods are the same, their sins are the same. As Tammany has always fought Hill's battles, so Hill now fights the battles of Tammany.

Mr. Schurz reviewed the political career of Senator Hill, and pointed out instances where, he claimed, the senator had shown himself to be a trickster. He declared that there was no better genius of mischief in Democratic ranks, no abler traitor to Democratic principles and policy, Democratic virtue and the Democratic administration. "There are few rogues in politics," he said, "whom David B. Hill cannot easily beat at their trade. And there seems to be lots of credulous citizens over whose eyes he is still able to pull the wool. I leave it to you to think out what will become of the country and your party if such ability is to rule their destinies."

Continuing his criticism of Hill, Schurz asked his audience to look the situation squarely in the face. "There is an anti-Democratic current sweeping over the land. We all know it. Democratic defeats crowd one another. What is the trouble? If the choice between the McKinley tariff and the Wilson tariff were purely on their merits, submitted to a popular vote, I am confident the McKinley tariff would be voted down by a decisive majority. Even thousands of Republicans would vote against it.

Where the Trouble Lies.

"What, then, is the trouble? It is corrupt and treacherous leadership. It is your Tammany, your Hills, your Gormans, your Murphys, your Brices, your Smiths, that have disgusted decent men and made them doubtful whether the Democratic party is capable of conducting the government honestly and for the general good. That is the trouble.

"What a farcical spectacle it is, this so-called heroic campaign. Hill himself, the great mogul of the machine, with the brand of fate already upon his forehead, rushing from place to place praising the tariff he voted against, fawning upon Cleveland, whom he has been constantly stabbing in the back."

Concluding, Mr. Schurz said he turned to the reform organization of the Democratic party with a feeling of relief and hope.

Ex-Secretary Fairchild and Wheeler H. Peckham also made short addresses, scoring Tammany Hall.

Stole $23,000.

SPRINGFIELD, Ills., Oct. 30.—State Auditor Gore says that the auditor of public affairs and accounts has concluded an examination of the affairs of the Normal Park Loan association of Chicago, of which the late F. W. Porter was secretary, Mr. Porter having been the auditor of the Rock Island railway. The examination developed the fact that Mr. Porter was a defaulter to the extent of some $23,000.

Attorney Sued For Slander.

JOHNSTOWN, Pa., Oct. 30.—Legal proceedings are to be taken against Francis J. O'Conner, ex-district attorney of this county, for slander, it having been published that O'Connor, in a public speech, charged General Hastings with having used his position in Johnstown after the great flood of 1889 to enrich himself.

Watching Class B Men.

NEW YORK, Oct. 30.—The board of directors of the National Cycle Board of Trade of America held an important meeting yesterday. It is alleged by manufacturers that many class B men have been drawing a salary from one maker and have been riding for others. A committee was appointed to investigate the matter.

Fish Dealers Organize.

BOSTON, Oct. 30.—The Massachusetts Protective Association of Retail Fish Dealers was formed by 250 delegates here last night. The association will take action on the recent action of the wholesalers in admitting several retail dealers to their association, and try to prevent the large retail business of some wholesalers.

Scarlet Fever Prevalent.

WOBURN, Mass., Oct. 30.—All the schools in the Center were closed yesterday except those in the outlying wards, on account of the prevalence of scarlet fever. Several cases of diphtheria are also reported. The board of health has also recommended that no books be given out from the library for a time.

One Set Free.

NEW YORK, Oct. 30.—Charles Harrer and Harry L. Brown, accused of receiving the stamps stolen from the bureau of printing and engraving in Washington by Smith and Longstreet, had another examination yesterday. Harrer was discharged and Brown was held for the action of the grand jury.

Cylinder Head Fell.

FALL RIVER, Mass., Oct. 30.—Robert Gray, an engineer, had charge of putting in a new boiler and engine for the Durfee mills. A cylinder head fell while being hoisted into place yesterday, and crushed Gray's legs and body. Gray died in a short time. An assistant was injured quite seriously.

A Suspected Ripper.

LISTOWEL, Ont., Oct. 30.—The attorney general will send photographs of Chattelle, the self-confessed murderer, to Scotland Yards, where they will be submitted for recognition to two women yet alive who are believed to have escaped from "Jack the Ripper," who killed women in Whitechapel.

Against Tillman's Plan.

WASHINGTON, Oct. 30.—The attorney general has rendered an opinion in the South Carolina dispensary case, in which he holds that the state has no authority to enter government bonded warehouses for the purpose of seizing whisky declared by the state law to be subject to confiscation.

For Illegal Voting.

NEWPORT, R. I., Oct. 30.—Frederick J. Hardy was arrested last night for illegal voting Wednesday, when he voted on the name of Frank B. Hardy, his brother.

SUGAR TRUST BOODLE

Said to Have Been Given to a Journalist For Distribution.

A SCHEME TO GAG THE PRESS

Which May Ultimately Lead to an Airing In the Courts.

WASHINGTON, Oct. 30.—The Evening Star says: If current reports are true, there is a syndicate writer in New York who may have a very unpleasant quarter of an hour with the Washington correspondents before the next session of congress shall end.

The story has reached here that one of the incidents of the Sugar trust campaign in Washington last winter was the raising of a purse by the Sugar trust people to be given this enterprising correspondent, to be distributed in Washington among the press people, where "it would do the most good" in the opinion of those who furnished the money.

And that place was the pockets of those representatives of the press of the country here, who, with or without right, are supposed to have influence in congress and in the making of public opinion throughout the country.

There are intimations even that the men who furnished the money did so under the impression that it was

To Be Distributed Pro Rata

among the representatives of the press in Washington in the expectation that the comments upon the operation of the Sugar trust would be either less severe or that they would be altogether withheld. It is, of course, assumed that the distributor of this fund was to receive his commission.

There are intimations that a list was furnished of the names of correspondents to whom this fund was to be distributed, and that the expectation was that it would be expended in part in dinners and part in ways that would be appreciated by those for whom it was intended.

If there is anything in this story, it will be found that not one dollar of this alleged fund ever passed to the representative correspondents for whom it is reported that it was designed. The man who undertook to disburse this fund did so with the full knowledge that it would not be safe for him to approach any of the gentlemen whose names may have appeared on this pretended list for any such purpose whatever. He not only is not on relations of confidence with them, but he never calls upon many of them when in Washington.

Efforts are being made to ascertain the truth of this report, and if it shall be verified, some of the correspondents intend that he will hear more later, possibly in the courts and probably before a committee of investigation.

Parents Are Worried.

WOBURN, Mass., Oct. 30.—The mysterious disappearance of Miss Annie M. Thompson, which has just been laid before the authorities of the city, is peculiar, and justifies the parents in believing that she has met with foul play or is being detained against her will. Some letters have been received, one from Chicago and others from San Francisco, stating that she was married to the writer, Samuel S. Pearce, who had been a boarder in the Thompson family and who disappeared about the time Miss Thompson did. The peculiarity of the affair is that the letters were in neither Pearce's nor Miss Thompson's handwriting. Mr. and Mrs. Thompson are fearful that Annie is being held in subjection somewhere.

Two Big Fairs.

BOSTON, Oct. 30.—Governor Greenhalge and members of post 15, Grand Army, opened the Tremont Temple bazaar last night in Music hall. The bazaar is in aid of the furnishing fund for the new temple now being erected. The fair of the New England Helping Hand society was also opened last night at Horticultural hall. The receipts are to be used to purchase a building for the society.

Cadets Expelled.

BOSTON, Oct. 30.—Thirteen of the cadets aboard the Enterprise have been requested to withdraw from the Massachusetts training school. This is equivalent to expulsion. The causes assigned are insubordination, incapacity, general indifference, laziness, etc. It is also said that some are charged with drunkenness.

He Lost a Package.

LEWISTON, Me., Oct. 30.—On Saturday George Corliss, a driver for the American express, was taken sick on his route and was sent home. An express money package, containing about $500, which he took out, was not delivered, and he was unable to tell what had become of it. He was arrested last night.

An Important Ruling.

BOSTON, Oct. 30.—Judge Lilley in the superior court ruled that the receivers of a foreign corporation cannot prevail against another foreign corporation which has attached the property of their corporation within this state to have it applied to the payment of its claims.

Charged With Perjury.

NEWPORT, R. I., Oct. 30.—Richard De Logerot (Marquis du Croisic) was taken to New York last night by Detective Reilly on extradition papers issued by Governor Brown. He is charged with perjury.

Price Upon Their Heads.

WILKESBARRE, Pa., Oct. 30. — The county commissioners have offered a reward of $1000 for the arrest and conviction of those who blew up the Hungarians' shanty with dynamite.

Imprisoned For Life.

SPARTA, Wis., Oct. 30.—Samuel S. Buxton, accused of having murdered Mary A. Jones, a maiden lady, pleaded guilty yesterday and was sentenced to prison for life.

Editorial Comment.

WHY IS it that the Quincy Electric Light and Power Co. is giving certain sections of the city incandescent lights of strong illuminating power and Wollaston incandescent lights that look in the dark like cigar stubs suspended along the streets? There is a reason for this. The residents of Wollaston hope that the council will go thoroughly into this electric lighting question and probe it to the bottom. If what Wollaston claims is true, and it undoubtedly is, it is evident that the city is not getting what it is paying for. It is a subject of more than local interest.

IF THERE is anything I do admire, says Councilman Bigelow last night, it is a "signed editorial," and that in today's LEDGER was directly to the point. Councilmen Babcock and Johnson, Cashier Spear of the Mount Wollaston bank, ex-Councilman Graham and others also complimented the LEDGER.

THE LEDGER has received from the publishers that indispensable old friend "The Old Farmer's Almanac," for 1895. "Signs of Snow" is the prediction for the first week of January.

CONGRESSIONAL VOTE.

The Order in Quincy in 1892—Atwood, McNary, McEttrick.

There are many inquiries for the Congressional vote and the LEDGER gives it today in convenient form, showing the vote by wards and totals for Quincy, the vote of Milton, and the total vote of district. The vote of the Boston wards can easily be obtained by substracting the Quincy and Milton vote from the total.

In the district the order was McEttrick, Atwood, McNary.

In Quincy and Milton, Atwood, McNary, McEttrick.

All the wards of Quincy, except Ward Four, placed them in the same order as the city at large.

In Ward Four the order was McNary McEttrick, Atwood.

In the district, McEttrick led McNary in Wards 19, 20, 22 and 24 of Boston.

Ward 24, Boston, was carried by Atwood however. It was in this ward that Humphreys received half his vote in 1892, but Peabody will not get half as many this year.

A summary of the vote:

Ward,	Atwood,	Humphreys,	Marple,	McEttrick,	McNary,	Blanks,
One,	269	81	10	63	141	46
Two,	185	34	7	74	157	35
Three,	224	32	8	129	211	—
Four,	183	9	10	189	235	47
Five,	244	70	10	51	70	14
Six,	133	11	3	73	81	20
Quincy	1238	237	48	579	895	162
Milton,	337	130	4	73	169	—
Total,	8,822	2,235	274	9,507	7,591	—

THE CITY COUNCIL.

Order for Improvement of Liberty Street Advanced.

THE NORFOLK DOWNS STREETS

The Improvement of Fountain Square Laid on the Table.

The alarm of fire at 8.15 Monday evening from Box 26, opposite City Hall, caused a sudden adjournment of the City Council amid confusion, although the fire was out before the members got out of the hall.

In the forty minutes, however, quite a little important business was transacted, as will be seen.

Two applications for licenses and one for State Aid were received.

The Committee on State Aid recommended $3 per month on petition of D. F. French and the report was accepted.

Liberty Street.

The Committee on Finance reported amendments to the order appropriating $3,500 to regrade Liberty, Penn and Quincy streets, which were adopted, and the order given a second reading.

A motion to suspend the rules was opposed by Councilman Moxon, who desired that surveyor's plans be first prepared, giving notice that it was his intention to offer an order.

The motion was withdrawn and Councilman Moxon subsequently offered an order, requesting the Commissioner of Public Works to cause plans to be made. Adopted.

Norfolk Downs Streets.

The Committee on Streets reported separate orders for laying out Rawson road and Beach streets, both of which were ordered to a second reading.

Copeland Street.

On the petition to widen and improve Copeland street, the Committee on Streets reported leave to withdraw. Accepted without discussion.

Miller Stile Road.

The Committee on Streets reported an order for a hearing Nov. 19, on the acceptance of Miller Stile road and the discontinuance of the stile through land of Dr. Everett. Adopted.

The Committee on Licences reported favorable on the application of Robert R. Smith.

Fountain Square.

Ought not to pass was the report of the Committee on Finance on the order for paving in Fountain square, because of the uncertainty as to title of the land, suggesting that it was desirable to proceed, an appropriation of $100 for examination of title should be made.

Councilman Federhen asked if this was not the duty of the City Solicitor.

Councilman Moxon replied that Solicitor Blackmur did not so regard it.

Councilman Holden moved to lay on the table, and attributed all this trouble to Councilman Anderson, accusing him of being the "dog in the manger."

Councilman Anderson maintained that there was a reasonable doubt as to the title, and thought there was no occasion for the remarks of Councilman Holden.

Councilman Johnson said the Council had the report of the Committee on Finance and the opinion of the City Solicitor, and thought it was not necessary to ask Councilman Holden to interpret the law.

Councilman Federhen and Solicitor Blackmur had a further tilt on the duties of a Solicitor.

The motion to lay on the table prevailed although only one or two voted either way.

The order appropriating $800 additional for burial places, was unanimously passed to be ordained.

Polling Places.

Councilman Robbins offered an order designating polling places for the municipal election, the only change being in Ward Six. Adopted,

Calendar.

The order granting a location to the Quincy & Boston street railway on Willard street, took its second reading.

The order appropriating $7,093.55 of which $4,669 was for payment of building the tower on the new High school; $1524.55 for alterations; $500 for plumbing; and $400 for gas and electric lighting fixtures, was under suspension of the rules passed to be ordained.

The Council at 8.15 adjourned for one week, the eve of the State election.

Full back—Porter.

The make-up of the Academy team has not been decided upon.

ZU EULENBERG'S REWARD.

High Position Gained by Slights Cast Upon Him by Caprivi Press.

BERLIN, Oct. 30.—It is understood that the emperor has accepted the new chancellor's view that the appointment of a reactionary Protestant, like Count Zu Eulenberg, as governor of Alsace-Lorraine, would create bad feeling in that province.

The emperor's desire to appoint Count Zu Eulenberg to the highest post next to the chancellorship, with a salary of $30,000 higher than the chancellor receives, as compensation for the slights cast upon him in the Caprivi press, is a further instance of the intrusion of imperial feeling into the government of the country, which is little calculated to enlist popular approval.

His majesty has summoned Prince Hohenlohe-Langenberg, head of the Neuenstein line of the Hohenlohes, to Potsdam as a possible governor of the reichstag. Prince Hohenlohe-Langenberg is an uncle of the emperor. He belongs to the Glechen-Llengen families. He was formerly a member of the Free Conservative party in parliament, and has taken deep interest in colonial matters. He has made no particular mark in politics.

The other candidates for the same post are General von Loe, Prince Frederick Hohenzollern and General Count von Waldersee. It is believed that Prince Hohenlohe-Langenberg has the best chance of appointment.

Public opinion is fast recovering from the shock of the ministerial crisis. There is a feeling of relief that it has not turned out worse, and that the long threatened storm has burst and cleared the atmosphere. It begins to be regarded that the emperor's position was exceedingly difficult in face of the endeavors of Count von Caprivi, Count von Eulenberg and the political parties to make capital out of his support, and that he concluded that the only course was to cry "hands off."

Killed Two at Once.

YORK, Ala., Oct. 30.—S. A. Cameron and E. F. Allison had a quarrel about a business settlement, and the interference of friends only prevented blood then. Allison met Cameron yesterday on the street and demanded an apology. Cameron refused to apologize and drew his pistol. A fight followed. Chief of Police Thompson seized Cameron, and, in the scuffle, Cameron's pistol went off, two bullets passing through Allison's side and then penetrating Thompson's heart. Thompson fell dead, and Allison is mortally wounded.

Boston's Big Undertaking.

BOSTON, Oct. 30.—The plan for the municipal ownership of docks has advanced one more stage. The subject has been most exhaustively investigated by the committee on the part of the city government, and yesterday the report was submitted to the board of aldermen. The result was the adoption of an order instructing the mayor to petition the legislature for authority to proceed according to the plan proposed. The report and order will come up in council for concurrent action at its next regular meeting.

Detectives After Him.

PORTLAND, Me., Oct. 30.—More crooked work of Calvin C. Goodwin, the commission salesman of the E. C. Morris Safe company of Boston, has been discovered. Goodwin ordered safes he never sold and obtained his commission on them. He borrowed money and gave worthless checks as security. Detectives are looking for him.

Ten Rounds to a Draw.

BOSTON, Oct. 30.—At the Lafayette Social and Athletic club last night "Mysterious Billy" Smith and "Dick" O'Brien fought a vicious contest, which was decided a draw at the end of the 10th round. O'Brien was the strongest, but he had not the punishing power of his adversary.

Favored Regular Passengers.

BOSTON, Oct. 30.—Four conductors, two employed on the eastern and two on the western divisions of the Boston and Maine railroad, have been suspended. It is charged that the men have been negligent in collecting tickets from the holders of 100-mile commutation tickets.

A Poor Season.

NEW BEDFORD, Mass., Oct. 30.—The latest news from the Arctic ocean was received in this city yesterday afternoon in dispatches here. The catch is reported up to Oct. 4, when the steamer Jeannette left Herald shoals. The catch is 71 whales, the poorest for a dozen years.

Two Runaway Lads.

PORTLAND, Me., Oct. 30.—Sunday night Ernest and Ellie Wentworth, the 12 and 9-year-old sons of N. G. Wentworth, stole their father's team and left for parts unknown. The lads passed through Westbrook yesterday, since which time all trace of them has been lost.

Jury Gave $35,000 Damages.

PHILADELPHIA, Oct. 30.—In the action of Henry W. Purchase against the Philadelphia, Wilmington and Baltimore Railroad company for injuries received Feb. 22, 1893, the jury gave a sealed verdict of $35,000 for the plaintiff.

Judge Charges Libel.

EASTON, Pa., Oct. 30.—Congressman H. J. Muehler, editor of the Easton Express and Northampton Democrat, is under arrest on a charge of criminal libel, preferred by H. J. Reeder, candidate for re-election as judge.

Winter Weather Out West.

SIOUX CITY, Ia., Oct. 30.—Snow is falling over nearly all of South Dakota and northwestern Iowa.

OMAHA, Oct. 30.—A severe snowstorm prevails throughout Nebraska. It is quite general.

Cat Out of the Bag.

BERLIN, Oct. 30.—The Deutsch Tage Zeitung, the organ of the Agrarian league, admits that the emperor's reception of the East Prussian agrarian deputation was the original cause of the late crisis.

Two Miles In 4:04.

WALTHAE,, Mass, Oct. 30.—Harry Tyler regained the two-mile flying start record here, going the distance in 4:04 flat. The previous record, 4:04 4-5, was held by Nat Butler.

Five Persons Lost Their Lives.

LEBANON, Ind., Oct. 30.—A wagon containing a party returning from a dance was struck by a Big Four train and five of the merrymakers were killed.

THE ALARM LAST NIGHT.

Spontaneous Combustion Did Its Work Too Early in the Evening.

There is nothing that will draw a crowd quite as quickly as an alarm of fire from Box 26. Thus it was Monday evening at 8.18 when that box sounded, for in a few minutes City Square was thronged with people.

The fire did not amount to much, however, and a recall sounded.

Just before the alarm some of the street railway employes in their room noticed smoke coming through the sheathing of the top of their room and gave the alarm.

The railway fire service was brought into use by Chief Hunter who soon had a powerful stream going down the yard which served to keep the crowd back. Meanwhile entrance had been made into the bicycle rooms of W. L. Ripley, and a small stream of water forced under the floor which extinguished the blaze, which was probably caused by spontaneous combustion.

New Hampshire Promises to be a Good Field for Monumen s.

At East Concord, N. H., Monday, there was dedicated the memorial to Revolutionary soldiers. The monument is of Quincy stone and the Herald says:

"This memorial is the most complete and costly of any marking the resting place of revolutionary soldiers in the state, and the society, which is in a very flourishing condition, has already created a decided interest in revolutionary matters throughout the state, through which the graves of revolutionary soldiers are being sought out and permanently marked."

The monument of the Grand Lodge of Masons, presented by John H. Collamore, was dedicated at Mount Hope Cemetery Monday. It is of Quincy granite, and was built by McGrath Bros. Across Highland avenue and nearly opposite are the burial lot and monument of Boston commandery. Knights Templars, also presented by Bro. Collamore, in which there have already been two burials.

As a part of the dedication services, the architect of the monument, Mr. Henry H. McGrath, surrendered the trust which had been confided to him and the working tools of the craft. At the word the monument was unveiled by Grand Tyler John H. Chester, and the ceremony of dedication was proceeded with. The deputy grand master, senior grand warden and junior grand warden each applied the proper tools to the monument, and pronounced it square, level and plumb, and that the craftsmen had done their duty.

Mr. E. M. Wheelwright, the Boston city architect, has accepted an invitation from the Minnesota state authorities to be sole judge of the competitive designs for the proposed new State House at St. Paul.

People Who Weigh and Compare

Know and get the best. Cottolene, the new vegetable shortening, has won a wide and wonderful popularity. At its introduction it was submitted to expert chemists, prominent physicians and famous cooks. All of these pronounced

Cottolene

a natural, healthful and acceptable food-product, better than lard for every cooking purpose.

The success of Cottolene is now a matter of history. Will you share in the better food and better health for which it stands, by using it in your home?

THE LEDGER APPRECIATED

Capt. Holmes of the Sons of Veterans Returns Thanks to the Editors.

The following open letter is self explanatory:

As the presiding officer of the Sons of Veterans of Quincy it affords me pleasure to personally acknowledge to you my heartfelt appreciation of the kindly recognition you have bestowed upon the order through the medium of your most excellent paper the QUINCY DAILY LEDGER.

It has been the will of the members of Francis L. Souther Camp 27, to place me at its head for the last two years and I am in a position to realize and appreciate that during that period nothing has accomplished more toward the building up of the Camp than the public notice which you have so kindly given it.

From January 1, 1893, to October 1, 1894, the LEDGER has devoted to the Sons of Veterans 45 articles, aggregating 1,377 lines, an average of about 16 lines per week. For the valuable and impartial service you have rendered to me in making my administration successful and prosperous and in behalf of the brothers of Camp 27, whose sentiments accord with my own, I extend to you my sincere thanks.

Yours,
MELVILLE C. HOLMES.

OF REMEMBRANCE.

I do remember every note
And each sweet letter that she wrote
From where, afar the palm blest isles
Are lovelier for her splendid smiles.
I do remember even the flower
She sent me in a lonely hour.

And sometimes, when my lonely soul
Heareth in dark God's thunders roll,
I wonder—her sweet worshiper—
If God's dark storms break over her.
And if they do I know my breast
Would bear them all to give her rest.

But, no; the fragrant orange blossoms
Waft through her life their sweet perfumes;
And the tall ships, with wind blown sails,
Bring to her songs of nightingales.
Yet, do they still, where'er they be,
Sing to her one last song of me!
—Exchange.

THE WHITE HORSE.

"This canyon ought to have a history, Pablo," I said to the guide as, supper finished, I leaned back on my blankets and dreamily gazed at the scene before us.

It was a summer night—a night in the southwest, where nights are perfect. The moon was at the full, and not a cloud was in the sky to obscure her radiance or the light of the myriad stars which bore her company. The air was cool and bracing, yet balmy, and there was just enough breeze to lull one's spirits and cause him to forget the world and indulge in fanciful reveries such as only southern breezes inspire.

We had pitched our camp on one of the sloping hills on the south side of the canyon, where a little stream of clear, sweet water rippled from a spring in a ravine down into the canyon below. Above us was the sighing, odorous forest of juniper and pinon. Below was a little stretch of velvety grass extending clear to the floor of the canyon on both sides of the little stream. Right and left stretched the canyon itself, its walls, precipitous for the most part, rising grandly hundreds of feet high on each side.

"It is beautiful, Pablo," I continued. "It must have a history of some kind or a story—no?"

"Si, senor, that it has—aye, that it has," answered the Mexican, lighting a fresh cigarette and puffing at it reflectively a moment. "Would the senor hear it?"

"By all means, Pablo. Go ahead."

And here is Pablo's story as nearly as I can translate it, for he spoke in Spanish:

"Does the senor see the cliff on the other side, how high it is? That is the cliff of the White Horse. It is many hundred feet high and straight up and down. And at the top when the moon is a little higher the senor will see the white horse. It is a great white rock on the edge of the cliff, and by clear moonlight it looks like a white horse. It has not alway been there, and now, they say, on the anniversaries of a certain day the ghost of old Don Fernando comes and rides it along the edge of the canyon.

"Don Fernando? Oh, aye. May the blessed saints have mercy upon him!" ejaculated Pablo, crossing himself.

"Many years ago Don Fernando Cortez—he was a grandson or something of the great Cortez—lived over above beyond the canyon several miles. Don Fernando was rich and lived in a grand house and had many servants and slaves. He was a great entertainer, was Don Fernando, and people used to come many miles—hundreds, thousands, yes,—to his grand dinners and balls.

"He was not a good man. No. He was a cruel master and hard with all his people and made them all hate him. He was kind to only two living creatures. One of these was his beautiful daughter, the Lady Ysabel; the other was his great white stallion, the largest and fleetest horse in all the country. These two the old don loved as his two eyes, and well he might. Yes. The Lady Ysabel was not only beautiful, but she was kind and good, and all the people loved her as much as they hated the don, which was a great deal. She had golden hair and eyes like the sky, and it is said the birds listened when she sang. And the horse—aye, he was wonderful. He was as big as three ordinary horses, and his tread shook the ground. He had a long, white mane and eyes that flashed fire and was almost as much feared as the old don, who alone dared go near him.

"The Lady Ysabel had many suitors. The wealthiest and most aristocratic men in all the country came to sue for her hand, many of them from faroff California, and some, it is said, came even from Spain. But the Lady Ysabel would have none of them. She loved her pony and her dogs and birds and her people, but a man, no. One after another came, but she turned them all away. So after a few years the old don became tired of what he called her foolishness and swore she should marry, and at once, a man whom he had selected for her.

"This grieved the Lady Ysabel very much, for not only did she not love any of those who had offered themselves to her, but her heart was already given—given to one of her father's peons, a young man named Jose, whom she had helped to nurse through a terrible illness. Him she used to meet by stealth nearly every night unknown to any but themselves. But one night when the Lady Ysabel's wedding day was near at hand she and her lover were seen together, and the story came to the ears of the old don.

"He started to find them, swearing to kill them both, but they had been warned and had taken two of the fleetest horses in the stables and fled. With mad haste the don saddled his white stallion and pursued them. They had taken their way over the hills blindly, but some instinct led the don to follow the direction they had taken, and in a short time he had them in sight riding over the plateau beyond the canyon there.

"When the lovers saw they were pursued, they put their jaded horses to their highest speed, hoping to escape, but soon they found it was too late, and as the old don, with terrible curses, pressed them closely they leaped to the ground, ran to the edge of the cliff, and clasped in each other's arms sprang into eternity together.

"And the don? For days he raved like a madman and seemed to know no one. Then he became quieter, and they thought he would be himself again. But one moonlight night they missed him, and several set out to seek him. He was riding up and down the edge of the cliff yonder, raving and blaspheming terribly, and none of those who had come to find him dared approach. For hours he raved. Then, just as the moon came from behind a cloud, they saw him ride back from the cliff a little distance. Then he wheeled sharply and shouting, 'Now, my friend, both together!' he rode full speed at the precipice. But at the edge the white stallion halted suddenly, and the don went over alone. In midair he shook his fist and hurled a curse at the friend who had deserted him at the last minute, and then and there the great white stallion turned to stone. There he stands, senor—you can see him plainly now—still looking over the precipice. It is from him that the cliff and the canyon get their name.

"And it is said by the superstitious, senor," continued Pablo, drawing closer to the fire and shuddering slightly "that on the anniversary of old Don Fernando's death and on Lady Ysabel's saint's day the ghosts of Lady Ysabel and Jose ride forth on the plateau, and that of the old don pursues them riding the white stallion, which leaves its station at such times. And—oh, senor, for the love of God, look!"

Startled, I looked quickly across the canyon. The rock which appeared so very little like a white horse seemed to vanish as though in mist. Then there was a series of blood curdling shrieks and curses, and flying along the edge of the cliff rode three persons on horseback, and one, behind the others, rode a great white horse.

It was only a moment, and then the drunken cowboys passed out of sight, and the tiny fleck of vapor which had for those few seconds kept the moonlight from the white horse rock moved on, leaving the rock standing out in the clear light, just as before. Still shivering with the sudden fright I had had, I turned to Pablo. He had fallen in a fit and was lying rigid, with flecks of foam on his lips. I brought him round soon, and he sat up, his eyes staring wildly.

"Well, Pablo," I said in as steady a voice as I could command, "you must have had a dream. You've been plunging around and yelling for a full five minutes."

"What, senor, I? A dream? Then it was not"—

"I think it was the bread, Pablo. You ate a big supper, and that hot sour bread would kill an Indian."

Pablo concluded not to run away, as he might have done if I hadn't been able to convince him it was only a dream.—R. L. Ketchum in Romance.

Possibilities of the Indian.

The Indian has within him the capabilities upon which to base a better manhood and citizenship despite the barbarous instincts attributed to him. With no incentive to work and with encouragement to vice and idleness on every hand there are today upon the reservations many excellent and worthy Indian men and women. Though stolid and sphinxlike in demeanor, the Indian has the feelings and affections common to human beings.

With no educational advantages they are men of remarkable sense, often approaching a high order of ability. The old chief of the Sioux nation, Spotted Tail, was a striking figure, whether taken physically or intellectually. The late Mrs. Elizabeth Winans, a Sioux woman, during a life of Christian service for her people was actuated by a purpose as pure and noble as that shown by any philanthropist of the country.

Among the Indians are fine natural orators and statesmen equaled by few educated white men. Under education they have shown themselves quick and ready learners, competing easily with white pupils of the same age. I have observed them at thier studies and am convinced that they are as capable as white children of grasping the ordinary branches taught in the common schools. It has been my pleasure to hear addresses from full blooded Indian college students which would do credit to undergraduates of Yale or Harvard.—Senator Kyle in North American Review.

He Worked the Boss.

A little man with a bald head and an inoffensive blue eye drifted into a Main street saloon and threw a half dollar on the bar.

"Gimme a schooner of beer," he said.

The schooner was given him Just as he was about to drink it a big man came in and said: "Hello, Shorty. Who's buying?"

"I am," replied Shorty, with dignity.

"You," scoffed the big man. "Why, you never had a cent in your life. Your wife gets your wages."

"That's all right," said Shorty. "Mebbe she does, but I've got money today."

"How'd you get it?"

"Well," replied Shorty, "I don't know as I mind tellin. I had a couple of bad teeth, an she gimme enough to get 'em pulled."

"Didn't you get 'em pulled?"

"Sure, but I worked her for 50 cents for gas, an this is the 50. See?"—Buffalo Express.

A Large Bakery.

Brooklyn can boast of having the largest bread bakery in the world. Seventy thousand loaves are daily turned out, requiring 300 barrels of flour. Three hundred and fifty persons are employed in the bakery, and for dplivering the bread in New York and adjacent places over 100 wagons, constructed for the purpose, are in constant use.—New York News.

These are some of the diseases that are *cured* by the Carlsbad Sprudel Salt. It is the veritable water of the Sprudel Spring—evaporated, solidified, concentrated. In every ailment of the kind, Carlsbad has become famous the world over, and for hundreds of years, as a prompt, permanent, *natural* remedy.

Beware of imitations sold as "improved" or "artificial" Carlsbad Salt, which consists only of ordinary Seidlitz Powder and Glauber Salt, and are sold by unscrupulous dealers upon the reputation of the genuine.

Be sure to obtain the genuine imported Carlsbad Sprudel Salt only, with the seal of the city of Carlsbad, and the signature of "EISNER & MENDELSON Co., Agts, New York," on every bottle.

PATENTS

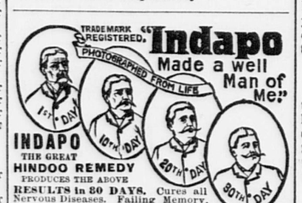

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Bury the Past.

Bury the past with all that is dreary.
Cover the errors of yesterday o'er.
Do not revive it; sad heart, thou art weary
Of days that are never to visit us more.

Bury the past! Forget all the sorrow,
Tears of regret and passionate pain.
Here is the present with thoughts of tomorrow.
It is enough for the world weary brain.

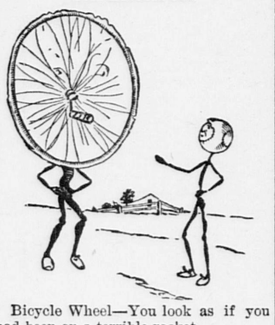

Bury it with the hasty words spoken;
The anger, for which we cannot atone;
The shadows, the crosses, the bonds that are broken—
Cover them over and leave them alone.

Come with new hopes, faith, courage, endurance,
And do thy work nobly while this day shall last.
God keepeth the record; we've this blest assurance—
His infinite wisdom shall deal with the past.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

ENO MUST BE TRIED.

Circuit Court Decision Overruled by the Supreme Court.

OLD INDICTMENTS ARE REVIVED

And the Government Now Has a Case Against Him.

WASHINGTON, Oct. 30. — The United States supreme court has reversed the decision of the circuit court for the southern district of New York discharging John C. Eno, formerly president of the Second National bank of New York city, from the custody of the sheriff of New York county.

Eno was indicted by the grand jury for making false entries on the books of the bank in order to cover misappropriation of its money. Justice Harlan, speaking for the court, said that Eno must first answer to the state courts, the crime charged against him being an offense against the state of New York as well as against the United States.

The judgment of the circuit court, therefore, was overruled, with instructions to remand the petitioner to the custody of the sheriff of New York. Justices Field and Shiras dissented from the opinion of the court.

History of the Case.

John C. Eno returned to New York city on Feb. 20, 1893, after an absence of nine years in Canada, and went to the office of Edward Mitchell, United States district attorney, and surrendered himself on the indictment against him by the United States grand jury, found on June 17, 1884.

He was taken before Judge Wallace in the circuit court and admitted to bail in $20,000. On the following day he appeared in general sessions and pleaded not guilty to six indictments against him, found by the grand jury of the county. He gave bail in $10,000 on one indictment, but his counsel, Colonel Bliss, argued that the other five did not come within the jurisdiction of the state courts.

Judge Cowing took the opposite view, and a writ of habeas corpus was granted by Judge Wallace. On March 27 that judge ordered the release of Eno on the five indictments, declaring that the case came properly under the federal jurisdiction, as related to

The National Banking Act.

On May 16 the indictment against Eno by the United States grand jury was dismissed by Judge Benedict in the United States circuit court, criminal branch, on the ground that it was defective, in that it was not sufficiently specific. Later in the year Eno was rearrested and held in $30,000 bail on the same charges.

The decision of the superior court, therefore, revives the five indictments found against Eno by the general session of the grand jury, and he is now on bail on the sixth, as well as on a charge by the United States district attorney.

Dragging In the Superintendent.

NEW YORK, Oct. 30.—The Lexow committee yesterday was occupied with Commissioner Sheehan's examination. Commissioner Sheehan said Superintendent Byrnes ought to have known about the corruption. He also said he had no faith in detectives and was satisfied that the poolsellers paid money for protection, but he could not trace the money. It was said that Superintendent Byrnes got it.

Did a Big Business.

ASHEVILLE, N. C., Oct. 30.—C. B. Konbinbinc, alias J. J. Howard, is under arrest charged with using mails for fraudulent purposes. Howard is said to have done business as "The Universal Association of Home Artists." Last month his business amounted to $1000. All his work was done outside of North Carolina.

May Land For a Short Time.

WASHINGTON, Oct. 30.—In the case of 26 Chinese seamen, detained at Baltimore, the treasury officials are inclined to the opinion that under a decision by Assistant Secretary Fairchild in 1885 the collector at Baltimore should permit the sailors to land, on condition that they immediately ship for the return voyage.

A Belated Storm.

PORTLAND, Me., Oct. 30.—A thunder shower passed over the town of Raymond yesterday, and was the most severe storm of the season. The barn of Charles Davis was struck by lightning, two cows were killed, and the bolt passed on into a shed, killing two hogs.

Escape Frustrated.

NYACK, N. Y., Oct. 30.—Frank Brintnell, a burglar confined in jail at New City, attempted to escape, but was discovered by one of the jail officials, who knocked him down with a club and afterward shot him in the back. Brintnell is in a serious condition.

Wants to See His Home.

BALTIMORE, Oct. 30. — James French, the self-confessed Ponca (Neb.) postoffice robber, started for Ponca last night in charge of a deputy marshal. French's surrender, he claims, was due solely to an intense longing to again see his old prairie home.

STRIKE IS OFF.

Fall River Weavers Almost Unanimously Vote to Return to Work.

FALL RIVER, Mass., Oct. 30.—The big strike of weavers, which was commenced with a four-weeks' vacation 10 weeks ago, was declared off yesterday, and the strikers returned to work today. They were defeated by the manufacturers, and they will resume their old places under a reduced scale of wages.

For eight weeks some 23,000 operatives were thrown out of work, and for the past two weeks about 8000 people were affected. The strong letter of the manufacturers, in which it was stated that no conference would be held nor no concessions made, and the fact that the union's finances were in a very low condition, were the causes of breaking down the resistance that has been offered.

The operatives lost about $1,500,000 in wages, while the loss to the mills was not so severe, owing to the depressed condition of trade. The sympathy of the public has been overwhelmingly in favor of the strikers, but there is much satisfaction on all sides now that the long fight is ended.

COUGH IS WORSE.

Czar Takes but Little Nourishment and Appears to Be Weaker.

ST. PETERSBURG, Oct. 30.—The official bulletin issued last night from Livadia says the czar took little nourishment yesterday. He appeared weaker. He coughed more, bringing up phlegm mixed with blood. The cough, which results from chronic catarrh, has become worse and impedes his breathing.

Father Ivan (Holy John of Cronstadt), the miracle worker, who recently had been summoned to pray for the czar, telegraphed to his wife, saying: "God is surely working a miracle; the czar will recover."

It is stated on good authority that the marriage of the czarewitch and Princess Alix will not occur at Livadia. The actual marriage cannot occur without an elaborate contract between Russia and Hesse, which has not even been drafted yet.

Fought Fifteen Rounds.

CONEY ISLAND, Oct. 30.—George Lavigne, the "Saginaw Kid," was given the decision over Johnny Griffin after 15 rounds of hard fighting before the Seaside Athletic club. There was no knockout. Lavigne had the better of the battle, but Griffin fought cleverly and occasionally surprised the house by remarkable work. His opponent's strength was too much.

Deputy Relaxed Vigilance.

ROCKLAND, Me., Oct. 30.—Local authorities are searching for Cyrus Cushing, a burglar. Cushing went to work with the chain gang in a stone yard yesterday, but while the deputy's back was turned dug a hole beneath the fence and escaped.

Weston's Walk.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

HILL MEN CONFIDENT

While the Opposition Think the Senator Will Be Snowed Under.

THE BETTING FAVORS MORTON.

Seventies Realize the Strength of Tammany Tigers.

NEW YORK, Oct. 31.—The declaration of William R. Grace that the state Democracy organization is supporting David B. Hill, and is not responsible for any Wheeler pasters, is received with incredulity by many who still insist that secretly, if not openly, that faction is in favor of Hill's defeat.

The adherents of the latter candidate express much gratification at the numbers and character of the Cooper Union meeting Monday night and are confident that the Democratic reform ticket will make a good showing on election day. Many anti-Hill Democrats will, it is generally believed, vote straight for Morton, taking the ground, as one of them remarked yesterday, that a vote for Wheeler will only be half a vote against Hill, and that the Wheeler votes are depended upon to aid Morton any way.

The Hill men are as confident as ever, referring with special satisfaction to the personal fight their candidate is making. Most of them, however, do not seek to conceal their disappointment or anger that their candidate has not received open and active encouragement from the national administration.

Republicans Confident.

The Republicans abate none of their claims, and insist with the general Republican tendency this anti-year and the Democratic defection from Hill, the latter will be "snowed under."

There has been little betting so far in the campaign, but the reports of wagers at the Stock Exchange and elsewhere show odds on Morton, not unfrequently of two to one. Smaller odds are given on Strong against Grant.

The perfection of the Tammany organization throughout the city is making the supporters of the committee of 70 rather cautious at risking their money, however much they anticipate a great Tammany uprising.

The Hill Democrats are pleased by the announcement that Speaker Crisp has cancelled engagements in order to speak in this city or Brooklyn.

Czar Sinking Rapidly.

ST. PETERSBURG, Oct. 31.—A bulletin from Livadia, timed 10 o'clock last night, says that during the course of the day the spitting of blood by the czar continued. The patient was sometimes seized with fits of shivering. His temperature was 100 Fahrenheit and his pulse 90. The pulsations were weak. Respiration is difficult. His majesty can take little nourishment, and is becoming very weak The œdema has considerably increased.

Stanton Abbott's Victory.

BALTIMORE, Oct. 31.—Stanton Abbott of England and Charles Ghering, ex-amateur champion of the United States, fought here last night. The fight was announced by Referee H. Lee Clarke to be a six-round go. From the start Ghering began to force the fighting, but toward the end of third round Abbott caught Ghering on the point of the jaw and Ghering went down and out.

Hot Politics.

BOSTON, Oct. 31.—William S. McNary, regular Democratic candidate for congress, and a number of his friends held a rally in ward 19 last night. The meeting was in an uproar, and the police were called in to preserve order. Ward 19 is a stronghold of Congressman McEttrick, the independent Democratic candidate.

A Peculiar Malady.

MIDDLETOWN, Conn., Oct. 31.—For a few weeks past there has been an epidemic flourishing at Wesleyan, and is at present assuming serious proportions. About 35 students are suffering from a sickness pronounced by local doctors to be "continual malarial fever." No reason for the present attack can be given.

Pardon Applied For.

HARRISBURG, Oct. 31.—The board of pardons yesterday took under advisement the case of Hugh F. Dempsey, the Pittsburg labor leader, serving seven years in the Western penitentiary for being the leader of an alleged conspiracy to poison non-union workmen at Homestead after the strike.

Guilty of Wife Murder.

PROVIDENCE, Oct. 31.—The trial of Gilbert Potter, who killed his wife at Rice City, Sept. 3, was concluded at East Greenwich yesterday, the jury, after deliberating three minutes, bringing in a verdict of guilty.

Cabinet Seat Without Portfolio.

BERLIN, Oct. 31.—Freinerer Marschal von Biberstein, while retaining his present office of imperial secretary of state for foreign affairs, has been appointed a member of the Prussian cabinet without portfolio.

Commission's Report Ready.

WASHINGTON, Oct. 31.—The national strike commission have completed their report on the Debs strike. It will probably be presented to the president within the next two weeks.

OVER HALF A MILLION

Goes to Public Institutions by the Will of the Late Senator Ross.

MONTREAL, Oct. 31.—The long-disputed will case of the late Senator Ross of Quebec has at last been settled. The Morrin college and the high school receive between them $170,000, the Jeffy Hale hospital, $150,000; the three Anglican charities of Quebec, $40,000; the French mission of the Presbyterian church in Canada, $30,000; the Woman's Christian association, $10,000; the Ladies' Protestant home, $40,000; the Ladies' City Mission, $5000, and over $5000 to the Irish Protestant Benevolent society of Quebec. All this money has been paid.

Frank Ross, as part of the settlement, has agreed to remit at once $50,000, to be employed in benevolent purposes in Carluke, Scotland, and also to devote $30,000 to the establishment and maintenance of a home for old men and boys of Protestants of all denominations. The last amount takes the place of a corresponding sum which in the original proposal was to go to the Finlay asylum and the Church of England male orphan asylum of Quebec.

Died From Apoplexy.

ASBURY PARK, N. J., Oct 31.—Dr. E. Peterson of Philadelphia died here yesterday, from apoplexy. He was 82 years of age. Dr. Peterson was at one time associated in business with the late George W. Childs. He studied medicine and graduated with high honors, but did not practice. Nine years ago Dr. Peterson was stricken with paralysis, which left him an invalid. His only daughter is Mrs. George W. Childs.

Unwarranted Assaults.

NEW YORK, Oct. 31.—Superintendent Byrnes has been directed by the police commissioners to make charges against all those policemen connected with the assault on the striking cloakmakers on Oct. 18. The charges will involve Captain Grant and several patrolmen. At the time the alleged assaults were committed, the strikers were forming for a parade for which they had secured a permit.

Clerical Boycott Upheld.

MONTREAL, Oct. 31.—The Canada Revue began a series of severe attacks on the Catholic church. Archbishop Fabre put the publication under the ban of the church and the Canada Revue people sued the bishop for $50,000. Judge Doherty yesterday dismissed the case on the ground that the archbishop did not interfere with the plaintiff's right of selling it to whomsoever wanted to read it.

Brought Death to Seven.

NEW YORK, Oct. 31.—Smoke from a fire in the five-story tenement house at 216 West Thirty-second street early yesterday morning cut off the lives of seven people who were sleeping in the house. The fire's cause is a mystery. It started in the cellar at about 3:20, and shot up through the five stories of the building with amazing speed. There were 40 people sleeping in the house.

Baptist Conference Opened.

BOSTON, Oct. 31.—The Baptist ministers of Massachusetts opened their 65th annual meeting and conference at the Tabernacle, Bowdoin square, yesterday, with a large attendance from all parts of the state. Rev. F. A. Bateman of Chelsea presided. After an address of welcome by Rev. Walter Calley there was a general discussion on "Seeing Things as They Are."

Marriage of a Newspaper Man.

WASHINGTON, Oct. 31.—Miss Mattie Thompson, daughter of Colonel Phil Thompson of Kentucky, was married today to William Davis of the New York World. The ceremony took place at the residence of Secretary Carlisle. Mrs. Jefferson Davis, who is a near relative of the groom, was in attendance, as was Miss Winnie Davis.

All Must Pay Taxes.

MONTREAL, Oct. 31.—Owing to the bad state of the finances of the city the board of chairmen have recommended that all properties now exempt from taxation be taxed one-half their assessed value. The property includes all churches, parsonages, hospitals, religious institutions, etc., the whole to amount to $34,185,894.

Plundered by Pirates.

BOSTON, Oct. 31.—Advices received from Almeria state that the Italian bark Scutolo, from Philadelphia, Sept. 21, for Naples, with a cargo of petroleum, has arrived there. The captain reports that his vessel was boarded by pirates off Morro Nuova (Africa) and plundered of 1000 boxes of her cargo.

Chinese Were Overmatched.

LONDON, Oct. 31.—A dispatch from Tien-Tsin says that the greater part of the Chinese force was destroyed before Chu-Leang-Cheng was evacuated. General Hung's official report praises the valor of the troops, but confesses that they were overmatched by the enemy's weapons and training.

The Atchison Row.

TOPEKA, Oct. 31.—Attorneys for the directors are presenting evidence to show that the Atchison road is still operating under its territorial charter. The other side is introducing testimony to show that the road is and has been operating under the corporation laws of Kansas.

Date of Sailing Delayed.

WASHINGTON, Oct. 31.—The inspection board has discovered that the boats of the gunboat Machias are improperly placed on board ship, and it will be necessary to change the cradles and davits, which will delay the sailing of the ship for China about two weeks.

One More Victim.

WILKESBARRE, Pa., Oct. 31.—Kasha Goterich, another of the victims of the recent dynamite explosion, died yesterday. This makes four now dead. The reward offered for the arrest and conviction of the perpetrators of the crime has been increased from $1000 to $2500.

Its Twenty-Sixth Convention.

CHICAGO, Oct. 31.—The twenty-sixth annual meeting of the Woman's Board of Missions of the Congregational denomination begun yesterday. Delegates are present from all over the United States.

Long Contest Unlikely.

BOSTON, Oct. 31.—Three firms have granted the demand of the Furniture Workers' union for an increase of pay. It is thought the differences will be amicably settled.

IN LORDS' DEFENSE.

Upper Chamber of British Parliament Is a Necessity.

IT WILL NEVER BE ABOLISHED.

Salisbury's Views Differ From Those of Rosebery.

EDINBURGH, Oct. 31.—A conference of the Scottish Conservatory associations was held here last night. Ex-Prime Minister Salisbury made a speech in which he scathingly criticised a recent speech of Prime Minister Rosebery. He described the agitation against the house of lords as a a herring drawn across the path of home rule.

LORD SALISBURY.

He did not believe, he declared, that Lord Rosebery was in earnest in his proposed vague resolutions regarding the house of lords. It would be harmless, and if submitted to the country it would be in no wise like the foreign referendum to which Lord Rosebery had likened it. He, himself, would not speak against a referendum; in fact, he thought it decidedly advantageous in the form in which it existed in America for good government and the stability of the country.

Doubtless Archbishop Walsh's well-drilled battalions would pass Lord Rosebery's resolutions against the voice of the country. "Do you," he asked, "imagine that the resolution would possess any moral authority whatever, or that any sane human being could imagine that England or Scotland would abase themselves so far as to put their necks under the heels of south and west Ireland?

Will Not Be Recognized by the Courts.

"It is a ludicrous proposal. They may pass all the resolutions they like, but a bill embodying such proposals will never be accepted by the house of lords, and, therefore, will never be recognized by the courts of law. No such change in the constitution is possible without a considerable majority of the people being in its favor."

Lord Salisbury argued that on several occasions, in his experience, the house of lords supported Liberal measures against Conservative opposition. If the house of lords had become virtually a conservative body, it was because Mr. Gladstone's ill-advised Irish policy had driven them in that direction.

If the Irish question was once moved out of the way, the house of lords would gradually, though perhaps slowly, settle back into the old position in which the parties were evenly balanced. It was well for the safety of institutions, which, once overthrown, could never be replaced, that the balance of the party in the house of lords should be on the side of conservatism.

The ex-prime minister added: "If the question of handing the government of the country over entirely to a single chamber should come before the country, which I do not believe it will do, we would have to confront the greatest danger that the community has had to face in many centuries. Remember that the domination of a single chamber has not been adopted by any considerable country on the surface of the earth.

House of Lords a Safeguard.

"Can it be supposed possible to govern India by an independent house of commons, where the ideas of faddists might become law without a chance of an appeal to a higher authority? One other point, but for the house of lords you would now have 80 votes in the house of commons saleable to the highest bidding party, making you and your interests slaves of Archbishop Walsh and his friends."

Without saying anything about the maintenance of the house of lords in its present form, he appealed to all who believed in the religious institutions of the country, in freedom, in the security of contract and the sanctity of property to combine to support the second chamber, which he declared was necessary to control the decisions of the elective chamber.

Replying to the vote of thanks extended to him by the meeting, the ex-prime minister took occasion to say: "All of Lord Rosebery's talk about my power in the house of lords is nonsense, and an attempt to make capital against the house of lords by using my name as imagining that any member of that house has any motive whatever in paying more deference to my opinion than might be due to the argument I used, is an audacious, impudent fabrication, unworthy of the man who made it."

Kaiser Declined to Be Present.

BERLIN, Oct. 31.—A monument to Emperor Frederick, father of Emperor William, was unveiled in Wittenberg today, and it creates comment that Emperor William declined to be present. Empress Frederick was also prevented from going to witness the unveiling of her husband's monument.

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhœa Remedy.

TWO NEW BUILDINGS

The School Committee Vote to Ask City Council

FOR NINE-ROOM SCHOOL-HOUSES

At Norfolk Downs and at "The Fall"—Other Business.

The School Committee held an important meeting Tuesday evening and transacted considerable business.

The only absent members were Messrs. Rice and Corthell.

The Finance Committee reported the following unexpended balances:

Salaries	$1,250.00
Fuel	27.57
Janitors	66.25
Transportation	18.00
Miscellaneous	1,500.00
Books and stationery	12.00
Reading, Spelling, school	37.50
Reading, common school	37.50
Coding	10.00
Coding	10.00

The chairman reported that the $2,500 placed at the council for furnishing for the new High school had been passed.

New Two Buildings.

Mr. Bowie of the sub-committee to petition for new school building at "The Fall" reported that owing to the city finance committee of the delegation to meet it was advisable to erect a new building at that district and the committee would recommend the erection of a building on the corner of Willard and Robertson streets or what is known as the Sargent lot.

Mr. Bowie, for the sub-committee on petition for a school building at Norfolk Downs reported that such a building was needed and had a model scheme for location and nearly school buildings and would recommend the erection of a building near the junction of South river, Hancock road and Willard street.

Both of these reports were accepted, and it was voted that the City Council be petitioned to erect a nine-room brick building at "The Fall" and that the largest lot in the corner of Willard and Robertson streets be suggested.

That the City Council also be petitioned to erect a nine-room brick building in the Norfolk Downs and Wollaston Park district and that a location near the junction of South river, Hancock road and Willard streets be suggested as the proper location.

A communication was read from Wood, Harrison & Co., offering to sell any or all of land, to the city for one-half the regular price.

Superintendent's Report.

The Superintendent asked permission for the Teachers' Annual Improvement association to use the High school building for its meeting, which was granted.

Attention was called to the necessity of electing several officers and the following were elected: Joseph W. Hayden, Joseph F. Ferguin, Charles Hall, Richard L. Converse, Louis E. Morrill, Samuel S. Parker, John Robinson and Elliott G. Quincy.

Miss Lawrence of the Coddington school who is at home sick, was granted half pay for the balance of the term.

The regular Thanksgiving recess from Wednesday noon to the next Monday was voted.

The Superintendent reported that the work of Miss Richardson of the High school was too much for one teacher and the sub-committee was instructed to provide assistance for her.

The Superintendent reported that the graduating course of the High school as now arranged was:

First year.—Bookkeeping, commercial arithmetic, English language, English history and civil government.

Second year.—Advanced bookkeeping, stenography, typewriting and English.

An informal discussion followed on industrial grammar, and at 9.30 the meeting adjourned.

ADAMS ALUMNI.

An Enthusiastic Meeting of the Graduates of Adams Academy.

The annual dinner of the Adams Academy Alumni Association was held at the Parker House, Boston, Tuesday evening, October 30, 1894. A large number of graduates were present and much enthusiasm and interest toward the school was shown. Speeches were made by Mr. Thacher, Mr. Tyler, Dr. Everett, Mr. Lawton, Mr. Wendell, Mr. Lane, Mr. Warren, Mr. Frothingham and others. The officers of the preceding year were reelected:—

President,—Thomas Chandler Thacher, A. B.

Vice Presidents,—Walter Irving Badger, A. B., William Royall Tyler, A. B., Frederick Warren, A. B., Perry Lawton, A. M., John Otis Hall, Jr., A. B.

Secretary and Treasurer,—Arthur Bindge Wendell.

Among those present were: T. C. Thatcher, F. Warren, W. R. Tyler, Dr. William Everett, Perry Lawton, C. C. Lane, C. T. Howard, Dr. A. C. Coolidge, C. E. Loud, J. F. Loud, L. A. Frothingham, A. B. Wendell, W. H. Draper, G. B. Gavin, R. H. Johnson, E. St. J. Johnson, J. B. Fuller, J. O. Hall, Jr., A. L. Hale, A. W. Hall, W. T. Hartzell and J. W. Cooke.

STATE OF THE STATE.

Colonial Questions Have Led to the Election of the Cabinet.

PARIS, Oct. 31.—As a result of the Cabinet council held yesterday the ministers have resigned their resignations. Premier Ribot regards the situation as grave, regret at the action of the ministers. It is believed that the crisis will be found to be a difficult one.

Although it is known that there is to be resignation of the Spanish ministry and not at present be positively stated that the party will in reality be that the ministry is practically reconstructed in colonial questions. The government recently arranged with the Bank of Spain for an advance of 50,000,000 pesetas in Spanish silver dollars to replace the Spanish dollars in the Philippine currency.

This project was strenuously opposed by Senor Canovas the colonial minister, but his colleagues persisted in carrying out the arrangement, and Senor Canovas resigned. This, however, was not one of the questions of difference in the cabinet on the government's colonial policy.

AMERICA AND ENGLAND.

Trade Between These Two Lands Almost Sure to Increase.

WASHINGTON, Oct. 31.—The United States consul general at Glasgow in a special report to the department of state, says:

"Large orders are being received by manufacturers since the passage of the new United States tariff bill and many of them have expressed to me the opinion that the coming year will witness an increased trade between Glasgow and the United States both in exports and imports. Every indication points that way. The enactment and operation of the law have given a new impetus to trade between Glasgow and the United States, the mention of which, I believe, is very perceptible increase in the number of invoices and the value of shipments as compared with the preceding months. The value of exports to the United States for the quarter ending June 30, 1894, was $1,000,000, for the quarter ending Sept. 30, 1894, it was $2,000,000."

Charges Against a Preacher.

BOSTON, Oct. 31.—The Herald says: Rev. George E. Dunbar, pastor of the Methodist church in Stoughton, will have to answer charges of inducing money under false pretenses, preferred by the former members of the Stoughton Institute. Rev. Dr. E. O. Beaton, presiding Elder of the district, is now investigating the matter. The complainant is Rev. E. H. Gilman, a pastor now at a private hospital in Salem, meeting many with encouragement and unable to leave the bed. The new brother gave notes for borrowed money, but failed to make them good.

Has Been to Bring Suits.

CHICAGO, Oct. 31.—The latest surprise proceedings began in August by Rev. Peters against Rosen, Talman, Davis, Shuttle and Kimberly to recover the interest, the Pittsburg millionaire have been dismissed on motion of the attorney who says that suit will be brought in Pittsburg for about $50,000 against Rev. Dowie, Postmaster A. E. Rivers, for damages he said, will also be brought against Dr. Talman, the physician who, Rev. Dowie claimed, aided in keeping her husband from her.

Registration Was Large.

BROOKLYN, N. Y., Oct. 31.—The people of the city voted were greatly excited over the disappearance of Winfield S. Gilley, postmaster and town treasurer, and it is alleged that he is short in the accounts not only in the postoffice but also in the town finances. Gilley's non-appearance is the gossip of nearly all the citizens as he has been gone from Bedford since last Friday morning. As far as can be ascertained, no one here is aware of the whereabouts Gilley has been prominent for about two years. The population was of the best.

Overturned by Fire.

CLEVELAND, O., Oct. 31.—Three persons were killed and one fatally injured by the upsetting of a freight train near Peale. Residence were burned on all but one of the nine killed, as well as a full car of freight and the engine, etc. It is supposed they were on their way to this town to catch the county fair.

Suicide a Week.

PHILADELPHIA, Oct. 31.—The British steamer Siberian, from this port for Glasgow, struck the wreck of the oil steamer Allegheny and had her bow badly damaged. The Siberian returned and will probably go into the dry dock.

No Extradition Papers.

BOSTON, Oct. 31.—Governor Greenhalge yesterday refused to grant a warrant for the extradition of E. C. Lewis and Mrs. Corinna Cleveland of Boston, asked for by parties in Brooklyn, in the suit brought by Mr. Lewis' mother.

Lazarus to Lead.

BOSTON, Oct. 31.—Colonel Lazarus, who was stabbed by Salvatore Zazzo last Sunday evening, died at a few minutes after 5 o'clock this morning. Zazzo will now be held for manslaughter.

Live Stock Markets.

BRIGHTON, Mass., Oct. 31.—Arrival of stock on the market at this place and at Watertown:

	Cattle.	Lambs.	Swine.
Western	3,774	9,205	44,250
Maine	150	700	75
New Hampshire	203	1,400	50
Vermont	76	1,200	50
Massachusetts	100	50	50
Rhode Island		4,500	
New York		4	
Totals	3,303	16,356	44 4.0

Drovers are somewhat disturbed as to the new law which is to go into effect regarding the quarantine of milch cows. The most have their stock by Saturday or Sunday or the market day must be changed to Thursday. Either of these plans will necessarily cause an advance in price, as the cost of feed of the stock will be increased, and it is going to be a matter of great risk to drovers to bring at an early day and there is a question whether they will send their stock on earlier or change their market day.

Prices for western beef cattle, live weight: Extra, $3.75@4 per cwt; second quality, $3.50@3.60; third quality, $3@3.25; poorest grades of coarse, rough, cross bulls, stags, Texans, Colorados, etc., $2@2.50.

Prices for northern and eastern beef cattle per lb, dressed weight: Choice, 6@7c; first quality, 5@6c; second quality, 4@5c.

Hides, tallow, etc.—Hides, 1½@2c per lb; branded, 2c; tallow, 2@2½c; calf skins, 7@9c each; lamb skins, 20@30c each; horse hides, $2@2.50 each; horse tails, 25@30c.

Northern and eastern beef cattle—Receipts were moderate; demand was active for good, choice fat cattle, and prices show no change from those quoted last week.

Milch cows and springers—The supply was very large, but the demand was slow.

Veal calves—The supply was fairly large, demand was active and prices were firm, yet they showed no change from those quoted one week ago.

Sheep and Lambs—The supply on the market during the week was larger than for several months past. Demand was fair with prices extremely low.

Swine—No change is noted.

At the meeting of the Massachusetts Historical Society immediately following Dr. Holmes' death, a striking poem in his memory was read by William Everett. This poem appears in the November number of the New England Magazine, occupying two pages. It is a noble poem, by far the finest poetical tribute which has appeared since Dr. Holmes' death. Dr. Everett is a genuine poet, and this is a poem such as Dr. Holmes himself might have written for such an occasion.

Nothing But Quincy Granite Appropriate for Hancock Memorial.

The Legislature of 1894 passed this resolve, Chap. 3:

Resolved,—That there be allowed and paid out of the treasury of the Commonwealth a sum not exceeding $3,000, to be expended under the direction of the Governor and Council, for the purpose of erecting a suitable memorial over the grave of Governor John Hancock, in the Granary burying ground, in Boston.

The resolve was approved Feb. 3, but a hearing was not given until Tuesday by a special committee of the executive council.

Mr. Schweinfurth said that whatever memorial be placed over the grave should look as if it had been there always, but it should possess dignity and refinement. He would gladly welcome competition, provided that a man like Charles F. McKim or City Architect Wheelwright was called upon to assist the committee in the selection of a design. The amount at the disposal of the committee—$3000—would not permit any reimbursement to any one.

Max Bachmann said he would willingly enter into competition, but at the same time suggested that the competition be not open, but confined to, say, 10 architects or sculptors of repute. These should submit their designs, on which he would be willing to have either McKim or Wheelwright pass.

Mr. Walker thought that in the memorial either bronze or stone ought to predominate. He was not averse to an inserted bronze bas relief. He suggested a limited competition, and the reference of designs to the Boston art commission.

Mr. Cummings, too, wanted a limited competition. He favored the idea of the committee securing an advisor in the selection of design.

Mr. Kitson, who also dropped into the hearing, spoke briefly. He said he would submit a design.

All agreed that rendered drawings be in india ink, and that the size of drawings and models be on a 2-inch scale.

Representative Teamoh addressed the committee, and pointed out the intention of the Legislature in passing the resolve. The hearing was then closed.

John Hancock was a native of Quincy, and therefore nothing but her fine monumental granite would seem appropriate for this memorial. Quincy is proud of Hancock and may some day erect a monument near his birthplace, the Adams Academy now standing on its site. Hancock was born in 1737, was graduated at Harvard and Yale, and in 1766 was elected to the Provincial Legislature. In 1777 he delivered an address in Boston in commemoration of the Boston Massacre. He was the first president of the Provincial Congress at Concord, Mass., and second president of the Continental Congress at Philadelphia.

John Hancock was the first signer of the Declaration of Independence. In 1780 he was elected first Governor of Massachusetts, and was reelected until 1785. He also served from 1787 to Oct. 1793, the date of his death.

The Stebbins fountain now being set up in Chelsea square has little drinking bowls hollowed out of the granite set low down near the ground for the accommodation of thirsty dogs or even cats, and nobody thinks there is anything strange or novel in this provision for such humble creatures. Yet fifty years ago how strange it would have seemed to make special arrangements for the health and refreshment of the dogs and cats of the streets! What is ordinary humanity in one generation may have been eccentric benevolence in its predecessor.—*Transcript.*

POLITICAL POTPOURRI.

The McEttrick—McNary Issue Keeps the Campaign Alive.

A Democratic rally was held at Hancock hall, Tuesday evening, and although the weather was rather wet a large crowd was present.

William F. Powers called the meeting to order and introduced as the presiding officer of the evening, John T. Cavanagh.

On the platform were Mayor Hodges, Councilmen Baker and O'Brien, Cornelius Moynihan, William T. Shea, John A. Duggan and Zenas S. Arnold.

The speakers were Salem D. Charles, John W. Corcoran and Herbert M. Federhen, Jr.

Hon. W. S. McNary who was announced to speak did not appear.

A rally in the interest of Michael J. McEttrick for congress was held Tuesday evening at Music hall, Atlantic.

There was a large crowd present and the meeting was presided over by Councilman Edward McKeon.

Addresses were made by Messrs. McEttrick, Moran McNeil, Coakley, Ross and Glynn.

McEttrick and McNary will have a joint debate in Gray's hall South Boston, tonight. Admission by ticket.

—The annual chrysanthemum show in Boston is a sight which many would not miss. This year it will be held Nov. 6, 7, 8 and 9 in Horticultural hall. Doors open from 12 to 9.

ENDING OF AN EPOCH.

This Is What the Death of the Prince of American English Essayists Marks.

With the death of Oliver Wendell Holmes America comes to the end of its first epoch in distinctive native poesy.

With Emerson, Bryant, Lowell, Longfellow, Whittier, in particular—with Poe, Drake, Percival, Halleck and Whitman also if one wishes to be truly catholic—the genial ripened soul that has now been garnered unto rest constitutes the galaxy of singers whose names for all time will crown the first century of the letters of this young republic.

It is not, however, as a poet of the first magnitude that the three generations of American readers who were his contemporaries will chiefly honor Oliver Wendell Holmes. As essayist and philosopher rather than poet or novelist his memory will be the most widely and most tenderly cherished by his survivors and transmitted to the generations that are to be. He had in a degree rarely given to man the faculty of making the reader of his quaint philosophy and kindly cheer his friend and lifelong grateful beneficiary.

He was the prince of American English essayists. He had the sense and insight of William Hazlitt, the grace and sympathy of Leigh Hunt, the strength and quaintness of William Cobbett and at will and upon occasion the polished diction of Macaulay. It is a proof of the virility of Oliver Wendell Holmes' genius that he has left in the field of English prose that he trod a crop of imitators and disciples. Would that his school of writers might have inherited the mantle of their preceptor, might have derived something of the profoundness, the geniality and the cheeriness of Oliver Wendell Holmes.—New York Telegram.

GAMBLING IN ENGLAND.

A London Journal Says That Everybody Is Panting For the Unearned Increment.

Private roulette tables have become common in cultivated society and are openly sold by fashionable furniture dealers. Both sexes assiduously cultivate the "bucket shop," sometimes making money, but in too many instances making fearfully wry faces when they find that they have to settle up their little differences with their outside brokers. The "play" has become emphatically "the thing," although in a sense far different from that intended by the Prince of Denmark.

Substantial business men find it irksome to make a railway journey of an hour and a quarter without producing a pack of cards and getting up a nice, quiet game of whist, and it can scarcely be said that in this year of grace 1894 there is a single section of society outside the strictly religious classes that is not in some form or another addicted to gambling. The incitements thereto, goodness knows, are numerous and exciting enough, from gold mines in the mountains of the moon to tickets in the German lotteries.

Everybody is panting for the unearned increment. Everybody yearns to eat, drink and be merry, to wear fine clothes and to sparkle with jewels, to be bought with money for which no work has been done. There is gambling in the highest and gambling in the lowest of our couches sociales.—London Telegraph.

A STINGING REBUKE.

Americans In London Enjoy the Roasting Given the Antilynching Society.

No utterance of the London Times for a long time has been so much enjoyed by Americans in London as that paper's stinging rebuke to English antilynching busybodies, says a correspondent. It is peculiarly appropriate that the governor of Alabama's reply to the letter of the English Antilynching society should appear in the same newspaper with the report made to the British government by Sir Robert Hamilton of his investigation into the pitiable hardships of the inhabitants of the British island of Dominica, in the West Indies. The forms of oppression inflicted by the British colonial government there are almost incredible.

The people of the island are impoverished at best and barely able to keep soul and body together, but in lieu of the payment of taxes the authorities compel men, women and children to work at roadbuilding. No exceptions are made, and this leads Sir Robert mildly to recommend to the British government that women who are about to become mothers should not be forced to work upon the roads. Three examples of women being delivered within a few hours of doing their contribution to the road tax are given. When the revenues of the island admit, says the royal commissioner, women should be relieved of contributing to this tax either in money or labor.

The Count and His Trout.

The Germans are laughing at an incident concerning Count Kanitz, one of the leaders of the agriculturists whose opposition to the government was so strongly rebuked by the emperor the other day. When the emperor visited Konigsberg, Kanitz, who counted on obtaining an invitation to the imperial banquet, requested to be allowed to furnish the trout. The offer was accepted, and the count sent 420 trout. Then he received a dispatch saying that his name had been struck off the list. The count telegraphed to Konigsberg to stop the fish, but the supply had already been sent, and all the guests at the banquet greatly enjoyed them. The emperor, when afterward informed, laughed heartily over the incident.—Berlin Letter.

She Could Not Resist.

Miss Nora Welton, the assistant in the postoffice at Argenta, Mason county, is charged by postoffice detectives with opening letters addressed to a young man. Miss Welton has made a full confession. She was in love with the young man, and as he was writing to a rival she read the letters, delaying the missives until investigation followed.—Decatur (Ills.) Dispatch.

USES FOR OLD STREET CARS.

A Boston Man Starts a Movement Which Is Unlimited as to Possibilities.

While the huge traction corporation which has gridironed the city with trolley wires was wondering if it would not be the cheapest way to take the old cars out by the shipload and dump them in some place where they would not interfere with navigation a citizen stepped in and bid $36 for them. His first move after getting the cars was to put one in the back yard of a friend and to tell the children that they might use it for a playhouse. The children were in ecstasies and sat up nights to use the car. Other children came and peered through the pickets of the fence, and went home and teased for a street car. The demand was created, and soon the purveyor of broken down street cars did a rushing business.

Mothers found they could put their small children inside, and shutting the doors leave them with a feeling of security. It was the cheapest way, too, in many cases to provide shade. The cars could be secured for $5 apiece, and the first outlay was the last. So cars were dragged by horses into back yards, and the trucks removed from under them, and the brakes taken off. Now that the new industry has been started it is surprising how many uses are being found for these ancient conveyances. At first they were thought of only as playhouses.

One purchaser turns his new acquisition into a henhouse. Another, who is a contractor, pays his men every Saturday night from the door of the old car. One man fixed his up as a carpenter shop for his boy, and one enterprising old woman in Cambridge made an offer for ten cars. Her idea was to wheel them down to the seashore and convert them into cottages and bathhouses, shifting their position with the tide. Her ingenious scheme, however, was thwarted by the refusal of the owners of the beach to sell her land for the purpose. Now that the ball has been set rolling next summer may see the introduction of "house cars for the campers out, picnickers and excursionists."—Boston Transcript.

TO LOOK NICE.

ALL WOMEN DESIRE IT.

Some Points About How to Accomplish the Desired End.

[SPECIAL TO OUR LADY READERS.]

It is the most natural wish in life with women — to feel well and look nice.

It is born with them.

It makes a world of difference to the wee little girl whether or no there is a bit of pretty lace or bright ribbon about her dress or on her hat.

Yes! All women like to look nice. All watch for the least signs of fading.

You have seen beautiful ladies, and been amazed to know that they have lived fifty or sixty years of life.

Have you ever stopped to ask why the few look so lovely while the many around you are so haggard?

Look into it, and you will soon find them blessed with a perfect and healthy organism.

Above all, you will find that no female complaints have seared their lives; no dreadful backache, no irregular periods, no bearing down, or any kind of uterus, ovarian, or womb trouble.

You are not like them now, but you may reach their high level if you will.

You suffer, but there is a remedy.

Lydia E. Pinkham's Vegetable Compound is the grandest remedy ever discovered for women. It restores the womb and all irregularities to their natural healthy condition, and makes possible a lovely old age. It cures every form of female complaint, from leucorrhœa to tumors in the womb.

PATENTS

NOTICE TO INVENTORS.

THERE Was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skilful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

Shipwrecks.

We cannot see the shipwreck of a heart
Beneath the placid waters of disguise.
The soft, sweet voice does not betray the smart.
'Tis buried deep from gaze of scornful eyes.

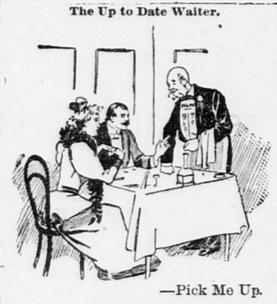

We do not hear the booming gun, distress,
Above the great world's deaf'ning crash and din.
In muffled tones it sobs its bitterness,
And silently it grieves and breaks within.

Grief cannot be appraised by tears and sighs,
For hopeless sorrow is dry eyed in woe.
We must not judge nor deem ourselves o'erwise.
We see the surface, not the wreck below.

We cannot see the shipwreck of a heart.
We hear the merry laugh ring out so gay
And see the smiling face, but graceful art
Conceals the shipwreck and the darkened day.

Rum and Jealousy.

NEW YORK, Oct. 31.—Friederich Mertz shot and killed his wife at their home yesterday afternoon and then put a bullet in his own brain. Mertz died instantly, but the woman survived a few minutes. Mertz, it is supposed, committed the crime in a drunken frenzy, inspired by jealousy.

Union Veterans Meet.

WORCESTER, Mass., Oct. 31.—The eighth annual convention of Union Veteran union, department of Massachusetts, was held here yesterday. A resolution was adopted calling for a pension to all veterans 62 years of age and over. The next convention will be held at Lowell.

Rockefeller and Gales Sued.

DULUTH, Oct. 31.—Alfred Merritt has brought suit against John D. Rockefeller and F. T. Gales, charging them with fraud and misrepresentation in securing a consolidation of the Mesaba Range Iron mines. He asks judgment against the defendants for $1,226,400.

Austrian General In Disgrace.

VIENNA, Oct. 31.—Polish papers announce the arrest of an Austrian general on the charge of selling to Russia plans of Austrian fortifications. The papers say that Russia paid the officer 1,000,000 florins for the plans.

Another Drop In Sugar.

PHILADELPHIA, Oct. 31.—Sugar took another tumble in price yesterday and surprised the jobbers who had concluded that it was already down to the bottom notch. The chances are that it will go still lower.

Visited Jersey Salvationists.

JERSEY CITY, Oct. 31.—General William Booth was the guest of the Salvation Army in Jersey City yesterday. A consecration service was led by General Booth and his son.

Cholera In Belgium.

BRUSSELS, Oct. 31.—Fatal cases of cholera are reported in Liege and two villages lying a short distance from that city.

In 1666 what is known as the great fire of London raged in the city from Sept. 2 to 6, consuming 13,200 houses, with St. Paul's church, eighty-six parish churches, six chapels, the Guild hall, the Royal exchange, the Custom house, fifty-two companies' halls, many hospitals, libraries and other public edifices. The total destruction of property was estimated at $53,652,500. Six lives were lost and 436 acres burnt over.

—War is expensive. It is costing Japan about a million dollars a day to prosecute the war with China, and how much it will cost the latter before the war is over is beyond computation.

A NEEDLESS SCARE.

American Cattle Can Not Carry Texas Fever Over the Ocean.

GREAT SURPRISE AT WASHINGTON

Over the Plan of Action Adopted by Germany.

WASHINGTON, Oct. 31.—The announcement that the embargo placed on American cattle by the senate of Hamburg had been extended to the length of an exclusion of American cattle and dressed meat from every port of Germany was received with surprise by department officials.

That the Texas fever was merely a ground which Germany could adopt for enforcing retaliatory measures against the United States because of the supposed discrimination against German interests in the sugar schedule of the tariff bill was the prevalent impression. The German ambassador, however, assured the secretary of state that the measure of exclusion was inspired solely by sanitary reasons and had no political move behind it.

Secretary Morton had a consultation with Secretary Gresham about the matter yesterday, before the stringent measures just adopted were known. He assured Secretary Gresham that the exportation of Texas fever into Germany by American cattle was altogether improbable, if not impossible, according to the opinions of the pathological experts of the department, and said that he was confident that the supposed discovery of Texas fever

Was a Mistake.

When the dispatch from Berlin was shown to the secretary of agriculture, he expressed surprised. The exclusion of dressed meats he was at a loss to understand, because they are all inspected by competent government officials in this country before they are shipped. Texas fever, moreover, can be carried only by live cattle. The live cattle exported from this country are also inspected at the ports of shipment to see that they are not diseased.

The secretary thinks that the damage to be inflicted on American interests by this action is generally overestimated, as our exports of meats to Germany are comparatively light, aggregating but a small fraction of the exports to Great Britain.

From observations on his recent trip, Secretary Morton is convinced that the exportation of live cattle cannot be made to pay as well as shipping dressed meats.

Knights Disagree.

TORONTO, Oct. 31.—Local Knights of Labor have been disfranchised from representation at the general assembly which opens its session in New Orleans on Nov. 11. The reason alleged for this action by the Ottawa district assembly is that they are one member short of the required number which entitles them to representation. But the local knights believe that the true reason is that the Sovereign party think the Toronto men are favorable to Powderly.

Southern Lynchings Denounced.

PROVIDENCE, Oct. 31.—The colored people of Rhode Island united in an anti-lynching demonstration last night. Hundreds of persons, including members of all the colored societies of the state, were in the line, which was reviewed by prominent citizens. At the conclusion of the parade a mass meeting was held, and speeches were made in consideration of the many lynchings in the south.

Judge Charged With Embezzlement.

JERSEY CITY, Oct. 31.—James K. Murphy, a justice of the peace, is charged with embezzlement. Alexander Tomalski and A. C. Janecke say they bought a house and gave the justice $200 to pay on a mortgage. They say he did not pay the mortgage or account for the money. The justice was held to await examination.

Protecting the Mail.

WASHINGTON, Oct. 31.—The postmaster general has issued a bulletin of rewards for the detection, arrest and conviction of highway mail robbers and postoffice burglars during the fiscal year ending June 30, 1895. All rewards must be claimed within six months from the date of conviction of offender.

Papers Said to Be "Off."

NEWARK, N. J., Oct 31.—James L. Hayes has been appointed receiver for the Industrial Land and Improvement company. The papers in the case show the assets of the company to be $110,000 and liabilities $150,000. It is said the assets will not be anything like the figures given.

Gathering Them In.

BOSTON, Oct. 31.—The police yesterday raided several policy shops. Kenney & Palmer, agents of the Honduras Lottery company, were also arrested, and a large amount of lottery tickets confiscated. After this Chinatown was raided and 13 fan-tan players were arrested.

Figures Are Low.

WASHINGTON, Oct. 31.—The annual report of Dr. Harris, commissioner of education, says that 23 per cent of the population attend school during some period of the year. The average period of attendance in the year, however, is only 89 days for each pupil.

Waived Examination.

FREDERICKSBURG, Va., Oct. 31.—Charles J. Searcy, the train robber, was photographed yesterday. He was then taken to Falmouth for a preliminary examination. Searcy waived an examination and the case was sent to the grand jury.

Bishop Interferes In Politics.

SIOUX FALLS, Oct. 31.—Bishop Marty has sent out letters to the priests of the state urging them to use their influence for the re-election of Republican legislative candidates, to the end that Pettigrew may be sent back to the senate.

Left Unseaworthy Vessel.

NEW YORK, Oct. 31.—Steamer Trinidad, from Bermuda, had on board the mate and seven members of the crew of the German bark Marie Kuyper, which put into Bermuda on Oct. 2, leaking.

Decision Reserved.

ALBANY, Oct. 31.—The arguments in the McKane case were concluded yesterday before the court of appeals A decision will not be handed down for several weeks.

An Attempt at Suicide.

MARLBORO, Mass., Oct. 31.—Jasper L. Sloan attempted suicide by shooting yesterday on the grave of a little daughter, recently deceased. He will recover.

MERCIER IS DEAD.

Canada's Premier Had Long Suffered From a Complication of Diseases.

MONTREAL, Oct. 31.—Honore Mercier, ex-premier of Quebec, died yesterday. The end had been expected at any time during the preceding 24 hours, and hope of recovery had been given up weeks ago. In fact from the moment that he first fell seriously sick on Aug. 14 last it had been felt that he was on his deathbed. Mr. Mercier had been suffering from a complication of diseases for years past.

The last rites of the church were administered by Rev. Father Garceau, S. J. Mr. Mercier was unconscious most of the time. Morphine was administered at 10:30 o'clock Monday night and the patient became much agitated. It was then feared that a reaction would take place and the end might come any minute. Throughout the night the vital spark flickered, growing lower and lower, until the end came.

Notwithstanding that Mr. Mercier's death was expected at any time, the news has created great interest here and the bulletin boards containing the information were soon surrounded by crowds [illegible] to learn the particulars of the once great French-Canadian leader's last hour.

Secured Her Child.

BRISTOL, N. H., Oct. 31.—After six years of searching all over New England by detectives, lawyers and relatives, and the expenditure of thousands of dollars, Mrs. Lucy M. Green of Worcester, Mass., who alleges that through the agents of the Children's Aid society of Massachusetts she was robbed of her two children, Paul Revere and Cora, in 1888, was taken to her son's side late Monday afternoon. Yesterday, by outwitting those in whose care he has been placed, she took Paul, and last night crossed the boundary line of Massachusetts with him. Whither she went is unknown.

Lexow Developments.

NEW YORK, Oct. 31.—The examination of Commissioner Sheehan occupied nearly the entire session of the Lexow committee yesterday. The name of Superintendent Byrnes was most often on the lips of the witness. The subject of a new police signal system was introduced, and Mr. Goff used a deadly parallel, whereby it was made to appear that the language of the advertising circular of the Municipal Signal company of Boston and that of the report made by the commissioner on the signal systems was identical.

The Reconstructed Cabinet.

BERLIN, Oct. 31.—The emperor and empress yesterday gave a farewell audience to ex-Chancellor von Caprivi. The appointment of Baron Marschal von Bieberstein as a Prussian minister is a valuable proof that the German policy will not be changed. It is believed that Dr. von Schelling, Prussian minister of justice, and Herr von Heyden-Cadow, Prussian minister of agriculture, will be replaced in order to strengthen the ministry.

Still Missing.

WOBURN, Mass., Oct. 31.—Annie M. Thompson remains unheard from. Long suspense and anxiety are breaking her mother's heart. This case in its present bearings is one of the most mysterious that has for years come under the notice of the local police. The girl dropped out of sight Oct. 2, left a pleasant home and indulgent parents, affectionate sisters and a host of friends, for what no one in the city seems to be able to tell.

A Five-Cornered Debate.

LAWRENCE, Mass., Oct. 31.—A joint political debate was held at the city hall last night. Rufus M. Dodge, Jr., represented the Republicans; W. P. Cherrington, the Democrats; James Campion, the Populists; Mrs. Martha Avery, the Socialists, and Professor Evans, the Prohibitionists.

Resisting a Cutdown.

NEW BEDFORD, Mass., Oct. 31.—Winders at the Columbia mill, 29 in number, on account of a cutdown from 25 to 40 per cent, left the mill yesterday on strike. Doffers in the ring spinning room of City mill No. 2 also went out, refusing to work under a cutdown of 5 per cent.

Judaism Recognized.

BUDA-PESTH, Oct. 31.—Committee of the house of magnates discussed the bills for freedom of worship and recognition of Judaism, which were sent back by the deputies. The bill for the recognition of Judaism was adopted without change.

Cutlery Factory Gone.

ATTLEBORO, Mass., Oct. 31.—The knife manufactury of Mathew George at Mansfield was burned at midnight. Loss $4,000; partly insured. George manufactured shoe cutlery and awls.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
